As indicated, it is our opinion that after careful consideration of the pleadings and all the surrounding circumstances, that the many complex and controversial issues present require that a hearing be held on the application herein and we will deny the request of the joint applicants that the transfer be approved without such hearing. Furthermore, as we have also indicated, it is our determination that a "Use It Or Lose It" hearing will be held with respect to those points and segments, some of which are proposed to be transferred from Frontier to North Central, which appear not to have met the minimum standards set forth in the announced "Use It Or Lose It" policy after having enjoyed a full trial period. Accordingly, we will deny Northwest's request that a "Use It Or Lose It" hearing be held before a hearing on the proposed transfer agreement. Consolidation of both matters into one hearing will not unduly delay the proceeding or expand the issues. On the other hand, to treat these intimately related issues separately would most probably result in an unnecessary expenditure of effort and money for all concerned.

Accordingly, we will institute an investigation, pursuant to sections 1002(b), 401(g), 401(h), and 412 of the Federal Aviation Act of 1958, as amended, (the Act) to determine whether the transfer of segments 9, 15, 16 and that part of segment 10 north of Rapid City of Frontier's route 73 to North Central, or any portions of those segments or any of the points served on any of the segments described in the agreement of July 21, 1961, is in the public interest and should be approved.

In addition to the issues outlined above, since Minot, North Dakota, which has originated over 5 passengers per day may lose north-south air service through the deletion of segment 9, we will also consider in this proceeding the possibility of certificating Minot as the terminal on segment 10. We note from the information in the attached appendices that Minot on segment 9 has generated nearly as much traffic as has Bismarck-Mandan, the terminal for segments 9 and 10.

In view of the foregoing, we will consolidate for hearing, the investigation of the agreement between Frontier and North Central for the transfer of certain segments and points with the investigation to determine whether those and other points should be deleted from Frontier's certificate.[1] Any deletions which may result may, in turn, necessitate consideration of minor realignment in Frontier's route structure, irrespective of the proposed transfer, or a change in the limitations on its certificate authorizations.

We will not consider new or previously filed route applications of any carrier nor possible certificate modifications, except Western's application to delete Lewistown, Docket 12295, which is closely connected with the question of continuing Frontier service to that city, and except as otherwise contemplated above. We intend that the investigation be conducted so that it may proceed promptly and be disposed of in the shortest possible time upon an adequate record. To this end, we direct that all procedural steps henceforth be accorded expedited treatment.

Accordingly, it is ordered:

1. That an investigation be and it hereby is instituted pursuant to section 401(g) of the Act, and assigned Docket 13394, to determine (a) whether the public convenience and necessity require continuation, and if so, for what period, or suspension or elimination of the authority of Frontier to serve: Glasgow, Glendive, Great Falls, Havre, Lewistown, Miles City, Sidney, and Wolf Point, Montana, Williston, North Dakota, Idaho Falls, Idaho, and Rawlins, Wyo., and the segments presently designated as 9, 15 and 16, and that part of segment 7 between Riverton-Lander and Idaho Falls in Frontier's certificate; (b) in the event the termination of any point results in nonstop service between points which some other carrier is already authorized to serve on a nonstop basis, whether the public convenience and necessity require the suspension or elimination of the entire segment or portion thereof; or change in the limitations contained in Frontier's certificate; and (c) whether the public convenience and necessity require the suspension of service between Riverton-Lander and Jackson, Wyoming during the winter season;

2. That the joint application of Frontier and North Central in Docket 12995, insofar as it requests approval of the transfer of segments 9, 15 and 16 and that part of segment 10 north of Rapid City of Frontier's route 73, to North Central, without hearing, be and it hereby is denied;

3. That an investigation be and it hereby is instituted pursuant to sections 401(g), 401(h), 412, and 1002(b) of the Act, and assigned Docket 13395, to determine whether the transfer of segments 9, 15, and 16 and that part of segment 10 north of Rapid City, of Frontier's route 73 to North Central, or any portions of those segments or any of the points served on any of the segments described in the agreement of July 21, 1961, is in the public interest and should be approved;

4. That the issue of the certification of Minot, North Dakota, as the terminal of segment 10 be and it hereby is included in this proceeding;

5. That the investigation instituted in Docket 13395, the application in Docket 12849 for approval of the route transfer agreement between North Central and Frontier Airlines, dated July 21, 1961, and Docket 13394, the "use it or lose it" investigation, with respect to those of Frontier segments and points referred to herein be, and they hereby are, consolidated for hearing and decision;

6. That the motion of Western for the consolidation of its application in Docket 12995 for hearing in this proceeding is and it hereby is granted;

7. The motion of Frontier and North Central for leave to file a reply to Northwest's answer be, and it hereby is denied;

8. That a copy of this order shall be served on North Central Airlines, Inc., Frontier Airlines, Inc., Western Air Lines, Inc., the cities of Billings, Glasgow, Glendive, Great Falls, Havre, Lewistown, Miles City, Sidney, and Wolf Point, Montana; Bismarck, Mandan, Minot, and Williston, North Dakota, Idaho Falls, Idaho, and Jackson, Lander, Riverton and Rawlins, Wyoming, who are hereby made parties to this proceeding;

9. That a copy of this order shall be served on Northwest Airlines, Inc., and West Coast Airlines, Inc., and Lemmon, South Dakota, and Dickinson, North Dakota;

10. That, except to the extent granted herein, all motions, petitions, objections and requests filed in this proceeding be and each is hereby denied;

11. That this order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 62-1664; Filed, Feb. 16, 1962; 8:51 a.m.]

[1] This limitation applies only to the issue of seasonal service at Jackson.

[Docket No. 11879; Order E-18020]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating to Specific Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of February 1962.

In the matter of an agreement adopted by Traffic Conference 1 of the International Air Transport Association relating to specific commodity rates, Docket 11879, Agreement C.A.B. 14827, R-73.

There has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, an agreement between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590-Commodity Rates Board.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in IATA Memorandum TC1/Rates 1328, names an additional specific commodity rate under item 6100, as follows: 65 cents per kilogram, minimum weight 500 kilograms, from Bogota to New York City.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the subject agreement to be adverse to the public interest or in violation of the Act, provided that approval thereof is conditioned as hereinafter ordered:

Accordingly, it is ordered:

1. That Agreement C.A.B. 14827, R-73, which incorporates IATA Memorandum TC1/Rates 1328, is approved, provided that such approval shall not constitute approval of the specific commodity description contained therein for purposes of tariff publication.

2. That any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service, submit statements in writing, containing reasons deemed appropriate together with supporting data, in support of or in opposition to the Board's action herein. An original and nineteen copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 62-1665; Filed, Feb. 16, 1962; 8:51 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14348; FCC 62M-221]

ANTENNAVISION SERVICE CO., INC.

Memorandum Opinion and Order Continuing Hearing

In re applications of Antennavision Service Company, Inc., Docket No. 14348, File Nos. 4083, 4084, 4085, 4086, C1-P-61; for construction permits to establish stations in the Point-to-Point Microwave Radio Service located respectively at Toro Peak, El Centro, 14 miles ESE of Holtville, and 8 miles SE of Ogilby, California.

Preliminary statement. 1. The Hearing Examiner has before him a Petition for Leave to Amend and two Supplements thereto, filed by Antennavision Service Company, Inc. (Antennavision), on January 29, January 31 and February 7, 1962, respectively. In essence Antennavision seeks leave to amend its original applications herein to provide for an additional point of communication to serve a customer with which the applicant allegedly has no identity of interest, ownership or otherwise, either directly or indirectly.

Background. 2. As originally filed, the applications which are subject to hearing herein contemplated that communication service would be provided to Valley Telecasting Co., Inc., a community antenna system which is owned 100 percent by Bruce Merrill, the principal stockholder of Antennavision. Upon consideration of this application, the Commission issued its Order of designation on October 30, 1961, wherein it stated that it was unable to find that a grant of the application would serve the public interest, convenience and necessity and, therefore, required a hearing on specified issues. In the same Order, the Commission found that the determination of the designated issues would involve facts common to certain related applications of Antennavision designated for hearing in Docket Nos. 14336-14340. The Commission therefore ordered that the hearing in the instant proceeding be consolidated with the hearing in the aforementioned dockets.

3. Two prehearing conferences were held on the consolidated dockets on November 27, 1961, and January 29, 1962. In the course of these conferences, counsel for Antennavision advised that negotiations had been taking place for some time with respect to the provision of service to a non-affiliated customer insofar as the facilities at issue in the instant docket were concerned, but that no such negotiations apparently had taken place with respect to the proceedings involved in Docket Nos. 14336-14340. Accordingly, a hearing on the latter dockets was scheduled to commence on April 2, 1962 (see Order Following Further Prehearing Conference, FCC 62M-146, released February 1, 1962). On the other hand, it was clear that, since Antennavision was seeking permission to serve persons not associated with it, the identity of issues between the instant proceeding and Docket Nos. 14336-14340 would no longer obtain. The Hearing Examiner therefore, by Order released February 1, 1962 (FCC 62M-148), granted Antennavision's Petition for Severance, and severed the proceedings herein from those in Docket Nos. 14336-14340.

The instant pleadings. 4. In the instant petition, Antennavision alleges that although when it filed its application on June 7, 1961, it proposed to provide service to an affiliated subscriber it had, even prior to the time of such filing, been negotiating with a proposed customer which would not be directly or indirectly affiliated with it. Antennavision then states that negotiations were consummated in December, 1961; that it now has a firm request for service from this new independent customer; and that on January 29, 1962, it filed its original Petition for Leave to Amend, with an attached amendment, in order to secure the authorization necessary to enable it to serve such independent customer. Antennavision argues that the grating of the Petition for Leave to Amend and the acceptance of the tendered amendment pursuant to the Commission's rules would allow Antennavision to propose service to an independent customer; that such service would pursuant to the definition set forth in the Commission's Order of designation constitute service to a "public subscriber"; and that this in turn would provide grounds for the grant by the Commission of a petition for reconsideration and grant without hearing, thereby obviating the need for further hearing in the instant proceeding. Finally, Antennavision states that the Common Carrier Bureau does not interpose any objection to a grant of the Petition.

5. On the basis of all of the foregoing, it is argued that Antennavision has at all times acted in a timely fashion and in good faith pursuant to then existing Commission policy and has shown good cause for a grant of the petition here under consideration as required by applicable sections of the Commission's rules (47 CFR 1.443 and 21.23).

Discussion. 6. The basic question to be determined by the Examiner at this stage of the proceedings is whether Antennavision has shown good cause for a grant of leave to file the amendment under consideration approximately three months after the matter was designated for hearing. It is to be noted first that this is not a comparative proceeding and that the only other party hereto, the Commission's Common Carrier Bureau, interposes no objection to a grant of the petition. Furthermore, grant of the petition would provide the basis for the filing of a petition for reconsideration and grant without hearing which could obviate the need for the presently desig-

nated hearing. Finally, it is to be noted that the appplicant apparently has been attempting to consummate the agreement which is the subject of the offered amendment a considerable time before the Order of designation was issued, and that negotiations apparently had been in progress even before the application was originally filed in June, 1961. Under all of these circumstances, it would appear to the Examiner that there is ample precedent for a grant of the petition.'

7. The proposed amendment does, however, present several other problems which should be disposed of herein. First of all, at the prehearing conference held on January 29, 1962, the Examiner's attention was called to the fact that, when an amendment of the type herein involved is tendered for filing, the Commission's Common Carrier Bureau normally assigns a file number to it. The Commission's rules specifically provide, however (47 CFR 21.20(c)), that the assignment of a file number to such applications is for the administrative convenience of the Commission and does not indicate the acceptance of the applications for filing and processing. Secondly, it appears that under the requirements of statute (47 U.S.C. 309(b)(A)) and the Commission's rules (47 CFR 21.27 and 21.33), certain types of amendments (and the Bureau feels the one here under consideration is such), require that a specified period elapse after public notice is given of their filing before definitive action thereon may be taken. Accordingly, the action of the Hearing Examiner herein in granting the Petition for Leave to Amend is to be construed only as authorization for the tendering of the application for filing without in any way passing upon the technical acceptability thereof. Furthermore, it is in no way intended to, and in fact cannot, toll the applicable public notice periods provided for by the statute and the rules. Finally, it is clear that the petition for reconsideration referred to by Antennavision cannot be filed until after full compliance with the aforementioned statutory and regulatory provisions has been achieved and the grant of the petition herein is so conditioned.

8. It is to be noted that the purpose of these amendments is to afford a vehicle for a request for Commission reconsideration and grant without hearing. In view of the possibility that this matter may be resolved without such hearing, or alternatively that the Commission might decide to alter the issues upon which the matter is now designated for hearing, it would appear that no purpose would be served by requiring the holding of a hearing until such time that the Commission has had opportunity to pass upon a petition for reconsideration which Antennavision undertakes to file upon the expiration of the time periods hereinabove described. Accordingly, no date will now be set for the hearing herein, pending Commission action on this matter.

[1] KTAG Associates, 18 RR 241; Continental Broadcasting Corporation, 18 RR 877; and Suburban Broadcasters, 19 RR 1429.

Accordingly, it is ordered, This 13th day of February 1962, that the Petition for Leave to Amend is granted subject to the requirements of 47 CFR 21.20(c) with respect to defective applications and the provisions of 47 CFR 21.27 and 21.33 with respect to public notice; and

It is further ordered, That the hearing is continued until further order of the Examiner pending action by the Commission on a petition for reconsideration and grant without hearing: *Provided, however*, That any party to the proceeding may for good cause shown file a motion requesting that the hearing be held on a date certain.

Released: February 14, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

WILLIAM B. NEAL AND JAMES R. WILLIAMS

Order Continuing Hearing

In re applications of William B. Neal, Joplin, Missouri, Docket No. 14453, File No. BP-13695; James R. Williams, Lamar, Missouri, Docket No. 14454, File No. BP-14087; for construction permits.

A prehearing conference in the above-entitled matter having been held on February 12, 1962, and it appearing that, in light of the pendency of a petition to dismiss application filed by James R. Williams which may obviate the necessity for formal hearing sessions, certain rulings were made by Hearing Examiner which properly should be formalized by order;

It is ordered, This 13th day of February 1962, that the hearing heretofore scheduled to commence on March 12, 1962, is continued pending further order of the Hearing Examiner.

Released: February 14, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

FEDERAL MARITIME COMMISSION

ZIM ISRAEL NAVIGATION CO., LTD., ET AL.

Notice of Agreements Filed for Approval

Notice is hereby given that the following described agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreement 8448-1, between Zim Israel Navigation Co., Ltd., as the "ocean service", trading between U.S. Atlantic ports and Monrovia, and Farrell Lines Inc., as the "feeder service", operating between Monrovia and Harbel, Grand Bassa, Sinoe and Cape Palmas, Liberia, modifies the original approved agreement to provide for the specific dollar apportionment of revenues derived from the carriage of bulk latex, packaged rubber and bagged rice, when transhipped between the "ocean service" and the "feeder service".

Agreement 8756, between States Steamship Company and Lykes Bros. Steamship Company, Inc., covers a through billing arrangement on general cargo, lumber and lumber products from Sarawak to U.S. Gulf ports, with transhipment at Hong Kong, B.C.C., the Philippines and Japan.

Agreement 8768, between Farrell Lines Incorporated and Lloyd Triestino S.P.A.N. of Trieste, covers a through billing arrangement in the trade from U.S. Atlantic ports to Mogadiscio, with transhipment at Mombasa.

Agreement 8769, between Flota Mercante Grancolombiana, S.A. and Alas Steamship Company, Inc., covers a through billing arrangement in the trade from Ecuador, Colombia, Honduras, Costa Rica, Guatemala, Mexico and Peru to the Virgin Islands, with transhipment at New York or Baltimore.

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of these agreements and their position as to approval,

disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 13, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-1647; Filed, Feb. 16, 1962; 8:47 a.m.]

[Docket No. 966]

OLIVER J. OLSON & CO. AND C. R. NICKERSON

Reduction in Rates; Pacific Coast-Hawaii; Notice of Supplemental Order

On February 1, 1962, the Federal Maritime Commission entered the following Second Supplemental Order to the original order in this proceeding dated December 27, 1961.

It appearing, that by order dated December 27, 1961, the Commission entered into an investigation concerning, among other things, the lawfulness of reduced rates on lumber contained in tariff schedule of Oliver J. Olson & Co., C. R. Nickerson, Agent, designated therein, and suspended the operation of said rates to and including April 27, 1962; and

It further appearing, that the Special Permission Committee—Domestic having found good cause therefor has on January 24, 1962, granted the Oliver J. Olson & Co., C. R. Nickerson, Agent, special permission to cancel such suspended matter on not less than one day's notice under Special Permission No. 3972 and pursuant thereto, such matter has been properly cancelled; and

It further appearing, that by First Supplemental Order dated January 31, 1962, the Commission ordered the investigation instituted under Docket No. 966, insofar as it pertained to the rates on lumber, be discontinued; and

It further appearing, that Oliver J. Olson & Co., C. R. Nickerson, Agent, has filed revisions to its Freight Tariff No. FMC-F No. 22 naming new reduced rates on lumber to become effective on February 5, 1962, under Special Permission No. 3973; and

It further appearing, that protests have been received petitioning the Commission to suspend and investigate said reduced rates; and

It further appearing, that the Commission, after considering said protests and also data submitted by Oliver J. Olson & Co., C. R. Nickerson, Agent, is of the opinion that the new rates on lumber named in said schedule should not be suspended but made the subject of a public investigation and hearing to determine whether they are just, reasonable, and otherwise lawful under the Shipping Act, 1916, as amended, or the Intercoastal Shipping Act, 1933, as amended;

Now, therefore, it is ordered, That this proceeding be, and it hereby is, expanded to include, in addition to the matters now under investigation, an investigation into and concerning the lawfulness of the new reduced commodity rates on lumber contained in the said schedule with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That all subsequent revisions of the said rates, filed by the respondent in this proceding, shall be, and they are hereby placed under investigation in this proceeding; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Domestic Regulation of the Federal Maritime Commission; and

It is further ordered, That (I) the investigation herein ordered be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners, at a date and place to be determined and announced by the Chief Examiner, to receive evidence in this proceeding, which will provide an adequate record for proper disposition of the issues and that an initial decision be issued; (II) a copy of this order shall forthwith be served upon all respondents and protestants herein; (III) the said respondents and protestants be duly notified of the time and place of the hearing ordered; and (IV) this order and notice of the said hearing be published in the FEDERAL REGISTER.

Dated: February 13, 1962.

By the Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-1648; Filed, Feb. 16, 1962; 8:47 a.m.]

[Docket No. 966]

OLIVER J. OLSON & CO. AND C. R. NICKERSON

Reduction in Rates; Pacific Coast-Hawaii; Notice of Supplemental Order

On January 31, 1962, the Federal Maritime Commission entered the following First Supplemental Order to the original order in this proceeding dated December 27, 1961.

It appearing, that by order dated December 27, 1961, the Commission entered into an investigation concerning, among other things, the lawfulness of reduced rates on lumber contained in tariff schedule designated therein, and suspended the operation of said rates to and including April 27, 1962; and

It further appearing, that on January 24, 1962, there was granted the Oliver J. Olson & Co., C. R. Nickerson, Agent special permission authority to cancel such suspended matter on not less than one day's notice under Special Permission No. 3972 and pursuant thereto, such matter has been properly cancelled;

Now, therefore, it is ordered, That the investigation instituted under Docket No. 966, insofar as it pertains to the rates on lumber be, and it is hereby discontinued; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Domestic Regulation, Federal Maritime Commission; and

It is further ordered, That a copy of this order shall forthwith be served upon all respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Dated: February 13, 1962.

By the Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. CP62-186, CI61-601]

NORTHERN NATURAL GAS CO. AND SKELLY OIL CO.

Notice of Applications and Date of Hearing

FEBRUARY 12, 1962.

Take notice that on January 6, 1961, as supplemented on October 26, 1961, Northern Natural Gas Company (Northern), 2223 Dodge Street, Omaha 1, Nebraska, filed in Docket No. CP61-186 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a 7,000 horsepower compressor station and a 10-inch pipeline tie-over to connect its existing 10-inch field line with its existing 16-inch transmission line, all in Lea County, New Mexico, and all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

Take further notice that on October 17, 1960, as supplemented on September 15, and October 18, 1961, Skelly Oil Company (Skelly), P.O. Box 1650, Tulsa, Oklahoma, filed in Docket No. CI61-601 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of residue gas to Northern from Skelly's Eunice No. 1 and Eunice No. 2 Plants in Lea County, New Mexico, all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

The applications in this proceeding set forth an agreement between Skelly and Northern for Skelly to sell and Northern to buy 40 percent of the residue gas from Skelly's afore-mentioned natural gasoline extraction plants. Northern would not be obligated to purchase in excess of 40,000 Mcf of gas per day. In the event that one of the plants is closed down, Northern would have the right to 40 percent of the residue gas from the remaining plant.

The application in Docket No. CP61-186 states that the additional facilities are necessary for Northern to receive the additional gas into its transmission system. Northern proposes to use the additional gas to supplement its total gas supplies for general distribution in its market area and does not propose to en-

large its system salable capacity nor make any additional sales. The proposed facilities are estimated to cost $2,206,880, and would be financed from funds on hand and cash generated through operations. Northern estimates that 104,881 MMcf will be available to it under the contract.

The application in Docket No. CI61-601 states that the subject gas would be supplied from 1,051 wells located in Lea County, New Mexico, which Skelly works as operator and as owner of oil and gas leases. The initial price for the proposed sale is 13.75 cents per Mcf with periodic escalations.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 15, 1962, at 9:30 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 5, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1632; Filed, Feb. 16, 1962; 8:46 a.m.]

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

AMENDMENTS TO THE STATEMENT OF ORGANIZATION

Effective upon publication in the FEDERAL REGISTER, the following amendments to the Statement of Organization of the Immigration and Naturalization Service (19 F.R. 8071, December 8, 1954), as amended, are prescribed:

1. Districts 1, 7, and 22 of paragraph (b) of section 1.51 are amended so that when taken with the introductory material they will read as follows:

SEC. 1.51 *Field Service.* The territory within which officials of the Immigration and Naturalization Service are located is divided into regions, districts, suboffices, and Border Patrol Sectors as follows:

* * * * *

(b) *District offices.* The following districts, which are designated by numbers, have fixed headquarters and are divided as follows:

1. *St. Albans, Vermont.* The district office in St. Albans, Vermont, has jurisdiction over the State of Vermont; also, over the United States immigration office located in the Province of Quebec, Canada.

* * * * *

7. *Buffalo, New York.* The district office in Buffalo, New York, has jurisdiction over the State of New York except that part within the jurisdiction of District No. 3; also, over the United States immigration offices located in the Province of Ontario, Canada.

* * * * *

22. *Portland, Maine.* The district office in Portland, Maine, has jurisdiction over the State of Maine.

2. Subparagraph (4) of paragraph (c) *Suboffices* of section 1.51 *Field Service* is amended to read as follows:

(4) *Immigration offices in foreign countries.*

Athens, Greece.
Guadalajara, Mexico.
Hamilton, Bermuda.
Havana, Cuba.
Hong Kong, B.C.C.
Monterrey, Mexico.
Montreal, Quebec, Canada.
Naples, Italy.
Nassau, Bahamas.
Ottawa, Ontario, Canada.
Palermo, Italy.
Rome, Italy.
Tijuana, Mexico.
Tokyo, Japan.
Toronto, Ontario, Canada.
Vancouver, British Columbia, Canada.
Victoria, British Columbia, Canada.
Vienna, Austria.
Winnipeg, Manitoba, Canada.

Dated: February 13, 1962.

R. F. FARRELL,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 62-1660; Filed, Feb. 16, 1962; 8:49 a.m.]

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 14, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37559: *T.O.F.C.—Class and commodity rates between southern and southwestern territory.* Filed by Southwestern Freight Bureau, Agent (No. B-8144), for interested rail carriers. Rates on various commodities moving on class or commodity rates, loaded in trailers or demountable trailer bodies, and transported on railroad flat or open-top equipment, between points in southern territory, on the one hand, and points in southwestern territory, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Southwestern Freight Bureau tariff I.C.C. 4464, and supplement 1 thereto.

By the Commissioner.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F.R. Doc. 62-1652; Filed, Feb. 16, 1962; 8:48 a.m.]

[Notice 597]

MOTOR CARRIER TRANSFER PROCEEDINGS

FEBRUARY 14, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64672. By order of February 9, 1962, the Transfer Board approved the transfer to Ruzicka Coal & Hauling Co., St. Louis, Mo., of the operating rights in Certificate No. MC 39045, issued May 22, 1942, to John Ruzicka, doing business as Ruzicka Coal & Coke Co., St. Louis, Mo., authorizing the transportation of coal, over irregular routes, from points in Madison and St. Clair Counties, Ill., to St. Louis, Mo. Ernest A. Brooks II, 411 North Seventh Street, St. Louis 1, Mo., applicants' attorney.

No. MC-FC 64696. By order of February 9, 1962, the Transfer Board approved the transfer to William A. Messmer, doing business as Messmer's Express, Union City, N.J., of Certificate No. MC 7081 issued September 21, 1943, to Ida Ann Messmer and William A. Messmer, a partnership, doing business as Messmer's Express, Union City, N.J., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, between points in Hudson County, N.J., on the one hand, and, on the other, New York, N.Y.; textile products, and raw materials and supplies used in the manufacture thereof, over irregular routes, between points in Passaic and Bergen Counties, N.J., on the one hand, and, on the other, New York, N.Y. Lewis W. Vanderbach, 6823 Bergenline Avenue, Guttenberg, N.J., attorney for applicants.

No. MC-FC 64736. By order of February 9, 1962, the Transfer Board approved the transfer to Jetway Inc., Lansdale, Pa., of Certificate No. MC 78763, issued August 18, 1961, to George P. Cooper (Leona E. Cooper, Executrix) and Howard M. Mesharer, a partnership, doing business as State Transfer Co., Wilkes-Barre, Pa., authorizing the transportation of: household goods, machinery, building construction materials requiring special equipment or handling, and new and used furniture, from, to, or between specified points in Pennsylvania, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, the District of Columbia, Virginia, West Virginia, North Carolina, Florida, Ohio, Indiana, Illinois, and Michigan. John W. Frame, 603 North Front Street, Harrisburg, Pa., representative for applicants.

No. MC-FC 64757. By order of February 9, 1962, the Transfer Board approved the transfer to Distributors Service Co., Inc., Parkersburg, W. Va., of Certificate No. MC 108392 issued February 26, 1948, to Edward Lofty, doing business as Distributors Service Co., Parkersburg, W. Va., authorizing the transportation of malt beverages, in containers, over irregular routes, from Cleveland and Cincinnati, Ohio, Louisville, Ky., Jeannette and Pittsburgh, Pa., and Fort Wayne and South Bend, Ind., to Parkersburg, W. Va., and empty malt beverage containers, on return. Theodore H. Ghiz, 411 D Street, South Charleston 3, W. Va., attorney for applicants.

No. MC-FC 64770. By order of February 9, 1962, the Transfer Board approved the transfer to Charles D. Carew and Thomas B. Carew, a partnership, doing business as Standard Transfer, 1225½ North Second Street, Stevens Point, Wis., the entire operating rights in Certificate No. MC 11569 issued June 7, 1950, to Cyril J. Peters, doing business as Standard Service, Transfer, 320 Frontenac Avenue, Stevens Point, Wis., authorizing the transportation of household goods, over irregular routes, between Stevens Point, Wis., and points within 15 miles thereof, on the one hand, and, on the other, points in Illinois and Minnesota.

[SEAL] HAROLD D. MCCOY,
Secretary.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Executive Order 10995

ASSIGNING TELECOMMUNICATIONS MANAGEMENT FUNCTIONS

WHEREAS telecommunications is vital to the security and welfare of this Nation and to the conduct of its foreign affairs;

WHEREAS it is imperative that the United States maintain an efficient and well-planned national and international telecommunications program capable of stimulating and incorporating rapid technological advances being made in the field of telecommunications;

WHEREAS the radio spectrum is a critical natural resource which requires effective, efficient and prudent administration in the national interest;

WHEREAS it is essential that responsibility be clearly assigned within the executive branch of the Government for promoting and encouraging effective and efficient administration and development of United States national and international telecommunications and for effecting the prudent use of the radio frequency spectrum by the executive branch of the Government;

WHEREAS there is an immediate and urgent need for an examination of ways and means of improving the administration and utilization of the radio spectrum as a whole;

WHEREAS there is an immediate and urgent need for integrated short and long-range planning with respect to national and international telecommunications programs, for continuing supervision over the use of the radio frequency spectrum by the executive branch of the Government and for the development of national policies in the field of telecommunications;

NOW, THEREFORE, as President of the United States and Commander-in-Chief of the armed forces of the United States, and by virtue of the authority vested in me by sections 305 and 606 of the Communications Act of 1934, as amended (47 U.S.C. 305 and 606), and by section 301 of Title 3 of the United States Code, it is hereby ordered as follows:

SECTION 1. There is hereby established the position of Director of Telecommunications Management, which position shall be held by one of the Assistant Directors of the Office of Emergency Planning provided for under Reorganization Plan No. 1 of 1958, as amended (72 Stat. 1799).

SEC. 2. Subject to the authority and control of the President, the Director of Telecommunications Management shall:

(a) Coordinate telecommunications activities of the executive branch of the Government and be responsible for the formulation, after consultation with appropriate agencies, of overall policies and standards therefor. He shall promote and encourage the adoption of uniform policies and standards by agencies authorized to operate telecommunications systems. Agencies shall consult with the Director of Telecommunications Management in the development of policies and standards for the conduct of their telecommunications activities within the overall policies of the executive branch.

(b) Develop data with regard to United States Government frequency requirements.

(c) Encourage such research and development activities as he shall deem necessary and desirable for the attainment of the objectives set forth in section 6 below.

(d) Contract for studies and reports related to any aspect of his responsibilities.

SEC. 3. The authority to assign radio frequencies to Government agencies, vested in the President by section 305 of the Communications Act of 1934, as amended (47 U.S.C. 305), including all functions heretofore vested in the Interdepartment Radio Advisory Committee, is hereby delegated to the Director of the Office of Emergency Planning, who may redelegate such authority to the Director of Telecommunications Management. Such authority shall include the power to amend, modify, or revoke frequency assignments.

SEC. 4. The functions and responsibilities vested in the Director of the Office of Emergency Planning by Executive Order No. 10705 of April 17, 1957, as amended, may be redelegated to the Director of Telecommunications Management. Executive Orders No. 10695A of January 16, 1957, and No. 10705, as amended, are hereby further amended insofar as they are inconsistent with the present order. Executive Order No. 10460 of June 16, 1953, is hereby revoked.

SEC. 5. The Director of Telecommunications Management shall establish such interagency advisory committees and working groups composed of representives of interested agencies and consult with such departments and agencies as may be necessary for the most effective performance of his functions. To the extent that he deems it necessary or advisable to continue the Interdepartment Radio Advisory Committee, it shall serve in an advisory capacity to the Director of Telecommunications Management.

SEC. 6. In carrying out functions under this order, the Director of Telecommunications Management shall consider the following objectives:

(a) Full and efficient employment of telecommunications resources in carrying out national policies;

(b) Development of telecommunications plans, policies, and programs under which full advantage of technological development will accrue to the Nation and the users of telecommunications; and which will satisfactorily serve the national security; sustain and contribute to the full development of world trade and commerce; strengthen the position and serve the best interests of the United States in negotiations with foreign nations; and permit maximum use of resources through better frequency management;

(c) Utilization of the radio spectrum by the Federal Government in a manner which permits and encourages the most beneficial use thereof in the public interest;

(d) Implementation of the national policy of development and effective use of space satellites for international telecommunications services.

SEC. 7. Nothing contained in this order shall be deemed to impair any existing authority or jurisdiction of the Federal Communications Commission.

SEC. 8. The Director of Telecommunications Management and the Federal Communications Commission shall assist and give policy advice to the Department of State in the discharge of its functions in the field of international telecommunications policies, positions and negotiations.

SEC. 9. The Director of Telecommunications Management shall issue such rules and regulations as may be necessary to carry out the duties and responsibilities vested in him by this order or delegated to him under this order.

SEC. 10. All executive departments and agencies of the Federal Government are authorized and directed to cooperate with the Director of Telecommunications Management and to furnish him such information, support and assistance, not inconsistent with the law, as he may require in the performance of his duties.

JOHN F. KENNEDY

THE WHITE HOUSE,

Executive Order 10996

PROMULGATING REGULATIONS CONCERNING WITHHOLDING OF COMPENSATION OF CIVILIAN EMPLOYEES OF THE NATIONAL GUARD FOR STATE AND STATE-SPONSORED EMPLOYEE RETIREMENT, DISABILITY, OR DEATH BENEFITS PROGRAMS

By virtue of the authority vested in me by the act of June 15, 1956, as amended, 75 Stat. 496 (5 U.S.C. 84d), and by section 301 of title 3 of the United States Code, and as President of the United States, it is ordered as follows:

SECTION 1. As used in this order, the term:

(a) "Employees" means civilian employees of the Army National Guard or Air National Guard of a State who are employed pursuant to section 709 of title 32 of the United States Code, and paid from Federal, appropriated funds.

(b) "State" means one of the United States, the Commonwealth of Puerto Rico, and any territory of the United States.

SEC. 2. Each agreement between the Secretary of Defense and the Governor or other proper official of a State, pursuant to the provisions of the act of June 15, 1956, as amended, with respect to withholding of compensation of certain civilian employees of the Army National Guard and the Air National Guard for purposes of State or State-sponsored employee retirement, disability, or death benefits systems, shall be entered into by the Secretary of Defense within one hundred and twenty days of the receipt of a request therefor by the Secretary from the Governor or any other proper official of any State: *Provided*, that—

(a) the law of such State provides for the payment of employee contributions to such State or State-sponsored employee retirement, disability, or death benefits systems by withholding sums from the compensation of such State employees and making returns of such sums to officials of such State or organization designated by such officials to receive sums withheld for such programs;

(b) civilian employees of the Army National Guard and the Air National Guard, other than those employed by the National Guard Bureau, are eligible for membership in a State retirement, disability, or death benefits system; and

(c) each such agreement is consistent with the provisions of the said act of June 15, 1956, as amended, and of rules and regulations issued thereunder, and contains a clause that it shall be subject to any amendments of the said act, including amendments occurring after the effective date of such agreement.

SEC. 3. Each such agreement shall:

(a) Provide that the Secretary of the Army with respect to civilian employees of the Army National Guard, and the Secretary of the Air Force with respect to civilian employees of the Air National Guard, shall comply with the requirements of such State law in the case of employees subject to the said act of June 15, 1956, as amended, who are eligible for membership in such retirement, disability, or death benefits system for State employees;

(b) Specify when the withholding of sums from the compensation of such State employees shall commence; and

(c) Provide for procedures for the withholding, the filing of the returns, and the payment of the sums withheld from compensation to the officials of the State, or organization designated by such officials to receive sums withheld for such programs, which procedures shall conform, so far as practicable, to the usual fiscal practices of the Department of the Army and the Department of the Air Force, respectively.

SEC. 4. The Secretary of the Army with respect to civilian employees of the Army National Guard, and the Secretary of the Air Force with respect to civilian employees of the Air National Guard, shall designate, or provide for the designation of, the officers or employees whose duty it shall be to withhold sums from compensation, file required returns, and direct the payment of sums so withheld, in ac-

cordance with the terms of the agreements entered into between the Secretary of Defense and the States.

SEC. 5. Nothing in this order, or in rules or regulations issued thereunder, or in any agreement entered into pursuant thereto, shall be construed as giving consent to the application of any provision of law of any State which has the effect of imposing more burdensome requirements upon the United States than it imposes upon departments, agencies, or political subdivisions of the State concerned, with respect to employees thereof who are members of the State or State-sponsored retirement, disability, or death benefits system, or which has the effect of subjecting the United States or any of its officers or employees to any penalty or liability.

SEC. 6. I hereby delegate to the Secretary of Defense authority to prescribe such rules and regulations, not inconsistent herewith, as may be necessary to effectuate further the provisions of the said act of June 15, 1956, as amended, or of this order.

SEC. 7. Except to the extent that they may be inconsistent with this order, all determinations, authorizations, regulations, rulings, certificates, orders, directives, contracts, agreements, and other actions made, issued, or entered into with respect to any function affected by this order and not revoked, superseded, or otherwise made inapplicable before the date of this order, shall continue in full force and effect until amended, modified, or terminated by appropriate authority.

SEC. 8. This order supersedes Executive Order No. 10679 of September 20, 1956.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62-1802; Filed, Feb. 19, 1962; 10:46 a.m.]

Executive Order 10997

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE SECRETARY OF THE INTERIOR

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Secretary of the Interior (hereinafter referred to as the Secretary) shall prepare national emergency plans and develop preparedness programs covering (1) electric power; (2) petroleum and gas; (3) solid fuels; and (4) minerals. These plans and programs shall be designed to provide a state of readiness in these resource areas with respect to all conditions of national emergency, including attack upon the United States.

SEC. 2. *Definitions.* As used in this order:

(a) The term "electric power" means all forms of electric power and energy, including the generation, transmission, distribution, and utilization thereof.

(b) The term "petroleum" means crude oil and synthetic liquid fuel, their products, and associated hydrocarbons, including pipelines for their movement and facilities specially designed for their storage.

(c) The term "gas" means natural gas (including helium) and manufactured gas, including pipelines for the movement and facilities specially designed for their storage.

(d) The term "solid fuels" means all forms of anthracite, bituminous, sub-bituminous, and lignitic coals, coke, and coal chemicals produced in the coke making process.

(e) The term "minerals" means all raw materials of mineral origin (except petroleum, gas, solid fuels, and source materials as defined in the Atomic Energy Act of 1954, as amended) obtained by mining and like operations and processed through the stages specified and at the facilities designated in an agreement between the Secretary of the

Interior and the Secretary of Commerce as being within the emergency preparedness responsibilities of the Secretary of the Interior.

SEC. 3. *Resource Functions.* With respect to the resources defined above, the Secretary shall:

(a) *Priorities and allocations.* Develop systems for the emergency application of priorities and allocations to the production and distribution of assigned resources.

(b) *Requirements.* Periodically assemble, develop as appropriate, and evaluate requirements for power, petroleum, gas and solid fuels, taking into account estimated needs for military, civilian, and foreign purposes. Such evaluation shall take into consideration geographical distribution of requirements under emergency conditions.

(c) *Resources.* Periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas, and develop appropriate recommendations and programs including those necessary for the maintenance of an adequate mobilization base. Provide data and assistance before and after attack for national resource evaluation purposes of the Office of Emergency Planning.

(d) *Claimancy.* Prepare plans to claim materials, manpower, equipment, supplies and services needed in support of assigned responsibilities and other essential functions of the Department before the appropriate agency, and work with such agencies in developing programs to insure availability of such resources in an emergency.

(e) *Minerals development.* Develop programs and encourage the exploration, development and mining of strategic and critical minerals for emergency purposes.

(f) *Production.* Provide guidance and leadership to assigned industries in the development of plans and programs to insure the continuity of production in the event of an attack, and cooperate with the Department of Commerce in the identification and rating of essential facilities.

(g) *Stockpiles.* Assist the Offices of Emergency Planning in formulating and carrying out plans and programs for the stockpiling of strategic and critical materials, and survival items.

(h) *Salvage and rehabilitation.* Develop plans for the salvage of stocks and rehabilitation of producing facilities for assigned products after attack.

(i) *Economic stabilization.* Cooperate with the Office of Emergency Planning in the development of economic stabilization policies as they might affect the power, fuels and assigned minerals supply, production, and marketing programs, and the conservation of essential commodities in an emergency, including rationing of power and fuel.

(j) *Financial aid.* Develop plans and procedures for financial and credit assistance to producers, processors, and distributors who might need such assistance in various mobilization conditions.

SEC. 4. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs and operations of the Department of Defense, under Executive Order No. 10952, the Secretary shall:

(a) *Facilities protection.* Provide industry protection guidance material adapted to needs of industries concerned with assigned products, and promote a national program to stimulate disaster preparedness and control in order to minimize the effects of overt or covert attack and maintain continuity of production and capacity to serve essential users in an emergency. Guidance shall include but not be limited to: organizing and training facility personnel, personnel shelters, evacuation plans, records protection, continuity of management, emergency repair, deconcentration or dispersal of facilities, and mutual aid associations for emergency.

(b) *Chemical, biological and radiological warfare.* Provide for the detection, identification, monitoring and reporting of chemical, bio-

logical and radiological agents at selected facilities operated or controlled by the Department of the Interior.

(c) *Damage assessment.* Maintain a capability to assess the effects of attack on assigned products, producing facilities, and departmental installations both at national and field levels, and provide data to the Department of Defense.

SEC. 5. *Research.* Within the framework of Federal research objectives, the Secretary shall supervise or conduct research directly concerned with carrying out emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the Department's interest.

SEC. 6. *Functional Guidance.* The Secretary, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Secretary shall assume the initiative in developing joint plans for the coordination of emergency fuel, energy, and assigned mineral programs of those departments and agencies which have the responsibility for any segment of such activities. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Department of the Interior on the basis that it will have the responsibility for carrying out such programs during an emergency. The Secretary shall be prepared to implement all appropriate plans developed under this order. Modifications, and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 7. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 8. *Redelegation.* The Secretary is hereby authorized to redelegate within the Department of the Interior the functions hereinabove assigned to him.

SEC. 9. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 7 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 659–660), is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62-1803; Filed, Feb. 19, 1962; 10:46 a.m.]

Executive Order 10998

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE SECRETARY OF AGRICULTURE

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Secretary of Agriculture (hereinafter referred to as the Secretary) shall prepare national emergency plans and develop preparedness programs covering: Food resources, farm equipment, fertilizer, and food resource facilities, as defined below;

rural fire control; defense against biological warfare, chemical warfare, and radiological fallout pertaining to agricultural activities; and rural defense information and education. These plans and programs shall be designed to develop a state of readiness in these areas with respect to all conditions of national emergency, including attack upon the United States.

SEC. 2. *Definitions.* As used in this order:

(a) "Food resources" means all commodities and products, simple, mixed, or compound, or complements to such commodities or products, that are capable of being eaten or drunk, by either human beings or animals, irrespective of other uses to which such commodities or products may be put, at all stages of processing from the raw commodity to the products thereof in vendible form for human or animal consumption. For the purposes of this order the term "food resources" shall also include all starches, sugars, vegetable and animal fats and oils, cotton, tobacco, wool, mohair, hemp, flax fiber, and naval stores, but shall not include any such material after it loses its identity as an agricultural commodity or agricultural product.

(b) "Farm equipment" means machinery, equipment and repair parts manufactured primarily for use on farms in connection with the production or preparation for market or use of "food resources."

(c) "Fertilizer" means any product or combination of products for plant nutrition in form for distribution to the users thereof.

(d) "Food resource facilities" means plants, machinery, vehicles (including on farm) and other facilities for the production, processing, distribution and storage (including cold storage) of food resources, and for domestic distribution of farm equipment and fertilizer.

SEC. 3. *Food Function.* With respect to food resources, food resource facilities, farm equipment, and fertilizer the Secretary shall:

(a) *Resources.* Periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas, and develop appropriate recommendations and programs including those necessary for the maintenance of an adequate mobilization base. Provide data and assistance before and after attack for national resource evaluation purposes of the Office of Emergency Planning.

(b) *Requirements.* Periodically assemble, develop as appropriate, and evaluate requirements for assigned resources and service, taking into account the estimated needs for military, civilian, and foreign purposes. Such evaluation shall take into consideration the geographical distribution of requirements under emergency conditions.

(c) *Priorities and allocations.* Develop priorities, allocations and distribution control systems and related plans to insure that available food resources are properly apportioned among and distributed to civilian, military and foreign claimants in an emergency and develop priorities, allocations and distribution control systems and related plans for the domestic distribution of farm equipment and fertilizer.

(d) *Production and processing.* Develop control systems and related plans including control of use of facilities designed to provide adequate and continuing production, processing and storage of essential food resources in an emergency.

(e) *Salvage and rehabilitation.* Develop plans for salvage of food resources after determination, by proper authorities having the responsibility for this function, of their safety for human or animal consumption and develop plans for the rehabilitation of food resource facilities after attack.

(f) *Economic stabilization.* Cooperate with the Office of Emergency Planning in the development of stabilization policies as they might affect agricultural production, processing, distribution, and storage, and in the development of policies for consumer rationing of food resources.

(g) *Financial aid.* Develop plans and procedures for financial and credit assistance for farmers who might need such assistance under various mobilization conditions, and provide assistance to food industries in obtaining necessary financing and credit in an emergency.

SEC. 4. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs and operations of the Department of Defense, under Executive Order No. 10952, the Secretary shall:

(a) *Facilities protection.* Provide industry protection guidance materials adapted to the needs of assigned food resources facilities and promote a national program to stimulate disaster preparedness and control in order to minimize the effects of overt or covert attack, and to maintain continuity of production and capacity to serve essential users in an emergency. Guidance shall include, but not be limited to, organizing and training facility personnel, personnel shelter, evacuation plans, records protection, continuity of management, emergency repair, deconcentration or dispersal of facilities, and industrial mutual aid associations for an emergency.

(b) *Rural fire functions.* In cooperation with Federal, State and local agencies, develop plans for a national program and direct activities relating to the prevention and control of fires in the rural areas of the United States caused by the effects of enemy attack.

(c) *Biological, chemical, and radiological warfare defense functions.* Develop plans for a national program, direct Federal activities, and furnish technical guidance to State and local authorities concerning (1) diagnosis and strengthening of defensive barriers and control or eradication of diseases, pests, or chemicals introduced as agents of biological or chemical warefare against animals, crops or products thereof; (2) protective measures, treatment and handling of livestock, including poultry, agricultural commodities on farms or ranches, agricultural lands, forest lands, and water for agricultural purposes, any of which have been exposed to or affected by radiation. Plans shall be developed for a national program and direction of Federal activities to assure the safety and wholesomeness and to minimize losses from biological and chemical warfare, radiological effects, and other emergency hazards of livestock, meat and meat products, poultry and poultry products in establishments under the continuous inspection of the U.S. Department of Agriculture, and agricultural commodities and products owned by the Commodity Credit Corporation or by the Secretary.

(d) *Rural defense information and education.* Conduct a rural defense information and education program to advise farmers that they will have a responsibility to produce food of the kind and quantity needed in an emergency and shall work with farmers and others in rural areas to reduce the vulnerability of homes, crops, livestock, and forests, to either overt or covert attack.

(e) *Damage assessment.* Maintain a capability to assess the effects of attack on assigned resource areas and departmental installations, both at national and field levels, and provide data to the Department of Defense.

SEC. 5. *Claimancy.* The Secretary shall prepare plans to claim materials, manpower, equipment, supplies and services which would be needed to carry out assigned responsibilities and other essential functions of the Department from the appropriate agency and work with such agencies in developing programs to insure availability of such resources in an emergency.

SEC. 6. *Stockpiles.* The Secretary shall assist the Office of Emergency Planning in formulating and carrying out plans for stockpiling strategic and critical materials. In the administration of Commodity Credit Corporation inventories of food resources he shall take all possible measures to assure the availability of such inventories when and where needed in an emergency. The Secretary shall also develop plans and procedures for the proper utilization of agriculture items stockpiled for survival purposes.

SEC. 7. *National Program Guidance.* The Secretary shall provide technical guidance to State and local governments to the end that all

planning concerned with functions assigned herein will be effectively coordinated. He shall also maintain relations with the appropriate industries to foster mutual understanding of Federal emergency plans.

SEC. 8. *Research.* Within the framework of over-all Federal research objectives, the Secretary shall supervise or conduct research directly concerned with carrying out emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the interests of the Department of Agriculture.

SEC. 9. *Functional Guidance.* The Secretary, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Secretary shall assume the initiative in developing joint plans for the coordination of emergency food resources of those departments and agencies which have the responsibility for any segment of such activities. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Department of Agriculture on the basis that it will have the responsibility for carrying out such programs during an emergency. The Secretary shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 10. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 11. *Redelegation.* The Secretary is hereby authorized to redelegate within the Department of Agriculture the functions hereinabove assigned to him.

SEC. 12. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 1 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 651–652), is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62-1804; Filed, Feb. 19, 1962; 10:46 a.m.]

Executive Order 10999

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE SECRETARY OF COMMERCE

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Secretary of Commerce (hereinafter referred to as the Secretary) shall prepare national emergency plans and develop preparedness programs covering:

(a) Development and coordination of over-all policies, plans, and procedures for the provision of a centralized control of all modes of transportation in an emergency for the movement of passenger and freight traffic of all types, and the determination of the proper appor-

tionment and allocation of the total civil transportation capacity, or any portion thereof, to meet over-all essential civil and military needs.

(b) Federal emergency operational responsibilities with respect to: highways, roads, streets, bridges, tunnels, and appurtenances; highway traffic regulation; allocation of air carrier aircraft for essential military and civilian operations; ships in coastal and intercoastal use and ocean shipping, ports and port facilities; and the Saint Lawrence Seaway; except those elements of each normally operated or controlled by the Department of Defense.

(c) The producton and distribution of all materials, the use of all production facilities, the control of all construction materials, and the furnishing of basic industrial services except the following:

(1) Production and distribution of and use of facilities for petroleum, solid fuels, gas, and electric power;

(2) Production, processing, distribution and storage of food resources and the use of food resource facilities for such production, processing, distribution, and storage;

(3) Domestic distribution of farm equipment and fertilizer;

(4) Use of communications services and facilities, housing, and lodging facilities, and health and welfare facilities;

(5) Production, and related distribution, of minerals defined as all raw materials of mineral origin (except petroleum, gas, solid fuels, and source materials as defined in the Atomic Energy Act of 1954, as amended) obtained by mining and like operations and processed through the stages specified, and at the facilities designated in an agreement between the Secretary of Commerce and the Secretary of the Interior as being within the emergency preparedness responsibilities of the Secretary of the Interior, and the construction and use of facilities designated as within the responsibilities of the Secretary of the Interior;

(6) Distribution of items in the supply systems of, or controlled by the Department of Defense and the Atomic Energy Commission, and

(7) Construction and use of civil aviation facilities.

(d) Fallout forecasting based on current weather data.

(e) Collection and reporting of census data for emergency planning purposes.

These plans and programs shall be designed to develop a state of readiness in those areas with respect to all degrees of national emergency, including attack upon the United States.

SEC. 2. *Transportation Planning and Coordination Function.* The Secretary shall develop long range programs designed to integrate the mobilization requirements for movement of all forms of commerce with all forms of national and international transportation systems including air, ground, water, and pipelines, in an emergency; more particularly he shall:

(a) *Resources and requirements.* Obtain, assemble, analyze, and evaluate data on the requirements of all claimants for all types of civil transportation to meet the needs of the military and of the civil economy. Consolidate, evaluate, and interpret both current and projected resources and requirements data developed by all Federal agencies concerned with moving passengers or cargo by all modes of transportation for the purpose of initiating actions designed to stimulate government and industry actions to improve the peacetime structure of the transportation system for use in an emergency.

(b) *Economic projections.* Conduct a continuing analysis of transportation problems and facilities in relation to long-range economic projections for the purpose of recommending incentive and/or regulatory programs designed to bring all modes of transportation in balance with each other, with current economic conditions, projected peacetime conditions, and with emergency conditions.

(c) *Passenger and cargo movement.* Develop plans and procedures which would provide for the central collection and analysis of passenger and cargo movement demands of both shipper and user agencies as they relate to the capabilities of various transport modes in existence at the time, control or delegate control of the priority of movement of passengers and cargo for all modes of transportation by mode or within a mode and develop policies, standards and procedures for emergency enforcement of controls through the use of means such as education, incentives, embargoes, permits, sanctions, claimancy policies, etc.

(d) *Emergency transportation functions.* In consonance with plans developed by other agencies assigned operational responsibilities in the transportation program, develop plans for and be prepared to provide the administrative facilities for performing emergency transportation functions when required by the President.

SEC. 3. *Transportation Operations Planning Functions.* The Secretary shall develop plans and procedures in consonance with international treaties and in cooperation with other Federal agencies, the States and their political subdivisions to:

(a) *Highways and streets.* Adapt and develop highway and street systems to meet emergency requirements and provide procedures for their repair, restoration, improvement, revision and use as an integral part of the transportation system in an emergency.

(b) *Ocean shipping and ports.* To plan for the operation and control of Federal activities concerned with:

(1) *Shipping allocation.* Allocation of merchant shipping to meet the national requirements including those for military, foreign assistance, and emergency procurement programs, and those essential to the civilian economy. The term "merchant shipping" and the term "ocean shipping" as used herein inclnde all coastwise and intercoastal, and Great Lakes shipping except that solely engaged in the transportation of passenger and cargo between United States ports.

(2) *Ship acquisition.* Provision of ships for ocean shipping by purchase, charter, or requisition, by breakout from the national defense reserve fleet, and by construction.

(3) *Operations.* Operation of ocean shipping directly or indirectly.

(4) *Traffic control.* Provision for the control of traffic through port areas to assure an orderly and continuous flow of such traffic. The term "port area(s)" as used herein includes any zone contiguous to or associated in the traffic network of an ocean or Great Lakes port, or outport location, including beach loading sites, within which facilities exist for the transshipment of persons and property between domestic carriers and carriers engaged in coastal, intercoastal, and overseas transportation.

(5) *Traffic priority.* Administration of priorities for the movement of traffic through port areas.

(6) *Port allocation.* Allocation of available ports and port facilities to meet the needs of the Nation and our allies. The term "port facilities" as used herein includes all port facilities (including the Great Lakes), port equipment including harbor craft, and port services normally used in accomplishing the transfer or interchange of cargo and passengers between ocean-going vessels and other media of transportation or in connection therewith.

(7) *Support activities.* Performance of supporting activities needed to carry out the above functions, such as: ascertaining national requirements for ocean shipping including those for military and other Federal programs and those essential to the civilian economy; maintenance, repair, and arming of ships; recruitment, training, and assignment of officers and seamen; procurement, warehousing, and issuance of ships' stores, supplies, equipment, and spare parts; supervision of stevedoring and bunkering; management of terminals, shipyards, and other facilities; and maintenance, restoration, and provision of port facilities.

(c) *Air carrier civil air transportation.* Develop plans for a national program to utilize the air carrier civil air transportation capac-

ity and equipment, both domestically and internationally, in a national emergency, particularly in the following areas concerned with:

(1) *Requirements.* Obtaining from the Department of Defense, Civil Aeronautics Board, or other agencies, and analyzing requirements for the services of air carrier aircraft for essential military and civilian use.

(2) *Allocation.* Allocation of air carrier aircraft to meet the needs of the Department of Defense for military operations and the Civil Aeronautics Board for essential civilian needs.

SEC. 4. *Production Functions.* Within the areas designated in section 1(c) hereof, the Secretary shall:

(a) *Requirements.* Periodically assemble, develop as appropriate, and evaluate estimated requirements for assigned resources and services taking into account the estimated needs for military, civilian, and foreign purposes. Such evaluation shall take into consideration geographical distribution of requirements in an emergency.

(b) *Resources.* Periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas, and develop appropriate recommendations and programs including those necessary for the maintenance of an adequate mobilization base. Provide data and assistance before and after attack for national resource evaluation purposes of the Office of Emergency Planning.

(c) *Priorities and allocations.* Develop priorities, allocation, production, and distribution control systems, including provisions for other Federal departments and agencies, as appropriate, to serve as allotting agents for materials made available under such systems for construction and operation of facilities assigned to them.

(d) *New construction.* Develop procedures by which new production facility construction proposals will be reviewed for appropriate location in the light of such area factors as locational security, availability of labor, water, housing, and other requirements.

(e) *Industry evaluation.* Identify and rate those products and services, and their producing or supporting facilities, which are of exceptional importance to mobilization readiness, national defense, or post-attack survival and recovery.

(f) *Production capability.* Analyze potential effects of attack on actual production capability, taking into account the entire production complex including shortages of resources, and conduct studies as a basis for recommending pre-attack measures that would strengthen capabilities for post-attack production.

(g) *Stockpiles.* Assist the Office of Emergency Planning in formulating and carrying out plans for stockpiling of strategic and critical materials, and essential survival items.

(h) *Essential activities.* Maintain lists of activities essential to defense production and to minimum requirements of the civilian economy, such lists to be used in conjunction with lists of critical occupations.

(i) *Financial aid.* Develop plans and procedures for financial aids and incentives, including credit assistance to producers, processors, and distributors of those industries included in section 1(c) hereof, who might need such assistance in various mobilization conditions, particularly those resulting from attack.

(j) *Salvage and rehabilitation.* Develop plans for the salvage of stocks and rehabilitiation of assigned products and facilities after attack.

SEC. 5. *Economic Stabilization.* The Secretary shall cooperate with the Office of Emergency Planning in the development of suitable economic stabilization measures providing continuing guidance to the States, their political subdivisons, manufacturers, processors, and the public on the use and conservation of essential commodities in an emergency including rationing.

SEC. 6. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs, and operations of the Department of Defense under Executive Order No. 10952, the Secretary shall:

(a) *Facilities protection.* Provide industry protection guidance materials adapted to the needs of assigned facilities and promote a national program to stimulate disaster preparedness and control in order to minimize the effects of overt or covert attack, and to maintain continuity of production and capacity to serve essential users in an emergency. Guidance shall include, but not be limited to, organizing and training facility personnel, personnel shelter, evacuation plans, records protection, continuity of management, emergency repair, deconcentration or dispersal of critical facilities, and industrial mutual aid associations for emergency.

(b) *Public roads control.* Develop plans for a national program, in cooperation with all Federal, State and local government units or other agencies concerned, for technical guidance to States and direction of Federal activities relating to highway traffic control problems which may be created during an emergency; and plans for barricading and/or marking streets and highways, leading into or out of restricted fallout areas, for the protection of the public by external containment of traffic through hazardous areas.

(c) *Weather function.* Prepare and issue currently, as well as in an emergency, forecasts and estimates of areas likely to be covered by fallout in event of attack and make this information available to the Federal, State, and local authorities for public dissemination.

(d) *Monitoring.* Provide for the detection, identification, monitoring, and reporting of chemical, biological and radiological agents at facilities operated or controlled by the Department of Commerce.

(e) *Damage assessment.* Maintain a capability to assess the effects of attack on assigned resource areas and departmental installations, both at national and field levels, and provide data to the Department of Defense.

SEC. 7. *Claimancy.* The Secretary shall prepare plans to claim supporting materials, manpower, equipment, supplies and services which would be needed to carry out assigned responsibilities and other essential functions of the Department from the appropriate agency and shall work with such agencies in developing programs to insure availability of such resources in an emergency.

SEC. 8. *Census Data.* The Secretary shall provide for the collection and reporting of census information on the status of human and economic resources including population, housing, agriculture, manufacture, mineral industries, business, transportation, foreign trade, construction, and governments, as required for emergency planning purposes.

SEC. 9. *Research.* Within the framework of Federal research objectives, the Secretary shall supervise or conduct research in areas directly concerned with carrying out his emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the Department's interest.

SEC. 10. *Functional Guidance.* The Secretary, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Secretary shall assume the initiative in developing joint plans for the coordination of transportation and production programs which involve other departments and agencies which have responsibilities for any segment of such activities. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in, coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Department of Commerce on the basis that it will have the responsibility for carrying out such programs during an emergency. The Secretary shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 11. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 12. *Redelegation.* The Secretary is hereby authorized to redelegate within the Department of Commerce the functions hereinabove assigned to him.

SEC. 13. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 2 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 653–654), is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62–1805; Filed, Feb. 19, 1962; 10:47 a.m.]

Executive Order 11000

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE SECRETARY OF LABOR

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Secretary of Labor (hereinafter referred to as the Secretary) shall prepare national emergency plans and develop preparedness programs covering civilian manpower mobilization, more effective utilization of limited manpower resources including specialized personnel, wage and salary stabilization, worker incentives and protection, manpower resources and requirements, skill development and training, research, labor-management relations, and critical occupations. These plans and programs shall be designed to develop a state of readiness in these areas with respect to all conditions of national emergency, including attack upon the United States.

SEC. 2. *Functions.* The Secretary shall:

(a) *Civilian manpower mobilization.* Develop plans and issue guidance designed to utilize to the maximum extent civilian manpower resources, such plans and guidance to be developed with the active participation and assistance of the States and local political subdivisions thereof, and of other organizations and agencies concerned with the mobilization of the people of the United States. Such plans shall include, but not necessarily be limited to:

(1) *Manpower management.* Recruitment, selection and referral, training, employment stabilization (including appeals procedures), proper utilization, and determination of the skill categories critical to meeting the labor requirements of defense and essential civilian activities.

(2) *Priorities.* Procedures for translating survival and production urgencies into manpower priorities to be used as guides for allocating available workers.

(3) *National guidance.* Technical guidance to States for the utilization of the nationwide system of public employment offices and other appropriate agencies for screening, recruiting, and referring

workers, and for other appropriate activities to meet mobilization and civil defense needs in each community.

(4) *Improving mobilization base.* Programs for more effective utilization of limited manpower resources, and in cooperation with other appropriate agencies, programs for recruitment, training, allocation, and utilization of persons possessing specialized competence or aptitude in acquiring such competence.

(b) *Wage and salary stabilization.* Develop plans and procedures for wage and salary stabilization and for the national and field organization necessary for the administration of such a program in an emergency, including investigation, compliance and appeals procedures; statistical studies of wages, salaries and prices for policy decisions and to assist operating stabilization agencies to carry out their functions.

(c) *Worker incentives and protection.* Develop plans and procedures for wage and salary compensation and death and disability compensation for authorized civil defense workers and, as appropriate, measures for unemployment payments, re-employment rights, and occupational safety, and other protection and incentives for the civilian labor force during an emergency.

(d) *Resources.* Periodically assess manpower resources in total, by specific skills categories and occupations, and by geographical locations, in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas, and develop appropriate recommendations and programs. Provide data and assistance before and after attack for national resource evalution purposes of the Office of Emergency Planning.

(e) *Requirements.* Develop, in coordination with manpower-using agencies, plans, procedures and standards for presenting claims for civilian manpower; periodically obtain and analyze or make estimates of requirements for manpower, in total and by specific skill categories and occupations currently and for any emergency, taking into account the estimates of needs for military and civilian purposes; and advise other agencies on the manpower implications of alternative program decisions. Such evaluation shall take into consideration the geographical distribution of requirements under emergency conditions.

(f) *Claimancy.* Prepare plans to claim materials, equipment, supplies and services needed in support of assigned responsibilities and other essential functions of the Department from appropriate agencies, and work with such agencies in developing programs to insure the availability of such resources in an emergency.

(g) *Skill development and training.* Initiate current action programs to overcome or offset present or anticipated manpower deficiencies including those identified as a result of resources and requirements studies.

(h) *Labor-management relations.* Develop, after consultation with the Department of Commerce, the Department of Defense, the National Labor Relations Board, the Federal Mediation and Conciliation Service, the National Mediation Board, and other appropriate agencies and groups including representatives of labor and management, plans and procedures including organization plans for the maintenance of effective labor-management relations during a national emergency.

(i) *Damage assessment.* Maintain a capability to assess the effects of attack upon manpower resources, departmental installations, and State Employment Security agencies, both at national and field levels, and provide data to the Department of Defense.

(j) *Critical occupations.* Develop and maintain a list of critical occupations for use, when appropriate, with lists of essential activities as developed by the Department of Commerce. With the Secretary of Defense, the Director of Selective Service System, and such other persons as the President may designate, the Secretary shall develop policies applicable to the deferment of registrants whose employment in occupations or activities is necessary to the maintenance of the national health, safety, or interest.

SEC. 3. *Research.* Within the framework of Federal research objectives, supervise or conduct research directly concerned with carrying out emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the Department's interest.

SEC. 4. *Functional Guidance.* The Secretary, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Secretary shall assume the initiative in developing over-all civilian manpower mobilization programs and in coordinating the programs of other departments and agencies which have responsibility for any segment of such activities. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements. Such programs shall be in consonance with national civil defense plans, programs and operations of the Department of Defense under Executive Order No. 10952.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national prepardness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Department of Labor on the basis that it will have the responsibility for carrying out such programs during an emergency. The Secretary shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 5. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 6. *Redelegation.* The Secretary is hereby authorized to redelegate within the Department of Labor the functions hereinabove assigned to him.

SEC. 7. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 8 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 660–661), is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62–1806; Filed, Feb. 19, 1962; 10:47 a.m.]

Executive Order 11001

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE SECRETARY OF HEALTH, EDUCATION, AND WELFARE

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958, it is hereby ordered as follows:

SECTION 1. *Scope.* The Secretary of Health, Education, and Welfare (hereinafter referred to as the Secretary) shall prepare national emergency plans and develop preparedness programs covering health services, civilian health manpower, health resources, welfare services, and educational programs as defined below. These plans and programs shall be designed to develop a state of readiness in these areas with respect to all conditions of national emergency including attack upon the United States.

SEC. 2. *Definitions.* As used in this order:

(a) "Emergency health services" means medical and dental care for the civilian population in all of their specialties and adjunct therapeutic fields, and the planning, provision and operation of first aid stations, hospitals, and clinics; preventive health services, including detection, identification and control of communicable diseases, their vectors, and other public health hazards, inspection and control of purity and safety of food, drugs and biologicals; food and milk sanitation; public water supplies; sewage and other waste disposal; registration and disposal of the dead; prevention and alleviation of water pollution; vital statistics services; preventive and curative care related to human exposure to radiological, chemical, and biological warfare agents; and rehabilitation and related services for disabled survivors. It shall be understood that health services, for the purposes of this order, do not encompass the following areas for which the Department of Agriculture has responsibility: plant and animal diseases and pest prevention, control and eradication, protection of meat and meat products, and poultry and poultry products in establishments under continuous inspection service by the Department of Agriculture, veterinary biologicals, agricultural commodities and products owned by the Commodity Credit Corporation or the Secretary of Agriculture, livestock, agricultural commodities owned or harvestable on farms and ranches, agricultural lands, and registration of pesticides.

(b) "Health manpower" means physicians (including osteopaths); dentists; sanitary engineers; registered professional nurses; and such other occupations as may be included in the List of Health Manpower Occupations issued for the purposes of this Executive Order by the Director of the Office of Emergency Planning after agreement by the Secretary of Labor and the Secretary of Health, Education, and Welfare.

(c) "Health resources" means manpower, material, and facilities required to prevent the impairment of, improve, and restore the physical and mental health conditions of the civilian population.

(d) "Emergency welfare services" means feeding; clothing; housing or lodging in private and congregate facilities; registration; locating and reuniting families; care of unaccompanied children, the aged, the handicapped, and other groups needing specialized care or service; necessary financial or other assistance; counseling and referral services to families and individuals; aid to welfare institutions under national emergency or post-attack conditions; and all other feasible welfare aid and services to people in need during a civil defense emergency. Such measures include organization, direction, and provision of services to be instituted before attack, in the event of strategic or tactical evacuation, and after attack in the event of evacuation or of refuge in shelters.

(e) "Education," as used in this order, means the utilization of formal public and private school systems, from elementary through college, for the dissemination of instructional material guidance, and training in the protection of life and property from enemy attack.

SEC. 3. *Health Functions.* With respect to emergency health services, as defined above, and in consonance with national civil defense plans, programs and operations of the Department of Defense under Executive Order No. 10952, the Secretary shall:

(a) *National program guidance.* Develop plans and issue guidance designed to utilize to the maximum extent the existing civilian health resources of the Federal Government, and with their active participation, assistance, and consent, the health resources of the States and local political subdivisions thereof, and of other civilian organizations and agencies concerned with the health of the population, under all conditions of national emergency. Maintain relations with health professions and institutions to foster mutual understanding of Federal emergency plans which affect health activities.

(b) *Professional training.* Develop and direct a nationwide program to train health manpower both in professional and technical occupational content and in civil defense knowledge and skills. De-

velop and distribute health education material for inclusion in the curricula of schools, colleges, professional schools, government schools, and other educational facilities throughout the United States. Develop and distribute civil defense information relative to health services to States, voluntary agencies and professional groups.

(c) *Emergency water supply.* Prepare plans to assure the provision of usable public water supplies for essential community uses in an emergency. This shall include inventorying existing supplies, developing new sources, performing research, setting standards, and planning distribution. In carrying on these activities, the Department shall have primary responsibility but will make maximum use of the resources and competence of State and local authorities and of other Federal agencies.

(d) *Radiation.* Develop and coordinate programs of radiation measurement and assessment as may be necessary to carry out the responsibilities involved in the provision of emergency health services.

(e) *Biological and chemical warfare.* Develop and coordinate programs for the prevention, detection, and identification of human exposure to chemical and biological warfare agents as may be necessary to carry out the responsibilities involved in the provision of emergency health services including the provision of guidance and consultation to Federal, State, and local authorities on measures for minimizing the effects of biological or chemical warfare.

(f) *Food, drugs, and biologicals.* Plan and direct national programs for the maintenance of purity and safety in the manufacture and distribution of food, drugs, and biologicals in an emergency.

(g) *Disabled survivors.* Prepare national plans for emergency operations of vocational rehabilitation and related agencies, and for measures and resources necessary to rehabilitate and make available for employment those disabled persons among the surviving population.

(h) *Salvage and rehabilitation.* Develop plans for salvage of supplies and equipment and rehabilitation of health services, supplies, and facilities after attack.

SEC. 4. *Welfare Functions.* With respect to emergency welfare services as defined above, and in consonance with national civil defense plans, programs and operations of the Department of Defense under Executive Order No. 10952, the Secretary shall:

(a) *National program guidance.* Develop plans and issue guidance for an integrated national program for emergency welfare services and, working with other Federal departments and agencies, provide for extending guidance and technical assistance to State and local welfare departments in the development and operation of their plans for the community organization of emergency welfare services.

(b) *Federal support.* Cooperate in the development of Federal support procedures, through joint planning with other departments and agencies, including but not limited to the Post Office Department, the Department of Labor, and the Selective Service System, the Housing and Home Finance Agency, and resource agencies including the Department of Agriculture, the Department of the Interior, and the Department of Commerce for logistic support of State and community welfare services in an emergency.

(c) *Emergency welfare training.* Develop and direct a nationwide program to train emergency welfare manpower for the execution of the functions set forth in this order, develop welfare educational materials, including self-help program materials for use with welfare organizations and professional schools, and develop and distribute civil defense information relative to emergency welfare services to States, voluntary agencies, and professional groups.

(d) *Financial aid.* Develop plans and procedures for financial assistance to individuals injured or in want as a result of enemy attack and for welfare institutions in need of such assistance in an emergency.

(e) *Professional liaison.* Maintain relations with national voluntary welfare organizations and related national professional and business organizations to foster mutual understanding and support of emergency welfare plans and activities.

SEC. 5. *Education Functions.* With respect to education as defined above, and in consonance with national civil defense plans, programs and operations of the Department of Defense under Executive Order No. 10952, the Secretary shall develop and issue through appropriate channels instructional materials and provide suggestions and guidance to assist schools, colleges, and other educational agencies to incorporate emergency protective measures and long-range civil defense concepts into their programs. This involves assistance to various levels of education to develop an understanding of the role of the individual, family, and community for civil defense in the nuclear age, as well as the maintenance of relations with educators, national and State education associations, foundations, and other related organizations to foster mutual understanding and support of civil defense activities.

SEC. 6. *Facilities Protection and Damage Assessment.* In consonance with the national civil defense plans, programs and operations of the Department of Defense under Executive Order No. 10952, the Secretary shall:

(a) *Facilities protection.* Provide industry protection guidance material adapted to the needs of health, welfare, and education facilities and promote a national program to stimulate, guide, and assist facilities such as hospitals, clinics, public water plants, waste disposal plants and facilities for other emergency health services, welfare institutions, and schools in methods of disaster preparedness and control in order to minimize the effects of overt or covert attack and maintain continuity of capacity to serve the public in an emergency. Guidance and assistance shall include but not be limited to: organizing and training facility employees, employee shelter, evacuation plans, records protection, continuity of management, emergency repair, deconcentration or dispersal of facilities, and the organization of mutual aid associations for emergency.

(b) *Damage assessment.* Maintain a capability to assess the effects of attack on health, welfare, and education facilities and personnel both at national and field levels and provide data to the Department of Defense.

SEC. 7. *Resources.* The Secretary shall periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas and develop appropriate recommendations and programs. Provide data and assistance before and after attack for national resource evaluation purposes of the Office of Emergency Planning.

SEC. 8. *Relative Urgencies.* The Secretary shall develop standards and relative urgencies for emergency health and welfare services for guidance of Federal agencies, States, and communities in providing maximum protection to survivors, and for the purpose of conserving, improving availability, and allocating such resources.

SEC. 9. *Requirements.* The Secretary shall periodically assemble, develop as appropriate, and evaluate requirements for assigned resources and services, taking into account the estimated needs for military as well as civilian purposes. Such evaluations shall take into consideration the geographical distribution of requirements under emergency conditions.

SEC. 10. *Claimancy.* The Secretary shall prepare plans to claim materials, manpower, equipment, supplies and services needed to carry out assigned responsibilities and other essential functions of the Department, from the appropriate agency and work with such agencies in developing programs to insure availability of such resources in an emergency.

SEC. 11. *Stockpiles.* The Secretary shall assist the Office of Emergency Planning in formulating and carrying out stockpiling of strategic and critical materials and survival items. The Secretary shall also plan and direct the procurement, storage, maintenance,

inspection, survey, distribution, and utilization of essential supplies and equipment for emergency health services.

SEC. 12. *Research.* Within the framework of Federal research objectives, the Secretary shall supervise or conduct research in areas directly concerned with carrying out emergency preparedness responsibilities for health, education, and welfare programs. With respect to the emergency health and welfare services assignment, this is defined as, but not limited to (1) development of medical means for the prevention and care of casualties (including those from thermonuclear weapons, radiation exposure, and biological and chemical warfare, as well as from other weapons); (2) research in preventive medicines, basic biology and environmental sanitation directed to maintaining the health of noncasualty population; (3) pre-attack and post-attack target research in health services; (4) protection of resources and protocol essential to carrying out long-term basic and applied research in the post-attack period; and (5) the development of techniques for the most efficient utilization of civilian health manpower. Designate representatives for necessary ad hoc or task force groups and provide advice and assistance to other agencies in planning for research in areas involving the Department's interest.

SEC. 13. *Functional Guidance.* The Secretary, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Secretary shall assume the initiative in developing joint plans for the coordination of emergency civilian health services and welfare services programs of those departments and agencies which have responsibility for any segment of such activities. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Department of Health, Education, and Welfare on the basis that it will have the responsibility for carrying out such programs during an emergency. The Secretary shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organization changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 14. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 15. *Redelegation.* The Secretary is hereby authorized to redelegate within the Department of Health, Education, and Welfare the functions hereinabove assigned to him.

SEC. 16. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Orders Nos. 4 and 5 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 656–658), are hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62-1807; Filed, Feb. 19, 1962; 10:47 a.m.]

Executive Order 11002

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE POSTMASTER GENERAL

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Postmaster General shall assist in the development of a national emergency registration system. These plans and programs shall be designed to develop a state of readiness in this area with respect to all conditions of national emergency including attack upon the United States.

SEC. 2. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs, and operations of the Department of Defense under Executive Order No. 10952, the Postmaster General shall:

(a) *Registration system.* Assist in planning a national program and developing technical guidance for States, and directing Post Office activities concerned with registering persons and families for the purpose of receiving and answering welfare inquiries, and reuniting families in civil defense emergencies. The program shall include:

1. *Forms.* Procurement, transportation, storage, and distribution of safety notification and emergency change of address cards in quantities and localities jointly determined by the Department of Defense and the Post Office Department.

2. *Training.* Conduct of training programs for postal employees which will enable them to operate emergency central postal directories and to assist in the operation of a national emergency registration system including support of local welfare activities in reuniting families.

(b) *Damage assessment.* Maintain a capability to assess the effects of attack on its postal service and resources, both at national and field levels, and provide data to the Department of Defense.

SEC. 3. *Functional Guidance.* The Postmaster General, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Postmaster General shall work with the heads of other agencies concerned in the development of systems outlined above. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structures required thereby, shall be developed as an integral part of the continuing activities of the Post Office Department on the basis that it will have the responsibility for carrying out such programs during an emergency. The Postmaster General shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, shall be in accordance with policy determination by the President.

SEC. 4. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 5. *Redelegation.* The Postmaster General is hereby authorized to redelegate within the Post Office Department the functions hereinabove assigned to him.

SEC. 6. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 9 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 661-662), is hereby revoked.

JOHN F. KENNEDY

Executive Order 11003

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE ADMINISTRATOR OF THE FEDERAL AVIATION AGENCY

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Administrator of the Federal Aviation Agency (hereinafter referred to as the Administrator) shall prepare national emergency plans and develop preparedness programs covering the emergency management of the Nation's civil airports, civil aviation operating facilities, civil aviation services, and civil aircraft other than air carrier aircraft. These plans and programs shall be designed to develop a state of readiness in these areas with respect to all conditions of national emergency, including attack upon the United States.

SEC. 2. *Transportation Functions.* The Administrator shall:

(a) *National program guidance.* Develop plans and issue national program guidance designed to utilize to the maximum extent the existing non-military facilities, technical competence and resources of the Federal Government, the States and the local political subdivisions thereof, and non-governmental organizations and systems engaged in aeronautical activities to promote the effective and safe use and maintenance of aeronautical facilities, equipment, and services in an emergency.

(b) *Operations.* Formulate plans for the development, utilization, expansion and emergency management of the Nation's civil airports, civil aviation ground facilities and equipment required for essential civil air operations, except manufacturing facilities, but including the development of orders for insuring the continued operation of essential civil airports, civil aviation operating facilities, and civil aviation equipment.

(c) *Priorities and allocations.* Develop plans and procedures for controls, allocations and priorities concerned with the utilization of aircraft other than air carrier aircraft in an emergency.

(d) *Resources.* Periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas and develop appropriate recommendations and programs. Provide data and assistance before and after attack for national resource evaluation purposes of the Office of Emergency Planning.

(e) *Requirements.* Determine emergency requirements for material and supplies needed to manufacture, maintain or operate air navigation facilities, civil airports, and civil aircraft for which the Administrator is responsible.

(f) *Claimancy.* Prepare plans to claim materials, manpower, equipment, supplies, and services needed to carry out assigned responsibilities and other essential functions of the agency from the appropriate agencies and work with such agencies in developing programs to insure availability of such resources in an emergency.

SEC. 3. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs, and operations of the Department of Defense under Executive Order No. 10952, the Administrator shall:

(a) *Professional training.* Prepare and incorporate into appropriate courses dealing with aeronautics and aviation applicable civil defense knowledge and skills necessary to insure the maximum operational effectiveness of essential civil air transportation systems and facilities; and prepare and distribute such civil defense information to the management of air transportation systems and facilities, States and local governments, voluntary agencies, and commercial and professional groups concerned with the development, utilization, expansion, and emergency management of non-military aviation.

(b) *Facilities protection.* Analyze the potential effects of attack as a basis for developing and promoting a national program of vulnerability reduction, disaster preparedness, and damage control designed to minimize the effects of overt or covert attack on civil aviation facilities except aircraft manufacturing plants. Such program shall include, but shall not be limited to, guidance with respect to deconcentration and dispersal of facilities and equipment, organization and training of facility employees, shelter, evacuation and relocation plans, records protection, continuity of management, and emergency repair and recovery of facilities.

(c) *Monitoring.* Provide for the detection, identification, monitoring, and reporting of chemical, biological, and radiological agents at facilities operated or controlled by the Federal Aviation Agency.

(d) *Decontamination.* Provide technical advice, guidance, and consultation to Federal, State and local civil aviation authorities on measures for minimizing the effects of chemical, biological, and radiological contamination of civil airports and civil aviation facilities, aircraft, ground equipment, and personnel.

(e) *Damage assessment.* Maintain a capability to assess the effects of attack on all air navigation, air traffic control, and aeronautical communications facilities, all civil airports, civil aircraft, and all other facilities essential to safe and effective air transportation operations in a national emergency and provide data to the Department of Defense.

(f) *Salvage and rehabilitation.* Develop plans for salvage of supplies and equipment and the rehabilitation or replacement of essential civil aviation systems, facilities, and services after attack, excluding the manufacture of aircraft but including direction of Federal activities for the emergency clearance and restoration of essential civil airports in damaged areas.

SEC. 4. *Research.* Within the framework of over-all Federal research objectives, the Administrator shall supervise or conduct research directly concerned with carrying out emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the Agency's interest.

SEC. 5. *Functional Guidance.* The Administrator, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Administrator shall work with the Secretary of Commerce, the Civil Aeronautics Board, and heads of other agencies concerned with the development of a national emergency transportation program. In the development of emergency plans and programs pursuant to this order and in the execution of functions assigned thereunder, the Administrator shall perform his functions in a manner compatible with his responsibilities to the Department of Defense under the Federal Aviation Act of 1958, and without compromise of his ability to discharge such responsibilities. Nothing in this order shall be construed to limit the authority vested in the Administrator by the Federal Aviation Act of 1958 with respect to the exercise of the Administrator's authority and responsibility in an "air defense emergency" (as distinguished from a "civil defense emergency"), or other state of emergency as may be declared by the President.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining

policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organizational structure required thereby, shall be developed as an integral part of the continuing activities of the Federal Aviation Agency on the basis that it will have the responsibility for carrying out such programs during an emergency. The Administrator shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 6. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 7. *Redelegation.* The Administrator of the Federal Aviation Agency is hereby authorized to redelegate within the Agency the functions hereinabove assigned to him.

SEC. 8. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 3 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 655–656) is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62-1809; Filed, Feb. 19, 1962; 10:47 a.m.]

Executive Order 11004

ASSIGNING CERTAIN EMERGENCY PREPAREDNESS FUNCTIONS TO THE HOUSING AND HOME FINANCE ADMINISTRATOR

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Housing and Home Finance Administrator (hereinafter referred to as the Administrator) shall prepare national emergency plans and develop preparedness programs covering all aspects of lodging or housing and community facilities related thereto. These plans and programs shall be designed to develop a state of readiness in these areas with respect to all conditions of national emergency, including attack upon the United States.

SEC. 2. *Housing Functions.* The Administrator shall:

(a) *New housing.* Develop plans for the construction and management of new housing and the community facilities related thereto, when and where it is determined to be necessary with public funds through direct Federal action; or the construction of new housing through financial or credit assistance, in support of production programs.

(b) *Communities.* Develop plans for the selection, acquisition, development, and disposal of areas for civilian uses in new, expanded, restored, or relocated communities; and for the construction of housing for new or restored communities.

(c) *Resources.* Periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas and develop appropriate recommendations and programs. Provide data and assistance before and after attack for national resources evaluation purposes of the Office of Emergency Planning.

(d) *Priorities.* Develop standards and priorities for guidance of States and communities in making maximum use of and allocating available housing resources.

(e) *Requirements.* Periodically assemble, develop as appropriate, and evaluate requirements with respect to assigned resources and services. Such estimates shall take into consideration the geographical distribution of requirements under emergency conditions.

(f) *Claimancy.* Prepare plans to claim materials, manpower, equipment, supplies, and services needed in support of assigned responsibilities and other essential functions of the agency from appropriate agencies, and work with such agencies in developing programs to insure availability of such resources in an emergency.

(g) *Distribution.* Develop allocation and distribution control systems consistent with the priorities and allocations procedures prescribed by the Department of Commerce for materials and equipment needed for housing, and develop programs for the domestic distribution and use of mobile lodging facilities in an emergency.

(h) *Stockpiles.* Assist the Office of Emergency Planning in formulating and carrying out plans for stockpiling of strategic and critical materials, and survival items in the housing field.

(i) *Economic stabilization.* Cooperate with the Office of Emergency Planning and the Federal financial agencies in the development of preparedness measures involving emergency financing, real estate credit, and rent stabilization.

SEC. 3. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs, and operations of the Department of Defense under Executive Order No. 10952, the Administrator shall:

(a) *Billeting.* Develop plans for a billeting program, including advice and guidance for State and local government agencies in the administration thereof. The Secretary of the Department of Health, Education, and Welfare shall incorporate billeting plans in the general welfare guidance program for States.

(b) *Temporary housing.* Develop plans for the emergency repair and restoration to use of damaged housing, for the construction and management of emergency housing units and the community facilities related thereto, and for the emergency conversion to dwelling use of non-residential structures with public funds through direct Federal action or through financial or credit assistance.

(c) *Population movement.* Participate in the preparation of plans for determining which areas are to be restored and in the development and coordination of plans for the movement of people on a temporary basis from areas to be abandoned to areas where housing is available or can be made available.

(d) *Shelter.* Assist in the development of plans to encourage the construction of fallout shelters for both old and new housing in conformance to the national shelter policy.

(e) *Vulnerability.* Participate in promoting the dispersal of new or expanding communities and government installations in conformance to national vulnerability reduction policy.

(f) *Damage assessment.* Maintain a capability to assess the effects of attack on housing resources, both at national and field levels, and provide data assistance to the Department of Defense.

SEC. 4. *Research.* Within the framework of overall Federal research objectives the Administrator shall supervise or conduct research directly concerned with carrying out emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the agency's interests.

SEC. 5. *Functional Guidance.* The Administrator, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Administrator shall assume the initiative in developing joint plans for the coordination of civilian

housing emergency programs of those departments and agencies which normally have responsibilities for any segment of such activities. He shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Housing and Home Finance Agency on the basis that it will have the responsibility for carrying out such programs during an emergency. The Administrator shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 6. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 7. *Redelegation.* In carrying out the functions outlined in this order, the Administrator may reassign such functions to and designate or appoint any official or employee within the Housing and Home Finance Agency, including the constituent agencies, to serve in any position within the Housing and Home Finance Agency.

SEC. 8. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 6 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 658–659), is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

[F.R. Doc. 62-1810; Filed, Feb. 19, 1962; 10:47 a.m.]

Executive Order 11005

ASSIGNING EMERGENCY PREPAREDNESS FUNCTIONS TO THE INTERSTATE COMMERCE COMMISSION

By virtue of the authority vested in me as President of the United States, including authority vested in me by Reorganization Plan No. 1 of 1958 (72 Stat. 1799), it is hereby ordered as follows:

SECTION 1. *Scope.* The Interstate Commerce Commission (hereinafter referred to as the Commission) shall prepare national emergency plans and develop preparedness programs covering railroad utilization, reduction of vulnerability, maintenance, restoration, and operation in an emergency; motor carrier utilization, reduction of vulnerability, and operation in an emergency; inland waterway utilization of equipment and shipping, reduction of vulnerability, and operation in an emergency, excepting the St. Lawrence Seaway; and also provide guidance and consultation to domestic surface transportation and storage industries, as defined below, regarding emergency preparedness measures, and to States regarding development of their transportation plans in assigned areas. These plans and programs will be designed to develop a state of readiness in these areas with respect to all conditions of national emergency, including attack upon the United States.

SEC. 2. *Definitions.* As used in this order:

"Domestic surface transportation and storage" means rail, motor, and inland water transportation facilities and services and public storage. "Public storage" as used herein includes warehouses and other

places which are used for the storage of property belonging to persons other than the persons having the ownership or control of such premises. "Inland water transportation" includes shipping on all inland waterways and Great Lakes shipping engaged solely in the transportation of passengers or cargo between United States ports on the Great Lakes. Specifically excluded, for the purposes of this order, are petroleum and gas pipelines, petroleum and gas storage, agricultural and food resources storage, including the cold storage of food resources, the St. Lawrence Seaway, ocean ports and Great Lakes ports and port facilities, highways, streets, roads, bridges, and related appurtenances, maintenance of inland waterways, and any transportation owned by or pre-allocated to the military.

SEC. 3. *Transportation Functions.* The Commission shall:

(a) *Requirements.* Periodically assemble, develop as appropriate, and evaluate requirements for domestic surface transportation and storage in an emergency, taking into account estimated needs for military as well as civilian purposes. Such evaluation shall take into consideration distribution of requirements under emergency conditions.

(b) *Resources.* Periodically assess assigned resources available from all sources in order to estimate availability under an emergency situation, analyze resource estimates in relation to estimated requirements in order to identify problem areas and develop appropriate recommendations and programs. Provide data and assistance before and after attack for national resource evaluation purposes of the Office of Emergency Planning.

(c) *Claimancy.* Prepare plans to claim material, equipment, manpower, supplies, and services needed to carry out assigned responsibilities and other essential functions of the Commission before the appropriate agency, and work with such agencies in developing programs to insure availability of such resources in an emergency.

(d) *Priorities and allocations.* Prepare plans for the allocation of the use of domestic surface transportation and storage by operators and users, and to administer such priorities systems as may be necessary to insure expeditious movement of essential freight and passengers (including designation of priorities on traffic in transit through port areas between domestic surface points) subject to determination of designated authorities as to degree of essentiality and relative priority of the activity served.

(e) *Control.* Develop plans with appropriate private transportation and storage organizations and associations for the coordination and direction of the use of domestic surface transportation and storage facilities for movement of passenger and freight traffic.

(f) *Emergency operations.* Develop a system for keeping informed as to operational conditions and capabilities throughout the domestic surface transportation and storage industry including the intensities of chemical, biological, radiological (CBR) contamination along and on the appropriate ways and terminals and the consequent interdiction occasioned by it, and prepare plans to take such actions as are necessary to avoid conflicts, overcome "bottle-necks," effect conservation, decrease waste, and speed turn-arounds. Develop and maintain necessary orders and regulations for the operation of domestic surface transport and storage industries in an emergency.

(g) *Salvage and rehabilitation.* Develop plans for salvage of domestic surface transportation and storage equipment and rehabilitation including decontamination of appropriate terminals, rights of way, equipment, and shops after attack.

(h) *National program guidance.* Develop plans and issue guidance designed to utilize to the maximum extent the existing non-military facilities, technical competence, and resources of the Federal Government, the States and local political subdivisions thereof, and non-governmental organizations and systems engaged in domestic surface transportation and storage activities to promote the effective and safe use and maintenance of transportation facilities, equipment, and services in an emergency.

(i) *Stockpiles.* Assist the Office of Emergency Planning in formulating and carrying out plans for the stockpiling of strategic and critical materials and items necessary to the maintenance of a domestic surface transportation and storage capability in an emergency.

(j) *Economic stabilization.* Cooperate with the Office of Emergency Planning in the development of economic stabilization policies as they affect domestic surface transportation and storage programs in an emergency.

(k) *Financial aid.* Develop plans and procedures for financial and credit assistance to domestic surface transportation and storage organizations that might need such assistance in various mobilization conditions, particularly those resulting from attack.

SEC. 4. *Cooperation with Department of Defense.* In consonance with national civil defense plans, programs, and operations of the Department of Defense under Executive Order 10952, the Commission shall:

(a) *Chemical, biological, and radiological warfare defense.* Develop plans to participate with Federal, State, and local, and nongovernmental chemical, biological and radiological defense units in the detection and the assessment of chemical, biological and radiological contaminants, and participate in plans for decontamination operations.

(b) *Facilities protection.* Provide industry protection and guidance material adapted to the needs of industries concerned and promote a national program to stimulate disaster preparedness and control in order to minimize the effects of overt or covert attack on domestic surface transportation and storage facilities. Guidance shall include but not be limited to organization and training of facility employees, personnel shelter, evacuation and relocation plans, records protection, continuity of management, emergency repair and recovery of facilities, deconcentration and dispersal of facilities and equipment, and mutual aid associations for emergency.

(c) *Damage assessment.* Maintain a capability to assess the effects of attack on all domestic surface transportation and storage facilities essential to safe and effective surface transportation in a national emergency, and to provide data to the Department of Defense.

SEC. 5. *Research.* Within the framework of the over-all Federal research objectives, the Commission shall supervise or conduct research in areas directly concerned with carrying out assigned emergency preparedness responsibilities, designate representatives for necessary ad hoc or task force groups, and provide advice and assistance to other agencies in planning for research in areas involving the Commission's interest.

SEC. 6. *Functional Guidance.* The Commission, in carrying out the functions assigned in this order, shall be guided by the following:

(a) *Interagency cooperation.* The Commission shall assume the initiative in developing joint plans for the coordination of emergency domestic surface transportation and storage programs of those departments and agencies having responsibility for any segment of such activity. It shall utilize to the maximum those capabilities of other agencies qualified to perform or assist in the performance of assigned functions by contractual or other agreements.

(b) *Presidential coordination.* The Director of the Office of Emergency Planning shall advise and assist the President in determining policy for, and assist him in coordinating the performance of functions under this order with the total national preparedness program.

(c) *Emergency planning.* Emergency plans and programs, and emergency organization structure required thereby, shall be developed as an integral part of the continuing activities of the Commission on the basis that it will have the responsibility for carrying out such programs during an emergency. The Commission shall be prepared to implement all appropriate plans developed under this order. Modifications and temporary organizational changes, based on emergency conditions, will be in accordance with policy determination by the President.

SEC. 7. *Emergency Actions.* Nothing in this order shall be construed as conferring authority under Title III of the Federal Civil Defense Act of 1950, as amended, or otherwise, to put into effect any emergency plan, procedure, policy, program, or course of action prepared or developed pursuant to this order. Such authority is reserved to the President.

SEC. 8. *Redelegation.* The Commission is hereby authorized to redelegate within the Interstate Commerce Commission the functions hereinabove assigned to it.

SEC. 9. *Prior Actions.* To the extent of any inconsistency between the provisions of any prior order and the provisions of this order, the latter shall control. Emergency Preparedness Order No. 15 (heretofore issued by the Director, Office of Civil and Defense Mobilization) (26 F.R. 838–839), is hereby revoked.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 16, 1962.

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

Fishery Biologist; Refuge Manager; Wildlife Biologist

Paragraph (a) of § 24.70 and paragraphs (b) and (c) of § 24.71 are amended and a new § 24.153 is added as set out below.

§ 24.70 Fishery Biologist, GS–482 (all grades and options).

(a) *Educational requirement.* (1) Applicants for nonresearch positions in this series must have successfully completed one of the following:

(i) A full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with at least 30 semester hours of course-work in biological science. This course-work must have included:

(*a*) At least 6 semester hours in aquatic subjects such as limnology, ichthyology, fishery biology, aquatic botany, aquatic fauna, oceanography, fish culture or similar course-work of equivalent basic values in the field of fishery biology; and

(*b*) At least 12 semester hours in the animal sciences in such subjects as general zoology, invertebrate zoology, vertebrate zoology, comparative anatomy, physiology, entomology, parasitology, ecology, cellular biology, genetics, or research in these fields. (Excess course-work in aquatic subjects may be used to meet this requirement when appropriate.)

(ii) Course-work in an accredited college or university which has included at least 30 semester hours in biological science with a minimum of 6 semester hours in aquatic subjects and 12 semester hours in the animal sciences as described in subdivision (i) of this subparagraph, plus additional appropriate experience or education which when combined with the 30 semester hours will total 4 years of education of 4 years of education and experience. The quality of the applicant's total background must be such that it gives him a professional and technical knowledge comparable to that normally acquired through the successful completion of the full 4-year course of study described in subdivision (i) of this subparagraph.

(2) Applicants for research positions in this series must show that they have completed a full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with major study in biology, zoology, or biological oceanography, which has included at least 30 semester hours of course-work in biological and aquatic science and 15 semester hours of course-work in the physical and mathematical sciences. This course-work must have included:

(i) At least 15 semester hours of preparatory training in zoology beyond the introductory courses in biology or zoology in such subjects as invertebrate zoology, comparative anatomy, histology, physiology, embryology, advanced vertebrate zoology, genetics, entomology, and parasitology; and

(ii) At least 6 semester hours of training applicable to fishery biology in such subjects as fishery biology, ichthyology, limnology, oceanography, algology, planktonology, marine or fresh water ecology, invertebrate ecology, principles of fishery population dynamics, or similar course-work of equivalent basic values in the field of fishery biology; and

(iii) At least 15 semester hours of training in any combination of two or more of the following: Chemistry, physics, mathematics, or statistics.

§ 24.71 Refuge Manager, GS–485 (all grades and options).

* * * * *

(b) *Duties.* Refuge Managers perform professional and scientific work in connection with the conservation and management of wildlife, the management of wildlife refuges, and the administration and management of the wildlife refuge system of the Federal Government. This includes determining, establishing, and applying the biological facts, principles, methods, techniques and procedures necessary to preserve, protect and manage wildlife on a state, national and international basis. The wildlife includes waterfowl, big and small game, and unique, vanishing, and other highly important species. The work involves making such technical considerations as weighing the specific biotic, ecologic, nutritional and related requirements of the various species of wildlife, determining the implications of their habits and requirements on management, and deciding the specific methods of management to use to conserve, protect, and manage the species of wildlife under consideration.

(c) *Knowledge and training requisite for performance of duties.* The duties of these positions cannot be performed successfully without a sound basic knowledge of the fundamental biological sciences and specific training in wildlife biology and wildlife management, since the duties of these positions are such that they require an exacting and detailed knowledge of these sciences. The incumbents of these positions must have the ability to apply this professional training and their scientific knowledges to their work in order to solve specific problems, and to interpret and apply research findings, and perform research, both in the field of wildlife biology and in related fields. This requisite training and these required knowledges can only be acquired through the successful completion of a directed course of study in an accredited college or university which has scientific libraries, well equipped laboratories, and thoroughly trained instructors who can evaluate the progress of the professional and scientific training properly.

§ 24.153 Wildlife Biologist, GS–486 (all grades and options).

(a) *Educational requirements.* (1) Applicants for nonresearch positions in this series must have successfully completed one of the following:

(i) A full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with at least 30 semester hours in biological science. This course-work must have included:

(*a*) At least 9 semester hours in such wildlife subjects as mammalogy, ornithology, animal ecology, wildlife management, or research courses in the field of wildlife biology; and

(*b*) At least 12 semester hours in zoology in such subjects as general zoology, invertebrate zoology, vertebrate zoology, comparative anatomy, physiology, genetics, ecology, cellular biology, parasitology, entomology, or research courses in such subjects; and

(c) At least 9 semester hours in botany or related plant sciences. (Excess course-work in wildlife subjects may be used to meet the zoology requirement when appropriate.)

(ii) Course-work in an accredited college or university which included at least 30 semester hours in biological science, with 9 semester hours in wildlife subjects, 12 semester hours in zoology, and 9 semester hours in botany or related plant sciences, as described in subdivision (i) of this subparagraph, plus additional appropriate experience or education which when combined with the 30 semester hours will total 4 years of education or 4 years of education and experience. The quality of the applicant's total background must be such that it gives him a professional and technical knowledge comparable to that normally acquired through the successful completion of the full 4-year course of study described in subdivision (i) of this subparagraph.

(2) Applicants for research positions in this series must show that they have completed a full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with major study in zoology, wildlife biology, and botany, which has included at least 30 semester hours of course-work in biology and 15 semester hours in the physical, mathematical, and earth sciences. This course-work must have included:

(i) At least 12 semester hours in such zoological subjects as invertebrate zoology, vertebrate zoology, comparative anatomy of vertebrates, embryology, animal physiology, entomology, herpetology, parasitology, and genetics; and

(ii) At least 9 semester hours of training applicable to wildlife biology in such subjects as mammalogy, ornithology, animal ecology, wildlife management, principles of population dynamics, or similar course-work of equivalent basic value in the filed of wildlife biology; and

(iii) At least 9 semester hours in the field of botany and related plant sciences; and

(iv) At least 15 semester hours of training in any combination of two or more of the following: chemistry, physics, mathematics, statistics, soils and/or geology.

(b) *Duties.* Wildlife Biologists perform professional and scientific work in connection with the conservation and management of wildlife, or in the determination, establishment and application of the biological facts, principles, methods, and procedures necessary for the preservation, protection and management of wildlife. This may involve (1) study of distribution, habits, life history, and classification of birds, mammals and other forms of wildlife, and of the relationship of these animals to agriculture and other interests throughout the nation; (2) technical consideration of various phases of wildlife management which require a thorough understanding of wildlife and wildlife administration; (3) administration and management of various Federal wildlife programs; and (4) research work which may involve study of the ecology of various forms in their natural environment, life history studies, wild animal nutrition studies, bird and mammal disease investigations, development and testing of methods used to control populations of harmful species, management studies directed toward the management of specific forms or specific areas, etc.

(c) *Knowledge and training requisite for performance of duties.* The duties of these positions cannot be performed successfully without a sound basic knowledge of the fundamental biological sciences and specialized scientific training in wildlife biology, since these duties are such that they require an exacting and detailed knowledge of these sciences. The incumbents of these positions must have the ability to apply their professional training and scientific knowledges to their work in order to solve specific problems, to interpret and apply the results of research both in the field of biology and in closely related fields, or to do wildlife research. This professional training and these required scientific knowledges can only be acquired through the successful completion of a directed course of study in an accredited college or university, which has scientific libraries, well equipped laboratories, and thoroughly trained instructors, who can evaluate the progress of professional and scientific training properly.

(Sec. 11, 58 Stat. 390; 5 U.S.C. 860)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Peanut Butter [1]

On June 10, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 5230) regarding a proposed revision of the United States Standards for Grades of Peanut Butter.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the following United States Standards for Grades of Peanut Butter are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

PRODUCT DESCRIPTION, TEXTURES, TYPES, GRADES

Sec.
52.3061 Product description.
52.3062 Textures of peanut butter.
52.3063 Types of peanut butter.
52.3064 Grades of peanut butter.

FACTORS OF QUALITY

52.3065 Ascertaining the grade.
52.3066 Ascertaining the rating for the factors which are scored.

LOT INSPECTION AND CERTIFICATION

52.3072 Ascertaining the grade of a lot.

SCORE SHEET

52.3073 Score sheet for peanut butter.

AUTHORITY: §§ 52.3061 to 52.3073 issued under secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627.

PRODUCT DESCRIPTION, TEXTURES, TYPES, GRADES

§ 52.3061 Product description.

Peanut butter is a cohesive, comminuted food product prepared from clean, sound, shelled peanuts by grinding or milling properly roasted, mature peanut kernels from which the seed coats have been removed and to which salt is added as a seasoning agent. Suitable seasoning agents other than salt, suitable stabilizing ingredient(s), and ingredient(s) of nutritive value as permitted under the provisions of the Federal Food, Drug, and Cosmetic Act may be added in manufacturing the product. The product is manufactured and packed in accordance with good commercial practice to assure freshness and good keeping quality.

§ 52.3062 Textures of peanut butter.

(a) "Smooth" texture means the peanut butter has a very fine, very even texture with no perceptible grainy peanut particles.

(b) "Medium" texture means the peanut butter has a definite grainy texture with perceptible peanut particles approximating not more than 1/16 inch in any dimension.

(c) "Chunky" or "Crunchy" texture means peanut butter which has a partially fine or partially grainy texture with substantial amounts of peanut particles larger than 1/16 inch in any dimension.

§ 52.3063 Types of peanut butter.

(a) *Stabilized type.* Stabilized peanut butter is any peanut butter prepared (1) by any special process, and/or (2) with any suitable added ingredient(s) designed or intended to stabilize the product.

(b) *Non-stabilized type.* Non-stabilized peanut butter is any peanut butter prepared without special process or added ingredient(s) to stabilize the product.

§ 52.3064 Grades of peanut butter.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of peanut butter that has a good color, that has a good consistency, that is practically free from defects, that has a good flavor and good aroma, that has uniform dispersion of added ingriedient(s), and that scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade C" (or "U.S. Standard") is the quality of peanut butter that has a fairly good color, that has a fairly good consistency, that is fairly free from defects, that has a fairly good flavor and a fairly good aroma, that has reasonably uniform dispersion of added ingredient(s), and that scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of peanut butter that fails to meet the requirements of U.S. Grade C.

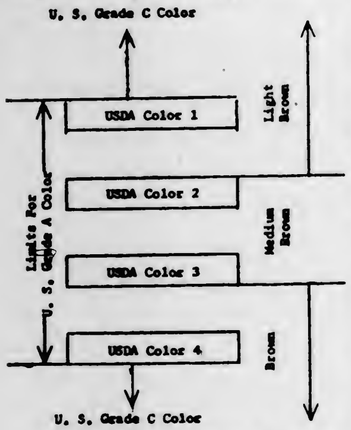
FACTORS OF QUALITY

§ 52.3065 Ascertaining the grade.

The grade of peanut butter may be ascertained by considering, in addition to the requirements of the respective grade, the following factors: Color, consistency, absence of defects, and flavor and aroma. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
(1) Color	20
(2) Consistency	20
(3) Absence of defects	30
(4) Flavor and aroma	30
Total score	100

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and regulations.



§ 52.3066 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.3067 Color.

(a) *General.* The color of peanut butter refers to the color hue and color intensity of the overall mass, regardless of the texture and regardless of the variety of peanuts from which prepared.

(b) *Color standards.* Peanut butter color may be classified in accordance with the following outline for the applicable U.S. Department of Agriculture Color Standards (hereinafter, as may be referred to as "USDA Colors"):

(c) The U.S. Department of Agriculture Color Standards shall be viewed under standard lighting conditions as follows: Compare the color of the colar standard with a representative sample of peanut butter having an area and depth approximately equal to the color standard. A suitable light source of approximately 250 foot candle intensity and having a spectral quality approximating that of daylight under a moderately overcast sky and a color temperature of 7500 degrees Kelvin ±200 degrees is preferable. With the light source directly over the color standard and product, observation is made at an angle of 45 degrees and at a distance of about 24 inches from the product.

(d) (*A*) *classification.* Peanut butter that has a good color may be given a score of 18 to 20 points. "Good Color" means a rich color typical of peanut butter prepared from properly roasted peanuts and otherwise properly processed peanut butter; such typical color is no less brown than USDA Color 1 or no more brown than USDA Color 4, and is without any tinge of a dull, grey, or other abnormal cast.

(e) (*C*) *classification.* Peanut butter that has a fairly good color may be given a score of 16 or 17 points. Peanut butter that scores in this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means color typical of peanut butter prepared from properly roasted peanuts and otherwise properly processed peanut butter; such typical color may be slightly dull and/or may have a slight grey cast; may be lighter brown in color than USDA Color 1 but is not excessively pale as indicative of insufficient roasting; or, such typical color may be more brown than USDA Color 4 but is not excessively brown as indicative of excessive roasting.

(f) (*SStd*) *classification.* Peanut butter that is off color for any reason or that fails to meet the requirements of paragraph (e) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3068 Consistency.

(a) *General.* The factor of consistency refers to the spreadability of the product, and to the degree of oil separation, if any.

(b) *Determination of consistency.* Consistency of peanut butter is determined at a product temperature of not less than 70° F. nor more than 80° F. without mixing the product in the stabilized type, and after reasonable mixing of the product in the non-stabilized type.

(c) (*A*) *classification.* Peanut butter that has good consistency may be given a score of 18 to 20 points. "Good consistency" means that the peanut butter shall spread easily, shall not be thin nor more than slightly stiff; and, in addition to the foregoing: (1) In stabilized type of peanut butter, there is no noticeable oil separation or (2) in non-stabilized type of peanut butter, there is no more than slight mixing required to disperse any separated oil.

(d) (*C*) *classification.* Peanut butter that has fairly good consistency may be given a score of 16 or 17 points. Peanut butter that scores in this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good consistency" means that the peanut butter is spreadable; may be moderately, but not excessively, thin; may be moderately, but not excessively, stiff; and, in addition to the foregoing: (1) In stabilized type of peanut butter, there may be no more than slightly noticeable oil separation or (2) in non-stabilized peanut butter, there may be no excessive oil separation that causes noticeable dryness or that requires more than moderate mixing to disperse the oil.

(e) (*SStd*) *classification.* Peanut butter that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3069 Absence of defects.

(a) *General.* The factor of absence of defect refers to the degree of freedom from dark particles and from any other defects (including water-insoluble inorganic residue) which affect the wholesomeness or detract from the appearance or edibility of the product.

(b) *Definition of water-insoluble inorganic residue.* "Water-insoluble inorganic residue" means water-insoluble inorganic residue as determined in accordance with an applicable method referenced in § 52.3071.

(c) (*A*) *classification.* Peanut butter that is practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that the presence of dark particles and any other defects does not more than slightly affect the appearance or eating quality of the product; and means that there may be present not more than 5 milligrams of water-insoluble inorganic residue per 100 grams of peanut butter: *Provided*, That such residue which may be present does not affect the edibility or wholesomeness of the product.

(d) (*C*) *classification.* Peanut butter that is fairly free from defects may be given a score of 24 to 26 points. Peanut butter that falls into this classification shall not be graded above U.S. Grade C regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the presence of dark particles and any other defects does not more than materially affect the appearance or eating quality of the product; and means that there may be present not more than 20 milligrams of water-insoluble inorganic residue per 100 grams of peanut butter: *Provided*, That such residue which may be present does not affect the edibility or wholesomeness of the product.

(e) (*SStd*) *classification.* Peanut butter that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3070 Flavor and aroma.

(a) (*A*) *classification.* Peanut butter that has a good flavor and good aroma may be given a score of 27 to 30 points. "Good flavor and good aroma" means a flavor and aroma typical of freshly roasted and freshly ground peanuts and of properly proportioned and blended materials, free from staleness, free from rancidity, and free from objectionable flavors and objectionable odors of any kind. To score in this classification, there may be not less than 1.0 percent, nor more than 1.8 percent, by weight, of salt in the finished peanut butter.

(b) (*C*) *classification.* Peanut butter that has fairly good flavor and fairly good aroma may be given a score of 24 to 26 points. Peanut butter that scores in this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good flavor and fairly good aroma" means a flavor and aroma that is typical of properly prepared peanut butter, which may be lacking good flavor and good aroma, but is free of objectionable flavors and objectionable aromas of any kind. To score in this classification there may be not less than 0.5 percent, nor more than 2.5 percent, by weight, of salt in the finished peanut butter.

(c) (*SStd*) *classification.* Peanut butter that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.3071 Methods of analysis for water-insoluble inorganic residue and salt.

The water-insoluble inorganic residues and salt in peanut butter is determined in accordance with the latest official method outlined in the Official Methods of Analysis of the Association of Official Agricultural Chemists or any other method that gives equivalent results.

LOT INSPECTION AND CERTIFICATION

§ 52.3072 Ascertaining the grade of a lot.

The grade of a lot of peanut butter covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

Chapter III—Agricultural Research Service, Department of Agriculture

PART 318—TERRITORIAL QUARANTINE NOTICES

Subpart—Hawaiian Fruits and Vegetables

ADMINISTRATIVE INSTRUCTIONS APPROVING METHYL BROMIDE FUMIGATION AS A CONDITION FOR CERTIFICATION OF TOMATOES FOR MOVEMENT FROM HAWAII

Pursuant to the authority conferred by § 318.13–4(b) of the regulations (7 CFR 318.13–4(b)) supplemental to the Hawaiian Fruits and Vegetables Quarantine (Notice of Quarantine No. 13, 7 CFR 318.13), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 161, 162), administrative instructions to be designated as 7 CFR 318.13–4d are hereby issued to read as follows:

§ 318.13–4d Administrative instructions approving methyl bromide fumigation as a condition for certification of tomatoes for movement from Hawaii.

The Director of the Plant Quarantine Division hereby approves methyl bromide fumigation, applied in accordance with the provisions of this section, as a treatment for tomatoes from Hawaii. Tomatoes treated and handled as provided in this section may be certified for movement from Hawaii to other parts of the United States.

(a) *Approved fumigation.* (1) The approved fumigation shall consist of fumigation with methyl bromide at normal atmospheric pressure, in a fumigation chamber which has been approved for that purpose by the Plant Quarantine Division. The dosage shall be applied at the rate of 2 pounds per 1,000 cubic feet for 3½ hours at 70° F. or above.

(2) Tomatoes to be fumigated may be individually wrapped in gas-permeable tissue paper and packed in standard slatted tomato lugs or containers similarly vented. The fumigation chamber shall not be loaded to more than two-thirds of its capacity. The 3½-hour exposure period shall begin when all the fumigant has been introduced into the chamber and volatilized. Good circulation above and below the load, and between individual containers, shall be provided as soon as the tomatoes are loaded in the chamber and shall continue during the full period of fumigation and until the tomatoes have been removed to a well-ventilated location.

(b) *Supervision of treatments and subsequent handling.* The treatment approved in this section and the subsequent handling of the tomatoes so treated must be under the supervision of a plant quarantine inspector of the Plant Quarantine Division. Such treated tomatoes must be safeguarded against reinfestation during the period prior to movement from Hawaii in a manner satisfactory to the inspector. Certification of tomatoes for such movement will be made only upon compliance with the prescribed treatment and posttreatment safeguards.

(c) *Costs.* All costs of the treatments and prescribed posttreatment safeguards provided for in this section, other than the services of the supervising inspector during regularly assigned hours of duty and at the usual place of duty, shall, as required by § 318.13–4(b), be borne by the owner of the tomatoes, or his representative.

(d) *Department not responsible for damage.* (1) This treatment is recognized as one which may be marginal as to varietal tolerance of tomatoes and the owner or shipper is warned of possible injury. The Department of Agriculture and its inspectors assume no responsibility for any loss or damage resulting from any treatment prescribed or supervised.

(2) In test fumigations the following varieties of tomatoes indicated tolerance to the prescribed treatment when harvested early in the season and in the mature stage after some color development: Big Boy, Bounty, Break O Day, Burpee Hybrid, Earliana, Hawaii, Homestead, J. Moran, Kalohi, Kauai, Lanai, Marglobe, Maui, Niihau, N–46, Oahu, Pearson, Pritchard, Rutgers, San Malzano, Step 274, Step 278, Step 280, Step 281, Step 305, and Step 314. Varieties showing poor tolerance were Desert Pride, Kolea C. Manalucie, and Pennheart.

(Sec. 9, 37 Stat. 318; 7 U.S.C. 162; 19 F.R. 74, as amended, and 7 CFR 318.13–4(b). Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U.S.C. 161)

These administrative instructions shall become effective February 20, 1962.

Heretofore vapor-heat treatment has been the only method available for treating tomatoes as a means of certifying them for interstate movement from Hawaii. Therefore, the provision in these instructions for a methyl bromide fumigation treatment as an alternate condition for certification is a lessening of restrictions. In order to be of maximum benefit to affected persons these instructions should be made effective as soon as possible. Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to these instructions are impracticable and they may be made effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of February 1962.

[SEAL] G. F. CALLAGHAN,
Acting Director,
Plant Quarantine Division.

[F.R. Doc. 62–1686; Filed, Feb. 19, 1962; 8:45 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 62-WA-17]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration

Correction

In F.R. Doc. 62-1604 appearing at page 1454 of the issue for Friday, February 16, 1962, the following correction is made in first line of the paragraph designated "4." appearing in the first column on page 1455: the section designation presently reading "§600.615" is changed to read "§ 600.6165".

[Airspace Docket No. 61-WA-40]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Designation of Federal Airway and Associated Control Areas

On April 25, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 3540) stating that the Federal Aviation Agency (FAA) proposed the designation of low altitude VOR Federal airway No. 524 from the Laramie, Wyo., VOR via the intersection of the Laramie VOR 069° and the Scottsbluff, Nebr., VORTAC 254° True radials; to the Scottsbluff VORTAC. The stated intention was to provide continuity in the low altitude airway structure and provide an additional low altitude route for VOR equipped aircraft operating between Laramie and Scottsbluff. It was further stated that to implement, in part, Civil Air Regulations, Part 60, Air Traffic Rules, Amendment 60-21 (26 F.R. 5070), it was proposed to designate the control areas associated with the airway to extend upward from at least 1,200 feet above the surface, or if appropriate, 500 feet below the minimum IFR en route altitude, when established, to the base of the continental control area.

On July 29, 1961, a supplemental notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 6817) amending the original notice by proposing that the control area associated with Victor 524 from Laramie to Scottsbluff extend upward from 700 feet above the surface to the base of the continental control area until such time as all control areas associated with other airways in the vicinity of Laramie and Scottsbluff can be altered by application of CAR Amendment 60-21.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice and supplemental notice, Part 600 (14 CFR Part 600) and Part 601 (14 CFR Part 601) are amended by adding the following sections:

§ 600.6524 VOR Federal airway No. 524 (Laramie, Wyo., to Scottsbluff, Nebr.).

From the Laramie, Wyo., VOR via the INT of the Laramie VOR 069° and the Scottsbluff, Nebr., VORTAC 254° radials; to the Scottsbluff VORTAC.

§ 601.6524 VOR Federal airway No. 524 control areas (Laramie, Wyo., to Scottsbluff, Nebr.).

All of VOR Federal airway No. 524.

These amendments shall become effective 0001, e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 13, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1679; Filed, Feb. 19, 1962; 8:45 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55565]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Wools and Hair of the Camel for Use in Manufacturing Floor Coverings and Other Articles

The overall purpose of this amendment is primarily to simplify the procedure for establishing proof of use and accounting for wool and hair imported for the purposes named in paragraph 1101(b) by imposing full responsibility on the manufacturer, processor, or dealer entering or withdrawing the wool or hair from warehouse for consumption to account for any change in condition of the material and to establish proof of use. Transfer certificates will be required only when such manufacturer, processor, or dealer transfers all his right, title, and interest in the merchandise to another manufacturer, processor, or dealer who has filed a bond to insure that the wool or hair so transferred will be used only in the manufacture of the articles enumerated in paragraph 1101(b). The person responsible under a bond may in the case of any other transfer specifically request that he be relieved of such liability. In such a case the transferee must assume liability under a sufficient bond to insure accounting for and proper use of the material involved. On-the-site test-audit of the abstract of the manufacturing records of the owner would also be provided for.

The responsibility to account for any change in the condition of the wool will remain with the party whose bond is charged with this responsibility. If any change in the condition of the wool or hair occurs in the plant of such party, no evidence of such change other than the related abstract will be required by the collector, as such change will be recorded in the books and records of the manufacturer, processor, or dealer, which will be available for inspection at all reasonable times as prescribed by § 10.95(c) of the Customs Regulations. If any change in the wool or hair occurs outside the plant of such party, the transferor will be required to submit to the collector, with a transfer certificate in the case of the dealer or with an abstract of Manufacturing Records in the case of a manufacturer, a copy of the independent processor's invoice or report showing the gross weight received and the net weight returned by such processor.

Section 10.92(b) is amended by deleting the reference symbol "85" at the end of the sentence.

Footnote 85, appended to § 10.92(b), is deleted, as a transfer under bond is not required when merely a change of custody (not ownership) occurs.

(Par. 1101, sec. 1, 46 Stat. 646, as amended; 19 U.S.C. 1001, par. 1101)

Section 10.94 is amended to read as follows:

§ 10.94 Manufacturing records.

(a) Each manufacturer or processor shall keep the records specified in this section with respect to products and substances resulting wholly or in part from bonded wool or hair. Such records shall be kept by 3-month periods of manufacture on a calendar-year basis and shall show:

(1) The inclusive dates of each period of manufacture;

(2) The quantity, identity, and description of the wool or hair not previously processed by the reporting manufacturer or processor put into process during the period;

(3) The quantity and description of all intermediate products, stocks in process, and wastes (including noils) not described in the preceding subdivision which are put into process during the period; [86]

(4) The quantity and description of the final products resulting from the processing by the manufacturer or processor; the quantity by weight of the wool or hair contained therein; and

(5) The quantity of any wastes (including noils) incurred which remain on hand upon completion of the period of manufacture. Such wastes shall be accounted for under the following designations:

Noils—
Soft (including all wastes, except noils, top wastes, card strippings, and sweepings, produced after the scouring of the wool or hair and before the spinning operation).

Hard (including all wastes, except sweepings, produced in and after the spinning operation but before completion of the weaving operation or, in the case of the manufacture of articles enumerated in paragraph 1101(b), Tariff Act of 1930, as amended, which are not woven, before the completion of the enumerated article).

Fly (including all wastes other than noils and hard and soft wastes as above specified).

White soft wastes and white threads shall be accounted for separately.

(b) The records of each manufacturer or processor shall contain a detailed inventory of all wool and hair on hand at the close of each abstract period.

(b) When the manufacturer of any enumerated articles spins the yarns used in the manufacture thereof, he shall also keep records showing the quantity and description of all the yarns so spun.

(c) Within 30 days from the end of each calendar quarter the manufacturer or processor, liable under a bond for wool or hair, shall submit to the collector of customs where his original bond has been filed an abstract of his records on customs Form 7531-B. The abstract shall be supported by copies of the processor's returns (showing the processing losses and net returns) for any bonded wool or hair processed outside the plant of the manufacturer or processor submitting such abstract. When a bonded manufacturer or processor has not manufactured or processed any bonded wool or hair during the 3-months period he shall promptly so advise the collector of customs.

(d) Each such abstract shall bear the following certificate of an authorized officer or member of the firm:

I, ----------, certify that this document is a true and correct abstract of our records of manufacture; that such records have been kept in the manner prescribed by § 10.94, Customs Regulations.

All wastes reported herein as resulting from operations in our plant resulted in the usual course of manufacture of articles enumerated in paragraph 1101(b), Tariff Act of 1930, as amended, except as follows:

All wool or hair delivered from our plant during the period covered by this abstract, under a transfer certificate or otherwise, has been listed herein.

Dated ----------

(Title)

(e) In the case of preliminary processors, such as pullers, sorters, washers, scourers, or carbonizers, a transfer certificate on customs Form 7531-A, revised, covering wool or hair processed and transferred by any one of them, shall be submitted to the collector of customs as an abstract of his records of manufacture, when such processor has received custody (not ownership) of the wool or hair from a transferor who has been relieved by the collector of liability under bond for the use of the wool or hair in accordance with § 10.95(d).

(Par. 1101, 46 Stat. 646, as amended; 19 U.S.C. 1001, par. 1101)

Section 10.95 is amended to read as follows:

§ 10.95 Records and reports of enumerated articles of wool or hair delivered; transfer certificates.

(a) Each manufacturer, processor, or dealer shall keep records showing the quantity, description, and wool or hair content of all wool or hair (including samples) and enumerated articles delivered from his premises pursuant to transfer under bond, purchase, consignment, or otherwise. Such records shall also show the date of delivery from the premises and the name and address of the transferee, purchaser, consignee, or other person to whom delivery is made. The records shall show also the exact designation under which any wool or hair was transferred, sold, consigned, or otherwise delivered and the price paid or agreed to be paid, or if there has been no sale or contract of sale, the price that the manufacturer, processor, or dealer would have received or was willing to receive for the wool or hair if sold in the ordinary course of trade. The total amounts of the deliveries within the purview of this paragraph, except of enumerated articles, shall be included in the totals shown on the abstract prescribed in § 10.94(c).

(b) Within 30 days after the delivery of wool or hair from the premises, otherwise than under a transfer certificate provided for in paragraph (d) of this section, the manufacturer, processor, or dealer making such delivery shall file a declaration with the collector of customs in whose district his original bond is filed, showing the quantity and description of merchandise delivered, the date of delivery, and the name and address of the person to whom delivered. The declaration shall show the particulars as to price specified in paragraph (a) of this section, whether representative samples have been retained, whether the merchandise resulted in the usual course of manufacture of enumerated articles, and whether such merchandise could have been used (with or without further preparation) in the manufacture of enumerated articles.

(c) The manufacturer, processor, or dealer shall retain for customs inspection a representative sample of not less than one pound of each kind of merchandise for which a report is required by §10.96 (a) or (b). Such sample shall be properly identified in his records with the report covering such merchandise and shall be available for inspection by proper officers of the Government at all reasonable times for a period of 3 months after its delivery.

(d) When the ownership of wool or hair is transferred by one bonded manufacturer, processor, or dealer to another manufacturer, processor, or dealer the transfer shall be covered by a transfer certificate on customs Form 7531-A, revised. When a transferor transfers custody (not ownership) of wool or hair, no transfer certificate is required unless the transferor in writing specifically requests the collector of customs to be relieved of his liability under his bond.[86a] When the transfer is made by a dealer, customs Form 7531-A shall be supported by copies of processors' invoices or reports (showing processing losses and net returns) for any wool or hair processed outside the custody of the dealer. Such transfer certificates shall be filed by the dealer within 30 days after the date of the transfer. When the transfer is made by a manufacturer or processor, it shall be filed within the quarterly period allowed for the filing of the abstract on which the transfer is required to be reported. When the original bonds of both the transferor and the transferee are on file in the office of one collector of customs, the transfer certificate shall be filed with that officer in duplicate. When the original bond of the transferee is on file in another customs district, the transfer certificate shall be filed in triplicate. The transferor shall not be relieved from liability under his bond until the transferred wool or hair has been charged against the bond of the transferee.

(e) The establishments of bonded manufacturers, processors, and dealers, and the originals of all books and records kept by such manufacturers, processors, and dealers relating to bonded wool or hair shall be available at all reasonable times for inspection by proper officers of the Government.

(f) All records required to be kept by manufacturers, processors, and dealers relating to bonded wool or hair shall be retained for a period of 3 years after the imported wool or hair has been used in the manufacture of the articles enumerated in paragraph 1101(b), Tariff Act of 1930, as amended. Where the wool or hair has been charged against the bond of a transferee, the records of the transferor shall be retained for a period of 3 years from the date of the transfer.

(Par. 1101, sec. 1, 46 Stat. 646, as amended; 19 U.S.C. 1001, par. 1101)

Part 10 is amended to amend footnote 86 and to add a new footnote designated 86a reading as follows:

[86] This applies only to materials carried over from a previous period and does not require the keeping of records of materials which are put back into process in the same period in which they resulted.

[86a] Normally, when wool or hair is transferred, for scouring, blending, etc., the liability therefor under bond will remain with the actual owner until a change of ownership is effected.

Notice of the proposed issuance of the foregoing amendments was published in the FEDERAL REGISTER on December 6, 1961 (26 F.R. 11683), pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 1003). No data, views, or arguments in opposition to the amendments were received and the amendments set forth above are hereby adopted.

These amendments shall be effective on the first day of the second calendar quarter of 1962, that is, April 1, 1962.

[SEAL] PHILIP NICHOLS, Jr.,
Commissioner of Customs.

Approved: February 14, 1962.

JAMES A. REED,
Assistant Secretary of the Treasury.

[T.D. 55867]

PART 16—LIQUIDATION OF DUTIES

Countervailing Duties, Silk and Manufactures of Silk From the United Kingdom

The Bureau has determined that effective October 1, 1961, no bounties or grants within the purview of section 303, Tariff Act of 1930 (19 U.S.C. 1303), are being, or are likely to be, paid or bestowed upon the manufacture, production, or export of silk and manufactures of silk from the United Kingdom of Great Britain and Northern Ireland, imported directly or indirectly into the United States. Accordingly, T.D.s 53476 and 55023 are hereby superseded with respect to all silk and manufactures of silk exported from the United Kingdom on and after October 1, 1961, which are or will be entered, or withdrawn from warehouse, for consumption, and which have not been liquidated, or the liquidation of which has not become final, on the date of publication of this Treasury decision in the FEDERAL REGISTER.

To reflect this change and to delete references to certain Treasury decisions no longer applicable, the listings for the commodity "silk and silk articles" under the country "Great Britain" in the table in § 16.24(f) of the Customs Regulations are amended to read as follows:

Country	Commodity	Treasury Decision	Action
Great Britain	Silk and silk articles	53476	New rates and additional articles.
		55023	Do.
		55567	Discontinued as to shipments exported on or after Oct. 1, 1961

(R.S. 251, secs. 303, 624, 46 Stat. 687, 759; 19 U.S.C. 66, 1303, 1624)

[SEAL] PHILIP NICHOLS, Jr.,
Commissioner of Customs.

Approved: Feb. 13, 1962.

JAMES A. REED,
Assistant Secretary of the Treasury.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

PARAFORMALDEHYDE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by the Department of Microbiology and Public Health, Michigan State University, East Lansing, Michigan, and other relevant material, has concluded that the following regulation should issue, with respect to the use of paraformaldehyde in maple trees to control microbial or fungal growth and to residues of formaldehyde occurring in maple sirup processed from the sap of such maple trees so treated. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR Part 121) are amended by adding to Subpart D the following new section:

§ 121.1079 Paraformaldehyde.

The food additive paraformaldehyde may be safely used in accordance with the following prescribed conditions.

(a) It is used to control microbial or fungal growth in maple tree tapholes.

(b) It is so used that the maple sirup produced from the sap of treated maple trees does not contain in excess of 2 parts per million of formaldehyde.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4))

Dated: February 13, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

Equipment From a Communist Country

1. Paragraph (c) of § 102.110, 45 CFR (25 F.R. 3257, April 15, 1960, as amended by 25 F.R. 9850, October 14, 1960), issued pursuant to Title VIII of the National Defense Education Act of 1958, as amended (72 Stat. 1597), 20 U.S.C. 15aaa–15ggg, and dealing with the provision in the Department of Health, Education, and Welfare Appropriation Acts for the 1960 and 1961 fiscal years (73 Stat. 339, 346; 74 Stat. 755, 762) which specify that funds appropriated for "Defense Educational Activities" may not be used for the purchase of teaching equipment which originated in or was exported from a Communist country, unless such equipment is unavailable from any other source, is amended to refer to a similar provision contained in the Department of Health, Education, and Welfare Appropriation Act for the 1962 fiscal year (75 Stat. 589, 596). Paragraph (c) as amended reads as follows:

§ 102.110 Instructional equipment and supplies.

* * * * *

(c) The Department of Health, Education, and Welfare Appropriation Acts, 1960 (73 Stat. 339, 346), 1961 (74 Stat. 755, 762), and 1962 (75 Stat. 589, 596), provide that no part of the funds appropriated for "Defense Educational Activities" shall be available for the purchase of science, mathematics, or modern language teaching equipment, or equipment suitable for use for teaching in such fields of education, which can be identified as originating in or having been exported from a Communist country, unless such equipment is unavailable from any other source. This prohibition applies to expenditures with respect to which Federal participation is requested from allotments made for fiscal years 1960, 1961, and 1962 under section 302 of the George-Barden Act.

(Sec. 1001, 72 Stat. 1602; 20 U.S.C. 581)

2. Paragraph (c) of § 141.11, 45 CFR (25 F.R. 3257, April 15, 1960, as amended by 25 F.R. 9850, October 14, 1960), issued pursuant to sections 301–304 of Title III of the National Defense Education Act of 1958, as amended (72 Stat. 1580), 20 U.S.C. 441–444, and dealing with the provision in the Department of Health, Education, and Welfare Appropriation Acts for the 1960 and 1961 fiscal years (73 Stat. 339, 346; 74 Stat. 755, 762) which specify that funds appropriated for "Defense Educational Activities" may not be used for the purchase of teaching equipment which originated in or was exported from a Communist country, unless such equipment is unavailable from any other source, is amended to refer to a similar provision contained in the Department of Health, Education, and Welfare Appropriation Act for the 1962 fiscal year (75 Stat. 589, 596). Paragraph (c) as amended reads as follows:

§ 141.11 Federal participation in general.

* * * * *

(c) *Equipment from a Communist country.* The Department of Health, Education, and Welfare Appropriation Acts, 1960 (73 Stat. 339, 346), 1961 (74 Stat. 755, 762), and 1962 (75 Stat. 589, 596), provide that no part of the funds appropriated for "Defense Educational Activities" shall be available for the purchase of science, mathematics or modern language teaching equipment, or equipment suitable for use for teaching in such fields of education, which can be identified as originating in or having been exported from a Communist country, unless such equipment is unavailable from any other source. This prohibition applies to expenditures with respect to which Federal participation is requested from allotments made for fiscal years 1960, 1961, and 1962 under section 302 of the George-Barden Act.

(Sec. 1001, 72 Stat. 1602; 20 U.S.C. 581)

3. Paragraph (g) of § 142.11, 45 CFR (25 F.R. 3257, April 15, 1960, as amended by 25 F.R. 9850, October 14, 1960), issued pursuant to section 305 of Title III of the National Defense Education Act of 1958, as amended (72 Stat. 1590), 20 U.S.C. 445, and dealing with the provision in the Department of Health, Education, and Welfare Appropriation Acts for the 1960 and 1961 fiscal years (73 Stat. 339, 346; 74 Stat. 755, 762) which specify that funds appropriated for "Defense Educational Activities" may not be used for the purchase of teaching equipment which originated in or was exported from a Communist country, unless such equipment is unavailable from any other source, is amended to refer to a similar provision contained in the Department of Health, Education, and Welfare Appropriation Act for the 1962 fiscal year (75 Stat. 589, 596). Paragraph (g) as amended reads as follows:

§ 142.11 Loan conditions.

* * * * *

(g) *Equipment from a Communist country.* The Department of Health, Education, and Welfare Appropriation Acts, 1960 (73 Stat. 339, 346), 1961 (74 Stat. 755, 762), and 1962 (75 Stat. 589, 596), provide that no part of the funds appropriated for "Defense Educational Activities" shall be available for the purchase of science, mathematics or modern language teaching equipment, or equipment suitable for use for teaching in such fields of education, which can be identified as originating in or having been exported from a Communist country, unless such equipment is unavailable from any other source. Accordingly, this condition applies to all loans made from the appropriations for the fiscal years 1960, 1961, and 1962. A violation of this condition will constitute a misuse of funds which shall cause them to become immediately payable in full together with all interest accrued thereon. Inquiry should be made of the Commissioner if the borrower has any question whether a specific proposed use of loan funds might violate this condition.

(Sec. 1001, 72 Stat. 1602; 20 U.S.C. 581)

4. Paragraph (b) of § 143.12, 45 CFR (25 F.R. 3257, April 15, 1960, as amended by 25 F.R. 9850, October 14, 1960), issued pursuant to sections 501–504 of Title V of the National Defense Education Act of 1958, as amended (72 Stat. 1959), 20 U.S.C. 481–484, and dealing with the provision in the Department of Health, Education, and Welfare Appropriation Acts for the 1960 and 1961 fiscal years (73 Stat. 339, 346; 74 Stat. 755, 762) which specify that funds appropriated for "Defense Educational Activities" may not be used for the purchase of teaching equipment which originated in or was exported from a Communist country, unless such equipment is unavailable from any other source, is amended to refer to a similar provision contained in the Department of Health, Education, and Welfare Appropriation Act for the 1962 fiscal year (75 Stat. 589, 596). Paragraph (b) as amended reads as follows:

§ 143.12 Federal participation in general.

* * * * *

(b) *Equipment from a Communist country.* The Department of Health, Education, and Welfare Appropriation Acts, 1960 (73 Stat. 339, 346), 1961 (74 Stat. 755, 762), and 1962 (75 Stat. 589, 596), provide that no part of the funds appropriated for "Defense Educational Activities" shall be available for the purchase of science, mathematics or modern language teaching equipment, or equipment suitable for use for teaching in such fields of education, which can be identified as originating in or having been exported from a Communist country, unless such equipment is unavailable from any other source. This prohibition applies to expenditures with respect to which Federal participation is requested from allotments made for fiscal years 1960, 1961, and 1962 under section 502 or section 1008 of the Act.

(Sec. 1001, 72 Stat. 1602; 20 U.S.C. 581)

Dated: February 1, 1962.

[SEAL] WAYNE O. REED,
Acting U.S. Commissioner of Education.

Approved: February 14, 1962.

IVAN A. NESTINGEN,
Acting Secretary.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 160]

GRAZING LEASES

Notice of Proposed Rule Making

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Act of June 28, 1934 (48 Stat. 1269, 43 U.S.C. 315, 315a–315r), as amended and supplemented, it is proposed to amend the regulations issued under the said act as set forth below. The purpose of these amendments is to add regulation governing the issuance of crossing permits and to provide regulation concerning grazing trespass.

It is the policy of the Department, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Bureau of Land Management, Washington 25, D.C., within thirty (30) days of publication of this notice in the FEDERAL REGISTER.

I. The caption of § 160.14 is amended and a new paragraph (e) is provided as follows:

§ 160.14 Rentals; schedule of grazing fees; billing notices; effects of failure to pay; crossing permits.

* * * * *

(e) *Crossing permits.* Upon application filed with the authorized officer by any person showing the necessity for crossing the Federal land with livestock for proper and lawful purposes, a crossing permit may be issued to him at a charge, payable in advance, of one cent per head per day for cattle, two cents per head per day for horses, and one-fifth cent per head per day for sheep and goats. A minimum charge of $10 will be made for each crossing permit, except that no fee will be charged where the trail to be used is so limited and defined that no substantial amount of forage will be consumed in transit.

2. Sections 160.22 and 160.23 are renumbered § 160.23 and § 160.24, respectively, and a new § 160.22 is added as follows:

§ 160.22 Trespass.

(a) Grazing livestock upon, allowing livestock to drift and graze on, or driving livestock across lands that are subject to lease or permit under the provisions of this Part or within a stock driveway, without a lease or other authorization from the Bureau of Land Management, is prohibited and constitutes trespass. Trespassers will be liable in damages to the United States for the forage consumed and for injury to Federal property, and may be subject to civil and criminal prosecution for such unlawful acts.

(b) A lessee who grazes livestock in violation of the terms and conditions of his lease by exceeding numbers specified, or by allowing the livestock to be on Federal land in an area or at a time different from that designated shall be in default and shall be subject to the provisions of § 160.19. In addition he may be subject to trespass action in accordance with the practices and procedures indicated in § 161.12 (a), (c) (1), (2), (3), (4), (d), and (g) of this chapter, modified so far as practicable and necessary to include Federal land outside of established grazing districts.

(c) When the alleged trespasser is not a lessee of lands under the regulations of this Part, the signing officer may take action against the trespasser in accordance with the practices and procedures in § 161.12 (a), (c) (1), (2), (3), (4), (d), and (g) of this chapter modified so far as practicable and necessary to include lands subject to lease under the provisions of this Part or within a stock driveway.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

FEBRUARY 14, 1962.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Ch. IX]

[Docket No. A0342]

POTATOES

Notice of Hearing With Respect to Proposed National Marketing Agreement and Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended, 7 U.S.C. 601–674), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the times and places hereinafter specified with respect to a proposed national marketing agreement and order for potatoes. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture.

The public hearing will be held at the New Commodore Hotel, 42d Street and Lexington Avenue, New York, New York, March 12–17, 1962; Secor Hotel, Jefferson and Superior Streets, Toledo, Ohio, March 19–21, 1962; Radisson Hotel, 45 South 7th Street, Minneapolis, Minnesota, March 22–24, 1962; Latter Day Saints Hall, 140 North Garfield Street, Pocatello, Idaho, March 26–31, 1962; Bakersfield Inn, Bakersfield, California, April 2–4, 1962; Amarillo Municipal Auditorium, 5th and Buchanan Streets, Amarillo, Texas, April 6–7, 1962; and Henry Grady Hotel, 210 Peachtree Street, Atlanta, Georgia, beginning April 9, 1962. The first day's session of the hearing will commence at 10:00 a.m., local time and on succeeding days as designated by the presiding officer.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to provisions of the proposed marketing agreement and order as hereinafter set forth and to any appropriate modifications thereof.

Upon request of the National Potato Council, a National Potato Advisory Committee was appointed for the purpose, among others, of making recommendations to the Secretary of Agriculture concerning whether a national marketing agreement and order regulating the handling of potatoes would tend to effectuate the declared policy of the act. After detailed deliberations and discussions at several meetings, the National Potato Advisory Committee drafted the following proposed marketing agreement and order regulating the handling of potatoes and requested a hearing thereon at the locations specified.

DEFINITIONS

§ ——.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department of Agriculture to whom authority has heretofore been delegated, or to whom authority hereafter may be delegated, to act in his stead.

§ ——.2 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

§ ——.3 Person.

"Person" means an individual, partnership, corporation, association, legal representative, or any organized group or business unit of individuals.

§ ——.4 Production area.

"Production area" means the 48 contiguous States and the District of Columbia of the United States of America.

§ ——.5 Potatoes.

"Potatoes" means and includes all varieties of Irish potatoes grown within the production area.

§ ——.6 Seed potatoes.

"Seed potatoes" or "seed" means any lot of potatoes certified by the official seed certification agency of the State shown, or other seed certification agencies which the Board, with the Secretary's approval, may designate, and bearing the official tags, seals, or other appropriate means of identifying certification.

§ ——.7 Handler.

"Handler" is synonymous with "shipper" and means any person, except a common or contract carrier of potatoes owned by another person, who handles potatoes.

§ ——.8 Handle or ship.

"Handle" or "ship" means to purchase, acquire, package, transport, sell, or in any way to place potatoes in the current of commerce, or so as to directly burden, obstruct or affect the current of commerce.

§ ——.9 Producer.

"Producer" means any person producing in excess of two acres of potatoes for market.

§ ——.10 Administrative agencies.

"Administrative agencies" means the National Potato Administrative Board, hereinafter referred to as the "Board," the National Potato Committee, and each divisional and special committee established hereunder for administration of this part.

§ ——.11 Fiscal period.

"Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the Board.

§ ——.12 Grade, size and maturity.

"Grade" means any of the grades, "size" means any of the sizes, and "maturity" means any of the stages of development or condition of the outer skin (epidermis), as defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1556, inclusive of this title), or official grades established by any state for the potatoes grown therein, or amendments thereto. These definitions include modifications or variations based on the foregoing.

§ ——.13 Varieties.

"Varieties" means all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ ——.14 Pack.

"Pack" means a quantity of potatoes in any type or condition of container, with specific weight limits, numerical limits, grade limits, size limits, or any combination of these, recommended by the Board and approved by the Secretary.

§ ——.15 Container.

"Container" means a sack, bag, crate, carton, box, basket, barrel, or bulk load or any other receptacle used in the packing, transportation, or sale of potatoes.

§ ——.16 Export.

"Export" means the shipment of potatoes to any destination which is not within the production area.

§ ——.17 Processing.

"Processing" means changing potatoes by manufacturing or by converting into products which differ from potatoes in natural raw form.

§ ——.18 Chippers.

"Chippers" means potato processors whose primary potato products are potato chips.

§ ——.19 Fresh market.

"Fresh market" means all market outlets other than processing.

ADMINISTRATIVE AGENCIES

§ ——.22 Establishment and membership.

(a) The National Potato Administrative Board is established as the chief administrative agency of this part. Members of the Board shall be nominated by the potato industry and selected by the Secretary.

(b) The Board shall be composed initially of 46 members, with a like number of alternates, all of whom must be producers, except members and alternates representing processors, chippers, and shippers, who must be representative of their respective group. Producer nominations for the initial Board shall be by representative groups of potato producers in the various areas entitled to representation, but in the event they do not nominate, then the National Potato Advisory Committee shall offer nominees; by potato processors for their nominees, by potato chippers for their nominees, and by potato shippers for their nominees. The initial Board shall serve until their successors have been nominated, selected, and qualified. Nominations for the initial Board shall give consideration (1) to areas and seasons for producers; (2) to Idaho for processors; (3) to Maine for shippers, and (4) to chippers. Members, with alternates, shall be selected as follows:

Winter and early spring group:	Members
Florida	2
California	1
Total	3
Late spring group:	
California	1
Alabama	1
North Carolina	1
Arizona	1
South Carolina, Georgia	1
Louisiana, Mississippi, Texas	1
Total	6
Early summer group:	
Virginia	1
Texas, Oklahoma	1
Maryland, Delaware	1
Kentucky, Tennessee, West Virginia	1
Missouri, Kansas, Arkansas	1
Georgia, North Carolina, north Alabama	1
Total	6
Late summer group:	
Wisconsin	1
Idaho, Oregon	1
Washington	1
Pennsylvania	1
New Jersey	1
California	1
Michigan, Ohio, Indiana, Illinois	1
Colorado, Nebraska, Wyoming	1
Total	8
Fall group:	
Maine	3
Idaho	3
New York, Long Island	1
New York, upstate	1
Washington	1
Oregon, California, Nevada	1
Minnesota, Iowa	2
North Dakota, South Dakota	2
Wisconsin	1
Michigan, Indiana	1
Pennsylvania, Ohio	1
Colorado, Utah, New Mexico, Nebraska, Wyoming	2
Massachusetts, Rhode Island, Connecticut, Vermont, New Hampshire	1
Total	20
Processor—Idaho	1
Shipper—Maine	1
Chipper-chip industry	1
Total	3
Grand total	46

(c) The initial Board shall recommend rules and regulations providing for the composition of succeeding Boards. These rules and regulations will be subject to modification or revision by any succeeding Board during its tenure in office. Such rules and regulations must require that members of the Board be members of a seasonal or special committee and that at least three-fourths of its members be producers.

(d) (1) Seasonal committees, for the crop seasons specified in paragraph (b) of this section, and special committees including but not limited to a chipping committee, a processors' committee (excluding members of the chipping industry), and a shippers' committee, may be established upon recommendation of the Board and approval of the Secretary. Producers will constitute at least three-fourths of the membership of each seasonal committee. For special committees at least three-fourths of their membership will be composed of persons in the industry represented, but not less than two producer members.

(2) Procedures for nominating persons to serve on seasonal and special committees will be provided for in rules and regulations recommended by the Board and approved by the Secretary.

(3) For seasonal committees, considerations shall be given to seasonal and area groupings, existing potato marketing order committees, acreage, production, size of area, periods of marketing, competition, coordination of shipments, and other pertinent factors affecting seasonal marketing of potatoes. Where a combination of states is entitled to a representative, it shall be the policy to consider rotation of representation among states with special consideration to apportioning alternates among group-

ings of states. For special committees, consideration shall be given to potato producing areas, to location of potato processing facilities, and to rotation of representation on the Board from among Idaho, Red River Valley, and other processing areas. Similarly, shipper representation on the Board shall be based on consideration of major shipping areas, with a policy of rotation of shipper members among Maine, Idaho, Red River Valley, and other shipping areas.

(4) Upon establishment of seasonal or other special committees pursuant to this section, such committees may thereafter be reconstituted or reestablished by the Secretary, upon consultation with the committee affected thereby and upon recommendation of the Board. The Board can recommend policies relating to payment of members' and alternates' expenses, with consideration given to whether expenses of all members, or expenses of a part of the members, and similarly for alternates, should be paid. Such consideration may be related to revenues received for any or all portions of the crop upon which assessments are levied.

(e) When seasonal committees and special committees have been established, the Board, with the Secretary's approval, may convene members with alternates, as the National Potato Committee. The National Potato Committee may make recommendations to the Board, on nominations by seasonal or special committees, on the number of members or alternates from seasonal or special committees, the size and composition of the Board, and marketing policies for the Board's guidance. The Board shall provide staff and extend services to seasonal or special committees and to the National Potato Committee when requested and able to do so.

§ ——.23 Term of office.

(a) The term of office of members and alternates of administrative agencies shall be for three years and shall begin and end on dates recommended by the Board and approved by the Secretary. The terms shall be arranged so about one-third of each agency's membership may terminate each year. Board members may not succeed themselves as members, except members of the initial Board may serve on the next succeeding Board.

(b) Members and alternates on administrative agencies shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ ——.24 Acceptance.

Any person selected as a member or alternate of an administrative agency shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ ——.25 Alternate members.

An alternate member of an administrative agency may act in the place and stead of the member for whom he is an alternate, during such member's absence, or when designated to do so by the member for whom he is an alternate. In the event of the death, removal, resignation, or disqualification of a member, his alternate may act for him until a successor of such member is selected and has qualified.

§ ——.26 Procedure.

(a) A majority of each administrative agency shall be necessary to constitute a quorum. At assembled meetings all votes shall be cast in person and a majority of those present shall be necessary to pass any motion or approve any agency action.

(b) (1) When recommendations by a seasonal committee or a special committee are more strict or of a higher order than regulations in effect, or recommended, on a national basis, the Board shall recommend their approval by the Secretary, unless it finds good cause for disapproving or disagreeing with the proposed seasonal or special recommendations. The Board, in a duly constituted meeting, may not recommend disapproval or rejection of seasonal or special committee recommendations, if they are of a higher order than national regulations, except by a three-fifths majority of members present.

(2) In the event that seasonal or special committees are unable to recommend regulations that are approved by the Board in accordance with the above rules, in order for the Board to recommend a regulation covering a seasonal group or an area represented by a special committee a two-thirds majority of those present will be necessary for approval.

(c) Administrative agencies may meet by telephone, telegraph, or other means of communication, and any vote cast at such a meeting shall be promptly confirmed in writing. Approval by three-fourths of all members voting will be required to approve any agency action at other than assembled meetings.

§ ——.27 Expenses and compensation.

Administrative committee members and alternates when acting on agency business shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this part.

§ ——.28 Powers.

The Board shall have the following powers:

(a) To administer the provisions of this subpart as specified herein;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ ——.29 Duties.

(a) The Board shall:

(1) Meet and organize as soon as practical after the beginning of each term of office, select a chairman and such other officers as may be necessary, establish subcommittees, and adopt rules and procedures for the conduct of business as it may deem advisable;

(2) Act as intermediary between the Secretary and each seasonal or special committee, producer or handler;

(3) Appoint such employees, agents, and representatives as it may deem necessary and determine the salaries and define the duties of each;

(4) Keep minutes, books, and records which clearly reflect all its acts and transactions. Such minutes, books and records shall be subject to examination at any time by the Secretary;

(5) Furnish promptly notices of meetings, copies of the minutes of each such meeting, and such other reports or information as may be requested by the Secretary, including annual reports of each administrative agency's operations for the preceding marketing season or fiscal year.

(6) Make available to producers and to other agencies and the National Potato Committee the Board's voting record on recommended regulations and other matters of policy;

(7) Call joint meetings of the administrative agencies;

(8) Consult, cooperate, and exchange information with seasonal and special committees, and other agencies or individuals in connection with proper Board activities and objectives;

(9) Take any proper action necessary to carry out the provisions of this subpart;

(10) Cause the books of the Board to be audited by a competent accountant at least once each fiscal period; and

(11) Assign any of the above duties to any administrative agency established under this part.

(b) Each seasonal and special committee shall:

(1) Supervise the regulation of shipments for its season, in the absence of more restrictive regulations in effect in individual areas, and cooperate with other agencies in administering regulations issued pursuant to this subpart;

(2) Make recommendations to the Board with respect to modifying or suspending the provisions of seasonal regulation;

(3) Make available to the Board its voting record on recommendations for modification of seasonal regulations and other matters of policy;

(4) Submit to the Board such available information as may be requested.

(c) The Board shall supervise the regulations recommended by it for the production area or portions thereof and cooperate with seasonal or special committees in administering regulations issued pursuant to this subpart.

EXPENSES AND ASSESSMENTS

§ ——.40 Budget.

As soon as practicable after the beginning of each fiscal period, and as may be necessary thereafter, the Board shall prepare an estimated budget of income and expenditures for all administrative agencies necessary for the administration of this part. The Board may request seasonal committees for budget estimates and all such estimates shall be forwarded to the Board for its consideration and consideration. The budget shall be presented to the Secretary with an accompanying report showing the basis for calculations. To provide adequate funds to defray proposed expenditures, the Board may recommend a uniform rate of assessment which shall not exceed ½ cent per hundredweight of potatoes except upon recommendation of the National Potato Committee, but in no event shall the maximum exceed 1 cent per hundredweight. However, the maximum rate allowable may be adjusted in the proportion of which the index of prices farmers pay as of October 15 of each year, subsequent to issuance of this part, bears to such index as of October 15, 1962.

§ ——.41 Expenses.

The Board is authorized to incur on behalf of all administrative agencies such expenses as the Secretary finds are reasonable and likely to be incurred during each fiscal period for administration of this part. Handlers shall share expenses upon a pro rata basis for each fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during such fiscal period.

§ ——.42 Assessment.

(a) The funds to cover expenses of administrative agencies shall be acquired by levying assessments upon handlers at rates recommended by the Board and established by the Secretary. Each handler who first handles potatoes under this part, shall pay assessments as directed by the Board.

(b) The payment of assessments for the maintenance and functioning of the administrative agencies may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

§ ——.43 Accounting.

(a) All funds received shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the Board and other administrative agencies, their members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member, alternate, employee, or agent of such agency he shall account for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to such agency's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, agency, or person designated by the Secretary, the right to all of such property and funds and all claims vested in such person.

(c) The Board may make recommendation to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other property of any administrative agency during periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may so direct.

(d) At the end of each fiscal period, if assessments collected are in excess of expenses incurred such excess shall be accounted for as follows:

(1) Except as provided in subparagraphs (2) and (3) of this paragraph, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him. Refunds need not be paid or credited to any handler with outstanding obligations until his account is settled.

(2) The Board, with the approval of the Secretary, may establish and maintain during one or more fiscal years an operating monetary reserve in an amount not to exceed approximately one fiscal period's operational expenses. Upon approval of the Secretary, funds in such reserve shall be available for use by the administrative agencies for all expenses authorized pursuant to § ——.41 and § ——.49.

(3) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom they were collected.

RESEARCH AND DEVELOPMENT

§ ——.49 Research and development.

The Board, with approval of the Secretary, may provide for establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes and may provide available information and data to any person, or to any employee of an agency or its agent, authorized by the Board as its agent, with the approval of the Secretary, to conduct such projects.

REGULATION

§ ——.50 Marketing policy.

(a) Major and customary types of market outlets for raw potatoes such as, but not limited to, fresh market, processing and others, shall be recognized in considering and recommending marketing policies to the Secretary, so that appropriate distinctions among such outlets may be maintained in issuing regulations.

(b) National cull regulations: It shall be the marketing policy for the production area to maintain national cull regulations in effect for fresh market potatoes and for potatoes for processing.

(1) The national cull regulation for fresh market shall prohibit the handling of raw potatoes for fresh market, except as otherwise provided in this subpart, which do not meet the requirements of the U.S. No. 2, or better, grade, 1½ inches minimum diameter and larger. However, potatoes which meet U.S. No. 2, Size C, grade may be handled during any seasonal period upon recommendation of the responsible seasonal committee and approval of the Board.

(2) The national cull regulations for food processing, including chips, shall (i) provide that potatoes handled under bona fide preplanting contracts shall, prior to processing, be not less than U.S. No. 2 Processing Grade, 1½ inches minimum diameter and (ii) provide that potatoes handled under other than bona fide preplanting contracts shall be subject to regulations for fresh market shipments under subparagraph (1) of this paragraph and § ——.52(a) in effect at time of handling, except that for chips, shriveling, sprouting, and appearance will not be scored.

(3) Upon recommendation of the Board, or on other available information, national cull regulations may be suspended or modified by the Secretary during a specified period with respect to any or all varieties of potatoes in any or all portions of the production area.

(c) Seasonal regulations: (1) When requested by the Board, or when recommending regulations pursuant to § ——.51, each seasonal or special committee shall adopt the marketing policy it deems desirable for the industry to follow during the ensuing season or portions thereof in marketing potatoes. Each marketing policy will give consideration to normal patterns of deliveries, economies of distribution, and promotion of orderly marketing which tend to approach equity in benefits and burdens in various portions of the production area. A report setting forth each marketing policy shall be submitted with each committee's recommendations, as shall additional reports if such committee adopts a new marketing policy because of changes in the potato marketing situation. Committees will make each marketing policy report available to growers and handlers, using the facilities and services of the Board if necessary.

(2) In determining its marketing policy each seasonal or special committee shall give due consideration to the following:

(i) Supplies of potatoes by varieties or types, by grade, size, quality, and maturity in the production area and in specific portions of the producing area as determined by surveys conducted under the supervision of the Board;

(ii) Market prices for potatoes, including prices by varieties or types, by grade, size, and quality in different packs, in different containers, in different outlets, growers' cash prices, and growers' contract prices;

(iii) Location of potato stocks and estimates of proportions in producers control;

(iv) Approximate number of potato producers with supplies affected by recommended regulations.

(v) Alternative market outlets for processing, potatoes withheld from fresh market, salvage, and other features for equalizing among areas and seasons the responsibilities and burdens of managing supplies:

(vi) The trend and level of consumer income;

(vii) Establishing and maintaining orderly marketing conditions for potatoes;

(viii) Orderly marketing of potatoes as will be in the public interest; and

(ix) Other relevant factors.

§ ——.51 Recommendations for regulations.

(a) The administrative agencies, upon complying with requirements of § ——.50 may recommend regulations whenever they find that such regulations will tend to effectuate the declared policies of the Act.

(b) The Board shall have responsibility for recommending regulations throughout the production area. Seasonal committees shall have responsibility for recommending to the Board regulations for their area and season, and special committees for their interests, whenever such regulations limit handling to any greater extent than national regulations.

§ ——.52 Issuance of regulations.

The Secretary shall limit by regulation the handling of potatoes whenever he finds from recommendations and information submitted by the Board in accordance with § ——.51, or from other available information, that such regulations would tend to effectuate the declared policy of the Act. In recognition of major types of market outlets for raw potatoes, regulations shall distinguish among such outlets.

(a) For fresh market, such regulations, without discrimination, may:

(1) Limit in any or all portions of the production area the handling of particular grades, sizes, qualities, or packs, of any or all varieties of potatoes during any period.

(2) Limit the handling of particular grades, sizes, qualities, or packs of potatoes differently for different varieties, for different portions of the production area, for different outlets, for different containers, or any combination of the foregoing, during any period.

(3) Require containers to be labeled to show the grade, the name and address of the handler responsible for the grade of the potatoes therein, and identification of the state or area where the potatoes therein were grown.

(4) Fix the size, capacity, weight, dimensions, or pack of any container or containers used in handling potatoes, which can be different for different varieties and different outlets.

(b) For fresh market and food processing, such regulations may:

(1) Fix the total quantity of potatoes which may be handled during any season or crop year by all handlers, by allotting or providing methods for allotting the amount of potatoes, or any grade, size, or quantity thereof, which handlers may purchase from or handle on behalf of any and all producers thereof during any such season or crop years. Such regulations may be based upon different quantities established separately for different seasons and portions of the production area, or for any or all market outlets, and when such quantities are established for different market outlets or by seasons or regions, the establishment of bases, allotments or percentages under such regulations shall be determined on the same basis. Allotments may apply by seasons or any period or periods therein, for the winter and early spring, late spring, early summer and late summer seasonal groups. For the fall seasonal group, volume regulations may not be imposed that require handling during any specific period or periods. For potatoes destined for food processors, volume regulations cannot limit marketing other than by seasonal total.

(2) Allotments shall be under a uniform rule based upon the amounts sold by potato producers in the prior representative period as determined in § ——.53(a), or upon the current quantities available for sale by such producers, or both, to the end that the total quantity thereof to be purchased from or handled on behalf of producers during any of the above periods shall be apportioned equitably among producers. Rules and regulations established pursuant to this section shall not prejudice the base of any individual producer or any area of production if the Board determines that conditions prevailing during the base period have adversely affected their history.

(3) Quantity regulations may be issued upon determination that the terms and provisions of § ——.53 have been met.

(c) When parity prices have been established the handling of potatoes may be limited in accordance with the policies declared in section 602 of the Act.

(d) Regulations issued hereunder may be amended, modified, suspended, or terminated whenever it is determined:

(1) That such action is warranted upon recommendation of the Board, upon recommendation of an appropriate seasonal or special committee with Board approval, or other available information;

(2) That such action is essential to provide relief from inspection, assessment, or regulations under this section for minimum quantities less than customary commercial transactions;

(3) That regulations issued hereunder obstruct or no longer tend to effectuate the declared policy of the Act.

(f) No regulation applicable to seed shall modify or impair the official seed certification specification and requirements established by the official seed certification agency of the state in which the potatoes were grown, or other seed certification agencies which the Board, with the Secretary's approval, may designate.

§ ——.53 Allotment procedures.

(a) (1) Upon recommendation of seasonal committees, other administrative agencies, regional marketing order committees, or on other available information, the Board, with approval of the Secretary, shall establish administrative rules incidental to, not inconsistent with, and necessary for allotting the amounts of potatoes which handlers may purchase from any or all growers in any or all portions of the production area during any period. In considering such rules, the Board may confer and cooperate with other agencies of the Department of Agriculture to expedite preparation and compilation of information.

(2) For determining the amounts of potatoes sold by any or all producers, the base period shall be 1959, 1960, and 1961. The highest two such years shall be used in determining producers' representative participating bases. Subsequent to 1962, the base period shall be the average of the best two of the three years immediately preceding the year for which volume regulation is contemplated, including 1962 from each base period.

(3) Methods for determining the current quantities of potatoes available for sale by producers during any specific weekly, monthly, or other seasonal periods shall also be provided in said rules.

(4) Among other appropriate requirements, such rules may provide that:

(i) Each producer, who has or anticipates to have potatoes for purchase by handlers, or for handling on his behalf, or for handling by himself, during a period or periods of volume regulation shall submit to the Board, or its authorized agent, a written application for market potatoes under volume regulations in this part. Applications may be required at such time as the committee designates, which shall give due consideration to the planting and harvest time for potatoes in each area for each season so that producers may have reasonable opportunity to plan and manage production relating to their allotment, with special provisions for administration of 1962 crop volume regulations or any season immediately following a suspension period. Applications shall be on forms prescribed by the committee.

(ii) Each application shall be substantiated in the manner and supported by evidence required by the Board, and include at least the name and address of the producer, the names and addresses of handlers who purchased potatoes from or handled on behalf of the applicant, and the hundredweights handled during the base period; the storage or packing plant, field, or portion thereof, from which potatoes are to be marketed and which is included in the quantity of potatoes for marketing by the applicant during the period of proposed regulation; an accurate description of the location of each such storage, packing plant, or field or portion thereof, including the capacity, stocks, or number of acres therein.

(b) Verification: The Board shall check, or shall have checked, and determine the accuracy of the information on applications submitted pursuant to this section and is authorized to make a thorough investigation of any application. Whenever the Board finds an error, omission, or inaccuracy in any of the information on any application, it shall correct the same and shall give the person who submitted the report a reasonable opportunity to discuss with the committee the factors considered in making corrections.

(c) Participating base: (1) When volume regulations are likely to be recommended, the Board shall fix a participating base for each producer applying therefor and entitled thereto. Participating bases shall be fixed under a uniform rule based upon the amounts sold by potato producers in a prior representative period, or upon current quantities available for sale by potato producers, or both.

(2) Participating bases on a prior representative period shall be established in accordance with the following policy.

(i) Whenever volume regulations are contemplated, but not less than three months prior to the normal planting time for potatoes of the seasons and areas affected, the Board, cooperating with seasonal committees, shall obtain evidence on the potato marketing outlook. If the Board concludes from the evidence that excessive quantities in a given season or as a total annual crop will seriously overburden the channels of trade, disrupt orderly marketing conditions, depress prices, and defeat the purposes of the act, it may so advise the Secretary and establish, with the Secretary's approval, methods for determining the amount of potatoes sold by each producer during the base period and for fixing a participating base for each producer.

(ii) Adjustments may be made for a producer whose total marketings or a portion thereof during the base period were for purposes not covered by the act, to the extent of and in the proportion that such marketings bear to his total marketings: *Provided*, The following conditions are met:

(a) That the applicant show that he does not have binding commitments for disposing of all or a portion of his potatoes for purposes not covered by the Act.

(b) That the applicant certify that he will not market any potatoes for authorized purposes in excess of his allotment.

(c) That the applicant certify that he will not market for all purposes any potatoes in excess of his participating base, except that a producer who has customarily sold a part of his crop for authorized purposes and a part for exempted processing may certify that he will not market for all purposes a total in excess of his allotment plus the average quantity that he has sold for exempted processing in the base years.

Provided further, That if such producer during the allotment period exceeds his allotment for authorized purposes or his participating base for all purposes, his allotment for such period or participating base in the subsequent allotment period, shall be subject to reduction in the amount of such excess.

(3) For fixing participating bases on current quantities available, the Board, cooperating with seasonal committees, shall give consideration to planting time for potatoes in each area and to the outlook for potato marketing. If the Board concludes that excessive supplies in a given season, or in specific weekly, monthly, or other portions thereof, will overburden channels of trade, disrupt orderly marketing conditions, and depress prices, the Board may so advise the Secretary and recommend that he provide methods for fixing a participating base for each potato producer during the period or periods of proposed regulations to the end that allotments of potatoes shall be apportioned equitably among such producers. Each producer's participating base, under this method, shall be his proportion (based on estimates of his currently available supplies) of the total current amounts available by all producers during the specific week, month, or other period of regulation.

(d) Allotments: Whenever the quantity of potatoes which may be marketed during any season, or specific portion thereof, is limited by allotting the amounts which handlers may purchase from producers, such allotments shall be established by any one, or a combination of the following methods.

(1) When allotments are based on amounts sold by producers in a base period, the Board shall determine the total of all producers' participating bases and recommend to the Secretary the percentage of such total necessary to provide a quantity of potatoes, or any grade, size, or quality thereof, during the regulation period which would tend to promote and maintain orderly marketing conditions. The Secretary, upon Board recommendation or other available information, shall establish the percentage of producers' participating bases necessary to provide the amount of potatoes that will effectuate the declared policies of the act. Each producer's allotment shall be the product derived from multiplying his participating base by such percentage.

(2) When allotments are based on current quantities available for sale by producers during a specific period, the Board shall determine the quantities available or to be available for sale by each producer during the period of regulation. The Board may recommend to the Secretary the total amount of potatoes, or any grade, size, or quality thereof, which handlers may purchase or handle on behalf of any or all producers thereof. Upon its recommendation, or other information, the Secretary shall fix the quantity of potatoes which may be handled during the marketing season, or specific portion thereof, and establish the percentage of the total amounts available which may be purchased by handlers from producers. Each producer's allotment shall be the product resulting from multiplying the total amount of allotments fixed by the Secretary by his respective proportion of all participating bases.

(3) The Board may provide for issuance of allotments and for appropriate forms of evidence thereof through rules approved by the Secretary. The Board's policy shall be to give evidence, to the extent practicable, to each producer of his allotment, as issued on a historical base, at least 60 days prior to normal planting time. For allotments based on current quantities available, or on a combination of history and current quantities available, notice shall be as soon as practicable, as determined by the Board in consultation with seasonal committees affected thereby. The evidence may be in the form of certificates to market, or other practical means of identification of individual producers and their respective allotments. No handler may purchase from producers or handle on behalf of producers any potatoes, unless they are identified as within a producer's allotment and each handler shall so record his purchases or other handling on the producer's certificate.

(e) Verification of compliance with allotments: Storage bins and fields of potatoes included in applications for allocation bases and allotments shall be checked from time to time, as deemed necessary by the Board, to determine compliance with allotments. Checking procedures, methods for establishing Board determinations, means for notifying handlers and other persons of the extent to which allotments on specific storage bins or fields have been used, and provision for issuance of certificates of compliance with allotments shall be in accordance with rules recommended by the Board and approved by the Secretary. The rules may also provide that a handler may not purchase or handle potatoes from a bin, field, or fields on which allotments applicable to the available supply estimated therefor have been exhausted unless regulations in effect under § ——.52(b) are suspended or terminated.

(f) Adjustment of producers allotments: The Board may, pursuant to rules and regulations recommended by it and approved by the Secretary, provide for transferring or adjusting allotments during any allotment period. Such adjustments may be based upon factors such as weather, changes in maturity, condition, harvestability, changes in ownership or control of such potatoes, or other factors affecting the supplies of potatoes available for current shipment. Such adjustments will not affect a producer's base for the following season.

§ ——.54 Handling for special purposes.

Upon recommendations and information submitted by the Board, or other available information, the Secretary may modify, suspend, or terminate regulations issued pursuant to §§ ——.42, ——.52, ——.65, or any combination thereof, to facilitate shipments of potatoes for the following purposes whenever he finds that it will tend to effectuate the declared policy of the Act:

(a) Grading, storage, or planting within local areas under safeguards established under § ——.55;

(b) Export;

(c) Manufacture or conversion into starch, flour, alcohol, other specified products, or derivatives thereof;

(d) Charitable purposes;

(e) Livestock feed; and

(f) Other specific purposes.

§ ——.55 Safeguards.

The Board, or seasonal committee with Board concurrence, may prescribe with the Secretary's approval, through rules, such requirements as may be necessary to establish that shipments pursuant to § ——.54 were handled and used for the purposes stated.

EVIDENCE OF PERFORMANCE

§ ——.65 Evidence of performance.

The Board may establish rules, with the Secretary's approval, for effectuating

the regulatory terms and provisions of this part. Such rules shall provide for one or more of the following:

(a) *Inspection and certification.* (1) During any period in which shipments of potatoes are regulated pursuant to §§ ——.42, ——.60, ——.52, or ——.54, or any combination thereof, or during any other period, no handler may ship potatoes unless each shipment is inspected and certified by an authorized representative of the Federal or Federal-State Inspection Service, or such other inspection service as the Secretary shall approve, except when relieved from such requirements pursuant to § ——.52(d), or § ——.54, or both.

(2) Rules may provide for special inspection requirements or relief therefrom, or for distinctions in inspection requirements, insofar as practical, between handling at shipping point and handling in receiving markets. They may also provide that regrading, resorting, or repacking any lot of potatoes invalidates prior inspection certificates insofar as the requirements of this section are concerned and that no handler may ship potatoes after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless each shipment of such potatoes is inspected and certified by an authorized representative of the Federal or Federal-State Inspection Service, or such other inspection service as the Secretary shall approve.

(3) The length of time for which an inspection certificate is valid for purposes of this part may be established for particular portions of the production area or particular forms of transportation.

(4) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the Board, and designated seasonal committees.

(5) The Board may require that no handler may transport or cause transportation of potatoes by motor vehicle, or by other means, unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the Board to indicate that such inspection has been or will be performed. Such certificate or document shall be surrendered to such authority as may be designated by the Board.

(6) The Board may require adequate safeguards to insure that inspection and identification requirements have been met.

(b) *Handler's certification.* Each handler must certify with his manifest that the potatoes handled by him meet the requirements of the order at the time of acquisition for processing potatoes, other than chips, and at the time of shipment of potatoes for processing for chipping or shipment to fresh market. The certification, as endorsed by the purchaser or shipper shall indicate that the handler recognizes that the potatoes are liable to inspection at any time while in the stream of commerce.

(c) *Agency cooperation.* The Board may solicit and enlist cooperation and assistance of Federal, State, or other agencies in checking, reporting on, and enforcing grade labeling, also in determining compliance with allotment authorization under the provisions of this part.

(d) *Compliance surveys.* The Board, in administering the terms and provisions of this part, may request or make surveys of performance by any or all handlers through necessary means, such as checks at terminal markets, shipping points, distribution centers, or transportation gateways. Reports may be obtained from any or all handlers essential to determination of performance under this part.

EXEMPTION

§ ——.70 Policy.

(a) Any producer whose potatoes have been adversely affected by acts beyond his control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § ——.52, is prevented from shipping during the season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the Board or appropriate seasonal committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

(b) Any handler who has storage holdings of ungraded potatoes acquired during or immediately following the harvesting season that have been adversely affected by acts beyond the handler's control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § ——.52 is prevented from shipping as large a proportion of his storage holdings of ungraded potatoes as the average proportion of ungraded storage holdings shipped by all handlers in said handler's immediate shipping area, may apply to the Board or appropriate seasonal committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ ——.71 Rules and procedures.

The Board may adopt, with approval of the Secretary, the rules and procedures for handling exemptions. Such rules and procedures should provide for handling applications for exemptions, for issuing certificates of exemptions, for determinations with respect to areas and averages (as required by § ——.70), and for other procedures necessary to accomplish exemption policies.

§ ——.72 Applications and issuance.

The Board or appropriate seasonal committee may issue certificates of exemption to any qualified applicant who furnishes adequate evidence to the responsible administrative agency:

(a) That the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation;

(1) That by reason of regulations issued pursuant to § ——.52, in case of a producer applicant, he will be prevented from shipping his allotment or as large a proportion of his production as the average proportion of production shipped by all producers in said applicant's immediate area of production during the season, or a specific portion thereof.

(2) That by reason of regulations issued pursuant to § ——.52, in case of a handler applicant who has storage holdings of ungraded potatoes acquired during or immediately following the digging season, he will be prevented from shipping his allotment or as large a proportion of such storage holdings as the average proportion of similar storage holdings shipped by all handlers in said applicant's immediate shipping area during the season;

(b) Each certificate shall permit the recipient thereof to ship the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

§ ——.73 Investigation.

The responsible administrative agencies shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

§ ——.74 Appeals.

If any applicant for exemption certificate is dissatisfied with the determination with respect to his application, said applicant may file an appeal with the responsible administrative agency. Such an appeal must be taken promptly after the determination from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to such agency for a determination on the appeal. The agency shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The responsible agency shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ ——.75 Records.

A record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of potatoes covered by such exemption certificates, a record of the amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such other information as may be requested by the Secretary, shall be maintained in accordance with rules under § ——.71.

MISCELLANEOUS PROVISIONS

§ ——.80 Reports.

(a) The Board may require, with the approval of the Secretary, handlers to furnish in the manner and time prescribed, information necessary to exercise its powers and perform its duties under this subpart.

(b) All such reports shall be held under appropriate protective classification and custody by the Board or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handlers' identities or operations.

(c) Each handler shall maintain for at least two succeeding years records of the potatoes received, and disposed of, by him as may be necessary to verify his reports.

§ ——.81 Compliance.

Except as provided in this subpart,

(a) No handler shall handle potatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall handle potatoes except in conformity to the provisions of this subpart.

(b) No handler may purchase any amount of potatoes from a producer that, together with all other marketings of such producer during the allotment period, would exceed the amount allotted to such producer.

§ ——.82 Right of the Secretary.

The members of the administrative agencies (including successors, and alternates), and any agent or employee appointed or employed by them, shall be subject on just cause to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of said agencies shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval the disapproved action of the said agencies shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ ——.83 Effective time.

The provisions of this subpart shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ ——.84 Termination or suspension.

(a) The Secretary may, as hereinafter set forth, terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the Act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during the preceding marketing season, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such period produced for market more than 50 percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced at least 30 days prior to the end of the then current fiscal period.

(d) The Secretary shall, during the third year after issuance and prior to December 10 of that year, conduct a referendum to ascertain whether continuance of this part is favored by producers. The Secretary shall conduct such a referendum prior to December 10 of each succeeding third year thereafter. If less than two-thirds of those voting approve continuance of the marketing order, grade, size, quality, maturity, and volume regulations shall be suspended.

(e) The provisions of this part shall, in any event, terminate whenever the provisions of the Act authorizing them cease to be in effect.

§ ——.85 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the members of the administrative agencies then functioning shall continue as joint trustees, for the purpose of liquidating their affairs and of all the funds and property then in the possession of or under their control, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the administrative agencies or the joint trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims, have been transferred or delivered by the administrative agencies, or their members, pursuant to this section, shall be subject to the same obligations imposed upon the members of said agencies and upon the said trustees.

§ ——.86 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ ——.87 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ ——.88 Agents.

The Secretary may, by designation in writing, name any person including any officer or employee of the Government, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ ——.89 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the Act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ ——.90 Personal liability.

No member or alternate of any administrative agency nor any employee or agent thereof, may be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent except for acts of dishonesty.

§ ——.91 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ ——.92 Amendments.

Amendments to this subpart may be proposed, from time to time, by the Board.

§ ——.93 Counterparts.

This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

§ ——.94 Additional parties.

After the effective date hereof, any handler who has not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

§ ——.95 Order with marketing agreement.

Each signatory handler favors and approves the issuance of an order by the Secretary regulating the handling of potatoes in the same manner as is provided for in this agreement; and each

[1] Applicable only to the proposed marketing agreement.

signatory handler hereby requests the Secretary to issue, pursuant to the Act, such an order.[1]

Copies of this notice may be obtained from the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., or from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., or may be there inspected.

Dated: February 15, 1962.

FRANK J. WELCH,
Assistant Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Freedmen's Hospital

[42 CFR Part 403]

DISPOSAL OF MONEY AND EFFECTS OF PATIENTS AND OF UNIDENTIFIED PERSONS

Notice of Proposed Rule Making

Notice is hereby given that the Surgeon General of the Public Health Service, with the approval of the Secretary of the Department of Health, Education, and Welfare, proposes to amend Chapter IV by adding a new Part 403 which will provide for the disposal of the money and effects of deceased patients and unidentified persons left in the custody of Freedmen's Hospital. Interested persons may submit relevant data, views or arguments in regard to the proposed regulations to the Surgeon General, Public Health Service, Washington 25, D.C. All relevant material received not later than 30 days after the publication of this notice will be considered. It is anticipated that upon the expiration of this period, this new part, subject to such revisions as may seem appropriate in the light of comments, will be republished and will become effective 30 days after such republication.

I. A new Part 403 would be added to read as follows:

PART 403—DISPOSAL OF MONEY AND EFFECTS OF PATIENTS AND UNIDENTIFIED PERSONS

Sec.
403.1 Inventory of effects of deceased patients.
403.2 Notice upon death.
403.3 Delivery only upon filing claim; forms, procedure.
403.4 Delivery to legal representative; to other claimants if value is $1,000 or less.
403.5 Disposition of effects; exceptions.
403.6 Conflicting claims.
403.7 Disposition of Government checks.
403.8 Manner of delivery; costs, receipts.
403.9 Delivery of possession only; title unaffected.
403.10 Disposition of abandoned and unclaimed money and effects of patients other than deceased patients and of unidentified persons.
403.11 Abandoned and unclaimed effects of patients and of unidentified persons.
403.12 Abandonment or destruction.
403.13 Sale of abandoned or unclaimed effects.
403.14 Provisions governing sales.
403.15 Disposition of unsold articles.
403.16 Disposition of proceeds of sale; claims.

[1] Applicable only to the proposed marketing agreement.

AUTHORITY: §§ 403.1 to 403.16 issued under 18 Stat. 223, Reorg. Plan No. IV of 1940, Reorg. Plan No. I of 1953; 32 D.C. Code 317, 5 U.S.C. 133t, 5 U.S.C. 133z. §§ 403.10 to 403.16 also issued under 63 Stat. 377, Title II, § 203(l), as amended, and 205(d), as amended; 40 U.S.C. 434(m), 40 U.S.C. 488(d).

§ 403.1 Inventory of effects of deceased patients.

Promptly after the death of a patient in Freedmen's Hospital, an inventory of his money and effects left therein shall be made by two or more officers or employees of the Hospital designated for such purpose by the Superintendent.

§ 403.2 Notice upon death.

The Superintendent shall notify in writing all persons known to him to whom delivery of the patient's money and effects might be made hereunder, and, in the case of an alien patient, a consul of the country of his apparent nationality. Each person so notified shall be requested to furnish information concerning (a) the existence or whereabouts of any persons to whom delivery of the deceased patient's money and effects may be made pursuant to these provisions, and (b) the permanent residence or home of the deceased.

§ 403.3 Delivery only upon filing claim; forms, procedure.

(a) Delivery of the money and effects of a deceased patient shall be made only to a person who has filed a claim therefor on a form prescribed by the Superintendent.

(b) A claimant shall furnish, in addition to the information on the prescribed form, such additional information as the Superintendent may consider necessary to establish the identity of the claimant and the truth of his statements.

(c) A person filing a claim as a legal representative shall be required to present letters of administration or a certificate of a court attesting his qualification for appointment.

(d) If the Superintendent is not satisfied in regard to the validity of a claim filed after the money of a deceased patient has been deposited in the Treasury, he may refer such claim to the Claims Division of the General Accounting Office for settlement. If the claim is for checks or evidences of indebtedness of the United States which have been transmitted to the issuing agency pursuant to §§ 403.7 and 403.8, the claim shall be referred to such agency.

§ 403.4 Delivery to legal representative; to other claimants if value is $1,000 or less.

The money and effects of the deceased patient shall in all cases be delivered to the legal representative, if any, of his estate. If the value is $1,000 or less, and the Superintendent has neither notice nor other knowledge of the appointment or qualification of a legal representative, nor reason to believe that a legal representative will be appointed or qualified, he shall deliver all the money and effects as soon as practicable after the expiration of 10 days from the sending of notices to one of the following in the indicated order of priority:

(a) A person, if any, designated in writing by the patient to receive the same;

(b) The patient's surviving spouse;

(c) The patient's child or children in equal parts;

(d) The patient's parent or parents in equal parts;

(e) Any other person who would be entitled to receive the money and effects under the law of the patient's domicile: *Provided*, That delivery of such money and effects may be made immediately upon application by one of the persons specified above if the Superintendent has neither notice nor other knowledge that a person higher in the indicated order or priority exists.

§ 403.5 Disposition of effects; exceptions.

Notwithstanding the provisions of these regulations, the Superintendent may (a) release from among the effects of the deceased patient so much of the patient's clothing as may be necessary for use in preparation of his body for burial and (b) cause to be destroyed, or otherwise disposed of, such used toilet articles of the patient as appear to have no commercial or other value.

§ 403.6 Conflicting claims.

If any case in which conflicting claims are filed or the Superintendent considers it to be in the interest of persons who may be ultimately entitled thereto, delivery of money and effects may be withheld from all persons other than a duly qualified legal representative.

§ 403.7 Disposition of Government checks.

Notwithstanding any other provisions of these regulations immediately upon completion of the inventory, checks drawn on the Treasurer of the United States shall be sent by safe means to the department, agency, or establishment of the Government of the United States issuing such checks. The transmittal shall be accompanied by a statement of the reasons therefor and of all available information which may aid the issuing unit in the disposition of the check transmitted. Notice of the disposition of any checks, with identifying information, shall be given to the person or persons, if any, to whom money and effects are delivered in accordance with § 403.4.

§ 403.8 Manner of delivery; costs, receipts.

(a) If a person entitled under this regulation to receive the money and effects of a patient is unable to take possession thereof at the hospital, they may be sent to him at the expense of the United States in the most economical manner available. The records of the hospital shall show the names and addresses of persons to whom money or effects have been sent, the date of sending, the means used, an itemized list of the money or effects sent, and a statement by a witnessing officer or employee verifying the foregoing from his own observation.

(b) If not delivered personally by an authorized officer or employee of the hospital, money, evidences of indebtedness, and other valuable papers and documents shall be sent by registered mail (or other safe means).

(c) Persons receiving the money and effects of a patient shall be required to execute an itemized receipt therefor.

§ 403.9 Delivery of possession only; title unaffected.

Except for delivery of effects to purchasers at sales held pursuant to § 403.13, delivery or deposit under these regulations of the money or effects, or the proceeds of a sale of the effects, of a deceased patient constitutes only a transfer of possession and is not intended to affect in any manner the title to such money, effects, or proceeds.

§ 403.10 Disposition of abandoned and unclaimed money and effects of patients other than deceased patients and of unidentified persons.

(a) Money and effects left in the hospital by a patient shall be forwarded promptly to him. If because his whereabouts are unknown his money and effects cannot be delivered to him, his money shall be deposited in the Treasury to the credit of an appropriate account. Effects of such patients shall be disposed of as provided in §§ 403.11–403.16.

(b) Personal effects of unidentified persons shall be disposed of as provided in §§ 403.11–403.16. Any money found in the hospital shall, if unclaimed, be deposited in the Treasury to the credit of an appropriate account for subsequent disposition in accordance with the General Accounting Office standard procedures.

§ 403.11 Abandoned and unclaimed effects of patients and unidentified persons.

If no claims are submitted for personal effects, in the case of a deceased patient within either six months after death or within six months after the Superintendent has notified the persons to whom delivery of such effects may be made pursuant to § 403.4, or in the case of a patient other than a deceased patient within six months after the departure of the patient or in the case of effects belonging to unidentified persons, six months after the finding of the property in the hospital, the effects will be considered to be abandoned or unclaimed property and the Superintendent or his designee may thereafter determine that title to such property vested in the United States.

§ 403.12 Abandonment or destruction.

After title to such property has vested in the United States, it may be abandoned or destroyed without public notice upon a finding by an officer designated by the Superintendent and approved by one or more other officers or employees of the hospital designated by the Superintendent that:

(a) The value of the property is so little or the cost of its care or handling is so great that its retention for advertising for sale is not economical; or

(b) Abandonment or destruction is required by considerations of health or safety.

§ 403.13 Sale of abandoned or unclaimed effects.

Three months after title to the abandoned or unclaimed effects has vested in the United States, such property may be sold. The sale of such property shall be by competitive bid through the use of General Services Administration Standard Forms 114 and 114a. The Superintendent or his designee shall determine whether the sale shall be by sealed bid, spot bid or by auction.

§ 403.14 Provisions governing sales.

The following provisions shall be applicable to sales of abandoned or unclaimed effects:

(a) *Notice.* A notice of the sale shall be sent by mail in advance of the sale to the patient, or in the case of a deceased patient to all known persons to whom delivery of the effects may be made pursuant to § 403.4. Reasonable advance notice of proposed sales shall be posted at prominent places in the hospital, in the hospital area and in the nearest Post Office. The officer or employee who posts or sends notices of sales shall make an appropriate affidavit on a copy of the notice as to his action in that respect, including in his affidavit the names of all persons to whom copies of the notices were mailed and the mailing dates. The copy of the notice on which the affidavit appears shall be retained in the files of the Hospital.

(b) *Form and content of notice.* Notice of proposed sales shall be given on a form prescribed by the Superintendent. The notice shall include: an inventory of the property to be offered for sale; the precise date, time and place when and where the sale will be held; a statement in regard to when and where the articles may be inspected; a statement that the sale is to be held pursuant to the regulations herein and a statement that if the articles are to be sold by sealed bid, the right to reject all bids is reserved.

(c) *Time, place and direction of sales.* All sales shall be held at reasonable hours and at such places within the hospital or hospital area as the Superintendent or his designee may select. Sales shall be conducted by the Superintendent or an officer or employee designated by him.

(d) *Sale and delivery.* All articles offered for sale shall be sold to the highest bidder and delivered to him immediately upon payment of the sale price in cash or by postal money order or certified check and execution of an appropriate receipt by the person to whom delivery is made.

§ 403.15 Disposition of unsold articles.

Articles offered for sale but remaining unsold may be held for resale at a later date or may be disposed of pursuant to § 403.12 as determined by the Superintendent or his designee.

§ 403.16 Disposition of proceeds of sale; claims.

(a) Proceeds from the sale of abandoned or unclaimed effects shall be deposited in the Treasury to the credit of an appropriate account. The former patient or any other former owner or a person who would have been entitled to the delivery of the effects of a deceased patient pursuant to § 403.4 may be reimbursed from the funds in this account if such person files a claim within three years from the date of vesting of title to the property in the United States as determined by the Superintendent. Such reimbursement shall not exceed the proceeds realized from the disposal of such property less the costs incident to its care and handling, as determined by the Superintendent or his designee.

(b) In cases where the property has been sold as a part of a lot containing other items and the purchase price for the lot covers items in addition to that for which reimbursement is sought, the proceeds of sale for that portion of the property for which reimbursement is being sought shall be proportionate to the proceeds received for the total lot. In order to assure accuracy in determining proportionate recovery in cases where more than one item has been sold as a lot, all items to be included in a group of items to be sold as one lot shall be listed and appraised in advance of the sale by the Superintendent or the officer or employee he has designated to conduct such sale, and his appraisal stated in writing for each item on the list. Such list and appraisal shall be maintained as part of the permanent file and record of the sale until the three-year period for the filing of claims has elasped.

Dated: December 22, 1961.

LUTHER L. TERRY,
Surgeon General.

Approved: February 14, 1962.

IVAN A. NESTINGEN,
Acting Secretary.

[F.R. Doc. 62-1698; Filed, Feb. 19, 1962; 8:47 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 507]

[Reg. Docket No. 1076]

VICKERS VISCOUNT 745D AND 810 SERIES AIRCRAFT

Proposed Airworthiness Directives

Pursuant to the authority delegated to me by the Administrator, (14 CFR Part

405), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the Regulations of the Administrator to include an airworthiness directive requiring periodic inspection of the landing gear cross tube end fittings and rework of cracked parts on Vickers Viscount 745D and 810 Series aircraft. This proposed action is deemed necessary since there have been cases of fatigue failures occurring in service.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before March 22, 1962, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available, in the Docket Section for examination by interested persons when the prescribed date for return of comments has expired. This proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

VICKERS. Applies to all Viscount Models 745D and 810 Series aircraft.

Compliance required as indicated.

As a result of landing gear cross tube and fitting failures, the following is required:

(a) (1) End fittings which have accumulated 11,000 or more landings as of the effective date of this AD, shall be inspected in accordance with (b) within the next 500 landings, and thereafter within each 3,000 landings.

(2) End fittings which have accumulated between 10,000 and 11,000 landings as of the effective date of this AD shall be inspected in accordance with (b) within the next 1,000 landings, or upon the accumulation of 11,500 landings, whichever occurs first, and thereafter within each 3,000 landings.

(3) End fittings which have accumulated less than 10,000 landings as of the effective date of this AD shall be inspected in accordance with (b) upon the accumulation of 11,500 landings and within each 3,000 landings thereafter.

NOTE: It will be necessary for operators to maintain a record of landings in order to ascertain compliance with this AD. If past records are unavailable, the number of landings prior to this AD may be estimated.

(b) Remove the fittings listed below and inspect for cracks in accordance with PTL 234 (for Model 745D) or PTL 100 (for Model 810) or FAA approved equivalent.

Model	Fitting	P/N
	End fitting for single piece tube:	
745D	Station 96	72450-35
745D	Station 131	72450-37 or 72450-175
810	Station 96	72450-35
810	Station 131	81450-35

(c) Fittings with cracks in the ¼-inch radius between the bearing journal and the tapered portion shall be replaced prior to further flight, except that those at Station 131 may be reused if they meet the limitations of the applicable PTL, Issue 2 dated November 13, 1961, and are reworked as specified in the applicable PTL. (Fittings at Station 96 are of different design and cannot be reused should similar defects be found.)

(d) Rework fittings having minor surface cracks in the attachment flanges and in the bearing journals in accordance with the provisions of the PTL's.

(e) Mark all reworked fittings with the letter "R" on the flange circumference.

(f) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, International Division, Washington 25, D.C., may adjust the repetitive inspection intervals specified in this Airworthiness Directive to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(Vickers Armstrongs Preliminary Technical Leaflets Nos. 100 and 234, both are Issue 2 dated November 13, 1961, cover the same subject.)

Issued in Washington, D.C., on February 14, 1962.

GEORGE C. PRILL,
Director,
Flight Standards Service.

[F.R. Doc. 62-1677; Filed, Feb. 19, 1962; 8:45 a.m.]

[14 CFR Part 600]

[Airspace Docket No. 61-SW-108]

FEDERAL AIRWAYS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 600.1746 and 600.1532 of the regulations of the Administrator, the substance of which is stated below.

Intermediate altitude VOR Federal airway No. 1746 presently extends from the Texico, N. Mex., VOR, as a 10-mile wide airway to the intersection of the Texico VOR 117° and the Lubbock, Texas, VOR 008° True radials; thence as a 16-mile wide airway via the Guthrie, Texas, VOR; to the Bridgeport, Texas, VOR. Intermediate altitude VOR Federal airway No. 1532 extends in part as a 16-mile wide airway from Albuquerque, N. Mex., VOR to the Tucumcari, N. Mex., VOR.

The Federal Aviation Agency (FAA) has under consideration a proposal by the Air Transport Association of America to extend Victor 1746 from the Texico, Texas, VOR to the Anton Chico, N. Mex., VOR. Concurrently with this proposal the FAA is considering realigning Victor 1532 to overlie the Anton Chico VOR.

Extending Victor 1746 from the Texico VOR to Anton Chico VOR would provide a shorter route for aircraft operating between the Dallas, Texas, and Albuquerque terminal areas. Realigning Victor 1532 to overlie the Anton Chico VOR would provide a common intersection with Victor 1746 at the Anton Chico VOR and would provide more precise navigational guidance on this segment of Victor 1532 between Tucumcari and Albuquerque.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 13, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

Notice of Proposed Rule Making

FEBRUARY 5, 1962.

The Commission is in receipt of applications for early amendment of the above-entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway. The proposed amendments are set forth below and the reasons therefor are listed below.

Applications for the proposed amendments have been the subject of extensive study by various interested parties, in which substantial agreement has been reached.

Any party desiring to make representations in favor of or against the proposed amendments may do so through the submission of written data, views, or arguments. The original and five copies of such submission may be filed with the Commission on or before March 5, 1962. The proposed amendments are subject to change or changes that may be made as a result of such submissions.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection, and by filing a copy of the notice with the Director, Office of the Federal Register.

(49 Stat. 788, 74 Stat. 808; 18 U.S.C. 834)

By the Commission, Safety and Service Board No. 2—Explosives and Other Dangerous Articles Board.

[SEAL] HAROLD D. MCCOY,
Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend § 72.5 *Commodity list* (19 F.R. 1276, Mar. 6, 1954) (15 F.R. 8270, Dec. 2, 1950) as follows:

§ 72.5 List of explosives and other dangerous articles.

(a) * * *

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
(Add)				
Dethyltoluidine	Pois. B	72.264, 72.273	Poison	200 pounds.
Phosphorus oxybromide	Cor. I	No exemption, 72.271.	White	1 quart.
(Change)				
Guided missiles, with warheads. See Rocket ammunition with explosive, illuminating, gas, incendiary or smoke projectile.				
Guided missiles without warheads. See Rocket ammunition without projectile.				

PART 73—SHIPPERS

Subpart B—Explosives; Definitions and Preparation

In § 73.53 amend paragraphs (k) and (p) (15 F.R. 1277, Mar. 6, 1954) (15 F.R. 8268, Dec. 2, 1950) to read as follows:

§ 73.53 Definition of class A explosives.

* * * * *

(k) *Explosive projectiles.* Explosive projectiles are shells, projectiles, warheads, or rocket heads, loaded with explosives or bursting charges, with or without other materials, for use in cannon, guns, tubes, mortars or other firing or launching devices.

* * * * *

(p) *Rocket ammunition.* Rocket ammunition (including guided missiles) consists of a completely assembled unit for launching from a tube, launcher, rails, trough or other launching device, in which the propellant material is a solid propellant explosive. Such unit consists of an igniter, a rocket motor or jet thrust unit, and a warhead, either fused or unfused, containing high explosives or chemicals.

In § 73.55 amend paragraph (a) (23 F.R. 7648, Oct. 3, 1958) to read as follows:

§ 73.55 Ammunition, nonexplosive.

(a) Nonexplosive ammunition is defined as a device which contains no explosives or other dangerous articles, such as cartridge cases, dummy or drill cartridges; empty, sand loaded or solid projectiles with or without tracers (containing not in excess of one ounce of tracer composition), empty mines, empty bombs, solid projectiles, empty torpedoes, or practice bombs. It also includes devices containing no explosives, or other dangerous articles, except installed electric squibs, primers, propellants or thermal batteries required for the activation of the device, provided that it has been proven by test that when initiated the full energy release is contained within the outside shipping container. Such ammunition is exempt from Parts 71–78 of this chapter. Rotating bands should be protected against deformation by method of packing or loading.

In § 73.65 amend paragraphs (b)(2) and (c)(3) (16 F.R. 5323, June 6, 1951) (26 F.R. 9269, Oct. 6, 1961) to read as follows:

§ 73.65 High explosives with no liquid explosive ingredient nor any chlorate.

* * * * *

(b) * * *

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Net weight not to exceed 200 pounds.

* * * * *

(c) * * *

(3) Spec. 5B (§ 78.82 of this chapter) metal barrels or drums or Spec. 21C (§ 78.224 of this chapter) fiber drums. Authorized only for cyclotrimethylenetrinitramine wet with not less than 10 pounds of water to each 90 pounds of dry material in inside containers which must be bags made of at least 10-ounce cotton duck, rubber or rubberized cloth and securely closed. The dry weight of cyclotrimethylenetrinitramine in one metal barrel or drum must not exceed 360 pounds and not more than 225 pounds in fiber drums. These bags containing the cyclotrimethylenetrinitramine must then be placed in a rubber bag, rubberized cloth bag or bag made of suitable water-tight material which must be securely closed and then placed in the drum. If shipment of cyclotrimethylenetrinitramine is to take place at a time freezing weather is to be anticipated, it must be wet with a mixture of denatured ethyl alcohol or other suitable anti-freeze and water of such proportions that freezing will not occur in transit.

In § 73.93 amend paragraph (a)(10) (17 F.R. 1560, Feb. 20, 1952) to read as follows:

§ 73.93 Propellant explosives (solid) for cannon, small arms, rockets, guided missiles, or other devices, and propellant explosives (liquid).

(a) * * *

(10) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Drums having wooden heads must be provided with a strong sift-proof liner. Authorized net weight not over 225 pounds.

Subpart C—Flammable Liquids; Definition and Preparation

In § 73.118 amend paragraph (c) amend subparagraphs (27), (28), and (36); add paragraph (c) (39), (40), (41), (42), (43), and (44) (21 F.R. 3066, May 5, 1956) (21 F.R. 7599, Oct. 4, 1956) (15 F.R. 8268, Dec. 2, 1950) to read as follows:

§ 73.118 Exemptions for flammable liquids.

* * * * *

(c) * * *

(27) Aluminum triethyl and mixtures or solutions thereof.

(28) Aluminum trimethyl and mixtures or solutions thereof.

* * * * *

(36) Pyroforic fuel and mixtures or solutions thereof.

* * * * *

(39) Triisobutyl aluminum and mixtures and solutions thereof.

(40) Ethyl aluminum sesquichloride and mixtures and solutions thereof.

(41) Diethyl aluminum chloride and mixtures and solutions thereof.

(42) Ethyl aluminum dichloride and mixtures and solutions thereof.

(43) Methyl aluminum sesquichloride and mixtures and solutions thereof.

(44) Methyl aluminum sesquibromide and mixtures or solutions thereof.

In § 73.119 amend paragraphs (a)(9) and (b)(9) (16 F.R. 5323, June 6, 1951) (25 F.R. 10392, Oct. 29, 1960) to read as follows:

§ 73.119 Flammable liquids not specifically provided for.

(a) * * *

(9) Spec. 21C, 22A or 22B (§ 78.224, § 78.190 or § 78.197 of this chapter). Fiber drums and plywood drums with a single inside glass, earthenware, or metal container of not over one gallon capacity in each drum. Inside container must be so cushioned at top, sides, and bottom,

as to prevent breakage or leakage in transit.

* * * * *

(b) * * *

(9) Spec. 21C (§ 78.224 of this chapter). Fiber drum with inside spec. 2S or 2SL (§ 78.35 or § 78.35a of this chapter) polyethylene container. Authorized only for materials that will not react with polyethylene and result in container failure. (See § 78.224–1(a)(2) of this chapter.)

In § 73.127 amend paragraph (b) (15 F.R. 8301, Dec. 2, 1950) to read as follows:

§ 73.127 Nitrocellulose of collodion cotton, fibrous, or nitrostarch, wet, nitrocellulose flakes, colloided nitrocellulose, granular, flake or block, and lacquer base or lacquer chips, wet.

* * * * *

(b) Except for spec. 37A which is limited to 480 pounds, gross weight of any container must not exceed 490 pounds.

In § 73.136 amend paragraph (a)(3) (25 F.R. 6625, July 14, 1960) to read as follows:

§ 73.136 Methyl dichlorosilane and trichlorosilane.

(a) * * *

(3) Spec. 5A, 5B, or 5C (§ 78.61, § 78.82, or § 78.83 of this chapter). Metal drums not over 55 gallons capacity each. Spec. 5B drums must have no opening exceeding 2.3 inches in diameter. These containers not authorized for shipment by rail express.

Subpart D—Flammable Solids and Oxidizing Materials; Definition and Preparation

In § 73.154 amend paragraph (a)(9) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.154 Flammable solids and oxidizing materials not specifically provided for.

(a) * * *

(9) Spec. 21C (§ 78.224 of this chapter). Fiber drum. Authorized net weight not over 225 pounds.

In § 73.156 amend paragraph (a)(5) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.156 Barium peroxide and calcium peroxide.

(a) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

In § 73.157 amend paragraph (a)(4) (26 F.R. 9401, Oct. 6, 1961) to read as follows:

§ 73.157 Benzoyl peroxide, chlorobenzoyl peroxide (para), cyclohexanone peroxide, dimethylhexane dihydroperoxide, lauroyl peroxide, or succinic acid peroxide, wet.

(a) * * *

(4) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized only for cyclohexanone peroxide over 50 percent concentration but not exceeding 85 percent concentration and dimethylhexane dihydroperoxide, which materials must be packed in a plastic inside container, securely closed, and formed of polyethylene film sheets having minimum thickness of 0.002 inch. Authorized net weight in one outside container shall not exceed 50 pounds for cyclohexanone peroxide and shall not exceed 100 pounds for dimethylhexane dihydroperoxide.

In § 73.158 amend paragraph (a)(2) (26 F.R. 9401, Oct. 6, 1961) to read as follows:

§ 73.158 Benzoyl peroxide, dry, chlorobenzoyl peroxide (para), dry, cyclohexanone peroxide, dry, dimethylhexane dihydroperoxide, dry, lauroyl peroxide, dry, or succinic acid peroxide, dry.

(a) * * *

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized only for dimethylhexane dihydroperoxide, dry, which must be packed in a plastic container, securely closed, and formed of polyethylene film sheets having minimum thickness of 0.002 inch, and lauroyl peroxide, dry. Authorized net weight not over 100 pounds in one outside container.

In § 73.163 amend paragraph (a)(3) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.163 Chlorate of soda, chlorate of potash, and other chlorates.

(a) * * *

(3) Spec. 21C, 22A, or 22B (§ 78.224, § 78.196 or § 78.197 of this chapter). Fiber or plywood drums with inside metal drums, spec. 2F (§ 78.25 of this chapter). Authorized net weight not over 225 pounds.

In § 73.168 amend paragraph (a)(2) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.168 Lithium amide, powdered.

(a) * * *

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums with inside metal drums, spec. 2F (§ 78.25 of this chapter). Authorized net weight not over 225 pounds.

In § 73.175 amend paragraph (a)(4) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.175 Lacquer base, or lacquer chips, dry.

(a) * * *

(4) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

In § 73.178 amend paragraph (a)(6) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.178 Motion-picture film, old and worn out (not scrap).

(a) * * *

(6) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

In § 73.195 amend paragraph (a)(5) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.195 Pyroxylin plastic scrap, photographic film scrap, X-ray film scrap, motion-picture film scrap, or plastic of exposed or unexposed film.

(a) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Must be externally treated to provide protection against moisture. Authorized net weight not over 225 pounds.

In § 73.197 amend paragraph (a)(3) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.197 Pyroxylin plastics, in sheets, rolls, rods, or tubes.

(a) * * *

(3) Sheets rolled, in spec. 21C (§ 78.224 of this chapter) fiber drums, having 2 straps applied lengthwise and one or more circumferentially; straps at least ½ by 0.02 inch steel. Authorized net weight not over 225 pounds.

In § 73.201 amend paragraph (a)(5) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.201 Rubber scrap, rubber buffings, reclaimed rubber, or regenerated rubber.

(a) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

In § 73.204 amend paragraph (a)(5) and (6) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.204 Sodium hydrosulfite.

(a) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Must be lined or coated, or otherwise treated to protect against moisture. Authorized net weight not over 225 pounds.

(6) Spec. 21C (§ 78.224 of this chapter). Fiber drums, net weight not over 250 pounds; drums must have a metal foil (laminated between two sheets of kraft paper with thermoplastic adhesive) moisture and water barrier wound into the sidewall of the drum and located not more than 2 plies from the interior of drum but not to be wound as the first ply; a metal foil moisture and water barrier must also be present in the fiber or wood heading; exterior of drum sidewall must be protected with a water resistant coating; in addition to the tests prescribed by § 78.224–2 (a), (b), and (c) of this chapter, a drum having been given a 4-foot diagonal bottom chime drop must, after being emptied, withstand complete immersion of the bottom in 6 inches of water for 4 hours without leakage to the interior; drums must not be offered for transportation by carriers by water.

In § 73.207 amend paragraph (b)(5) (16 F.R. 5324, June 6, 1951) to read as follows:

§ 73.207 Sulfide of sodium or sulfide of potassium, fused or concentrated when ground.

* * * * *

(b) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums which must be lined or coated, or otherwise treated so as to prevent the entrance of moisture in quantities sufficient to create a hazardous condition in transportation; drums to withstand two drops from height of 4 feet in same spot or one 6-foot drop in place of drop test as provided in spec. 21C (§ 78.224 of this chapter); maximum loaded capacity 250 pounds net.

In § 73.217 amend paragraph (a)(3) (26 F.R. 9401, Oct. 6, 1961) to read as follows:

§ 73.217 Calcium hypochlorite compounds, dry, and lithium hypochlorite compounds, dry.

(a) * * *

(3) Spec. 21C (§ 78.224 of this chapter). Fiber drums with inner ply a laminated sheet of paper and aluminum foil, internally coated with not less than a 0.002 inch thickness of polyethylene. Cover of drum shall be gasketed. Drums for authorized net weight over 225 pounds but not exceeding 400 pounds shall be of at least 10-ply construction. Representative drums must withstand drop tests prescribed by § 78.224–2 of this chapter when filled with test material equal to the net weight to be shipped. Authorized net weight not over 400 pounds.

In § 73.227 amend paragraph (a)(2) (16 F.R. 9375, Sept. 15, 1951) to read as follows:

§ 73.227 Urea peroxide.

(a) * * *

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums completely coated on the inside with a suitable wax, synthetic coating, or metal foil suitable to the lading; or fiber drums having a metal foil (laminated between two sheets of kraft paper with thermoplastic adhesive) moisture and water barrier wound into the sidewall of the drum and located not more than 2 plies from the interior of drum but not to be wound as the first ply; a metal foil moisture and water barrier must also be present in the fiber or wood heading; exterior of drum sidewall must be protected with a water resistant coating; in addition to the tests prescribed by § 78.224–2 (a), (b), and (c) of this chapter, a drum having been given a 4-foot diagonal bottom chime drop must, after being emptied, withstand complete immersion of the bottom in 6 inches of water for 4 hours without leakage to the interior.

In § 73.234 amend paragraph (a)(3) (21 F.R. 9356, Nov. 30, 1956) to read as follows:

§ 73.234 Sodium nitrite.

(a) * * *

(3) Spec. 21C (§ 78.224 of this chapter). Fiber drums, gross weight 425 pounds; side walls must be of at least 10-ply construction having strength not less than 1,200 pounds Mullen or Cady test; drums must withstand prescribed tests when filled to authorized net weight of 400 pounds.

In § 73.235 amend paragraph (a)(2) (21 F.R. 9356, Nov. 30, 1956) to read as follows:

§ 73.235 Ammonium bichromate (ammonium dichromate).

(a) * * *

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums, gross weight not over 425 pounds; side walls must be of at least 10-ply construction having strength not less than 1,200 pounds Mullen or Cady test; drums must withstand prescribed tests when filled to a net weight of 400 pounds.

Subpart E—Acids and Other Corrosive Liquids; Definition and Preparation

In § 73.244 add paragraph (c)(51) (15 F.R. 8313, Dec. 2, 1950) to read as follows:

§ 73.244 Exemptions for acids and other corrosive liquids.

* * * * *

(c) * * *

(51) Phosphorus oxybromide.

In § 73.245 amend paragraph (a)(24) (25 F.R. 10393, Oct. 29, 1960) to read as follows:

§ 73.245 Acids or other corrosive liquids not specifically provided for.

(a) * * *

(24) Spec. 21C (§ 78.224 of this chapter). Fiber drum with inside spec. 2S, 2SL, or 2U (§ 78.35, § 78.35a, or § 78.24 of this chapter) polyethylene container. (See § 78.224–1(a)(2) of this chapter.)

In § 73.256 add paragraph (a)(5) (15 F.R. 8315, Dec. 2, 1950) to read as follows:

§ 73.256 Compounds, cleaning, liquid.

(a) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drum with inside spec. 2U (§ 78.24 of this chapter) polyethylene container. (See § 78.224–1(a)(2) of this chapter.)

In § 73.261 amend paragraph (a)(2) (16 F.R. 5325, June 6, 1951) to read as follows:

§ 73.261 Fire-extinguisher charges.

(a) * * *

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums with a single inside container consisting of a glass bottle not over 64 fluid ounces capacity filled with not over six pounds by weight of sulfuric acid (approximately 50 fluid ounces by volume). Bottle must be suspended in center of outside container by means of adequate supports and surrounded by bicarbonate of soda in sufficient quantity to fill drum and neutralize contents in the event of breakage.

In § 73.263 amend paragraph (a)(22) (25 F.R. 10393, Oct. 29, 1960) to read as follows:

§ 73.263 Hydrochloric (muriatic) acid, hydrochloric (muriatic) acid mixtures, hydrochloric (muriatic) acid solution, inhibited, sodium chlorite solution, and cleaning compounds, liquid, containing hydrochloric (muriatic) acid.

(a) * * *

(22) Spec. 21C (§ 78.244 of this chapter). Fiber drum with inside spec. 2T, 2S, 2SL, or 2U (§ 78.21, § 78.35, § 78.35a, or § 78.24 of this chapter) polyethylene container. (See § 78.224–1(a)(2) of this chapter.)

In § 73.264 amend paragraph (a)(4) (24 F.R. 10111, Dec. 15, 1959) to read as follows:

§ 73.264 Hydrofluoric acid.

(a) * * *

(4) Spec. 12A or 12B (§ 78.210 or § 78.205 of this chapter). Fiberboard boxes with not more than 4 inside polyethylene bottles, having minimum 0.030 inch thickness of any part, not over 1-gallon nominal capacity each. Bottle closures must be made secure by sealing with pressure-sensitive plastic tape or other equally efficient means. Authorized for acid not over 70 percent strength. Shipper must have established that spec. 12A completed package meets test requirements prescribed by § 78.210–10 of this chapter. Authorized gross weight for spec. 12B fiberboard boxes not over 65 pounds; spec. 12A not over 80 pounds.

In § 73.265 amend paragraph (d)(5) (25 F.R. 10394, Oct. 29, 1960) to read as follows:

§ 73.265 Hydrofluosilicic acid.

* * * * *

(d) * * *

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drum with inside spec. 2S, 2SL, or 2U (§ 78.35, § 78.35a, or § 78.24 of this chapter) polyethylene container. (See § 78.224–1(a)(2) of this chapter.)

In § 73.266 add paragraph (b)(6); cancel paragraph (c)(7) (15 F.R. 8316, Dec. 2, 1950) (22 F.R. 3925, June 5, 1957) to read as follows:

§ 73.266 Hydrogen peroxide solution in water.

* * * * *

(b) * * *

(6) Spec. 6J or 37A (single-trip container). (§ 78.100 or § 78.131 of this chapter.) Steel barrel or drum with inside spec. 2S or 2SL (§ 78.35 or § 78.35a of this chapter) polyethylene container. The closures must be located in one head and must be vented to prevent accumulation of internal pressure and head plainly marked "KEEP THIS END UP" or "KEEP PLUG UP TO PREVENT SPILLAGE."

(c) * * *

(7) [Canceled.]

In § 73.271 amend the heading and introductory text of paragraph (a) (15 F.R. 8320, Dec. 2, 1950) to read as follows:

§ 73.271 Phosphorus oxybromide, phosphorus oxychloride, phosphorus trichloride, and thiophosphoryl chloride.

(a) Phosphorus oxybromide, phosphorus oxychloride, phosphorus trichloride, and thiophosphoryl chloride must be packed in specification containers as follows:

In § 73.272 amend paragraph (f)(5) (24 F.R. 8058, Oct. 6, 1959) to read as follows:

§ 73.272 Sulfuric acid.

• • • • • •

(f) • • •

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drum constructed for a gross weight of at least 150 pounds with inside spec. 2T (§ 78.21 of this chapter) polyethylene containers. (See § 78.224–1(a)(2) of this chapter.)

In § 73.276 amend paragraph (a)(5) (26 F.R. 4996, June 6, 1961) to read as follows:

§ 73.276 Anhydrous hydrazine and hydrazine solution.

(a) • • •

(5) Spec. 103A–AL–W (§ 78.292 of this chapter). Tank cars. Vapor space in tank must be filled with nitrogen gas at atmospheric pressure. Authorized for anhydrous hydrazine only.

Subpart F—Compressed Gases; Definition and Preparation

In § 73.307 amend paragraphs (a)(2) (26 F.R. 1015, Feb. 2, 1961) to read as follows:

§ 73.307 Nonliquefied gases, except gas in solution or poisonous gas.

(a) • • •

(2) Spec. 3HT (§ 78.44 of this chapter) cylinders are authorized for nonflammable gases, for use in aircraft only, for a maximum service life of 12 years, and must be equipped with safety relief devices as required by § 73.34(f). Only a frangible disc safety relief device, without fusible metal backing, shall be used with spec. ICC–3HT (§ 78.44 of this chapter) cylinders and the rated bursting pressure of the disc shall not exceed 90 percent of the minimum required test pressure of the cylinder with which the device is used. Cylinders must be shipped in strong outside containers.

In § 73.308 amend paragraph (a) Note 15 (26 F.R. 1015, Feb. 2, 1961) to read as follows:

§ 73.308 Compressed gases in cylinders.

(a) • • •

NOTE 15: Spec. 3HT (§ 78.44 of this chapter) cylinders are authorized for use in aircraft only, for a maximum service life of 12 years, and must be equipped with safety relief devices as required by § 73.34(f). Only a frangible disc safety relief device, without fusible metal backing, shall be used with spec. 3HT (§ 78.44 of this chapter) cylinders and the rated bursting pressure of the disc shall not exceed 90 percent of the minimum required test pressure of the cylinder with which the device is used. Cylinders must be shipped in strong outside containers.

Subpart G—Poisonous Articles; Definition and Preparation

In § 73.346 amend paragraph (a)(15) (21 F.R. 9357, Nov. 30, 1956) to read as follows:

§ 73.346 Poisonous liquids not specifically provided for.

(a) • • •

(15) Spec. 21C (§ 78.224 of this chapter). Fiber drums, with inside glass containers not over one gallon capacity each.

In § 73.353 amend paragraph (a)(4) (21 F.R. 7603, Oct. 4, 1956) to read as follows:

§ 73.353 Methyl bromide, liquid (bromomethane), mixtures of methyl bromide and ethylene dibromide, liquid, mixtures of methyl bromide and chlorpicrin, liquid, or methyl bromide and nonflammable, nonliquefied compressed gas mixtures, liquid.

(a) • • •

(4) Spec. 4D300 or 4DA500 (§ 78.53 or § 78.58 of this chapter). Metal spheres, for use in aircraft only, must be equipped with approved safety devices and must be packed in strong boxes or crates (see § 73.25).

In § 73.354 amend the introductory text of paragraph (a) (15 F.R. 8335, Dec. 2, 1950) to read as follows:

§ 73.354 Motor fuel antiknock compound or tetraethyl lead.

(a) Motor fuel antiknock compound (a mixture of one or more organic lead compounds such as tetraethyl lead, triethylmethyl lead, diethyldimethyl lead, ethyltrimethyl lead, and tetramethyl lead, with one or more halogen compounds such as ethylene dibromide and ethylene dichloride, or hydrocarbon solvents) or tetraethyl lead must be packed in specification containers as follows:

In § 73.358 amend paragraph (a)(5) (17 F.R. 4295, May 10, 1952) to read as follows:

§ 73.358 Hexaethyl tetraphosphate, methyl parathion, organic phosphate compound, n.o.s., parathion, tetraethyl dithio pyrophosphate, and tetraethyl pyrophosphate, liquid.

(a) • • •

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums, with inside glass containers not over one gallon capacity each.

In § 73.359 amend paragraphs (a)(6) and (b)(5) (17 F.R. 4295, May 10, 1952) to read as follows:

§ 73.359 Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, organic phosphate compound mixtures, n.o.s., parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, liquid.

(a) • • •

(6) Spec. 21C (§ 78.224 of this chapter). Fiber drums, with inside glass containers not over one gallon capacity each.

• • • • • •

(b) • • •

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums, with inside glass containers not over one gallon capacity each.

In § 73.365 cancel paragraph (a)(11); amend paragraph (a) (14) and (16) (15 F.R. 8336, Dec. 2, 1950) (26 F.R. 9403, Oct. 6, 1961) to read as follows:

§ 73.365 Poisonous solids not specifically provided for.

(a) • • •

(11) [Canceled.]

• • • • • •

(14) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

• • • • • •

(16) Spec. 12A (§ 78.210 of this chapter). Fiberboard boxes with inside glass bottles not over 5 pounds capacity each. Not more than 4 inside glass bottles of 5 pounds capacity each shall be packed in one outside container. Shipper must have established that the complete package meets test requirements prescribed by § 78.210–10 of this chapter.

In § 73.370 cancel paragraph (a)(10); amend paragraph (a)(13) (15 F.R. 8337, Dec. 1, 1950) to read as follows:

§ 73.370 Cyanides, or cyanide mixtures, except cyanide of calcium and mixtures thereof.

(a) • • •

(10) [Canceled.]

(11) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

• • • • •

(13) Bulk in strong, water-tight, steel portable containers of not over 70 cubic feet capacity each, approved by the Bureau of Explosives.

In § 73.373 amend the heading and introductory text of paragraph (a); amend paragraph (a)(3) (15 F.R. 8338, Dec. 1, 1950) (16 F.R. 9379, Sept. 15, 1951) to read as follows:

§ 73.373 Ortho-nitroaniline and para-nitraniline.

(a) Ortho-nitroaniline and para-nitraniline must be packed in specification containers as follows:

• • • • • •

(3) Spec. 21C (§ 78.224 of this chapter). Fiber drums, gross weight 400 pounds; side walls must be of at least 10-ply construction having strength not less than 1,200 pounds Mullen or Cady test; drums must withstand prescribed tests when filled to authorized net weight of 400 pounds.

In § 73.374 amend paragraph (a)(3) (16 F.R. 9379, Sept. 15, 1951) to read as follows:

§ 73.374 Nitrochlorbenzene, meta or para.

(a) • • •

(2) Spec. 21C (§ 78.224 of this chapter). Fiber drums, authorized only for nitrochlorbenzene, para, flaked, gross weight 400 pounds; side walls must be of at least 10-ply construction having strength not less than 1,200 pounds Mullen or Cady test; drums must withstand prescribed tests when filled to authorized gross weight of 400 pounds.

In § 73.377 amend paragraphs (a)(5) and (b)(5) (21 F.R. 3012, May 8, 1956) (26 F.R. 4997, June 6, 1961) to read as follows:

§ 73.377 Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, organic phosphate compound mixtures, n.o.s., parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, dry.

(a) • • •

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized net weight not over 225 pounds.

(b) • • •

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized only for mixtures in which the liquid is absorbed in concentration not greater than 50 percent. Authorized net weight not over 225 pounds.

In § 73.378 amend paragraph (a)(5) (17 F.R. 4295, May 10, 1952) to read as follows:

§ 73.378 Beryllium metal powder.

(a) • • •

(5) Spec. 21C (§ 78.224 of this chapter). Fiber drums, with inside glass or metal containers of not over 25 pounds capacity each. Authorized net weight not over 225 pounds.

In § 73.393 amend paragraph (f)(3) (20 F.R. 952, Feb. 15, 1955) to read as follows:

§ 73.393 Packing and shielding.

• • • • • •

(f) • • •

(3) Spec. 21C (§ 78.224 of this chapter). Fiber drums. Authorized for not more than 2,700 millicuries. Authorized net weight not over 225 pounds.

PART 74—CARRIERS BY RAIL FREIGHT

Subpart A—Loading, Unloading, Placarding and Handling Cars; Loading Packages Into Cars

In § 74.526 add Note 1 to paragraph (o)(2); add Note 1 to paragraph (o)(3) (26 F.R. 3103, April 12, 1960) (20 F.R. 903, Feb. 15, 1955) to read as follows:

§ 74.526 Loading explosives into cars.

• • • • •

(o) • • •

(2) • • •

NOTE 1: For recommended methods of blocking and bracing see Bureau of Explosives' Pamphlet 6C.

(3) • • •

NOTE 1: For recommended methods of blocking and bracing see Bureau of Explosives' Pamphlet 6C. Impact tests have been conducted on methods shown in this pamphlet.

In § 74.529 add Note 1 to paragraph (c) (18 F.R. 3137, June 2, 1953) to read as follows:

§ 74.529 Cars for class B explosives.

• • • • •

(c) • • •

NOTE 1: For recommended methods of blocking and bracing see Bureau of Explosives' Pamphlet 6C.

In § 74.530 add Note 1 to paragraph (b) (18 F.R. 3138, June 2, 1953) to read as follows:

§ 74.530 Cars for class C explosives.

• • • • •

(b) • • •

NOTE 1: For recommended methods of blocking and bracing see Bureau of Explosives' Pamphlet 6C.

In § 74.532 add Note 1 to the introductory text of paragraph (a) (15 F.R. 8347, Dec. 2, 1950) to read as follows:

§ 74.532 Loading other dangerous articles.

(a) • • •

NOTE 1: For recommended methods of blocking and bracing see Bureau of Explosives' Pamphlet 6C.

Add § 74.534 (15 F.R. 8348, Dec. 2, 1950) to read as follows:

§ 74.534 Portable containers or tanks.

(a) Portable containers or tanks must be of such design and so loaded and stayed in closed cars, in gondola cars, on flat cars, or in truck bodies or trailers on flat cars so they cannot permanently change position, rupture, or become seriously damaged under conditions normally incident to transportation. Ends, sidewalls, or doors of truck bodies or trailers shall not be relied upon to prevent shifting of portable containers or tanks.

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

Subpart A—General Information and Regulations

In § 77.824 amend the introductory text of paragraph (a); amend paragraph (a) (2) and (3) (26 F.R. 2502, Mar. 24, 1961) to read as follows:

§ 77.824 Retesting of cargo tanks.

(a) *Flammable liquid and poisonous liquid cargo tanks, specs. MC 300, MC 301, MC 302, MC 303, and MC 305.* Every cargo tank constructed in compliance with specs. MC 300, MC 301, MC 302, MC 303, and MC 305 (§§ 78.321, 78.323, 78.324, and 78.326 of this chapter) used for the transportation of any flammable liquid or poisonous liquid, class B, shall be retested as follows:

• • • • • •

(2) *Specification tanks.* Every cargo tank complying with the requirements of Specification No. 1001, 1937 Edition of the American Petroleum Institute, specifications of the National Fire Protection Association 1929 or 1933, or specifications MC 300, MC 301, MC 302, MC 303, and MC 305 (§§ 78.321, 78.323, 78.324, and 78.326 of this chapter), shall be tested at least once in every 5-year period and shall not be returned to service until it has successfully fulfilled the testing requirements set forth under § 78.321–16 of this chapter. If tested no oftener than once in every 5 years, at least one such test shall be made in the last year of any such 5-year period. The time of reckoning for such testing of such cargo tanks shall be from the time of the last test made in accordance with the requirements set forth under § 78.321–16 of this chapter.

(3) *Nonspecification tanks.* Every cargo tank not complying with the requirements of Specification No. 1001, 1937 Edition of the American Petroleum Institute, specifications of the National Fire Protection Association 1929 or 1933, or specifications MC 300, MC 301, MC 302, MC 303, and MC 305 (§§ 78.321, 78.323, 78.324, and 78.326 of this chapter), shall be tested at least once in every calendar year and shall successfully fulfill the requirements set forth under § 78.321–16 of this chapter. No two such required tests shall be closer together than 6 months.

PART 78—SHIPPING CONTAINER SPECIFICATIONS

Subpart D—Specifications for Metal Barrels, Drums, Kegs, Cases, Trunks and Boxes

In § 78.81–9 (Spec. 5A steel barrels or drums) amend paragraph (d) drawing only; in § 78.83–9 (Spec. 5C steel barrels or drums) amend paragraph (d)(1) drawing only; in § 78.88–8 (Spec. 5K nickel barrels or drums) amend paragraph (d)(1) drawing only; in § 78.90–8 (Spec. 5M monel drums) amend paragraph (d)(1) drawing only (19 F.R. 6270 to 6273, Sept. 29, 1954) (20 F.R. 8107, Oct. 28, 1955) as follows:

Subpart F—Specifications for Fiberboard Boxes, Drums, and Mailing Tubes

§ 78.222 [Cancelled]

Cancel § 78.222 in its entirety (15 F.R. 8461, Dec. 2, 1950) (21 F.R. 3015, May 5, 1956) (16 F.R. 11783, Nov. 21, 1951).

§ 78.223 [Cancelled]

Cancel § 78.223 in its entirety (15 F.R. 8461, Dec. 2, 1950) (21 F.R. 3015, May 5, 1956) (25 F.R. 10405, Oct. 29, 1960) (24 F.R. 8061, Oct. 6, 1959) (17 F.R. 1565, Feb. 20, 1952) (16 F.R. 11783, Nov. 21, 1951).

Add entire § 78.224 (15 F.R. 8461, Dec. 2, 1950) to read as follows:

§ 78.224 Specification 21C; fiber drum.

§ 78.224–1 Construction requirements.

(a) **Parts and dimensions as follows:**

(1) **Drums for dry products; minimum requirements unless otherwise stated:**

Net weight of contents (pounds) (not over)	Capacity, maximum (gallons) (not over)	Diameter, inside, maximum, (inches)	Sidewall strength [3] (pounds)	Tops and bottoms				
				Fiber		Steel	Wood (thickness, inches)	
				Thickness (inches)	Strength [1]	(U.S. gauge)	Solid [4] [5]	Plywood, at least 5-ply construction
60	5	11½	500	0.090	800	28	1⅝	⅝
90	20	18½	600	.120	800	26	1⅝	¾
115	25	18½	700	.120	800	26	1⅝	¾
215	55	23	800	.160	1100	24	1⅝	⅞
400	75	23	900	.200	1200	24	1⅝	⅞
			1000	.220	1300	24	1⅝	

[1] *Mullen or Cady Test.* Either of the following test methods may be used. When more than single ply, test shall be determined from the summation of the tests of individual plies, or, when test is made on a complete drum, the puncture shall be made from the interior surface, in which case the values for sidewall shall be not less than 40 percent of the values in the above table and the values for fiber tops and bottoms shall be not less than the values for wood in the above table. There shall be a minimum of six tests and the average shall be not less than the prescribed minimum requirements.

[2] *Sidewalls.* Sidewalls to be convolutely wound of fiberboard at least 0.012 inch thick, the plies being secured together with adhesives; or may consist of an outer shell and an inner tube each convolutely wound with each fiberboard ply not less than 0.012 inch thick and secured together with adhesive. Drums may contain barrier or lining materials.

[3] When made of 2 or more discs, the discs must be fastened together with adhesive.

[4] Joints in heads must be of the lapped, dished, except as specified in footnote 5.

[5] Wood sealing strips of one-half inch thick having kraft paper glued on both sides at all contact areas with waterresistant adhesive are authorized provided tests prescribed in § 78.224–2 are successful. Joints of any type are authorized.

[6] Minimum thickness may be reduced to 2¾2 inch for lumber dressed two sides.

Note 1: See § 78.224–2 for test requirements; § 78.224–4 for marking requirements.

Note 2: Drums must provide snug fit for inside plastic container.

Note 3: Top head of drums may have holes of suitable size to provide for closure parts of inside container; bottom head may have not more than three holes not over ⅜ inch in diameter each for drainage.

§ 78.224–2 Type tests.

(a) Conditioning: Prior to testing, drums shall be conditioned at 50 percent relative humidity plus or minus 2 percent and 73° F. plus or minus 3° F. for at least 48 hours.

(b) Drop tests: Sample drums at conditions stated with dry ready packaged product to authorized net weight and for use must withstand the following as four foot drop tests on the part specified without leakage or serious rupture. No single drum shall be subjected to more than one of the following tests. Drums with wood heads shall be dropped with grain of wood in cover parallel to concrete surface.

(1) Top chime, diagonally onto solid concrete.

(2) Bottom chime, diagonally onto solid concrete.

(3) Sidewall, over a 2-inch x 6-inch timber resting on solid concrete with 6-inch leg vertical; drop to be made with drum in horizontal position at right angles to the timber.

(4) The closure or on any other part which may be considered weaker onto solid concrete.

(c) Compression test: An empty drum shall withstand either of the following compression tests, in accordance with the following table, without buckling of the sidewalls sufficient to cause damage to its expected contents; but in no case shall the maximum deflection be more than one inch.

Marked rated capacity of inside plastic container (gallons) (not over)	Minimum construction requirement for dry products (pounds)	Authorized maximum net weight of liquid contents (pounds) (not over)
5	85	105
15	115	245
30	150	490

(2) Drums for liquids contained in inside plastic containers as prescribed in Part 73 of this chapter, specifications for which are detailed in this part, shall comply with the contruction requirements for drums for dry products and as follows:

Marked rated capacity of inside plastic container (gallons) (not over)	Maximum net weight	Maximum inside diameter (inches)	Compression (pounds)	
			Static [1]	Dynamic [2]
5	45	11½	1200	1600
15	125	18½	1200	1600
30	250	18½	1200	1600
55	450	23	1500	2000
85	700	23	1800	2400
125	1000	23	2100	2800

[1] *Static Test.* Compression as specified must be applied to full area of top cover of drum for period of 48 hours.

[2] *Dynamic Test.* Compression as specified must be applied end to end. Speed of compression tester to be one-half inch plus or minus one-fourth inch per minute.

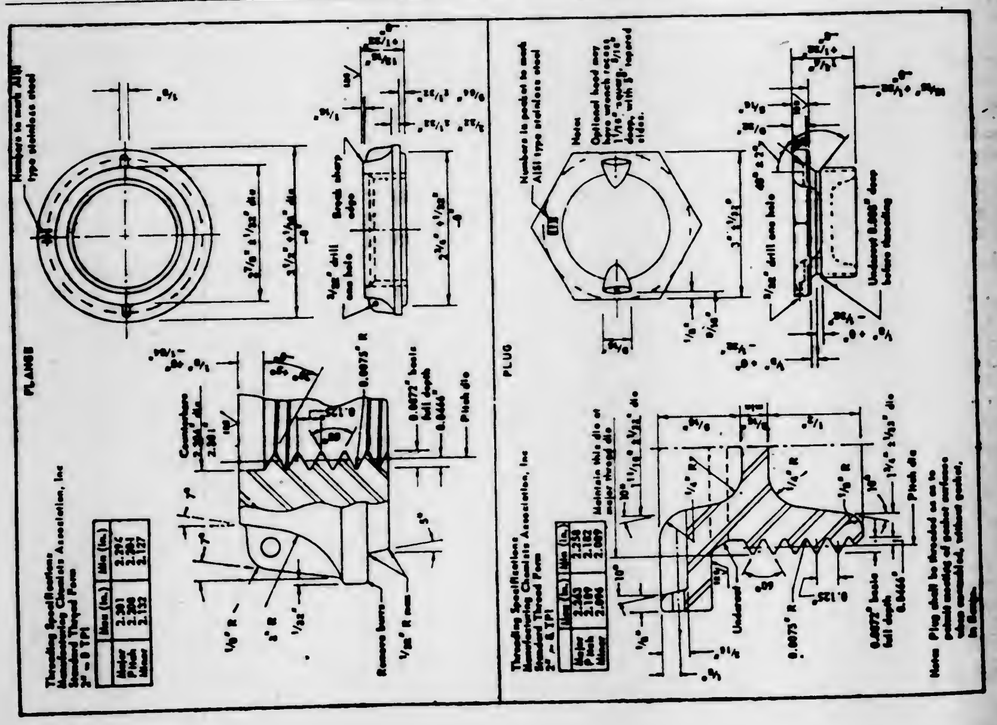
(d) Drums constructed for inside plastic containers for liquids as provided in § 78.224–1(a)(2) shall be tested as prescribed in paragraphs (a), (b), (c), and (e) of this section. When tested assembled with the inside plastic container, as required by the applicable specification, drums shall develop no condition that would be of such nature as to contribute to potential failure of inner container.

(e) The tests described above must be made by any company starting production, for each plant location of manufacture, on samples taken at random of each type and diameter of container and must be repeated every four months or less during production. Samples last tested must be retained until further tests are made. The tests and procedure described may be conducted at one central laboratory when testing facilities are not available at all plants, in which case the Bureau of Explosives shall be advised of the location where the tests are conducted.

§ 78.224–3 Registration of drum specification.

(a) Specification for each type of drum manufactured (under this specification) shall be filed with the Bureau of Explosives. Changes in construction (drum and closure) differing from specification thus filed must be approved by the Bureau of Explosives before authorized for use.

§ 78.224–4 Marking.



(a) On each container as follows:

(1) Drums for dry products must be marked ICC–21C followed by the authorized net weight to which drum was constructed, for example, ICC–21C115.

(2) Drums for inside plastic containers for liquids must be marked ICC–21CP followed by the authorized net weight for dry products and the authorized net weight for liquid products to which the drum was constructed, for example, ICC–21CP115/245.

(3) Marks specified in paragraph (a) (1) and (2) of this section shall be understood to certify that the fiber drum complies with all specification requirements.

(4) Name or symbol (letters) of maker; this must be registered with the Bureau of Explosives and be located just above, below, or following the mark specified in paragraph (a) (1) or (2) of this section.

Subpart I—Specifications for Tank Cars

In § 78.280–22 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4588, June 26, 1956) to read as follows:

§ 78.280 Specification ICC–103–W; fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.280–22 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, such as application of riveted anchors, etc., in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) When safety valves are applied, date on which safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.282–20 amend paragraph (a) (3) and (5) (21 F.R. 4592, June 26, 1956) to read as follows:

§ 78.282 Specification ICC–103B–W; rubber lined fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.282–20 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, such as application of riveted anchors, etc., in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

• • • • • •

(5) Date on which the interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.283–21 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4594, June 26, 1956) to read as follows:

§ 78.283 Specification ICC–103C–W; fusion-welded alloy steel tanks to be mounted on or forming part of a car.

§ 78.283–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph, by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.281–21 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4590, June 26, 1956) (24 F.R. 8061, Oct. 6, 1959) to read as follows:

§ 78.281 Specification ICC–103A–W; fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.281–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, such as application of riveted anchors, etc., in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) When safety valves are applied, date on which safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.284–22 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4597, June 26, 1956) to read as follows:

§ 78.284 Specification ICC–104–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car; in those cases where the tank builder does not complete the fabrication of tank, such as application of riveted anchors, etc., in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.285–18 amend paragraph (a) (3), (4), and (5) (21 F.R. 4598, June 26, 1956) to read as follows:

§ 78.285 Specification ICC–105A100–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.285–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.286–18 amend paragraph (a) (3), (4), and (5) (21 F.R. 4600, June 26, 1956) to read as follows:

§ 78.286 Specification ICC–105A300–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.286–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph, by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.287–18 amend paragraph (a) (3), (4), and (5) (21 F.R. 4602, June 26, 1956) to read as follows:

§ 78.287 Specification ICC–105A400–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.287–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.288–18 amend paragraph (a) (3), (4), and (5) (21 F.R. 4603, 4604, June 26, 1956) to read as follows:

§ 78.288 Specification ICC–105A500–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.288–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.289–13 amend paragraph (e); in § 78.289–18 amend paragraph (a) (3), (4), and (5) (23 F.R. 7659, Oct. 3, 1958) (21 F.R. 4605, June 26, 1956) to read as follows:

§ 78.289 Specification ICC–105A600–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.289–13 Safety valves.

• • • • • •

(e) Tanks for use in the transportation of liquefied carbon dioxide must be equipped with one safety valve of approved design set for a start-to-discharge pressure of 450 pounds per square inch, and one frangible disc device of approved design set to function at a pressure higher than the test pressure of the tank. The discharge capacity of each of these safety devices must be sufficient to prevent building up pressure in tank in excess of 495 pounds per square inch. Tank must also be equipped with two pressure regulating valves of approved design set for a start-to-discharge pressure of not to exceed 400 pounds per square inch. Each pressure regulating valve and safety device must have its final discharge piped to the outside of the protective housing.

§ 78.289–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.290–18 amend paragraph (a) (3), (4), and (5) (25 F.R. 3111, 3112, April 12, 1960) to read as follows:

§ 78.290 Specification ICC–112A500–W; fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.290–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.291–21 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4606, June 26, 1956) to read as follows:

§ 78.291 Specification ICC–108AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.291–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.292–21 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4610, June 26, 1956) to read as follows:

§ 78.292 Specification ICC–103A–AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.292–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.296–21 amend paragraph (a) (3), (5), and (6) (21 F.R. 4618, June 26, 1956) to read as follows:

§ 78.296 Specification ICC–103B100–W; rubber lined fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.296–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, such as application of riveted anchors, etc., in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

• • • • • •

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.297–21 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4620, June 26, 1956) to read as follows:

§ 78.297 Specification ICC–103D–W; fusion-welded alloy steel tanks to be mounted on or forming part of a car.

§ 78.297–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.298–21 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4622, 4623, June 26, 1956) to read as follows:

§ 78.298 Specification ICC–103E–W; fusion-welded alloy steel tanks to be mounted on or forming part of a car.

§ 78.298–21 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.299–20 amend paragraph (a) (3), (4), (5), and (6) (21 F.R. 4624, June 26, 1956) (24 F.R. 8062, Oct. 6, 1959) to read as follows:

§ 78.299 Specification ICC–103A–N–W; fusion-welded nickel or nickel alloy tanks to be mounted on or forming part of a car.

§ 78.299–20 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.300–18 amend paragraph (a) (3), (4), and (5) (21 F.R. 4626, June 26, 1956) to read as follows:

§ 78.300 Specification ICC–105A300–AL–W; lagged fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.300–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.301–19 amend paragraph (a) (3), (4), and (5) (21 F.R. 4628, June 26, 1956) to read as follows:

§ 78.301 Specification ICC–109A300–W; fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.301–19 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.302–19 amend paragraph (a) (3), (4), and (5) (22 F.R. 2237, April 4, 1957) to read as follows:

§ 78.302 Specification ICC–109A100–AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.302–19 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.303–11 amend paragraph (a) (3), (4), (5), and (6) (22 F.R. 4801, July 9, 1957) to read as follows:

§ 78.303 Specification ICC–111A100–W–1; fusion-welded steel tanks, or ICC–111A100–F–1, forge-welded steel tanks fabricated by conversion from existing ICC–105A300, 400, or 500 series tanks to be mounted on or forming part of a car.

§ 78.303–11 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.304–11 amend paragraph (a) (3), (4), (5), and (6) (22 F.R. 4803, July 9, 1957) (24 F.R. 8063, Oct 6, 1959) to read as follows:

§ 78.304 Specification ICC–111A100–W–2; fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.304–11 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Water capacity of the tank in pounds stamped plainly and permanently in letters and figures at least ½ inch high into the metal of the tank immediately below the mark specified in subparagraphs (2) and (3) of this paragraph. This mark must also be stenciled on the jacket immediately below the dome platform and directly behind or within 3 feet of the right or left side of the ladder, or ladders, if there is a ladder on each side of the tank, in letters and figures at least 2 inches high as follows:

WATER CAPACITY

000000 POUNDS

(7) When a tank car and its appurtenances are designed and authorized for the transportation of a particular commodity, the name of that commodity followed by the word "only", or such other wording as may be required to indicate the limits of usage of the car, must be stenciled on each side of the tank, or jacket if lagged, in letters at least 1 inch high, immediately above the stenciled mark specified in subparagraph (1) of this paragraph.

(8) Tanks made of clad plates must be stenciled on the tank, or jacket if lagged, "(naming material) ---------- clad tank." Lined tanks must be stenciled on the tanks, or jacket if lagged, "(naming material) ---------- lined tank." These marks must be in letters at least 2 inches high, immediately above the stenciled mark specified in subparagraph (1) of this paragraph.

In § 78.307–18 amend paragraph (a) (3), (4), and (5) (22 F.R. 4808, July 9, 1957) to read as follows:

§ 78.307 Specification ICC–106A300–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.307–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.308–18 amend paragraph (a) (3), (4), and (5) (22 F.R. 4810, July 9, 1957) to read as follows:

§ 78.308 Specification ICC–105A500–AL–W; lagged fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.308–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.309–11 amend paragraph (a) (3), and (5) (23 F.R. 7663, Oct. 3, 1958) to read as follows:

§ 78.309 Specification ICC–111A100–W–5; acid resistant lined fusion-welded steel tanks to be mounted on or forming part of a car.

§ 78.309–11 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

• • • • •

(5) Date on which the interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.310–11 amend paragraph (a) (3), (4), (5), and (6) (24 F.R. 3604, May 5, 1959) to read as follows:

§ 78.310 Specification ICC–111A60–AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.310–11 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.311–11 amend paragraph (a) (3), (4), (5), and (6) (24 F.R. 3606, May 5, 1959) to read as follows:

§ 78.311 Specification ICC–111A100–W–6; fusion-welded alloy steel tanks to be mounted on or forming part of a car.

§ 78.311–11 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(6) Date on which interior heater systems were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.312–18 amend paragraph (a) (3), (4), and (5) (22 F.R. 4812, July 9, 1957) to read as follows:

§ 78.312 Specification ICC–112A400–W; fusion-welded steel tanks, or ICC–112A400–F, forge-welded steel tanks fabricated by conversion from existing ICC–105A500 tanks to be mounted on or forming part of a car.

§ 78.312–18 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.313–19 amend paragraph (a) (3), (4), and (5) (23 F.R. 2335, April 10, 1958) to read as follows:

§ 78.313 Specification ICC–109A200–AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.313–19 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

In § 78.314–19 amend paragraph (a) (3), (4), and (5) (22 F.R. 4813, 4814, July 9, 1957) to read as follows:

§ 78.314 Specification ICC–109A300–AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.

§ 78.314–19 Marking.

(a) • • •

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested and pressure to which tested, stenciled on the tank, or jacket if lagged.

Section, Paragraph, and Reason for Amendment

72.5(a), Commodity List—Provides additions and amendments to keep Commodity List on a current basis.

73.53(k)—To delete guided missiles with warheads from the definition of explosive projectiles.

73.53(p)—To redefine rocket ammunition, which includes guided missiles, consistent with military nomenclature.

73.55(a)—Definition of nonexplosive ammunition is amended to include certain devices containing limited amounts of explosives or other dangerous articles that, if initiated, present no hazard in transportation.

73.65 (b)(2), (e)(3)—New spec. 21C fiber drum replaces specs. 21A and/or 21B fiber drums for certain high explosives with no liquid explosive ingredient nor any chlorate.

73.93(a)(10)—Reason for § 73.65 applies also to shipments of propellant explosives (solid), class B; also to set a maximum net weight capacity.

73.118(c) (27), (28), (36), (39) through (44)—To include certain pyroforic materials in the list of flammable liquids not exempt, in any quantity, from the regulations.

73.119 (a)(9), (b)(9)—Reason for § 73.65 applies also to shipments of flammable liquids, n.o.s.

73.127(b)—To authorize an increased gross weight capacity for barrels or drums of nitrocellulose or collodion cotton, etc., wet with alcohol.

73.136(a)(3)—To authorize the use of spec. 5C metal drums for methyl dichlorosilane and trichlorosilane.

73.154(a)(9)—Reason for § 73.65 applies also to shipments of flammable solids and oxidizing materials, n.o.s.; also to set a maximum net weight capacity.

73.156(a)(5)—Reason for § 73.65 applies also to shipments of barium peroxide and calcium peroxide; also to set a maximum net weight capacity.

73.157(a)(4)—Reason for § 73.65 applies also to shipments of cyclohexanone peroxide and dimethylhexane dihydroperoxide, wet.

73.158(a)(2)—Reason for § 73.65 applies also to shipments of dimethylhexane dihydroperoxide, dry and lauroyl peroxide, dry.

73.163(a)(3)—Reason for § 73.65 applies also to shipments of certain chlorates; also to set a maximum net weight capacity.

73.168(a)(2)—Reason for § 73.65 applies also to shipments of lithium amide, powdered; also to set a maximum net weight capacity.

73.175(a)(4)—Reason for § 73.65 applies also to shipments of lacquer base, or lacquer chips, dry; also to set a maximum net weight capacity.

73.178(a)(6)—Reason for § 73.65 applies also to shipments of motion-picture film, old and worn out (scrap); also to set a maximum net weight capacity.

73.195(a)(5)—Reason for § 73.65 applies also to shipments of pyroxylin plastic scrap, photographic film scrap, etc.; also to set a maximum net weight capacity.

73.197(a)(3)—Reason for § 73.65 applies also to shipments of pyroxylin plastics in sheets, rolls, rods or tubes; also to set a maximum net weight capacity.

73.201(a)(5)—Reason for § 73.66 applies also to shipments of rubber scrap, rubber buffings, reclaimed rubber or regenerated rubber; also to set a maximum net weight capacity.

73.204(a)(5), (6)—Reason for § 73.65 applies also to shipments of sodium hydrosulfite; also to set a maximum net weight capacity.

73.207(b)(5)—Reason for § 73.65 applies also to shipments of sulfide of sodium or sulfide of potassium, fused or concentrated but not ground.

73.217(a)(3)—Reason for § 73.65 applies also to shipments of calcium and lithium hypochlorite compounds, dry.

73.227(a)(2)—Reason for § 73.65 applies also to shipments of urea peroxide.

73.234(a)(3)—Reason for § 73.65 applies also to shipments of sodium nitrite.

73.235(a)(2)—Reason for § 73.65 applies also to shipments of ammonium bichromate.

73.244(c)(51)—To include phosphorus oxybromide in the list of corrosive liquids not exempt, in any quantity, from the regulations.

73.245(a)(24)—Reason for § 73.65 applies also to shipments of acids or other corrosive liquids, n.o.s.; also to prescribe spec. 2U polyethylene container as inside container.

73.256(a)(5)—To authorize new spec. 21C fiber drums, with inside spec. 2U polyethylene container, for liquid cleaning compounds.

73.261(a)(2)—Reason for § 73.65 applies also to shipments of fire extinguisher charges.

73.263(a)(22)—Reason for § 73.65 applies also to shipments of hydrochloric acid and mixtures or solutions thereof; also to prescribe spec. 2U polyethylene container as inside container.

73.264(a)(4)—To authorize spec. 12B fiberboard box, with inside polyethylene bottles, for hydrofluoric acid; to increase permitted strength of acid, from 55 to 70 percent strength; to stipulate minimum bottle part thickness; to prescribe bottle closure requirements.

73.265(d)(5)—Reason for § 73.65 applies also to shipments of hydrofluosilicic acid; also to prescribe spec. 2U polyethylene container as inside container.

73.266(b)(6)—To authorize spec. 6J and 37A metal barrels or drums, with inside spec. 2S or 2SL polyethylene container, for hydrogen peroxide solution not over 52 percent strength.

73.266(c)(7)—Addition of paragraph (b)(6) to this section prescribes use of spec. 6J barrel or drum therefore paragraph (c)(7) is redundant.

73.271, heading and (a)—To provide packaging requirements for phosphorus oxybromide.

73.272(f)(5)—Reason for § 73.65 applies also to shipments of sulfuric acid not to exceed 95 percent concentration.

73.276(a)(5)—To prohibit the use of spec. 103A-AL-W tank car for hydrazine solution.

73.307(a)(2)—To clarify that spec. 3HT cylinders are for use in aircraft rather than for aircraft use.

73.308(a) Note 15—Same as § 73.307.

73.346(a)(15)—Reason for § 73.65 applies also to poisonous liquids, n.o.s., class B.

73.353(a)(4)—To clarify that specs. 4D900 and 4DA500 are for use in aircraft rather than for aircraft use.

73.354(a)—To define motor fuel antiknock compounds.

73.358(a)(5)—Reason for § 73.65 applies also to shipments of hexaethyl tetraphosphate, methyl parathion, etc., liquid.

73.359 (a)(6), (b)(5)—Reason for § 73.65 applies also to shipments of hexaethyl tetraphosphate mixtures, etc., liquid.

73.365(a)(11)—The amendment of paragraph (a)(14) of this section prescribes new spec. 21C fiber drum, which spec. replaces spec. 21B fiber drum, therefore paragraph (a)(11) is redundant.

73.365(a)(14)—Reason for § 7365, applies also to shipments of poisonous solids, n.o.s., class B.

73.365(a)(16)—For consistency and to clarify the maximum number of glass bottles permitted inside spec. 12A fiberboard boxes for poisonous solids, n.o.s., class B.

73.370(a)(10)—New spec. 21C fiber drum, which replaces specs. 21A and 21B fiber drums, is prescribed in paragraph (a)(11) of this section, therefore paragraph (a)(10) is redundant.

73.370(a)(11)—Reason for § 73.65 applies also to shipments of cyanides or cyanide mixtures.

73.370(a)(13)—To authorize shipment of cyanides or cyanide mixtures, in bulk, in metal portable containers approved by the Bureau of Explosives.

73.373, Heading and (a)—To prescribe packaging requirements for orthonitroaniline.

73.373(a)(3)—Reason for § 73.65 applies also to shipments of ortho and paranitraniline.

73.374(a)(2)—Reason for § 73.65 applies also to shipments of nitrochlorbensene, meta or para.

73.377 (a)(5), (b)(5)—Reason for § 73.65 applies also to shipments of hexaethyl tetraphosphate mixtures, dry, etc.; also to set a maximum net weight capacity.

73.378(a)(5)—Reason for § 73.65 applies also to shipments of beryllium metal powder.

73.393(f)(3)—Reason for § 73.65 applies also to shipments of radioactive materials.

74.526(o) (2), (3), 74.529(c), 74.530(b), 74.532(a)—To refer to the Bureau of Explosives' Pamphlet 6C for recommended methods of blocking and bracing truck bodies or trailers, containing explosives class A, B, or C, on flat cars.

74.534(a)—To prescribe loading and staying requirements applicable to portable containers and tanks.

77.824(a), (a)(2), (3)—To make the periodic retest requirements applicable to existing spec. MC 301 cargo tanks which requirements were inadvertently omitted in Order No. 47.

78.81-9(d), 78.83-9(d)(1), 78.86-8(d)(1), 78.90-8(d)(1)—To detail improved thread form on closures for specs. 5A, 5C, 5K, and 5M metal barrels or drums.

78.223, entire section and 78.223, entire section—Specs. 21A and 21B fiber drums have been replaced by new spec. 21C fiber drum.

78.224, entire section—To provide for the construction of new spec. 21C fiber drum which incorporate features of both spec. 21A and 21B fiber drums.

78.280-22(a)(3), (4), (5), (6)—To no longer require certain markings (builders initials, date, location of tests and by whom; and original test date) to be stenciled on spec. 103-W tank car.

78.281-21(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103A-W tank car.

78.282-20(a)(3), (5)—Reason for § 78.280-22 applies also to spec. 103B-W tank car.

78.283-21(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103C-W tank car.

78.284-22(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 104-W tank car.

78.285-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A100-W tank car.

78.286-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A300-W tank car.

78.287-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A400-W tank car.

78.288-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A500-W tank car.

78.289-13(e)—To replace "pressure" with "capacity" as the third word in the second sentence for clarification.

78.289-16(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A600-W tank car.

78.290-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 112A340-W tank car.

78.291-21(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103AL-W tank car.

78.292-21(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103A-AL-W tank car.

78.296-21(a)(3), (5), (6)—Reason for § 78.280-22 applies also to spec. 105S700-W tank car.

78.297-21(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103D-W tank car.

78.298-21(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103E-W tank car.

78.299-20(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 103A-E-W tank car.

78.300-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A300-AL-W tank car.

78.301-19(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A500-W tank car.

78.302-19(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 103A100-AL-W tank car.

78.303-11(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 111A100-W-1 tank car.

78.304-11(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 111A100-W-2 tank car.

78.305-11(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 111A100-W-3 tank car.

78.306-11(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 111A100-W-4 tank car.

78.306-11(a)(6)—Eliminates interior heater coil marking requirements inasmuch as spec. 111A100-W-4 tank cars are not so equipped.

78.307-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A300-W tank car.

78.308-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 105A500-AL-W tank car.

78.309-11(a)(3), (5)—Reason for § 78.280-22 applies also to spec. 111A100-W-5 tank car.

78.310-11(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 111A60-AL-W tank car.

78.311-11(a)(3), (4), (5), (6)—Reason for § 78.280-22 applies also to spec. 111A100-W-6 tank car.

78.312-18(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 112A400-W tank car.

78.313-19(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 109A200-AL-W tank car.

78.314-19(a)(3), (4), (5)—Reason for § 78.280-22 applies also to spec. 109A300-AL-W tank car.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Phoenix Area Office Redelegation Order No. 1, Amdt. 7]

SUPERINTENDENT, UINTAH AND OURAY AGENCY

Redelegation of Authority With Respect to Lands and Minerals

JULY 27, 1961.

Order 1 (20 F.R. 992), as amended, (22 F.R. 4919; 23 F.R. 6841; 24 F.R. 4925; 24 F.R. 9402; 25 F.R. 6547; 26 F.R. 8468) is further amended as follows:

1. Under Functions Relating to Lands and Minerals, in Part 2, the following section is added:

Sec. 2.17 *Oil and gas leases.* (a) The approval of oil and gas leases, on forms approved by the Commissioner of Indian Affairs, of tribal lands and of trust or restricted individually owned lands in accordance with advertisements soliciting bids therefor pursuant to 25 CFR Parts 171 and 172.

(b) The authority conferred by this section extends to and includes the approval of other appropriate administrative action required on all assignments of oil and gas leases now or hereafter in force on tribal or restricted allotted lands, bonds, and other instruments required in connection with such leases or assignments, and the acceptance of voluntary surrender of leases by lessees.

(c) The authority delegated in this section does not include:

1. Approval of leases on lands purchased or reserved for agency or school purposes.

2. Approval of leases, assignments and bonds on any forms except those approved by the Commissioner of Indian Affairs.

3. Modification of any forms approved by the Commissioner of Indian Affairs.

4. Approval of amendments to oil and gas leases or to assignments.

5. Extension of time for drilling.

6. Approval of instruments providing for the payment of overriding royalty.

7. Approval of unit and communitization agreements.

8. Assignment of separate horizons.

9. Approval of the cancellation of oil and gas leases for violation of the terms thereof.

10. Approval of well-spacing orders.

F. M. HAVERLAND,
Area Director.

Approved: February 14, 1962.

JOHN O. CROW,
Acting Commissioner.

[F.R. Doc. 62-1680; Filed, Feb. 19, 1962; 8:45 a.m.]

Bureau of Land Management

[Classification No. 212]

NEVADA

Small Tract Classification

1. Pursuant to authority delegated to me by Bureau Order No. 684, dated August 28, 1961 (26 F.R. 8216) and the State Director August 30, 1961 (26 F.R. 8468), I hereby classify the following described public lands in Washoe County, Nevada, as suitable for disposition under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a), as amended:

MOUNT DIABLO MERIDIAN

T. 18 N., R. 19 E.,
Sec. 36, E½NE¼NW¼, S½NW¼NE¼NW¼, SW¼NE¼NW¼, SE¼NW¼, NW¼SW¼.

The area described aggregates 115 acres.

2. Classification of the above described lands by this order segregates them from all appropriation, including location under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by the order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a), as amended, until so provided by an order to be issued by an authorized officer, opening the lands to application or bid.

DANIEL P. BAKER,
Chief, Division of Lands and Minerals Management.

FEBRUARY 8, 1962.

[F.R. Doc. 62-1682; Filed, Feb. 19, 1962; 8:45 a.m.]

[Group 297]

ARIZONA

Notice of Filing of Plat of Survey

FEBRUARY 12, 1962.

1. Plat of survey of the lands described below will be officially filed in the Land Office, Phoenix, Arizona, effective at 10:00 a.m., on March 20, 1962:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 5 S., R. 19 E.,
Sec. 32, all;
Sec. 36, lots 1, 2, 3, 4, 5, 6, SW¼SW¼, SW¼SE¼, E½E½.

The areas described aggregate 1,043.50 acres.

2. Available data indicates that these lands are mountainous, and the soils are rocky, sandy loam.

3. Except for and subject to valid existing rights, it is presumed that title to the above lands passed to the State of Arizona upon acceptance of this plat of survey on October 24, 1961.

4. In view of the above, the lands described will not be subject to disposition under the General Public Land Laws by reason of the official filing of the plat.

ELLEN W. KNECHT,
Acting Manager.

[F.R. Doc. 62-1695; Filed, Feb. 19, 1962; 8:46 a.m.]

[Group 327]

ARIZONA

Notice of Filing of Plat of Survey

FEBRUARY 12, 1962.

1. Plat of survey of the lands described below will be officially filed in the Land Office, Phoenix, Arizona, effective at 10:00 a.m. on March 20, 1962:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 5 N., R. 9 W.,
Sec. 1, lots 1, 2, 3, 4, S½N½, S½;
Sec. 2, lots 1, 2, 3, 4, S½N½, S½;
Sec. 3, lots 1, 2, 3, 4, S½N½, S½;
Sec. 4, lots 1, 2, 3, 4, S½N½, S½;
Sec. 5, lots 1, 2, 3, 4, S½N½, S½;
Sec. 6, lots 1, 2, 3, 4, 5, 6, 7, SE¼NW¼, S½NE¼, E½SW¼, SE¼;
Sec. 7, lots 1, 2, 3, 4, E½W½, E½;
Sec. 8, All;
Sec. 9, All;
Sec. 10, All;
Sec. 11, All;
Sec. 12, All;
Sec. 13, All;
Sec. 14, All;
Sec. 15, All;
Sec. 16, All;
Sec. 17, All;
Sec. 18, lots 1, 2, 3, 4, E½W½, E½;
Sec. 19, lots 1, 2, 3, 4, E½W½, E½;
Sec. 20, All;
Sec. 21, All;
Sec. 22, All;
Sec. 23, All;
Sec. 24, All;
Sec. 25, All;
Sec. 26, All;
Sec. 27, All;
Sec. 28, All;
Sec. 29, All;
Sec. 30, lots 1, 2, 3, 4, E½W½, E½;
Sec. 31, lots 1, 2, 3, 4, E½W½, E½;
Sec. 32, All;
Sec. 33, All;
Sec. 34, All;
Sec. 35, All;
Sec. 36, N½, N½S½, lots 1, 2, 3, 4;

Within the above described areas are 23,190.16 acres.

2. Available data indicates that the lands in T. 5 N., R. 9 W., are, for the most part, rolling hills with a rocky soil. There is no timber, and the undergrowth consists of greasewood, paloverde, ocotillo, catclaw, and saguaro cactus.

3. The SE¼SW¼NW¼NW¼, SW¼SE¼NW¼NW¼, NE¼NW¼SW¼NW¼, NW¼NE¼SW¼NW¼ sec. 2, T. 5 N., R. 9 W., are embraced in Small Tract Leases Arizona 017071 and 017072 issued to the Aguila Cattle Company.

4. Except for the lands described in paragraph 3, the lands described in paragraph 1 are opened to application, selection and petition as outlined in paragraph 5 below. No application for these lands will be allowed under the Homestead, Desert Land, Small Tract, or any other nonmineral public land law, unless the lands have already been classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

5. Subject to any existing valid rights and requirements of applicable law, rules and regulations, the lands described in paragraph 1, excluding lands described in paragraph 3, are hereby opened to filing applications and selections, in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs;

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on March 20, 1962, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

ROY T. HELMANDOLLAR,
Manager.

National Park Service

[Order No. 18, Amdt. 2]

CHIEF, DIVISION OF PROPERTY MANAGEMENT AND GENERAL SERVICES

Amendment of Delegation of Authority

Delegation of Authority to enter into Washington Office contracts, Order No. 18, Amendment 1, (22 F.R. 7187; September 7, 1957) is amended to read as follows:

SECTION 1. The Chief, Division of Property Management and General Services, may enter into contracts each in an amount not in excess of $50,000 for supplies, equipment, and services in conformity with applicable regulations and statutory authority and subject to the availability of appropriations. (205 DM 11.1; 26 F.R. 11748)

Dated: February 8, 1962.

CONRAD L. WIRTH,
Director.

[F.R. Doc. 62-1688; Filed, Feb. 19, 1962; 8:46 a.m.]

[Order No. 23, Amdt. 1]

CHIEFS OF THE FIELD DESIGN OFFICES, REGIONAL CHIEFS, DIVISIONS OF PROPERTY MANAGEMENT AND GENERAL SERVICES

Amendment of Delegation of Authority

Delegation of Authority to execute and approve contracts, Order No. 23 (22 F.R. 1263; February 28, 1957) is amended to read as follows:

SECTION 1. Chiefs of the Field Design Offices. The Chiefs, Western, Eastern, and National Capital Offices of Design and Construction, are authorized to execute and approve contracts not in excess of $50,000 for supplies, equipment, or services required to carry out the functions of their offices in conformity with applicable regulations and statutory authority and subject to availability of appropriations.

SEC. 2. The Regional Chiefs, Divisions of Property Management and General Services, Regions Four, Five and Six Offices, are authorized to execute and approve contracts not in excess of $50,000 for supplies, equipment or services required to carry out the functions of the Western, Eastern, and National Capital Offices of Design and Construction, respectively, in conformity with applicable regulations and statutory authority and subject to availability of appropriations.

Dated: February 13, 1962.

CONRAD L. WIRTH,
Director.

[F.R. Doc. 62-1689; Filed, Feb. 19, 1962; 8:46 a.m.]

[Order No. 14, Amdt. 16]

REGIONAL DIRECTORS

Amendment of Delegation of Authority

Section 1 of Delegation Order No. 14, issued December 1, 1952 (19 F.R. 8824), as amended (25 F.R. 9228, September 27, 1960), (1) is amended, by deletion of reference to the Superintendent, National Capital Parks, to read as follows:

SECTION 1. The Regional Directors of the National Park Service, in the administration, operation and development of the areas and offices of the regions under their supervision are authorized to exercise all of the authority now or hereafter vested in the Director, except with respect to the following matters:

(2) Is amended by revision of paragraph (e) of Section 1 with respect to lands and water rights to read as follows:

(e) Acquisition of lands and water rights, acceptance of deeds or other instruments of title relating thereto, acceptance of donations of personal property valued in excess of $10,000, and acceptance of donations of money in excess of $10,000.

(3) Is amended by revision of paragraph (g) of Section 1 to read as follows:

(g) Sales of timber pursuant to Section 3 of the Act of August 25, 1916 (39 Stat. 535; 16 USC, Sec. 3), when the fair market value of the timber involved in any single transaction exceeds $10,000.

(4) Is amended by addition of the following paragraph to Section 1:

(y) Formal, full-scale field investigations of areas suggested or proposed for inclusion in the National Park System prior to written approval of the Director.

(Secretary's Order No. 2640, as amended; 5 U.S.C. sec. 22; sec. 2 of Reorganization Plan No. 3 of 1950)

Dated: February 13, 1962.

CONRAD L. WIRTH,
Director.

[F.R. Doc. 62-1683; Filed, Feb. 19, 1962; 8:45 a.m.]

[Order No. 25, Amdt. 1]

CHIEFS OF THE FIELD DESIGN OFFICES

Amendment of Delegation of Authority

Delegation of Authority to negotiate certain professional services contracts without advertising as contained in Order No. 25 (23 F.R. 7711; October 4, 1958) is amended to read as follows:

SECTION 1. *Delegation.* The Chiefs, Western Office, Eastern Office, and National Capital Office of Design and Construction are authorized, subject to the provisions of Section 2 of this order, to exercise the authority delegated by the Administrator of General Services to the Secretary of the Interior (24 F.R. 1921) to negotiate without advertising under section 302(c)(4) of the Federal Property and Administrative Services Act of 1949, as amended, contracts for services of engineering, architectural, and landscape architectural firms in connection with the administration of construction programs of the National Park Service.

SEC. 2. *Limitations; exercise of authority.* (a) The authority granted by Section 1 of this order shall not be applicable to buildings (exclusive of bridges, landscaping, utilities, etc.) the construction cost of which is estimated to be $200,000 or more.

(b) The authority granted by section 1 of this order shall be exercised in accordance with all provisions of Title III of the Act with respect to negotiation of contracts, and all other provisions of law, and applicable policies, procedures

and controls prescribed by the General Services Administration and the Department of the Interior. (205 DM 11.4B)

Dated: February 13, 1962.

CONRAD L. WIRTH,
Director.

[F.R. Doc. 62-1690; Filed, Feb. 19, 1962; 8:46 a.m.]

DEPARTMENT OF AGRICULTURE

Office of the Secretary

RURAL AREAS DEVELOPMENT PROGRAM

Delegations of Authority and Assignment of Functions

Secretary's Memorandum No. 1448, as revised and supplemented, makes the following delegations of authority and assignment of functions.

1. The Director of Agricultural Credit will give general direction and supervision to the Rural Areas Development Program including activities under the Area Redevelopment Act (Public Law 87-27).

2. There is established in the Department of Agriculture the Office of Rural Areas Development, headed by a Director.

3. Under the general direction and supervision of the Director of Agricultural Credit, the Office of Rural Areas Development will be responsible for general administration of the Rural Areas Development Program, as well as for Departmental activities under Public Law 87-27, to assure effective Departmental participation in the total effort, and for the following functions:

(a) Provide leadership and initiative in the formulation of current and long-range policies and plans for carrying out the rural development programs of the Department of Agriculture.

(b) Coordinate and expedite the application of resources of Departmental agencies in assisting State, local, private, community and farm organizations and individuals working for the improvement of underemployed areas.

(c) Make recommendations to the Secretary, after studies and analyses, for the designation of areas for development.

(d) Conduct continuous study to: (1) Determine how programs of the Department can be brought to bear on the particular problems in each designated rural development area; and (2) Assure that program agencies are giving effective technical assistance to private groups and local and State governments in formulating a comprehensive development program, and are making their full resources available in supporting project plans for each designated area.

(e) Maintain continuous liaison with appropriate Departments and Agencies of the Executive Branch and with officials of public and private organizations to assure coordination of effort and utilization of all available resources in support of the total program.

(f) Prepare and periodically revise a Departmental Rural Area Development Program Inventory for each development area, consisting of an itemization of the services and programs, and proposed improvements thereof, currently provided by the Department.

(g) Prepare and publish current reports on local achievement and progress in formulating and implementing rural development programs. Maintain, with the assistance of participating agencies, records from which necessary reports can be made to the Secretary and Congress.

Responsibilities delegated to the Secretary of Agriculture by the Secretary of Commerce, pursuant to the provisions of Public Law 87-27, Area Redevelopment Act, are redelegated as follows:

4. Subject to direction and supervision by the Director of Agricultural Credit, and the responsibilities of Office of Rural Areas Development, as stated above, and other reservations of authority set forth in section 5 below, the following responsibilities under the Areas Redevelopment Act, stated in the exact language of the delegations from the Secretary of Commerce, are redelegated to individual agencies of the Department of Agriculture as follows:

(a) *Designation of redevelopment areas.* "Find facts and provide data to be used in association with facts and data to be furnished by the Secretary of Labor and the Secretary of the Interior, by the Secretary of Commerce, in selecting the criteria and formulating the standards upon which areas which are essentially and fundamentally associated with agriculture and forestry shall be designated 'redevelopment areas' under section 5(b) of the Act and more particularly classified as 'rural redevelopment areas'.

"Find facts and provide data and make recommendations to be used by the Secretary of Commerce in designating and classifying 'rural redevelopment areas' under the criteria and standards mentioned in the paragraph, next above.

"Review from time to time as provided in section 13 of the Act the designation of 'rural redevelopment areas' and pursuant to such review to report information and data to the Secretary of Commerce necessary to enable the Secretary of Commerce to determine whether conditions have changed in any such 'rural redevelopment areas' so that such area is no longer eligible for further assistance under the Act."

These functions are assigned to Economic Research Service, supported and assisted by Statistical Reporting Service and other responsible USDA Agencies.

(b) *Organizational and educational leadership.* "Provide in 'rural redevelopment areas' organizational and educational leadership for orderly development of local economic initiative."

These functions are assigned to Federal Extension Service.

(c) *Advice, assistance and information.* "Provides advice, assistance, and information to individuals, committees, groups and enterprises in 'rural' redevelopment areas' regarding the application of the Act, the implementation of proposed projects and the objectives of the approved overall Economic Development Program for the area, and matters as set forth in section 10 of the Act."

(1) Functions with respect to technical information and service are assigned to Farmers Home Administration, supported and assisted by other responsible USDA agencies.

(2) Functions with respect to organizational and education leadership are assigned to Federal Extension Service.

(3) Functions with respect to implementation of proposed industrial and commercial projects, other than water facilities are assigned to Rural Electrification Administration, supported and assisted by other responsible USDA agencies.

(4) Functions with respect to implementation of proposed water facility projects and all community facility projects are assigned to Farmers Home Administration, supported and assisted by Soil Conservation Service and other responsible USDA agencies.

(d) *Overall economic development program.* "Assist and furnish guidance to 'rural redevelopment areas' in preparation of Overall Economic Development Programs."

(1) Functions with respect to technical information and service are assigned to Farmers Home Administration, supported and assisted by other responsible USDA agencies.

(2) Functions with respect to organizational and educational leadership are assigned to Federal Extension Service.

(e) *Certification of overall economic development program.* "Certify as a condition precedent to approval by the Secretary of Commerce as provided by section 6(b)(10) of the Act, that Overall Economic Development Programs in such areas are consistent with proper objectives of the economic development of rural areas of the United States."

These functions are assigned to Farmers Home Administration, with technical data provided by Economic Research and Statistical Reporting Services and with advice and assistance of other responsible USDA agencies.

(f) *Technical assistance programs.* "Recommend technical assistance programs for 'rural redevelopment areas' and to certify to the Secretary of Commerce that any proposed technical assistance program for a 'rural redevelopment area' under section 11 of the Act is consistent with the purposes of said section 11 of the Act, as a condition precedent to final approval or authorization by the Secretary of Commerce of any such program in a 'rural redevelopment area'."

These functions are assigned to Farmers Home Administration, with advice and assistance of responsible USDA agencies.

(g) *Loans and grants.* "Certify to the Secretary of Commerce, as a condition precedent to approval by the Secretary of Commerce, that a proposed project in a 'rural redevelopment area' for which financial assistance is sought under sections 6, 7, or 8 of the Act is consistent with the approved Overall Economic Development Program for such area."

(1) Functions with respect to industrial and commercial projects, other than water facilities, are assigned to Rural Electrification Administration, with advice and assistance furnished by other responsible USDA agencies.

(2) Functions with respect to industrial and commercial water facility projects and all community facility projects are assigned to Farmers Home Administration, with advice and assistance furnished by other responsible USDA agencies.

(h) *Special projects.* "Furnish advice, assistance, and information in connection with projects and Overall Economic Development Programs in non-rural 'redevelopment areas' when the Secretary of Commerce finds that such projects or prospective projects in such non-rural 'redevelopment areas' are essentially and fundamentally associated with agriculture or forestry."

These functions are assigned to the agencies designated in subsections 4 (d) and (e) above, with respect to "overall economic development programs," the agencies designated in subsections 4 (f) and (g) above, with respect to projects.

5. There is reserved to the Director of Agriculture Credit authority and responsibility, as set forth in the foregoing delegations, for:

(a) Certifying to the Secretary of Commerce that overall economic development programs are consistent with the economic development of rural areas.

(b) Certifying to the Secretary of Commerce that proposed projects involving financial assistance under the Act are in accordance with the approved overall economic development program.

(c) Recommending Technical Assistance Programs for rural development areas and certifying to the Secretary of Commerce that each program is consistent with the purposes of the Area Redevelopment Act.

(d) Recommending to the Secretary of Commerce criteria and standards to be used in the designation of rural redevelopment areas; recommending the designation and classification of areas, and termination of eligibility of such areas.

(R.S. 161 U.S.C. 22)

Done at Washington, D.C., February 13, 1962.

DEPARTMENT OF COMMERCE

Maritime Administration

AMERICAN EXPORT LINES, INC.

Notice of Application

Notice is hereby given that American Export Lines, Inc., has filed an application for a waiver under the provisions of section 804 of the Merchant Marine Act, 1936, as amended, to permit said company to act as agent to perform certain husbanding services for the foreign-flag ship "Aurelia" while said ship is using Export's Pier 84, North River, New York during the ship's two calls at New York now scheduled for June 8 and 9, and 26 and 27, 1962. The arrangement does not involve the booking of cargo or passengers for the vessel.

Any person, firm or corporation having an interest in such Application who desires to offer views and comments thereon for consideration by the Maritime Administrator should submit same in writing, in triplicate, to the Secretary, Maritime Administration, Washington 25, D.C. by the close of business March 2, 1962. The Maritime Administrator will consider these views and take such action with respect thereto as may be deemed appropriate.

Dated: February 15, 1962.

By order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP62-148]

CITIES SERVICES GAS CO.

Notice of Application and Date of Hearing

FEBRUARY 13, 1962.

Take notice that on December 12, 1961, Cities Service Gas Company (Applicant), P.O. Box 1995, Oklahoma City, Oklahoma, filed in Docket No. CP62-148 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of field facilities to enable Applicant to take into its certificated main pipeline system natural gas which will be purchased from producers thereof from time to time during the calender year 1962, at a total cost not to exceed $3,000,000, with no single project to exceed a cost of $500,000, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally coextensive with said system.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 20, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 7, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1725; Filed, Feb. 19, 1962; 8:49 a.m.]

[Docket Nos. CI62-177, CI62-233]

H. L. HUNT AND WHELESS DRILLING CO. ET AL.

Notice of Applications

FEBRUARY 14, 1962.

Take notice that on August 14, 1961, and August 21, 1961, H. L. Hunt (Hunt), 700 Mercantile Bank Building, Dallas 1, Texas, and Wheless Drilling Company, Operator, et al. (Wheless), P.O. Box 1746, Shreveport, Louisiana, filed in Docket Nos. CI62-177 and CI62-233 respectively, applications pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon service to Arkansas Louisiana Gas Company (Arkansas Louisiana) from their respective working interests in the Gertrude K. Ogle Unit No. 1 well, Longstreet Field, Caddo Parish, Louisiana, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Hunt and Wheless were authorized on April 22, 1957, in Docket Nos. G-10794 and G-10861, respectively, to render the service herein proposed to be abandoned.

The applications state that the gas supply in the subject well is depleted. Arkansas Louisiana has agreed that said well should be released from the gas purchase contract on the condition that said release should be effective only as to the particular producing zone from which the well has been producing and has reserved the right to purchase gas from any other zone or zones in which the well may be completed.

Protests or petitions to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 7, 1962.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1726; Filed, Feb. 19, 1962; 8:49 a.m.]

[Docket No. G-12560]

UNITED GAS PIPE LINE CO.

Notice of Motion To Amend

FEBRUARY 13, 1962.

Take notice that on November 8, 1961, United Gas Pipe Line Company (Movant), 1525 Fairfield Avenue, Shreveport, Louisiana, filed in Docket No. G-12569 a motion to further amend the order in said docket issued on August 23, 1957, all as more fully set forth in the motion which is on file with the Commission and open to public inspection.

Movant seeks authorization to increase deliveries of natural gas to Coastal Chemical Corporation, Pascagoula, Mississippi, from 8,500 Mcf per day to 20,000 Mcf per day on an interruptible basis. Movant states that there is sufficient capacity in the existing authorized facilities to render the increased service which is required due to an expansion of the Coastal Chemical Corporation plant.

Protests, requests for hearing, or petitions to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 7, 1962.

JOSEPH H. GUTRIDE,
Secretary.

FOREIGN-TRADE ZONES BOARD

[Order No. 53]

RESOLUTION APPROVING APPLICATION OF THE PUERTO RICO INDUSTRIAL DEVELOPMENT COMPANY, SAN JUAN, PUERTO RICO, AND ORDER AUTHORIZING ISSUANCE OF GRANT FOR A FOREIGN-TRADE SUB-ZONE AT PENUELAS, PUERTO RICO

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

Resolution and order. Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U.S.C. 81a-81u) and the Foreign-Trade Zones Board Regulations (15 CFR 400.304), the Foreign-Trade Zones Board has adopted the following resolution and order:

The Board having considered the matter: *It is ordered*, "Upon examination, the application, as amended by letter of September 6, 1961, of the Puerto Rico Industrial Development Company, San Juan, Puerto Rico, as Grantee of Foreign-Trade Zone No. 7, Mayaguez, Puerto Rico, for the privilege of establishing, operating and maintaining a foreign-trade sub-zone at Penuelas, Puerto Rico, at which Union Carbide Caribe, Inc., would operate an olefins plant, has been found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations made thereunder. The Board has further found that the existing foreign-trade zone at Mayaguez will not serve adequately the convenience of commerce with respect to the proposed purposes of such sub-zone. Now, therefore, said application for a grant is approved and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the Puerto Rico Industrial Development Company, a grant permitting the establishment, operation and maintenance of a foreign-trade sub-zone at Penuelas, Puerto Rico, in compliance with the application, as amended, on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of the Board. The grant shall be issued subject to settlement locally of the recommendations made by the District Collector of Customs and District Engineer in their respective reports, within a reasonable time after the issuance of the grant."

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE SUB-ZONE AT PENUELAS, PUERTO RICO

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes", as amended (48 Stat. 998-1003; U.S.C. Title 19 § 81a-81u), hereinafter referred to as "the Act", the Foreign-Trade Zones Board, hereinafter referred to as "the Board", is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States; and,

Whereas, the Foreign-Trade Zones Board Regulations provide (15 CFR 400.304) that the establishment of a foreign-trade sub-zone in an area separate from an existing zone, for one or more of the specialized purposes of storing, manipulating, manufacturing, or exhibiting goods may be authorized if the Board finds that existing or authorized zones will not serve adequately the convenience of commerce with respect to the proposed purposes; and,

Whereas, the Puerto Rico Industrial Development Company, a public corporation and an instrumentality of the Commonwealth of Puerto Rico, the Grantee of Foreign-Trade Zone No. 7 at Mayaguez, Puerto Rico, has made application in due and proper form to the Board for the establishment, operation, and maintenance of a foreign-trade sub-zone, at Penuelas, Puerto Rico; and,

Whereas, the purpose of the proposed sub-zone is to provide the Grantee with the means to permit the operation of an olefins plant in a foreign-trade zone area, utilizing as raw materials, refinery gas and/or imported light virgin naptha and/or any other suitable hydrocarbon products within the sub-zone, and intended thereafter to be either entered into the customs area for consumption or reexported or consumed within the sub-zone; and,

Whereas, notice of the application has been given and published, and full opportunity has been afforded all interested parties to be heard; and,

Whereas, the Board has found that the existing Foreign-Trade Zone No. 7 at Mayaguez, will not service adequately the convenience of commerce with respect to the proposed purposes of such a sub-zone; and,

Whereas, the Board has found the proposed plans are suitable for the establishment and operation of the sub-zone, and that the proposed facilities described in the application with adjustments proposed by the District Collector of Customs and District Engineer, as hereinafter referred to, are sufficient:

Now, therefore, the Board hereby further grants to the Puerto Rico Industrial Development Company the privilege of establishing, operating, and maintaining, a foreign-trade sub-zone, for the aforementioned purpose, officially designated as Foreign-Trade Sub-Zone 7-A, at Penuelas, Puerto Rico, and more particularly described on the map accompanying the application, marked Exhibit No. 10, said grant being subject to the provisions, conditions, and restrictions of the Act and of all rules and regulations made thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to wit:

The Grantee shall make no deviation from the maps, plans, specifications, drawings, and blue prints, accompanying the said application and marked Exhibits Nos. 1 to 13 inclusive, before or after completion of the structures or work involved, unless modification of such maps, plans, specifications, drawings, and blue prints, has previously been submitted to and has received the approval of the Board.

The work of construction under this grant shall commence immediately following the date of the grant; said work shall be diligently prosecuted to completion and the work of construction shall be completed and operation of the sub-zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the Sub-Zone Grant. The Grantee shall notify the United States District Engineer in whose District the Sub-Zone is located of the date upon which work will begin and as far in advance thereof as the District Engineer may reasonably specify, and shall notify him promptly in writing of any suspension of construction for a period of more than one week, and of its resumption and completion.

The Grantee shall, to the extent here applicable, fully comply with the provisions of the laws for the protection and preservation of the navigable waters of the United States, and shall secure the authorization and approvals of works in navigable waters of the United States required by such laws. The Grant herein made shall not be construed as conveying such approval.

The Grantee shall allow officers and employees of the United States of America free and unrestricted access in, to, and throughout said sub-zone in the performance of their official duties.

This Grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said sub-zone, and in no event shall the United States of America be liable therefor.

This grant is issued subject to settlement locally of the recommendations made by the District Collector of Customs and District Engineer in their respective reports on the application within a reasonable time after issuance of the grant.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, Luther H. Hodges, at Washington, D.C., this 14th day of February 1962, pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
[SEAL] LUTHER H. HODGES,
Chairman and Executive Officer.

Attest:

RICHARD H. LAKE,
Executive Secretary.

CERTIFICATE OF EXECUTIVE SECRETARY

I, Richard H. Lake, Executive Secretary of the Foreign-Trade Zones Board, do hereby certify that the following is a true extract from the records of the proceedings of that portion of the Minutes (Memorandum) of January 16, 1962, of the Foreign-Trade Zones Board relating to the matter hereinbefore in this grant described:

Upon examination, the application, as amended by letter of September 6, 1961, of the Puerto Rico Industrial Development Company, San Juan, Puerto Rico, as Grantee of Foreign-Trade Zone No. 7, Mayaguez, Puerto Rico, for the privilege of establishing, operating and maintaining a foreign-trade sub-zone at Penuelas, Puerto Rico, at which Union Carbide Caribe, Inc., would operate an olefins plant, has been found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations made thereunder. The Board has further found that the existing foreign-trade zone at Mayaguez will not serve adequately the convenience of commerce with respect to the proposed purposes of such sub-zone. Now, therefore, said application for a grant is approved, and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the Puerto Rico Industrial Development Company, a grant permitting the establishment, operation and maintenance of a foreign-trade sub-zone at Penuelas, Puerto Rico, in compliance with the application, as amended, on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of this Board. The grant shall be issued subject to settlement locally of the recommendations made by the District Collector of Customs and District Engineer in their respective reports, within a reasonable time after the issuance of the grant.

Witness my hand and the seal of the Foreign-Trade Zones Board this 14th day of February 1962, at Washington, D.C.

[SEAL] RICHARD H. LAKE,
Executive Secretary.

[F.R. Doc. 62-1692; Filed, Feb. 19, 1962; 8:46 a.m.]

[Order No. 54]

RESOLUTION APPROVING APPLICATION OF THE BOARD OF COMMISSIONERS OF THE PORT OF NEW ORLEANS, AND ORDER AUTHORIZING ISSUANCE OF GRANT FOR A FOREIGN-TRADE SUB-ZONE AT NEW ORLEANS, LOUISIANA

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

Resolution and order. Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U.S.C. 81a-81u) and the Foreign-Trade Zones Board Regulations (15 CFR 400.304), the Foreign-Trade Zones Board has adopted the following resolution and order:

The Board having considered the matter: *It is ordered*, "Upon examination, the application of the Board of Commissioners of the Port of New Orleans, New Orleans, Louisiana, for the privilege of establishing, operating and maintaining a foreign-trade sub-zone at New Orleans, Louisiana, at which the New Orleans Cold Storage & Warehouse Company, Ltd., acting as an agent of the Port of New Orleans, would operate a cold storage and refrigeration facility to service the movement of commodities requiring refrigeration, has been found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations made thereunder. The Board has further found that the existing foreign-trade zone at New Orleans will not serve adequately the convenience of commerce with respect to the proposed purposes of such sub-zone. Now, therefore, said application for a grant is approved; and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the Board of Com-

missioners of the Port of New Orleans, a grant permitting the establishment, operation and maintenance of a foreign-trade sub-zone at New Orleans, Louisiana, in compliance with the application on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of the Board. The grant shall be issued subject to settlement locally of the recommendations made by the District Collector of Customs and District Engineer in their Joint Report, within a reasonable time after the issuance of the grant."

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE SUB-ZONE AT NEW ORLEANS, LOUISIANA

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (48 Stat. 998–1003; U.S.C. Title 19 § 81a–81u), hereinafter referred to as "the Act", the Foreign-Trade Zones Board, hereinafter referred to as "the Board", is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States; and,

Whereas, the Foreign-Trade Zones Board Regulations provide (15 CFR 400.304) that the establishment of a foreign-trade sub-zone is an area separate from an existing zone, for one or more of the specialized purposes of storing, manipulating, manufacturing, or exhibiting goods may be authorized if the Board finds that existing or authorized zones will not serve adequately the convenience of commerce with respect to the proposed purposes; and,

Whereas, the Board of Commissioners of the Port of New Orleans, a public corporation and an agency of the State of Louisiana, as Grantee of Foreign-Trade Zone No. 2 at New Orleans, hereinafter referred to as "the Grantee", has made application in due and proper form to the Board for the establishment, operation, and maintenance of a foreign-trade sub-zone located in the Illinois Central Warehouse No. 32 at 3900 Tchoupitoulas Street, New Orleans, Louisiana; and, which sub-zone is to be operated by the New Orleans Cold Storage Warehouse Company as agent of the Grantee, to provide a cold storage facility not now available in Foreign-Trade Zone No. 2; and

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and,

Whereas, the Board has found that the existing Foreign-Trade Zone No. 2 at New Orleans will not serve adequately the convenience of commerce with respect to the proposed purpose of such a sub-zone; and

Whereas, the Board has found that the proposed plans and location are suitable for the establishment and operation of the sub-zone, and that the facilities described in the application with adjustments recommended by the District Collector of Customs and District Engineer, as hereinafter referred to, are sufficient:

Now, therefore, the Board, hereby further grants to the Board of Commissioners of the Port of New Orleans, Grantee, the privilege of establishing, operating, and maintaining a foreign-trade sub-zone, for the aforementioned purpose, officially designated as Foreign-Trade Sub-Zone 2–A at 3900 Tchoupitoulas Street, New Orleans, Louisiana, and more specifically described on the map accompanying the application, marked Exhibit No. 10, said grant being subject to the provisions, conditions, and restrictions of the Act and of all rules and regulations made thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to wit:

The Grantee shall make no deviation from the maps, plans, specifications, drawings, and blue prints, accompanying the said application, and marked Exhibits 1, 3, 8, 10, and 13, before or after completion of the structures or work involved, unless modification of such maps, plans, specifications, drawings, and blue prints has previously been submitted to and has received the approval of the Board.

The work of any construction under this grant shall commence immediately following the date of the grant; said work shall be diligently prosecuted to completion, and the work of construction shall be completed and operation of the sub-zone shall be commenced by the Grantee within a reasonable time from the date of issuance of this Sub-Zone Grant. The Grantee shall notify the United States District Engineer in whose District the sub-zone is located of the date upon which work will begin and as far in advance thereof as the District Engineer may reasonably specify, and shall notify him promptly in writing of any suspension of construction for a period of more than one week, and of its resumption and completion.

The Grantee shall, to the extent here applicable, fully comply with the provisions of the laws for the protection and preservation of the navigable waters of the United States, and shall secure the authorization and approvals of works in navigable waters of the United States required by such laws. The Grant herein made shall not be construed as conveying such approval.

The Grantee shall allow officers and employees of the United States of America free and unrestricted access in, to, and throughout said sub-zone in the performance of their official duties.

This Grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said sub-zone, and in no event shall the United States of America be liable therefor.

This Grant is issued subject to settlement locally of the recommendations made by the District Collector of Customs and District Engineer in their respective reports on the application, within a reasonable time after issuance of the grant.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, Luther H. Hodges, at Washington, D.C. this 14th day of February, 1962, pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
[SEAL] LUTHER H. HODGES,
Chairman and Executive Officer.

Attest:

RICHARD H. LAKE,
Executive Secretary.

CERTIFICATE OF EXECUTIVE SECRETARY

I, Richard H. Lake, Executive Secretary of the Foreign-Trade Zones Board, do hereby certify that the following is a true extract from the records of the proceedings of that portion of the Minutes (Memorandum) of January 16, 1962, of the Foreign-Trade Zones Board relating to the matter hereinbefore in this grant described:

Upon examination, the application of the Board of Commissioners of the Port of New Orleans, New Orleans, Louisiana, as Grantee of Foreign-Trade Zone No. 2, New Orleans, Louisiana, for the privilege of establishing, operating, and maintaining a foreign-trade sub-zone at New Orleans, Louisiana, at which the New Orleans Cold Storage & Warehouse Company, Ltd., acting as an agent of the Port of New Orleans, would operate a cold storage and refrigeration facility to service the movement of commodities requiring refrigeration, has been found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations made thereunder. The Board has further found that the existing Foreign-Trade Zone at New Orleans will not serve adequately the convenience of commerce with respect to the proposed purpose of such sub-zone. Now, therefore, said application for a grant is approved; and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the Board of Commissioners of the Port of New Orleans, a grant permitting the establishment, operation and maintenance of a foreign-trade sub-zone at New Orleans, Louisiana, in compliance with the application on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of this Board. The grant shall be issued subject to settlement locally of the recommendations made by the District Collector of Customs and District Engineer in their Joint Report within a reasonable time after the issuance of the grant.

Witness my hand and the seal of the Foreign-Trade Zones Board this 14th day of February 1962, at Washington, D.C.

[SEAL] RICHARD H. LAKE,
Executive Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 598]

MOTOR CARRIER TRANSFER PROCEEDINGS

FEBRUARY 15, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 64612. By order of February 12, 1962, the Transfer Board approved the transfer to Turner Bros. Trucking Company, Inc., 5501 South Hattie, P.O. Box 4626, Oklahoma City, Okla., of Certificate in Nos. MC 115603 Sub 1 and MC 115603 Sub 5, issued June 26, 1957 and December 12, 1961, respectively, to Jack Turner, Jack E. Turner, and E. E. Turner, a partnership, doing business as Turner Bros. Trucking Co., 5501 South Hattie, P.O. Box 4626, Oklahoma City, Okla., authorizing the transportation of: Machinery, equipment, materials, and supplies used in connection with the natural gas and petroleum industry, and in connection with pipelines, between points in Colorado and Wyoming, on the one hand, and, on the other, points in Illinois, Nebraska, South Dakota, and Missouri; between points in Illinois, Nebraska, South Dakota, Missouri, Oklahoma, Kansas, and Texas; between points in Louisiana, and New Mexico; between points in Louisiana, and New Mexico, on the one hand, and, on the other, points in Kansas, Oklahoma, and Texas; between points in Oklahoma, on the one hand, and, on the other, points in Mississippi; machinery, materials, supplies and equipment incidental to, or used in the construction, development, and production of natural gas and petroleum, between points in Wyoming and Colorado; between points in Wyoming, and Colorado, on the one hand, and, on the other, points in Oklahoma; heavy machinery, between points in Colorado and Wyoming; and portion of Certificate No. MC 106379 Sub 18, acquired pursuant to proceedings in No. MC–F 7619 and assigned No. MC 115603 Sub 6, authorizing the transportation of: Machinery and equipment used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of sulphur and its products, and materials, and supplies used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, when moving to or from exploration, drilling, production with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, when moving to or from exploration, drilling, production, job, construction and plant (including refining, manufacturing, and processing plant) sites, or storage sites, between points in Texas, on the one hand, and, on the other, certain points in North Dakota; and oilfield commodities, between points in Texas, on the one hand, and, on the other, certain points in North Dakota and South Dakota.

No. MC–FC 64731. By order of February 12, 1962, the Transfer Board approved the transfer to James D. Lockard, Stella, Nebr., of Certificate No. MC 116924 Sub 1, issued August 1, 1958, to Joe Glover, Nebraska City, Nebr., authorizing the transportation of: Sand, gravel, dirt, and rock, broken or crushed, in dump vehicles, between points in North Dakota, South Dakota, Iowa, Nebraska, Kansas, and Missouri. C. A. Ross, 1006 Terminal Building, Lincoln 8, Nebr.; applicants' representative.

No. MC–FC 64742. By order of February 12, 1962, the Transfer Board approved the transfer to Allyn Tank Line, Inc., Los Angeles, Calif., of Certificates Nos. MC 108941, MC 108941 Sub 34, and MC 108941 Sub 39, issued November 10, 1949, June 17, 1953 and July 16, 1957, respectively, to F. N. Rumbley Company, a corporation, Fresno, Calif., authorizing the transportation of: Liquefied petroleum gas, in minimum lots of 2500 gallons, from and to points in California, Arizona, and Nevada, as specified; liquefied petroleum gas, in tank truckloads, minimum 2,500 gallons, from Kingman and Wickenburg, Ariz., to Flagstaff, Ariz.; liquefied petroleum gas in minimum quantity of 3,000 gallons, in tank trucks from Hobbs, N. Mex., and points in New Mexico and Texas within 25 miles thereof, to points in Arizona; liquid petroleum gases in bulk, in tank trucks in minimum quantities of 2500 gallons, from points in Los Angeles, Orange, Ventura, Santa Barbara, San Luis Obispo, Kern, Kings, Tulare, and Fresno Counties, Calif., to points in Arizona, and from the next above California origins, to ports of entry at San Ysidro, Tecate and Calexico, Calif., natural and casinghead gasoline and liquefied petroleum gases, in bulk, in tank vehicles, from Farmington, N. Mex., and points in New Mexico within 60 miles of Farmington, to points in California within a specified territory; and anhydrous ammonia, in bulk, in tank vehicles, from Pittsburg, Richmond, Pinole, and Brea, Calif., to ports of entry in California on the United States-Mexico International Boundary Line, Arthur H. Glanz, 639 South Spring Street, Los Angeles 14, Calif., attorney for transferee. Phil Jacobson, 610 West Sixth Street, Los Angeles 14, Calif., attorney for transferor.

No. MC–FC 64785. By order of February 12, 1962, the Transfer Board approved the transfer to Lovejoy's Express, Inc., Norwood, Mass., of Certificate No. MC 22425 issued April 9, 1943 to William P. Walker, doing business as, Lovejoy's Express, Norwood, Mass., authorizing the transportation of general commodities, excluding household goods and commodities in bulk, over irregular routes, between Cambridge, Boston, and Somerville, Mass., on the one hand, and, on the other, Boston, Needham, Dedham, Canton, Sharon, Foxboro, Mansfield, Norton, Attleboro, Newton, Dover, Sherborn, Holliston, Milfor, Norwood, Walpole, Wrentham, Plainville, North Attleboro, South Attleboro, Westwood, Medfield, Millis, Medway, West Medway, North Bellingham, Franklin, and Caryville, Mass. James J. Curran, 698 Washington Street, Norwood, Mass., attorney for applicants.

[SEAL] HAROLD D. McCOY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1–3848]

APEX MINERALS CORP.

Order Summarily Suspending Trading

FEBRUARY 14, 1962.

In the matter of trading on the San Francisco Mining Exchange in the common stock, $1.00 par value of Apex Minerals Corporation, File No. 1–3848.

The common stock, $1.00 par value, of Apex Minerals Corporation, being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2–2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, February 15, 1962, to February 24, 1962, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL REGISTER

Telephone WOrth 3–3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 438—NAVAL STORES

Subpart—1962 Gum Naval Stores Price Support Loan Program

Statement with respect to the Gum Naval Stores Price Support Loan Program for the calendar year 1962, formulated by the Commodity Credit Corporation and the Agricultural Stabilization and Conservation Service (hereinafter referred to as "CCC" and "ASCS").

Sec.
438.1301 Administration.
438.1302 Eligible producer.
438.1303 Eligible naval stores.
438.1304 Eligible rosin.
438.1305 Eligible oleoresin.
438.1306 Eligible metal drums.
438.1307 Availability of loans.
438.1308 Rate of loan to producers.
438.1309 Storage provisions.
438.1310 Maturity.
438.1311 Redemption.
438.1312 Rights of CCC upon maturity.
438.1313 Personal liability.

AUTHORITY: §§ 438.1301 to 438.1313 issued under sec. 4(d), 62 Stat. 1070, 15 U.S.C. 714b. Interprets or applies sec. 5(a), 62 Stat. 1072, 15 U.S.C. 714c; sec. 301, 63 Stat. 1053, 7 U.S.C. 1447.

§ 438.1301 Administration.

The Naval Stores Branch, Tobacco Division, ASCS, will supervise the administration of the program. CCC will make a loan to the American Turpentine Farmers Association Cooperative, Valdosta, Georgia (hereinafter referred to as the "Association"), under a Loan Agreement which will enable the Association in turn to make loans to eligible producers on eligible naval stores, to store or supervise the storage of the collateral, to perform related field administration functions, to arrange for redemptions, and to collaborate in the liquidation of unredeemed collateral. The ASCS Commodity Office, Dallas, Texas, will perform accounting and auditing functions.

§ 438.1302 Eligible producer.

A producer will be eligible for loans if he (a) is a member of the Association under membership requirements approved by CCC (no producer who is otherwise eligible may be excluded from membership in the Association), (b) is a cooperator in the 1962 Naval Stores Conservation Program of the United States Department of Agriculture or otherwise follows one or more good forestry conservation practices established by State and Federal forestry services, as determined by the Association, (c) has made satisfactory arrangements to pay any indebtedness to the United States Department of Agriculture or any agency thereof, as evidenced by the debt records maintained by the Agricultural Stabilization and Conservation county committees of the United States Department of Agriculture, and (d) has executed, and has not breached his obligations under, the Producer's Marketing Agreement (ATFA Form 1-1962), or any other similar agreement.

§ 438.1303 Eligible naval stores.

"Eligible naval stores" are eligible rosin and the rosin content in eligible oleoresin.

§ 438.1304 Eligible rosin.

"Eligible rosin" is gum rosin which (a) was produced from eligible oleoresin, (b) grades "K" or better, (c) is free and clear from all liens and encumbrances, (d) has not been theretofore pledged for a loan under this or any similar program and in which the beneficial interest is and always has been in the producer, (e) is packed to the net weight approved by CCC, in eligible metal drums, (f) is transparent, (g) is free from visible foreign materials and contains no extraneous matter resulting from chemical or other treatment of the rosin, or of the oleoresin or the trees from which it came, and (h) conforms as to softening point to not less than Federal Specifications LLL-R626b, to-wit: 158 degrees Fahrenheit (American Society for Testing Materials Methods No. E-28-58T). Rosin must be federally inspected and weighed or the weights checked prior to tender for loan.

§ 438.1305 Eligible oleoresin.

"Eligible oleoresin" is oleoresin (a) which was produced in 1962 in the United States by an eligible producer, (b) which is free and clear from all liens and encumbrances, (c) the resin content in which has not been theretofore pledged for a loan under this or any similar program and in which the beneficial interest is and always has been in the producer, and (d) which will yield rosin of the prescribed grades and quality. When a producer's eligible oleoresin is commingled with oleoresin produced by other producers in the processing operation, the rosin tendered for loan by the producer as representing the processed equivalent of his eligible oleoresin will be deemed to be, if otherwise eligible, eligible rosin produced by such producer.

§ 438.1306 Eligible metal drums.

"Eligible metal drums" are drums conforming to the specifications for metal drums approved by CCC, obtainable from and on file in the office of the Association.

§ 438.1307 Availability of loans.

(a) Under the Loan Agreement, CCC will make a loan to the Association for the purpose of enabling the Association to make loans available, or to make loans, to eligible producers of eligible naval stores produced in 1962. The loan to the Association will be in an amount equal to (1) the amount of the loans made by the Association to producers, (2) the administrative and operating expenses, approved by CCC, incurred by the Association in connection with making loans available and the making of loans, and the handling, preservation and sale of pledged naval stores, (3) the storage charges after naval stores are pledged, and (4) an indemnification charge to cover the assumption by CCC of the risk of loss on pledged naval stores.

(b) Each producer desiring to obtain loans will execute a Producer's Marketing Agreement with the Association. Each loan will be secured by a pledge by the producer to the Association of eligible rosin, or unprocessed rosin content in eligible oleoresin, and the Association, in turn, will pledge the same to CCC as security for the loan made by CCC to the Association. Loans on rosin will be made only on full drums thereof, and loans on the rosin content in oleoresin, only upon the equivalent of full drums thereof. No loans will be made on any naval stores offered later than December 31, 1962.

(c) Eligible naval stores will be deemed tendered for loan by the producer to the Association only when such naval stores have been (1) processed (except where unprocessed rosin content in oleoresin is offered for loan), (2) placed in storage in the custody of an approved warehouseman who has entered into and is fully complying with a Warehouse Agreement (ATFA Form 2–1962), or in the custody of the Association acting under a Storage Agreement with CCC, and (3) offered for loan on a Producer's Offer (ATFA Form 3A–1962) (the date of which, unless a first offer and dated not later than April 1, 1962, shall be not later than thirty (30) days from the date of delivery of eligible oleoresin for processing). If there are any liens or encumbrances on the naval stores offered for loan, proper waivers are required on a Lienholders' Waiver and Agreement (ATFA Form 3–1962).

§ 438.1308 Rate of loan to producers.

The Association will make loans to producers based on the rate of $34.28 per standard barrel (435 lbs. net weight each) of crude pine gum, processed basis. Although turpentine is not supported, the crude pine gum support level includes a weight for turpentine equal to the estimated 1962 market value of turpentine content in a barrel of pine gum. The loan rates on rosin are $10.50 for grade WG, $10.65 for grades X and WW, and $10.20 for grades N, M, and K per hundred pounds net packed in eligible metal drums.

§ 438.1309 Storage provisions.

The producer will be required to place naval stores offered for loan in storage in the custody of an approved warehouseman who has entered into and is fully complying with a Warehouse Agreement with the Association (this Agreement will be assigned by the Association to CCC), or in the custody of the Association acting under a Storage Agreement with CCC. All processing charges, including the cost of the eligible metal drums for rosin, and all storage and other warehouse charges to the date of tender for loan will be borne by the producer. Storage charges accruing after the naval stores are pledged are payable by CCC, and comprise part of the loan by CCC to the Association.

§ 438.1310 Maturity.

The loan made by CCC to the Association and the loans made by the Association to producers will be due and payable upon demand, or on June 30, 1963, whichever is earlier.

§ 438.1311 Redemption.

(a) Subject to terms and conditions of the Producer's Marketing Agreement, the producer may redeem pledged naval stores, prior to maturity of the loan, upon application to the Association and payment of the redemption price. The producer's right to redeem may be exercised for him and in his behalf by the Association and the producer's exercise of the right of redemption is subject to the prior exercise thereof by the Association. Subject to the terms and conditions of the Loan Agreement, the Association may redeem naval stores pledged by the Association to CCC, upon application to CCC therefor prior to the maturity of the loan and upon payment of the redemption price.

(b) The redemption price shall be determined by CCC and shall be the amount outstanding under the Loan Agreement, including any unpaid accrued expenses and charges, plus interest at the rate of three and one-half percent (3½%) per annum. Any naval stores redeemed shall not be thereafter eligible for loan.

§ 438.1312 Right of CCC upon maturity.

Upon maturity of the loan, CCC will take title to any unredeemed naval stores, without a sale thereof, and CCC shall have no obligation to pay or account to the Association or the producer for any market value which such naval stores may have in excess of the amount of the loan, plus interest and charges.

§ 438.1313 Personal liability.

The loans will be nonrecourse, except that any fraudulent representation by the producer or the Association in the loan documents, or in obtaining a loan, will render him or it subject to criminal prosecution under applicable law, and personally liable for the amount by which the proceeds received upon the disposition of the pledged naval stores are less than the amount of indebtedness incurred by the Association with respect thereto.

Effective date. Date of signature.

Signed at Washington, D.C., on February 16, 1962.

EMERY E. JACOBS,
Acting Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 62–1754; Filed, Feb. 20, 1962; 8:50 a.m.]

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 730—RICE

Subpart—1962–63 Marketing Year

PROCLAMATION OF RESULTS OF MARKETING QUOTA REFERENDUM

Section 730.1309 is issued to announce the results of the rice marketing quota referendum for the marketing [illegible] August 1, 1962, through July 31, [illegible] under the provisions of the Agricultural Adjustment Act of 1938, as [illegible]. The Secretary proclaimed a [illegible] quota for rice for the 1962–63 [illegible] year and announced that a [illegible] would be held on January 23, [illegible] F.R. 184), to determine whether [illegible] ducers were in favor of or [illegible] marketing quotas for the marketing [illegible] August 1, 1962 through July 31, [illegible]. Since the only purpose of this [illegible] tion is to announce results of [illegible] erendum, it is found and [illegible] that with respect to this [illegible] application of the notice and [illegible] provisions of the Administrative [illegible] dure Act is unnecessary.

§ 730.1309 Proclamation of the [illegible] of the rice marketing quota [illegible] dum for the marketing year [illegible] 63.

In a referendum of farmers [illegible] in the production of rice for the [illegible] crop held on January 23, 1962, [illegible] farmers voted. Of those voting [illegible] 94.2 percent favored quotas for the marketing year beginning August 1, [illegible]. Therefore, rice marketing quotas will be in effect for the 1962–63 marketing year.

(Sec 375, 52 Stat. 66, as amended; 7 U.S.C. 1375)

Signed at Washington, D.C., on February 16, 1962.

EMERY E. JACOBS,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 62–1753; Filed, Feb. [illegible] 8:50 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Reg. Docket No. 1077; Supp. [illegible]]

PART 51—GROUND INSTRUCTOR RATING

Practical Test Requirements for Original Issuance of a Ground Instructor Certificate and Rating

Section 51.17–1 of the [illegible] terial contained in Part 51 of the Federal Air Regulations requires an applicant for original issuance of a ground instructor certificate and rating, other than one who holds a currently effective teacher's certificate issued by a city, county, or State, to satisfactorily complish a practical examination. This is in addition to the required written examinations.

The practical examination was initiated in the interest of uniformity. Application of examination procedures to effect a better standardization of the requirements, and to raise the level of quality of instruction. Benefits gained by the Federal Aviation Agency in the certification of many ground instructors, and subsequent observation of the activities of those certificated, indicates that the required written [illegible]

[illegible] the Administrator is adequate to determine that an applicant is qualified to exercise the privileges of a ground instructor certificate and rating. Therefore, the practical test examination currently required [illegible] no useful purpose and is being [illegible].

Since this regulatory action relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective on less than 30 days' notice.

In consideration of the foregoing, Part 51 of the Civil Air Regulations (14 CFR Part 51) is hereby amended by deleting § 51.17–1, effective February 21, 1962.

(Secs. 313(a), 601, 607; 72 Stat. 752, 775, 779; 49 U.S.C. 1354(a), 1421, 1427)

Issued in Washington, D.C., on February 15, 1962.

N. E. HALABY,
Administrator.

[F.R. Doc. 62–1724; Filed, Feb. 20, 1962; 8:47 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61–LA–85]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration

The purpose of this amendment to § 600.6004 is to alter the description of low altitude VOR Federal airway No. 4 between Boise, Idaho, and Burley, Idaho.

The Federal Aviation Agency plans to relocate the Boise VORTAC on or about April 5, 1962, to a new site at latitude 43°34'06" N., longitude 116°14'33" W. This action necessitates a slight realignment of Victor 4. Therefore, action is taken herein to redesignate Victor 4 from Boise to Burley via the intersection of the Boise VORTAC 130° and the Burley VORTAC 292° True radials.

Since this amendment is minor in nature, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In the text of § 600.6004 (14 CFR 600.6004, 26 F.R. 2220, 3275, 10588, 10592) "Boise, Idaho, omnirange station; intersection of the Boise omnirange 129° True and the Burley omnirange 292° True radials; Burley, Idaho, omnirange;" is deleted and "Boise, Idaho, VORTAC; INT of the Boise VORTAC 130° and the Burley, Idaho, VORTAC 292° radials; Burley VORTAC" is substituted therefor.

This amendment shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1715; Filed, Feb. 20, 1962; 8:46 a.m.]

[Airspace Docket No. 61–LA–15]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Federal Airway and Associated Control Areas

On July 27, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 6736) stating that the Federal Aviation Agency (FAA) was considering amendments to §§ 600.6107 and 601.6107 of the regulations of the Administrator which would alter a portion of VOR Federal airway No. 107, designate a west alternate to this airway and exclude the portion of the west alternate which would lie within R–2519 and R–2520.

No adverse comments were received regarding the proposed amendments. However, the Air Line Pilots Association (ALPA) recommended that Victor 107 west alternate be aligned direct from Oxnard, Calif., to Los Angeles, Calif.

Subsequent to publication of the notice, action has been initiated to temporarily relocate the Los Angeles VOR to a site at latitude 33°57'04" N., longitude 118°24'18" W., a distance of approximately 1.7 statute miles from the present site, while corrective action is being taken to improve the operation of the existing facility. Victor 107 west alternate aligned on the relocated facility will automatically accomplish the ALPA suggestion.

Since these actions involve the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854 and has obtained their concurrence thereto.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. The text of § 600.6107 (26 F.R. 1209, 2221) is amended to read:

§ 600.6107 VOR Federal airway No. 107 (Los Angeles, Calif., to Oakland, Calif.).

From the Los Angeles, Calif., VOR via the INT of the Los Angeles VOR 287° and the Fillmore, Calif., VORTAC 163° radials, Fillmore VORTAC, including a W alternate from the Los Angeles VOR to the Fillmore VOR via the Oxnard, Calif., VOR; Avenal VOR; Los Banos, Calif., VOR; to the Oakland, Calif., VORTAC, excluding the portions which lie within R–2915 and R–2520.

§ 601.6107 [Amendment]

2. In the text of § 601.6107 (14 CFR 601.6107) "All of VOR Federal airway No. 107" is deleted and "All of VOR Federal airway No. 107, including a W alternate." is substituted therefor.

These amendments shall become effective 0001 e.s.t., April 5, 1962.

(Secs. 307(a), 1110, 72 Stat. 749, 800; 49 U.S.C. 1348, 1510, and E.O. 10854, 24 F.R. 9565)

Issued in Washington, D.C., on February 14, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1719; Filed, Feb. 20, 1962; 8:46 a.m.]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Federal Airway and Associated Control Areas

On October 19, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 9833) stating that the Federal Aviation Agency proposed to alter low altitude VOR Federal airway No. 99 by revoking the segment north of the Rosedale, Wash., intersection to the United States/Canadian Border and realigning and extending the remaining portion from Olympia, Wash., to Seattle, Wash., via the intersection of the Olympia VOR 010° and the Seattle VORTAC 247° radials.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. Section 600.6099 (14 CFR 600.6099) is amended to read:

§ 600.6099 VOR Federal airway No. 99 (Newport, Oreg., to Seattle, Wash.).

From the Newport, Oreg., VOR via the Newberg, Oreg., VOR; INT of the Newberg VOR 355° and the Olympia VOR 195° radials; Olympia, Wash., VOR; INT of the Olympia VOR 010° and the Seattle VORTAC 247° radials to the Seattle, Wash., VORTAC. The portion of this airway within the Ta-

coma, Wash. (McChord AFB), Restricted Area/Military Climb Corridor R–6711 shall be used only after prior approval from the appropriate authority.

2. The caption of § 601.6099 (14 CFR 601.6099) is amended to read:

§ 601.6099 VOR Federal airway No. 99 control areas (Newport, Oreg., to Seattle, Wash.).

These amendments shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[Airspace Docket No. 61–NY–5]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation and Alteration of Federal Airways, Associated Control Areas and Reporting Points

On March 18, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 2319) stating that the Federal Aviation Agency (FAA) proposed to revoke low altitude Blue Federal airway No. 56, its associated control areas and reporting points between Norfolk, Va., and Washington, D.C. In addition, the segment of low altitude VOR Federal airway No. 156 between the Richmond, Va., VOR and the Cape Charles, Va., VORTAC would be realigned, and low altitude VOR Federal airway No. 33 extended from Nottingham, Md., to Deep Creek, Va. To implement, in part, Amendment 60–21 to Part 60 of the regulations of the Administrator, the control areas associated with these airway segments would extend upward from 1,200 feet above the surface. It was further stated that the Harcum VOR would be designated as a VOR reporting point.

On December 7, 1961, a supplemental notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 11734) stating that the site selected for the Harcum VOR had proven unsatisfactory and that the original notice was amended in that it was proposed to align Victor 33 and Victor 156 via the Harcum VOR at a new site at latitude 37°26'54" N., longitude 76°42'43" W. It was also proposed to align Victor 33 between Nottingham and Harcum via the intersection of the Nottingham VOR 174° and the Harcum VOR 003° True radials to provide lateral separation between en route airway traffic and activities within the Dahlgren, Va., Complex, Restricted Area R–6613. It was further proposed that the control areas associated with these airway segments extend from 700 feet above the surface to the base of the continental control area until such time as the control areas associated with the other airway segments in the vicinity of Norfolk, Nottingham, Cape Charles and Richmond can be altered by applying Amendment 60–21 to Part 60 of the Civil Air Regulations.

The Department of the Navy concurred in the revocation of Blue 56, the realignment of Victor 156 and the extension of Victor 33 from the Nottingham VOR as far as Langley AFB, but they objected to the extension of Victor 33 south of the Langley area to the Deep Creek Intersection on the basis it will encourage a flow of VFR traffic across the inbound routing to the Norfolk Naval Air Station. They also expressed concern as to the future IFR traffic between Deep Creek Intersection and Patrick Henry Airport.

Blue 56 as currently designated terminates at the Hampton Roads, Va., Intersection (intersection of the west course of the Navy Norfolk radio range and the south course of the Langley AFB radio range). Victor 33 would replace Blue 56 and in addition would extend southward to the Deep Creek Intersection. Its extension south of Langley AFB would encourage no more VFR traffic than currently exists via Blue 56. In addition, this segment is required for IFR shuttle traffic between Patrick Henry AFB and Norfolk. When operating in accordance with standard ANC procedures, this traffic is cleared to Deep Creek, thence to the Norfolk ILS outer marker.

No other adverse comments were received on either the notice or supplemental notice.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice and supplemental notice, the following actions are taken:

§§ 600.656, 601.656, 601.4656 [Revocations]

1. Parts 600 and 601 (14 CFR 600.601) are amended by revoking the following sections:

(a) Section 600.656 Blue Federal airway No. 56 (Norfolk, Va., to Washington, D.C.).

(b) Section 601.656 Blue Federal airway No. 56 control areas (Norfolk, Va., to Washington, D.C.).

(c) Section 601.4656 Blue Federal airway No. 56 (Norfolk, Va., to Washington, D.C.).

2. Section 600.6033 (14 CFR 600.6033) is amend to read:

§ 600.6033 VOR Federal airway No. 33 (Deep Creek, Va., to Nottingham, Md., and Baltimore, Md., to Buffalo, N.Y.).

From the INT of the Franklin, Va., VOR 087° and the Norfolk, Va., VORTAC 226° radials, via the Harcum, Va., VOR; INT of the Harcum VOR 003° and the Nottingham, Md., VOR 174° radials; to the Nottingham VOR. From the [illegible] more, Md., VORTAC via the [illegible] Pa., VORTAC; Philipsburg, Pa., [illegible] TAC; Bradford, Pa., VOR to the [illegible] N.Y., VORTAC. The portion of [illegible] way which lies within R–4006 and [illegible] is excluded.

3. Section 600.6156 (14 CFR [illegible]) is amended to read:

§ 600.6156 VOR Federal airway No. [illegible] (Elkins, W. Va., to Cape [illegible] Va.).

From the Elkins, W. Va., VOR[illegible] via the Gordonsville, Va., VOR[illegible] Richmond, Va., VOR; Harcum, [illegible] VOR; to the Cape Charles, [illegible] VORTAC. The portion of this airway which lies within R–6610 shall be used only after obtaining prior approval from appropriate authority.

4. Section 601.6033 (14 CFR 601.6033) is amended to read:

§ 601.6033 VOR Federal airway No. 33 control areas (Deep Creek, Va., to Nottingham, Md., and Baltimore, Md., to Buffalo, N.Y.).

All of VOR Federal airway No. 33.

§ 601.7001 [Amendment]

5. In the text of § 601.7001 (14 CFR 601.7001) the following is added:

Harcum, Va., VOR.

These amendments shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1720; Filed, Feb. 20, 1962; 8:46 a.m.]

[Airspace Docket No. 62–EC–8]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2189 of the regulations of the Administrator is to alter the Olathe, [illegible] control zone.

The Olathe control zone is presently designated, in part, based on the [illegible] Navy radio range. The Olathe [illegible] radio range has been decommissioned and the Federal Aviation Agency has approved a request by the Department of the Navy to convert this facility to a nondirectional radio beacon. Accordingly, action is taken herein to [illegible] the 180° bearing from the Olathe [illegible] beacon for the south course of the Olathe control zone radio range in the description of the Olathe control zone.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.2189 (26 F.R. 6235) is amended to read:

§ 601.2189 Olathe, Kans., control zone.

Within a 5-mile radius of the Olathe, Kans., NAS (latitude 38°50'00" N., longitude 94°53'30" W.), within 2 miles either side of the 180° bearing from the Olathe [illegible] extending from the 5-mile radius zone to 12 miles S. of the RBN, and within 2 miles either side of the Olathe Navy TACAN 353°, 038°, 188°, and 233° radials extending from the 5-mile radius zone to 8 miles N., NE., S. and SW. of the TACAN.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1715; Filed, Feb. 20, 1962; 8:46 a.m.]

[Airspace Docket No. 62–WA–10]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Control Area Extension Description; Correction

Effective January 11, 1962 (Airspace Docket No. 61–LA–89, 26 F.R. 12508), the Prescott, Ariz., control area extension was redesignated to include additional airspace for the protection of aircraft executing revised holding pattern procedures. Upon publication of the amendment, the portion of the control area extension northeast of the Drake, Ariz., VOR was erroneously described as being bounded by VOR Federal airway No. 25. Action is taken herein to correct this error by substituting VOR Federal airway No. 257 in the description of the Prescott control area extension.

Since this amendment is editorial in nature, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In the text of § 601.1300 (26 F.R. 12588), "and on the W by VOR Federal airway No. 25" is deleted and "and on the W by VOR Federal airway No. 257" is substituted therefor.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1716; Filed, Feb. 20, 1962; 8:46 a.m.]

[Airspace Docket No. 62–WA–4]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone and Control Area Extension

The purpose of these amendments to §§ 601.2163 and 601.1037 of the regulations of the Administrator is to alter the Pensacola, Fla., control zone and control area extension.

The Pensacola control zone (§ 601.2163) and control area extension (§ 601.1037) are described, in part, with reference to the Pensacola radio range. The Federal Aviation Agency is converting the Pensacola radio range to a nondirectional radio beacon. Therefore, action is taken herein to delete the radio range from the description of the control zone and the control area extension and to substitute the radio beacon therefor.

Since these amendments impose no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken:

1. Section 601.2163 (14 CFR 601.2163) is amended to read:

§ 601.2163 Pensacola, Fla., control zone.

Within a 5-mile radius of the Pensacola, Fla., Municipal Airport (latitude 30°28'30" N., longitude 87°11'20" W.); within 2 miles either side of the 165° bearing from the Pensacola RBN extending from the 5-mile radius zone to 10 miles S. of the RBN; and within 2 miles either side of the Pensacola ILS localizer NW. course extending from the 5-mile radius zone to 15 miles NW. of the localizer.

2. Section 601.1037 (14 CFR 601.1037) is amended to read:

§ 601.1037 Control area extension (Pensacola, Fla.).

That airspace within 8 miles E. and 5 miles W. of the 345° and 165° bearings from the Pensacola, Fla., RBN extending from the RBN to 25 miles N. and 12 miles S.

These amendments shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1717; Filed, Feb. 20, 1962; 8:46 a.m.]

[Airspace Docket No. 61–WA–135]

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS AND HIGH ALTITUDE NAVIGATIONAL AIDS

Designation of Jet Advisory Area

On October 28, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 10138) stating that the Federal Aviation Agency proposed to designate a terminal radar jet advisory area at Nashville, Tenn.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, § 602.300 *Terminal jet advisory areas* (26 F.R. 7083) is amended by adding the following:

Nashville, Tenn., jet advisory area—Radar:

a. Nashville, Tenn., via INT of Nashville 044° and London, Ky., 260° radials; thence via London 260° radial to INT with Jet Route No. 42.

b. Nashville, Tenn., via INT of Nashville 079° and London, Ky., 230° radials; London; thence via London 040° radial to INT with Jet Route No. 42.

c. Nashville, Tenn., via INT of Nashville 284° and Jacks Creek, Tenn., 044° radials; Jacks Creek; thence via Jacks Creek 224° radial to INT with Jet Route No. 42.

d. Nashville, Tenn., via INT of Nashville 223° and Memphis, Tenn., 081° radials; to Memphis.

This amendment shall become effective 0001 e.s.t., May 3, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1722; Filed, Feb. 20, 1962; 8:46 a.m.]

[Airspace Docket No. 62–WA–13]

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS AND HIGH ALTITUDE NAVIGATIONAL AIDS

Alteration of Jet Advisory Area

The purpose of this amendment to § 602.200 of the regulations of the Administrator is to alter the en route jet advisory area associated with the segment of Jet Route No. 38 between Duluth, Minn., and the United States/Canadian Border.

Normally, radar jet advisory service is provided on the segment of J–38 from Duluth to the United States/Canadian Border by a Federal Aviation Agency (FAA) employee assigned to the Wadena, Minn., Air Defense Command radar site.

An analysis of air traffic shows a maximum of only two civil air carrier turbojet flights per week utilizing this segment of J–38. Additionally, the FAA has determined that radar advisory service on this segment of J–38 can be provided to 45 nautical miles northwest of Duluth by use of the Minneapolis, Minn., air route surveillance radar. Therefore, it appears that the assignment of an FAA employee to the Wadena radar site is an unjustified expense. Consequently, the FAA will provide radar jet advisory

service to 45 nautical miles northwest of Duluth and establish a non-radar jet advisory area at flight level 310 and flight level 370 only, from that point to the United States/Canadian Border. The agencies of primary interest in this airspace, the Department of the Air Force and the Air Transport Association of America, have concurred in this action.

Since the change effected by this amendment is less restrictive in nature than the present requirement, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In § 602.200 (26 F.R. 7083) *Enroute jet advisory areas*, Jet Route No. 38 jet advisory area is amended to read:

Jet Route No. 38 jet advisory area:
Radar—From 45 nmi NW. of Duluth, Minn., to Peck, Mich. Nonradar—from the United States/Canadian Border to 45 nmi NW. of Duluth, Minn., at FL 310 and FL 370 only.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 14, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1723; Filed, Feb. 20, 1962; 8:46 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55568]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

Importations of Alcoholic Beverages

Importers of alcoholic beverages have requested that they be permitted on an optional basis to pay semimonthly the import taxes estimated to be payable on entries, or withdrawals from warehouse, for consumption during a semimonthly period.

Such a method of payment is hereby prescribed. However, importers who prefer to do so may continue to deposit the taxes estimated to be due on imported alcoholic beverages at the time of entry, or withdrawal from warehouse, for consumption in accordance with existing regulations. The procedure prescribed affects only the method by which importers may obtain release of imported alcoholic beverages before payment of estimated import taxes and the timely payment of such taxes thereafter. As this would be an optional method, notice of proposed rule making is considered unnecessary.

To provide for such optional method, Part 24 is amended by adding a new § 24.4 to read as follows:

§ 24.4 Optional method for payment of estimated import taxes on alcoholic beverages upon entry, or withdrawal from warehouse, for consumption.

(a) *Application to defer.* An importer, including a transferee of alcoholic beverages in a customs bonded warehouse, who wishes to pay on a semimonthly basis the estimated import taxes on alcoholic beverages entered, or withdrawn from warehouse, for consumption by him during such a period may apply by letter to the collector of customs of each district in which he wishes to defer payment. The application must identify the ports at which the importer wishes to use the tax deferral procedure. An importer who receives approval from a collector of customs to defer such payments may, however, continue to pay the estimated import taxes due at the time of entry, or withdrawal from warehouse, for consumption.

(b) *Deferred payment periods.* The periods shall be the 9th day of a month through the 23d day of the same month and from the 24th day of that month through the 8th day of the next month. An importer may begin the deferral of payments of estimated tax in a customs collection district in the first deferral period beginning after the date of the written approval by the collector of customs of such district. An importer may in such district use the deferred payment system until the collector of customs advises such importer that he is no longer eligible to defer the payment of such taxes.

(c) *Content of application and supporting documents.* (1) An importer must state his estimate of the largest amount of taxes to be deferred in any semimonthly period based on the largest amount of import taxes on alcoholic beverages deposited in that district in such a period during the year preceding his application. He must also identify any existing bond or bonds that he has on file in the district and the port or ports for which filed and shall submit in support of his application the approval of the surety on his bond or bonds to the use of the procedure and to the increase of such bond or bonds to such larger amount or amounts as may be found necessary by the collector of customs. He must identify in his application all ports in the district where he intends to file entries or withdrawals from warehouse for consumption for which taxes are to be deferred.

(2) Each application must include a declaration in substantially the following language:

I declare that I am not presently barred by a collector of customs in any other district from using the deferred payment procedure for payment of estimated taxes upon imports of alcoholic beverages, and that if I am notified by a collector of customs to such effect I shall advise the collectors of customs of all other districts where approval has been given to me to use such procedure.

(d) *Use of deferred payment method.* (1) The collector of customs will notify the importer, or his authorized agent if requested, of approval and will at the same time notify all ports in his district at which the procedure will be used according to the importer's application.

(2) An importer who has received approval to make deferred payments retains the option of deferring or declaring the estimated tax on [illegible] alcoholic beverages until the entry or withdrawal is presented to the cashier for payment of estimated duties. At such time the importer must either pay the estimated tax or present with the withdrawal a set of deferred tax payment forms, together with the estimated duty.

(e) *Deferred payment documents; preparation and use.* (1) In the case of a withdrawal from warehouse or an entry for consumption, the deferred tax payment forms are required in sets of three. Each set must be yellow except the customs Form 7505, Warehouse Withdrawal for Consumption, or of customs Form 7501, Consumption Entry. The procedure is not available on informal entry for consumption. Each set must have one copy lettered "A", one copy lettered "B", and one copy lettered "C" at the lower right corner of the form. Such letters must be capitalized and may be printed, stamped, or written in ink or indelible pencil in black or dark blue in print no smaller than that used in the title of the form.

(2) The importer or his agent shall, if deferment is elected, stamp "Tax Deferred" or "Tax Payment Deferred" adjacent to the amount shown on the entry or withdrawal form as the estimated taxes before presentation to the cashier. This must be stamped on each copy of the entry or withdrawal form, including the permit and release copy, but need not be on the deferred payment forms. The entry or withdrawal must be presented to the cashier with the set of deferred tax payment forms. The importer or his agent must also insert the entry and withdrawal number, if any, on each copy of the deferred tax payment forms before presenting them unless the number will be assigned and inserted by the cashier.

(3) After receipt of the entry or the withdrawal and deferred payment forms properly executed together with the estimated duty, the cashier shall number all deferred payment forms in a separate series and return to the importer or his agent the B and C copies of the deferred payment forms. The A copy is retained by customs. If B and C copies are lost by an importer, he must prepare new B and C copies for timely filing with the tax payments when due.

(f) *Deposit of deferred tax payment.* (1) On or before the last day of the deferred payment period (8th and 23d day of each month), the importer must present in numerical sequence the B and C copies for each deferral of tax on an entry or withdrawal made during the period to the cashier along with payment covering all estimated taxes due on such entries and withdrawals. When the last day of the deferred payment period falls on a day other than one specified in § 1.8(a) of this chapter as a day for the transaction of general customs business, payment must be made on the next such business day. The cashier will receive and return as soon as possible such

[illegible] to the importer for his record of [illegible]. However, if an importer advises the collector of customs in writing that he does not want a receipt, this and other provisions for the use of a C copy shall not be applicable.

(2) If a shipment is released under the immediate delivery procedure in § 142.9 of this chapter in one deferral period and the time for filing entry, including any authorized extension of such time, falls into another such period, all estimated taxes must be paid on or before the due date of the latter period.

(g) *Restrictions on deferring tax deposits.* (1) An importer may not on one entry, or withdrawal from warehouse, for consumption deposit part of the estimated tax and present deferred tax payment forms for the balance of the tax. The estimated tax on each entry or withdrawal must be either fully paid or be fully covered by a deferred tax payment form.

(2) The estimated tax shown on the deferred tax payment form and the estimated tax shown on the entry, or withdrawal from warehouse, for consumption must be the same. At the time of presenting the payment covering deferments of estimated taxes for a period, the deposit must be in the exact amount of the total of all such deferments.

(3) On the last day of a deferment period, all entries or withdrawals from warehouse for consumption on such day must be accompanied by the deposit of the estimated tax. No deferral of estimated tax is permitted on the last day of the deferment period.

(h) *Termination of deferred payment privilege.* (1) When any tax shown on an A copy of the deferred tax payment form is unpaid after the due date, the importer shall be immediately notified and a notice of monies due shall be sent to the importer and a copy to the surety on his bond. If in the opinion of the collector, such failure to make timely payment of estimated taxes deferred warrants the withdrawal of the tax deferral privilege, he will advise the importer of the withdrawal of such privilege. In all instances of failure, in part or in full, to pay timely the deferred taxes on alcoholic beverages withdrawn from warehouse for consumption, further withdrawals from the warehouse entry on which the tax is delinquent will be refused until payment is made of the amount delinquent. Any delinquent payment must be accompanied by B and C copies of the deferred tax payment form.

(2) The termination in any district of the tax deferral privileges for failure to pay timely any deferred estimated tax, or for failure to support such payments with B and C copies of the deferred tax payment form, shall be at the discretion of the collector of customs. Termination of the privileges for any other reason shall be subject to the approval of the Commissioner of Customs.

(3) Renewal of the tax deferral privilege after it has been withdrawn in any district may be made only upon approval by the Commissioner of Customs.

(i) *Renewal of importer's bond.* At the time of each renewal of a customs bond to which has been added a stipulation as to deferred tax payment, concurred in by the surety, the parties shall indicate in writing their agreement to the continuation of the stipulation for the term of the renewal.

(j) *Entries for consumption or warehouse after an importer is delinquent.* An importer who is delinquent in paying deferred taxes may make entries for consumption or for warehousing, or withdrawals for consumption from warehouse entries on which no delinquency exists, upon deposit of all estimated duties or taxes.

(k) *Rate of tax.* The estimated taxes must be paid on the basis of the rates in effect upon entry, or withdrawal from warehouse, for consumption, unless in accordance with section 315 of the Tariff Act of 1930, as amended, another date is applicable and not on the basis of the rates of tax in effect on the date deferred payment is made.

(R.S. 161, as amended, 251, sec. 624, 46 Stat. 759, sec. 201, 72 Stat. 1322, 1334, 1335, 68A Stat. 917; 5 U.S.C. 22, 19 U.S.C. 66, 1624, 26 U.S.C. 5007, 5054, 5061, 7805)

In order to permit interested importers and collectors of customs time to make preparations for using the deferred payment method, this amendment of the Customs Regulations shall be effective on the first day of the first month beginning not less than 30 days after the publication of the amendment in the FEDERAL REGISTER.

[SEAL] PHILIP NICHOLS, JR.,
Commissioner of Customs.
MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

Approved: February 14, 1962.

STANLEY S. SURREY,
Assistant Secretary of the Treasury.

Title 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

SUBCHAPTER J—AIR FORCE PROCUREMENT INSTRUCTIONS

PART 1001—GENERAL PROVISIONS

Miscellaneous Amendments

The following miscellaneous amendments and revisions are issued to this subchapter:

Subpart A—Introduction

Subpart A is revised to read as follows:

Sec.
1001.100 Scope of subpart.
1001.101 Purpose of subchapter.
1001.102 Applicability of subchapter.
1001.104 Content of instruction.
1001.105 Amendments.
1001.107 Effective date.
1001.108 Air Force Procurement Circulars.
1001.109 Deviations from Armed Services Procurement Regulation or a Department of Defense Directive.
1001.109-1 Applicability.
1001.109-2 Deviations affecting one contract or transaction.
1001.109-3 Deviations affecting more than one contract or contractor.
1001.109-4 Conflicts between Government-to-Government agreements.
1001.109-50 Deviations from AFPI or AFPC.
1001.109-51 Deviations, contract clauses.
1001.110 Reports of purchases and contracts.
1001.111 Reports of suspected criminal conduct and non-competitive practices.
1001.111-1 Suspected criminal conduct.
1001.111-2 Non-competitive practices.
1001.112 Federal procurement regulations and General Services Administration regulations relating to procurement of supplies and services.
1001.113 Code of conduct.

AUTHORITY: §§ 1001.100 to 1001.113 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314.

§ 1001.100 Scope of subpart.

This subpart describes the purpose, applicability, effective date, and arrangements of the Air Force Procurement Instruction (AFPI) and the procedures for amending, implementing, and deviating from it.

§ 1001.101 Purpose of subchapter.

The Air Force Procurement Instruction (AFPI) is issued by the Commander, Air Materiel Command, by authority of the Secretary of the Air Force, delegated through the Deputy Chief of Staff, Materiel, Hq USAF. It implements the Armed Services Procurement Regulation (ASPR), Subchapter A, Chapter I of this title, and establishes for the Air Force uniform policies and procedures for the procurement of supplies and services under the authority of Chapter 137, Title 10 of the United States Code or other laws.

§ 1001.102 Applicability of subchapter.

The Air Force Procurement Instruction applies to all procurements of supplies or services which obligate appropriated funds (including contract authorizations). If a particular part, subpart, or section has a limited application, it will so state.

§ 1001.104 Content of instruction.

The Air Force Procurement Instruction will contain all policies, procedures, and instructions relating to procurement of supplies and services within the Air Force, except those contained in ASPR, and those contained in AFR 70-1 (Procurement Publications). It will include all policies and procedures prescribed by the Secretary, Chief of Staff, USAF, Deputy Chief of Staff, Materiel, USAF, as well as all operating policies, procedures, and instructions prescribed by the Commander, Air Materiel Command, within the scope of his authority as sole head of a procuring activity.

§ 1001.105 Amendments.

The Air Force Procurement Instruction will be amended from time to time by publication of revised or additional pages, subparts, or parts. Each revised or additional page will bear, at the top,

the date of the change. The Air Force Procurement Instruction will also be amended from time to time by Air Force Procurement Circulars (AFPC) pending issuance of revised pages.

§ 1001.107 Effective date.

Compliance with an amendment to Air Force Procurement Instruction will be permissible with the date of issuance thereof and will be mandatory effective 30 days thereafter, except:

(a) As otherwise prescribed in such amendment.

(b) Use of new or revised AFPI contract clauses, whether issued by page revisions or by an AFPC, shall, unless otherwise specified, be mandatory 90 days after date of issuance. However, procurements initiated after receipt of the new or revised clauses by the purchasing activity should, to the maximum practicable extent include such clauses prior to the mandatory date. If, in the following situations, compliance with the mandatory date is impracticable, procurements may be completed on the basis initiated: When, prior to the mandatory date for use of the new or revised clause: (1) DD Forms 746 and 746–1 have been issued, and the award is to be made by means of DD Form 746–2, (2) Invitations for Bids have been issued, or (3) bilateral contractual documents have been submitted to contractors and introduction of the new or revised clause may delay the procurement.

§ 1001.108 Air Force Procurement Circulars.

Air Force Procurement Circulars will be issued from time to time for the purpose of announcing changes, additions, and deletions to the Armed Services Procurement Regulations and Air Force Procurement Instruction pending publication of revised pages. Air Force Procurement Circulars will be numbered consecutively for the calendar year, beginning with No. 1.

§ 1001.109 Deviations from Armed Services Procurement Regulation or a Department of Defense Directive.

§ 1001.109–1 Applicability.

See § 1.109–1 of this title.

§ 1001.109–2 Deviations affecting one contract or transaction.

Deviations from the Armed Services Procurement Regulations or Department of Defense directives which affect only one contract or procurement, will be made by: (a) Director of Procurement and Production, DCS/S&L, Hq USAF, (b) Deputy Director of Procurement and Production, DCS/S&L, Hq USAF, or (c) Chief, Procurement Policy Division, Directorate of Procurement and Production, DCS/S&L, Hq USAF, after coordination as to form and legality by the General Counsel. Requests for authority to make such deviations will include complete justification and will be sent through channels, including AFLC (MCPC). Written notice to the Assistant Secretary of Defense (Installations and Logistics) and the other military departments will be made by the Director of Procurement and Production; Hq USAF.

§ 1001.109–3 Deviations affecting more than one contract or contractor.

Deviations from ASPR or a DOD directive which affect more than one contract or contractor will be made by the Director of Procurement and Production, DCS/S&L, Hq USAF, after coordination as to form and legality by the General Counsel, consultation with the Office of the Assistant Secretary of the Air Force (Materiel), and approved by the Assistant Secretary of Defense (Installations and Logistics). Requests for such deviations will include complete justification and will be sent through channels, including AFLC (MCPC).

§ 1001.109–4 Deviations required by Government-to-Government agreements.

Requests for deviation requiring consideration of ASPR Committee under § 1.109–4 of this title will be forwarded directly to Hq USAF (AFMPP–PR–1), with information copy to AFLC (MCPC).

§ 1001.109–50 Deviations from AFPI or AFPC.

(a) Deviations from AFPI or AFPC may be made only by the Procurement Committee (MCPC), Hq AFLC, or the Procurement Committee (SCMK–3), Hq AFSC. Deviations which would involve major policy questions will be made only after coordination with the Directorate of Procurement Management, Hq USAF. Deviations from Subpart F, Part 1003 of this chapter which affect funding or payment will be made only after coordination with the Directorate of Accounting and Finance, Hq USAF.

(b) Requests for authority to deviate from AFPI will include complete justification and will be forwarded (in triplicate) through channels as follows: Air Force Systems Command (AFSC) and Office of Aerospace Research (OAR) activities to AFSC (SCMK–3); all other activities to AFLC (MCPC).

(c) A record of each deviation from AFPI or AFPC will be maintained by the respective offices which approved the deviation, including the reasons why a deviation was necessary. One copy of each deviation granted by one command will be furnished to the other command as information.

§ 1001.109–51 Deviations, contract clauses.

(a) Deviations from clauses prescribed in Subchapter A, Chapter I of this title and this subchapter will be held to a minimum and will not be made unless approved as required by §§ 1001.109–2, 1001.109–3, or 1001.109–50(a).

(b) Deviations include:

(1) Use of a prescribed clause which does not follow the rules for use of the clause.

(2) Omission of prescribed clause.

(3) Additions to, deletions from, and modifications of a prescribed clause.

(4) Use of a collateral provision which has the effect of altering a prescribed clause or changing its application.

(5) Use of a provision which has not been authorized for use, except as provided in paragraph (c) of this section.

(c) Use of provisions as described below are not deviations:

(1) Provisions which describe the supplies or services being procured, or supplies or material being furnished by a contractor.

(2) Provisions establishing the time, place, or method of furnishing or inspecting for supplies and services unless their use has the effect described in paragraph (b)(4) of this section.

(3) Provisions that enumerate specific allowable items of cost, pursuant to Subpart E, Part 15 of this title, so long as the items are consistent with Subchapter A, Chapter I of this title and this subchapter.

§ 1001.110 Reports of purchases and contracts.

See Part 1057 of this chapter.

§ 1001.111 Reports of suspected criminal conduct and non-competitive practices.

§ 1001.111–1 Suspected criminal conduct.

Policies and procedures with respect to the debarment, ineligibility, and suspension of bidders are set forth in Subpart F of this part, and Subpart F, Part 1, of this title.

§ 1001.111–2 Non-competitive practices.

(a) See § 1.111–2(a) of this title.

(b) Reports of non-competitive practices will be forwarded through channels, including AMC (MCPP), to the Director of Procurement and Production, DCS/Materiel, Hq USAF, for submission to the Secretary.

(c) See § 1.111–2(c) of this title.

§ 1001.112 Federal procurement regulations and General Services Administration regulations relating to procurement of supplies and services.

See § 1.112 of this title.

§ 1001.113 Code of conduct.

See Subpart T of this part.

Subpart B—Definition of Terms

Subpart B is revised to read as follows:

Sec.

1001.201 Definitions.
1001.201–1 Change orders.
1001.201–2 Contract modification.
1001.201–3 Contracting officer.
1001.201–4 Contracts.
1001.201–5 Department and Military Department.
1001.201–6 Department of Defense.
1001.201–7 Head of a procuring activity.
1001.201–8 Includes.
1001.201–9 Labor surplus area concerns.
1001.201–10 May.
1001.201–11 Negotiate and negotiation.
1001.201–12 Possessions.
1001.201–13 Procurement.
1001.201–14 Procuring activity.
1001.201–15 Secretary.
1001.201–16 Shall.
1001.201–17 Small business concerns.
1001.201–18 Sources of supplies.
1001.201–19 Amendment and supplemental agreement.
1001.201–20 Supplies.
1001.201–21 United States.
1001.201–50 Contract change notification.
1001.201–51 Contractor.
1001.201–52 Chief officer responsible for procurement.
1001.201–53 Appropriated funds.
1001.201–54 Base procurement.
1001.201–55 Central procurement.
1001.201–56 Base procurement activity.
1001.201–57 Foreign base procurement activity.
1001.201–58 AMC field procurement activities.
1001.201–59 Foreign central procurement activity.
1001.201–60 Oversea commands.
1001.201–61 Continental United States (ConUS).
1001.201–62 Contract management regions (CMR's).
1001.201–71 Title I and Title II Architect-engineer Services.

AUTHORITY: §§ 1001.201 to 1001.201–71 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 1001.201 Definitions.

See § 1.201 of this title.

§ 1001.201–1 Change orders.

AMC field procurement activities, AMFEA, and Air Defense Command will not use Change Orders (AFPI Forms of 21 series) when the criteria of § 1001.201–50 and Part 1054, Subpart C of this chapter, concerning Contract Change Notifications (AFPI Forms 35) are applicable. This restriction applies only to central procurement activities.

§ 1001.201–2 Contract modification.

See § 1.201–2 of this title.

§ 1001.201–3 Contracting officer.

In addition to the personnel set forth in § 1.201–3 of this title, the term "officer" is defined to include senior non-commissioned officers who: (a) Hold AMSC 65170 or 65190, (b) are in supervisory positions prior to appointment, and (c) have the requisite procurement experience and other qualifications (see § 1001.452); provided the authority of individuals so appointed is limited to executing purchase and delivery orders (and amendments) within the monetary limitation of $2,500 and under.

§ 1001.201–4 Contracts.

See § 1.201–4 of this title.

§ 1001.201–5 Department and Military Department.

See § 1.201–5 of this title.

§ 1001.201–6 Department of Defense.

See § 1.201–6 of this title.

§ 1001.201–7 Head of a procuring activity.

See § 1.201–7 of this title.

§ 1001.201–8 Includes.

See § 1.201–8 of this title.

§ 1001.201–9 Labor surplus area concerns.

See § 1.201–9 of this title.

§ 1001.201–10 May.

See § 1.201–10 of this title.

§ 1001.201–11 Negotiate and negotiation.

See § 1.201–11 of this title.

§ 1001.201–12 Possessions.

See § 1.201–12 of this title.

§ 1001.201–13 Procurement.

See § 1.201–13 of this title.

§ 1001.201–14 Procuring activities.

See § 1.201–14 of this title.

§ 1001.201–15 Secretary.

See § 1.201–15 of this title.

§ 1001.201–16 Shall.

See § 1.201–16 of this title.

§ 1001.201–17 Small business concerns.

See § 1.201–17 of this title.

§ 1001.201–18 Sources of supplies.

(a) The following definition applies to contracts for supplies which will be manufactured and furnished outside the United States, its Territories, Puerto Rico, or the Virgin Islands. The term "sources of supplies" includes:

(1) Manufacturers,

(2) Construction contractors,

(3) Regular dealers in the supplies to be procured, as defined in § 1.201–18 (b)(2) of this title.

(4) Intermediaries, provided such sources are not prohibited by local foreign law. An intermediary will be deemed to be any one of the following:

(i) A person (or firm) who owns, operates, or maintains a place of business, regularly engaged in performing certain services which directly or indirectly increase the value of the materials, supplies, articles, or equipment being procured (services to consist of such functions as the recovery from consignees and redistribution to manufacturers and producers of containers and packing materials; the receiving, storing, repacking, and reshipping of items being procured; the collection, consolidation, assembling, packing, and shipping of items being procured, etc.; and not the functions of mere soliciting of business, taking of orders, rendering assistance to manufacturers or producers by the preparation of receiving payment documents, arranging for transportation facilities, etc.).

(ii) A person (or firm) who owns, operates, or maintains a place of business, regularly engaged in the importing and exporting business, provided the items being procured are not to be imported from within the United States, its Territories, Puerto Rico, or the Virgin Islands.

(iii) Agencies or instrumentalities of a foreign government.

§ 1001.201–19 Amendment and supplemental agreement.

See § 1.201–19 of this title.

§ 1001.201–20 Supplies.

See § 1.201–20 of this title.

§ 1001.201–21 United States.

See § 1.201–21 of this title.

§ 1001.201–50 Contract change notification.

Contract Change Notification is a written order signed by the contracting officer directing the making of changes of the kind authorized by the provisions of the contract in the supplies or services called for thereunder, and usually containing an estimated price or cost for such changes. Following such a written order, the necessary revisions in other provisions of the contract which are brought about by such order will be made by a supplemental agreement which will establish the firm price or cost. CCN's will be used according to Subpart C, Part 1054 of this chapter.

§ 1001.201–51 Contractor.

The term "contractor" means any person, partnership, company, or corporation (or any combination of these) which is a party to a contract with the United States.

§ 1001.201–52 Chief officer responsible for procurement.

The term "chief officer responsible for procurement" means the Commander, Air Materiel Command as sole head of a procuring activity within the Air Force.

§ 1001.201–53 Appropriated funds.

The term "appropriated funds" comprises all such funds, including funds allocated to, as distinguished from appropriated to, the Department (including available contract authorizations); but does not include organization, unit, or similar funds.

§ 1001.201–54 Base procurement.

The term "base procurement" means the authorized purchase with appropriated funds, of materials, supplies, and services by an AF installation (normally a base) for its own use or the use of a logistically supported activity. Base procurement is not limited to the immediate geographical area in which the base is located. Pending revision of the Air Force Procurement Instructions, wherever the term "local purchase" is used, it will be deemed to refer to "base procurement."

§ 1001.201–55 Central procurement.

The term "central procurement" means the procurement of consolidated Air Force requirements of materials, supplies or services effected by designated agencies, namely the Air Materiel Command, the Department of the Army, Department of the Navy, Armed Services Medical Procurement Agency, and Military Petroleum Supply Agency.

§ 1001.201–56 Base procurement activity.

The term "base procurement activity" means any AF installation that is engaged in base procurement and is located within the United States, its Territories or possessions. Pending revision of the Air Force Procurement Instructions, wherever the term "local purchase activity" is used it will be deemed to refer to "base procurement activity."

§ 1001.201–57 Foreign base procurement activity.

The term "foreign base procurement activity" means any AF installation that is engaged in base procurement and is located outside the United States, its Territories and possessions and the

Commonwealth of Puerto Rico. The term includes air attaches and AF foreign missions.

§ 1001.201–58 AMC field procurement activities.

"AMC field procurement activities" means the purchasing activities (excluding base procurement) of AMC centers, air materiel areas located in the ConUS, Dayton AF Depot, and 2709th Vehicle Control Group.

§ 1001.201–59 Foreign central procurement activity.

"Foreign Central Procurement Activity" means any AMC installation that is engaged in central procurement and is located outside the United States, its Territories or possessions and the Commonwealth of Puerto Rico.

§ 1001.201–60 Oversea commands.

"Oversea commands" includes major air commands located in territories and possessions of the United States, as well as those in foreign countries, and major commands located in Alaska and Hawaii.

§ 1001.201–61 Continental United States (ConUS).

"Continental United States (ConUS)" means the forty-eight states contiguous to each other and the District of Columbia but does not include Alaska and Hawaii.

§ 1001.201–62 Contract management regions (CMR's).

"Contract management regions (CMR's)" means the activity exercising command responsibility over AFPRO's, APD's, and Test Site Offices.

§ 1001.201–71 Title I and Title II Architect-Engineer services.

(a) Title I Architect-Engineer Services means any services required to be furnished by an architect-engineer in connection with the preparation, coordination, and approval of preliminary and final designs, drawings, specifications, estimates of cost, and other technical documents and data essential to the development of advance and master plans, military construction projects (including family housing projects) and the maintenance, alteration and repair of constructed facilities. Title I may include reviewing, checking, coordinating and recommending approval of shop drawings and material samples submitted by construction contractors to assure that they conform to the requirements and intent of the approved construction contract drawings and specifications when no Title II contract is to be let.

(b) Title II Architect-Engineer Services means any services required to be furnished by an architect-engineer in connection with the general supervision and detailed field inspection of the construction of a project to ensure that all phases of the construction work are performed in strict compliance with the intent and requirements of the approved construction contract documents, and the furnishing of such other technical services during the construction period as may be required and specified. Title II includes post construction architect-engineers services, such as: assisting in final inspection, preparing "as built" drawings, supervising operating and other tests, and preparing operating and maintenance instructions.

Subpart C—General Policies

Subpart C is revised to read as follows:

Sec.

1001.300 Methods of procurement.
1001.300–1 Competition.
1001.300–2 Formal advertising.
1001.300–3 Negotiation.
1001.301 Interdepartmental and coordinated procurement.
1001.302 Sources of supplies.
1001.302–1 Government agencies.
1001.302–2 Sources outside the Government.
1001.302–3 Production and research and development pools.
1001.302–4 Foreign purchases.
1001.302–5 Planned emergency producer.
1001.302–50 Contracts between the Government and its employees, proposed subcontracts between Government prime contractors and Government employees.
1001.303 Exchange of purchase information.
1001.304 Selection of items involving proprietary data or other restrictive factors.
1001.305 Time of delivery or performance.
1001.305–1 Scope.
1001.305–2 General.
1001.305–3 Terms.
1001.305–4 Time of delivery clauses.
1001.305–50 Maximum delivery schedules.
1001.305–51 Establishment of delivery schedules on open contracts.
1001.305–52 Amendment of delivery schedules in supply or research and development contracts.
1001.306 Approval signatures.
1001.307 Priorities, allocations, and allotments.
1001.309 Solicitations for informational or planning purposes.
1001.310 Liquidated damages.
1001.311 Construction contracts; disclosure of Government estimate.
1001.312 Voluntary refunds.
1001.312–50 Other than voluntary refunds.
1001.313 Procurement of parts.
1001.313–50 Initial procurement.
1001.313–51 Replenishment procurement.
1001.313–52 Priorities.
1001.314 Contracting officer's decision under the disputes clause.
1001.314–50 Appeals.
1001.314–51 Processing.
1001.314–52 Contractor's compliance and withdrawal after appeal if filed.
1001.314–53 Assistance in connection with pretrial conference and hearings.
1001.314–54 Suggested format; decision in accordance with disputes clause.
1001.314–55 Alternative suggested format; to be used when a termination for convenience dispute is involved.
1001.314–56 Delegation of authority to process contract appeals.
1001.314–57 Staff Judge Advocate, Hq AMC.
1001.350 Forward purchasing policy.
1001.351 Policy on establishment of secondary sources of aircraft production.
1001.352 Individuals authorized to initiate purchase requests.
1001.353 Utilization of funds.
1001.354 Discount-expedite.
1001.355 Relations between GAO and Air Force personnel.
1001.356 Tests of contractor manufactured equipment.
1001.357 Use of new contracts [illegible] on procurements.
1001.358 Policy regarding the [illegible] tion of loyalty of [illegible] searchers on [illegible] search contracts.
1001.359 Contracting with [illegible] neer firms for [illegible] work.
1001.360 Requests from foreign [illegible] for information as [illegible] tion of production [illegible] rights to United [illegible] tary end items.
1001.361 Hospitalization and [illegible] for contractor's [illegible] oversea installations.
1001.362 Industrial type music.

AUTHORITY: §§ 1001.300 to 1001.[illegible] under sec. 8012, 70A Stat. 488; 10 [illegible] Interpret or apply secs. 2301–2314, [illegible] 127–133; 10 U.S.C. 2301–2314.

§ 1001.300 Methods of procurement.

See § 1.300 of this title.

§ 1001.300–1 Competition.

See § 1.300–1 of this title.

§ 1001.300–2 Formal advertising.

See § 1.300–2 of this title.

§ 1001.300–3 Negotiation.

See § 1.300–3 of this title.

§ 1001.301 Interdepartmental and [illegible] dinated procurement.

See § 1.301 of this title.

§ 1001.302 Sources of supplies.

§ 1001.302–1 Government agencies.

See § 1.302–1 of this title.

§ 1001.302–2 Sources outside the [illegible] ernment.

See § 1.302–2 of this title.

§ 1001.302–3 Production and [illegible] and development pools.

(a) Description: See § 1.302-3(a) of this title.

(b) General rule: A pool [illegible] by the administrator of the SBA [illegible] "small business pool" is subject to [illegible] policies and procedures set forth in [illegible] part G, Part 1 of this title and [illegible] of this part.

(c) Ascertainment of status: In [illegible] case where the award of a [illegible] a group reporting itself as a [illegible] or research and development pool [illegible] templated, the contracting officer [illegible] request the small business [illegible] the APD within whose [illegible] boundaries the pool is located to [illegible] from the SBA for forwarding to the [illegible] tracting officer the following:

(1) A copy of the SBA or OCDM [illegible] fication of approval of the pool.

(2) A list of the member [illegible] of the pool and a statement [illegible] the type of organization and plan of [illegible] eration of the pool.

(d) and (e) See § 1.302–3 (d) and (e) of this title.

§ 1001.302–4 Foreign purchases.

See Part 6 of this title and Part [illegible] of this chapter.

§ 1001.302–5 Planned emergency producer.

See § 1.302–5 of this title.

§ 1001.302–50 Contracts between the Government and its employees, proposed subcontracts between Government prime contractors and Government employees.

(a) Procurement contracts: Procurement contracts between the Government and its employees or business organizations substantially owned or controlled by Government employees will not be entered into in except for the most compelling reasons. Proposed subcontracts or purchase orders between prime contractors and Government employees will not be approved except for the most compelling reasons.

(b) Sales contracts: Surplus property may not be sold to military personnel on active duty, to civilian employees of the Armed Forces, including the Department of Defense, or to the immediate families, dependents, or agents of the foregoing except as provided for in AFM 67–1, volume 6, chapter 11, paragraph 3a(2).

(c) In certain instances contracts between the Government and its employees may be subject to the limitations of the penal compensation statutes. Questions with regard to these laws should be referred to the local staff judge advocate.

(d) Administrative approval of AF contracts: Even though a contracting officer has reason to believe that the award of a contract would not violate the policy expressed in paragraph (a) of this section, an administrative approval of such contract will be obtained prior to award from one of the following, as appropriate:

(1) By AMC, by the Deputy for Procurement: The request for approval will be forwarded through the Procurement Division (MCPP), to the Deputy for Procurement.

(2) AMC field procurement activities as required by their commanders.

(3) Base procurement activities, foreign procurement activities, and major command central procurement activities, as required by the commander of the major command.

(4) Air Research and Development Command, as required by the Commander, ARDC.

(5) AMC base procurement activities not under the jurisdiction of an AMA or AF depot, as required by the commander of the activity concerned.

(e) Administrative approval of subcontracts: When an administrative contracting officer has reason to believe that the approval of a proposed subcontract or purchase order would violate the policy, approval will be obtained from the head of the activity responsible for the administration of the contract prior to any other required approval of such subcontract or purchase order.

§ 1001.303 Exchange of purchase information.

See § 1.303 of this title.

§ 1001.304 Selection of items involving proprietary data or other restrictive factors.

See § 1.304 of this title.

§ 1001.305 Time of delivery or performance.

§ 1001.305–1 Scope.

See § 1.305–1 of this title.

§ 1001.305–2 General.

(a) See § 1.305(a) of this title.

(b) See § 1.305–2(b) of this title and § 1001.310.

(c) See § 1.305–2(c) of this title.

§ 1001.305–3 Terms.

(a) See § 1.305–3(a) of this title.

(1) See § 1.305–3(a)(1) of this title.

(2) It is AF policy to avoid the use of this paragraph whenever practical.

(3) See § 1.305–3(a)(3) of this title.

(b) to (d) See § 1.305–3 (b) to (d) of this title.

(e)(1) All contractual documents with the exception of DD Form 1155 and those with "required" delivery forwarded to AF contractors, will be accompanied by AFPI Form 29, "Contractual Document Transmittal—Receipt Card." This procedure will establish a specific date for the delivery of supplies or services as set forth in § 1.305–3 of this title and this section.

(2) When the "required" delivery provision is inserted in an IFB or RFP, the resulting written notice of award or fully executed and binding contract, except for orders placed on DD Form 1155, will be forwarded to the contractor by certified mail, return receipt requested. In such cases, the buyer will attach to the contract file appropriate notification to that effect.

(3) Use of AFPI Form 29. The purchasing activity will:

(i) Prepare AFPI Form 29 for transmittal to the contractor with the written notice of award or other contractual document, as follows:

(*a*) One copy will be addressed for return to the activity responsible for the distribution of the contract.

(*b*) One copy will be addressed for return to the APD, AFPRO, or other office responsible for administration of the contract, if the contract is to be administered by some office other than the contracting office making the award or contract.

(c) Both copies will contain the contractor's name and address as well as a listing of documents transmitted.

(ii) File AFPI Form 29 in the official contract file upon receipt of the form from the contractor.

(f) See § 1.305–3(f) of this title.

§ 1001.305–4 Time of delivery clauses.

(a) See paragraphs (d) and (e) of this section.

(b) and (c) See § 1.305–4 (b) and (c) of this title.

(d)(1) If the buyers desire to specify a rate of delivery as well as a date for completion of delivery, they may specify the delivery schedule in a delivery provision similar to the following.

At the rate of ------ per month to be completed ------ days after the receipt of (insert "written notice of award" or "written notice of award or a fully executed and binding contract," as appropriate).

(2) In negotiated procurements where definitively delivery schedules can be set forth for supplies such as aircraft, engines, etc., the buyers may specify a delivery provision similar to the following:

(i) The contractor shall deliver the supplies called for hereunder to the Government in accordance with the following schedules:

Item	1959			1960			
	Oct.	Nov.	Dec.	Jan.	Feb.	Mar.	Apr.
1	2	7	4	------	------	------	------
2	------	------	3	5	6	6	9

(ii) Buyers will specify in the delivery provision whether or not an accelerated delivery rate will be acceptable to the Government.

(e) In contracts (including contracts on DD Forms 1155) covering MIPR requirements, buyers will include each claimant's portion of like items as a separate contract line item; and buyers will include a separate delivery schedule for each claimant. Where an allocation system is utilized for GFAE items, an allocation schedule will be established for each Requiring Department in lieu of the separate delivery schedule required in paragraph (d) of this section. The delivery schedule will normally be that set forth in the MIPR, if realistic, or as agreed to between the buying activity and the originator of the MIPR. (Existing contracts will not be amended for this purpose.) An example of the delivery schedule contemplated by this paragraph follows:

Item	Department	Total quantity	30 days [1]	60 days [1]	90 days [1]	120 days [1]	150 days [1]
1-A	USAF	850	200	200	150	150	150
1-B	Navy	500	100	100	100	100	100
1-C	Army	300	100	50	50	50	50

[1] After receipt of written notice of award or of a fully executed and binding contract.

NOTE: The preceding example does not apply to delivery schedules specified in DD Forms 1155. The delivery schedule for each claimant's portion on a DD Form 1155 contract will be stated in terms of specific dates on or before which delivery is to be made (see § 1016.303–2(b)(4) of this chapter).

§ 1001.305–50 Maximum delivery schedules.

Appropriations carrying a fiscal year designation as the final year of availability are available for obligation up to and including June 30 of that fiscal year and are available for expenditure for 2 additional years unless otherwise advised. For example, 1959 annual appropriations are available for obligation through June 30, 1959, and for expenditure through June 30, 1961. Accordingly, maximum delivery schedules will be controlled by the foregoing legal requirement for expenditure of appropriated

funds. Contracting officers will assure that delivery requirements are in strict accordance with the foregoing and all contract reviewing authorities will assure that strict conformance with the requirements of this section have been met.

§ 1001.305–51 Establishment of delivery schedules on open contracts.

(a) The following procedures will be followed when the contractor cannot meet the desired delivery schedule set forth in the Production List (§ 1007.2606 of this chapter), and it becomes necessary to establish a new delivery schedule. At such time, according to § 1007.2606 of this chapter, the contractor will set forth its best delivery schedule on two copies of the Approved Production List and forward them to the administrative contracting officer (ACO).

(b) The ACO will:

(1) Review the contractor's schedule with production personnel at the APD or AFPRO, as appropriate.

(2) If the contractor's proposed delivery schedule is within 60 days of the original desired schedule, not coordinate further with supply personnel at the end article prime depot, the initiating contracting officer, or buyer.

(3) If the contractor's proposed delivery schedule is more than 60 days later than the original desired schedule, coordinate with supply personnel at the end article prime depot to assure that the revised delivery schedule is consistent with AF needs and requirements. When necessary, negotiate with the contractor to establish a delivery schedule which is acceptable to both the Government and the contractor. No coordination need be effected with the initiating contracting officer or buyer.

(4) When the contractor's proposed delivery schedule is approved and accepted by the ACO, according to the procedures set forth in subparagraphs (1), (2), and (3) of this paragraph, or when the contractor takes no exception to the desired schedule originally set forth in the Production List, inform the contractor relative to including the delivery schedule in the Proposed Price Exhibit or SPCR, pursuant to § 1007.2606–3 of this chapter. Also, inform, in writing, supply personnel at the end article prime depot of the definitive delivery schedule approved and accepted under either subparagraph (2) or (3) of this paragraph; this notification will be prior and in addition to any notification that may be brought about by the prescribed distribution.

(5) Restrict coordination time with supply personnel at the end article prime depot to minimum periods with appropriate followup by the ACO in each particular case.

§ 1001.305–52 Amendment of delivery schedules in supply or research and development contracts.

(Not applicable to base procurement contracts.)

(a) Contracts having unrealistic delivery schedules may be changed if the best interests of the Government will be furthered by such action, and contracts having delinquent delivery schedules may be amended if the best interests of the Government will not be jeopardized by such action. Delinquent delivery schedules will be held to a minimum at all times consistent with the preceding sentence. If the facts surrounding an individual contract warrant such action, the ACO or the procuring contracting officer (PCO), if the contract is administered by the procuring activity, will, immediately upon determination or notification that a contractor will not be able to complete deliveries on schedule, take affirmative steps to initiate an amendment of the delivery schedule according to instructions in subparagraphs (1) to (4) of this paragraph. If the contractor is delinquent, the ACO or the PCO, if the contract is being administered by the procuring activity, may initiate an amendment of the delivery schedule according to instructions in subparagraphs (1) to (4) of this paragraph, or the ACO or PCO may recommend termination of the contract according to Part 1008 of this chapter. Extensions of delivery schedules may be effected without approval from higher Headquarters in the following instances: (For the division of responsibilities between the ACO and PCO see paragraphs (c) and (d) of this section.)

(1) *When the amendment is supported by legal consideration:* This occurs when the contractor offers a price reduction or other benefits in consideration for an extension of delivery schedule and the Air Force's or other Armed Services interest will not be prejudiced by such extension.

(2) *Pursuant to changed Government requirements:* Such a case would be where extension of the delivery schedule is dictated by an authenticated revised delivery requirement of the Air Force or the other armed services. Every effort will be made to obtain from the contractor an agreement whereby the Government will obtain the benefits of any savings to the contractor on account of the revised delivery schedule.

(3) *Pursuant to specific, standard ASPR or AFPI contractual clauses:* Such clauses include the Changes Clause, the Default Clause, particularly the excusable delay portion, the Government-Furnished Property Clause, the Government Property Clause, and the Excusable Delays Clause.

(4) *Pursuant to special contract provisions:* These are provisions, other than standard ASPR or AFPI clauses, made a part of a contract and agreed to by the parties thereto.

(b) Prior to issuing a contractual modification, the ACO or PCO, whoever makes the determination to amend the delivery schedule, will effect coordination with his staff judge advocate for legality. In all cases the staff judge advocate will determine whether or not legal consideration exists. The staff judge advocate's determination will be final concerning the existence of legal consideration. The adequacy or amount of consideration will be the responsibility for determination by the ACO and PCO together or by either the ACO or PCO alone.

(c) Responsibilities of the ACO: (1) The ACO, according to the conditions contained herein but without [illegible] tion with the PCO or buyer [illegible] where investigation indicates [illegible] may be a basis for default [illegible] will accomplish and issue [illegible] modifications to amend [illegible] schedules that pertain to:

(i) Approved price spare parts [illegible] requests (SPCRs) and approved [illegible] exhibits (§ 1007.2603–3 of this [illegible] to open contracts covered by [illegible] Part 1007 of this chapter.

(ii) Spare parts exhibits [illegible] 673, MCP 71–666, MCP 71–666A, [illegible] 71–669, and MCP 71–670), [illegible] port equipment exhibits (MCP [illegible] training parts exhibits (MCP [illegible] and ground support equipment [illegible] (MCP 71–650) whenever the [illegible] made a part of a contract by [illegible] a supplemental agreement signed [illegible] ACO. See Subparts C and D, Part [illegible] of this chapter.

(2) When a contractor alleges [illegible] quent performance due to causes [illegible] his control and without his [illegible] negligence, the ACO, if he is [illegible] ing the contract, will investigate [illegible] legations and make a finding of [illegible] as to the conditions found to exist.

(3) Upon determination or [illegible] tion that a contract under his [illegible] tration is delinquent or almost [illegible] quent and if he believes that a [illegible] to the delivery schedule is warranted, [illegible] ACO will:

(i) When authorized to amend the [illegible] livery schedule, forward his [illegible] recommendations, and other [illegible] tion deemed pertinent to his staff [illegible] advocate for a determination of [illegible] legality of the proposed revision. [illegible] nish the staff judge advocate with [illegible] address, including code, of the [illegible] tion activity at the APD or AFPRO [illegible] cerned with the contract. The [illegible] copy of the staff judge advocate's [illegible] ion, either affirmative or negative, [illegible] be returned directly to the ACO [illegible] copy to the aforementioned production activity.

(ii) In all other instances, forward findings, recommendations, and other information deemed pertinent to the [illegible] If he is recommending a new, [illegible] delivery schedule, furnish the PCO [illegible] the address, including code, of the production activity at the APD or AFPRO concerned with the contract.

(iii) Regardless of whether the preceding subdivision (i) or (ii) of this paragraph is involved, furnish the appropriate production activity with a [illegible] of the foregoing findings, recommendations, and other pertinent information.

(4) Upon receipt of a DD Form [illegible] "Monthly Production Progress [illegible] marked "Action Document," the [illegible] will indorse thereon his approval or [illegible] approval. If approved and if circumstances indicate that the contractor will not meet the contract schedule within a reasonable period, the action described in subparagraph (3) of this paragraph will be immediately taken by the ACO. What constitutes a reasonable period requires sound judgment by the ACO and due diligence must be exercised so as not to waive the existing contract delivery schedule (see Part 1008 of this chapter). If disapproval of any proposed [illegible]

[illegible] is indicated by the ACO, reasons [illegible] position will be stated on the [illegible] Form 375. The ACO will then sign [illegible] recommendable DD Form 375 and forward to the production activity for disposition. Contracts containing liquidated damages clause require extra [illegible] clause. When the ACO has reason to believe that a contract containing a liquidated damages clause will become delinquent as to deliveries, he will promptly notify the production activity for initiation of a DD Form 375. The ACO will process inadequate DD Form [illegible] reports to the production activity for information and clarification.

(5) After complying with the requirements specified in this section, the ACO, when authorized, will accomplish and issue, within 30 work days after receiving [illegible] (prime AMA or depot) and/or AMC Aeronautical Systems Center (LMES) (in the case of GFAE) coordination, a contractual modification revising the delivery schedule.

(6) Where investigation shows that grounds for a default termination may exist, the ACO will proceed according to the appropriate instructions set forth below and in paragraph (d) of this section and Subpart F, Part 1008 of this chapter.

(d) Responsibilities of the PCO: (1) Upon determination or notification that a contract under the administration of the PCO is delinquent or almost delinquent and if the PCO believes that a revision to the delivery schedule is warranted, the PCO will try to amend the delivery schedule by obtaining the necessary staff judge advocate and supply [illegible] AMA or depot) and/or LMES, AMCASC (in the case of GFAE) coordination.

(2) Within 5 days after receipt of a DD Form 375 marked "Action Document," the PCO will review the forecast, narrative and recommendations to determine impact on the affected program and will reply to the ACO and the production activity. The reply will indicate concurrence or nonconcurrence of the action recommended on the DD Form [illegible]

(3) After complying with the requirements specified in this section, the PCO will accomplish and issue, within 30 work days after receiving prime depot and/or LMES, AMCASC, coordination, a contractual modification revising the delivery schedule.

(4) End article prime AMA or depot and/or LMES, AMCASC, coordination: With the exception of the revision of an unrealistic delivery schedule on a contract, where the originator of the PR–MIPR requirement initiates the request for an extension of delivery schedule, the concurrence of the end article prime depot or in the case of GFAE, LMES, AMCASC, will be obtained in all cases. When other service MIPRs are involved, coordination will be effected with originator of the other service MIPR.

(5) In all other cases, neither the PCO nor the ACO is authorized to amend the delivery schedule without approval from higher headquarters. If the contractor elects, he may file a claim under Public Law 85–804, as implemented by Executive Order No. 10789. The contractor's claim will be processed according to Part 17 of this title.

(g) Any amendment of contract delivery schedules will conform strictly with the requirements of § 1001.305–50.

(h) When concurrence is indicated and the administrative offices (production and ACO) have recommended delivery schedule changes, the PCO will, within 10 work days, forward the findings, etc., to the AMA staff judge advocate for an opinion as to the legality of the proposed amendment. The original of the staff judge advocate's opinion will be returned directly to the PCO with copies to the ACO and to the production activity. When the ACO has recommended default termination, signed copies of the PCO's proposed action will also be forwarded to the cognizant local readjustment activity and to AMC (MCPK). When the ACO has not concurred in proposed action, justification for proposed action by the PCO will be included in notification to the administrative offices and will cover the reasons advanced by the ACO.

(i) When the PCO does not agree with the action proposed on the DD Form 375 marked "Action Document," he will furnish the administrative offices, local readjustment offices and AMC (MCPK), when default termination has been recommended, a statement of reasons for rejecting the recommended action.

§ 1001.306 Approval signatures.

See § 1.306 of this title.

§ 1001.307 Priorities, allocations, and allotments.

See § 1.307 of this title and § 1001.460.

§ 1001.309 Solicitations for informational or planning purposes.

Requests for quotations (including letter requests) for informational or planning purposes relating to weapon systems, subsystems, components, or support equipment, or developments leading to such items, and price and availability studies applicable to Military Assistance Program (Grant Aid only) may be issued only when completely justified to and with the prior approval of the Commander, or his designee, of the cognizant AMC procuring activity, i.e., AMC centers, AMAs and depot. All other requests will be submitted to AMC (MCPP) for prior approval of the Director of Procurement and Production, Hq AMC.

§ 1001.310 Liquidated damages.

(a) (1) Liquidated damages provisions may be used only after prior approval of the following officials (as applicable) and the respective staff judge advocates: (i) The commanders, AMC centers, (ii) the directors of procurement and production of AMC field procurement activities, (iii) the Director of Procurement, Hq ARDC, and (iv) within the other major air commands, at not below the level of a staff officer responsible for procurement within the headquarters of the first echelon of command immediately subordinate to the major air command. Requests for approval will be made in writing (electrically transmitted messages, or letters). Oral requests (either in person or telephone) will not be accepted. The following information will be furnished: (*a*) Identification number of the contemplated procurement (PR No., IFB No., and/or contract number); (*b*) data which will adequately substantiate the need for strict compliance with the delivery schedule and reflect the estimated damage that will result if the delivery schedule is not met; (*c*) the dollar amount of the contemplated procurement, the amount of competition available, the amount of estimated damages to be assessed, and the formula used to arrive at such estimate; (*d*) type and form of contract contemplated and the required delivery schedule to be met; (*e*) the AF technical personnel's written comment relative to the estimate of damages.

(2) The clause set forth below will be placed in the schedule when the clause in § 7.105–5 of this title is used and may be placed in the schedule when the clause in § 8.709 of this title is used:

Liquidated damages will be assessed at the rate of (dollar amount) per day in accordance with the provisions of paragraph f. of the Default Clause.

NOTE: In construction contracts insert the phrase "the Termination for Default-Damages for Delay-Time Extension Clause" in lieu of, "paragraph f. of the Default Clause."

(3) The liquidated damages provision will not be used where the desired delivery is specified. (See § 1001.305.)

(4) Foreign procurement activities will not use liquidated damages provisions.

(b) To assure that the rate of assessment of liquidated damages is reasonable it is incumbent upon the procuring contracting officer to obtain the advice of the AF technical personnel concerned with the requirement; e.g., in construction contracts, the civil engineering officer.

(c) If the supplies or services being procured can be reprocured readily from other sources in case of default, and the difference in price would represent the full measure of damages to the Government, liquidated damages provisions will not be used.

(d) Recommendations concerning remissions will be forwarded by the procuring contracting officer with appropriate documentation through AMC (MCPP) to Hq USAF (AFMPP–PR) for submission to the Secretary.

§ 1001.311 Construction contracts; disclosure of Government estimate.

See § 1.311 of this title.

§ 1001.312 Voluntary refunds.

Voluntary refunds and other refunds made by contractors by check will be made payable to the Treasurer of the United States. It is preferred that such checks be submitted to the cognizant contracting officer. In any event, the check will immediately be forwarded by its recipient to the nearest accounting and finance office. The accounting and finance office will furnish the recipient of the check a copy of the collection voucher. If the appropriate account to

be credited cannot be readily determined, the check will be placed temporarily in a suspense account, and immediate steps will be taken to determine the account to be credited. When the appropriate account has been determined the cognizant PCO will be so notified, and the necessary supplementary contractual action will be taken to permit collection as an appropriation refund. Where the appropriate account cannot be identified, the refund will be transferred to the appropriate miscellaneous receipt account according to current accounting and financial procedures.

§ 1001.312–50 Other than voluntary refunds.

The following are examples of refunds and receipts of funds excluded from the definition of voluntary refunds as set forth in § 1.312 of this title and § 1001.312:

(a) Interim refunds made under fixed-price redeterminable and fixed-price incentive contracts (Subpart Z, Part 1054 of this chapter).

(b) Debts owed by contractors and deferred payments (Subpart V, Part 1054 of this chapter).

(c) Adjustment of funds under active AF contracts (Subpart C, Part 1053 of this chapter).

(d) Refund of overpayments disclosed by voluntarily reopened repricing negotiations (Comp. Gen. Dec. B–130534, April 30, 1957).

(e) Other contractual provisions or agreements between the contracting parties requiring such refunds (tax refunds, rebates, etc.).

§ 1001.313 Procurement of parts.

See § 1.313 of this title.

§ 1001.313–50 Initial procurement.

Initial quantities of spare parts, with the exception of military, industry, and contractor standard items, will normally be procured from the end item manufacturer. These parts may be procured through provisioning procedures, when appropriate, utilizing authorized spare parts provisioning documents (Part 1055 of this chapter). Any deviations to established contractual provisioning documents must be coordinated with the Management Concept Branch (MCSRO), Hq AMC, prior to obtaining approval of Hq AMC, MCPC, according to § 1001.109–50.

§ 1001.313–51 Replenishment procurement.

Spare parts required for stock replenishment purposes will normally be procured from the commodity industry. Competition will be secured to the maximum extent practicable. It is very important that parts which can be procured on an open competitive basis without compromising the requisite safety, dependability, and effective operation of equipment, be so procured.

§ 1001.313–52 Priorities.

Spare parts will be procured using the DO or DX rating (§ 1001.460) assigned to the end item being supported.

§ 1001.314 Contracting officer's decision under the disputes clause.

This section deals with preparing decisions and processing appeals under the Disputes clause by contracting officers. The application of the following instructions are limited to cases where the Disputes clause contained in § 7.103–12 of this title is used. Where the Disputes clause of § 1007.4205–8 of this chapter is used, the oversea command staff judge advocate rather than the Staff Judge Advocate, Hq AMC, will be the source of advice regarding proposed decisions and will be the channel for forwarding data relating to appeals (also see the instructions preceding the clause in § 1007.4205–8 of this chapter).

(a) *Preparation of decision.* Where mutual agreement on a question of fact proves impossible, a findings and decision must be prepared by the contracting officer. This single document in the format set forth in §§ 1001.314–54 and 1001.314–55 should contain a simple and concise statement of: (1) The claim, (2) the decision, (3) the findings of fact which support the decision, and (4) the reference to the Disputes clause contained in the format. The factual determination must be relevant to the issues and supported by documents or oral statements.

(b) *Legal advice by Staff Judge Advocate, Hq AMC.* All written findings and decisions, except termination for defaults and assessment of excess costs, will, prior to transmittal to the contractor, be referred for comment to the Staff Judge Advocate, Hq AMC, together with pertinent documents and summaries of anticipated testimony of all Government witnesses. Default and excess costs findings and decisions will be submitted to the appropriate field staff judge advocate. When referrals to the staff judge advocate are made, the accompanying file will be complete in all respects. The file should contain: (1) Copy of the contract, and all applicable amendments, specifications and drawings; (2) communications relative to the subject matter of the dispute; and (3) any additional information.

(c) *Transmittal to contractor.* After the referral described in paragraph (b) of this section has been accomplished, the findings and decisions will be re-examined by the contracting officer in the light of the advice and comments proffered by the appropriate staff judge advocate. If, in the judgment of the contracting officer, re-examination reveals the propriety of modifications or additions, he will make the appropriate changes. After such re-examination, and changes if appropriate, he will transmit the findings and decision to the contractor in person, obtaining a receipt therefor, or by certified mail, return receipt requested.

(d) *Amendment after transmittal to contractor.* After a timely appeal has been taken to the Armed Services Board of Contract Appeals, the contracting officer who has rendered findings and a decision, or his successor, may for good cause recommend that the findings and decision be corrected or amended. [illegible] recommendation will be forwarded to the Staff Judge Advocate, Hq AMC, [illegible] with the file required by paragraph [illegible] of this section as supplemented to report the recommended correction or amendment.

§ 1001.314–50 Appeals.

See Appendix A, § 30.1 of this title, Rules of the Armed Services Board of Contract Appeals.

§ 1001.314–51 Processing.

(a) When a notice of appeal in any form has been received by the contracting officer from whose findings and decision the appeal is taken, he will comply with Rule 4, Part II, Appendix, § 30.1 of this title. The envelope in which the notice of appeal was mailed will be promptly forwarded with the original copy of the notice, to the Board. As soon as practical thereafter he will send the Staff Judge Advocate, Hq AMC, a copy of the notice and of the pertinent documents (in duplicate) required by Rule 4. The Staff Judge Advocate should in all cases be advised of the postmark on the envelope or date of receipt of the notice of appeal if otherwise transmitted.

(b) If AF personnel other than the contracting officer involved receive the notice of appeal, they will:

(1) Note on all copies of the notice of appeal the date of mailing or the date of receipt if otherwise transmitted.

(2) Promptly forward to the Board the original notice of appeal together with the envelope in which the notice of appeal was received or any other documentary evidence of mailing or receipt of such notice.

(3) Notify the Staff Judge Advocate (MCJ), Hq AMC, or oversea command staff judge advocate if applicable, that the notice of appeal has been forwarded to the Board. If two or more copies of the notice of appeal are furnished, the copies other than the original will be forwarded to MCJ. Otherwise, a copy of the notice of appeal should be sent for MCJ, if practical. If no copies are available or legible copies cannot be made, the number of the contract and the name of the contractor should be furnished MCJ.

(c) Attention is invited to the notice in ASBCA Rule 4 which reads as follows:

> Attention is invited to Rule 31, providing an Optional Accelerated Procedure for cases involving $5,000 in amount or less. It is the duty of the contracting officer to advise the contractor of the Optional Accelerated Procedure in connection with any appeal involving $5,000 in amount or less. The contracting officer will so advise the contractor when it appears that the monetary amount in issue is less than $5,000.

(d) Upon receipt of information that a notice of appeal has been filed, the Staff Judge Advocate, Hq AMC, will request the contracting officer to furnish the information required in paragraph (a) of this section. Two copies of the requested documents will be furnished MCJ.

§ 1001.314–52 Contractor's compliance and withdrawal after appeal is filed.

Whenever the contractor, subsequent to filing an appeal with the Armed Services Board of Contract Appeals, elects nevertheless to accept fully the findings and decision from which appeal was taken or any amendment thereof, and gives written notification of such acceptance to the contracting officer concerned, the contracting officer will be responsible for promptly sending the contractor's notice of acceptance to the Staff Judge Advocate, Hq AMC. Upon receipt of the notice the Staff Judge Advocate in collaboration with the contractor will prepare and submit a joint motion of withdrawal to the Board. Similar action will be taken by the contracting officer in instances where the contractor, after filing an appeal with the Armed Services Board of Contract Appeals, in writing signifies partial acceptance with the findings and decision of the contracting officer.

§ 1001.314–53 Assistance in connection with pretrial conference and hearings.

At all times after the filing of an appeal, the contracting officer will render all assistance requested by the Staff Judge Advocate, Hq AMC. Whenever an appeal is set for hearing, the contracting officer concerned, acting under the guidance of the Staff Judge Advocate, Hq AMC, will be responsible for arranging for the presence of Government witnesses and specified physical and documentary evidence at both the pretrial conference and the hearing.

§ 1001.314–54 Suggested format; decision in accordance with disputes clause.

_____
(Date of findings and decision)

Subject: Decision Disallowing Request of _____
(Name of contractor)

Under Contract No. _____ Date _____

To: _____
(Name and address of contractor)

1. In accordance with the provisions of the above-numbered contract, the undersigned contracting officer has duly considered your request for (insert factual description of the request to identify clearly its nature and scope.)

2. The undersigned contracting officer has decided that your request as set forth above, is disallowed (in whole or in part, according to the fact) for the following reasons:

(Insert the findings of fact upon which the disallowance is based.)

3. The "Disputes" clause of the contract provides that within 30 days from the date of receipt hereof the contractor may appeal from this decision by mailing or otherwise furnishing to the contracting officer a written appeal addressed to the Secretary of the Air Force. Two copies should accompany the original notice of appeal. The notice of appeal should identify the contract (by number), the decision from which the appeal is taken and be signed by appellant or an officer of appellant organization or by a duly authorized representative or attorney. Within 30 days after receipt of notice of docketing of the appeal by the Board, the appellant shall file with the Board a complaint setting forth simple, concise and direct statements of each claim showing entitlement to relief.

§ 1001.314–55 Alternative suggested format; to be used when a termination for convenience dispute is involved.

Subject: Findings Pertaining to Termination Claim _____
(Name of contractor)

Under Contract No. _____ Date_____

To: _____
(Name and address of contractor)

1. Your claim for (insert factual description of the claim to identify clearly its nature and scope) in connection with the above cited contract has been duly considered by the undersigned contracting officer.

2. In accordance with the provisions of Clause _____ (insert the title of the pertinent termination clause) of the contract, the undersigned contracting officer finds as follows: (Insert all pertinent factual data, such as, date of termination of contract, date of submission of settlement proposal, items and amounts allowed and disallowed, together with reasons therefor.)

3. The "Disputes" clause of the contract provides that within 30 days from the date of receipt hereof, the contractor may appeal from this decision by mailing or otherwise furnishing to the contracting officer a written appeal addressed to the Secretary of the Air Force. Two copies should accompany the original notice of appeal. The notice of appeal should identify the contract (by number), the decision from which the appeal is taken and be signed by appellant or an officer of appellant organization or by a duly authorized representative or attorney. Within 30 days after receipt of notice of docketing of the appeal by the Board, the appellant shall file with the Board a complaint setting forth simple, concise and direct statements of each claim showing entitlement to relief.

§ 1001.314–56 Delegation of authority to process contract appeals.

The Commander, AMC, has been delegated authority to process all contract appeals directly to the Armed Services Board of Contract Appeals and the Appeal Board, Office of Contract Settlement. The Commander, AMC, has further delegated this authority to the Staff Judge Advocate, Hq AMC, with power of redelegation.

§ 1001.314–57 Staff Judge Advocate, Hq AMC.

The Staff Judge Advocate, Hq AMC, is the duly designated trial attorney to represent the Government in the defense of appeals before the Armed Services Board of Contract Appeals or the Appeal Board, Office of Contract Settlement. Decisions of the Armed Services Board of Contract Appeals by the Staff Judge Advocate, Hq AMC, will be transmitted to the appropriate contracting officer for action according to the Board's decision. When the Chief Trial Attorney determines that the best interest of the Air Force will be served, a motion for reconsideration of an adverse decision will be filed.

§ 1001.350 Forward purchasing policy.

The primary objective of the forward purchasing policy is to attain and maintain on a continuing basis an Air Force in a maximum state of readiness to perform its combat mission within approved force structures, with a minimum cost impact on the United States economy. The control of expenditures through employment of efficient inventory control procedures and purchasing methods, are indispensable prerequisites to the achievement of this objective. The Air Force must demonstrate continually increased efficiency in its current operations in addition to developing sound programs directed towards greater efficiencies in the future. Consistent with this objective, the following requirements are established:

(a) Procurements will not be placed earlier than necessary to meet requirements and/or maintain continuity of production.

(b) All procurement will be according to the latest production reserve policy. This applies to both prime contractor and subcontractor complexes of aircraft and to all manufacturers of related equipment.

(c) No new contract is to be placed until the price, delivery, and quality elements of the purchase have been carefully reviewed and analyzed.

(d) Where contractors have delayed without justifiable cause or failed to negotiate in good faith prompt contract formalization, price redetermination, and target reset or final price revision under incentive contracts, and it is determined, after suitable review, that such delinquencies exist, no new contracts are to be placed with the contractors involved until the delinquencies have been corrected.

(e) Careful consideration is to be given to tightening the terms and conditions of new contracts and to insure that obligations undertaken by contractors are clearly stated and enforced. Increasing emphasis is to be placed on fixed-price contracts, and wider use of incentive type contracts where it can be anticipated that lower overall cost will result.

(f) Reasonable administrative controls or other assurances will be used to insure that AF contractors maintain minimum inventories required for production consistent with sound business practices.

§ 1001.351 Policy on establishment of secondary sources of aircraft production.

As an integral part of the policy of broadening the industrial base during a period of national emergency, it is necessary for the Air Force to create supplementary sources for the production of aircraft and related equipment normally obtained from the original designer-manufacturer and to provide the supplementary sources with engineering help and technical assistance from such original sources. The Air Force recognizes the contributions made by the primary suppliers of aircraft and related equipment to the advanced state of the art and the importance of maintaining the industry in strong financial condition. To that end, it is essential that the aircraft industry be adequately compensated for its creative efforts and its overall contributions to the national defense. The policies set forth herein are designed to recognize the respective contributions and responsibilities of industry and Government toward the maintenance of an aviation industry of sufficient strength to provide the air power needed for national security.

(a) *Determination of need for supplementary sources.* It will be the prerogative of the Air Force to determine whether one or more supplementary sources are needed, and to make the final selection of secondary suppliers. Nevertheless, it will be AF policy to consult with the primary source prior to the selection and establishment of each supplementary source to obtain the benefit of the experienced advice and judgment of the primary source and also with a view toward obtaining a competent supplementary supplier, who will operate in harmony with the primary source. It is expected that, after the establishment of each supplementary source, the primary source will cooperate in furnishing technical assistance to the supplementary source and in entering into licensor-licensee agreements. When establishing a supplementary source, consideration will be given to the cost of the production facilities that the Government may have to provide such supplementary source.

(b) *Proration of procurement between primary and supplementary sources.* In determining the extent to which procurement will be prorated between the primary source and the supplementary source or sources, it will be AF policy to give prior consideration to the primary source, subject always to the Government being assured of deliveries of the needed equipment within the time required and at a reasonable price. In determining the amount of procurement to be placed with the supplementary source or sources, consideration will be given to amortizing the cost of any facilities the Government may have provided or will provide the supplementary source, as well as maintaining an expansible base in event of mobilization, but there also will be taken into account the investment in production facilities made by the primary source. Due recognition will be given to the available capacity of the primary source, and in scheduling production programs it will be AF policy to maintain such production with the primary source as is consistent with the foregoing. It will be the prerogative of the Air Force to determine the proration of business between the primary and supplementary sources.

(c) *Reimbursement of primary source for technical assistance.* For technical assistance the primary contractor will be reimbursed by the Government on a basis which will fairly reflect the contractors' "out-of-pocket" cost plus a fair profit.

(d) *Compensation of primary source for helping establish supplementary sources.* The establishment of a supplementary source generally involves some proprietary rights of the original designer-manufacturer other than patent rights which are not considered as being within the purview of this policy statement. These proprietary rights will be given appropriate recognition on a case by case basis. The supplying of engineering know-how and technical and other assistance by the primary source is materially beneficial to the supplementary source and to the Government, in reduced costs and effort in furnishing supplies. The amount and nature of the engineering assistance and know-how supplied by the primary contractor will be an important consideration in the negotiation of profit allowances for supplies procured by the Government from the primary contractors as well as in the negotiation of profit allowances for the supplies procured by the Government from the supplementary sources with the engineering and technical assistance furnished by the primary contractor.

§ 1001.352 Individuals authorized to initiate purchase requests.

(Not applicable to base procurement activities supporting oversea bases according to AMCR 23-6, e.g., USAF logistic control groups and SMAMA.) A list of all individuals authorized to initiate Purchase Requests will be obtained and maintained by each base procurement office. In addition, a specimen signature on DD Form 577 "Signature Card," will be filed for each individual on the list.

§ 1001.353 Utilization of funds.

By law, funds are required to be used only for the purpose for which they were appropriated and no other. Moreover, obligations must not be incurred unless funds are available. Where essentially similar items are procured, whether on one or more contracts, the same funds must be cited. Similarly, where contracts are amended, as, for example, to make changes or additions to work called for under a construction contract, which changes are essentially the same character of work, only construction funds should be used. This is not intended to preclude the citation of different, but appropriate, funds for different supplies or services in the same contract where such supplies or services are properly being procured under one contract.

§ 1001.354 Discount-expedite.

The words "Discount-Expedite" may be locally overprinted diagonally on a representative portion of reproducible masters of DD Form 1155 and other contractual forms. The lettering will be 1 inch opaque block type so as not to obliterate any typed words or figures. When a time discount applies, the typist will use one of the overprinted forms and no additional manual marking is required. If cut sheets are used, they may also be overprinted if practical. When not practical, a rubber stamp with ½ inch letters will be used and the discount terms underscored or circled in red.

§ 1001.355 Relations between GAO and Air Force personnel.

It is the policy of the Air Force to require full cooperation between its personnel and the General Accounting Office in their relationship with contractors concerning that agency's examination of contractor's records and supporting data, pursuant to the contractual clause of each contract emanating from the statutory right provided by the Congress. Where adequate cooperation cannot be obtained from the contractor by the GAO and the local AF representative, the matter will be referred to AMC (MCGL) for advice, assistance, and resolution.

§ 1001.356 Tests of contractor manufactured equipment.

Only personnel designated by the Government and the contractor whose products are being tested should be permitted to witness such tests. Each contractor may designate others not in his organization to attend provided such request is in writing and approved by the Government.

§ 1001.357 Use of new contracts for follow-on procurements.

(a) All follow-on procurements (adding articles in the prosecution of subsequent fiscal year programs) will be accomplished on a separate and distinct contractual instrument as opposed to a supplement to an existing contract.

(b) Commanders or deputy commanders of AMA's AF Depots, AMC centers, AMFPA, AMFEA, with power of redelegation, may authorize exceptions to the policy in the case of individual procurements when the best interests of the Government will be served. This authority will be exercised only when compliance with policy is not practicable. The procurement file will include a statement by the contracting officer of approval and justification.

(c) Exceptions not requiring authorization:

(1) Contractual coverage for preproduction expenses, e.g., engineering changes, facility expansions, and/or tools relating to initial release of production quantities.

(2) Follow-on procurements for pilotless aircraft when requirement is released on a partial basis, such as purchases of materials, fabrication of materials, and assembly.

(3) Supplemental agreements for additional quantities within the same fiscal year.

(4) CPFF contracts; but see subparagraph (6) of this paragraph.

(5) Indefinite delivery, open and cost procurement contracts.

(6) Research and development contracts where the period of performance will not exceed 3 years from the date of the initial contract.

(7) Instances where the Government exercises its rights under the option clause of a contract.

§ 1001.358 Policy regarding the consideration of loyalty of scientific researchers on unclassified research contracts.

(a) The problems of security and possible unauthorized release of classified information do not arise under unclassified scientific research contracts. The major consideration regarding the individuals involved should be their scientific integrity and ability. The only consideration relating to the loyalty of individual scientists engaged in work under Government contracts is the possibility that it would appear to be against the national interest to give aid and comfort to a person disloyal to the United States. In conformance with this principle, the following policy has been adopted:

(1) The policy of the Air Force in considering proposals for contracts in support of unclassified research not involving security considerations is to assure that, in appraising the merit of a proposal submitted by or on behalf of a scientist, his experience, competence and integrity are always taken carefully into account. Purchasing activities will not knowingly award or continue a contract in support of research for one who is:

(i) An acknowledged Communist or anyone established as being a Communist by a judicial proceeding, or anyone who advocates change in the United States Government by other than constitutional means.

(ii) An individual who has been convicted of sabotage, espionage, sedition, subversive activity under the Smith Act, or a similar crime involving the Nation's security.

(b) Whenever any purchasing activity has reason to believe that the policies described in paragraph (a)(1) of this section applies to a scientific researcher whose services will be utilized in a proposed contract, or whose services are being used in an existing contract, all pertinent information will be forwarded through the Commander, AMC, attn: MCFP, to the Deputy Chief of Staff, Material, Hq USAF, attn: AFMPP, for resolution.

(c) Where a purchasing activity receives information indicating that a potential or an actual scientific researcher may have violated a Federal statute, an immediate report will be made in the manner prescribed for reporting the commission of suspected crimes.

§ 1001.359 Contracting with architect-engineer firms for construction work.

(a) Air Force policy prohibits the award of a contract for professional architect-engineer services for a particular facility, and the award of a contract for the related construction work to the same firm, its subsidiaries or affiliates. Professional architect-engineer services, as referred to herein, means: (1) Those architectural and engineering services furnished in connection with developing designs, drawings, specifications and other documents prerequisite and essential to the construction of a facility, and (2) those technical and other services furnished by an architect-engineer, on behalf of the Government, in connection with the supervision and inspection of the work performed and materials supplied by the construction contractor. This policy, adopted in an effort to prevent the development of conflicts of interest which might tend to prevent architect-engineer contractors from furnishing the best professional services of which they are capable and from rendering unbiased decisions during the design and construction periods, is in keeping with similar policies followed by other major governmental construction agencies.

(b) Certain firms possess both architectural-engineering and construction capabilities, either within their own organizations or through subsidiaries or affiliates. In the event such firms, their subsidiaries or affiliates, are selected as prospective contractors for professional architect-engineer services, they will be clearly informed of the above policy prior to the initiation of architect-engineer contract negotiations. At that time such firms will have the option of either: (1) Withdrawing from further architect-engineer contract negotiation to compete for the construction contract, or (2) continuing with contract negotiations for the architect-engineer contract under the condition that if such negotiations are successful, that firm, its subsidiaries or affiliates, will be ineligible to compete for the related construction contract. Accordingly, bids for the construction of a facility will not be solicited from the firm, its subsidiaries or affiliates, which furnished, or will furnish professional architect-engineer services for that facility.

(c) Exceptions: The above policy is not applicable: (1) In those few cases where the Secretary of the Air Force specifically authorizes the use of cost-plus-fixed-fee contracting with a firm or group of firms for both the design and construction of a specialized facility, nor (2) in those cases where contracts are awarded based on requirements specifications, for the production, delivery and/or erection of multiple units of pre-engineered structures and such contracts require the successful contractors to furnish construction drawings, specifications, or site adaption drawings of the structures. In neither of the above excepted cases will the firm that prepared the drawings and specification be engaged to supervise, on behalf of the Government, the construction of the facility involved.

§ 1001.360 Requests from foreign entities for information as to acquisition of production and sales rights to United States military end items.

(a) This section provides instructions for processing a request of a foreign entity for information concerning acquisition of production and sales rights to United States military end items.

(b) This section applies to AMC field procurement activities assigned prime class procurement, all major oversea commands, AMFPA, and AMFEA.

(c) It is AF policy to assist potential foreign producers of AF military end items to identify the United States qualified production sources. Whenever a foreign production source (either a friendly foreign government or a private entity of a friendly foreign government) requests information on the appropriate procedure to be followed in acquiring production or patent rights to an AF military end item, it is deemed essential that AF personnel provide a complete list of United States military department sources, together with addresses, as expeditiously as possible.

(d) AF personnel initially contacted by the foreign entity will assist the inquirer in identifying each AF item by stock number and nomenclature designation. In addition, the offshore unit will determine the AF activity which has procurement responsibility of each item and advise the inquirer to write directly to the director of procurement and production of that activity.

(e) Upon receiving such requests, the appropriate AF activity within the continental United States will:

(1) Secure a complete list of United States Military sources together with addresses presently on record at that activity for the item involved.

(2) Send this list directly to the foreign entity and advise the foreign potential producer to contact the United States source(s) direct. This letter will be substantially as follows:

> Forwarded herewith according to your request is a list of United States military sources presently on record at this activity as United States manufacturer of _____ (Item)
>
> Inasmuch as the ultimate decision insofar as patent rights and technical assistance arrangements are concerned, rests with the owner of the patents which may be involved and the United States producers of the items, no commitment is made on behalf of the United States Government.
>
> If further information is desired, it is requested that the attached list be utilized for contacting the United States manufacturers direct.

(3) No other information will be released to a foreign entity without the approval and coordination of the local office of the staff judge advocate.

(f) At the same time the list is forwarded, each United States producer whose name has been included on the list will be advised of the inquiry. Since the ultimate decision, insofar as patent rights and technical assistance are concerned, rests with the owner of the patents which may be involved and the United States producers(s) of the item, no position will be taken in this respect and no commitments made on behalf of the United States Government. This letter will be substantially as follows:

> It is the policy of the Department of the Air Force to assist potential foreign producers of Air Force military end items to identify the United States qualified production sources.
>
> Pursuant to this policy your company's name has been forwarded to _____ according (Foreign entity's name and address) to their request as a producer of _____ (Item description)
>
> Inasmuch as the ultimate decision, insofar as patent rights and technical assistance arrangements are concerned, rests with the owner of the patents which may be involved and the United States producers of the items, no commitments can be or were made on behalf of the United States Government.
>
> No further action on this matter will be taken by this activity. However, it is hoped that the Air Force has been of some assistance to you in establishing contact between your own concern and a potential foreign source of _____ (Item)

(g) If a request is received from a foreign entity which contemplates production in other than a friendly country or if the AF item is classified, the request will be referred with recommendations to Hq USAF (AFMPP).

(h) The AF policy is to lend every assistance in identifying the interested parties and to aid United States private entities in processing an application to the United States Department of State or Commerce for export license or approval of a contemplated production and

sales program abroad. The procedures outlined in this section afford the Department of the Air Force ample opportunity at Hq USAF to make recommendations to the Department of Defense which, after review, forwards the Department of Defense recommendations to the Department of State. The Department of State is the established and solely authorized United States Government instrumentality for final determination in respect to release of United States military end items for production and sale outside the continental United States by foreign entities.

§ 1001.361 Hospitalization and medical care for contractor's employees at oversea installations.

The following policy contained in DOD Directive 6310.4, will be followed by all procurement activities.

(a) Under existing statutes and procurement regulations, the Military Departments have the authority, under certain circumstances, to contract for the hospitalization and medical care of employees of contractors with the United States at oversea locations, as a part of the consideration for such contracts.

(b) During the present shortage of medical personnel, all practical means should be employed to reduce the workload of the medical departments of the services and to make the most efficient use of available personnel. Accordingly, in negotiating such contracts, it is requested that all procurement authorities in the military departments be instructed to avoid conditions which would place upon the services the responsibility of providing medical and dental care and hospitalization for contractor's employees; except when isolation and lack of civilian facilities for hospitalization or economic advantage to the Government become overriding factors of importance.

(c) This policy does not apply to preventive medical functions overseas, which remains the responsibility of the military departments.

§ 1001.362 Industrial type music.

Contracts for industrial (incentive) type music are unauthorized since there exists no general authority for expenditures of this type in the absence of more specific legislative authorization therefor (MS Comp. Gen. B86148, Nov. 8, 1950). Contracting officers will return purchase requests for industrial type music to the initiator with the advice that contracts for such music are unauthorized.

Subpart D—Procurement Responsibility and Authority

1. Section 1001.400 is added as follows:

§ 1001.400 Scope of subpart.

This subpart deals with (a) procurement responsibility and authority of the Commander, AMC, (b) designation and authority of contracting officers and their representatives, and (c) delegations of procurement authority.

2. In § 1001.401, a new paragraph (c) is added as follows:

§ 1001.401 Responsibility of each procuring activity.

* * * * *

(c) See § 1001.454 on designation of contracting officers.

3. Sections 1001.403 and 1001.404 are added as follows:

§ 1001.403 Requirements to be met before entering into contracts.

See Parts 1002, 1003, 1052, 1053, and § 1030.5 of this chapter.

§ 1001.404 Special requirements to be met before entering into negotiated contracts.

See Parts 1001, 1002, 1052, 1053, and § 1030.5 of this chapter.

4. Section 1001.453 is revised to read as follows:

§ 1001.453 Delegations of authority.

(a) The exercise of the delegated authorities will be subject to the applicable provisions of Chapter I of this title, this chapter, and other directives issued by proper authority, except that emergency procurements in combat areas will be accomplished in the manner prescribed by the commander of the combat theatre. The provisions of Chapter I of this title and this chapter apply to procurement in oversea areas for Government and Relief in Occupied Areas (GARIOA) chargeable to annual appropriations for such purposes.

(b) All redelegations of authority as well as withdrawals or rescissions thereof will be made in writing over the personal signature and title of the person vested with the authority. Delegations and redelegations will be made to official positions and not to individuals by name, except in the case of designations of contracting officers and representatives of contracting officers.

(c) Delegations of authority do not affect the authority of the delegator to exercise any of the authority delegated or to issue instructions concerning the exercise of such authority.

(d) Authorities delegated by the Director of Procurement and Production, Hq AMC, may not be redelegated except as expressly provided in individual authorizations.

(e) Delegations of authority to air attaches may be exercised only by air attaches on duty in foreign countries. Delegations of authority to chiefs of AF foreign missions or chiefs of AF sections of joint military missions may be exercised only when the missions are not operating under the jurisdiction of an oversea command.

(f) Procurement authorities vested in commanders, major air commands, are likewise vested in the Commander, Military Air Transport Service. Procurement authorities vested in commanders, oversea commands are likewise vested in the Commander, Military Air Transport Service, and the Commander-in-Chief, Strategic Air Command, with respect to areas outside the continental United States and not within the jurisdiction of a major air command.

(g) [Reserved]

(h) In the absence of a person occupying a position to which authority has been delegated, the authority may be exercised by the person who is occupying the position in an "acting" capacity. "Absence" refers to absence from the installation on leave or temporary duty travel. In cases of extreme emergency, "absence" may be construed to mean absence from the office regardless of whereabouts, except redelegations of authority which must be accompanied by the person occupying the position to which authority has been delegated.

(i) Approval of awards and approval of contracts authorized by delegations of authority will be made in person by the individual occupying the position to which the authority has been delegated. Execution of such approval by one individual for, or over the signature of, another is unauthorized. Persons serving in an acting capacity will execute authority, as delegated, over their own name as acting chief, deputy chief, etc. Awards and contractual instruments in excess of the contracting officer's authority which require approval by higher authority will be reviewed by competent persons prior to manual approval.

(j) In the event that a person acts without the requisite authority, his actions may, under certain circumstances, be later ratified. When such ratification is proposed, review and approval of the proposed ratification should be obtained from the appropriate Staff Judge Advocate.

(k) Authority to make awards and to execute or approve contracts applies only when such documents include all prescribed clauses approved for use by Director of Procurement and Production, Hq AMC, or higher authority.

(l) When contracting authority is limited as to dollar amount, the limitation includes:

(1) Any contractual instrument initially involving a sum in excess of the dollar limitation considering the aggregate of obligated and committed funds and any potential "connecting charges" or "termination liability" established therein.

(2) Contracts firmly negotiated for the total cost of the program, as stated therein, but which are funded for less than the total cost of the program as firmly negotiated.

(3) Requirements and indefinite quantity contracts as defined in § 3.405-4 of this title and § 1003.405–5 of this chapter and call procurement arrangements as defined in § 1003.405–51 of this chapter when maximum requirements are set forth (in such cases the maximum requirements will be contained in the call procurement arrangements as the estimated dollar amount of supplies or services to be procured during the contract period), even though no funds are committed or obligated thereby.

(4) Any contractual instrument in excess of the dollar limitation that increases the allotment of funds for reimbursement under a cost-reimbursement or time-and-materials type of contract,

(5) Any contractual instrument, regardless of total contract consideration, which accomplishes a change that would increase the cost to the Government by more than the dollar limitation were there not offsetting credits provided in the same contractual instrument.

(6) Except as otherwise authorized, any supplemental agreement defining contract change notifications when the contract change notifications being definitized accomplished a change which increased the cost to the Government by more than the dollar limitation regardless of whether there are offsetting credits provided in the same supplemental agreement.

(7) Utility contracts—the estimated annual service charge plus the connection or termination charge, if any.

(m) When contracting authority is limited as to dollar amount, the limitation does not include:

(1) Contractual instruments which do not more than commit funds for engineering changes or provisioning items, whether or not there was any previous commitment for such items.

(2) Contractual instruments increasing fund obligations under partially funded contracts (see paragraph (b) (1) and (2) of this section) when not exceeding the firmly negotiated total cost of the program as stated in the prime contract.

(3) Contractual instruments obligating funds covering calls issued under terms of requirements contracts (§ 1003.405-5(b) of this chapter), indefinite quantity contracts (§ 103.45–5(c) of this chapter), or call procurement arrangements (§ 1003.405–51 of this chapter).

(4) Contract change notifications issued according to Subpart C, Part 1054 of this chapter.

(5) Contractual instruments which obligate funds for provisioning items where the approved contract contained an item for provisioning spares, ground handling and support equipment, etc.

(n) Authorities vested in chiefs of AF foreign missions are likewise vested in AF sections of joint military missions.

(o) Requirements aggregating more than the dollar amount of the contracting authority delegated will not be broken down into more than one purchase transaction for the purpose of avoiding authority limitations.

(p) Authorities vested in Deputy Directors of Procurement and Production are likewise vested in Technical Associates performing procurement and production functions at comparable level.

5. In § 1001.457, a Note is added following paragraph (a)(1), as follows:

§ 1001.457 Authority to enter into, execute and approve contracts.

(a) * * *

(1) * * *

NOTE: Reference is made to paragraph 14, AFR 91-5 (Utility Services), concerning review of rate schedules, technical sufficiency, and contract content of utility contracts. The regulation pertains to responsibilities for review of rate schedules, technical sufficiency and contract only and does not pertain to or restrict contract approval authorities.

6. In § 1001.460, former paragraph (b) is deleted and a new paragraph (b) and (c) are inserted therein. Section 1001.460 now reads as follows:

§ 1001.460 Priorities authority; DO and DX ratings; allotments, and rescheduling deliveries.

(a) The Commander, AMC has been delegated authority as described below with respect to: (1) DO rating program, (2) DX rating program for contracts and orders identifiable to programs of the highest national priority, and (3) allotting and rescheduling deliveries. These authorities are to be exercised within the limits of such allocation determinations or other quantitative restrictions as may be established from time to time by proper authority (see § 1.307 of this title). Each person who redelegates the authority will maintain a record of such redelegation and limits placed thereon.

(i) Authority to apply or assign the right to apply DO and DX ratings to contracts and delivery orders to meet DOD programs authorized for priorities support by the Office of Civil and Defense Mobilization or designated by OCDM as eligible for priorities support through the Department of Defense.

(ii) Authority to apply or assign the right to apply DO and DX ratings to certain prime or subcontractors on orders for delivery of production equipment specifically required to support authorized programs of the Department of Defense or of such other specifically designated programs.

(iii) Authority to apply or assign the right to apply DO and DX ratings to certain contractors on orders for delivery of construction equipment for use on construction in Alaska, Hawaii, or outside the United States.

(iv) Authority to make allotments of controlled materials and to apply or assign to others the right to apply allotment numbers to ratable contracts and delivery orders within the allotment jurisdiction of the Department of Defense.

(v) Reschedule deliveries of materials which are required in support of the Aircraft (A1) program and the AF portion of the Missiles (A2) program. Such authority is limited to rescheduling deliveries on rated orders or authorized controlled materials orders which: (a) Bear the designated program identifications, and (b) were issued by or pursuant to the authority of the delegate, or, if not, that the rescheduling is requested or concurred in by the department or associated agency under whose authority they were issued. Rescheduling of delivery may be directed only if it requires no change in the production schedule of the person making the delivery.

(vi) Administer the DMS Audit Program of Selected Airframe and Aircraft Component Plants assigned to DOD under the Department of Defense—Department of Commerce Interagency Compliance Agreement.

(b) The Commander, AFLC and the Commander, AFSC have redelegated through their respective procurement (and production) directors the authority described in paragraph (a) (1) through (3) of this section to and through successive echelons of command to all contracting officers of the Air Force, including procuring and administrative contracting officers.

(c) The authorities to the Commander, AFSC, in paragraph (a) (4) through (6) of this section have been redelegated to the AFSC, Director of Procurement, and in turn to the Commander, AFSC Aeronautical Systems Division, with power of redelegation.

7. Sections 1001.461 and 1001.462 are revised to read as follows:

§ 1001.461 Contracts for public utility services extending beyond current fiscal year.

(a) *Contracts for power, gas, and water.* (1) The Commander, AFLC, has been authorized to enter into contracts for public utility services (power, gas, water) for periods extending beyond the current fiscal year but not exceeding 10 years, under one or more of the following circumstances:

(i) Where there are obtained lower rates, larger discounts, or more favorable conditions of service than those available under contracts the firm term of which would not extend beyond a current fiscal year.

(ii) Where connection or special facility charges payable under contracts the firm term of which would not extend beyond a current fiscal year are eliminated or reduced.

(iii) The utility refuses to render the desired service except under a contract the firm term of which extends beyond a current fiscal year.

(2) The authority described above has been delegated by the Commander, AFLC, to the Director and Deputy Directors of Procurement and Production, Hq AFLC.

(3) The statute authorizing definite term utility service contracts for periods not exceeding 10 years is 40 U.S.C. 481(a)(3). The statute as well as 10 U.S.C. 2304(a)(10) will be cited on all definite term utility service contracts extending beyond the current fiscal year.

NOTE: Indefinite term utility service contracts as contemplated in Subpart KK, Part 1007 of this chapter (which are in effect until terminated) do not impose any obligation on the Government except as the service is actually used and therefore, do not come within the purview of this section. Such contracts will be approved pursuant to §§ 1001.457 and 1007.3706 of this chapter and will cite only 10 U.S.C. 2304(a)(10) as statutory authority.

(b) *Contracts for communication services.* (1) The Commander, AFLC, has been authorized to enter into contracts for communication services for periods extending beyond the current fiscal year but not to exceed 10 years, under one or more of the following circumstances.

(i) When services are obtained from communication common carrier whose rates are regulated by a Federal, State, or other public regulatory body;

(ii) Where the services are obtained by competitive means from other than communication carriers and;

(a) Where there are obtained lower rates, larger discounts, or more favorable conditions of service than those available under contracts the firm term of which would not extend beyond a current fiscal year.

(b) Where nonrecurring or termination charges payable under contracts the firm term of which would not extend beyond a current fiscal year are eliminated or reduced.

(iii) The termination liability incurred by the contract, when added to the cumulative termination liabilities of existing contracts does not exceed the termination liability ceilings imposed by public law or departmental administrative procedures.

(2) The authority of the Commander, AFLC, as described in paragraph (b)(1) of this section has been delegated to the Director and Deputy Directors of Procurement and Production, Hq AFLC, with power of redelegation.

(3) The authority referred to in paragraph (b)(2) has been redelegated by the Director of Procurement and Production to the persons listed below:

(i) Commander, Air Force Communication Service, with respect to leased private line services and leased tactical on-base communication services, with power of redelegation to a major command staff officer responsible for procurement (not below the director of procurement within the major command headquarters).

(ii) Commander, ROAMA, with respect to initial installations and major modification of base support leased facilities, with power of redelegation to Commander, GEEIA, with further power of redelegation to the Commanders of the GEEIA regions.

(iii) Commanders of major air commands and commanders of air materiel areas, with respect to miscellaneous base services and facilities, commanders of major air commands and commanders of air materiel areas may redelegate to contracting officers of subordinate functions that portion of the above authority involving the procurement of miscellaneous base services and facilities under indefinite delivery contracts issued by AFLC (ROAMA) or GSA.

§ 1001.462 Approval of certain PRs and MIPRs.

(Applicable to AFLC only.)

(a) Commanders, AMAs, Dayton AF Depot, and 2709th AF Vehicle Control Group have been authorized by the Director of Procurement and Production, Hq AFLC, to sign PRs and MIPRs that are initiated within their procurement activity and are supported by production program funds administered by the procurement activity. The authority has been granted without limitation as to dollar amount involved. Further redelegation may be made as shown:

(1) Deputy commanders, during absences of the commander, without limitation as to dollar amount.

(2) Directors of procurement and production—PRs and MIPRs involving $1,000,000 or less.

(3) Contracting officers in the procurement activity—PRs and MIPRs involving $100,000 or less.

(b) Authority to sign PRs and MIPRs initiated within the Directorate of Procurement and Production, Hq AFLC, has been delegated to division chiefs without limitation as to dollar amount.

(c) Commander and deputy commander, air materiel forces have been authorized by the Director of Procurement and Production, Hq AFLC, with power of redelegation, to sign PRs and MIPRs without limitation as to dollar amount.

8. Section 1001.464 is revised to read as follows:

§ 1001.464 Delegation to Commander, Air Training Command.

In addition to the authorities delegated to him as a commander of a major air command, the Commander, ATC, has been authorized by the Director of Procurement and Production, Hq AFLC, to exercise the authorities described below. The authorities may be exercised only with respect to negotiated contracts for procurement of services described in AFR 50–9, administration of resulting contracts will be assigned to the appropriate APD/AFPRO of the AFSC CMR, and procurement of services for primary pilot training, resulting contracts will be administered according to § 1053.404–10(c).

(a) Authority to execute findings and determinations in support of cost or cost-plus-a-fixed-fee type contracts, provided facts have been obtained which established that:

(1) Such method of contracting is likely to be less costly than other methods.

(2) It is impracticable to secure services of the kind or quality required without the use of such type contract.

(i) The authority may be redelegated only to the staff officer responsible for procurement within Hq ATC, provided further that the authority may not be exercised by any person who is or will be the contracting officer for the procurements involved.

(b) Authority to authorize ATC contracting officers to enter into contracts containing any of the price redetermination clauses set forth in § 1003.403–3 of this chapter, provided facts have been obtained which establish that:

(1) It is impractical to secure services of the kind or quality required without the use of such a price redetermination clause.

(2) The conditions for use of the price redetermination clauses which are set forth in pertinent paragraphs of § 1003.403–3 of this chapter, have been satisfied. The authority may be redelegated only to the staff officer responsible for procurement within Hq ATC.

(c) Authority to authorize ATC contracting officers to enter into master bailment agreements, bailment agreement, and amendments thereto for loaning Government property to AF contractors for some specific purpose in connection with AF contracts when it has been determined that:

(1) The bailment is necessary in the interest of the national defense.

(2) It will not adversely affect the competitive aspect of procurement.

(3) The property is not available to the contractor in the open market within the time requirements of the Force.

(i) The authority may be redelegated not below the level of a staff officer responsible for procurement in the echelon of command immediately subordinate to Hq ATC.

§§ 1001.480 to 1001.480–2 [Deleted]

9. Sections 1001.480 to 1001.480–2 deleted.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012, interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

Subpart F—Debarred, Ineligible, Suspended Bidders

1. Section 1001.604 is revised to read as follows:

§ 1001.604 Causes and conditions under which departments may debar contractors.

Fully substantiated recommendations for debarment of firms or individuals should be submitted to AMC (MCPP) for review and appropriate action. AMC will recommend to DCS/M, Hq USAF, action to be taken. Consideration will be given to provisions of § 1.606 of this title.

2. Sections 1001.605–1 and 1001.605–2 are added as follows:

§ 1001.605–1 Causes and conditions under which departments may suspend contractors.

See § 1.605–1 of this title.

§ 1001.605–2 Period of suspension.

See § 1.605–2 of this title.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012, interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

Subpart G—Small Business Concerns

1. Section 1001.704–3 is revised to read as follows:

§ 1001.704–3 Small business specialists.

Small business specialists are assigned to AMC field procurement activities, AMC contract management regions, AF procurement districts or AFPRO's, AF procurement offices, ARDC centers and divisions, AF development field offices designated by Hq ARDC, and base procurement activities of all major commands in the United States. The chiefs of the small business offices at these field procurement activities will be appointed in writing by the head of the purchasing activity. The chiefs of small business offices at AMC contract management regions will be appointed in writing by the commander of the region. The chiefs of small business offices at APD's will be appointed in writing by the chief of the APD. The chief of the air procurement office will designate an individual as the small business specialist to carry out small business functions assigned to the office. The chiefs of small business offices that may be established in AFPRO's will be appointed in writing by the AFPR. Small business specialists assigned to ARDC centers and divisions will be appointed in writing by the center or division director of procurement. Small business specialists assigned to AF development field offices will be appointed in writing by the Director of Procurement, Hq ARDC. Small business specialists will be appointed by the head of the purchasing office of each base procurement activity of all major commands within the scope of this subpart, other than AMC and ARDC. Small business specialists will be responsible directly to the appointing authority, serve as advisors to the appointing authority on matters pertaining to small business, and be the focal point within the installations to which they are assigned on matters pertaining to small business. In addition to performing functions as indicated in paragraphs (a) through (f) of this section, small business specialists assigned to purchasing offices will review any reports, including DD Form 350, "Individual Procurement Action Report," concerning small business which originate in the purchasing office prior to submission of the reports to Hq AMC.

(a) *AFLC procurement activities and AFSC systems divisions.* PR–MIPR control offices will furnish a copy of all purchase requests (PRs) to the small business specialist simultaneously with the release of the PR to the buyer (See AFLCM 170–1). The small business specialist will assure that the following procedures are applied to individual procurement actions when the procurement is to be negotiated and is expected to involve an expenditure of $2,500 or more or the procurement is to be formally advertised and is expected to involve an expenditure of $10,000 or more.

(1) Procurement personnel will notify the small business specialists if, prior to the initiation of purchase requests, planning conferences are held for the purpose of considering potential sources for future procurements. At such discussions, potential sources suggested by the small business specialist will be given the same consideration as other potential sources that may be considered.

(2) Buyers will coordinate with the small business specialist prior to the preparation of IFBs or RFPs. The buyer will furnish the small business specialist with a copy of the appropriate bidders mailing list. To assure that small concerns will be given adequate consideration (see § 1.702 of this title), the small business specialist may make recommendations concerning the procurement plan and will add names of small concerns to be solicited if he considers it is necessary. If an SBA representative has been assigned to the installation and has notified the small business specialist that he may wish to make recommendations in connection with the particular procurement under consideration, he may participate if available at the time of the coordination conference and will be furnished all available information upon which to base recommendations.

(3) AFPI Form 46, "Small Business Office Procurement Record," will be completed and signed by the buyer and the small business specialist as evidence that coordination has been accomplished. The description of the supplies or services being procured will be entered in item 3, AFPI Form 46, when the procurement is to be synopsized (see § 1.1003 of this title). On such procurements a copy of AFPI Form 46 will be furnished to the unit responsible for transmittal of such information to the Department of Commerce. A signed copy of AFPI Form 46 will be furnished to the buyer and will become a permanent part of the procurement file for the information of authorities responsible for review and approval of contracts. Small business office records are filed by PR number rather than IFB/RFP number or contract number and AFPI Form 46C, "Small Business Cross Reference Card," will be used as a cross reference file.

(4) If circumstances develop following this coordination meeting, but prior to the award of the contract, which make it necessary to deviate from the coordinated procurement plan the buyer will notify the small business specialist. If the small business specialist and the buyer do not reach agreement as to the method of handling the procurement at the coordination meeting, or if they can not agree to a deviation subsequently proposed by the buyer, a decision by the Director of Contract Support, AMCASC, or by the director of procurement/production at other AMC field procurement activities will be final.

(5) A copy of the abstract of bids or proposals will be furnished to the small business specialist and will serve as a guide in handling future procurements for the same supplies or services.

(6) When award is to be made based on an engineering or laboratory evaluation such evaluation will be made available for the information of the small business specialist.

(b) *AMC contract management regions.* Small business specialists assigned to AMC contract management regions will:

(1) Exercise staff supervision over small business functions assigned to APD's and AFPRO's under the jurisdiction of the region.

(2) Keep the commander of the CMR advised as to the effectiveness of the APD's and AFPRO's in their conduct of assigned small business functions.

(3) Advise the commander of the CMR as to the impact of small business policies formulated by higher authority within DOD. He will also advise the commander of the effect on the over-all mission of the CMR of small business policies and procedures established by other Government agencies.

(4) Provide guidance and assistance to contractors and contractor's representatives on problems relative to doing business with the Air Force.

(5) Represent the commander in relations with other Government agencies and civic organizations concerned with small business.

(6) Carry out assigned responsibilities and monifor, for the Commander, DOD Industrial Assistance Events Program insofar as requests for exhibits or conferences are received from organizations within the boundaries of the region.

(c) *Air procurement districts and AF plant representatives offices.* Small business specialists assigned to APD's and AFPRO's will perform functions which will include the following:

(1) Advising the chief of the APD or the AFPR directly on all small business matters, and reporting directly to the chief or the AFPR any instances in which it appears a small concern is not receiving equitable treatment.

(2) Maintaining liaison with other Federal, State, and local agencies and civic organizations with respect to small business matters.

(3) Surveillance of Defense Subcontracting Small Business Programs which have been established by contractors within the geographical boundaries of the APD or the AFPRO (see §§ 1001.707–3 and 1001.707–4). The small business specialist will assist contractors in establishing as a part of their purchasing system as Air Force-Industry Small Business Program as described in § 1001.707–50.

(4) Keeping current data on the existance and capabilities of small business concerns and on the subcontracting requirements of large defense prime contractors and major subcontractors within the boundaries of the APD or AFPRO. Such data will be made available to PCO's when advice and assistance is requested in connection with a contractor's "make or buy" program. See § 1003.902, AFPI Form 84, "Facilities Data Record" (marginal punched card), is authorized for use in maintaining the necessary data.

(5) Assisting small concerns to participate either as prime contractors or subcontractors in AF procurement. In this connection the small business specialist will process applications for bidders mailing list according to § 1016.810–50 of this chapter, and maintain information on current procurements (IFBs and RFPs).

(6) Coordination on requests for facilities expansion. (See § 1013.2402(n) of this chapter.)

(7) Participate in FCR review board meetings when an FCR on a small business concern is under consideration.

(8) Carry out assigned responsibilities in connection with DOD Industrial Assistance Events Program.

(d) *Air procurement offices.* Small business specialists assigned to APO's will carry out the small business functions that are assigned to the office.

(e) *ARDC.* Small business specialists assigned to ARDC divisions, centers and AF development field offices will carry out procedures established by HQ ARDC in implementation of AF small business policy.

(f) *Base procurement offices.* Small business specialists assigned to base procurement activities will carry out procedures established by their command headquarters in implementation of AF small business policy and will be the focal point within the installation for matters pertaining to small business.

2. In § 1001.706–5, paragraph (a)(1) is amended, on line 14, to change "two" to "one." Paragraph (a)(1) now reads as follows:

§ 1001.706–5 Total set-asides.

(a)(1) *Central procurement.* As to central procurement (distinguished from base procurement) which is accom-

plished at AMC field procurement activities, every procurement will be set aside either totally or partially for competition solely among small business concerns if records of previous procurements for the same item or the same service disclose that three or more small business concerns submitted responsive bids that were considered fair and reasonable. However, a partial set-aside may be appropriate where only one small business concern appears to have the technical competence and productive capacity to furnish a portion of the procurement (see § 1.706–6(a) of this title). Deviations from this policy may be approved in specific cases at AMC centers by the chief of the division responsible for the procurement or his designee. At other AMC field procurement activities, deviations may be approved in specific cases by the director of procurement and production or his designee. The procurement file will contain a record of the approval of such deviation.

3. Section 1001.707 is revised to read as follows:

§ 1001.707 Subcontracting with small business and labor surplus area concerns.

4. The heading of § 1001.707–3 is amended, and paragraphs (a) through (f) are deleted. Section 1001.707–3 now reads as follows:

§ 1001.707–3 Defense subcontracting in small business and labor surplus area programs.

Small business specialists at APDs and AFPROs will maintain current information as to contractors within the geographical boundaries of the APD/AFPRO whose contracts contain the clause set forth in § 7.104–22 of this title.

5. Section 1001.707–5 is added as follows:

§ 1001.707–5 Reports on DD Form 1140.

When a contractor has established a "Defense Subcontracting Small Business and Labor Surplus Area Program" according to § 1.707–3 of this title, and it has been determined according to § 1.707–4 of this title and § 1001.707–4 that the Air Force has responsibility for reviewing the contractor's program, the small business specialist in the appropriate APD or AFPRO will make reporting arrangements with the contractor, i.e., for the submission of semiannual reports on DD Form 1140, "Semiannual Report of Participating Companies" (Budget Bureau No. 22–R163.3, expires December 31, 1964) through the ACO to the small business specialist. The small business specialist will enter in the space between the form number and the general instructions on the face of all DD Forms 1140, the three digit Department of Defense procurement (claimant) code (see § 1016.901–50 of this chapter) of the principal kind of military items or services being supplied by the reporting unit. After assuring the completeness of the reports, three copies of the completed DD Form 1140 received from each reporting unit will be forwarded by the APD or AFPRO to AFSC (SCMK–2). The July through December 6-month report will be forwarded to reach Hq AFSC no later than March 5th and the January through June 6-month report will be forwarded to reach Hq AFSC no later than September 5th. AFSC (SCMK–2) will assign each reporting contractor a permanent reporting unit identification number to be entered in item 6a, DD Form 1140 prior to the submission of the report to Hq AFSC.

6. Section 1001.708 is added as follows:

§ 1001.708 Mobilization planning.

See § 1.708 of this title.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

Subpart H—Labor Surplus Area Concerns

Subpart H is revised to read as follows:

Sec.
1001.800 Scope of subpart.
1001.801 Definitions.
1001.801–1 Labor surplus area concern.
1001.801–2 Labor surplus area.
1001.801–3 Small business concern.
1001.802 General policy.
1001.803 Application of policy.
1001.804 Partial set-asides for labor surplus area concerns.
1001.804–1 General.
1001.804–2 Set-aside procedures.
1001.804–3 Withdrawal of set-asides.
1001.804–4 Contract authority.
1001.805 Subcontracting.
1001.805–1 General policy.
1001.805–2 Required clause.
1001.806 Depressed industries.
1001.806–1 General.
1001.806–2 Apparel industry (notification No. 53).
1001.806–3 Petroleum and petroleum products industry (notification No. 58).
1001.806–4 Shipbuilding industry (notification No. 57).
1001.806–5 Textile industry (notification No. 38).

AUTHORITY: §§ 1001.800 to 1001.806–5 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 1001.800 Scope of subpart.

See § 1.800 of this title.

§ 1001.801 Definitions.

§ 1001.801–1 Labor surplus area concern.

See § 1.801–1 of this title.

§ 1001.801–2 Labor surplus area.

See § 1.801–2 of this title.

§ 1001.801–3 Small business concern.

See § 1.801–3 of this title.

§ 1001.802 General policy.

The Executive for Small Business (MCP–6), Directorate of Procurement and Production, Hq AMC, will monitor the placement of contracts in areas of substantial labor surplus by maintaining staff surveillance of the functions of purchasing activities within the scope of this subpart. The AF small business specialist at the procuring [illegible] be responsible for determining the applicability of DMP No. 4 to a [illegible] ment.

§ 1001.803 Application of policy.

(a) (1) and (2). See § 1.803(a) (1) (2) of this title.

(3) "Area Labor Market" which establishes the boundaries of labor market area and lists [illegible] included in each area are [illegible] the Department of Labor.

(4) See § 1.803(a)(4) of this title.

(5) Prior to the solicitation for or proposals, the contracting [illegible] furnish the AF small specialist [illegible] to the purchasing activity a copy of appropriate bidders mailing list. AF small business specialist [illegible] the purchasing activity is responsible maintaining current labor market formation. The small business specialist will indicate on the bidders mailing list, for use in solicitation and documentation of the contract file, the concerns listed that are labor area concerns.

(6) See § 1.803(a)(6) of this title.

(b) See § 1.803(b) of this title.

§ 1001.804 Partial set-asides for labor surplus area concerns.

§ 1001.804–1 General.

Notwithstanding the determination the small business specialist [illegible] the applicability of DMP No. 4 to a procurement, the contracting officer is responsible for determining whether application of a set-aside is appropriate and, if appropriate, determining quantities to be set aside.

§ 1001.804–2 Set-aside procedures.

See § 1.804–2 of this title.

§ 1101.804–3 Withdrawal of set-asides.

See § 1.804–3 of this title.

§ 1001.804–4 Contract authority.

See § 1.804–4 of this title.

§ 1001.805 Subcontracting.

See § 1.805 of this title.

§ 1001.805–1 General policy.

See § 1.805–1 of this title.

§ 1001.805–2 Required clause.

See § 1.805–2 of this title.

§ 1001.806 Depressed industries.

§ 1001.806–1 General.

See § 1.806–1 of this title.

§ 1001.806–2 Apparel industry (notification No. 53).

See § 1.806–2 of this title.

§ 1001.806–3 Petroleum and petroleum products industry (notification No. 58).

See § 1.806–3 of this title.

§ 1001.806–4 Shipbuilding industry (notification No. 57).

See § 1.806–4 of this title.

§ 1001.806–5 Textile industry (notification No. 38).

See § 1.806–5 of this title.

Subpart I—Responsible Prospective Contractors

A new Subpart I is added as follows:

Sec.
1001.900 Scope of subpart.
1001.901 Applicability.
1001.902 General policy.
1001.902–1 General requirements for obtaining FCR.
1001.902–2 Exemptions.
1001.902–3 Financial clearance.
1001.903 Minimum standards for responsible prospective contractors.
1001.903–1 General standards.
1001.903–2 Additional standards for production, construction, and research and development contracts.
1001.903–3 Ability to meet certain minimum standards.
1001.903–4 Affiliated concerns.
1001.904 Determinations of responsibility and nonresponsibility.
1001.904–1 Requirement.
1001.904–2 Exceptions.
1001.905 Procedures for determining responsibility of prospective contractors.
1001.905–1 General.
1001.905–3 When information will be obtained.
1001.905–3 Sources of information.
1001.905–4 Pre-award surveys.
1001.906 Subcontractor responsibility.
1001.907 Disclosure of pre-award data.
1001.909 Small business procedures.
1001.951 Procedures for special source surveys.
1001.952 Optional special source survey procedures.

AUTHORITY: §§ 1001.900 to 1001.952 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 1001.900 Scope of subpart.

See § 1.900 of this title.

§ 1001.901 Applicability.

See § 1.901 of this title.

§ 1001.902 General policy.

See § 1.902 of this title.

(a) AFR 80–3 (System Source Selection Procedures) describes the workings of the Systems Source Selection Board (SSSB).

(b) A Special Source Survey (SSS) is a preaward survey used to check the production potential of a prospective contractor under circumstances not fully covered by a Facility Capability Report (FCR) where the Systems Source Selection Board procedures are not appropriate. A SSS may be requested by staff elements of Hq AFSC, AFSC field and base procurement activities, divisions and regional offices, major air commands or separate activities, and Hq USAF. A survey may be requested if:

(1) The size of the proposed procurement is substantially greater than the current or past production level of a potential source and unusual build-up in contractor organization may be required.

(2) The complexity of the proposed procurement indicates the need for a detailed survey of subcontracting, required skills, production capability, quality, manufacturing methods, etc.

(3) The record of the company in production, cost, finances, or management indicates the need for extensive examination by specialists.

(4) Abnormal circumstances prevail and the PCO will be materially assisted by an appraisal of bids or proposals.

(5) A survey is needed to verify the adequacy of a bid or proposal.

(6) Information is needed to compare the production capability of two or more facilities or the capacity and capability of an industry to meet a specific program.

(7) The potential source will be required to produce items substantially different from those it has produced in the past.

(8) Existing information indicates the need for a survey. (See § 1001.951 for procedures.)

(c) Experience Data Report (EDR) is a report of the history of recent experience with a particular prospective contractor. If a complete FCR is not required by § 1001.902–1, a contracting officer may request an EDR for a procurement within the United States. Experience data supplied to a contracting officer by means of an EDR is for his use in making a determination regarding a prospective contractor's responsibility. It does not constitute a recommendation by the supplying activity. (See § 1001.905–1(b).)

(d) A Facility Capability Report (FCR) is an instrument for reporting information to a contracting officer regarding the responsibility of a prospective contractor. See § 1001.905 for procedures. An FCR may be based upon a search of available records or upon a preaward survey. (See § 1.905–4 of this title.) The FCR activity will determine whether information available in its files is adequate or whether a preaward survey is necessary. "FCR activity" referred to in this subpart includes the air procurement district, air procurement office, Air Force plant officer in charge, and Air Force plant representative, as applicable.

(e) Each foreign central procurement activity will establish an internal system for gathering information regarding a prospective contractor's responsibility when the procurement is to be made outside the United States. The system should be patterned after the FCR system as closely as practicable.

(f) The Industrial Resources Division (ASXR) AFSC WPAFB, Ohio, has staff surveillance over compliance with this subpart. A "Directory of Facility Capability Reports Contacts" showing the geographical area of FCR activities will be sent to buying activities upon request to ASXR. AFPI Forms referred to in this subpart are described in Subpart I, Part 1016 of this chapter. RCS: AFSC–N32 authorizes all reports required by this subpart.

§ 1001.902–1 General requirements for obtaining FCR.

(a) Unless exempt under § 1001.902–2 a complete FCR is required when award of a new contract or supplement to an existing contract for an initial or additional quantity of supplies or services will exceed $20,000 or if the contract or order to be issued by the Air Force is for maintenance, repair, or overhaul of aircraft or airborne equipment (excluding missile equipment) including aircraft instruments; or to be placed by airframe contractors with commercial facilities under the provisions of paragraph 5a(1)(a), AFLCR 65–19, for the maintenance, repair, or overhaul of GFAE airborne equipment. (See § 1001.902–3.)

(b) The exemptions in § 1001.902–2 do not apply and a complete FCR is required if:

(1) The prospective contractor is on the Financial Control List (§ 1060.5, paragraph E–212(c) of this chapter).

(2) A price-redeterminable or cost-reimbursement type contract is contemplated.

(3) There is doubt as to the prospective contractor's ability to perform.

(c) In the case of a small business concern, a complete FCR is required prior to forwarding a finding of nonresponsibility to SBA with respect to a proposed award of $10,000 or more. (See §§ 1001.904–1(a)(4) and 1001.950.)

(d) A contracting officer may request an FCR to determine the responsibility of any proposed contractor on a procurement of any size. However, when requesting a complete FCR on a procurement estimated to be less than $20,000 and one of the conditions stated in paragraph (b)(1), (b)(2) or (c) of this section is not present, the following factors should be considered: (1) Cost of an FCR (estimated average of $50), (2) dollar value of procurement, and (3) critical nature of the item being procured. If a contracting officer requests an FCR on a procurement of less than $20,000 or on any procurement for which an FCR is not otherwise required, he will indicate the need therefor in Item 21 of AFPI Form 63, "Request for Facility Capability Report." A copy of the request will be placed in the contract file as documentation. If the request is made because one of the conditions outlined in paragraph (b) or (c) of this section is present, a brief description of the condition will suffice. If the FCR is required by command procedures as authorized by paragraph (e) of this section, an appropriate statement will be made.

(e) Regardless of the dollar amount of the procurement or exceptions outlined in § 1001.902–2, an FCR may be required by purchasing activities, if deemed necessary because of the critical nature of the item or service, peculiar nature of the procurement, or past experience of the command. Such requirements will be issued in the form of AFPI Supplements. (See § 1001.108.)

(f) A contracting officer may request a complete FCR only when an award is contemplated to a firm from which a bid or proposal has been received or to which an award of a letter contract is contemplated. Concurrent requests for complete FCRs on the same procurement will not be made. An FCR will first be requested on the lowest responsive bidder. Successive requests will be made only after a negative reply to the last request is received. A negative FCR on a small business firm requires special handling and compliance with §§ 1001.–904–1(a)(4) and 1001.950.

(g) Before awarding a contract on the basis of an FCR more than 60 days old, a contracting officer must confirm its validity with the preparing office and

record the confirmation in the contract file.

§ 1001.902–2 Exemptions.

(See § 1001.902–3.) Subject to § 1001.902–1(b), an FCR is not required for the following:

(a) Definitive contracts which supersede letter contracts or notices of award previously covered by an FCR.

(b) Contracts placed pursuant to a Hq USAF approved production program contained in the "W" series program directives (WA, WM, WTD, and WE).

(c) Contracts placed pursuant to recommendations made by a SSS not older than 60 days.

(d) Procurement outside United States and contracts with Canadian Commercial Corporation.

(e) Base procurements up to $500,000 within United States if not to be supported by Government financing. (See Part 163, Subchapter E of this title.)

(f) A facilities contract supporting one or more supply or service contracts containing a facilities clause.

(g) The following contracts or purchases, except as required by § 1001.902–1(b).

(1) Purchases from Schedule of Blind-Made Products, Federal Supply Schedules, Government departments, and Federal prisons.

(2) Purchases of standard commercial articles or basic materials, such as sheet aluminum, bar steel, etc., from manufacturers of, or regular dealers in, the articles to be purchased.

(3) Purchases of books, periodicals, and subscriptions to magazines, except class 30 procurements.

(4) Personal services or professional services contracts negotiated under authority of Public Law 79–600.

(5) Contracts written under authority of Public Law 85–804 which make formal informal commitments, amend without consideration, or correct mistakes.

(6) Open contracts and call procurement arrangements (§§ 1003.405–50 and 1003.405–51). (Financial clearance required—see § 1001.902–3.)

(7) Procurements from the surplus market where the vendor has authority to dispose of the merchandise.

(8) Construction contracts up to $500,000.

§ 1001.902–3 Financial clearance.

Financial clearance is required prior to award of a contract described in § 1001.902–2(g)(6). If a complete FCR is not obtained for any reason, financial clearance is required prior to award of any contract if the prospective contractor requests advance payments or unusual progress payments. (See Part 163, Subchapter E of this title.) Financial clearance may be given by the FCR activity for any contractor on the approved "Prior Financial Clearance List," within the limits outlined in the list, unless (a) The prospective contractor has requested advanced payments or unusual progress payments or, (b) if, in the opinion of the FCR activity, or the contracting officer, as indicated in his request for an FCR, the proposed contract might impose a serious burden on the contractor's ability to perform. (See paragraph E–212.52, § 1030.5 of this chapter.) Contracting officers may request financial clearance from the FCR activity having contract administration jurisdiction or from AFSC (ASXKMF), WPAFB, Ohio, whichever is nearer. To obtain financial clearance, indicate on the request for FCR "Financial Clearance Only" and include answers to items 6 through 13 of AFPI Form 63. Items 14 through 20 will be marked "N/A" (not applicable) if such is the case. If the clearance is granted by other than ASXKMF, the activity granting the clearance will furnish a completed AFPI Form 63C, "FCR Financial Action Summary," to ASXKMF. AFPI Form 63C is required for every FCR except when financial clearance is given pursuant to the authority of the "Prior Financial Clearance List." See question two under § 1001.905–1(a).

§ 1001.903 Minimum standards for responsible prospective contractors.

§ 1001.903–1 General standards.

See § 1.903–1 of this title.

§ 1001.903–2 Additional standards for production, construction, and research and development contracts.

See § 1.903–2 of this title.

§ 1001.903–3 Ability to meet certain minimum standards.

See § 1.903–3 of this title.

§ 1001.903–4 Affiliated concerns.

See § 1.903–4 of this title.

§ 1001.904 Determinations of responsibility and nonresponsibility.

§ 1001.904–1 Requirement.

See § 1.904–1 of this title.

(a) *Financial and technical ability clauses.* (1) Include the following clause in all invitations for bid or requests for proposal estimated to involve a procurement of $10,000 or more:

(Nov. 1961)

If a bid or proposal submitted in response to this invitation is favorably considered, a survey team may contact your facility to determine your ability to perform. Current financial statements and other pertinent data should be available at that time if not already on file with the Air Force Systems Command. The team may also evaluate your system for determining the financial and technical ability of your proposed subcontract or procurement sources to perform. Examples of the type of matters the survey team may examine and evaluate are:

1. Past experience with firm (if any).
2. Financial condition.
3. Accounting system.
4. Facilities.
5. Plant loading.
6. Production control system.
7. Materiel control system.
8. Ability to meet required delivery schedule.
9. Receiving and inspection system.
10. Purchasing and subcontracting systems.
11. Quality control system.
12. Apparent understanding of specification requirements.
13. Realism of lead time estimates.
14. Scrap and rework control procedures.
15. Packing and shipping procedures.
16. Facilities and procedures for [illegible] and handling Government-[illegible] erty.
17. General housekeeping.
18. Manpower availability and [illegible] tions.
19. Engineering capability.
20. Management controls.
21. Any other areas pertinent to [illegible] performance of the prospective contract.

(2) Include the following clause [illegible] invitations for bids or request for [illegible] posals estimated to involve a [illegible] ment of less than $10,000:

(Nov. 1961)

If a bid or proposal submitted in [illegible] to this invitation is favorably [illegible] survey team may contact your [illegible] determine your ability to perform. [illegible] financial statements and other [illegible] should be available at that time if not [illegible] on file with the Air Force Systems [illegible] mand. The team may also evaluate [illegible] system for determining the [illegible] technical ability of your proposed [illegible] tract or procurement sources to [illegible]

(3) The PCO shall make, sign [illegible] place in the contract file the [illegible] determination required by § 1.904–1 [illegible] this title. Except as provided in [illegible] paragraph (4) of this paragraph, [illegible] FCR, SSS or SSSB recommendation [illegible] constitute sufficient basis for either [illegible] affirmative or negative finding by a [illegible] tracting officer. See also § 1001.[illegible] (c). The FCR, SSS or SSSB report [illegible] supporting data made will be attached [illegible] the determination. If additional [illegible] planation of an FCR is required, the [illegible] will request the FCR activity to furnish [illegible] any data he requires before making [illegible] determination. If the PCO is aware [illegible] factors that may not have been [illegible] sidered by the FCR activity, he may [illegible] quest a review of the FCR in the light [illegible] such information before making a [illegible] termination. The FCR serial number [illegible] furnished by the FCR activity will be [illegible] shown on the contract file cover sheet. [illegible] If an FCR was not required "FCR not [illegible] required" with the specific supporting [illegible] AFPI paragraph relied upon will be [illegible] shown on the contract file cover sheet.

(4) Negative FCR, SSS, or SSSB [illegible] ommendation with respect to "[illegible]" or "credit" of a small business concern [illegible] (§ 1.701 of this title) require special [illegible] dling. See § 1.705–6 of this title. [illegible] also §§ 1001.705–6, 1001.902–1(c), and 1001.950.) The fact that the SBA has issued a Certificate of Competency as to the capacity or credit of a small business concern does not relieve the contracting officer from the responsibility for ascertaining that the prospective contractor is responsible as to the other factors of responsibility, i.e. questions Three, Five and Six of the FCR as applicable. (See § 1001.905–1(a).) Certificates of Competency will be placed in the contract file.

(b) *Requesting the FCR.* (1) [illegible] AFPI Form 63 "Request for Facilities Capability Report." Identify each [illegible] information and answer questions [illegible] through 13. If items 14 through 20 are not applicable mark N/A thereon. Use the mails to the greatest extent possible. Original and five copies of AFPI Form [illegible] will be forwarded when the mails are used. Urgent requests may be [illegible]

[illegible] or by other rapid means. If [illegible] proposed contract for aircraft or engine [illegible] maintenance or modification is involved, [illegible] an information copy to the appropriate logistic support manager (LSM), [illegible] manager (IM), or special repair activity (SRA). Make requests directly to the FCR activity that has contract administrative responsibility over the plant in which the work will be done. (See § 1001.902(e).)

(c) The contracting officer will airmail a complete IFB/RFP set to the FCR activity prior to or concurrently with the FCR request if the IFB/RFP has not been synopsized. If the FCR activity requires a bid set to perform an FCR, and one is not available pursuant to this paragraph, the activity must request it from the contracting officer within 1 work day after receipt of the request for FCR. Requests for bid sets will be made by telephone or other rapid means. When bid sets are requested by an FCR activity, the contracting officer will furnish the material required by air mail and will identify in the covering letter or on the top sheet of the bid set, the FCR request and the PR number to which the material relates and, in addition, will stamp "PRIORITY-FCR" in prominent letters thereon.

(d) *Replying to requests for FCR.* Every FCR will have a serial number assigned by the FCR activity. See description of AFPI Form 63A, "Facility Capability Report Register," in § 1016.-[illegible](a)(2) of this chapter. An FCR will be forwarded within 5 work days after receipt of a request or within 5 work days after receipt of the bid set if it was necessary to request a set pursuant to paragraph (b)(2) of this section. In exceptional cases, if more time is required, an interim reply will be sent giving the date of final reply and the reason for the delay. An FCR will be sent by telephone or other rapid means. Telephone replies will be confirmed in writing immediately. If the information required is lengthy, a short form response may be sent by rapid means and the details furnished immediately in a confirming letter. "PRIORITY-FCR" will be stamped on all confirmations, FCRs, covering letters, and outside envelopes.

§ 1001.904–2 Exceptions.

See § 1.904–2 of this title.

§ 1001.905 Procedures for determining responsibility of prospective contractors.

§ 1001.905–1 General.

(a) See § 1.902(d) of this title and § 1001.902(d) of this chapter. A complete FCR consists of answers to the following questions, as applicable. Replies will be either "affirmative," "negative," or "qualified." A "qualified" reply is an "affirmative" subject to certain conditions being met. "Qualified" replies must indicate clearly the action necessary, and the activity responsible, to satisfy the conditions. If the conditions are not met, the reply will be considered negative. Negative or qualified answers must explain the negation or qualification. Replies will be arranged in the same order as the questions and will be identified by the question number.

(1) One: Is the prospective contractor considered capable of performing the proposed contract taking into consideration:

(i) Facilities: The required quality and quantity of machine tools, production and test equipment, manufacturing and warehouse areas, and material handling devices necessary to complete the work or ability to obtain them. (See § 1.903–3 of this title.) When the IFB/RFP states that Government facility support will be available, the extent of such support must be determined. A dollar estimate of facility support required should be indicated when applicable.

(ii) Production and engineering capabilities: The necessary experience and organization to perform present and projected production and engineering load. An understanding of the production and engineering specifications. Proper alignment of available facilities.

(iii) The delivery schedule: The backlog and anticipated workload measured against the planned maximum capacity required during the performance period. Past and current record of meeting delivery schedules insofar as related to any factor under questions One or Two of the FCR. On advertised procurements see § 1.305–4 of this title. If the bid is responsive to the IFB delivery requirements, and the bidder is deemed capable of meeting the delivery terms offered in his bid, the answer should be affirmative. If a bidder cannot meet his proposed schedule but can deliver within the required schedule, a qualified answer should be given and the contracting officer notified of that fact. If it is determined that a bidder cannot meet the required schedule, the answer should be negative.

(iv) Availability of material: Ability to obtain and maintain the necessary inventory of supplies and component parts. Planned sources for purchase of materials, component parts, and services, including subcontracting, required to support the proposed contract. Adequacy of system for determining technical and financial ability of subcontractor's procurement sources to perform. (See § 1.906 of this title.)

(v) Availability of manpower: The quantity and quality of labor requirements. The necessary organization and management controls.

(vi) Quality control capabilities: The necessary experience, organization and technical qualifications to provide and maintain an adequate system for control of quality for manufacturing, supplying, or overhauling the items called for. Thoroughly understanding the specifications and contract requirements for inspection, test, and control of quantity throughout purchasing, subcontracting, production, storage, shipment, and maintenance. The contractor must demonstrate a sound management approach to the control of quality and experiences sufficient to indicate a capability to perform satisfactorily on the proposed contract. This includes the contractor's responsibility for GFAE and GFP.

(2) Two: Does the prospective contractor have sufficient financial stability to perform the contract?

(i) See Part 163, Subchapter E of this title and § 1001.902–3.

(ii) If Government financial assistance in the form of a loan guarantee, unusual progress payments, or advance payment will enable the contractor to perform state: "Yes, if (guaranteed loan) (progress payments * * * percent of incurred costs) (advance payments) are provided by the Government," and route to AFSC (ASXKM) WPAFB, Ohio for obtaining of necessary approvals. If the name of the prospective contractor is on the Financial Control List (see paragraph E–216, § 1030.5 of this chapter) and if, in the opinion of the activity performing the FCR, the contractor is able to perform under the proposed contract, issue a qualified clearance as follows: "Yes, subject to approval by AFSC (ASXKM) WPAFB, Ohio."

(iii) If the prospective contractor requests customary progress payments (see Part 163, Subchapter E of this title) and is otherwise entitled to a financial clearance, the answer to question "Two" will be "Yes."

(iv) Send a copy of the completed AFPI Form 63C with case history if necessary to explain the answer regarding financial stability to AFSC (ASXKM) WPAFB, Ohio, at time of reply. If the answer to question Two is negative or qualified, send an information copy of the complete FCR to ASXKM with an air mail letter of explanation with supporting data and facility advisory board findings and recommendations. Send a copy of the letter without attachments to the contracting officer.

(3) Three: Are the business practices of the prospective contractor considered satisfactory?

(i) Cooperation with FCR team (see Comptroller General Decision 145350—May 5, 1961).

(ii) Attitude toward commitments.

(iii) Actual performance as to quality and delivery on previous or current Government contracts to the extent that such performance reflects factors other than "capacity" or "credit." (See note below.)

(iv) An apparent ability to conform to the requirements of the standard nondiscrimination clause (§ 12.802 of this title).

(v) If the proposed contract is for manufacture, supplies, or construction, indicate whether the bidder is a manufacturer, regular dealer, or construction contractor. (§§ 1.201–9 and 1.903–1 of this title.)

(vi) Is otherwise qualified and eligible for award under applicable laws and regulations not considered under the other five questions of the FCR.

(vii) See § 1.903–1(e) of this title.

NOTE: If the reply to question Three is negative, identify the deficiencies and furnish a complete explanation. Performance as to quality or delivery on previous or current Government contracts related to "capacity" or "credit" as defined in § 1.705–6 of this title is considered under questions One and Two of the FCR and is subject to certification of

competency by the SBA in the case of a small business concern.

(4) Four: What percentage of subcontracting is contemplated for production of, or work upon, each item, component, or assembly called for by the IFB/RFP? Show the percentage of subcontracting contemplated as a percent of the contract price. In the case of a letter contract furnish an estimate. If the percentage differs substantially from that indicated in the request for FCR, submit the facts to support the findings or estimate. Show separately the percentage of subcontracting to be performed by a parent, subsidiary or other affiliate of the prospective contractor.

(5) Five: Is the prospective contractor's accounting system adequate for administration of the type of contract proposed or if progress or advance payments are requested? See Subpart D, Part 3 and Part 163, Subchapter E of this title. An answer to question Five is required only when the request for FCR or the IFB/RFP indicates the question is applicable or when reply to question Two indicates that approval of progress or advance payments will be necessary. If no reply is necessary indicate "N/A" (not applicable). An affirmative reply is appropriate if either of the following conditions prevail:

(i) The prospective contractor is being paid under any similar type of Government contract or Government financing is being provided, and there is no evidence in the Air Force Contract Administration files of serious deficiencies, or major administrative irregularities insofar as the accounting system is concerned.

(ii) The appropriate military audit agency has determined within the preceding 6 months that the prospective contractor's accounting system is adequate (with changes, if any, to which he has agreed in a signed statement) for the type of contract or for administration of the type of Government financing being proposed.

A negative answer is required if the contractor does not agree to make changes deemed necessary by the audit agency to make the system adequate. In such case, identify the change to which the prospective contractor will not agree.

(6) Six: Is the prospective contractor's purchasing system adequate to assure efficiency and economy in subcontracting and purchasing under the proposed contract? An answer to question Six is required when the request for FCR indicates one of the following types of contracts is contemplated: Fixed-price redeterminable or incentive, time and material, or cost-reimbursement. If no reply is necessary indicate "N/A" (not applicable). See AFLCM 70–3 "Manual for Analysis of Contractor Procurement" and § 1.906 of this title. An affirmative reply is appropriate only if it has been determined that the prospective contractor's purchasing system is adequate, or if the prospective contractor presents a satisfactory plan and has adequate capability to make required changes and states in writing that he will make necessary changes if awarded the proposed contract, to assure efficiency and economy in subcontracting and purchasing activities in support of the proposed contract. The plan and the signed statement will become a part of the contract file with a copy retained for the FCR file. Among the factors which must be considered are the following:

(i) Company policy with respect to assuring efficiency and economy in subcontracting and purchasing vendor items and services.

(ii) Procedures for determining financial and technical ability of subcontractors.

(iii) Pricing policies with respect to subcontracts.

(iv) Controls to assure compliance with subdivisions (i), (ii), and (iii) of this subparagraph.

(b) See § 1.902(c) of this title and § 1001.902(c).

(1) AFSC (ASXKM) WPAFB, Ohio will advise Army and Navy of locations where data concerning AF contractors may be obtained and will secure similar information from them concerning Army and Navy contractors for AF purchasing activities.

(2) A contracting officer may request an EDR on a prospective contractor either from an FCR activity, if a contract on which information is desired is administered by that activity, or from a DOD purchasing activity that had recent experience under a contract not assigned to an FCR activity for administration. Requests may be made directly to Army or Navy purchasing activities if known or according to information furnished by ASXKM. See subparagraph (1) of this paragraph.

(3) If the PCO doubts that the prospective contractor is responsible after receipt of an EDR, he may request an FCR. If an EDR is requested from an FCR activity, the FCR can be expedited by adding "Request a Complete FCR if recent experience history is unsatisfactory" in the request for EDR and supplying the information necessary to request an FCR. (See § 1001.904–1(b).) If the request for an FCR is subsequently made to an activity other than the one that supplied the EDR, a summary thereof (or a copy) will be included under "remarks" in the request for FCR.

(4) A request for an EDR will be sent by the same means as an FCR (§ 1001.904–1(b)) and should refer to this section and contain the following information:

(i) Name and address of the prospective contractor.

(ii) Type of experience data required e.g., "general experience" or "engineering and production delivery history in manufacture of remote compass transmitters."

(5) If urgency demands, the EDR may be sent by telephone or other rapid means unless classified information is involved. (See AFR 205 (Security) series.) When possible the data will be sent by air mail before the time limit which is the same as for an FCR. (See § 1001.904–1(c).) The scope of the reply will be governed by the request and will be restricted to the following:

(i) Name, address, and telephone number of DOD activity having [illegible] experience.

(ii) Name and address of the prospective contractor.

(iii) Extent of experience (dollar value and volumes) and period of time covered.

(iv) Statement of experience as "satisfactory" or "unsatisfactory because of—(brief narrative of facts)."

(c) See § 1.905–1(c) of this title. [illegible] files, contract files, case histories, quality control and acceptance, production, finance, contract performance, and other records normally kept by AF purchasing and contract administration activities will serve as the experience and performance history records; see Subpart F, Part 1 of this title, Debarred, Ineligible and Suspended Bidders.

(d) See § 1.905–1(d) of this title.

§ 1001.905–2 When information will be obtained.

See § 1.905–2 of this title.

§ 1001.905–3 Sources of information.

See § 1.905–3 of this title.

§ 1001.905–4 Pre-award surveys.

See § 1.905–4 of this title and § 1001.902(d).

(a) to (d) See § 1.905–4 (a) to (d) of this title.

(e) When a preaward survey is required to support an FCR on a [illegible] assigned to another military department, the FCR activity will request the local office of that department to perform the survey or to supply information necessary to complete the FCR.

§ 1001.906 Subcontractor responsibility.

See § 1.906 of this title and question Six under § 1001.905–1(a).

§ 1001.907 Disclosure of pre-award data.

See § 1.907 of this title. Information in or intended for, FCR, EDR, SSB, or SSSB files, including AFPI 68 series forms, when completed, will be marked "For Official Use Only" (see AFR 11–6 (Custody, Use and Preservation of DOD Official Information which Requires Protection in the Public Interest)) unless security classification is warranted (see AFR 205 series). No indication will be given to a prospective contractor as to which on FCR or an SSS is being conducted that he will or will not be awarded the contract. However, this does not preclude the FCR team chairman from discussing apparent deficiencies with the bidder during the conduct of the FCR survey, if the FCR Chairman determines that it is in the best interests of the Air Force. Information may be released to the Small Business Administration as provided in § 1.705–6(b) and in § 1.705–950. When the low bidder is advised by the buying activity that contract award has been denied, as a result of a negative FCR, he will be informed that reasons for such negative finding can be obtained only from the activity which performed the FCR survey. In the event the contractor requests information relative to the FCR findings, this data will only be furnished or discussed with him by the chief of the activity or the FCR member involved.

…1.952 Small business procedures.

…(a) Negative FCR on Small Business concern or on Authorized Defense Production Pools that have been designated Small Business:

…(1) See § 1.705–6 of this title and …1.705–6, Certificate of Competency, …§ 1001.902–1(c). The procedure outlined in subparagraph (2) of this paragraph will be followed when negative replies are submitted on a Small Business concern and the replies to question One, Five or Six, as applicable, are affirmative on all proposed awards of … and over, or at the request of the … on proposed awards of over $2,500 … less than $10,000. SBA has 15 work … from the date it is notified in which … issue a Certificate of Competency (COC). Before selecting another source, the PCO will wait 5 work days from the date SBA was notified, unless notified sooner, for advice from the AF small business specialist in the purchasing activity as to whether or not a COC is being processed by SBA. If the PCO is notified that a COC is being processed he will take no further action pending receipt of the COC or notification that one will not be issued. The 15 day period may be extended at the option of the PCO. If a COC is issued, the PCO will accept it as conclusive as to questions One and Two unless he has substantial doubts as to the prospective contractor's ability to perform in which case he will follow the procedures in § 1001.705–6. (See also § 1001.904–1(a)(4) regarding required PCO Certification.) All actions between the PCO and SBA or local AF small business specialists will be channeled through the small business specialist at the purchasing activity, if one is established. The procedures in subparagraph (2) of this paragraph are mandatory except where the award must be made without delay in which case the PCO will make, sign and place in the contract file a certification setting forth the justification for awarding the contract without delay. The PCO must furnish the small business specialist at the purchasing activity a copy of his decision which will be transmitted to the cognizant SBA regional office through the small business specialist at the FCR activity.

(2) A copy of the FCR and the information in § 1.705–6(b) of this title will be sent to the AF small business specialist in the appropriate FCR activity at the same time that the FCR is sent to the PCO. The small business specialist will:

(i) Immediately advise the SBA regional office having jurisdiction over the area in which the small business or authorized pool is located, of the negative FCR and furnish SBA the information in § 1.705–6(b) of this title.

(ii) Request notification from SBA within 5 work days as to whether a COC is being processed and advise the PCO of the date on which SBA was notified. When notified by SBA that a COC is being processed, the PCO will be notified immediately.

(iii) If notification is not received from SBA at the end of 5 work days, it will be assumed that SBA is not processing a COC and the small business specialist in the FCR activity will notify the small business specialist in the purchasing office promptly by telephone and confirm it in writing. The latter will notify the PCO promptly by telephone and confirm it in writing.

(b) Qualified FCR on Small Business concern or on authorized Defense Production Pools that have been designated Small Business concerns:

(1) Messages which transmit qualified replies to question One or Two of the FCR (when replies to questions Three, Five, and Six are affirmative or not applicable) will state "request this activity be advised if award is denied for lack of capacity or credit to allow referral to SBA."

(2) If the conditions of a qualified reply to question One or Two of the FCR are not met and denial of the award is contemplated for lack of capacity or credit, the PCO so advise the FCR activity which will follow the procedures outlined in paragraph (a)(2) of this section.

§ 1001.951 Procedures for special source surveys.

(a) Except as provided in § 1001.952, surveys must be requested in writing from AFSC (ASXKM) WPAFB, Ohio, giving the following information:

(1) Organization requesting the survey.

(2) Name and address of each company to be surveyed.

(3) Description of proposed procurement.

(4) Proposed date of survey.

(5) Justification for survey. (See § 1001.902(b).)

(6) State whether or not the survey report will be used in lieu of an FCR.

(7) Recommended team chairman.

(b) ASXKM will designate the team chairman, team members and advisors, invite participation by personnel from other AF activities when necessary for the survey, and give team guidance to assure adequacy of objective, results, and followup.

(c) The team chairman will make necessary arrangements with the prospective contractor to be surveyed and will direct and coordinate the activities of the survey team. If it is anticipated that the survey report will be used in lieu of an FCR, the report must answer the six FCR questions (§ 1001.905–1) and the team chairman must establish liaison prior to and during the survey with the FCR activity that would normally perform an FCR on the contractor. The chairman will send a copy of the survey report to the FCR activity. The team chairman will prepare a written report as soon as practicable after completion of the survey. Each team member must participate in the entire survey and will sign the report unless he dissents in which case he will write a minority report for attachment to the chairman's report. The report, with attachments, if any, will be submitted to ASXKM for approval. When approved, the report will be distributed by the team chairman as required.

(d) AF activities will, upon request, furnish team members or advisors and, within the scope of their missions, contribute survey requirements, evaluation, advice, and information on details to be covered in the survey.

(e) If the prospective contractor being surveyed is a small business concern compliance with §§ 1001.904–1(a)(4) and 1001.950 is required.

§ 1001.952 Optional special source survey procedures.

The following procedures are authorized for use by Military Air Transport Service when it is anticipated that a SSS will be used in lieu of an FCR for airlift or CRAF contracts:

(a) Approve survey requests originating in DCS/M, Hq MATS. This approval authority may not be delegated below the chief or the deputy chief, procurement division.

(b) Designate survey team chairman and members.

(c) Approve and distribute reports.

(d) Whenever the above procedures are used and the prospective contractor is a small business concern, compliance with §§ 1001.904–1(a)(4) and 1001.950 is required.

By order of the Secretary of the Air Force.

CARROLL W. KELLEY,
Lieutenant Colonel, U.S. Air Force, Chief, Special Activities Group, Office of the Judge Advocate General.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

MISCELLANEOUS AMENDMENTS

1. In § 3.802, paragraph (b) is amended to read as follows:

§ 3.802 Medal of Honor.

* * * * *

(b) An award of special pension of $100 monthly (prior to September 1, 1961, $10 monthly) will be made as of the date of filing of the application with the Secretary concerned. The special pension will be paid in addition to all other payments under laws of the United States. However, a person awarded more than one Medal of Honor may not receive more than one special pension. (38 U.S.C. 562; Public Law 87–138)

2. Section 3.807 is revised to read as follows:

§ 3.807 War orphans' educational assistance; certification.

For the purposes of war orphans' educational assistance, the child of a deceased veteran will have basic eligibility if the following conditions are met.

(a) *General.* The veteran's death was the result of disease or injury incurred in or aggravated by active service

as set forth in paragraphs (b) and (c) of this section (cases where the veteran's death resulted from Veterans Administration hospitalization, treatment, examination or training are not included); and

(1) The veteran died in service or after separation from service provided such separation was under conditions other than dishonorable; and

(2) The child meets the definitions of relationship contained in § 3.57 except as to the requirement of age and marital status.

(b) *Service.* Active service is required during:

(1) Spanish-American War between April 21, 1898, and July 4, 1902, or, if the veteran served with the United States military forces engaged in hostilities in the Moro Province, between April 21, 1898, and July 15, 1903 (effective September 8, 1959);

(2) World War I between April 6, 1917, and November 11, 1918 (effective October 1, 1956), or, if the veteran served with the United States military forces in Russia, between April 6, 1917, and April 1, 1920 (effective January 1, 1959);

(3) World War II between December 7, 1941, and December 31, 1946 (effective October 1, 1956);

(4) Korean conflict between June 27, 1950, and January 31, 1955 (effective October 1, 1956); or

(5) An induction period (effective September 14, 1960). "Induction period" means the following periods: September 16, 1940, through December 6, 1941; January 1, 1947, through June 26, 1950; February 1, 1955, through the day before the first date on which the individual was no longer liable for induction. Service during the induction period which is deemed to be active service under 38 U.S.C. 106 is not included.

(c) *Service connection.* (1) In claims based on service during a war period as limited by paragraph (b) of this section, the standards and criteria for determining service connection, either direct or presumptive, based on wartime service are applicable.

(2) In claims based on service during an induction period, the standards and criteria for determining service connection based on peacetime service are applicable where the disease or injury directly resulted from armed conflict or was directly incurred while engaged in extra-hazardous service (including such service under conditions simulating war).

(3) Except as provided in subparagraph (2) of this paragraph, in claims based on service during an induction period, the cause of death, either primary or contributory, must have resulted directly from, and the causative factor must have been, the performance of such service while on duty status. It must be shown that it is reasonable to expect that the disease or injury would not have been incurred if the individual had not been performing active service. (38 U.S.C. 1701)

3. In § 3.809, paragraph (b) is amended and paragraph (d) is added to read as follows:

§ 3.809 Specially adapted housing.

* * * * *

(b) *Disability.* The disability must have been incurred or aggravated as the result of service as indicated in paragraph (a) of this section and the veteran must be entitled to compensation for permanent and total disability due to:

(1) Effective September 8, 1959, the loss, or loss of use, of both lower extremities, such as to preclude locomotion without the aid of braces, crutches, canes, or a wheelchair, or

(2) Effective September 8, 1959, blindness in both eyes, having only light perception, plus the anatomical loss or loss of use of one lower extremity, such as to preclude locomotion without the aid of a wheelchair.

* * * * *

(d) *"Preclude locomotion."* This term means the necessity for regular and constant use of a wheelchair or other mechanical aid or contrivance as a normal mode of locomotion although occasional locomotion by other methods may be possible. (38 U.S.C. 801, 804)

(72 Stat. 1114; 38 U.S.C. 210)

These regulations are effective February 21, 1962.

[SEAL] W. J. DRIVER,
Deputy Administrator.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2612]

[1330209]

NEW MEXICO

Revoking Executive Order No. 5120 of May 17, 1929

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 5120 of May 17, 1929, withdrawing the following described lands for use by the Smithsonian Institue, is hereby revoked:

NEW MEXICO PRINCIPAL MERIDIAN

T. 26 S., R. 2 W.,
Sec. 4, SW¼SW¼;
Sec. 5, SE¼SE¼;
Sec. 8, NE¼NE¼;
Sec. 9, NW¼NW¼.

The areas described aggregate [illegible] acres.

2. The lands, which are approximately 25 miles southwest of Las Cruces, New Mexico, are located in an isolated, rugged area occupied by an extinct volcano. Vegetation is scattered and limited to yucca, mesquite, and creosote brush.

3. The State of New Mexico has waived the preference right granted to it by subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

4. The public lands released from withdrawal by this order shall at 10 a.m., on March 22, 1962, be restored to operation of the public land laws, including location for nonmetallic minerals under the United States mining laws, subject to valid existing rights, equitable claims, the requirements of applicable law, rules and regulations, the provisions of any existing withdrawals. They have been open to applications and offers under the mineral leasing laws and to location for metalliferous minerals.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Santa Fe, New Mexico.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

FEBRUARY 14, 1962.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

Computation of Time; Corrections

The Commission's Order of February 13, 1962, FCC 62-122, (F.R. Doc. 62-1772; 27 F.R. 1359), is corrected as follows:

1. Section 1.18(g) is corrected to read as follows:

(g) Where a document is required to be served and is served by mail, and the filing period for a response thereto is 5 days or less, an additional three days, excluding holidays, will be allowed for filing the response. This paragraph shall not apply to § 1.193(c).

Released: February 13, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1772; Filed, Feb. 20, 1962; 8:51 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 1038]

[Docket No. AO-194-A6]

MILK IN ROCKFORD-FREEPORT, ILLINOIS, MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Secretary, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement, and order regulating the handling of milk in the Rockford-Freeport, Illinois, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D.C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Rockford, Illinois, on June 6-8, 1961, pursuant to notice thereof which was issued May 9, 1961 (26 F.R. 4023).

The material issues on the record of the hearing relate to:

1. Expanding the marketing area;
2. Qualifications for attaining pool plant status;
3. Payments on unpriced milk disposed of in the marketing area from nonpool plants;
4. Class I price;
5. Class II price;
6. Butterfat differentials;
7. Application of location differentials on class prices and in paying producers;
8. Using a base and excess plan in paying producers;
9. Application of various classification provisions;
10. Allowing a cooperative association to be a handler on bulk tank milk of its members;
11. Equivalent prices; and
12. Miscellaneous administrative and conforming changes.

1. The Rockford-Freeport marketing area, presently the cities of Rockford, Loves Park, and Freeport, and specified townships in Stephenson and Winnebago Counties, should be extended to include Rock County, Wisconsin; Boone, Carroll, De Kalb, Jo Daviess (except the city of East Dubuque), Lee, Ogle, Stephenson, and Winnebago Counties, Illinois; and the townships of Caloma, Hahnaman, Hopkins, Hume, Jordan, Montmorency, Sterling, and Tampico in Whiteside County, Illinois. The Rockford-Freeport marketing area should be redesignated the Rock River Valley marketing area to more adequately describe the expanded marketing area.

The 1960 census population of the recommended marketing area, a contiguous territory in 10 counties, was approximately 600,000. The population of Rockford, the largest city in the proposed marketing area, was 127,000. The population of the next largest cities, Freeport, Dixon, De Kalb, Sterling, Belvidere, and Rock Falls ranged from 27,000 to 10,000. Because a substantial part of the fluid milk sales of handlers are in rural communities and because much of the population immediately surrounds the cities and towns, the marketing area should be defined insofar as practicable, on the basis of county rather than town or city boundaries.

The Midwest Dairymen's Company and Pure Milk Association, the major producer cooperatives in the market, represent substantially more than two-thirds of the producers supplying plants who would be regulated by the amended order. About 75 percent of the dairy farmers who would become producers under the order by the recommended expansion of the marketing area are members of these associations.

The expanded marketing area will conform more closely to the sales territory of handlers regulated by this and other orders. Handlers under this order and nearby orders have route distribution throughout the territory recommended for addition to the marketing area and compete therein with unregulated handlers. It is more practicable to include this additional territory in the Rockford-Freeport marketing area than in that of any other order. This will provide a contiguous geographical marketing area in which handlers who would be regulated by the proposed order are the principal distributors.

Most of the 23 presently unregulated handlers purchase milk at a flat price which is closely related to the Chicago uniform price. These unregulated handlers have a high proportion of fluid milk sales to receipts not uncommonly ranging from 80 to 100 percent Class I utilization. Rockford and Freeport handlers are at a price disadvantage in competing with unregulated handlers for sales in the proposed marketing area because they must pay the higher Class I price of the order to which their competitors are not subject. The buying practices of the unregulated handlers have led to instability in the market and have resulted in lower prices being paid to farmers than the classified use value of their milk would warrant.

The marketing area expansion herein recommended would promote orderly marketing by assuring Rock River Valley order handlers that their competitors in the marketing area would be required to pay for milk at prices based on the minimums prescribed by the order.

Rockford-Freeport order handlers have distribution in all counties in the ten-county recommended marketing area except Lee and Whiteside Counties. They compete in the recommended marketing area with the unregulated handlers whose sales are geographically more limited. Of the 23 presently unregulated handlers operating in the proposed marketing area, 20 would be regulated by this order and 3 by the order proposed for the Madison area. Handlers regulated by the Chicago, Milwaukee, Quad Cities-Dubuque, Cedar Rapids-Iowa City and Indianapolis orders also serve the ten-county area.

Winnebago and Stephenson Counties, which contain the present Rockford-Freeport marketing area, are served primarily by handlers from Rockford and Freeport. They compete with three unregulated distributors who would become regulated because of their distribution in these two counties and in adjacent portions of the recommended marketing area. They also compete for sales in these counties with handlers regulated by the Chicago and Milwaukee orders.

Rock County, Wisconsin, which adjoins the northern boundaries of Winnebago and Boone Counties, is served by 17 distributors. One Chicago order handler operates a local distributing plant which has 38 percent of its sales in this county. This handler, because of sales in this county and in five other counties of the proposed marketing area, would be regulated by the recommended order. In total, approximately nine handlers who would be regulated by this order serve Rock County in competition with two Chicago order handlers, three Milwaukee order handlers and three handlers who would be regulated by the proposed order for the Madison area.

The city of East Dubuque in Jo Daviess County is in the Quad Cities-Dubuque marketing area. Distribution in the remainder of this county is by eight handlers, four of whom would be regulated under this order, and two each under the Chicago and Quad Cities-Dubuque orders. One handler who would be regulated under the proposed Madison order has some distribution in this county.

Carroll and Ogle Counties, which adjoin the present marketing area on its southern boundaries, are served by about 15 handlers who would be regulated under the expanded Rock River Valley

order. Handlers under other nearby orders also have some distribution in these counties.

In Lee County, which is adjacent to the southern boundaries of Carroll and Ogle Counties, three handlers have substantial sales in competition with Chicago, Quad Cities-Dubuque, and Indianapolis order handlers. The three now unregulated handlers would be under this order because of their distribution in Ogle County.

That part of Whiteside County proposed to be added to the marketing area is served by eight handlers who would become regulated under this order because of sales in adjoining counties of the proposed area, primarily Lee and Carroll. Five Chicago handlers also distribute there. Five of the eight handlers who would be regulated under this order have sales in Carroll and other counties of the proposed area. The remaining three would be regulated primarily because of sales in Lee County.

Failure to include Lee County and the specified townships in Whiteside County in the marketing area could result in a competitive disadvantage for handlers who would be regulated under the order because some handlers serving the area would be regulated while their principal competitors would not.

Boone County and DeKalb County are primarily served by presently regulated handlers. In Boone County, three Rockford-Freeport order handlers have distribution in competition with Chicago and Milwaukee order handlers. If DeKalb County were not included in the recommended area, the several local distributors would remain unregulated and have an advantage in competition with regulated handlers for sales in the county.

The area herein recommended as the Rock River Valley marketing area represents an area of uniform minimum health standards for Grade A milk products sold for fluid consumption. Fluid milk products sold under a Grade A label must be approved by local and State health authorities who are governed by health ordinances, practices and procedure patterned after the United States Public Health Ordinance and Code. Movements of Grade A milk, both in bulk and packaged form, between various localities in the marketing area are through reciprocal approval of the responsible health authorities.

Territory within the boundaries of the designated marketing area which is occupied by Government (Municipal, State, or Federal) reservations, installations, institutions, or other establishments should be considered as within the marketing area. Exemption of sales by a handler in any such territory could place regulated handlers at a disadvantage. So there will be no doubt as to the intent of the application of the marketing area definition, the order should clearly specify that all premises within the marketing area, as described above, will be included as part of the marketing area.

2. The pool plant qualifications under the order should be revised.

Two general categories of plants should be defined under the order. A "distributing plant" would be a plant in which any Grade A fluid milk product is processed or packaged and disposed of during the month on routes in the marketing area. "Supply plant" would be a plant from which Grade A milk, skim milk or cream is shipped during the month to a pool plant.

Presently, a plant may participate in the marketwide pool if any fluid milk products are distributed on routes in the marketing area. Because of the difference in marketing practices and functions between distributing and supply plants which may serve the expanded area, separate performance standards should be provided which will apply uniformly to all plants wherever located. Performance standards should be such that any plant which supplies a substantial portion of its Grade A receipts to the Rock River Valley market would pool its sales and share in the marketwide pool.

In order to qualify as a pool plant, a distributing plant should be required to dispose of 10 percent or more of its Grade A receipts as Class I milk on routes in the marketing area during the month. A distributing plant having more than 90 percent of its business outside the marketing area should not be considered to be associated with this market. Full regulation of such distributing plants is neither advisable nor necessary to accomplish the purposes of the order and might well place such plants at a competitive disadvantage in supplying the unregulated market. Such minimum standards are necessary also to avoid the possibility that a plant otherwise not associated with the market might qualify itself for equalization payments to its own advantage, and to the disadvantage of the market by means of minor sales in the marketing area.

In order that only plants primarily engaged in route distribution of fluid milk products be qualified as pool plants under this definition, a further condition should be placed on a distributing plant. That is that its route distribution of Class I milk (both inside and outside the marketing area) be not less than 50 percent of its total receipts of Grade A milk. Any plant which does not qualify on this basis should have its pool status determined by the standards applied to supply plants.

A plant from which milk for Class I uses is distributed regularly in the marketing area under normal circumstances may be expected to dispose of its milk in such a way as to exceed by a reasonable margin the minimum performance standards necessary to qualify as a pool plant. There may be from time to time plants supplying milk to the marketing area which would not qualify for pool status. Such plants should be required to file reports, make available their records for audit by the market administrator, and be subject to payment hereinafter discussed if they are not fully subject to regulation.

The performance standards for supply plants to qualify for pool plant status should reflect the fact that the quantity of milk available to regulated distributing plants may not be adequate for [illegible] needs.

At times, particularly during [illegible] of seasonally low production, some [illegible] tributors in the market have relied [illegible] tensively on supplemental [illegible] keep their Class I outlets fully [illegible] In 1959 and 1960 supplemental [illegible] from Chicago regulated plants and [illegible] sources were 12.5 and 9.3 percent, [illegible] spectively, of producer receipts [illegible] the order. During months of [illegible] high production, producer milk in excess of fluid use is manufactured. To assure that all producer milk pooled will be available for Class I use in the marketing area, supply plant standards should be set at levels which will assure that such milk will be available.

To qualify as a pool plant a supply plant should ship to distributing plants which are pool plants at least 50 percent of its receipts of milk from dairy farmers in any month. A supply plant from which a proportionately lesser quantity is shipped should not under present conditions in the market be considered as primarily associated with the Rock River Valley order market.

The demand for supply plant milk will be greatest during the season of high production. During the months of flush production local supplies will generally be more than adequate for the market's Class I needs. In these circumstances, the performance standards should not force milk to be transferred to distributing plants in the market for seasonally high production in order to maintain the eligibility of supply plants to pool.

Provisions should be made whereby a supply plant previously qualified may elect to receive pool plant status during the months of seasonally high production. Such election would be effective to a plant when it had supplied 50 percent of its producer milk receipts during the month of September through February to distributing plants which were pool plants. As herein recommended, pool plant status would automatically continue to such supply plant for the subsequent months of March through June unless the operator of such plant notified the market administrator that he elected to have nonpool status for such plant beginning with any month during such period.

Some handlers received milk from both Grade A and ungraded sources. Generally, such handlers maintain the ungraded operation physically apart from the Grade A operation. Proper safeguard should be provided in the order to insure that the ungraded and Grade A portions of a plant operated by the same handler are maintained as separate entities. If a portion of a plant physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition, it should not be considered a part of a pool plant. However, if the graded and ungraded operations of a plant are not maintained separately, the entire operation of such plant would be considered as that of a pool plant and all ungraded milk received at such

...be considered as other source milk ...ed at a fluid milk plant.

...The order should provide for pay... ...to the producer-settlement fund ...ssified milk which is allocated to ...s I milk in a pool plant.

...ving milk in excess of Class I dis... ...is necessary to operate a fluid ...business. Because of seasonal fluc... ...in production without corre... ...changes in demand, this excess ...reserve milk must be marketed in ...factured form in competition with ...made from ungraded milk. ...reserve Grade A milk must be mar... ...at a lower price and is the pri... ...cause of the instability which may ...fluid milk markets.

Considerable volumes of surplus Grade ...milk must be disposed of by unregu... ...plants in the Chicago milkshed. ...handlers could obtain such milk ...substantial volumes from these non... ...sources at prices reflecting its value ...surplus milk, which approximates the ...II price under the order. The com... ...payment on other source milk ...to Class I milk should be the ...between the minimum price ...producer milk used for surplus (Class ...) and the Class I price, adjusted to the ...of the plant from which such ...source milk was received from ...rs. This rate will reflect generally ...difference in value between unregu... ...and regulated milk for Class I use.

The rates herein found to be appro... ...give recognition to general com... ...conditions in the purchase and ...of fluid milk products. However, ...such conditions do not prevail ...uniformly in all instances and all trans... ...are not made under the same ...circumstances, it would not be adminis... ...feasible to adjust prices to pay... ...in individual transactions.

It is therefore necessary to have defi... ...and specified rates applicable to all ...handlers similarly situated. The rates ...herein provided will best effectuate the ...intent of the Act under current market... ...conditions in the area.

Other source milk used in the form of ...dried dry milk or condensed milk ...should be considered to be from a source ...at the location of the pool plant where it ...is used. It would not be administratively ...feasible to do otherwise because concen... ...milk products may be obtained ...from numerous sources and it would not ...always be possible to ascertain at which ...plant location it originated.

A handler whose distributing plant ...fails to qualify as a pool plant should ...make payment to the producer-settle... ...fund of either (1) the amount of ...Class I milk sold in the marketing area ...multiplied by the difference between the ...Class I and Class II price, or (2) the ...amount by which total payments to dairy ...farmers are less than the total amount ...of the plant's obligation to producers, ...computed as if such plant were a pool ...plant. Under the first option the ...amount of milk on which a handler ...would make payment should be reduced ...by the receipts of Class I milk from pool ...plants. Because such milk would be ...priced as Class I milk at the regulated ...plant where it was received from pro... ...ducers, the pool would not be disadvantaged and the integrity of regulation would be preserved.

If the handler elects to make payments under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other source milk. If the handler chooses to pay the full utilization value of his milk either directly to his own farmers or by combination of payments to his farmers and the producer-settlement fund, he will obviously not have an advantage in terms of the minimum order class prices on his sales of Class I milk in the marketing area, for his total minimum obligation for milk will be determined exactly the same as if he were a fully regulated handler.

Affording this last option to nonpool plants which distribute some Class I milk in the marketing area of the order will adequately protect the regulatory plan in this market. It is expected that handlers who would use this option are relatively small and the prices they would be required to pay under the option and the uniform price payable by wholly regulated handlers would not differ greatly. Consequently, the exercise of this option could not have a disruptive influence on the handling of milk in this area. For these reasons it is not necessary, in order to maintain the integrity of the regulatory plan, to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their producers at least the total amount of money which they would be required to pay if fully regulated.

No compensation payment should be required on milk classified and priced as Class I under another Federal order on fluid milk products distributed in the marketing area. The minimum prices for Class I milk under other Federal orders where Rock River Valley handlers might obtain supplemental supplies approximate the recommended Class I price as adjusted for location of the supplying plants. Since handlers operating plants under other Federal orders must pay for producer milk on a utilization basis, they would not be in a position to dispose of their surplus producer milk in the Rock River Valley area for Class I use at less than Class I prices.

4. The level of the Class I price should not be changed.

Although various proposals were made to increase the Class I price, there is no indication that the supply of producer milk is becoming inadequate for the market's requirements. During the years 1959 and 1960, producer milk classified in Class II under the Rockford-Freeport order was 14 and 13 percent, respectively.

The proposed Rock River Valley marketing area is wholly contained in the milkshed of the Chicago market. These markets are so interrelated that a close correlation of Class I prices is essential for orderly marketing conditions and to minimize uneconomic shifts of producers and plants between the markets.

The Class I price for the expanded marketing area would be calculated by adding a differential to a basic formula price. The annual average Class I differential would be $0.92 over the basic formula price. This differential together with the Chicago order supply-demand adjustment (as now reflected in the Rockford-Freeport Class I price) and the location differential adjustments recommended herein would maintain the present level of pricing under the order and provide alignment with Chicago order prices.

Rockford, Illinois is a principal point at which producer milk is received and from which fluid milk products are distributed throughout the marketing area. All pool plants in the city of Rockford are within Zones 3 and 4 (85–115 miles) of the Chicago order. The announced Class I price should, therefore, be applicable at plants within 115 miles of the City Hall in Chicago with appropriate location adjustments to be applied at other plants.

The basic formula price would be the average of the prices paid for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota and would be the same as that recommended for the Chicago order basic formula price. Official notice is here taken of the Chicago order recommended decision issued by the Assistant Secretary on February 7, 1962 (27 F.R. 1272). Alignment of Class I prices between the proposed Rock River Valley and nearby Chicago order can best be achieved by providing the same basic formula prices.

5. The Class II milk price should be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the United States Department of Agriculture.

The recommended pricing of reserve milk recognizes that prices for manufacturing grade milk tend to be reasonably uniform regardless of the use made of the milk utilized for manufacturing purposes.

Elsewhere in this decision, the need for maintaining an alignment with the Chicago Class I price is emphasized. Alignment of reserve milk prices between the two orders is no less necessary. Large quantities of reserve milk in this market are disposed of for manufacturing purposes to plants regulated by the Chicago order. The Class II price herein recommended is the same as the price for reserve milk under the Chicago order.

The present order prescribes three alternative methods to determine Class II prices: the Midwest condensery price, a butter-cheese formula and a butter-powder formula.

There are certain shortcomings in the use of a butter-powder or butter-cheese formula for the pricing of reserve milk. The fact that all milk received by a handler is not used exclusively in butter, powder or cheese production necessarily means that some allocation of costs must be made to various operations. Such joint costs are not always subject to precise measurement or analysis. In addition, formula pricing tends to lag behind changes in costs and technology which would not be reflected in the formula

price until appropriate order amendment action could be made.

Because formula prices are directly tied to specific products, they are not consistently aligned with prices for manufacturing grade milk. During the four months of September through December 1960 the Midwest condensery price, in response to increased competition for manufacturing supplies, exceeded the butter-powder price by 24, 35, 41, and 50 cents and the butter-cheese price by 23, 34, 40, and 48 cents, respectively. In the same months of 1959 the butter-powder formula exceeded the Midwest condensery price by 2 cents in September, and during October through December the Midwest condensery price exceeded the butter-powder price by only 8, 7, and 16 cents, respectively. The Midwest condensery price exceeded the butter-cheese price during each month of September through December 1959 by 7, 17, 14, and 20 cents, respectively.

The only competitive pay price series now used in the order is the Midwest condensery price series. Currently prices are received from only eight plants, two in Michigan and six in Wisconsin. (Official notice is taken of the closing in November 1961 of the Borden Company, Orfordville, Wisconsin plant, reducing the number of plants in this price series to eight.) Originally, there were 18 plants or places reporting prices, but the number has gradually dwindled over the years to the point where consideration of another measure of manufacturing prices is advisable.

Information on the prices paid at manufacturing plants in Wisconsin is assembled by the State-Federal Crop Reporting Service. A large number of manufacturing plants are included in the monthly sample on which average prices and butterfat content information is based. Plant operators report the total pounds of manufacturing grade milk received from farmers, the total butterfat content and total dollars paid to dairy farmers for such milk, f.o.b. plant. Similar information is assembled for Minnesota manufacturing plants. These prices are available on a current month basis and can be announced on or before the fifth day of the following month.

The Minnesota-Wisconsin series for manufacturing grade milk reflects price information in each of the two states weighted by the proportionate amount of manufacturing milk produced in each state. This series is based upon a large sample of plants located in the remaining large production area of manufacturing grade milk in the country. Approximately 50 percent of the total manufacturing grade milk sold off farms in the United States is produced in these two states. In Minnesota, about 75 percent of the milk sold off farms is manufacturing grade milk, and in Wisconsin 65 percent is manufacturing grade. Competition for this milk is strong in both states. Consequently, no individual company, or group of companies, can have a significant influence upon the level of prices.

Official notice is taken of the Minnesota-Wisconsin prices for manufacturing grade milk as released by the United States Department of Agriculture through November 1961 and of the prices through November 1961 for other manufacturing milk price series as released by the Rockford-Freeport market administrator.

From December 1957 through November 1961, the Rockford-Freeport Class II price (Midwest condensery price in all months except one when the butter-powder formula price was the effective Class II price) averaged $3.10. The butter-powder price during this period averaged $2.92 and the butter-cheese price $2.85. The price for manufacturing grade milk f.o.b. plants in Wisconsin and Minnesota, adjusted to a 3.5 percent butterfat basis by the Order 91 producer butterfat differential, averaged $3.10 for the four-year period.

The prices paid farmers in the various states for manufacturing grade milk, as reported by the United States Department of Agriculture, is at the weighted average butterfat test of milk received at these plants. Since the order class prices are announced on a 3.5 percent butterfat basis, it is appropriate that the announced Minnesota-Wisconsin prices for manufacturing grade milk be adjusted to this basis by a differential equal to the average quotation for the month for Grade A (92-score) butter at Chicago times 0.120. This differential is used for this purpose under the Chicago order.

6. The butterfat differentials used to adjust the Class I and Class II prices should be revised to more appropriately reflect the relative value of butterfat under current marketing conditions. The value resulting from multiplying the Chicago butter price by 0.120 for Class I and by 0.115 for Class II milk will provide appropriate means for adjusting the prices in the expanded marketing area for each one-tenth percent variation in the butterfat content of milk used in various products.

The several proposals for higher Class I butterfat differentials than herein recommended would allocate more value to the butterfat in Class I milk. A number of fluid milk products on the market are made up of a proportionately high percentage of solids not fat (e.g. fortified or modified skim milk). Sales of modified skim milk by handlers under the order increased from 170,000 pounds in 1957 to 335,000 pounds in 1960, an increase of 97 percent. With too high a butterfat differential, producers would not receive their appropriate share of the Class I sales value represented by the solids not fat portion of fluid milk products. A high butterfat differential would have the effect of pricing cream for Class I uses at a high level. On the other hand, the butterfat differential recommended will give encouragement to increasing the disposition of butterfat in Class I outlets.

The Class II butterfat differential herein proposed will facilitate the movement of butterfat in the reserve supply of milk to manufacturing outlets and thereby eliminate the potential for unstable marketing conditions which milk without a market tends to create.

The butterfat differential to producers should be calculated at the average of the Class I and Class II butterfat differentials weighted by the proportion of butterfat in producer milk classified in each class during the month. The returns to producers will reflect the actual value of their butterfat at the class prices provided by the order.

7. Class I and uniform prices should be adjusted according to the location at which producer milk is received. As stated elsewhere, the Class I price should be announced at Rockford, which is within 115 miles of the City Hall in Chicago. The Class I price for milk received at plants 115 miles or more from the Chicago City Hall should be decreased two cents for each 15 miles or fraction thereof that such plant is beyond 115 miles from Chicago.

The location adjustment applicable at any plant under this order should not be more than 12 cents. The several handlers operating plants in the western portion of the Rock River Valley marketing area compete with handlers regulated by other nearby Federal orders. Limiting the location differential adjustment under this order to 12 cents will contribute toward attaining appropriate alignment of Class I prices to handlers under this and nearby orders who compete for fluid milk sales in the western portion of the recommended marketing area.

The Class I price herein recommended is related to the Class I price under the Chicago order. A number of plants under the Chicago order are potential and alternative sources of supply for handlers under the proposed Rock River Valley order.

The location differential herein recommended is applicable under the Chicago order and is representative of the cost of hauling milk to the market by the efficient means. Such differential will recognize the geographical location of the expanded marketing area in relation to the Chicago market and maintain appropriate Class I price relationships under the two orders.

The uniform price (including the uniform price for base milk) paid producers supplying plants at which location differentials apply should likewise be adjusted to reflect the value of milk at the point to which delivered.

No location adjustment should be made in the Class II price because of the location of the plant receiving reserve milk. Because of the low cost per hundredweight for transporting manufactured products to market, the price paid for milk used in manufactured products at various points in the marketshed should not vary with location.

To insure that milk will not be moved unnecessarily at producers' expense, the order should contain a provision to determine whether milk transferred between plants may receive the location differential credit. For the purpose of calculating such location differential credit, the skim milk and butterfat in fluid milk products transferred in bulk form should be assigned to the available skim milk and butterfat classified in Class II in the transferee plant before being allocated to Class I milk at such plant.

8. A "base and excess" plan of distributing returns for milk among pro-

…should be incorporated in the

…and excess plans are commonly …throughout the production area and …wide support among producers. …plans in the area are pat…after the base-excess provisions of …order.

…operative associations serving the …have been using base and excess …for a number of years to encourage …even production among dairy …. Such a plan applicable to all …under the order would tend to …a better relation of production to …needs of the market throughout the …

…base and excess plan herein rec…ended would establish for each pro…a base according to his deliveries …pool plants during September, Octo…and November. For these months, as …as all other months in the period …July through February, producers …receive the marketwide blend or …price for all milk which they de…to pool plants.

…each month of March through …separate uniform prices for "base …" and "excess milk" would be com…ed so that Class I sales would first …to base milk. Base milk would …milk received at pool plants from a …March through June which is …in excess of an amount equal to the …of such producer multiplied by the …of days' production received at …plants in the month. Class II dis…in the market would first be …to excess milk. If the ag…Class I disposition is more …the base milk received from pro…in any month, such additional …I milk would be allocated to excess …and the excess blend price increased …ingly.

…producer location adjustments …recommended should be applied …prices paid producers for base milk. …excess milk will represent princi…producer milk classified in Class II …which no location adjustment is ap…, to the producer price for excess …should not be subject to location …ments. The producer butterfat …ential applicable to the uniform …should be used to adjust the uni…prices for base and excess milk.

…September, October and November, the …ended base-forming period, are …of seasonally low production in …ished and are the base-forming …under the Chicago order. It was …that August and December be …in the base-forming period. In …of the extensive overlapping of the …River Valley and Chicago milk…, however, it would be inappropriate …vide for a base-forming period dif…from that in the Chicago order. …milk should not include milk …from a farm from which milk …ered in the same month to a plant …it is subject to the classification …pricing provisions of another order …pursuant to the Act. This pro…will reduce the opportunity for a …with plants in other pools to …his excess producer milk to the Rock River Valley pool during the high production months.

New producers coming on the market during or after the base-forming period should be allotted bases even though they did not establish any during the preceding September through November period. In addition, a producer who delivered milk during the base-forming period but desires to change his level of production should not be required to receive payment for the higher production at the excess price. Such a producer should be permitted to relinquish his base and establish the base of a new producer if he so desires. This would add greater flexibility to the plan and would accommodate cases of abnormally low production during the base-forming period due to unusual circumstances.

For a producer who does not deliver milk during the base-forming period or who delivers less than 60 days production during the base-forming period or who desires to relinquish an established base, a base for each month of March through June would be calculated by multiplying his average daily deliveries in such month to pool plants by 60 percent for March, 55 percent for April and 50 percent for May and June. The above percentages are identical to those in the Chicago order and will allow new producers to share in the Class I market during the base-operating period. At the same time the percentages will not be such as to invite substantial numbers of old producers to relinquish their earned bases.

On or before February 15 of each year the market administrator should notify each producer and handler receiving milk from such producer of the base established by such producer. This will provide adequate time for the market administrator to complete the extensive work of computing and announcing bases. Also, by being notified a half-month before the beginning of the base-paying period, a producer will have reasonable advance notice of what his base shall be. The same half-month period should be allowed a producer for deciding whether to relinquish his established base for the equivalent of that accorded a new producer.

If a plant were a nonpool plant during the preceding September through November period and became a pool plant during any of the months of March through June of the following year, provision should be made for assigning bases to the dairy farmers regularly supplying such plant. This would be effectuated most equitably by according such dairy farmers the same treatment as other producers in establishing bases. For the purpose of computing the base of a producer, deliveries of any dairy farmer during the preceding September through November to a nonpool plant that is a pool plant in any of the months of March through June would be considered producer milk received at a pool plant.

Certain rules regulating the transfer of established bases were proposed and are adopted herein. These are patterned after the base rules in the Chicago order and will tend to promote better understanding of the base and excess plan among producers in the areas where the Rock River Valley and Chicago milksheds overlap.

A producer should be able to transfer his base if he sells his farm. In this case, if the producer disposes of his base, it should go with the farm on which it was earned. In the event of a producer's death, provision should be made for the possible transfer of the base upon written notice to the market administrator from any member of the producer's immediate family.

If more than one producer ships from a farm, one base should be computed for the farm to be allocated to each producer according to his share in the sale of milk from the farm unless one of the producers has a base earned while he was on another farm and requests that he be allowed to retain such base. Provisions should also be made for division of a jointly held base and to allow a producer to transfer credit towards establishment of a base in the same manner as he may transfer a base.

9. (a) The nonfat milk solids added to a fluid milk product should be converted to their fluid skim milk equivalent weight for purposes of accounting for the skim milk required to produce such product. However, the Class I classification should apply only to the weight of skim milk and butterfat contained in an equivalent volume of an unmodified fluid milk product. The remaining portion of the fluid milk product would represent added skim milk solids and should be classified as Class II milk on a skim milk equivalent basis. Nonfat milk solids added to fluid milk products do not displace producer milk for Class I use in this marketing area.

(b) Inventory accounting procedure would be facilitated by providing that month-end inventories of fluid milk products be classified in Class II milk. Such month-end inventories would be subtracted from any available Class II milk in the following month. The higher use value of any fluid milk products in inventory allocated to Class I milk in the following month should be reflected in returns to producers. This will preserve the priority of assignment of current producer receipts to current Class I use.

(c) Class II classification should be provided for skim milk and butterfat in eggnog. Eggnog made from ungraded milk is sold in the marketing area in competition with such product made from Grade A supplies.

(d) The skim milk portion of fluid milk products which is dumped or sold for livestock feed should be Class II if the market administrator is notified in advance and afforded the opportunity to verify such disposition. The order now provides Class II classification for skim milk and butterfat dumped or sold for livestock feed. Butterfat in fluid milk products is generally salvageable, can be accumulated in the form of cream and adequate outlets are available for utilizing such butterfat in manufactured dairy products. No provision should be made for classifying in Class II the but-

terfat in fluid milk products dumped or sold for livestock feed.

(e) The shrinkage allowance should be revised to reflect loss experience encountered under current methods of handling milk in the market and to provide equitable division of shrinkage among handlers.

The maximum shrinkage allowance in Class II at each plant should be 2.0 percent of producer milk (except producer milk from a cooperative association as a handler and milk diverted to a nonpool plant) plus 1.5 percent of bulk fluid milk products from other pool plants and less 1.5 percent of such bulk products transferred to other plants.

On producer milk for which a cooperative association has elected to be the handler, the receiving plant should be allowed 1.5 percent of such milk in shrinkage. However, if the handler notifies the market administrator that he is purchasing such milk on the basis of farm weights the applicable percentage on such milk should be 2.0 percent.

Plants operated in a reasonably efficient manner and for which accurate records of receipts and utilization are maintained should not have plant losses in excess of the maximums herein provided.

(f) The method for classifying transfers and diversions to nonpool plants should be more specifically set forth.

Fluid milk products transferred or diverted to a nonpool plant should be allocated to Class I to the extent that the fluid milk products disposed of from the nonpool plant exceed the receipts of skim milk and butterfat in Grade A milk from dairy farmers regularly supplying such plant. Any remainder transferred or diverted from the regulated plant would be Class II milk. If the transfers and diversions to the nonpool plant during the month are from two or more plants subject to the provisions of different orders issued pursuant to the Act, the skim milk and butterfat assigned to Class I milk at each such regulated plant under this order should not be less than that obtained by prorating the assignable Class I milk at the nonpool plant over the receipts from all plants subject to the provisions of this and other orders issued pursuant to the Act .

The method herein recommended for classifying transfers and diversions to nonpool plants accords equitable treatment to order handlers and gives appropriate recognition to handlers in other regulated markets in the classification of milk transferred to a common nonpool plant. Giving priority to dairy farmers directly supplying a nonpool plant recognizes that they are the regular and dependable sources of milk for fluid use at such plant.

The "surplus disposal area" beyond which milk, skim milk and cream transferred or diverted to nonpool plants would be classified as Class I should be limited to not more than 150 miles by the shortest highway distance from the nearer of the main Post Offices of Janesville, Wisconsin and Sterling, Illinois. The area thus described is adequate to dispose of milk, skim milk and cream not needed by order handlers for Class I purposes in the marketing area. Milk skim milk and cream moving greater distances are normally for Class I use.

Limiting the area in this manner will protect the diversion provisions of the order. A larger area than that provided could encourage handlers to associate by diversion additional producers with the market, permitting them to share in the marketwide pool while most of the milk of such producers could be withheld from fluid uses and be used for Class II purposes at unregulated plants not a part of this market.

When milk, skim milk and cream in bulk has been transferred or diverted to a nonpool plant located not more than 150 miles from the points herein recommended, the market administrator is required to verify the utilization claimed by such nonpool plant. It may reasonably be expected that the market administrator will be able to make such verification within the "surplus disposal area" without incurring undue expense.

(g) The allocation procedure of the order should specify that packaged fluid milk products subject to pricing under another order be assigned to Class I milk. This will allow a handler operating plants regulated under more than one order to achieve economies associated with centralized processing and packaging of certain fluid milk products and is consistent with present treatment of such milk under this order during certain months.

The provision allowing direct allocation to Class I of bulk milk, skim milk or cream received during September through December from a plant at which such milk was priced under another order should be deleted. Such Federal order bulk shipments should be allocated in sequence starting with Class II milk. This will assure local producer milk the priority of Class I use and will assist in associating with this market additional supplies of producer milk needed in the expanded marketing area.

10. The handler definition should be expanded to include a cooperative association which elects to be the handler on milk of its member producers which is delivered from the farm to the fluid milk plant of another handler in a tank truck owned and operated by or under contract to such association. The major cooperative association in this market is now supplying the principal handlers with their milk in tank trucks.

Allowing a cooperative association to be the responsible handler on bulk tank milk received at farms would promote more efficient marketing by providing greater flexibility in assignment and movement of such milk. As a handler for such milk, a cooperative would be required to report the quantities of such milk received at each pool plant. This information would be readily available to the cooperative and its reports in conjunction with the reports from pool plant operators would enable the market administrator to establish the quantities of producer milk to be accounted for at each pool plant.

Handlers operating pool plants would pay the cooperative as a handler the applicable uniform prices for milk received. This would facilitate the operation of the order in that any ments in classification resulting audit of a handler's pool plant would be made directly with such dler.

All milk for which the coop elects to be the handler would be to have been received at the which it was delivered. Member diverted to a nonpool plant deemed to have been received pool plant from which diverted ducers would receive the uniform on such milk. Member milk by the association as a handler to pool distributing plant or excess of the limits herein would not be considered producer

11. If for any reason a price required by this order for class prices or for other purposes available in the manner market administrator should use determined by the Secretary to be alent to the price which is Including such a provision in the will leave no uncertainty with the procedure which shall be the absence of any price which are customarily used and prevent any unnecessary in the operation of the order. This vision is incidental to, and not sistent with, other provisions of order and is necessary to effectuate provisions.

12. The entire order should be drafted to incorporate conforming clarifying changes and to facilitate plication of its various provisions.

In designating which persons be subject to regulation and the cation of order provisions to new or revised definitions are in the attached order, including for "producer", "fluid milk "fluid milk plant", "producer "other source milk". The definitions "pool plant", "distributing plant" "supply plant" are discussed in this decision.

"Producer" should mean any except a producer-handler, who duces milk in compliance with inspection requirements of a duly stituted health authority, which received at a pool plant.

"Fluid milk product" should milk, skim milk, buttermilk, milk, flavored milk drinks, sweet cream disposed of as such, or any ture in fluid form of cream and skim milk (except eggnog, ice mix, frozen dessert mix, aerated products, evaporated and milk or skim milk, and sterilized ucts in hermetically sealed metal tainers). The items designated as milk products pursuant to this would be those products which posed of by handlers are Class I milk.

"Fluid milk plant" should be as a pool plant or a distributing which is not a pool plant. Such tion will enable the market tor to use the same report forms distributing plants, both pool and pool. In addition, it will facilitate ulating the language in the

...provisions as they apply to such ...especially with respect to those ...plants which are not pool ...

...milk" should be defined as ...milk and butterfat contained ...received at a pool plant directly ...Grade A dairy farmers or a coop... association as a handler. Pro... would also include milk di... from a pool plant to a nonpool ...by a cooperative association or a ...handler under certain con...

...order now provides for unlimited ...of producer milk to nonpool ...in any month. Producers pro... that diversion be limited to 14 days ...any month of August through ...

...for unlimited diversion dur... months when reserve supplies ...are heaviest will facilitate the ...of such milk to nonpool plants ...facturing. Unlimited diversion ...necessary nor desirable under ...marketing conditions in the ex... area during those months when ...needed for Class I use in the ...

...producer milk status for diverted milk ...be limited during each month of ...through January to a quantity ...greater than the quantity of pro... milk that was delivered to pool ...in such months. Diverted milk ...be deemed to have been received ...plant from which diverted.

"Other source milk" should be defined ...skim milk and butterfat contained ...represented by fluid milk products ...by the handler in his operations ...producer milk, fluid milk prod... received from pool plants and in... at the beginning of the month. ...other source milk represents skim ...and butterfat which is not subject ...pricing provisions of this order ...the month. It would include all ...products from plants other than ...plants, milk received from producer-... and all manufactured dairy ...from any source which are re... or converted into another ...during the month. It would in... those manufactured products from ...own production which are made ...are reprocessed or converted into ...product during the same or later ...

...on proposed findings and con... Briefs and proposed findings ...conclusions were filed on behalf of ...interested parties. These briefs, ...findings and conclusions, and ...evidence in the record were consid... in making the findings and con... set forth above. To the extent ...the suggested findings and conclu... filed by interested parties are in... with the findings and con... set forth herein, the requests to ...such findings or to reach such con... are denied for the reasons previ... stated in this decision.

General findings. (a) The proposed ...agreement and order and all ...terms and conditions thereof, will ...to effectuate the declared policy ...Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and order will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order. The following order regulating the handling of milk in the Rockford-Freeport, Illinois marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carrried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the proposed order.

DEFINITIONS

§ 1038.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Market Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 1038.2 Secretary.

"Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

§ 1038.3 Department.

"Department" means the United States Department of Agriculture.

§ 1038.4 Person.

"Person" means any individual, partnership, corporation, association, or any other business unit.

§ 1038.5 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or milk products for its members.

§ 1038.6 Rock River Valley marketing area.

"Rock River Valley marketing area", hereinafter called the "marketing area", means all the territory within the boundaries of Rock County, Wisconsin; the Illinois counties of Boone, Carroll, De Kalb, Jo Daviess (except the city of East Dubuque), Lee, Ogle, Stephenson, Winnebago and the townships of Caloma, Hahnaman, Hopkins, Hume, Jordan, Montmorency, Sterling and Tampico in Whiteside County; including territory within such boundaries occupied by government (Municipal, State or Federal) reservations, installations, institutions or other similar establishments.

§ 1038.7 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, sweet or sour cream disposed of as such or any mixture in fluid form of cream and milk or skim milk (except eggnog, ice cream mix, frozen dessert mix, aerated cream products, evaporated and condensed milk or skim milk, and sterilized products in hermetically sealed metal containers).

§ 1038.8 Route.

"Route" means a delivery (including disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk product classified as Class I pursuant to § 1038.41(a)(1) to a retail or wholesale outlet other than a milk plant or a distribution point.

§ 1038.9 Distributing plant.

"Distributing plant" means a plant in which any Grade A fluid milk product is processed or packaged and disposed of during the month on routes in the marketing area.

§ 1038.10 Supply plant.

"Supply plant" means a plant from which Grade A milk, skim milk or cream is shipped during the month to a pool plant.

§ 1038.11 Pool plant.

"Pool plant" means a plant specified in paragraph (a) or (b) of this section except that of a producer-handler or a nonpool plant pursuant to § 1038.65: *Provided,* That if a portion of a plant is physically separated from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(a) A distributing plant from which not less than 50 percent of the total Grade A milk receipts is disposed of during the month on routes and not less than 10 percent of such receipts is disposed of in the marketing area on routes.

(b) A supply plant from which not less than 50 percent of the Grade A milk received from dairy farmers at such plant during the month is shipped as fluid milk products to pool plants qualified pursuant to paragraph (a) of this section: *Provided,* That a supply plant which qualified pursuant to this paragraph in each of the immediately preceding months of September through November shall be a pool plant for the months of March through June unless written application is filed with the market administrator on or before the first day of any such month to be designated

a nonpool plant for such month and for each subsequent month through June during which it would not otherwise qualify as a pool plant.

§ 1038.12 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant or that of a producer-handler) which receives milk from dairy farmers or is a milk manufacturing, processing or bottling plant.

§ 1038.13 Fluid milk plant.

"Fluid milk plant" means:

(a) A pool plant; or

(b) A distributing plant which is a nonpool plant.

§ 1038.14 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more fluid milk plants;

(b) Any cooperative association with respect to milk from producers which it causes to be diverted from a pool plant to a nonpool plant for the account of such cooperative association; or

(c) Any cooperative association with respect to the milk of its producers which is delivered from the farm to the fluid milk plant of another handler in a tank truck owned and operated by or under contract to such cooperative association: *Provided*, That such cooperative association shall not be a handler pursuant to this paragraph unless the market administrator is notified in writing prior to the first day of the month in which such milk is delivered that it elects to be the handler for such milk: *And provided further*, That such milk for which a cooperative association is the handler pursuant to this paragraph shall be deemed to have been received at the location of the fluid milk plant to which such milk is delivered.

§ 1038.15 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant and who receives no fluid milk products from other dairy farmers or from sources other than pool plants: *Provided*, That such person provides proof satisfactory to the market administrator that the care and management of all the dairy animals and other resources necessary to produce the entire volume of fluid milk products handled (excluding receipts from pool plants) and the operation of the processing and distributing business are the personal enterprise and risk of such person.

§ 1038.16 Producer.

"Producer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received at a pool plant.

§ 1038.17 Producer milk.

"Producer milk" means the skim milk and butterfat contained in Grade A milk received at a pool plant directly from a dairy farmer or a handler pursuant to § 1038.14(c): *Provided*, That milk diverted from pool plants to nonpool plants which are not subject to the classification and pricing provisions of another order issued pursuant to the Act shall be deemed to have been received by the diverting handler at the pool plant from which diverted: *And provided further*, That in any of the months of August through January, the quantity of milk of any producer diverted from pool plants to nonpool plants which are not subject to the classification and pricing provisions of another order issued pursuant to the Act that is greater than the quantity delivered to pool plants shall not be deemed to have been received by the diverting handler at the plant from which diverted and shall not be producer milk.

§ 1038.18 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Fluid milk products from any source except (1) fluid milk products received from pool plants, (2) producer milk, or (3) inventory of fluid milk products at the beginning of the month; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed, converted into or combined with another product in the plant during the month.

§ 1038.19 Base milk.

"Base milk" means producer milk during each month of March through June which is not in excess of such producer's base multiplied by the number of days of production that such milk was received at pool plants in such month: *Provided*, That base milk shall not include milk received from a farm from which milk is delivered in the same month to a plant at which it is subject to the classification and pricing provisions of another order issued pursuant to the Act.

§ 1038.20 Excess milk.

"Excess milk" means milk received at pool plants from a producer during each month of March through June which is in excess of the base milk received from such producer during such month.

§ 1038.21 Butter price.

"Butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago as reported during the month by the Department.

MARKET ADMINISTRATOR

§ 1038.30 Designation.

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1038.31 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1038.32 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period, as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1038.78, the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses except those incurred under § 1038.77, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1038.35 and 1038.36, nor payments pursuant to §§ 1038.64, 1038.70, 1038.71, 1038.76, 1038.77 and 1038.78;

(g) Submit his books and records for examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 5th day of each month the minimum price for Class I milk pursuant to § 1038.51(a) and the Class I butterfat differential pursuant to § 1038.52(a), both for the current month, and the minimum price for Class II milk pursuant to § 1038.51(b) and the Class II butterfat differential pursuant to § 1038.52(b), both for the preceding month;

(2) The 11th day after the end of each month of July through February the uniform price pursuant to § 1038.62 and the butterfat differential pursuant to § 1038.71; and

(3) The 11th day after the end of each month of March through June, the uniform prices for base milk and excess milk pursuant to § 1038.63 and the butterfat differential pursuant to § 1038.71;

(k) On or before the 10th day after the end of each month report to each cooperative association, upon request by such association, the percentage of the milk caused to be delivered by the cooperative association or its members which was utilized in each class at each pool plant receiving such milk. For the purpose of this report, the milk so received shall be allocated to each class at each pool plant in the same ratio as all producer milk received at such plant during the month; and

(l) On or before February 15 of each year, notify each producer and the handler receiving milk from such producer of the base established by such producer.

REPORTS, RECORDS AND FACILITIES

§ 1038.35 Reports of receipts and utilization.

On or before the 8th day after the end of each month, each handler, except a producer-handler and a handler pursuant to § 1038.14(c), shall report to the market administrator for such month, reporting separately for each fluid milk plant, in detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in or represented by:

(1) Grade A milk received from dairy farmers (including for each month of March through June the quantity of producer milk that is base milk and excess milk) and from handlers pursuant to § 1038.14(c);

(2) Fluid milk products received from pool plants;

(3) Other source milk;

(4) Milk diverted to nonpool plants pursuant to § 1038.17; and

(5) Inventories of fluid milk products on hand at the beginning and end of the month;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area; and

(c) Such other information with respect to the utilization of skim milk and butterfat as the market administrator may prescribe.

§ 1038.36 Other reports.

(a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler pursuant to § 1038.14(c) shall report to the market administrator in detail and on forms prescribed by the market administrator on or before the 8th day after the end of each month the quantities of skim milk and butterfat in producer milk (including for each month of March through June the quantity of producer milk that is base milk and excess milk) delivered to each pool plant in such month.

(c) Each handler except a producer-handler shall report to the market administrator in detail and on forms prescribed by the market administrator, on or before the 25th day after the end of the month his producer payroll for such month which shall show for each producer:

(1) His identity;

(2) The quantity of milk received from such producer and the number of days, if less than the entire month, on which milk was received from such producer;

(3) The average butterfat content of such milk; and

(4) The net amount of such handler's payment, together with the price paid and the amount and nature of any deductions.

§ 1038.37 Records and facilities.

Each handler shall maintain and make available to the market administrator, during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk and milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products in inventory at the beginning and end of each month; and

(d) Payments to dairy farmers and cooperative associations, including the amount and nature of any deductions and the disbursement of money so deducted.

§ 1038.38 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the month to which books and records pertain: *Provided*, That if within such 3-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1038.40 Skim milk and butterfat to be classified.

The skim milk and butterfat which are required to be reported pursuant to § 1038.35 shall be classified each month by the market administrator pursuant to the provisions of §§ 1038.41 through 1038.46.

§ 1038.41 Classes of utilization.

Subject to the conditions set forth in § 1038.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including that used to produce reconstituted skim milk) and butterfat:

(1) Disposed of in the form of a fluid milk product (except as provided in paragraph (b) (2), (3) and (4) of this section); and

(2) Not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be:

(1) Skim milk and butterfat used to produce any product other than a fluid milk product;

(2) Skim milk in fluid milk products disposed of for livestock feed or dumped if the market administrator has been notified in advance and afforded the opportunity to verify such dumping;

(3) Skim milk represented by the nonfat milk solids added to a fluid milk product which is in excess of the weight of an equivalent volume of the fluid milk products prior to such addition;

(4) Skim milk and butterfat in fluid milk products delivered in bulk to and used at commercial food establishments devoted exclusively to the manufacture of bakery products, candy, or processed foods in hermetically sealed containers;

(5) Skim milk and butterfat contained in inventory of fluid milk products on hand at the end of the month;

(6) Skim milk and butterfat, respectively (except in milk diverted to a nonpool plant pursuant to § 1038.17) in shrinkage allocated pursuant to § 1038.42(b)(1) but not in excess of:

(i) 2.0 percent of producer milk except that received from a handler pursuant to § 1038.14(c);

(ii) Plus 1.5 percent of producer milk received from a handler pursuant to § 1038.14(c): *Provided*, That if the handler receiving such producer milk files notice with the market administrator that he is purchasing such milk on the basis of farm weights, the applicable percentage pursuant to this subdivision shall be 2.0 percent;

(iii) Plus 1.5 percent of bulk fluid milk products from pool plants; and

(iv) Less 1.5 percent of bulk fluid milk products transferred to other plants; and

(7) Skim milk and butterfat in shrinkage of other source milk allocated pursuant to § 1038.42(b)(2).

§ 1038.42 Shrinkage.

The market administrator shall allocate shrinkage over a handler's receipts at each of his pool plants as follows:

(a) Compute the total shrinkage of skim milk and butterfat at each pool plant, and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in:

(1) Producer milk (except milk diverted to a nonpool plant pursuant to § 1038.17), plus fluid milk products in bulk from other pool plants and less transfers of fluid milk products in bulk to other plants; and

(2) Other source milk.

§ 1038.43 Responsibility of handlers and reclassification of milk.

All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market adminstrator that such skim milk or butterfat should be classified otherwise.

§ 1038.44 Transfers.

Skim milk or butterfat disposed of each month from a fluid milk plant shall be classified:

(a) As Class I milk if transferred in the form of a fluid milk product to a pool plant unless utilization as Class II milk is claimed for both plants in the reports submitted for the month to the market adminstrator pursuant to § 1038.35: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the transferee plant after the subtraction of other source milk pursuant to § 1038.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *Provided further*, That if the transferor plant is a nonpool plant the skim milk or butterfat transferred shall be classified as Class I milk and as Class II milk in the same ratio as other source milk at the transferee plant is allocated to each class pursuant to § 1038.46(a)(4) and the corresponding step of § 1038.46(b): *And provided further*, That if other source milk was received at either or both plants, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk at both plants;

(b) As Class I milk, if transferred to a producer-handler in the form of a fluid milk product and if the transferor plant is a pool plant;

(c) As Class I milk, if transferred or diverted to a nonpool plant in the form of a fluid milk product except as provided in paragraph (d) of this section; and

(d) As Class II milk, if transferred or diverted in bulk in the form of a fluid milk product to a nonpool plant not more than 150 miles, by the shortest highway distance as determined by the market administrator, from the nearer of the City Halls of Jamesville, Wisconsin and Sterling, Illinois: *Provided*, That:

(1) The transferring or diverting handler claims classification in Class II milk in his report submitted pursuant to § 1038.35;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in Grade A milk received during the month from dairy farmers who the market administrator determines constitute the regular source of supply for such plant: *Provided*, That any skim milk or butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from the nonpool plant which is in excess of receipts from such dairy farmers shall be assigned to such transfers or diversions from the fluid milk plant and shall be classified as Class I milk: *And: provided further*, That if the total skim milk and butterfat which were transferred or diverted during the month to such nonpool plant from all plants subject to the classification and pricing provisions of this part and any other orders issued pursuant to the Act are more than the skim milk and butterfat available for assignment to Class I milk pursuant to the preceding proviso hereof, the skim milk and butterfat assigned to Class I milk at a fluid milk plant shall be not less than that obtained by prorating the assignable Class I milk at the transferee plant over the receipts at such plant from all plants subject to the classification and pricing provisions of this and other orders issued pursuant to the Act.

§ 1038.45 Computation of skim milk and butterfat in each class.

For each month the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization submitted pursuant to § 1038.35 for each fluid milk plant and shall compute the pounds of skim milk and butterfat in each class at each such plant: *Provided*, That if any water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be a quantity equivalent to the nonfat milk solids contained in such product plus all the water originally associated with such solids.

§ 1038.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1038.45, the market administrator shall determine the classification of Grade A milk received from dairy farmers and from handlers pursuant to § 1038.14(c) at each fluid milk plant each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk classified as Class II milk pursuant to § 1038.41(b)(6);

(2) Subtract from the total pounds of skim milk in Class I milk the pounds of skim milk received in the form of fluid milk products in containers not larger than a gallon subject to the pricing and pooling provisions of another order issued pursuant to the Act and disposed of as Class I in the same package received;

(3) Subtract from the remaining pounds of skim milk in each class, series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in each class, series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products not subject to the pricing and pooling provisions of another order issued pursuant to the Act;

(5) Subtract from the remaining pounds of skim milk in each class, series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products subject to the pricing and pooling provisions of another order issued pursuant to the Act and not subtracted pursuant to subparagraph (2) of this paragraph;

(6) Subtract from the remaining pounds of skim milk in each class, series beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from pool plants according to the classification of such products pursuant to § 1038.44(a); and

(9) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in Grade A milk received from dairy farmers and handlers pursuant to § 1038.14(c), subtract such excess (hereinafter referred to as "overage") from the remaining pounds of skim milk in each class in series beginning with Class II milk.

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section; and

(c) Determine the weighted average butterfat content of milk in each class computed pursuant to paragraphs (a) and (b) of this section.

§ 1038.47 Inventory reclassification.

From any skim milk or butterfat assigned to Class I milk pursuant to § 1038.46(a)(6) and the corresponding step in § 1038.46(b), subtract in the following order the skim milk and butterfat, respectively, assigned during the preceding month to Class II milk pursuant to § 1038.46 in:

(a) The remainder after the subtracting pursuant to § 1038.46(a)(6) and the corresponding step in § 1038.46(b);

(b) Other source milk classified and priced as Class I milk pursuant to another Federal order; and

(c) Other source milk not classified and priced as Class I milk pursuant to another Federal order.

MINIMUM PRICES

§ 1038.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk f.o.b. plants in Wisconsin and Minnesota, as reported by the Department for the month: *Provided*, That such reported price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent at the rate of the butter price times 0.120 and rounded to the nearest cent.

§ 1038.51 Class prices.

Subject to the provisions of §§ 1038.52 and 1038.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The price for Class I milk shall be the basic formula price for the preceding month plus $1.12 April through November; $0.72 March through June and $0.92 in other months: *Provided*, That such Class I price shall be increased or decreased, respectively, 2 cents for each full percent that the adjusted supply-demand ratio computed pursuant to Part 1030 (Chicago) of this chapter is greater or less than 72 percent, but shall not be increased or decreased more than 24 cents because of such adjusted supply-demand ratio.

(b) *Class II milk price.* The Class II milk price shall be the basic formula price.

§ 1038.52 Butterfat differentials to handlers.

For milk containing more or less than 3.5 percent butterfat, the class prices for the month pursuant to § 1038.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at a rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the butter price for the preceding month by 0.120.

(b) *Class II price.* Multiply the butter price for the month by 0.115.

§ 1038.53 Location differentials to handlers.

The Class I price for Grade A milk received from dairy farmers or handlers pursuant to § 1038.14(c) at a fluid milk plant 115 miles or more from the Chicago City Hall shall be decreased 2 cents for each 15 miles or fraction thereof that such plant is more than 100 miles from the Chicago City Hall, as determined by the market administrator: *Provided*, That the differential pursuant to this section shall not be more than 12 cents: *And provided further*, That for the purpose of calculating such location differential, fluid milk products transferred between fluid milk plants shall be assigned to any remainder of Class II milk in the transferee plant after making the calculation prescribed in § 1038.46(a)(6) and the corresponding step of § 1038.46(b) for such plant, such assignment to the transferor plant to be made in sequence according to the location differential applicable at each plant, beginning with the plant farthest from the City Hall in Chicago, Illinois.

§ 1038.54 Use of equivalent prices.

If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

§ 1038.55 Rate of payment on unpriced milk.

The rate of payment per hundredweight to be made by handlers on unpriced other source milk allocated to Class I milk shall be any plus amount obtained by subtracting the Class II price adjusted by the Class II butterfat differential from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk.

APPLICATION OF PRICES

§ 1038.60 Computation of value of milk at each pool plant.

The value of producer milk received by a handler during each month at each pool plant shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantities of milk in each class by the applicable class price and add the resulting amounts;

(b) Add the amounts obtained by multiplying the overage deducted from each class pursuant to § 1038.46(a)(9) and the corresponding step of § 1038.46(b) by the applicable class prices;

(c) Add the amount obtained by multiplying the quantities of skim milk and butterfat subtracted from Class I milk pursuant to § 1038.46(a) (3) and (4) and the corresponding steps of § 1038.46 (b) by the rate of payment on unpriced milk pursuant to § 1038.55 at the nearest nonpool plants from which an equivalent amount of such other source skim milk or butterfat was received: *Provided*, That if the source of any such fluid milk product received at a pool plant is not clearly established, or if such skim milk and butterfat is received or used in a form other than a fluid milk product, such product shall be considered to have been received from a source at the location of the pool plant where it is classified; and

(d) Add the amounts obtained by multiplying (1) the quantities of skim milk and butterfat subtracted pursuant to § 1038.47(a) by the difference between the Class II price for the preceding month and the Class I price for the current month, and (2) the quantities of skim milk and butterfat subtracted pursuant to § 1038.47(c) by the rate of payment on unpriced milk pursuant to § 1038.55.

§ 1038.61 Computation of aggregate value used to determine uniform prices.

For each month the market administrator shall compute an aggregate value from which to determine the uniform prices as follows:

(a) Combine into one total the values obtained pursuant to § 1038.60 for all handlers who received producer milk at pool plants during the month and who reported pursuant to § 1038.35 for such month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 3.5 percent the amount obtained by multiplying such difference by the butterfat differential to producers and multiplying the result by the hundredweight of such producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 1038.72; and

(d) Add an amount equal to one-half the unobligated cash balance in the producer-settlement fund.

§ 1038.62 Computation of uniform price.

For each month of July through February, the market administrator shall compute a uniform price as follows:

(a) Divide the aggregate value computed pursuant to § 1038.61 by the total hundredweight of producer milk included in such computation; and

(b) Subtract not less than four nor more than five cents from the price computed pursuant to paragraph (a) of this section.

§ 1038.63 Computation of uniform prices for base milk and excess milk.

For each month of March through June, the market administrator shall compute the uniform prices for base milk and excess milk as follows:

(a) Determine the aggregate classification of producer milk included in the computation of value pursuant to § 1038.61 and the total hundredweight of such milk that is base milk and that is excess milk;

(b) Determine the value of excess milk by assigning such milk in series, beginning with Class II milk, to the hundredweight of milk classified pursuant to paragraph (a) of this section, multiplying the quantity so assigned by the respective class prices for milk containing 3.5 percent butterfat, and adding together the resulting amounts;

(c) Divide the total value of excess milk obtained in paragraph (b) of this section by the total hundredweight of such milk. The quotient, rounded to the nearest cent, shall be the uniform price for excess milk;

(d) Subtract the value of excess milk pursuant to paragraph (c) of this section from the aggregate value of all milk obtained in § 1038.61; and

(e) Divide the amount obtained in paragraph (d) of this section by the total hundredweight of base milk obtained in paragraph (a) of this section, and subtract not less than four cents nor

more than five cents from the price thus computed. The resulting figure rounded to the nearest cent shall be the uniform price for base milk.

§ 1038.64 Handlers operating nonpool plants.

Each handler in his capacity as the operator of a nonpool plant (except a nonpool plant pursuant to § 1038.65) shall pay to the market administrator for deposit into the producer-settlement fund the amount computed pursuant to paragraph (b) of this section unless the handler elects at the time his report pursuant to § 1038.35 is due, to pay the amount computed pursuant to paragraph (a) of this section. The amounts payable pursuant to this section shall be made on or before the 18th day after the end of each month.

(a) An amount obtained by multiplying the rate determined pursuant to § 1038.55 by the hundredweight of skim milk and butterfat disposed of as Class I milk from such plant on routes in the marketing area during the month which is in excess of the hundredweight of skim milk and butterfat, respectively, received from pool plants during the month and classified as Class I milk at such pool plants.

(b) Any plus amount remaining after deducting from the obligation pursuant to § 1038.60 computed as if such plant were a pool plant:

(1) The total payment made on or before the 18th day after the end of the month to dairy farmers or handlers pursuant to § 1038.14(c) for Grade A milk received at such plant during the month; and

(2) Any payments to the producer-settlement fund under other orders issued pursuant to the Act applicable to milk at such plant during the month.

§ 1038.65 Plants subject to other Federal orders.

A distributing plant or a supply plant shall be a nonpool plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to § 1038.11 and a greater volume of fluid milk products is disposed of from such plant on routes in this marketing area and to pool plants qualified on the basis of route distribution in this marketing area than in the marketing area regulated pursuant to such other order. The operator of a distributing plant or a supply plant which is a nonpool plant pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1038.35) and allow verification of such reports by the market administrator.

PAYMENTS FOR MILK

§ 1038.70 Time and method of payment.

(a) Each handler who operates a pool plant shall pay each producer on or before the 18th day after the end of each month, at not less than the applicable uniform prices pursuant to § 1038.62 or § 1038.63 adjusted pursuant to §§ 1038.71, 1038.72 and 1038.77, for each hundredweight of producer milk received during such month for which payment is not made to a cooperative association pursuant to paragraph (b) of this section;

(b) Each handler shall make payment to a cooperative association for producer milk, on or before the 15th day after the end of each month, which it caused to be delivered to such handler if such cooperative is authorized to collect such payment for its members and exercises such authority: *Provided*, That such payment shall be an amount equal to the sum of the individual payments pursuant to paragraph (a) of this section;

(c) In making the payments for producer milk pursuant to this section, each handler who operates a pool plant shall furnish each producer or cooperative association from whom he has received such milk a supporting statement in such form that it may be retained by the recipient, which shall show:

(1) The month and identity of the producer;

(2) The daily and total pounds (including for the months of March through June, the pounds of base milk and excess milk) and the average butterfat content of producer milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 1038.71 Butterfat differential to producers.

The uniform prices pursuant to §§ 1038.62 and 1038.63 shall be increased or decreased for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to Class I and Class II milk pursuant to § 1038.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth cent.

§ 1038.72 Location differentials to producers.

The uniform price pursuant to § 1038.62 and the uniform price for base milk pursuant to § 1038.63 for producer milk received at a pool plant 115 miles or more from the Chicago City Hall shall be decreased two cents for each 15 miles or fraction thereof that such plant is more than 100 miles from the Chicago City Hall, as determined by the market administrator: *Provided*, That the differential pursuant to this section shall not be more than 12 cents.

§ 1038.73 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made to him and out of which he shall make payments from such fund pursuant to §§ 1038.64, 1038.74, 1038.75 and [illegible]: *Provided*, That the market administrator shall offset the payment due to a handler against payments due from such handler.

§ 1038.74 Payments to the producer-settlement fund.

On or before the 15th day after the end of each month each handler shall pay to the market administrator the amount by which the obligation pursuant to § 1038.70 of such handler for producer milk received during the month is less than the value of such producer milk pursuant to § 1038.60.

§ 1038.75 Payments from the producer-settlement fund.

On or before the 16th day after the end of each month the market administrator shall pay to each handler the amount by which the obligation, pursuant to § 1038.70, of such handler for producer milk received during the month exceeds the value of such producer milk pursuant to § 1038.60: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 1038.76 Adjustment of accounts.

(a) Whenever verification by the market administrator of reports or payments of any handler discloses errors resulting in money due (1) the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made not later than the date for making payments following such disclosure.

(b) Any unpaid obligations of a handler shall be increased one-half percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 1038.77 Marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1038.70 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to producer milk received by such handler (except such handler's own production) during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such deductions shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed

...or in part by the market administrator or by an agent engaged by ...responsible to him.

...the case of producers for whom ...cooperative association is performing, ...determined by the Secretary, the service ...set forth in paragraph (a) of this ...each handler shall make, in lieu ...deductions specified in paragraph ...of this section, such deductions as ...authorized by such producers and, on ...before the 15th day after the end of ...month, pay over such deductions to ...association rendering such services.

...78 Expense of administration.

...his pro rata share of the expense ...administration of the order, each ...shall pay to the market administrator on or before the 15th day ...the end of each month 4 cents per ...hundredweight or such lesser amount ...the Secretary may prescribe with respect to skim milk and butterfat contained in (a) producer milk (including ...handler's own farm production), (b) ...source milk at a pool plant which ...allocated to Class I milk pursuant to ...(a) (3) and (4) and the corresponding steps in § 1038.46(b), and ...receipts at a fluid milk plant which ...nonpool plant of Grade A milk from ...farmers on which no administrative ...expense assessment is being paid ...to another order issued pursuant to the Act: *Provided*, That if the ...of such nonpool plant elects ...payment to the producer-settlement fund pursuant to § 1038.64(a), the ...of administration pursuant to ...section shall be applicable only to ...hundredweight of skim milk and butterfat on which payment to the producer-settlement fund is due pursuant to that paragraph.

...79 Termination of obligations.

...provisions of this section shall ...apply to any obligation under this part ...for the payment of money.

...The obligation of any handler to ...pay money required to be paid under the ...of this part shall, except as provided in paragraphs (b) and (c) of this ..., terminate two years after the ...last day of the calendar month during ...which the market administrator receives ...the handler's utilization report on the ...milk involved in such obligation unless ...within such two-year period the market ...administrator notifies the handler in ...writing that such money is due and payable. Service of such notice shall be ...complete upon mailing to the handler's ...last known address, and it shall contain, ...but need not be limited to, the following:

...The amount of the obligation:

...The months during which the ...milk, with respect to which the obligation exists, was received or handled; and

...If the obligation is payable to one ...or more producers or to an association ...of producers, the name of such producers ...or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

...If a handler fails or refuses, with ...respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market adimnistrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period, with respect to such obligation, shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(b) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c (15) (A) of the Act, a petition claiming such money.

DETERMINATION OF BASE

§ 1038.80 Base.

"Base" for each producer shall be determined by the market administrator and shall be the amount obtained by dividing the total pounds of producer milk received from such producer at all pool plants during the months of September through November immediately preceding by the number of days on which such milk is received from such producer: *Provided*, That for the purpose of computing the base of a producer pursuant to this section, the number of days included in his producer milk deliveries shall be the number of days of production of producer milk and the deliveries of any dairy farmer during the preceding September through November to a nonpool plant that is a pool plant in any of the months of March through June shall be considered producer milk received at a pool plant: *Provided further*, That if no milk is received from a producer at a pool plant during the months of September through November or if milk is received on less than 60 days during such months, the base of such producer shall be his average daily deliveries of producer milk for each of the months of March through June multiplied by 60 percent in March, 55 percent in April and 50 percent in May and June: *And provided further*, That any producer for whom a base has been established pursuant to this section based on deliveries of 60 or more days during the preceding months of September through November may, in lieu thereof, by notifying the market administrator prior to March 1, be accorded a base computed pursuant to the immediately preceding proviso of this section.

§ 1038.81 Base rules.

The following rules shall apply in connection with the establishment of bases:

(a) A base shall be held in the name of the producer and may be transferred only at his option;

(b) The milk to which the transferred base shall apply must be produced on the same farm from which such base was earned and the transferee must notify the market administrator in writing on or before the last day of the month that such base is to be transferred indicating the name of the transferee, the amount of base transferred, and the effective date of the transfer; and in the event of a producer's death his base may be so transferred upon written notice to the market administrator from any member of the producer's immediate family;

(c) Where two or more producers deliver milk from the same farm, the market administrator shall compute one base for each such farm, which base shall be held jointly in the names of the producers, and during March through June, each producer having an interest in a jointly held base shall share the base during each delivery period in the same proportion as he shares in the milk deliveries in such delivery period: *Provided*, That if the producers have earned bases separately, one or more of which was earned on another farm, each producer may retain his individual base if application is made in writing to the market administrator postmarked not later than the last day of the first month during which the base is to apply;

(d) When two or more producers holding a joint base cease delivering milk from the same farm, the base may be divided among the producers having an interest in such base by notification in writing to the market administrator postmarked not later than the last day of the month during which the division is to be effective, such notification to specify the terms of division of base and bearing the signature of all interested producers: *Provided*, That in the event producers do not notify the market administrator of their agreed terms of division of base by letter postmarked not later than the last day of the month during which the division is effective, the market administrator shall divide the base among the producers in the same ratio as they shared in the milk deliveries during the base-making period, or if the base is held in the name of a partnership, it shall be divided equally among the interested producers; and

(e) Subject to the provisions set forth in paragraphs (a) and (b) of this section, a producer who discontinues shipping milk to a pool plant during September through November may transfer to another producer credit for milk deliveries for base-making purposes.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1038.90 Effective time.

The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1038.91 Suspension or termination.

The Secretary shall suspend or terminate any or all of the provisions of this part whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part shall, in any event, terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 1038.92 Continuing power and duty of the market administrator.

(a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs be performed by such other person, persons or agency as the Secretary may designate.

(b) The market administrator or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and

(3) If so directed by the Secretary execute such assignment or other instruments necessary or appropriate to vest in such person full title to all funds, property and claims vested in the market administrator or such person pursuant thereto.

§ 1038.93 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1038.100 Separability of provisions.

If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 1038.101 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Signed at Washington, D.C., on February 15, 1962.

FRANK J. WELCH,
Assistant Secretary.

MILK IN MICHIGAN UPPER PENINSULA AND NORTHEASTERN WISCONSIN MARKETING AREAS

Notice of Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendments to Tentative Marketing Agreements and Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas which was issued February 7, 1962 (27 F.R. 1280), is hereby extended to March 15, 1962.

Signed at Washington, D.C., on February 16, 1962.

JAMES T. RALPH,
Assistant Secretary.

[Docket Nos. AO-123-A24, AO-308-A2]

MILK IN LOUISVILLE-LEXINGTON, KENTUCKY, AND OHIO VALLEY MARKETING AREAS

Decision on Proposed Amendments to Tentative Marketing Agreements and Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Louisville, Kentucky, on September 18-27, 1961, pursuant to notice thereof issued on August 25, 1961 (26 F.R. 8105).

Upon the basis of the evidence [illegible] duced at the hearing and the [illegible] thereof, the Assistant Secretary, [illegible] States Department of Agriculture, [illegible] January 31, 1962 (27 F.R. 1013; F[illegible] 62-1170) filed with the Hearing [illegible] United States Department of Agriculture, his recommended decision [illegible] ing notice of the opportunity to file [illegible] ten exceptions thereto.

The material issues on the record of the hearing relate to:

1. Consolidation of the Louisville-Lexington order and the Ohio Valley order into one order.
2. Marketing area.
3. Provisions of the consolidated order with respect to:
(a) Milk to be pooled and priced;
(b) Classification and allocation of milk;
(c) Class prices;
(d) Payments on unpriced milk disposed of in the marketing area from other pool plants;
(e) Payments to producers; and
(f) Administrative and miscellaneous provisions.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Consolidation of orders.* Order No. 95 (new number) which regulates the handling of milk in the Louisville-Lexington marketing area and Order No. [illegible] (new number) which regulates the handling of milk in the Ohio Valley marketing area should be consolidated into one order to be designated as Order No. [illegible].

Kyana Milk Producers, Inc., a cooperative association representing approximately 3,300 member producers, proposed that the handling of milk in the present Louisville-Lexington and Ohio Valley marketing areas be regulated under one consolidated order. The association represents nearly all of the producers who supply the regular distributing plants and dealers in both markets with the exception of producers recently shifted from other Federal order markets to the Louisville-Lexington market. Of the approximately 3,300 members, about 2,300 are associated with the Louisville-Lexington market while the remaining members are associated with the Ohio Valley market.

The merger on May 1, 1961, of [illegible] operative associations in the Louisville-Lexington and Ohio Valley markets into one association under the name of Kyana Milk Producers has made this association the responsible marketing agent for but a small portion of the total producer milk supplies in the two markets. The association directs the movement of producer milk from farms to plants, assumes the responsibility for supplying handlers with their day-to-day milk requirements. The association also arranges for the disposition of the surplus milk of both markets. The performance of these marketing functions is facilitated by the operation of a plant owned at Louisville which serves as an assembly and balancing plant. Milk accumulated at this plant is either moved to handlers' plants in response to their varying milk needs or is moved to manufacturing plants

The cooperative association desires that the two orders be consolidated so that it may perform its marketing functions in a manner which is efficient in response to the needs of the markets it serves and which is equitable to its entire membership. The achievement of these objectives would be facilitated if the markets served are under a single order regulation. In order to gain efficiency in the handling of milk flexibility in movements of milk among plants served by the cooperative association would be desirable.

Movement of milk between plants under the separate orders presents classification and allocation problems which would not be present with regard to transfers of milk between plants under the same order. For example, priority is given to producer milk in the allocation of Class I milk under each order. Hence, milk received at a pool plant from a plant regulated under another order is given a secondary status with respect to assignment to Class I milk. Moreover, separate regulation may inhibit to some degree the shifting of producers between plants under the different orders. A base and excess plan is used in the Ohio Valley order and a take-out and payback seasonal incentive plan is used in the Louisville-Lexington order. These separate seasonal plans between the two orders also tend to hinder shifts of producers between the markets. All these distinctions would be eliminated in a combined order and they would facilitate the marketing problems of the cooperative association.

The distribution systems of the handlers under the two orders overlap both within the two marketing areas and in unregulated areas. Milk distribution routes originating from Louisville-Lexington order plants extend over a large part of the Ohio Valley marketing area. Under these circumstances it is desirable that all of the handlers under the two orders be under a single regulation which will provide one pricing arrangement. Under the separate orders different classification systems, different class prices and different utilizations of milk have resulted in price disparities between the two markets. A single pricing system under one order is therefore desirable for pricing milk throughout the entire consolidated area.

To accomplish the merger effectively and most equitably, the assets in the custody of the market administrator in administrative and producer-settlement funds under the Ohio Valley order should be merged with assets in similar funds under the Louisville-Lexington order. Any liabilities of such funds of the individual orders should be paid from the new funds so created. To distribute such funds under one order to producers and handlers under that order would unduly burden the producers and handlers now regulated by the other order. To distribute the funds under both orders and again accumulate the necessary reserves would entail considerable administrative detail for no good purpose.

2. *Marketing area.* The marketing area of the consolidated order should include all of the territory within the marketing areas of the present Louisville-Lexington and Ohio Valley orders plus the additional counties of Knox, Daviess, Martin, Orange and Washington in the State of Indiana and the counties of Mercer, Boyle and Garrard in the State of Kentucky. This territory may appropriately be designated as the "Louisville-Lexington-Evansville marketing area."

The marketing area of the Louisville-Lexington order now includes three counties in Indiana and twenty counties in the north central part of Kentucky. The marketing area of the present Ohio Valley order adjoins the western boundary of the Louisville-Lexington marketing area and includes nine Indiana counties and eleven Kentucky counties.

In conformity with the conclusion of this decision that the Louisville-Lexington and Ohio Valley orders should be consolidated, all of the territory now included in the marketing areas of these two orders should be included in the marketing area of the consolidated order.

Besides the proposal by Kyana Milk Producers to combine the marketing areas of the two orders, various proposals were made to add certain other areas either to the individual marketing areas or to the combined area. In Indiana, Sullivan, Greene, Knox, Daviess, Martin, Lawrence, Orange, and Washington Counties were proposed as part of the consolidated marketing area. Of these counties, Knox and Daviess were also proposed as a part of the Ohio Valley marketing area. In Kentucky, Todd and Logan Counties were proposed to be added to the Ohio Valley marketing area and Mercer, Boyle, and Garrard Counties were proposed to be added to the Louisville-Lexington marketing area. Deletion of Montgomery County, Kentucky, from the Louisville-Lexington marketing area was also proposed.

Of the eight Indiana counties proposed to be included in the consolidated marketing area, Orange and Washington were proposed by a handler operating a pool plant under the Ohio Valley order. These two counties, and the other six previously named, were also proposed by the operator of a nonpool plant at Vincennes, Indiana. This plant ordinarily disposes of more than 20 percent of its fluid disposition on routes in the Ohio Valley marketing area. It also has disposition in the marketing areas regulated by the Louisville-Lexington and the Suburban St. Louis orders. Under the pool plant standards recommended herein this plant would be fully regulated as a pool plant.

Extension of regulation to the five Indiana counties of Knox, Daviess, Martin, Orange, and Washington would bring under full regulation as pool plants two other plants at Vincennes in Knox County, a plant at Loogootee in Martin County, and a plant at Salem in Washington County. By including these five counties in the area, most of the sales made by each of these plants would be inside the marketing area. Nearly one-half of the sales from the Vincennes plant operated by the proponent would be in the marketing area herein proposed.

There is only a small quantity of milk sold in this 5-county area by a plant which may not qualify as a pool plant. That plant, located at Robinson, Illinois, accounts for minor percentages of sales in these five counties.

The proposed extension of regulation is necessary to provide for orderly marketing of milk in such areas through application of class prices to be paid by handlers disposing of milk in such areas and a uniform system of accounting for milk, including pooling with other fully regulated handlers.

Handlers not subject to regulation who distribute milk in these counties pay farmers prices approximating order blend prices irrespective of actual use of milk. Proponents complained that because of unregulated competitors' ability to purchase milk for Class I use at a price equal to order blend prices, proponents are at a disadvantage in supplying fluid outlets in these counties. Unregulated plants in these areas do not carry a full year-round supply of milk, but depend on supplemental receipts from other plants, and thus are able to maintain a high level of Class I utilization while nevertheless paying farmers a price equal only to blend prices under nearby orders.

Handlers presently regulated by the Ohio Valley or Louisville-Lexington orders and the Vincennes plant which would be regulated under the pooling requirements of this proposed order have the following percentages of total fluid milk product sales in each of these counties: Knox 43, Daviess 56, Martin 50, Orange 69, and Washington, more than 60. In Knox County another 5 percent of total sales are made by a handler regulated under the Indianapolis order.

Lawrence, Greene, and Sullivan Counties in Indiana should not be included in the marketing area.

A handler located at Seymour in Jackson County has about 18 percent of its sales in Lawrence County through a distribution outlet at Bedford and has minor sales in Washington and Orange Counties. This plant's distribution in Lawrence County accounts for about 40 percent of the sales in the county. A plant at Bloomington, Indiana, has distribution in Lawrence County estimated to be about 30 percent of the total, and has distribution in Greene County estimated to be 40 percent of the total. Distribution in Greene and Lawrence Counties by the plant at Bloomington represents about 22 percent of its fluid sales. While these plants at Seymour and Bloomington would be fully regulated if Greene and Lawrence Counties were included in the marketing area, the major part of their fluid disposition would be outside of territory now regulated or proposed to be regulated. Such disposition would be substantially in competition with plants which would not be regulated under the proposed order. It is concluded that these two counties should not be included in the marketing area.

With respect to Sullivan County, the data provided by proponent reveal some inconsistencies which prevent a definite conclusion as to the merits of the pro-

posal. It is clear, however, that some of the fluid distribution in Sullivan County is by plants not now regulated under any Federal order, nor is it expected that they would qualify as pool plants if Sullivan County were included in the proposed marketing area.

Boyle, Mercer, and Garrard Counties in Kentucky should be included in the marketing area to be regulated by the order. The fluid distribution in these counties by five plants which maintain a high Class I utilization while nevertheless paying farmers a price equal only to an order blend price constitutes a competitive advantage which is disruptive to the orderly marketing of milk in these areas. The extension of the regulation in these three Kentucky counties is expected to include as fully regulated plants all plants now disposing of milk in these counties. Distribution outside of the territory here adopted for the marketing area by plants which would be brought under regulation by this extension is very largely in competition only with plants which would be subject to Federal order regulation. The application of class pricing and uniform accounting for milk under a system of market pooling will establish orderly marketing conditions in these three counties.

In Boyle County, Kentucky, about half of the fluid sales are by regulated handlers. A small percentage of this distribution is regulated under the Cincinnati Federal order, and most of it under the Louisville-Lexington order. Another 25 percent of the sales are by a plant at Somerset partially regulated under the Louisville-Lexington order by virtue of sales in presently regulated territory. These sales, and disposition by a presently unregulated plant located in the county at Danville, account for most of the fluid disposition in the county.

In Mercer County, Kentucky, more than 70 percent of the fluid milk disposition is by plants now regulated under the Louisville-Lexington order. About 7 percent of the sales are by a plant at Campbellsville, Kentucky, which is partially regulated under the order by virtue of sales in presently regulated territory. The remainder of the milk distribution in the county is by an unregulated plant located in the county at Harrodsburg.

In Garrard County, Kentucky, about 65 percent of the fluid milk distribution is by handlers presently regulated under the Louisville-Lexington order. About 10 percent of the distribution in the county is by the plant at Somerset partially regulated by virtue of its sales in the area presently regulated by the order. The remainder of the sales are by an unregulated plant located in the county at Lancaster.

This three-county area thus is served preponderantly by handlers presently regulated. Effectiveness of the regulation in fulfilling the purpose of establishing orderly marketing conditions will be improved by inclusion of this territory in the marketing area.

A proposal made to delete Montgomery County, Kentucky, from the marketing area should not be adopted. This proposal was made by a handler whose pool plant is located at Morehead, Kentucky, and whose sales in the area represent about 10–12 percent of his Grade A receipts. Approximately 45 percent of the fluid sales in the county are from this plant. About 14 percent of the distribution in the county is out of a plant regulated under the Cincinnati order and the remainder is by plants regulated under the Louisville-Lexington order.

The proposed deletion was requested to enable the proponent to pay a higher price to his own dairy farmer suppliers rather than make payments into the producer-settlement fund. However, if Montgomery County were deleted from the marketing area the handler would become unregulated and would not be required to pay the minimum prices established by the order. Nevertheless, all of the other handlers selling in the county would continue to be regulated by virtue of their sales in other counties within the marketing area. Although such handlers account for more than one-half of the total distribution in the county, they would then be in competition there with a plant not required to pay minimum prices for milk.

Todd and Logan Counties, Kentucky, should not be included in the marketing area of the proposed order. In Logan County, all fluid distribution is by federally regulated plants, but more of the disposition is by Nashville order plants than by plants under the Louisville-Lexington and Ohio Valley orders. The evidence with respect to Todd County shows considerable disparity in the testimony of witnesses as to the share of the fluid disposition regulated under the Louisville-Lexington, Ohio Valley, Nashville and Paducah orders. None of the sales in Todd County are by unregulated plants. The evidence is not sufficient to conclude whether these counties should be included in the marketing area of the proposed order. Inasmuch as all milk sold in these counties is sold by regulated plants, the problem of orderly marketing is not acute.

3. *Provisions of the consolidated order.* Many of the provisions of the Louisville-Lexington and Ohio Valley orders which have been found to be appropriate for regulating the handling of milk in these markets are similar and therefore appropriate for regulating the handling of milk in the proposed marketing area. The provisions in which there are substantive differences in the two orders or those for which changes are considered are discussed below.

(a) *Milk to be pooled and priced.* The determination of the milk to be pooled and priced under the consolidated order may be facilitated by defining the several types of milk and milk products and those persons and facilities associated with the handling of such milk and milk products. For purposes of the consolidated order, definitions similar to those contained in the Louisville-Lexington order will be suitable in most cases.

A producer should be defined as a person who produces milk on a dairy farm which is approved by a duly constituted health authority for the production of milk for fluid disposition, which milk is received at a pool plant, or by a cooperative association, or is diverted as described in subsequent findings. Health authority approval would include approval of milk by the authority to administer the regulations governing the quality of milk acceptable to agencies of the United States Government for fluid consumption in its institutions or facilities located in the marketing area. The proposed exclusion of dairy farmers whose permit is temporary or on an emergency basis is not adopted. It was not shown that such approvals constitute a problem in this market. A producer's connection with the market should be established by receipt of his milk at a pool plant, or in the instance of bulk tank milk for which a cooperative association is a handler, the cooperative is the first handler receiving such milk. Accordingly, the term "producer" is intended to include such dairy farmers whose milk is delivered by a cooperative association as a handler to other handlers' pool plants.

Marketing conditions necessitate the handling of reserve milk by diversion from producers' farms to nonpool plants. This is often the more economical method of moving the milk rather than assembling it first at a pool plant which has no need for the milk and then shipping it to a nonpool manufacturing plant. In the interest of assuring an adequate, stable supply for the fluid market, and a stable market for producers, a dairy farmer should retain his producer status during reasonable periods while his milk is diverted to a nonpool plant.

The Louisville-Lexington order allows unlimited diversion of producer milk by a cooperative association. Diversion by other handlers is allowed, but with a limitation with respect to each producer that his milk shall not be diverted for more than one-half of the number of days in any of the months of October, November, January, and February. It is concluded that the same type of diversion allowance should apply in the case of all handlers including cooperative associations.

Producers argued in their exception that no restriction apply to diversion of producer milk by a cooperative association operating a pool plant since such association assumes the burden of handling reserve milk for the market. The record does not substantiate the need for such a provision, but a more liberal diversion provision would tend to alleviate the problem of handling reserve milk. Accordingly, the number of days of diversion allowed in each of the months of October, November, January, and February should be increased to 22 days (13 days in the case of every-other-day delivery).

In view of the provision that a cooperative association may be the handler on bulk tank milk and the fact that the supply for the market is largely from members of the cooperative association which requested such provision, diversion between pool plants, now permitted for in both orders, will no longer be necessary.

So as to provide proper location pricing and accountability for milk diverted to nonpool plants, such milk shall be deemed to be received at the pool plant as part of the plant receipts if designated by the operator of the plant. In case of diversions to nonpool plants by a cooperative association, the location of receipt shall be deemed to be the location of the plant from which diverted.

A handler should be defined as a person who operates a city plant or a country plant. Also, a cooperative association should be a handler with respect to producer milk diverted by it to nonpool plants. A cooperative association should be allowed to act as the handler also with respect to milk of its producer members which is picked up in bulk at the farm by tank trucks owned by, operated by, or under contract to such association and delivered in such trucks (or in trucks similarly under the control of the association into which the milk may be reloaded) to pool plants of other handlers. With respect to the Ohio Valley market, findings and conclusions have already been made on this record to adopt such a provision in a decision issued November 21, 1961 (26 F.R. 11079). Because of the similarity of considerations with respect to the proposed new marketing area, repetition of such findings and conclusions is unnecessary in this instance. The same provision should be adopted in the consolidated order.

The term "producer-handler" should be defined as presently in the Ohio Valley order. This is a more specific definition than that contained in the Louisville-Lexington order in that it requires the producer-handler to provide proof to the market administrator that the operation is his personal enterprise and risk.

The terms "city plant" and "country plant" in the Louisville-Lexington order closely correspond to the two types of "fluid milk plant" in the Ohio Valley order. The first type of fluid milk plant in the Ohio Valley order disposes of "Grade A" fluid milk products on routes in the marketing area, and the second type is a plant which supplies the first type of plant, or is approved to do so. The terms "city plant" and "country plant" in the consolidated order will serve to define plants performing such functions, but these definitions are not indicative of whether the plants meet order requirements which would subject them to full regulation.

Pool plant provisions similar to those of the Louisville-Lexington order should be adopted for the consolidated order, subject to some modifications. With the expanded marketing area adopted herein, the smaller percentage requirement (10 percent of receipts from dairy farmers, cooperative associations and country plants rather than the 25 percent required in the Ohio Valley order) of distribution in the marketing area for pool plant qualification is suitable for all plants likely to be associated with the market. Another basis for qualification should be added, however, whereby a plant distributing an average of 13,500 pounds or more of Class I milk per day in the marketing area would become fully regulated, even though this amount represents less than 10 percent of the receipts previously mentioned. Under the provisions of the present orders, a plant with a large volume of Class I business could acquire a large percentage of the total Class I distribution in the marketing area without becoming subject to full regulation. Any plant which distributes within the marketing area a volume of Class I milk equal to one percent or more of the total Class I milk in the market is an important competitive factor, however, and should be subject to full regulation, even though this volume represents less than 10 percent of its total Class I business.

The total Class I disposition in the two marketing areas by all pool plants regulated by the Louisville-Lexington and Ohio Valley orders plus the sales of nonpool plants in these areas averages approximately 1,350,000 pounds per day. The order, therefore, should provide for full regulation of any plant whose distribution of Class I milk in the marketing area amounts to an average of 13,500 pounds or more per day. Use of the fixed figure rather than 1 percent of the total Class I sales will afford plants an opportunity to know beforehand whether they will be subject to regulation and will permit them to adjust their business accordingly. A constant figure will also tend to avoid the shifting in and out of the pool of plants whose distribution in the area might be fairly constant but might become more or less than one percent as total Class I milk in the pool varies.

The requirements for country plants should be increased for the months of October through March to require that 50 percent of the receipts in the month from approved dairy farmers and from cooperative associations are delivered to city plants. No country plants now qualify as pool plants for the Louisville-Lexington market on the basis of the present 10 percent shipping requirements, nor are there any pool country plants qualified under the Ohio Valley order where a 50 percent requirement is contained in the present order. The 50 percent requirement will guarantee a fuller association of a country plant with the market if it is to be pooled, and is appropriate in view of the adequacy of supply represented by present producer sources of milk. In the months of April through September, a country plant should qualify on the basis of either its prior qualification in all of the preceding months of October through March or on the basis of shipment of 40 percent of its receipts to city plants.

Provision should be made for pool status of a country plant operated by a cooperative association if two-thirds of the milk of its members approved by health authorities to supply milk which may be disposed of as Grade A milk is delivered from farms to pool plants of other handlers or is transferred from the association's plant to such pool plants.

A similar provision is now contained in the Louisville-Lexington order, requiring, however, that 75 percent of member milk be supplied to other pool plants. The current provision also qualifies the cooperative association plant in any month of March through September if it had qualified as a pool plant on the percentage basis in each of the preceding months of October through February.

The plant of the cooperative association has served as an equalization supply plant for the entire Louisville-Lexington market. In view of the extension of membership of the association to the Ohio Valley market, the association stated that the plant would perform the same function in the consolidated marketing area.

With the prevalence of bulk milk tanks on farms in these markets, much of the milk supply of processing plants moves in bulk form directly from farms to such plants. Changes in daily requirements of processing plants may be met by the cooperative association through rearrangement of the bulk tank movement of milk from farms to plants. Under these circumstances the most efficient movement of milk by the association, in its role of supplying milk processing plants, does not require that more than a small part of the milk move through the association's plant. For this reason it is not practical for the association plant to qualify for pool status on the basis of shipments from the plant to other pool plants. Nevertheless, the plant is essential to the service provided by the association in meeting daily requirements of the handlers. Besides serving as a standby plant from which milk may be transferred to pool plants, it also serves as an assembly plant for milk in excess of other handlers' needs. Such milk constitutes part of the reserve supply of the market which must be disposed of primarily for use in manufactured dairy products which may involve shipment to nonpool plants. Other reserve milk has been disposed of by the cooperative association by diversion from producers' farm to nonpool plants for manufacturing.

As the authorized agent to market the milk of its members, who constitute 90 percent or more of the producers in the combined market, Kyana Milk Producers bears the burden of disposing of the reserve milk in the manner described. Because of the essential part this plant plays in such reserve handling operations, it is necessary that producers maintain their producer status when their milk must be moved to this plant. It is desirable, however, that a standard of performance be provided to assure that such a plant is substantially associated with the market. The requirement with respect to deliveries of member milk to pool plants provides such a standard. In view of the volume of reserve milk to be handled, the requirement that two-thirds of the member milk be delivered to other pool plants should be substituted for the present 75 percent requirement in the Louisville-Lexington order. The plant may qualify for pool status on this basis in any month. In the months of March through September pool status should continue to be allowed on the basis of prior pool status in each of the months of October through February.

Because of the closeness of other marketing areas and overlapping of distribution of handlers under these and other orders, provision should be made for a method to determine under which order a plant should be regulated if it qualifies under more than one order. The Louisville-Lexington order now provides that such a plant shall not be a pool plant if it qualifies under another order unless the plant has disposed of a

greater quantity of milk in the Louisville-Lexington marketing area and to pool plants under this order than in the marketing area under the other order during each of the preceding three months and does also in the current month. A similar provision is contained in the Ohio Valley order. This provision should be adopted in the consolidated order.

Plants so determined to be subject to another order while disposing of milk in this market should be required to file such reports as the market administrator may require and to allow verification of such reports. Any exception to the described rule of determination should be based on a special determination by the Secretary for the particular plant.

"Producer milk" is a term defined as milk received by handlers from producers in the manner described in the preceding findings with respect to "producer". In the case of any tank truck loads of milk which are split between plants and for which a cooperative association is not the handler, the entire load shall be deemed to have been received at the first pool plant at which milk is withdrawn from the tank truck unless a different arrangement is agreed upon by the operators of the plants.

The definition of the term "fluid milk product" is convenient for establishing the definition of Class I milk and other terms in the order. Because of the relationship of this term to the Class I milk definition, discussion of the fluid milk product definition is covered under the findings and conclusions with respect to classification.

A definition of "other source milk" may be adopted similar to that in the Ohio Valley order, which differs from that in the Louisville-Lexington order only in that it specifically excludes beginning inventory. Bulk tank milk received from a cooperative association for which it is the handler should also be excluded. This term serves to describe a type of milk receipt other than producer milk, milk from pool plants or a cooperative association in its capacity as a pool handler, and beginning inventory of "fluid milk products". It should include receipts of products other than "fluid milk products", including those produced at the plant, which are reprocessed, or converted to another product in the plant during the month.

The definitions of "Chicago butter price" and "nonfat dry milk price" are adopted from the Ohio Valley order.

(b) *Classification and allocation of milk.* Class I milk should be defined as all skim milk and butterfat disposed of as any fluid milk product or which is not accounted for as Class II milk. For this purpose the definition of "fluid milk product" should mean milk, skim milk, buttermilk, flavored milk, milk drinks (plain or flavored), reconstituted milk or skim milk, fortified milk or skim milk (including "diet" foods), cream (sweet or sour), half and half, or any mixture in fluid form of milk or skim milk and cream (except ice cream mix, frozen dessert mix, evaporated milk, condensed milk, aerated cream products, eggnog, and cultured sour mixtures not labeled as Grade A) which are neither sterilized nor packaged in hermetically sealed containers.

Class I milk thus defined includes all fluid products which health authorities in the marketing area generally require to be made from milk from locally inspected sources.

Reconstituted milk and skim milk disposition should be considered as Class I milk utilization. The state of Kentucky requires that nonfat dry milk used in fluid products be of "Grade A" quality. These products compete for the same Class I milk sales as do fresh whole milk or skim milk, and if made from other source milk, could displace producer milk which is available for the same purpose. It is necessary, therefore, that such products be accounted for as Class I milk and in a quantity which includes the normal quantity of water originally associated with the nonfat milk solids. This type of accounting is necessary to return to producers a value commensurate with the Class I utilization of the handler.

Fortified fluid milk drinks, similarly, should be Class I milk to the extent of the weight of an equal volume of milk, skim milk or cream of the same butterfat content. To this extent, such fortified products compete with whole fluid milk, skim milk and cream in the fluid market and tend to displace producer milk from Class I uses if not properly accounted for as Class I milk.

To maintain proper accounting for such items, the nonfat milk solids added to such fortified items should be converted to their fluid skim milk equivalent. The total quantity of product so calculated, which would include the normal quantity of water originally associated with the nonfat milk solids, less the quantity classified as Class I milk, would be accounted for as Class II milk. Proper accounting for all uses of skim milk and butterfat similarly requires that if any of the water contained in the milk from which a product is made is removed, the pounds of skim milk used or disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids.

Several handler proposals would call for the lowest classification to apply to milkshake mixes containing 15 percent or more of total milk solids and dietary fluid milk products.

Milk shake mixes, as described, are similar in nature and use to frozen dessert mixes, and thus would take the lower classification.

Fluid "diet" milk products are a form of a low-fat milk drink fortified with added nonfat milk solids. Sweetening and flavoring ingredients are also added. The product is prepared by adding the nonfat milk solids and flavoring ingredients to fresh fluid milk or skim milk. Such fluid diet milk products thus are essentially fortified milk drinks which compete with other fluid milk product disposition. Although standards of identity have not been established by health authorities with respect to "diet" milk products, Grade A milk is used in the preparation of the diet products. It is to be presumed under the circumstances of preparation of the product as described by proponents that they do use and depend on the supply of fresh milk of Grade A quality to provide the fluid part of the product.

It was proposed by Kyana Milk Producers that the consolidated order have only two classes of utilization. The kinds of utilization now included in Class II and Class III in the Louisville-Lexington order would be combined into one class resulting in a Class II milk definition similar to that which applies in the Ohio Valley order. A single price, accordingly, would be established for all reserve milk under the consolidated order. Handler proposals with respect to classification of certain specialty items under a three-class system are interpreted as not being opposed to a two-class system.

It is concluded that a two-class system should be adopted for the consolidated order. This system will tend to provide better marketing opportunities for reserve milk. The single price for all reserve milk will tend to encourage handlers to use the reserve producer milk in the higher-valued uses. It may induce handlers to use greater quantities of producer milk for cottage cheese and ice cream, now priced at the higher Class II price under the Louisville-Lexington order. With respect to ice cream disposition in the marketing area, handlers to a large degree now depend on nonpool sources for their supply of this product. A health requirement of Grade A milk for the manufacture of cottage cheese applies only in Louisville, and, accordingly, cottage cheese from other sources may be distributed in all other parts of the marketing area.

Class II milk should be defined to include all skim milk and butterfat used to produce products not included in Class I milk. Products specifically exempted from the Class I definition such as ice cream mix, frozen dessert mix, evaporated milk, and condensed milk would be Class II milk. Other manufactured dairy products which would be Class II milk include cottage cheese, any other type of cheese, butter, dry milk and nonfat dry milk. Frozen cream is generally a storage item intended for use in ice cream, butter, or other nonfluid use, and is properly a Class II disposition. The proposed two-class system would place eggnog and aerated cream products in Class II. Cultured sour mixtures which include cheese and nondairy food materials are commonly referred to as a "dip" specialty and are not distributed as a Grade A product. Skim milk and butterfat used in these products should be Class II milk if not distributed under a Grade A label.

Class II milk would include fluid product disposition for livestock feed and skim milk dumped upon prior notice as prescribed by the market administrator. This is merely a continuance of the lowest classification under both orders which now applies to such disposition. also included would be fluid milk products disposed of in bulk to bakeries, candy or soup manufacturers, and other commercial establishments which do not dispose of any of such bulk receipts in the form of fluid milk products. These are ordinarily uses for which manufactured milk products may be used, although disposition from pool plants to such establishments may be most conveniently made in fluid milk product form. Such a classification provision is now contained in the Louisville-Lexington order. Ending inventories of fluid milk products should also be classified as Class II milk for accounting purposes. Inventories of fluid milk products would be subject to reclassification in the subsequent month in the manner now provided in the Ohio Valley order.

Butterfat and skim milk used to produce Class II products should be considered to be classified when so used. Handlers will need to maintain stock records on such products, however, to permit audit of their utilization records by the market administrator. Class II products from any source used in the production of any product, including products in Class I milk, should be considered to be a receipt of other source milk. This will maintain priority of assignment of current receipts of producer milk to Class I utilization.

Loss of skim milk and butterfat in plant operations is commonly referred to as "plant shrinkage". It is also ordinary experience in the case of farm bulk tank milk that there is some handling loss between the aggregate of amounts of milk measured at the farms from which a tank truckload is obtained and the quantity of milk delivered to a plant. Since there must be complete accounting for all milk received from producers, it is necessary that all shrinkage be accounted for as a classified use. Shrinkage should be classified in the lowest class as is presently done under the Louisville-Lexington and Ohio Valley orders. Such classification, in conjunction with reasonable limits, provides an equitable accounting procedure for handlers.

A maximum total shrinkage allowance in Class II of 2 percent will be reasonable in relation to ordinary operating efficiency. This total allowance would be made up of 0.5 percent with respect to milk received from producers and transferred to other handlers, plus 1.5 percent with respect to milk so received but not transferred. The 1.5 percent would also apply to bulk receipts which are transfers from other pool plants or bulk tank milk received from a cooperative association. No shrinkage allowance would apply to milk diverted to nonpool plants. Any shrinkage in excess of these allowances should be classified as Class I milk. These limitations on shrinkage and the attendant method of classification are necessary to protect the classification system from the effects of inadequate records and inefficient handling of milk. These considerations do not require that similar limitations apply to receipts of other source milk.

The shrinkage allowances as described would provide a 0.5 percent allowance to a cooperative association with respect to bulk tank milk for which it is the handler making delivery of such milk to pool plants. This allowance would apply in the absence of notification by the pool plant operator to the market administrator that he is purchasing such bulk tank milk from the cooperative association on the basis of farm weights and tests. If the pool plant operator elects to pay on farm weights and tests, the entire 2 percent shrinkage allowance would be available to him with respect to such milk.

Proration of total shrinkage between pool milk and other source milk received at a pool plant should reflect the varying shrinkage limits just described which may apply to pool milk. Otherwise, a disproportionate share of the total shrinkage could be assigned to pool milk. This situation may be accommodated by prorating the total shrinkage between the maximum pounds of pool milk shrinkage allowable divided by 0.02 and the total pounds of other source milk.

Each handler must be held responsible for a full accounting of all his receipts of skim milk or butterfat in any form. A handler who first receives milk from dairy farmers should be responsible for establishing the classification of, and making payment for, such milk. Fixing responsibilities in this manner is necessary to effectively administer the provisions of the order.

Except for the limited quantities of shrinkage that may be classified in Class II, all skim milk and butterfat for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage that might accrue to handlers who fail to keep complete and accurate records and to assure that dairy farmers receive payment for their milk on the basis of its use. Accordingly, the burden of proof should be on the handler to establish the utilization of any milk as other than Class I.

The two present orders apply special classification provisions to fluid milk products transferred and diverted in bulk form from pool plants to other plants. The transfer provisions of the two orders are in many respects similar, allowing for the three-class system in the Louisville-Lexington order as opposed to the two-class system in the Ohio Valley order. The provisions of the Ohio Valley order with respect to classification of such movements of milk to other pool plants or to nonpool plants are adopted as modified by the amendment effective December 1, 1961 (26 F.R. 11284), based on the record of this hearing, and with exceptions as noted herein. These provisions establish rules for assignment of transferred fluid milk products to utilization in the transferee plant. The amendment referred to provides specific rules for milk for which a cooperative association is the handler and which milk is delivered from producers' farms to a handler's pool plant in tank trucks.

Under the order proposed herein, the reference points with respect to distance of shipments to nonpool plants should be Louisville, Kentucky, and Evansville, Indiana. Nonpool plants located within 250 miles of these two cities will provide sufficient outlets for reserve milk not needed by pool plants, and such distance will appropriately limit imposition of expense upon the market administrator for travel and verification of use of milk at such nonpool plants. Transfers of milk, skim milk, or cream in bulk from pool plants to nonpool plants within such distance would be Class I or Class II according to rules set forth in the attached proposed order which are very similar to the transfer provisions in the present Ohio Valley order. Transfers beyond this distance would be Class I milk. Exception is made, however, with respect to the classification of certain skim milk and butterfat which is transferred from a pool plant to a nonpool plant which disposed of cream for Class II use to a second nonpool plant. Since this involves disposition by the first nonpool plant rather than use in the nonpool plant, a special provision for classification was requested. The second transfer described by proponent would be to a point beyond 250 miles from any of the reference points previously named. Bulk cream transferred from the nonpool plant should be classified as Class II milk in the amount so claimed by the operator of the pool plant if he established that such cream was moved from the nonpool plant without Grade A certification in containers labeled to show that the contents were for manufacturing use only and that such shipment was invoiced accordingly. The pool handler should also afford the market administrator sufficient opportunity to verify such shipments.

Milk transferred from a pool plant to a producer-handler should be Class I milk. To maintain a distinction between producer-handlers and pool plant operators, the definition of producer-handler does not contemplate receipt of milk from farms other than those of the producer-handler. Accordingly, the transfer provisions of the consolidated order should not provide for diversion of milk from producers' farms to producer-handlers.

The procedure for allocating producer milk to Class I and Class II adopted for the order proposed herein is similar to that presently used in the Louisville-Lexington order. However, certain modifications of this procedure are desirable. The proposed order should provide that sour cream and liquid dietary products be assigned to Class I milk (in the amount allowable pursuant to the classification provisions) if they have been classified and priced as Class II milk under the Chicago order and Class I milk under the Cincinnati order, respectively, and are received by pool plants in consumer packages and disposed of in the same packages. A plant which is expected to become fully regulated under the consolidated order presently receives packaged sour cream which has been priced as Class II milk under the Chicago order and distributes it on routes in the same packages. Similarly, a plant regulated under the Louisville-Lexington order receives packaged liquid dietary products which have been priced as Class I milk under the Cincinnati order and distributes these products on routes in the same packages. Neither of these types of products is produced or packaged in the respective transferee plants. Under the Chicago order, Class II milk is priced at a level generally as high as

Class I milk. This method of allocation will accommodate the procurement of specialized products in the manner described by proponents.

A further modification should provide that shrinkage which was "set aside" in the first step of the allocation procedure be "added back" after the assignment of other source milk and beginning inventory but prior to the assignment of inter-handler transfers. This will allow such shrinkage to be allocated to the kinds of receipts for which this shrinkage has been computed.

(c) *Class prices.* In the following findings and conclusions on Class I and Class II prices, reference is made to prices which have prevailed in a number of Federal order markets. For this purpose official notice is taken of price announcements published during the period of March 1960 through October 1961 for each of the months when the order was effective by market administrators for the following markets: Chicago, Cincinnati, Indianapolis, Nashville, Paducah, Suburban St. Louis, and Tri-State. Official notice is also taken of price announcements for the Louisville-Lexington and Ohio Valley markets published by the market administrator for the months of September through December 1961.

Class I price. The Class I price under the new order for milk testing 3.5 percent butterfat should be the sum of a basic formula price plus $1.25, subject to an adjustment reflecting supply-demand conditions in the market. The Class I price during the period beginning with the effective date of the proposed order through May 1962, however, should not be less than $4.43. The basic formula price should be the higher of the "Midwest condenseries" price or a butter-powder (spray-roller) formula price. The basic formula prices and the Class I prices should be expressed in terms of milk of 3.5 percent butterfat content. These conclusions are subject to qualifications as described in the following discussion with respect to action based on a later hearing record.

Kyana Milk Producers proposed that the Class I price for the consolidated order be the sum of a basic formula price plus $1.40. The basic formula price would be the average price paid for manufacturing grade milk at plants in Minnesota and Wisconsin (hereinafter referred to as the Minnesota-Wisconsin price), as reported by the United States Department of Agriculture, adjusted to a 3.8 percent butterfat basis. A proprietary handler proposed at the hearing that the basic formula price be based on a butter-powder formula.

Most of the Federal milk orders in surrounding markets have basic formula prices which use the higher of the Midwest condenseries price or a butter-powder formula price. Some orders also include the average price at local manufacturing plants as an alternative, but such prices have not been high enough to be the effective basic formula price. Alignment of Class I prices among the several markets in the region may be more easily maintained by using similar basic formula price alternatives. It is, therefore, desirable to continue the use of the same type of basic formula price as is generally effective in the region unless the Minnesota-Wisconsin manufacturing milk price is adopted as the basic formula price on a regional basis.

While the findings and conclusions herein relate specifically to the record of the September 1961 hearing, they are not intended to preclude further modifications based on a subsequent hearing. Official notice is taken of a notice of hearing issued January 8, 1962 (27 F.R. 314), for 36 markets, including the Louisville-Lexington and Ohio Valley marketing areas, on a proposal to use the average price of manufacturing grade milk in Minnesota and Wisconsin, adjusted to 3.5 percent butterfat, as the basic formula price in each of the markets. A recommended decision on this matter was issued February 7, 1962 (27 F.R. 1272; F.R. Doc. 62-1406), recommending the adoption of the Minnesota-Wisconsin price. Unless the order here proposed for the Louisville-Lexington-Evansville marketing area is modified prior to issuance by a further order following from the recommended decision issued February 7, 1962, it is intended that the order will be made effective in the form as contained herein.

The Midwest condenseries price and the butter-powder formula price adopted herein as the basic formula price alternative are the same as those now included in the Louisville-Lexington and Ohio Valley orders. The Louisville-Lexington order also includes as an alternative the average price of seven local manufacturing plants. In view of the continued ineffectiveness of the local manufacturing plant price in the basic formula price, it is not included as part of the basic formula price in the consolidated order.

The present stated differential of $1.25 should be continued. A Class I price differential is only part of the Class I pricing mechanism, and its proper amount should be judged on the basis of its influence upon the resulting level of price. In view of the increasing volume of milk supplied as compared to Class I sales of handlers in the two markets, it is unnecessary that any increase in the price level be provided through raising the Class I price differential. The present $1.25 differential provides a good basis for maintaining price alignment with nearby markets. The annual levels of Class I price differentials in nearby markets are as follows: Cincinnati, $1.30; Indianapolis, $1.25; Paducah, $1.30; and Nashville, $1.35.[1] Though the Suburban St. Louis order does not use a Class I price differential, its Class I price does reflect (for base zone) a differential over the Chicago order basic formula price of $1.30, subject, however, to the supply-demand adjustments in the Chicago and St. Louis orders.

A supply-demand adjuster similar to that now used in the Louisville-Lexington order should be adopted. This adjuster should be modified in that the standard utilization percentage should be raised from 137 to 144. It should also be limited in its operation so that the adjustment from one month to the next would not exceed four cents.

The provisions of the Agricultural Marketing Agreement Act require that prices established by milk orders reflect supply and demand conditions for milk in the market. While many of the elements of supply and demand on a national scale are reflected in the basic formula price, this pricing mechanism does not assure that all local factors will be reflected in the Class I price. In the Louisville-Lexington market the substantial changes in recent years in the ratio of producer milk supplies to Class I disposition show that this relationship is significant and should be considered in the establishment of the Class I price. In the Ohio Valley market it is clear that the similarity of marketing conditions and the inter-relationships which have led to the consideration of consolidating the two markets argue that the relationship of producer milk supplies to Class I disposition is similarly significant for the proposed combined market.

For a recent 12-month period (November 1960 through October 1961), the average of the monthly ratios of producer receipts to gross Class I utilization for the Louisville-Lexington market was 150, such ratios ranging from a low of 121 in November 1960 to a high of 178 in June 1961. A review of preceding years shows that for the same monthly periods the average production-Class I disposition ratios were 142 for the 1955-1956 period, 147 for the 1956-1957 period, 141 for the 1957-1958 period, 135 for the 1958-1959 period, and 134 for the 1959-1960 period.

For the Ohio Valley market, data for similar 12-month periods are not available, because the order first became effective March 1, 1960. The longest comparable periods for purposes of comparison are March through October of each of the years of 1960 and 1961. The average of the monthly ratios of producer receipts to gross Class I utilization for the periods of March through October of 1960 and 1961 for the Ohio Valley market were 125 and 136, respectively.

The increases shown in the production-sales ratios in the Louisville-Lexington market since 1960 have been due to the substantial increases in production. Although production figures reflect the increase resulting from the expansion of the marketing area on March 1, 1960, it is clear that production has increased considerably more in this market than have the corresponding Class I sales. Also the average daily production per farm has increased from an average of 577 pounds to an average of 624 pounds between these periods. In the Ohio Valley market, the increase in the production-sales ratio was a result of both a decrease in Class I sales and an increase in production. During the March–October period of 1961, Class I sales were 4 percent less while production was 4.3 percent more as compared to the same period in 1960. The average daily production per farm for this market increased from an average of 502 pounds to an average of 556 pounds between these periods. (Official notice is taken of market statistics published monthly for the Louisville-Lexington and Ohio Valley Federal milk orders by the market administrator for the months of August through November 1961.)

With the prices which have prevailed the supply of milk has increased relative to sales. Therefore no increase in price is warranted at this time. In order to properly reflect future changes in the local supply and demand conditions a supply-demand adjustor of the type contained in the Louisville-Lexington order is adopted with some modifications as explained in subsequent findings and conclusions.

A new standard annual level of utilization should be adopted for the supply-demand adjustment computation. The standard annual utilization percentage (137 percent) which was adopted in the Louisville-Lexington order by amendment effective March 1, 1960, has not appropriately reflected recent market conditions and thus has not provided a suitable basis on which to make supply-demand price adjustments. Suspension and amendment actions have been taken which have limited the full effect of the supply-demand adjustor in all but the initial month of its operation, May 1961.[2] A new standard for the consolidated order should be established at a level such that the average Class I price currently effective in the two markets would result from the application of such a new standard in relation to the current level of utilization.

A standard utilization percentage of 144 will maintain an average price for the combined area equal to the price ($4.431) which has prevailed in the two markets during the six-month period of July through December 1961. For this period the average Class I price on a 3.5 percent butterfat basis under the Ohio Valley order, using a differential of $1.253 over the basic formula price, would have been $4.558. The average Louisville-Lexington order Class I price for the same six-month period, on a 3.5 percent butterfat basis, was $4.376. A weighted average of these prices, using the average proportionate volumes of Class I milk in the respective markets in the period June through November 1961, results in an average of $4.431. Prices in each market were very stable in this period, and the average for the six months is very close to the average of the two markets in each of the six months.

Such an application of the supply-demand adjustor will allow continuation of the same average level of price of the two markets as has existed in recent months, subject to further adjustments based on future changes in the market situation. The price level herein proposed will result in a lower price for farmers who have been producers under the Ohio Valley order, as a result of the averaging of the prices of the two markets. Evidence with respect to changing supply conditions in the Ohio Valley market shows that the reduction in the applicable Class I price is in accord with the changes in market conditions. Such changing market conditions would need to be recognized in the price for that marketing area regardless of whether the two markets are combined.

To assure additional stability in price changes produced by the supply-demand adjustor, it is provided that the price adjustment for any one month shall not differ from that of the previous month by more than 4 cents per hundredweight. The total amount of adjustment should not at any time exceed 50 cents.

Producer and handler groups both asked that no supply-demand provision be included in the new order, and further asked that if such a price adjustor is included, that it be moderate and limited in its effect. Two handlers asked that the effective date of a supply-demand adjustor be delayed until after 18 months of experience under the new order. Producers proposed specifically (1) that any negative price adjustment be limited to 6 percent of the average basic formula price for the previous year; (2) that the measure of the relationship of supplies to Class I disposition be based on two twelve-month moving averages such as in the St. Louis order; (3) that the Class I disposition used in the calculation include sales by nonpool plants in the marketing area; and (4) that any supply-demand adjustor not result in a price change as long as Class I disposition is 67 percent or more of producer milk or less than 71 percent.

The proposals that no supply-demand adjustor apply under the new order are denied on the basis of preceding findings and conclusions. The effective date of a supply-demand adjustor should not be delayed for an 18-month period as requested by producers and handlers. The substantial changes in the supply-demand situation in recent years require that these conditions be reflected in the Class I price under the new order as soon as possible.

The type of supply-demand adjuster used in the Louisville-Lexington order is preferable to that proposed by producers based on two twelve-month moving averages, since it will react more promptly to recent conditions in the market. The method of calculation of the supply-demand adjustment under the Louisville-Lexington order is explained in the decisions issued February 8, 1960, and July 18, 1961. Essentially, it provides for calculation of the percentages that producer milk is of gross Class I utilization of pool plants in the three most recent two-month periods for which data are available. Comparison of these two-month percentages with seasonally adjusted standards provides the basis for Class I price adjustments. Seasonal adjustment of the annual standard is based on supply and utilization data for the 37-month period ending with the second month preceding the month for which the price adjustment is computed. Price stability is achieved by eliminating indicated adjustments if they are in a direction opposite from that indicated by the most recent two-month percentage and eliminating indicated adjustments in excess of the most recent percentage.

Inasmuch as the Ohio Valley order was issued effective March 1, 1960, data on a 37-month basis for plants regulated under that order would not be available until after March 1963. Since, however, the calculations depend entirely upon ratios (in some cases expressed as percentages) of quantities of producer milk to Class I utilization, the changes in marketing area do not prevent use of currently available data for calculation of a supply-demand adjustor. The month of June 1962, would be the first month for which a price adjustment could be computed if two full years of data for the Ohio Valley market are included. The effect of the supply-demand adjustor adopted herein is accordingly limited prior to June 1962 by establishing a minimum Class I price of $4.43.

The proposal to retain all Class I sales in the marketing area in the supply-demand computation, regardless of whether such sales are by pool plants or nonpool plants is denied. Such a provision would be insensitive to the competition of handlers regulated under other orders who may secure sales outlets in this market. The levels of the Class I price in this market should reflect loss of sales by pool plants in such circumstances as a part of the supply-demand situation affecting the marketing of producer milk.

Class prices under the proposed order are expressed in terms of milk testing 3.5 percent butterfat. This is done for the purpose of achieving uniformity among markets so that prices will be readily comparable to all interested parties. This need not affect the butterfat content of milk received or disposed of under the order. This change in the method of quoting the Class I price has been accomplished by changing the butterfat value included in the basic formula prices to reflect the 3.5 percent butterfat test.

Class II price. Class II milk under the consolidated order should be priced for the months of September through March at the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the United States Department of Agriculture, adjusted to a 3.5 percent butterfat basis, and for the months of April through August at such price less 10 cents.

The Louisville-Lexington order presently provides two separate prices for milk going into manufacturing uses. The Class II price, applicable primarily to cottage cheese and ice cream, is the highest of four alternative prices. These are the Midwest condenseries price, a butter-powder (spray-roller) formula price, a butter-powder (spray) formula price, or a butter-cheese formula price. The Class III price applies primarily to American cheese, butter, dry milk powder, and condensed milk. For the months of September through March

[1] A location differential deduction of 10 cents applies at plants in Kentucky 50 miles or more, but less than 70 miles from Nashville.

[2] See suspension orders issued May 25, 1961 (26 F.R. 4734) and December 18, 1961 (26 F.R. 12110), and final decision issued July 18, 1961 (26 F.R. 6547).

this price is the higher of a butter-powder (spray-roller) formula price or the average announced price at seven local manufacturing plants. For the remaining five months of the year the Class III price is the higher of a butter-powder (roller) formula price or the average local manufacturing plants price.

The Ohio Valley order presently provides one classification (Class II) for all milk going into manufacturing uses. For the months of September through February Class II milk is priced at the higher of the Midwest condenseries price or a butter-powder (spray-roller) formula price. For the months of March through August such milk is priced at the average announced price at five local manufacturing plants plus 20 cents.

Previous reference has been made in this decision to the cooperative association's proposal that the consolidated order use a two-class system under which all milk going into manufacturing uses would be Class II milk. In conjunction with this arrangement they proposed that the price for Class II milk be the Minnesota-Wisconsin manufacturing milk price, adjusted to a 3.8 percent butterfat basis by the butterfat differential resulting from multiplying the Chicago butter price by 0.12. A representative of a dairy firm which operates unregulated manufacturing plants located in and around the Louisville-Lexington and Ohio Valley marketing areas proposed at the hearing that if the Minnesota-Wisconsin price were used as a basis for pricing milk going into manufacturing uses the order price should be 15 cents less than the Minnesota-Wisconsin price adjusted to a 3.8 percent butterfat test. A group of proprietary handlers regulated under the Louisville-Lexington order proposed that the Class II price under that order be amended to delete the butter-cheese formula price from the list of Class II price alternatives.

The price for manufacturing grade milk in the two-State area of Minnesota and Wisconsin is issued by the State-Federal Crop Reporting Service on about the 5th day of each month for milk received at manufacturing plants in these States in the previous month. Plant operators report the total pounds of manufacturing grade milk received from farmers, the butterfat content, and total money paid to farmers for the milk delivered at their plants. The two-State area is one in which there is a heavy concentration of manufacturing grade milk and where many plants are competing for such a supply. In Minnesota about 80 percent of the milk sold off of farms is manufacturing grade and in Wisconsin, about 65 percent. About 50 percent of the total manufacturing grade milk sold off farms in the United States is produced in these two States.

Comparisons made herein between the proposed Class II price formulas and the formula prices under the two orders exclude the effect of the butter-cheese formula price under the Louisville-Lexington order. In a decision issued by the Secretary on July 18, 1961 (26 F.R. 6547), based on a public hearing held May 22, 1961, it was concluded that the butter-cheese formula price should be removed from the list of price alternatives in the basic formula price of the Louisville-Lexington order. It was concluded that the butter-cheese formula price had increased to levels representing improper relationships to other measures of the value of manufacturing milk used in this and nearby order markets for basic formula prices. In view of this it is appropriate that comparisons of proposed formulas for pricing reserve milk with current formulas in effect in the two orders not reflect the butter-cheese formula price. When the order was amended August 1, 1961, this formula price was retained as part of the Class II pricing mechanism, however, because the Class II price was not an issue at the hearing.

For the 12-month period of November 1960 through October 1961 the Class II price in the Louisville-Lexington order, without the effect of the butter-cheese formula price, averaged $3.37 for milk testing 3.5 percent butterfat. The Class III price for the same period averaged $3.14 for milk of 3.5 percent butterfat content. The comparable Ohio Valley Class II price averaged $3.19. The Minnesota-Wisconsin manufacturing milk series adjusted to a 3.5 percent butterfat basis using the butterfat differential as proposed by producers would have averaged $3.26. The proposal made by the operator of nonpool manufacturing plants that the Class II price be 15 cents less than the Minnesota-Wisconsin series would have resulted in an average Class II price for this period three cents lower than the average Louisville-Lexington Class III price. A representative of this firm testified, however, that these plants paid ungraded shippers premiums which resulted in prices 10 to 15 cents over the Class III price.

For the period since the Ohio Valley order has been in effect (March 1960 through October 1961) the combined returns to producers under both orders for milk other than Class I, excluding the effect of the butter-cheese formula price, averaged $3.13 for milk at 3.5 percent butterfat test. The Minnesota-Wisconsin manufacturing milk price during this period averaged $3.19 for milk of the same test.

The pricing formulas for reserve milk under the two orders provide seasonal variation by using different price factors for Class III milk under the Louisville-Lexington order (April through August) and Class II milk under the Ohio Valley order (March through August) for the months of heavier milk production. These seasonal changes in the formulas for reserve milk prices would normally produce greater seasonal variation than there might be in the Minnesota-Wisconsin manufacturing milk prices. For milk of 3.5 percent butterfat test during the periods of April through August 1960 and 1961, the Minnesota-Wisconsin price averaged 21 cents over the Louisville-Lexington Class III price and 17 cents over the Ohio Valley Class II price. In the intervening period of September 1960 through March 1961 the Minnesota-Wisconsin price averaged 10 cents over the Louisville-Lexington Class III price and 2 cents under the Ohio Valley Class II price. In the period September 1960 through March 1960 the Minnesota-Wisconsin price averaged one cent under the Louisville-Lexington Class III price.

It is concluded that some seasonal adjustment of the Minnesota-Wisconsin manufacturing milk price would be necessary to properly reflect the seasonal marketing conditions affecting reserve milk in this market. The evidence does not establish, however, that the general level of price for reserve milk should be substantially different from average levels which have prevailed for the combined area. Experience in recent years has been that reserve milk readily moved to manufacturing outlets without evidence of distressed sales. On the other hand, the price levels have not induced pool plants to accumulate unneeded supplies intended primarily for manufacturing. In order to promote the orderly handling of reserve milk for the proposed consolidated marketing area, including adjustment for the seasonal changes in quantities of reserve milk and prices at which it can be disposed of, it is concluded that a formula (including seasonal adjustments) which would have yielded in the March 1960 through October 1961 period about the same average return as prevailed in the two-market area (excluding the effect of the butter-cheese formula price) should be adopted. Of the various formulas proposed, the Minnesota-Wisconsin series represents the best index of changing values of manufacturing milk based on prices which competing manufacturing plants offer for milk of manufacturing grade. Such paying prices reflect the supply and demand of manufactured dairy products within a highly co-ordinated marketing system which is national in scale. It is concluded that a price for reserve milk within the purposes expressed in the preceding discussion will be provided by use of the Minnesota-Wisconsin price subject to a seasonal deduction of 19 cents for the months of April through August.

During the 20-month period of March 1960 through October 1961 this price formula for milk testing 3.5 percent butterfat would have averaged $3.14 per hundredweight. For the same period the average of prices under the two orders for milk other than Class I milk (excluding the effect of the butter-cheese formula) was $3.13 for milk of the same test. This average reflects in each month the relative quantities of milk in each class under each order.

The announced average price paid by the Minnesota and Wisconsin plants is at the weighted average butterfat test of the milk received at these plants. Since it is concluded in this decision that the consolidated order prices should be announced on a 3.5 percent butterfat basis, it is necessary that the announced Minnesota-Wisconsin prices be adjusted to this basis. The cooperative association proposed that adjustment of these prices be made by using a differential equal to the average quotation for the month for Grade A (92-score) butter at Chicago times 0.12. This differential is presently used as butterfat differentials under both orders in pricing Class II and Class III milk and should likewise be used in the consolidated order for adjusting the announced Minnesota-Wisconsin price to a 3.5 percent butterfat basis.

Butterfat differentials. The prices paid by handlers for Class I milk should be subject to a butterfat differential for each one-tenth of one percent of butterfat content equal to 0.125 times the Chicago butter price of the preceding month. This is the same differential which now applies under the Louisville-Lexington order and which closely approximates the average of differentials which apply under the Ohio Valley order. The Class II price should be adjusted by a butterfat differential equal to 0.120 times the Chicago butter price of the month in which the milk was received. This differential is the same as currently applies in the Ohio Valley order and is slightly higher than the differentials which apply to Class II and Class III milk under the Louisville-Lexington order. It is concluded that these differentials will properly reflect the value of butterfat as used by handlers in the respective classes.

Location differentials. A system of location differentials similar to those which apply to the Class I prices under the present two orders should be adopted but should be modified in relation to the extent of the enlarged marketing area for the proposed consolidated order. Location differentials should apply to Class I milk at plants which are located more than 85 miles from the nearest of the following points: The City Halls in Lexington, Louisville, Madisonville, Elizabethtown and Danville, in Kentucky, and Evansville in Indiana.

In the Louisville-Lexington order, the basing points for location differentials are the City Halls in Louisville and Lexington, whichever is nearer to the plant at which the milk is received from producers. No location differential applies at plants located less than 85 miles from such points. For plants 85 miles or more but less than 95 miles from such points, a location differential of 15 cents per hundredweight is provided, and for greater distances an additional adjustment of 1.5 cents for each additional 10 miles. In the Ohio Valley order the County Courthouses in Evansville, Indiana, and Owensboro, Kentucky, are used as points of reference. For plants located 80 miles but less than 90 miles from such points, an adjustment of 13 cents per hundredweight is deducted, and for distances beyond this, 1.5 cents is deducted for each additional 10 miles.

The evidence with respect to cost of transporting milk does not justify any significant departure from the rates of location differentials used presently in the Louisville-Lexington order. The initial distance of 85 miles from the selected points of reference, which now applies in the Louisville-Lexington order, is adopted herein to apply to the several points of reference in the enlarged marketing area. Additional basing points should be designated at the following locations in the marketing area: Madisonville, Elizabethtown and Danville, Kentucky. These new basing points will provide a better system of location differentials with respect to plants in Southern Kentucky located close to the marketing area and will result in better alignment of prices with prices in nearby Federal order markets. The basing point at Owensboro, Kentucky, will then be unnecessary, and is eliminated.

For plants located beyond 85 miles but less than 95 miles from the reference points named, a location adjustment of 15 cents should apply, and for distances beyond this an additional adjustment of 1.5 cents for each 10 miles should apply. These rates are the same as now apply in the Louisville-Lexington order.

(d) *Payments with respect to unpriced milk.* For effective regulation it is necessary that the order provide for payments to the producer-settlement fund with respect to other source milk allocated to Class I milk at pool plants. Payments should also be made by operators of nonpool plants which dispose of Class I milk on routes in the marketing area.

For purposes of the proposed order, provisions for such payments similar to those of the Louisville-Lexington order are adopted. Under that order, compensatory payments into the producer-settlement fund are required to be made by nonpool plants disposing of Class I milk in the marketing area, such payments to be made, however, under one of two options. Under one option, the payment is based on the quantity of Class I milk disposed of in the marketing area by the nonpool plant, allowing credit, however, for milk which is received by the nonpool plant from pool plants and which is classified as Class I milk. The per hundredweight rates of payment required for the months of January through September are the difference between the Class I price and the Class III price, and for other months, the difference between the Class I price and the uniform price. The prices used in the calculation are subject to appropriate location and butterfat differentials. These rates of payment are deemed necessary to offset the advantage nonpool handlers would otherwise have in using unregulated milk for Class I disposition in the marketing area.

Under the second option, the operator of the nonpool plant may elect that his obligation to the producer-settlement fund be computed as the difference between what his obligation for all milk handled would be if his plant were a pool plant (subject to specified rules with respect to interplant transfers) and the amount of his payments to farmers whose milk production is qualified for the fluid market. In this computation allowance is made for any obligations incurred by the same plant under other orders.

The compensatory payment provisions of the Ohio Valley order are quite similar. The Ohio Valley order differs in that the rate of payment under the first option is the difference between the Class I price and the uniform price in the months of August through March rather than October through December. Another difference is that the Ohio Valley order does not allow credit for Class I milk received at the nonpool plant from a pool plant.

Parties at the hearing requested certain modifications of the system used in the Louisville-Lexington order. One handler asked that under the new order the rate be the difference between the Class I price and the Class II price in all months. Two handlers asked that credit not be allowed for receipt of Class I milk at a nonpool plant from a pool plant. A nonpool plant operator proposed that credit be allowed to a pool plant operator for compensatory payments under another order on milk disposed of in the marketing area under that order from a nonpool plant also operated by the same handler and to which the pool plant supplied milk. Proponent of the latter proposal did not testify at the hearing and information in the record does not provide a basis for judging the merits of the proposal. A further proposal would have required that crediting of receipts of pool Class I milk, in computing the compensatory payment obligation of a nonpool plant, be allowed only if the nonpool plant paid a price for such milk equal to the Class I price plus 45 cents. This was intended to offset an advantage proponent claimed that nonpool plants have in paying their farmers in the months when order blend prices are reduced by the seasonal incentive plan.

The rates of payment needed to offset the advantage in use of unpriced milk are those now applicable under the Louisville-Lexington order. The seasonal changes in these rates represent the seasonally changing values of other source milk which might be obtained for Class I use in the proposed marketing area. The additional option presently provided in the two orders should be continued. This optional computation is that based on the obligation which would apply if such plant were a pool plant, less payments by the plant operator to dairy farmers who constitute the plant's supply for fluid market disposition. The basis for the several compensatory payment provisions discussed herein have been set forth in prior decisions on these orders. It is concluded here that the findings and conclusions of such decisions apply appropriately to the proposed order.

The provisions of the proposed order do not require compensatory payments on milk classified and priced as Class I milk under another Federal order. Under the requirements of the Act, prices in every order must be established according to the supply and demand conditions of the market which necessarily include price relationships with other markets. Accordingly, prices in this market should be in alignment with prices of other Federal order markets, thus preventing any price advantage that needs to be offset with respect to use of other source milk priced as Class I milk under another order.

The application of regulation to an enlarged marketing area, and adoption of pool plant provisions providing for more inclusive regulation than under the Ohio Valley order, are expected to reduce the quantity of other source milk disposed of in the marketing area. In view of these changes, the more stringent requirements proposed by handlers are considered unnecessary. Production areas of plants which would be fully regulated and of those which might be partially regulated by virtue of disposi-

tion in the marketing area do not overlap to a degree such that nonpool plants could obtain a competitive procurement advantage under the system of compensatory payments adopted herein.

All funds collected from such compensatory payments should be added to the producer-settlement fund. The handler receiving other source milk on which a payment accrues should be obligated to make the compensatory payments to the producer-settlement fund. There will be no difference in actual amount so paid for milk whether the payment is required of the handler or of the operator of the unregulated plant from which the other source milk was obtained. Because the handler makes the actual distribution of the milk in the marketing area, and because he reports the utilization to the market administrator, he is, from an administrative view, the logical person to make the payment.

(e) *Payments to producers.* The payment provisions contained in the proposed order are in the same form as such provisions of the Louisville-Lexington order except for minor changes. The butterfat differential applicable to the uniform price should be an average of the Class I and Class II butterfat differentials weighted by the quantities of butterfat in producer milk classified in each class. These butterfat differentials were proposed by the producer association. It has been concluded in the foregoing considerations that the proposed Class I and Class II butterfat differentials will provide proper pricing of butterfat in relation to its value in the respective classes. The proposed producer butterfat differential will serve to distribute to producers a return for the butterfat content of their milk in line with average classified utilization by handlers.

Location differentials should apply to uniform prices to producers according to the location of plants at which producer milk is received (or delivered in the case of bulk tank milk for which a cooperative association is the handler). This differential should be at the same rate as the Class I location differentials so as to properly reflect the value of producer milk for the fluid market.

Producers requested that the fall production incentive program now operating in the Louisville-Lexington market be continued under the proposed order for the enlarged area. This seasonal pricing plan is preferred by producers over the base-excess plan in the Ohio Valley order. The fall production incentive plan is retained in the proposed order as a means of stabilizing the seasonal variations of production. Testimony on behalf of producers held that the change in the plan applicable to the present Ohio Valley producers would have little, if any, effect on the annual income of such producers.

Producer representatives maintained, however, that participation of producers in the fall premium payments in the months of September through December should be limited to producers who have made a proportionate contribution in the preceding spring and summer months of April through July. Concern was expressed with respect to the possibility of large groups of producers being shifted from nearby markets to this market in the fall period.

This proposal conflicts with the purpose of the fall premium plan as part of a Federal milk order. The plan is a method of inducing farmers to produce milk for the market in a more even pattern throughout the year. The money collected in the months of April through July is an accumulation of payments from handlers and does not represent contributions by producers. The money is held in the producer-settlement fund until it is distributed to producers in the fall months. This fund of money must necessarily be paid out on all milk of dairy farmers who have been determined to qualify as producers in the fall months. To do otherwise would require discrimination among qualified producers with respect to pricing. The record does not present a basis which could justify such discrimination.

The order provisions should be clarified with respect to computation of the uniform price. Payments on unpriced milk for the same month are not due until after the uniform price is computed. Such monies will enter the uniform price computation through the use of the reserve of the producer-settlement fund.

(f) *Administrative and miscellaneous provisions.* The Class I price and butterfat differential should be announced on the 8th day of the month. This is the date of announcement presently used under the Ohio Valley order and will provide earlier information to the market than the Louisville-Lexington order provision. On the same date the Class II price and butterfat differential of the preceding month should be announced. The uniform price to producers for milk received in the previous month should be announced on or before the 12th day of the month.

Reports on receipts and utilization of milk handled during the month should be due at the office of the market administrator on the 8th day after the end of such month. Handlers should be notified of their obligations on the 13th day after the end of the month. Payments to producers should be made on or before the last day of the month for milk received during the first 15 days of the month at a rate not less than the Class II price for 3.5 percent milk of the preceding month and without adjustment for butterfat content and hauling. Final payment should be made to producers on or before the 17th day following the month in which the milk was received. Payments to a cooperative association for member milk would be required two days earlier.

Payroll reports should be submitted by handlers on or before the 20th day following the end of the month. The proposed order continues the provision now contained in both orders requiring the market administrator on or before the 15th day after the end of the month to report, upon request, to a cooperative association the percentage of milk used in each class by each handler to which the association or member delivered milk.

Any unpaid obligation to or from the producer-settlement fund should be increased one-half of one percent on the first day of each month after the month in which such obligation was due until the obligation has been paid.

Both orders now provide for deductions from payments to producers of money to be used by the market administrator for certain marketing services. These include providing market information to producers, verification of weights, and sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. The rate of deduction is five cents per hundredweight under the Louisville-Lexington order and six cents under the Ohio Valley order. Under the proposed order the rate now applied in the Louisville-Lexington order should be sufficient to cover such expense. In lieu of these deductions, the order would require payments to a qualified cooperative association determined to be providing such services for producers. The rate of such payments would be according to the authorization given by the producer.

For expense of administration, the Louisville-Lexington order requires payments at the rate of 3 cents per hundredweight while the rate under the Ohio Valley order is 4 cents. The three-cent rate should apply under the new order. Handlers operating pool plants would be obligated to pay such rate with respect to milk received there from producers or from a cooperative association acting as a handler on bulk tank milk it causes to be delivered from the farm to such plant. Milk diverted by a handler (including a cooperative association) would also be subject to such a payment. Payment would be required on other source milk received by a pool plant and assigned to Class I milk. Nonpool plant operators would be required to pay an administrative assessment in amounts depending on their choice of option with respect to meeting their obligations to the producer-settlement fund. If the nonpool plant operator elects to make payment to the producer-settlement fund on the amount of Class I milk disposed of in the marketing area, his payment for expense of administration would be on such amount, allowing credit, however, for milk received from pool plants which is classified as Class I milk. If the nonpool plant operator elects to have his obligation computed at the difference between his payments to his qualified dairy farmers who constitute his Grade A milk supply and the amount which would be his obligation as a pool plant operator, then his obligation for administrative expense would be based on his entire receipts of Grade A milk from dairy farmers and any other receipts allocated to Class I milk, with allowance, however, for similar payments under another Federal order.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the proposed Louisville-Lexington-Evansville order, which is a consolidation of and an amendment to the Louisville-Lexington, Kentucky, and Ohio Valley orders, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the proposed Louisville-Lexington-Evansville marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the proposed Louisville-Lexington-Evansville order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Louisville-Lexington-Evansville Marketing Area", and "Order Regulating the Handling of Milk in the Louisville-Lexington-Evansville Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

Referendum order; determination of representative period; and designation of referendum agent. It is hereby directed that a referendum be conducted to determine whether the issuance of the attached order, which is a consolidation of and an amendment to the orders regulating the handling of milk in the Louisville-Lexington, Kentucky, and Ohio Valley marketing areas, is approved or favored by the producers, as defined under the terms of the attached order, and who, during the representative period, were engaged in the production of milk for sale within the marketing area defined in the attached order.

The month of December 1961 is hereby determined to be the representative period for the conduct of such referendum.

Joseph E. Bobo is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders (15 F.R. 5177), such referendum to be completed on or before the 30th day from the date this decision is issued.

Signed at Washington, D.C., on February 15, 1962.

CHARLES S. MURPHY,
Under Secretary.

Order [1] Regulating the Handling of Milk in the Louisville-Lexington-Evansville Marketing Area

Sec.
1046.0 Findings and determinations.

DEFINITIONS

1046.1 Act.
1046.2 Secretary.
1046.3 Department.
1046.4 Person.
1046.5 Cooperative association.
1046.6 Louisville-Lexington-Evansville marketing area.
1046.7 Producer.
1046.8 Handler.
1046.9 Producer-handler.
1046.10 City plant.
1046.11 Country plant.
1046.12 Pool plant.
1046.13 Nonpool plant.
1046.14 Producer milk.
1046.15 Fluid milk product.
1046.16 Other source milk.
1046.17 Route.
1046.18 Chicago butter price.
1046.19 Nonfat dry milk price.

MARKET ADMINISTRATOR

1046.20 Designation.
1046.21 Powers.
1046.22 Duties.

REPORTS, RECORDS AND FACILITIES

1046.30 Reports of receipts and utilization.
1046.31 Payroll reports.
1046.32 Other reports.
1046.33 Records and facilities.
1046.34 Retention of records.

CLASSIFICATION

1046.40 Skim milk and butterfat to be classified.
1046.41 Classes of utilization.
1046.42 Shrinkage.
1046.43 Responsibility for classification of milk.
1046.44 Transfers.
1046.45 Computation of the skim milk and butterfat in each class.
1046.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1046.50 Basic formula price.
1046.51 Class prices.
1046.52 Butterfat differentials to handlers.
1046.53 Location differentials to handlers.
1046.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

1046.60 Produce-handlers.
1046.61 Payments on other source milk by handlers operating pool plants.
1046.62 Obligation of handlers operating a nonpool plant which is a city plant.
1046.63 Plants subject to other Federal orders.

DETERMINATION OF UNIFORM PRICE

1046.70 Net obligation of each handler.
1046.71 Computation of uniform price.

PAYMENTS

1046.80 Time and method of payment for producer milk.
1046.81 Butterfat differentials to producers.
1046.82 Location differentials to producers.
1046.83 Producer-settlement fund.
1046.84 Payments to the producer-settlement fund.
1046.85 Payments out of the producer-settlement fund.
1046.86 Adjustment of accounts.
1046.87 Marketing services.
1046.88 Expense of administration.
1046.89 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

1046.90 Effective time.
1046.91 Suspension or termination.
1046.92 Continuing power and duty.
1046.93 Liquidation after suspension or termination.

MISCELLANEOUS PROVISIONS

1046.100 Agents.
1046.101 Separability of provisions.

AUTHORITY: §§ 1046.0 through 1046.101 issued under secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

§ 1046.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the Louisville-Lexington, Kentucky, and Ohio Valley orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

milk in the Louisville-Lexington, Kentucky, and Ohio Valley marketing areas. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The Louisville-Lexington-Evansville order, which is a consolidation of and an amendment to the Louisville-Lexington, Kentucky, and Ohio Valley orders, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the Louisville-Lexington-Evansville marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The Louisville-Lexington-Evansville order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in the Louisville-Lexington-Evansville order are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, excluding a cooperative association in its capacity as a handler pursuant to § 1046.8(e), as his pro rata share of such expense, 3 cents per hundredweight or such amount not to exceed 3 cents per hundredweight, as the Secretary may prescribe, with respect to (i) producer milk, (ii) milk received from a cooperative association in its capacity as a handler pursuant to § 1046.8(e), (iii) other source milk allocated to Class I at a pool plant, and (iv) milk at a city plant which is a nonpool plant in accordance with § 1046.61.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the orders regulating the handling of milk in the Louisville-Lexington, Kentucky, and Ohio Valley marketing areas (Parts 1095 and 1046, respectively) shall be amended and consolidated into one order which shall be designated as Order No. 46 and which shall regulate the handling of milk in the Louisville-Lexington-Evansville marketing area, and the handling of milk in the Louisville-Lexington-Evansville marketing area shall be in conformity to, and in compliance with, the following terms and conditions:

DEFINITIONS

§ 1046.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 1046.2 Secretary.

"Secretary" means the Secretary of Agriculture or any other officer or employee of the United States authorized to exercise the powers or to perform the duties pursuant to the Act of the said Secretary of Agriculture.

§ 1046.3 Department.

"Department" means the United States Department of Agriculture or other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1046.4 Person.

"Person" means any individual, partnership, corporation, association or any other business unit.

§ 1046.5 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 1046.6 Louisville-Lexington-Evansville marketing area.

"Louisville-Lexington-Evansville marketing area", hereinafter called the "marketing area", means all territory geographically located within the perimeter boundaries of Anderson, Bourbon, Boyle, Breckinridge, Bullit, Clark, Daviess, Fayette, Franklin, Garrard, Grayson, Hancock, Hardin, Henderson, Henry, Hopkins, Jefferson, Jessamine, Larue, Madison, McLean, Meade, Mercer, Montgomery, Muhlenberg, Nelson, Ohio, Oldham, Scott, Shelby, Spencer, Union, Webster, and Woodford Counties in the State of Kentucky, and Clark, Crawford, Daviess, Dubois, Floyd, Gibson, Harrison, Knox, Martin, Orange, Perry, Pike, Posey, Spencer, Vanderburgh, Warrick, and Washington Counties in the State of Indiana, including all municipal corporations and institutions owned or operated by the Federal, State or local governments lying wholly or partially within such territory.

§ 1046.7 Producer.

"Producer" means any person, except a producer-handler:

(a) Who produces milk on a dairy farm which is approved by a duly constituted health authority for the production of milk for fluid disposition (this definition shall include approval of milk by the authority to administer the regulations governing the quality of milk acceptable to agencies of the U.S. Government for fluid consumption in its institutions or bases located in the marketing area during any month in which such milk is disposed of to such institutions or bases); and

(b) Whose milk so produced pursuant to paragraph (a) of this section is received at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1046.8(c) or diverted in accordance with the conditions set forth in § 1046.14.

§ 1046.8 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a city plant or a country plant;

(b) Any cooperative association with respect to milk diverted by it in accordance with the conditions set forth in § 1046.14; and

(c) Any cooperative association with respect to the milk of its producer members which is delivered for the account of the cooperative association from the farm to the pool plant(s) of another handler in a tank truck owned by, operated by, or under contract to such cooperative association if the cooperative association has notified in writing prior to delivery both the market administrator and the handler to whom the milk is delivered that it wishes to be the handler for such milk. Such milk shall be considered as having been received by the cooperative association at the location of the plant to which it was delivered.

§ 1046.9 Producer-handler.

"Producer-handler" means any person who processes and packages milk from his own farm production, distributes any portion of such milk in the marketing area on a route and receives no fluid milk products from other dairy farmers or nonpool plants: *Provided*, That such person provides proof satisfactory to the market administrator that (a) the care and management of all of the dairy animals and other resources necessary to produce the entire amount of fluid milk handled (excluding transfers from pool plants) is the personal enterprise of and at the personal risk of such person, and (b) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person.

§ 1046.10 City plant.

"City plant" means a plant where milk is processed or packaged and from which fluid milk products permitted to be labeled as "Grade A" by a duly constituted health authority are disposed of on a route(s) in the marketing area.

§ 1046.11 Country plant.

"Country plant" means a milk plant, other than a city plant, which is approved by a duly constituted health authority to supply milk, skim milk or cream to a city plant(s) for disposition as "Grade A" milk and at which milk is received during the month from persons described in § 1046.7(a) or from a cooperative association in its capacity as a handler pursuant to § 1046.8(c).

§ 1046.12 Pool plant.

"Pool plant" means:

(a) A city plant, other than a plant operated by a producer-handler, which meets the following requirements:

(1) For each of the months of May through October not less than 30 percent and for each of the months of November through April not less than 50 percent of the fluid milk products received during the two months immediately preceding from persons described in § 1046.7(a), from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), from country plants and from pool plants in containers not larger than a gallon are disposed of as Class I milk from such plant during such two-month period to all outlets except such disposition to pool plants in containers larger than a gallon: *Provided*, That, if such utilization percentage for the two preceding months cannot be ascertained by the market administrator, the respective percentages shall apply to receipts and sales during the current month; and

(2) An amount of Class I milk equal to not less than an average of 13,500 pounds per day or not less than 10 percent of the fluid milk products received during the current month from persons described in § 1046.7(a), from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), and from country plants is distributed on routes in the marketing area;

(b) A country plant during any of the months of October through March from which not less than 50 percent, and during other months not less than 40 percent, of the receipts of milk at such plant from persons described in § 1046.7(a) and from a cooperative association in its capacity as a handler pursuant to § 1046.8(c) are moved to and received at a city plant in the form of milk, skim milk or cream;

(c) A country plant during the months of April through September from which not less than 50 percent of the combined receipts of milk from persons described in § 1046.7(a) and from a cooperative association in its capacity as a handler pursuant to § 1046.8(c) during the preceding period of October through March were moved to and received at a city plant(s) in the form of milk, skim milk, or cream, unless the operator of such plant notifies the market administrator in writing on or before March 15 of withdrawal of the plant from the pool for the months of April through September next following; and

(d) A country plant which is operated by a cooperative association if (1) two-thirds or more of the milk from persons described in § 1046.7(a) who are members of such association is delivered during the month from farms to the pool plant(s) of other handlers or transferred by such association from its plant to the pool plant(s) of other handlers or (2) such plant qualified as a pool plant pursuant to subparagraph (1) of this paragraph during each of the immediately preceding consecutive months of October through February.

§ 1046.13 Nonpool plant.

"Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 1046.14 Producer milk.

"Producer milk" means only that skim milk and butterfat contained in milk from producers which is:

(a) Received from producers at a pool plant for the account of the person operating such plant: *Provided*, That, in the case of milk other than that delivered by a cooperative association pursuant to § 1046.8(c), when withdrawals of milk are made at more than one pool plant from the same load delivered by farm tank pickup truck and in the absence of agreement between the operators of such pool plants as to the reporting of and payment for such milk, the entire load shall be deemed to have been received at the first pool plant at which any of such milk was withdrawn;

(b) Diverted from a pool plant to a nonpool plant for the account of the operator of the pool plant or for the account of a cooperative association: *Provided*, That such milk so diverted shall be deemed to have been received at the pool plant from which it is diverted if diverted for the account of the handler operating such plant or at the location of the pool plant from which diverted if diverted for the account of a cooperative association: *And provided further*, That producer milk pursuant to this paragraph shall not include the milk of any person during any of the months of October, November, January and February on days on which it is diverted by a handler to a nonpool plant in excess of 22 days (11 days in the case of every-other-day delivery) during the month; or

(c) Received by a cooperative association in its capacity as a handler pursuant to § 1046.8(c).

§ 1046.15 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, milk drinks (plain or flavored), reconstituted milk or skim milk, fortified milk or skim milk (including "diet" foods), cream (sweet or sour), half and half, or any mixture in fluid form of milk or skim milk and cream (except ice cream mix, frozen dessert mix, evaporated milk, condensed milk, aerated cream products, eggnog, and cultured sour mixtures not labeled as Grade A) which are neither sterilized nor packaged in hermetically sealed containers.

§ 1046.16 Other source milk.

"Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, (2) producer milk and milk received from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), or (3) opening inventory; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1046.17 Route.

"Route" means delivery (including disposition from a plant store or from a distribution point and distribution by a vendor) of a fluid milk product(s) to a wholesale or retail outlet(s) other than to a:

(a) Milk plant(s);

(b) Distribution point(s); or

(c) Food processing plant(s) for use other than for fluid consumption.

§ 1046.18 Chicago butter price.

"Chicago butter price" means the arithmetical average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago as reported for the month by the Department.

§ 1046.19 Nonfat dry milk price.

"Nonfat dry milk price" means the arithmetical average of the weighted averages of the carlot prices per pounds of spray and roller process nonfat dry milk for human consumption, f.o.b. Chicago area manufacturing plants, as published for the month by the Department.

MARKET ADMINISTRATOR

§ 1046.20 Designation.

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1046.21 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1046.22 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1046.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 1046.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions pro-

vided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(h) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(i) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 5 days after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1046.30 through 1046.32, or payments pursuant to §§ 1046.61, 1046.62, 1046.80, 1046.84, and 1046.86 through 1046.88;

(j) On or before the 15th day after the end of each month, report to each cooperative association, which so requests, with respect to milk delivered by such association or by its members to each handler during the month: (1) The percentage of such receipts classified in each class; and (2) the percentage relationship of such receipts to the total pounds of Class I milk available to assign to such receipts exclusive of the Class I milk disposed of by such handler to the pool plant(s) of other handlers and to nonpool plants. For the purpose of these reports, the milk received from such association shall be treated on a pro rata basis of the total producer milk received by such handler during the month;

(k) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing the prices and butterfat differentials determined for each month as follows:

(1) On or before the 8th day of each month, the Class I price and butterfat differential for the month and the Class II price and butterfat differential for the preceding month computed pursuant to §§ 1046.51 and 1046.52; and

(2) On or before the 12th day after the end of each month, the uniform price computed pursuant to § 1046.71, and the butterfat differential computed pursuant to § 1046.81;

(l) On or before the 13th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(1) The net obligation computed for such handler pursuant to § 1046.70; and

(2) The amounts to be paid by such handler pursuant to §§ 1046.61, 1046.62, 1046.84, 1046.87, and 1046.88.

REPORTS, RECORDS AND FACILITIES

§ 1046.30 Reports of receipts and utilization.

(a) Each cooperative association in its capacity as a handler and each handler with respect to each of his pool plants shall report for the month to the market administrator in the detail and on forms prescribed by the market administrator, such reports to be due at the office of the market administrator not later than the 8th day after the end of such month:

(1) The quantities of skim milk and butterfat contained in receipts of producer milk (including such handler's own farm production);

(2) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants and in milk received from a cooperative association in its capacity as a handler pursuant to § 1046.8(c);

(3) The quantities of skim milk and butterfat contained in other source milk;

(4) Inventories of fluid milk products on hand at the beginning and end of the month;

(5) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement, if required by the market administrator, of the disposition of Class I milk other than on routes operated wholly or partially within the marketing area; and

(6) Such other information with respect to his receipts and utilization of butterfat and skim milk as the market administrator may prescribe;

(b) Each handler operating a city plant which is a nonpool plant shall report on or before the applicable date specified in paragraph (a) of this section his receipts of milk from dairy farmers and all other sources and the utilization of such receipts in accordance with § 1046.40 as prescribed by the market administrator.

§ 1046.31 Payroll reports.

On or before the 20th day after the end of each month, each handler who received milk from producers or from a cooperative association of producers, and each handler operating a nonpool plant subject to § 1046.62(c) shall submit to the market administrator for each of his pool plants, or nonpool plants subject to § 1046.62(c), his producer or dairy farmer payroll for deliveries during the month which shall show (a) the total pounds of milk received from each producer, producer cooperative association or dairy farmer, and the average butterfat content of such milk, (b) the prices paid and the amount of payment to each producer, producer cooperative association, or dairy farmer, and (c) the nature and amount of any credits, deductions, or charges involved in such payments.

§ 1046.32 Other reports.

(a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator, as soon as possible after first receiving milk from any producer, the name and address of such producer, the date upon which such milk was first received, and the plant at which such milk was received.

(c) On or before the 10th day after the request of the market administrator, each handler shall submit a schedule of rates which are charged and paid for the transportation of milk from the farm of each producer to such handler's plant. Changes in such schedule of rates and the effective dates thereof shall be reported to the market administrator within 10 days.

§ 1046.33 Records and facilities.

Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts, records, and reports of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled;

(c) Payments to producers, including supporting records of all deductions and written authorization from each producer of the rate per hundredweight or other method for computing hauling charges on such producer milk; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and other milk products on hand at the beginning and end of each month.

§ 1046.34 Retention of records.

All books and records required under this part to be available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified records and books until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1046.40 Skim milk and butterfat to be classified.

All skim milk and butterfat which is required to be reported pursuant to §§ 1046.30 and 1046.62 shall be classified by the market administrator pursuant to the provisions of §§ 1046.41 through 1046.46.

§ 1046.41 Classes of utilization.

Subject to the conditions set forth in §§ 1046.42 through 1046.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except skim milk and butterfat disposed of in fluid form pursuant to paragraph (b) (4) and (5) of this section: *Provided*, That fluid milk products which have been fortified with nonfat milk solids shall be Class I in an amount equal only to the weight of an equal volume of unfortified milk, skim milk, and cream of the same butterfat content; and

(2) Not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) Used to produce frozen cream;

(3) In fluid milk products which have been fortified with nonfat milk solids which is not accounted for as Class I milk pursuant to the proviso in paragraph (a)(1) of this section;

(4) Disposed of for livestock feed or, in the case of skim milk only, dumped, upon prior notice as prescribed by the market administrator;

(5) Disposed of in bulk to bakeries, candy or soup manufacturers and other commercial food manufacturing establishments which do not dispose of any such receipts in the form of fluid milk products;

(6) In inventories of fluid milk products;

(7) In shrinkage, excluding shrinkage of other source milk, not to exceed the following:

(i) Two percent of skim milk and butterfat, respectively, in producer milk physically received at a pool plant; plus

(ii) One and one-half percent of skim milk and butterfat, respectively, in milk received at a pool plant from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), except that if the handler operating such pool plant files notice with the market administrator on or before the date he submits his monthly report applicable to such milk pursuant to § 1046.30 that he is purchasing such milk on the basis of weights determined at the farm from farm bulk tank measurements the applicable percentage shall be two percent; plus

(iii) One and one-half percent of skim milk and butterfat, respectively, in fluid milk products received at a pool plant in bulk as a transfer from other pool plants; less

(iv) One and one-half percent of skim milk and butterfat, respectively, in fluid milk products transferred in bulk from a pool plant to other plants; and plus

(v) One-half of one percent of skim milk and butterfat, respectively, in producer milk received by a cooperative association in its capacity as a handler pursuant to § 1046.8(c), unless the exception provided in subdivision (ii) of this subparagraph applies; and

(8) In shrinkage of other source milk.

§ 1046.42 Shrinkage.

In computing shrinkage for the purposes of § 1046.41(b) (7) and (8) the market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in the following manner:

(a) Compute the total shrinkage for each handler, or for each pool plant in the case of those handlers operating pool plants, by subtracting the skim milk and butterfat, respectively, classified as Class I milk pursuant to § 1046.41(a)(1) and as Class II milk pursuant to § 1046.41(b) (1) through (6) (subject to the provisions of §§ 1046.43 through 1046.45) from the receipts of the skim milk and butterfat, respectively, required to be reported pursuant to § 1046.30; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section between:

(1) The maximum pounds of skim milk and butterfat shrinkage allowable pursuant to § 1046.41(b)(7) divided by 0.02, and

(2) The total pounds of other source milk received in bulk in the form of fluid milk products.

§ 1046.43 Responsibility for classification of milk.

(a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 1046.44 Transfers.

Skim milk or butterfat disposed of by a handler from a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1046.8 (b) or (c) shall be classified as follows:

(a) As Class I milk if transferred in the form of a fluid milk product to a pool plant of the same handler or of another handler unless utilization in Class II is claimed by the handler (or handlers) in their reports submitted pursuant to § 1046.30 or such milk is classified pursuant to paragraph (b) of this section: *Provided*, That the skim milk or butterfat so classified as Class II milk shall be limited to the amount of skim milk or butterfat, respectively, remaining in Class II milk in the transferee plant after making the assignments pursuant to § 1046.46(a) (1) through (8) and the corresponding steps of § 1046.46 (b), and any additional amount of skim milk or butterfat so transferred shall be classified as Class I milk: *And provided further*, That if the transferor plant has other source milk during the month, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the highest priced available class utilization to the producer milk at both plants: *And provided also*, That in no case shall the assignment of transferred skim milk or butterfat to Class I in the transferee plant exceed the difference between the transferee plant's total receipts of milk and milk products and utilization by the transferee plant in Class II;

(b) If a specified utilization of skim milk and butterfat transferred to a pool plant of another handler by a cooperative association in its capacity as a handler pursuant to § 1046.8(c) is not claimed by both handlers pursuant to paragraph (a) of this section, such skim milk and butterfat shall be classified pro rata to the respective amounts remaining in each class at the pool plant of the receiving handler after making the assignments pursuant to § 1046.46(a)(8) and the corresponding step of § 1046.46 (b) and after assignment of milk for which specified classification has been claimed by handlers pursuant to paragraph (a) of this section;

(c) As Class I milk if transferred to a producer-handler in the form of a fluid milk product;

(d) As Class I milk if transferred or diverted in the form of milk, skim milk or cream in bulk to a nonpool plant located less than 250 airline miles from the City Hall in either Louisville, Kentucky, or Evansville, Indiana, unless:

(1) The handler claims classification in Class II in his report submitted to the market administrator pursuant to § 1046.30;

(2) The operator of the nonpool plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for verification;

(3) An amount of skim milk and butterfat, respectively, of not less than that so claimed by the handler was used in the nonpool plant in products included in Class II milk or was disposed of by the nonpool plant in the form of cream in bulk if the handler meets the requirements specified in subdivisions (i), (ii), and (iii) of this subparagraph:

(i) Claims classification of such cream as Class II;

(ii) Establishes that such cream was transferred without Grade A certification, each shipping container was tagged or labeled to show that the contents were for manufacturing use only, and the shipment of such cream was invoiced accordingly; and

(iii) Affords the market administrator at least 24 hours notice prior to shipment of such cream so that he may verify such shipment;

(4) The classification reported by the handler results in an amount of skim milk and butterfat in Class I milk claimed by all handlers transferring or diverting milk to such nonpool plant of not less than the amount of assignable Class I milk remaining after the following computation:

(i) From the total skim milk and butterfat, respectively, in fluid milk products disposed of from such nonpool plant and classified as Class I milk pursuant to the classification provisions of this order applied to such nonpool plant, subtract the skim milk and butterfat, respectively, received at such plant directly from dairy farmers who hold permits to supply "Grade A" milk and who the market administrator determines constitute the regular source of supply for such nonpool plant; and

(ii) From the remaining amount of Class I milk, subtract the skim milk and butterfat, respectively, in fluid milk products received from another market and which is classified and priced as Class I milk pursuant to another order issued pursuant to the Act: *Provided*, That the amount subtracted pursuant to this subdivision shall be limited to such markets' pro rata share of such remainder based on the total receipts of skim milk and butterfat, respectively, at such nonpool plant which are subject to the pricing provisions of an order issued pursuant to the Act; and

(5) If the skim milk and butterfat, respectively, transferred or diverted by all handlers to such a nonpool plant and reported as Class I milk pursuant to this paragraph is less than the skim milk and butterfat assignable to Class I milk pursuant to subparagraph (4) of this paragraph, an equivalent amount of skim milk and butterfat shall be reclassified as Class I milk pro rata in accordance with the claimed Class II classification reported by each of such handlers; and

(e) As Class I milk if transferred or diverted in the form of milk, skim milk or cream in bulk to a nonpool plant located 250 airline miles or more from the City Hall in either Louisville, Kentucky, or Evansville, Indiana.

§ 1046.45 Computation of the skim milk and butterfat in each class.

For each month the market administrator shall correct for mathematical and other obvious errors the reports of receipts and utilization submitted pursuant to § 1046.30 by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before such product is disposed of by a handler, the hundredweight of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids.

§ 1046.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1046.45 the market administrator shall determine for each pool plant the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk classified pursuant to § 1046.41(b)(7) (i) through (iv);

(2) Subtract from the total pounds of skim milk in Class I milk (i) the pounds of skim milk received in the form of sour cream in consumer packages and disposed of in the same packages as Class I milk if such sour cream is classified and priced as Class II milk under the Chicago Federal milk order (Order No. 30) and (ii) the pounds of skim milk received in the form of liquid dietary products in consumer packages and disposed of in the same packages as Class I milk to the extent of the amount allowable pursuant to § 1046.41(a)(1) if such products are classified and priced as Class I milk under the Cincinnati Federal milk order (Order No. 33);

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk which are not subject to the Class I pricing provisions of an order issued pursuant to the Act and which have not been subtracted pursuant to subparagraph (2)(i) of this paragraph;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less:

(5) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk which are subject to the Class I pricing provisions of another order issued pursuant to the Act and which have not been subtracted pursuant to subparagraph (2)(ii) of this paragraph;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(8) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(9) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers and from a cooperative association in its capacity as a handler pursuant to § 1046.8(c) according to its classification determined pursuant to § 1046.44 (a) or (b); and

(10) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

MINIMUM PRICES

§ 1046.50 Basic formula price.

The basic formula price shall be the higher of the prices as computed to the nearest one-tenth of a cent by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Company and Location
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.2, and

(2) From the nonfat dry milk price, subtract 5.5 cents and multiply the difference by 8.2.

§ 1046.51 Class prices.

Subject to the provisions of §§ 1046.52 and 1046.53 the minimum class prices for milk per hundredweight for the month shall be determined by the market administrator as follows:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price for the preceding month plus $1.25, plus or minus a supply-demand adjustment of not more than 50 cents computed pursuant to subparagraphs (1) through (6) of this paragraph: *Provided*, That the Class I price during the period beginning with the effective date of this amendment through May 1962 shall not be less than $4.43:

(1) Calculate the percentage that total receipts of producer milk were of the total Class I milk at all pool plants for each of the following periods (using for those months included in this computation which are prior to the effective date of this order the quantities of receipts and utilization which have been established for such months under the Louisville-Lexington order and the Ohio Valley order):

(i) The 24-month period ending with the third preceding month, and

(ii) The two-month period ending with the second preceding month and the corresponding two-month period of each of the two preceding years:

(2) Determine the simple average of the percentages for the three two-month periods computed pursuant to subparagraph (1)(ii) of this paragraph and divide by the percentage for the 24-month period determined pursuant to subparagraph (1)(i) of this paragraph;

(3) Add to the quotient obtained pursuant to subparagraph (2) of this paragraph the corresponding ratios for each of the 11 months immediately preceding and divide by 12;

(4) Multiply 144 percent by the result obtained by dividing the ratio computed pursuant to subparagraph (2) of this paragraph by the ratio computed pursuant to subparagraph (3) of this paragraph;

(5) Determine the net deviation percentage by subtracting the percentage determined pursuant to subparagraph (4) of this paragraph from the percentage determined pursuant to subparagraph (1)(ii) of this paragraph for the second and third preceding months; and

(6) If the net deviation percentage computed pursuant to subparagraph (5) of this paragraph is a minus value, add to the Class I price, or if such net deviation percentage is a plus value, subtract from the Class I price an amount which is two-thirds of the total number of cents (rounding any fraction to the nearest tenth of a cent) computed pursuant to subdivisions (i), (ii), and (iii) of this subparagraph: *Provided*, That any such supply-demand adjustment shall not result in a change from the adjustment effective for the preceding month of more than 4 cents:

(i) One cent times each such percentage point of net deviation; plus

(ii) One cent times the lesser of:

(a) Each such percentage point of net deviation, or

(b) Each percentage point of net deviation of like direction (plus or minus, with any net deviation percentage of opposite direction considered to be zero for purposes of computations of this subparagraph) computed pursuant to subparagraph (5) of this paragraph for the month immediately preceding; plus

(iii) One cent times the least of:

(a) Each such percentage point of net deviation,

(b) Each percentage point of net deviation of like direction computed pursuant to subparagraph (5) of this paragraph for the month immediately preceding, or

(c) Each percentage point of net deviation of like direction computed pursuant to subparagraph (5) of this paragraph for the second preceding month.

(b) *Class II milk.* The price for Class II milk for the months of September through March shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the delivery period, and for the months of April through August such price less 10 cents: *Provided*, That such reported price shall be adjusted to a 3.5 percent butterfat basis by the butterfat differential computed pursuant to § 1046.52(b) and rounded to the nearest one-tenth of a cent.

§ 1046.52 Butterfat differentials to handlers.

For each one-tenth of one percent that the weighted average butterfat test of milk which is classified as Class I or Class II is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, the price for such class a butterfat differential (computed to the nearest one-tenth of a cent) determined as follows:

(a) *Class I milk.* Multiply the Chicago butter price for the preceding month by 0.125.

(b) *Class II milk.* Multiply the Chicago butter price for the month by 0.120.

§ 1046.53 Location differentials to handlers.

For that milk received from producers or from a cooperative association in its capacity as a handler pursuant to § 1046.8(c) at a pool plant located at any point which is 85 miles or more from the City Hall in Evansville, Indiana, or Louisville, Lexington, Danville, Elizabethtown, or Madisonville, Kentucky, whichever is nearer, by the shortest hard-surfaced highway distance as determined by the market administrator, and which is classified as Class I milk, the price specified in § 1046.51(a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received:

	Rate per hundredweight (cents)
Distance from City Hall:	
85 miles but less than 95 miles	15.0
For each additional 10 miles or fraction thereof an additional	1.5

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee plant after making the calculations prescribed in § 1046.46(a)(8) and the comparable steps in § 1046.46(b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1046.54 Use of equivalent prices.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1046.60 Producer-handlers.

Sections 1046.50 through 1046.53, 1046.61, 1046.62, 1046.70, 1046.71, and 1046.80 through 1046.89 shall not apply to a producer-handler.

§ 1046.61 Payments on other source milk by handlers operating pool plants.

(a) Each handler operating a pool plant who received other source milk during the month shall pay to the market administrator on or before the 15th day after the end of the month an amount for deposit in the producer-settlement fund equal to the rate of payment resulting from the computations in subparagraphs (1) and (2) of this paragraph multiplied by the hundredweight of skim milk and butterfat allocated to Class I pursuant to § 1046.46(a)(3) and the corresponding step of § 1046.46(b):

(1) For the months of January through September, subtract from the Class I price adjusted by the Class I butterfat and location differentials at the nearest plant(s) from which an equivalent amount of other source milk was received the Class II price adjusted by the Class II butterfat differential; and

(2) For the months of October through December, subtract from the Class I price adjusted by the Class I butterfat differential the uniform price computed pursuant to § 1046.71 adjusted by the producer butterfat differential.

(b) Each handler operating a pool plant shall pay to the market administrator on or before the 15th day after the end of the month an amount for deposit in the producer-settlement fund equal to the rate of payment resulting from the computations in subparagraphs (1) and (2) of paragraph (a) of this section multiplied by the hundredweight of skim milk and butterfat allocated to Class I pursuant to § 1046.46(a)(7) and the corresponding step of § 1046.46(b) which is in excess of the skim milk and butterfat applied pursuant to paragraph (c) of § 1046.70 and the skim milk and butterfat allocated to Class II pursuant to § 1046.46(a)(5) and the corresponding step of § 1046.46(b) in the preceding month.

§ 1046.62 Obligation of handlers operating a nonpool plant which is a city plant.

Each handler, except a producer-handler, in his capacity as the operator of a nonpool plant which is a city plant shall:

(a) On or before the 8th day after the end of the month make reports to the market administrator with respect to the disposition of Class I milk in the marketing area and such other information on the total receipts and utilization of skim milk and butterfat at each of such plants as the market administrator may require, except that a handler selecting the option provided in paragraph (c) of this section at the time his report is filed shall report in accordance with §§ 1046.30 and 1046.31 as though such plant(s) were a pool plant; and

(b) On or before the 15th day after the end of the month pay to the market administrator, unless such handler elects at the time of reporting pursuant to paragraph (a) of this section the option provided pursuant to paragraph (c) of this section, the amounts specified in subparagraphs (1) and (2) of this paragraph:

(1) An amount for deposit in the producer-settlement fund equal to the rate of payment resulting from the computations in subparagraphs (1) and (2) of § 1046.61(a) multiplied by the hundredweight of skim milk and butterfat disposed of from such plant as Class I milk (computed in accordance with § 1046.45) on routes in the marketing area during such month less the skim milk and butterfat, respectively, received from a pool plant during the month and classified as Class I milk under this part; and

(2) An amount for administrative assessment equal to the rate specified in § 1046.88 with respect to skim milk and butterfat disposed of from such plant as Class I milk (computed in accordance with § 1046.45) on routes in the marketing area during such month less the skim milk and butterfat, respectively, received from a pool plant during the month and classified as Class I milk under this part; or

(c) On or before the 18th day after the end of the month pay to the market administrator the amounts specified in subparagraphs (1) and (2) of this paragraph:

(1) An amount for deposit in the producer-settlement fund equal to any plus amount remaining after deducting from the obligation that would have been computed pursuant to § 1046.70 for such nonpool plant, and for any country plant

(meeting the requirements equivalent to § 1046.12 (b) or (c)) which serves as a source of milk for such nonpool plant, if such plant(s) were a pool plant(s), the amounts specified in subdivisions (i) and (ii) of this subparagraph: *Provided*, That in the application of § 1046.44 for the purpose of this subparagraph, milk transferred or diverted from such nonpool plant(s) to a pool plant shall be classified as Class I and Class II milk in the same ratio as other source milk is allocated to each class in such pool plant pursuant to § 1046.46(a)(3) and the corresponding step of § 1046.46(b): *And provided further*, That in the application of § 1046.46(a)(9) and the corresponding step of § 1046.46(b), receipts of fluid milk products at such nonpool plant from a pool plant(s) shall be allocated to the class in which such products are classified at the pool plant(s) pursuant to § 1046.44 (d) or (e):

(i) The gross payments made on or before the 17th day after the end of the month for milk received at such plant(s) during the month from dairy farmers meeting the conditions in § 1046.7(a); and

(ii) Any payments to the producer-settlement funds under other orders issued pursuant to the Act applicable to milk handled at such plant during the month as a partially regulated plant under such other orders; and

(2) An amount for administrative assessment equal to the amount which would have been computed pursuant to § 1046.88 if such nonpool plant had been a pool plant during the month: *Provided*, That such amount shall be reduced by any amounts paid for the month as an administrative expense assessment determined on the basis of Class I milk disposed of on routes in other marketing areas pursuant to the terms under such other orders issued pursuant to the Act: *And provided further*, That if less Class I milk is disposed of from such plant on routes in the Louisville-Lexington-Evansville marketing area than is disposed of during the month on routes in another marketing area(s) as defined in an order(s) issued pursuant to the Act, and if an administrative expense assessment is applied at such plant as if a fully regulated (pool) plant under such order pursuant to the order for the marketing area where the volume of Class I milk disposed of from such plant is greatest, no administrative expense assessment shall be applied under this order.

§ 1046.63 Plants subject to other Federal orders.

Unless determined otherwise by the Secretary, the provisions of this part shall not apply to a milk plant during any month in which the milk at such plant would be subject to the pricing and pooling provisions of another order issued pursuant to the Act unless such plant meets the requirements for a pool plant pursuant to § 1046.12 and a greater volume of fluid milk products is disposed of from such plant to pool plants and to retail or wholesale outlets located in the Louisville-Lexington-Evansville marketing area than in the marketing area regulated pursuant to such other order during the current month and each of the three months immediately preceding: *Provided*, That the operator of a plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICE

§ 1046.70 Net obligation of each handler.

The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to §§ 1046.40 through 1046.46 by the applicable class prices and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 1046.46 by the applicable class prices; and

(c) Add the amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified as Class II milk during the preceding month or the hundredweight of milk subtracted from Class I milk pursuant to § 1046.46(a)(7) and the corresponding step of § 1046.46(b), whichever is less; and

§ 1046.71 Computation of uniform price.

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the net obligations computed pursuant to § 1046.70 for all handlers who made the reports prescribed in § 1046.30 for the month and who are not in default of payments pursuant to § 1046.84 for the preceding month;

(b) Subtract, if the average butterfat content of the producer milk included in these computations is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 1046.81 and multiplying the resulting figure by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 1046.82;

(d) Subtract for each of the months of April, May, June and July an amount computed by multiplying the total hundredweight of producer milk included in these computations by 12 percent of the simple average of the basic formula prices, computed to the nearest cent, for the 12 months of the preceding calendar year (using prices computed according to the basic formula provisions of this order for any periods prior to the effective date of this order);

(e) Add an amount representing one-half of the cash balance on hand in the producer-settlement fund after deducting the total amount of contingent obligations to handlers pursuant to § 1046.85(a) and the balance held pursuant to paragraph (d) of this section for payment pursuant to § 1046.85(b);

(f) Divide the resulting total by the total hundredweight of producer milk included in these computations; and

(g) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (f) of this section. The resulting figure shall be the uniform price.

PAYMENTS

§ 1046.80 Time and method of payment for producer milk.

Except as provided in paragraph (c) of this section, each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the last day of each month for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler, an amount computed at not less than the Class II price for 3.5 percent milk for the preceding month without deduction for hauling;

(b) On or before the 17th day after the end of each month for milk received from such producer during such month, an amount computed at not less than the uniform price per hundredweight plus the per hundredweight payment provided by § 1046.85(b) for the month, subject to the butterfat differential computed pursuant to § 1046.81, and plus or minus adjustments for errors made in previous payments to such producer and less (1) the payment made pursuant to paragraph (a) of this section, (2) the location differential pursuant to § 1046.82, (3) marketing service deductions pursuant to § 1046.87 and (4) proper deductions authorized by such producer which, in the case of a deduction for hauling, shall be in writing and signed by such producer or, in the case of members of a cooperative association which is marketing the producer's milk, by such association;

(c)(1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association in lieu of payments pursuant to paragraphs (a) and (b) of this section, each handler shall pay to the cooperative association on or before the second day prior to the dates specified in paragraphs (a) and (b), respectively, of this section, an amount equal to the sum of the individual payments otherwise payable to such producers without the deductions provided by paragraphs (b) (3) and (4) of this section: *Provided*, That deductions for supplies authorized by such producer may be made. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(d) In making the payments to producers pursuant to paragraph (b) of this section, each handler shall furnish each producer a supporting statement which shall show for each month the following:

(1) The identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

(e) In making payments to a cooperative association pursuant to paragraph (c) of this section, each handler shall report to such cooperative association for each such producer on forms approved by the market administrator as follows:

(1) On or before the 20th day of the month, the total pounds of milk received during the first 15 days of such month, and

(2) On or before the 7th day of the following month, the total pounds of milk received each month, together with the butterfat content of such milk and the amount of deductions claimed by such handler.

(f) Each handler shall pay to the cooperative association on or before the 19th day of the following month for milk received from a cooperative association for which it is a handler pursuant to § 1046.8(c) an amount computed at not less than the value of such milk at the minimum prices for milk in each class subject to the applicable location and butterfat differentials.

§ 1046.81 Butterfat differentials to producers.

In making payment to producers pursuant to § 1046.80(b) each handler shall add to the uniform price not less than, or subtract from the uniform price not more than, as the case may be, for each one-tenth of one percent that the butterfat content of the milk received from the producer is above or below 3.5 percent, a butterfat differential computed by the market administrator by multiplying the total pounds of butterfat in producer milk classified in Class I and Class II milk during the month pursuant to §§ 1046.40 through 1046.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resulting figure to the nearest one-tenth of a cent.

§ 1046.82 Location differentials to producers.

In making payments to producers pursuant to § 1046.80(b) a handler shall deduct from the uniform price, with respect to all milk received from producers, not more than the appropriate zone differential provided in § 1046.53.

§ 1046.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1046.61, 1046.62, 1046.84 and 1046.86 and out of which he shall make all payments pursuant to §§ 1046.85 and 1046.86: *Provided*, That payments due any handler shall be offset by payments due from such handler.

§ 1046.84 Payments to the producer-settlement fund.

On or before the 15th day after the end of each month, each handler shall pay to the market administrator any amount by which the net obligation of such handler for the month is greater than an amount computed by multiplying the hundredweight of milk received by him from producers during the month by the uniform price adjusted by the producer butterfat and location differentials.

§ 1046.85 Payments out of the producer-settlement fund.

(a) On or before the 16th day after the end of each month, the market administrator shall pay to each handler for payment to producers any amount by which the net obligation of such handler for the month is less than an amount computed by multiplying the hundredweight of milk received by him from producers during the month by the uniform price adjusted by the producer butterfat and location differentials: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

(b) On or before the 16th day after the end of each of the months of September, October, November, and December, the market administrator shall pay out of the producer-settlement fund to each handler for all milk for which payment is to be made to producers pursuant to § 1046.80(b) for such month and to each cooperative association for all producer milk for which such association is receiving payments pursuant to § 1046.80 (c) for such month at the following rate per hundredweight: For the months of September through November, divide one-fourth of the aggregate amount set aside in the producer-settlement fund pursuant to § 1046.71(d) during the immediately preceding period of April through July, and for the month of December, divide the balance remaining in such fund by the hundredweight of producer milk received by all handlers during the month (computed to the nearest cent per hundredweight).

§ 1046.86 Adjustment of accounts.

(a) Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever such verification discloses that payment is due from the market administrator to any handler, pursuant to § 1046.85, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by § 1046.80, the handler shall pay any amount so due not later than the time of making payment to producers next following such disclosure.

(b) Overdue accounts: Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1046.61, 1046.62, 1046.80, 1046.84, 1046.85, 1046.86 (a), 1046.87, or 1046.88 shall be increased one-half of one percent on the first of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 1046.87 Marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 1046.80(b), shall deduct 5 cents per hundredweight, or such amount not in excess thereof as the Secretary may prescribe, with respect to all milk received by such handler from producers (other than such handler's own farm production) during the month and shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from such producers and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) Each cooperative association which is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, may file with a handler a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such han-

dler. Such claim shall contain a list of the producers for whom such deductions apply, an agreement to indemnify the handler in the making of the deductions, and a certification that the association has an unterminated membership contract with each producer. In making payments to producers for milk received during the month, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, deductions in accordance with the association's claim and shall pay the amount deducted to the association within 15 days after the end of the month.

§ 1046.88 Expense of administration.

As his pro rata share of the expense of the administration of this part, each handler, excluding a cooperative association in its capacity as a handler pursuant to § 1046.8(c), shall pay to the market administrator on or before the 15th day after the end of each month 3 cents per hundredweight, or such lesser amount as the Secretary may prescribe, for each hundredweight of skim milk and butterfat contained in his receipts during the month of (a) producer milk (including such handler's own farm production), (b) milk received from a cooperative association in its capacity as a handler pursuant to § 1046.8(c), and (c) other source milk allocated to Class I milk pursuant to § 1046.46(a)(3) and the corresponding step of § 1046.46(b). A handler operating a city plant which is a nonpool plant shall pay administrative assessments in accordance with § 1046.62.

§ 1046.89 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled, and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deductions of set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 1046.90 Effective time.

The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 1046.91.

§ 1046.91 Suspension or termination.

Any or all provisions of this part, or any amendment to this part, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give and shall, in any event, terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 1046.92 Continuing power and duty.

(a) If upon the suspension or termination of any or all provisions of this part there are any obligations arising under this part, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged, (2) from time to time account for all receipts and disbursements and, if so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant to this part.

§ 1046.93 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part, except §§ 1046.34, 1046.89, and 1046.91 through 1046.93, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1046.100 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1046.101 Separability of provisions.

If any provision of this part, or its application to any person, or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part to other persons or circumstances shall not be affected thereby.

[F.R. Doc. 62-1740; Filed, Feb. 20, 1962; 8:48 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 1 [New]]

[Draft Release No. 62-7]

DEFINITIONS AND ABBREVIATIONS

Notice is hereby given that there is under consideration a proposal to amend Chapter I of Title 14 of the Code of Federal Regulations to add a Part 1 "Definitions and Abbreviations [New]," as hereinafter set forth.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Director of Rules Codification, Federal Aviation Agency, Room B-714, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before March 21, 1962, will be considered before taking action on the proposed rules. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available in the office of the Director of Rules Codification for examination by interested persons.

This proposal is a part of the program of the Federal Aviation Agency to recodify its regulatory material. It conforms to the "Outline and Analysis" for the proposed recodification contained in Draft Release 61-25 and published in the FEDERAL REGISTER on November 15, 1961 (26 F.R. 10698).

It should be noted that during the life of the codification project, Chapter I of Title 14 may contain more than one part bearing the same number. To differentiate between the two, the recodified parts, such as the one herein proposed, will be labeled "[New]." This label will, of course, be dropped at the completion of the project as all the regulations will be "new".

It must be emphasized that the proposed Part 1 [New] will apply only to new parts and subchapters of Chapter I of Title 14 that are published as a part of the recodification program. It will not apply to current "Civil Air Regulations" or to "Regulations of the Administrator." The definitions currently in each regulation will continue to apply to that regulation until it is recodified.

Definitions are presently found in the individual part to which they apply. The number of terms defined exceeds 450. The number of definitions exceeds 1,200 due to the duplication required in having definitions applicable only to individual parts. In addition, some definitions add little to an understanding of the defined term (e.g., the definition of "certificated repairman" in § 24.1). Certain definitions are actually substantive rules (e.g., the definition of "continental control area" in § 60.60). The same term may be defined differently in different parts (e.g., "maintenance" in §§ 13.1 and 25.1). In order to prevent these difficulties from re-occurring, we propose to place all needed definitions in one part and make them apply across-the-board to all regulations. Part 1 [New] is intended to provided needed definitions of terms that will be used in enough different parts to warrant standardization and consolidation. This approach has permitted us to reduce the number of definitions to 102.

Definitions, now contained in FAA Regulations, that do not appear in this part, have been omitted as surplusage or will be executed in revising the parts to which they apply. The fact that they do not appear in Part 1 [New] does not mean, in each case, that they have been dropped. Many of the terms previously defined will be used without definition since none is necessary (e.g., "calendar month"). In other cases, the term will be used but spelled out so as to make definition unnecessary. Definitions which are actually rules will be positively stated as such in the appropriate part.

While it might seem preferable to include general definitions of wide applicability in each of the parts to which they apply to make it unnecessary to refer to more than one part when dealing with a particular problem, it would be difficult, if not impossible, to maintain uniformity of terminology under such an approach, because changes in a definition in one part would not be likely to change the corresponding definitions in other parts. In addition, the extra definitions this would engender would significantly increase the bulk and length of the final product at a time when concerted effort is being made to reduce them.

It is not a significant burden to have to refer occasionally to another part. If the definitions are standardized to reflect accepted usage and if substantive rules are removed from definition areas and consolidate it should be necessary to refer to the definitions only to clear up occasional, marginal doubts.

Part 1 [New] has been drafted to make the definitions describe as simply and clearly as possible how the defined terms are actually used and understood by FAA and the aviation industry and how, therefore, it is proposed to use them in the recodification. In this process, an attempt has been made to eliminate ambiguity and undesirable vagueness. An attempt has also been made to dovetail related definitions and to make these relationships apparent by treating similar matters similarly and by using, where appropriate, other relevant terms that have been defined, rather than to repeat the substance of those other definitions.

In a few cases, this approach has produced a significantly different definition from any now appearing in the regulations. The new definitions, therefore, are no mere attempts to paraphrase the existing definitions. It should be pointed out in this connection that since a properly drafted definition is only a tool and a description of how words are actually being used in the document in question, a substantial change from an earlier definition does not necessarily involve a change in the substance of the regulation. Even when a change in the substance of a definition is involved, the substance of the regulations can be preserved by making compensatory language changes in the rules to which the definitions respectively apply.

Throughout, the two principal criteria have been accuracy and clarity, determined so far as possible by existing usage and understanding.

In consideration of the foregoing, it is proposed to amend Chapter I of Title 14 by adding a Part 1 [New] reading as set forth below.

This amendment is proposed under the authority of section 313(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a)).

Issued in Washington, D.C., on February 14, 1962.

N. E. HALABY,
Administrator.

SUBCHAPTER A—DEFINITIONS [NEW]

PART 1—DEFINITIONS AND ABBREVIATIONS [NEW]

Sec.
1.1 General definitions.
1.2 Abbreviations and symbols.
1.3 Rules of construction.

§ 1.1 General definitions.

As used in this chapter:

"Administrator" means the Administrator of the Federal Aviation Agency or any person to whom he has delegated his authority in the matter concerned.

"Aerodynamic coefficients" means nondimensional coefficients for aerodynamic forces and moments.

"Aircraft" means a device that is used or intended to be used for flight in the air.

"Aircraft engine" means an engine that is used or intended to be used in propelling aircraft. It includes engine appurtenances and accessories but does not include propellers.

"Airframe" means the fuselage, booms, nacelles, cowlings, fairings, fixed airfoil surfaces (including wings and empennage), and landing gear of an aircraft and their accessories and controls.

"Airplane" means an engine-driven fixed-wing aircraft, heavier than air, that is supported in flight by the dynamic reaction of the air against its wings.

"Airport" means an area of land or water that is used or intended to be used for the landing and takeoff of aircraft, and includes its buildings and facilities, if any.

"Airship" means an engine-driven lighter-than-air aircraft that can be steered.

"Air traffic" means aircraft operating in the air or on an airport surface exclusive of loading ramps and parking areas.

"Air traffic control" means a service operated to promote the safe, orderly, and expeditious flow of air traffic.

"Air traffic control clearance" means an air traffic control authorization for an aircraft to operate under specified conditions within controlled airspace.

"Air transportation" means interstate, overseas, or foreign air transportation or the transportation of mail by aircraft.

"Alternate airport" means an airport at which an aircraft may land if a landing at the first intended airport becomes inadvisable.

"Appliance" means any instrument, mechanism, equipment, part, apparatus, appurtenance, or accessory, including communications equipment, that is used or intended to be used in operating or controlling an aircraft in flight, is installed in or attached to the aircraft, and is not part of an airframe, engine, or propeller.

"Approved", unless used with reference to another person, means approved by the Administrator.

"Autorotation" means a rotorcraft flight condition in which the lifting rotor is driven entirely by action of the air when the rotorcraft is in motion.

"Auxiliary rotor" means a rotor that serves either to counteract the effect of the main rotor torque on a rotorcraft or

to maneuver the rotorcraft about one or more of its three principal axes.

"Balloon" means a lighter-than-air aircraft that is not engine driven.

"Brake horsepower" means the power delivered at the propeller shaft of an aircraft engine.

"Calibrated airspeed" means the indicated airspeed of an aircraft, corrected for position and instrument error. Calibrated airspeed is equal to true airspeed in standard atmosphere at sea level.

"Ceiling" means the height above the earth's surface of the lowest layer of clouds or other obscuring phenomena that is reported as "broken", "overcast", or "obscuration", and not as "thin" or "partial".

"Civil aircraft" means aircraft other than public aircraft.

"Controlled airspace" means airspace within which some or all aircraft may be subject to air traffic control.

"Crewmember" means a person assigned to perform duty in an aircraft during flight time.

"Critical altitude" means the maximum altitude in standard atmosphere at which it is possible to maintain, at the maximum continuous rotational speed, either:

(1) The maximum continuous power, for an engine for which this power rating is the same at sea level and at the rated altitude; or

(2) The maximum continuous rated manifold pressure, for an engine whose maximum continous power is governed by a constant manifold pressure.

"Critical engine" means the engine whose failure would most adversely affect the performance or handling qualities of an aircraft.

"Cruising altitude" means an altitude determined by vertical measurement from mean sea level.

"Dual instruction" means flight instruction received during flight time from a person authorized by this chapter to give flight instruction.

"Equivalent airspeed" means the airspeed of an aircraft corrected for adiabatic compressible flow for the particular altitude. Equivalent airspeed is equal to calibrated airspeed in standard atmosphere at sea level.

"Extended over-water operation" means an operation over water at a horizontal distance of more than 50 miles from the nearest shore line.

"Fireproof":

(1) With respect to materials and parts used to confine fire in a designated fire zone, means the capacity to withstand heat at least as well as steel, in dimensions appropriate for the purpose for which they are used, under the most severe conditions of fire and duration likely to occur in that zone; and

(2) With respect to other materials and parts, means the capacity to withstand heat at least as well as steel in dimensions appropriate for the purpose for which they are used.

"Fire resistant":

(1) With respect to sheet or structural members, means the capacity to withstand heat at least as well as aluminum alloy in dimensions appropriate for the purpose for which they are used; and

(2) With respect to fluid-carrying lines, other flammable fluid system parts, wiring, air ducts, fittings, and powerplant control, means the capacity to withstand heat at least as well as aluminum alloy, in dimensions appropriate for the purpose for which they are used, under the heat and other conditions likely to occur at the place concerned.

"Flame resistant" means not susceptible to combustion to the point of propagating a flame, beyond safe limits, after the ignition source is removed.

"Flammable", with respect to a fluid or gas, means susceptible to igniting readily or to exploding.

"Flap extended speed" means the highest speed permissible with wing flaps in a prescribed extended position.

"Flash resistant" means not susceptible to burning violently when ignited.

"Flight crewmember" means a pilot, flight engineer, or flight navigator assigned to duty in an aircraft during flight time.

"Flight level" means a level of constant atmospheric pressure related to a reference datum of 29.92 inches of mercury. Each is stated in three digits that represent hundreds of feet. They are used in 500 foot increments. For example, flight level 250 represents a barometric altimeter indication of 25,000 feet; flight level 255, an indication of 25,500 feet.

"Flight plan" means specified information, relating to the intended flight of an aircraft, that is filed orally or in writing with air traffic control.

"Flight time" means the time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the next point of landing. ("Block-to-block" time.)

"Flight visibility" means the average forward horizontal distance, from the cockpit of an aircraft in flight, at which prominent unlighted objects may be seen and identified by day and prominent lighted objects may be seen and identified by night.

"Foreign air carrier" means any person other than a citizen of the United States, who undertakes directly, by lease or other arrangement, to engage in air transportation.

"Foreign air transportation" means the carriage by aircraft of persons or property as a common carrier for compensation or hire, or the carriage of mail by aircraft, in commerce between a place in the United States and any place outside of the United States, whether that commerce moves wholly by aircraft or partly by aircraft and partly by other forms of transportation.

"Glider" means a heavier-than-air aircraft, that is supported in flight by the dynamic reaction of the air against its lifting surfaces and whose free flight does not depend principally on an engine.

"Ground visibility" means prevailing horizontal visibility near the earth's surface as reported by the United States Weather Bureau or an accredited observer.

"Gyrodyne" means a rotorcraft whose rotors are normally engine-driven for takeoff, hovering, and landing; and for forward flight through part of its speed range, and whose means of propulsion, consisting usually of conventional propellers, is independent of the rotor system.

"Gyroplane" means a rotorcraft whose rotors are not engine-driven, except for initial starting, but are made to rotate by action of the air when the rotorcraft is moving; and whose means of propulsion, consisting usually of conventional propellers, is independent of the rotor system.

"Helicopter" means a rotorcraft that depends principally for its horizontal motion on its engine-driven rotors.

"Heliport" means an area of land, water, or structure used or intended to be used for the landing and takeoff of helicopters.

"IFR conditions" means weather conditions below the minimum for flight under visual flight rules.

"Indicated airspeed" means the speed of an aircraft as shown on its pitot static airspeed indicator calibrated to reflect standard atmosphere adiabatic compressible flow at sea level uncorrected for airspeed system errors.

"Instrument" means a device using an internal mechanism to show visually or aurally the attitude, altitude, or operation of an aircraft or aircraft part. It includes electronic devices for automatically controlling an aircraft in flight.

"Interstate air transportation" means the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft, in commerce:

(1) Between a place in a State or the District of Columbia and another place in another State or the District of Columbia;

(2) Between places in the same State through the airspace of any place outside that State; or

(3) Between places in the same possession of the United States; whether that commerce moves wholly by aircraft or partly by aircraft and partly by other forms of transportation.

"Landing gear extended speed" means the maximum speed at which an aircraft can be safely flown with the landing gear extended.

"Landing gear operating speed" means the maximum speed at which the landing gear can be safely extended or retracted.

"Large aircraft" means aircraft of more than 12,500 pounds, maximum certificated takeoff weight.

"Lighter-than-air aircraft" means aircraft that can rise and remain suspended by using contained gas weighing less than the air that is displaced by the gas.

"Mach number" means the ratio of true airspeed to the speed of sound.

"Main rotor" means the rotor that supplies the principal lift to a rotorcraft.

"Maintenance" includes inspection, overhaul, repair, preservation, and the replacement of parts.

"Major alteration" means an alteration:

(1) That might appreciably affect weight, balance, structural strength, performance, powerplant operation, flight characteristics, or other qualities affecting airworthiness; or

(2) That is not done according to accepted practices or cannot be done by elementary operations.

"Major repair" means a repair:

(1) That, if improperly done, might appreciably affect weight, balance, structural strength, performance, powerplant operation, flight characteristics, or other qualities affecting airworthiness; or

(2) That is not done according to accepted practices or cannot be done by elementary operations.

"Manifold pressure" means absolute pressure as measured at the appropriate point in the induction system and usually expressed in inches of mercury.

"Maximum continuous power":

(1) With respect to reciprocating engines, means the brake horsepower that is developed in standard atmosphere at a specified altitude under the maximum conditions of crankshaft rotational speed and engine manifold pressure, and approved for use of unrestricted duration; and

(2) With respect to turbine engines, means the brake horsepower that is developed at a specified altitude, atmospheric temperature, and flight speed under the maximum conditions of rotor shaft rotational speed and gas temperature, and approved for use of unrestricted duration.

"Maximum continuous thrust", with respect to turbine engines, means the jet thrust that is developed at a specified altitude, atmospheric temperature, and flight speed under the maximum conditions of rotor shaft rotational speed and gas temperature, and approved for use of unrestricted duration.

"Medical certificate" means acceptable evidence of physical fitness on a form prescribed by the Administrator.

"Minor alteration" means an alteration other than a major alteration.

"Minor repair" means a repair other than a major repair.

"Navigable airspace" means airspace at and above the minimum flight altitudes prescribed by or under this chapter, including airspace needed for safe takeoff and landing.

"Night" means the time between the end of evening civil twilight and the beginning of morning civil twilight, as published in the American Air Almanac, converted to local time.

"Operate", with respect to aircraft, means use, cause to use, or authorize to use aircraft for the purpose of air navigation, including the piloting of aircraft, with or without the right of legal control (as owner, lessee, or otherwise).

"Operational control", with respect to a flight, means the exercise of authority over initiating, conducting, or terminating a flight.

"Overseas air transportation" means the carriage by aircraft of persons or property as a common carrier for compensation or hire, or the carriage of mail by aircraft, in commerce:

(1) Between a place in a State or the District of Columbia and a place in a possession of the United States; or

(2) Between a place in a possession of the United States and a place in another possession of the United States; whether that commerce moves wholly by aircraft or partly by aircraft and partly by other forms of transportation.

"Parachute" means a device used or intended to be used to retard the fall of a body or object through the air.

"Passenger" means an occupant of an aircraft in flight other than a crewmember.

"Person" means an individual, firm, partnership, corporation, company, association, joint-stock association, or governmental entity. It includes a trustee, receiver, assignee, or similar representative of any of them.

"Pilot" means a person who holds a pilot certificate.

"Pilotage" means navigation by visual reference to landmarks.

"Pilot in command" means the pilot responsible for the operation and safety of an aircraft during flight time.

"Pitch setting" means the propeller blade setting as determined by the blade angle when measured in a manner, and at a radius, specified by the instruction manual for the propeller.

"Positive control" means control of all air traffic, within designated airspace, by air traffic control.

"Preventive maintenance" means simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations.

"Prohibited area" means designated airspace within which the flight of aircraft is prohibited.

"Propeller" means a device for propelling an aircraft that has blades on an engine-driven shaft and that, when rotated, produces by its action on the air, a thrust approximately perpendicular to its place of rotation. It includes control components normally supplied by the manufacturer.

"Public aircraft" means aircraft used only in the service of a government, or a political subdivision. It does not include such an aircraft engaged in carrying persons or property for commercial purposes.

"Rating" means a statement that, as a part of a certificate, sets forth special conditions, privileges, or limitations.

"Reporting point" means a geographical location in relation to which the position of an aircraft is reported.

"Restricted area" means airspace designated under Part ____ [608] of this chapter within which the flight of aircraft, while not wholly prohibited, is subject to restriction.

"Rotorcraft" means a heavier-than-air aircraft that depends principally for its support in flight on the lift generated by one or more rotors.

"Route segment" means a part of a route. Each end of that part is identified by:

(1) A continental or insular geographical location;

(2) A point at which a special aid to air navigation is located; or

(3) A point at which a definite radio fix can be established.

"Second in command" means a pilot who is designated to be second in command of an aircraft during flight time.

"Small aircraft" means aircraft of 12,500 pounds or less, maximum certificated takeoff weight.

"Solo flight time" means flight time during which a pilot is the only occupant of the aircraft.

"Standard atmosphere" means atmosphere in which:

(1) The air is a dry perfect gas;

(2) The temperature at sea level is 59 degrees Fahrenheit;

(3) The pressure at sea level is 29.92 inches Hg.;

(4) The temperature gradient from sea level to the altitude at which the temperature is −69.7 degrees Fahrenheit is −0.003566 degrees Fahrenheit per foot and zero above that altitude; and

(5) The density ρ_0 at sea level under the conditions described in clauses (1)–(4) is 0.002377 lb. sec. 2/ft. 4.

"Takeoff power":

(1) With respect to reciprocating engines, means the brake horsepower that is developed under standard sea level conditions, and under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for the normal takeoff, and limited in use to the maximum continuous period shown in the approved engine specification; and

(2) With respect to turbine engines, means the brake horsepower that is developed under static conditions at a specified altitude and atmospheric temperature, and under the maximum conditions of rotor shaft rotational speed and gas temperature approved for the normal takeoff, and limited in use to the maximum continuous period shown in the approved engine specification.

"Takeoff thrust", with respect to turbine engines, means the jet thrust that is developed under static conditions at a specific altitude and atmospheric temperature under the maximum conditions of rotor shaft rotational speed and gas temperature approved for the normal takeoff, and limited in use to the maximum continuous period shown in the approved engine specification.

"Time in service", with respect to maintenance time records, means the time from the moment an aircraft leaves the surface of the earth until it touches it at the next point of landing.

"True airspeed" means the airspeed of an aircraft relative to undisturbed air. True airspeed is equal to estimated airspeed $(\rho_0/\rho)^{1/2}$.

"Traffic pattern" means the prescribed path for the operation of an aircraft landing at, taxiing on, or taking off from, an airport.

"United States", in a geographical sense, means (1) the States, the District of Columbia, Puerto Rico, and the possessions, including the territorial waters, and (2) the airspace of these areas.

"United States air carrier" means a citizen of the United States who undertakes directly by lease or other arrangement, to engage in air transportation.

§ 1.2 Abbreviations and symbols.

In this chapter:

"ATC" means air traffic control.

"CAS" means calibrated airspeed.

"CONSOL" or "CONSOLAN" means a kind of low or medium frequency long range navigational aid.

"DME" means distance measuring equipment compatible with TACAN.
"FAA" means Federal Aviation Agency..
"FM" means fan marker.
"ICAO" means International Civil Aviation Organization.
"IFR" means instrument flight rules.
"ILS" means instrument landing system.
"INT" means intersection.
"LMM" means compass locator at middle marker.
"LOM" means compass locator at outer marker.
"MAA" means maximum authorized IFR altitude.
"MEA" means minimum en route IFR altitude.
"MM" means ILS middle marker.
"MSL" means mean sea level.
"OM" means ILS outer marker.
"RBN" means radio beacon.
"RR" means low or medium frequency radio range station.
"TACAN" means ultra-high frequency tactical air navigational aid.
"TVOR" means very high frequency terminal omnirange station.
"VFR" means visual flight rules.
"VHF" means very high frequency.
"VOR" means very high frequency omnirange station.
"VORTAC" means collocated VOR and TACAN.

§ 1.3 Rules of construction.

(a) In this chapter, unless the context requires otherwise:
(1) Words importing the singular include the plural;
(2) Words importing the plural include the singular;
(3) Words importing the masculine gender include the feminine; and
(4) The present tense includes the future tense.
(b) In this chapter the word:
(1) "Shall" is used in an imperative sense;
(2) "May" is used in a permissive sense to state authority or permission to do the act prescribed, and the words "no person may * * *" or "a person may not * * *" mean that no person is required, authorized, or permitted to do the act prescribed; and
(3) "Includes" means "includes but is not limited to".

[F.R. Doc. 62-1711; Filed, Feb. 20, 1962; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-FW-96]

FEDERAL AIRWAY AND ASSOCIATED CONTROL AREAS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 600.6194 and 601.6194 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 194 extends in part from Homer, Ga., to Fort Mill, S.C., via Royston, Ga. The Federal Aviation Agency has under consideration the alteration of this segment of Victor 194, and its associated control areas, to extend from the Norcross, Ga., VORTAC via the intersection of the Norcross VORTAC 054° and the Royston VOR 278° True radials; Royston VOR; Greenwood, S.C., VOR; intersection of the Greenwood VOR 060° and the Fort Mill VOR 227° True radials; to the Fort Mill VOR.

This segment of Victor 194 was originally used as an inbound route to the Atlanta, Ga., terminal area. Revised traffic control procedures have changed the utilization of this segment of Victor 194 from an inbound route to a transition route between the low altitude airways northeast of Atlanta. The proposed alteration of this segment of Victor 194, and its alignment via the Greenwood VOR, would facilitate air traffic management by providing a more desirable transition route and by providing better navigational guidance along the airway.

The control area associated with this proposed airway segment would extend upward from 700 feet above the surface to the base of the continental control area. Separate action will be initiated to implement on an area basis Amendment 60-21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 52 Fairlie Street NW., Atlanta 3, Ga. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 15, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[14 CFR Part 608]

[Airspace Docket No. 62-KC-7]

RESTRICTED AREAS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 608.34 of the regulations of the Administrator, the substance of which is stated below.

On Nov. 29, 1961, an amendment to § 608.34 was published in the FEDERAL REGISTER (26 F.R. 11237) designating a new restricted area, R-3403 Jefferson Proving Ground, Ind. This restricted area is designated from "0700 to 1900 c.s.t., Monday through Saturday" for the purpose of testing new and experimental ammunition by the Department of the Army.

Subsequent to the designation of this restricted area, the Department of the Army determined that the assigned time of designation does not allow sufficient time to complete the required testing nor sufficient hours of darkness to accomplish tracer test firing. Therefore, the Department of Army has requested an extension in the time of designation for R-3403.

If this action is taken, the time of designation for the Jefferson Proving Ground, Ind., Restricted Area R-3403 would be increased from "0700-1900 c.s.t., Monday through Saturday" to "0800-2400 c.s.t., daily.".

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Central Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within fifteen days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 15, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1712; Filed, Feb. 20, 1962; 8:45 a.m.]

[14 CFR Part 608]

[Airspace Docket No. 61-NY-104]

SPECIAL USE AIRSPACE

Proposed Alteration of Restricted Area/Military Climb Corridor

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 608.40 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration a proposal for the alteration of the Camp Springs, Md. (Andrews AFB), Restricted Area/Military Climb Corridor, R-4003. The present climb corridor extends along the 053° True radial of the Andrews AFB VOR. It is proposed to increase the lateral dimensions of the climb corridor to provide for a scramble procedure via the 051° True radial of the Andrews AFB TACAN. This alteration would provide protection for TACAN or VOR equipped air defense aircraft while operating within this Restricted Area/Military Climb Corridor. The boundaries of the Camp Springs, Md. (Andrews AFB), Restricted Area/Military Climb Corridor would be described as follows:

The area based on the 053° True radial of the Andrews AFB VOR extending from five miles NE. of the airbase (latitude 38°48'40" N., longitude 76°52'05" W.) to 32 miles NE. of the airbase, having a width of 2 miles SE. and 2.3 miles NW. of the 053° True radial at the beginning and a width of 2.3 miles either side of the 053° True radial at the outer extremity.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 15, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 9]

[Docket No. 14524; FCC 62-172]

AVIATION SERVICES

Proposed Discontinuance of Use of High Frequencies for Aeronautical Mobile (R) Communications in Domestic Service Within Continental United States

1. Notice of proposed rule making in the above-entitled matter is hereby given.

2. Resolution No. 13 of the Administrative Radio Conference (Geneva, 1959) of the International Telecommunication Union (ITU) calls for a review of frequency allotment plans for the aeronautical mobile service prior to the convening of the next Ordinary Administrative Radio Conference. Accordingly, the Department of State brought to the attention of the Commission, the Office of Emergency Planning (OEP), and other appropriate government agencies, the question of what position the United States should take with respect to the future use of aeronautical mobile (R) frequencies currently available for domestic operations within the United States.

3. The Commission, after consultation with the above agencies, has concluded the following:

a. There are several unsatisfied requirements for high frequencies to be used for international aeronautical mobile (R) communication purposes.

b. One possible way of satisfying some of these requirements is to divert to international routes, some or all of the high frequencies presently allotted for domestic aeronautical mobile (R) purposes within the 48 contiguous United States.

c. There are 52 discrete Regional and Domestic Air Route Area (RDARA) high frequencies allotted by Appendix 26 to the ITU Radio Regulations for aeronautical mobile (R) purposes within the 48 contiguous United States. All of these frequencies are also allotted to other "areas" of the world.

d. Most of the aeronautical mobile (R) domestic operations within the continental United States are presently being conducted in the VHF bands.

e. With minor exceptions, all aeronautical mobile (R) domestic requirements within the continental United States could be satisfied in the VHF bands.

f. If the United States eliminated or reduced its domestic use of high frequencies for aeronautical mobile (R) purposes, the frequencies so released could be used to fill some of the outstanding Major World Air Route Area (MWARA) requirements.

4. In light of the above conclusions, it is proposed to amend Part 9—Aviation Services of the Commission's rules to preclude the use of high frequencies for domestic aeronautical mobile (R) communications within the continental United States (excluding Alaska) after January 1, 1965.

5. The proposed amendment to Part 9 of the rules, as set forth below is issued pursuant to the authority contained in section 4(i), 303 (c), (f) and (r) of the Communications Act of 1934, as amended.

6. Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before March 26, 1962, and reply comments on or before April 5, 1962. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it in addition to the specific comments invited by this notice.

7. In accordance with the provision of § 1.54 of the Commission's rules, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: February 14, 1962.

Released: February 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Section 9.432 is amended by adding new paragraph (f), as follows:

§ 9.432 Frequencies available.

* * * * *

(f) Use of high frequencies for aeronautical mobile (R) communications in the Domestic Service within the continental U.S. (excluding Alaska), will not be permitted after January 1, 1965.

[F.R. Doc. 62-1770; Filed, Feb. 20, 1962; 8:51 a.m.]

[47 CFR Part 11]

[Docket No. 14525; FCC 62-173]

MANUFACTURERS RADIO SERVICE

Proposed Eligibility for Certain Specialized Subsidiary Corporations

1. Notice is hereby given of proposed rule-making in the above-entitled matter.

2. A letter from the Carbide Power Company of Sault Ste. Marie, Michigan, dated October 31st, 1961, requesting a waiver or amendment of the eligibility provisions of our Manufacturers Radio Service rules, has given rise to this proceeding.

3. The Carbide Power Company is a wholly owned subsidiary of the Union Carbide Corporation. Carbide Power Company's sole function and reason for existence is to provide hydroelectric power for its parent's calcium carbide manufacturing operations in Sault Ste. Marie.

4. Power production does not constitute a manufacturing activity as that term is defined in our Manufacturers Radio Service rules. Thus, Carbide Power Company is not eligible to hold a radio authorization within the Manufacturers Radio Service. It desires nonetheless an authorization in that Service, and to this end has requested the amendment or waiver of the eligibility provisions contained in § 11.727 of our rules.

5. In requesting the relief noted, Carbide Power Company has pointed out that were it a simple division or unit within the corporate structure of its parent, no eligibility problem would be presented because of the prime eligibility of the Union Carbide Corporation. As presently constituted however, the Carbide Power Company is legally distinct from its parent. It is a Michigan corporation organized pursuant to the laws of that state. Union Carbide Corporation on the other hand is a New York corporation. The reason for this dichotomy has been alleged as a peculiarity in the laws of the state of Michigan which requires that only domestic corporations be allowed to produce hydroelectric power. Thus, in order for Union Carbide, a New York corporation, to be able to produce its own power for its manufacturing activities in Michigan, it was necessary that it create a Michigan corporation. This it did, in the form of the Carbide Power Company.

6. The Commission, in view of the allegations of the Carbide Power Company, is disposed to consider an amendment to its rules which would afford certain relief to the Carbide Power Company and others similarly situated. Our proposal, which is set out below, would allow a subsidiary corporation which is devoted exclusively to providing services or materials for the exclusive use of its parent or another subsidiary, in connection with a manufacturing activity as that term has been defined in § 11.726, to obtain a radio authorization in the Manufacturers Radio Service. We have attached a proviso or condition however which requires that the subsidiary's use of radio be confined to the transmission of communications essential to the provision of services or materials required by the parent or another subsidiary. If eventually adopted, this new rule provision would allow manufacturers to obtain essentially integrated communications facilities between various facets of their manufacturing operations. We view this as a desirable result.

7. Pending the resolution of this proceeding, Carbide Power Company's application, File No. 24169–IX–61, will not be acted upon; and because this proceeding looks toward an amendment of our Rules to afford the relief requested, Carbide Power Company's request for a waiver of our rules is specifically denied.

8. The proposed amendment to Part 11 of the rules, as set forth below, is issued pursuant to the authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

9. Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before March 26, 1962, and reply comments on or before April 5, 1962. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it in addition to the specific comments invited by this notice.

10. In accordance with the provision of § 1.54 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: February 14, 1962.

Released: February 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

In Part 11, Industrial Radio Services, § 11.727 of the Manufacturers Radio Service rules is amended by adding a new paragraph (c) as follows:

§ 11.727 Eligibility.

* * * * *

(c) A subsidiary corporation, devoted exclusively to providing services or materials for the exclusive use of its parent or another subsidiary corporation, in connection with any manufacturing activity defined in § 11.726, is eligible in the Manufacturers Radio Service: *Provided, however,* That such subsidiary's use of radio shall be confined solely to the transmission of communications essential to the provision of services or materials required by the parent or another subsidiary.

CALIFORNIA OUTER CONTINENTAL SHELF LEASING MAP

San Francisco Area

FEBRUARY 15, 1962.

Notice is given that Outer Continental Shelf leasing map "California Map No. 3 San Francisco Area", approved November 21, 1961, which was listed in the FEDERAL REGISTER, Document 62–958 on page 867 of the issue of Tuesday, January 30, 1962 has been superseded by a revised map dated February 7, 1962.

The revised map becomes the official California Outer Continental Shelf leasing Map, "California Map No. 3 San Francisco area." Submissions of nominated areas shown on this map submitted in response to F.R. Document 62–959, "Call for Nominations" appearing at page 867 of the issue for Tuesday, January 30, 1962, must state that the blocks or subdivisions of blocks nominated are described according to "California Map No. 3, San Francisco area, revised February 7, 1962."

Sec. 31, lots 1, 2, 3, 4, E½W½, E½;
Sec. 33, All;
Sec. 34, All;
Sec. 35, All;
Sec. 36, lots 1, 2, 3, 4, W½E½, W½.

Within the above described areas are 22,432.76 acres.

2. Available data indicates that the lands in T. 38 N., R. 4 W., are, for the most part, rolling hills with a sandy loam soil. There is no timber, undergrowth, or desert grasses.

3. The lands described in paragraph 1 are opened to application, selection and petition as outlined in paragraph 4 below. No application for these lands will be allowed under the Homestead, Desert Land, Small Tract, or any other nonmineral public land law, unless the lands have already been classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any existing valid rights and the requirements of applicable law, rules and regulations, the lands described in paragraph 1 hereof, are hereby opened to filing applications and selections in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m., on March 20, 1962, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

ELLEN W. KIRSCH,
Acting Manager.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14506]

BRANDON TIRE & BATTERY CO.

Amended Order To Show Cause

In the matter of T. E. Brandon, d/b as Brandon Tire & Battery Co., Chickasaw, Alabama, Docket No. 14506; order to show cause why there should not be revoked the license for business radio station KIR–938.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain al-

leged violations of the Commission's rules in connection with the operation of Business radio station KIR–938;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows.

Official Notice of Violation mailed on June 19, 1961, alleging that on May 24, 1961, Business Radio Station KIR–938 was observed in violation of the Commission's rules, viz:

Section 11.160(a). No record of transmitter measurements made within the last year;

Section 11.52(a). Station was not being identified after each transmission or once each 15 minutes;

Section 11.702. No provision made for receipt of CONELRAD alerts;

Section 11.156(b). The current station license not posted at the principal control point of the station;

Section 11.156(a). Executed transmitter identification card (FCC Form 452–C) was not affixed to each mobile transmitter;

Section 11.160(c). Names of radio operators with the period of their duty each day was not included in station records;

Non-compliance with the terms of the station license. Base transmitter was authorized at 11 North Broad Street, Mobile, Alabama; it had been installed at 307 North Craft Highway, Chickasaw, Alabama.

It further appearing, that, the above-named licensee received the Official Notice of Violation, but did not make satisfactory reply thereto; whereupon the Commission by letter of October 19, 1961, and sent by Certified Mail—return receipt requested (Certified No. 814847) again brought this matter to the attention of the licensee and requested that such licensee respond to the Commission's letter within fifteen days from the date of its receipt, stating the measures which had been taken or were being taken in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that failure to respond to such letter might result in the institution of proceedings for the revocation of the station license; and

It further appearing, that, receipt of the Commission's letter was acknowledged by the signature of the licensee on October 20, 1961, to a Post Office Department return receipt card; and

It further appearing, that, although more than fifteen days have elapsed since the licensee's receipt of the Commission's letter, no response was made thereto; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules;

It is ordered, This 8th day of February 1962, pursuant to section 312(a)(4) of the Communications Act of 1934, as amended, and section 0.291(b)(8) of the Commission's Statement of Delegations of Authority, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this Order by Certified Mail—return receipt requested—to the said licensee at 306 North Craft Highway, Chickasaw, Alabama.

Released: February 15, 1962.

RADIO-ACTIVE BROADCASTING, INC. (WATO)

Order Continuing Hearing Conference

In re application of Radio-Active Broadcasting, Inc. (WATO), Oak Ridge, Tennessee, Docket No. 14255, File No. BP–13833; for construction permit.

The Hearing Examiner having under consideration a Motion to Continue Prehearing Conference, filed by Radio-Active Broadcasting, Inc. (Radio-Active) on February 14, 1962, wherein it is requested that the prehearing conference presently scheduled for February 20, 1962, be postponed to March 12 or 13, 1962, whichever date is most convenient for the Examiner;

It appearing that it is alleged by Radio-Active that its consulting. radio engineer who was preparing certain proposed amendments which were to have been filed by February 14, 1962, has had an extended and serious illness which prevented him from meeting his commitments in this respect;

It further appearing that Radio-Active alleges that its consulting engineer has assured it that the amendments referred to would be completed no later than February 28, 1962, and that in the event such consulting engineer does not have the engineering amendments completed on or about that date to permit the filing of a motion to amend shortly thereafter, Radio-Active will dismiss its application;

It further appearing that counsel for the other parties to the proceedings have consented to a grant of the above-described Motion and have agreed to a waiver of the Commission's rules (47 CFR 1.43) relating to the withholding of action on motions for a four-day period; and

It further appearing that good cause has been shown for a prompt grant of the motion herein;

It is ordered, This 14th day of February 1962, that the Motion to. Continue Prehearing Conference is granted, and that the prehearing conference now scheduled for February 20, 1962, is postponed to March 12, 1962, at 9:30 a.m., at the Offices of the Commission in Washington, D.C.

Released: February 15, 1962.

VETERANS BROADCASTING CO., INC., ET AL.

Order Continuing Hearing

In re applications of: Veterans Broadcasting Company, Inc., Syracuse, New York, Docket No. 14367, File No. BPCT–2912; Syracuse Television, Inc., Syracuse, New York, Docket No. 14368, File No. BPCT–2924; W. R. G. Baker Radio and Television Corporation, Syracuse, New York, Docket No. 14369, File No. BPCT–2930; Onondaga Broadcasting, Inc., Syracuse, New York, Docket No. 14370, File No. BPCT–2931; WAGE, Inc., Syracuse, New York, Docket No. 14371, File No. BPCT–2932; Syracuse Civic

Television Association, Inc., Syracuse, New York, Docket No. 14372, File No. BPCT-2933; Ivy Broadcasting Company, Inc., Syracuse, New York, Docket No. 14443, File No. BPCT-2949; Six Nations Television Corporation, Syracuse, New York, Docket No. 14444, File No. BPCT-2957; Salt City Broadcasting Corporation, Syracuse, New York, Docket No. 14445, File No. BPCT-2958; George P. Hollingbery, Syracuse, New York, Docket No. 14446, File No. BPCT-2968; for construction permits for new television broadcast stations.

The Hearing Examiner having before him a "Motion for Extension of Time" filed February 13, 1962 in the above-entitled proceeding by Syracuse Civic Television Association, Inc. requesting that the deadline for the exchange of written direct cases be extended from March 1 to March 8 and the date for commencement of the hearing from March 19 to March 26, 1962;

It appearing that petitioner asserts as the reason for its request that the clients and attorneys have devoted substantial time during the past few weeks to negotiations for an interim operation on Channel 9 at Syracuse and that the time counsel alone have devoted thereto, as well as the demands upon them of other business before the Commission and the courts, has made it burdensome for counsel to meet the deadlines previously set and that the one week extension requested "will help to alleviate this burden";

It appearing further that petitioner asserts that counsel for all the applicants and the Commission's own Broadcast Bureau have authorized petitioner to state their consent to grant of the relief requested;

It appearing further that the one week extension of deadlines requested herein is justifiable only if no further extensions are requested by any of the other parties; that such extension of one week will not of itself discommode the Hearing Examiner, be disruptive of the hearing process, or delay materially the orderly progress of the hearing; that, therefore, the relief requested may be granted subject to the admonition to all parties that their consent to the grant of the instant motion will be unavailing to them as the basis for any further delay motions any of them may consider it necessary to file in the future; and that the parties are to understand that the Hearing Examiner is granting the present motion reluctantly and will not give favorable consideration to any future requests for changes in any established deadlines absent really cogent showings of "good cause" in support thereof;

It is ordered, This 14th day of February 1962, that the above-referenced motion for extension of deadline dates herein filed by Syracuse Civic Television Association, Inc. is hereby granted and that written direct cases may be exchanged by March 8, 1962 and that the hearing itself is rescheduled to commence March 26, 1962, at 10 a.m., at the Commission's offices, Washington, D.C.

Released: February 15, 1962.

[FCC 62-194]

L. B. WILSON, INC. (WLBW-TV)

Application for Renewal of License

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 14th day of February 1962;

The Commission having under consideration (1) its decision in WKAT, Inc., 17 R.R. 997, 998b, in which it awarded a construction permit for a new television broadcast station to operate on Channel 10, Miami, Florida, to L. B. Wilson, Inc., but stated that "• • • the license period contemplated herein will be for four months subsequent to construction • • •", and (2) the temporary authorization issued to L. B. Wilson, Inc. on October 19, 1961, to begin operation November 20, 1961; and

It appearing that, the Commission in its decision of July 14, 1960, proposed to grant to L. B. Wilson, Inc. a four months license upon completion of construction for a television station on Channel 10; that L. B. Wilson constructed a station pursuant to a temporary authorization for construction dated November 22, 1960; that L. B. Wilson has been operating since November 20, 1961, and will have operated pursuant to temporary license authorizations for a period of four months on March 20, 1962; and that the Commission stated its intent to permit the filing of new, competing applications for Channel 10 at the expiration of four months of licensed operation by L. B. Wilson; and

It further appearing that since L. B. Wilson, Inc., has not operated for a full year it can not use the Commission's composite week in furnishing information on program performance; and

It further appearing that since L. B. Wilson, Inc., is presently operating from interim facilities, a description of which might not adequately describe its contemplated permanent facility, it would be appropriate for L. B. Wilson, Inc. to incorporate by reference any desired features of its outstanding construction permit (BMPCT-5525).

It is ordered, That pursuant to § 1.328 (c) of the Commission's rules,[1] L. B. Wilson, Inc., shall file its application for renewal of license on Channel 10, Miami, Florida, by March 20, 1962; and

It is further ordered, That in the preparation of Section IV of its application L. B. Wilson, Inc., shall use the following composite week: Monday, January 29, 1962; Tuesday, January 23, 1962; Wednesday, January 17, 1962; Thursday, January 11, 1962; Friday, January 5, 1962; Saturday, December 23, 1961; and Sunday, December 10, 1961; and

It is further ordered, That Channel 10, Miami, Florida, be available for the filing of applications for construction permits for new television broadcast stations beginning March 20, 1962 and ending May 21, 1962, Commission rules to the contrary, if any, notwithstanding.

Released: February 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-1769; Filed, Feb. 20, 1962; 8:51 a.m.]

[1] Section 1.328(c) of the rules provides that: "Whenever the Commission regards an application for renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received."

FEDERAL MARITIME COMMISSION

[Docket Nos. 954, 954 (Sub-1)]

ATLANTIC/PUERTO RICO TRADE

Investigation of Rates and Practices; Notice of Supplemental Orders

On February 7, 1962, the Federal Maritime Commission entered the following Eleventh Supplemental Order to the original order in Docket No. 954 dated July 17, 1961, and following Fourth Supplemental Order to original order in Docket No. 954 (Sub-1) dated November 13, 1961.

It appearing that there is currently pending in these proceedings an investigation into and a hearing concerning certain rates and practices from, to and/or between Atlantic and Gulf Coast ports of the United States on the one hand and ports in the Commonwealth of Puerto Rico on the other which became effective on July 6, 1961, and on various dates thereafter; and

It further appearing that A. H. Bull Steamship Co. has been named a respondent in these proceedings; and

It further appearing that there has been filed with the Federal Maritime Commission by A. H. Bull Steamship Co., certain revised pages, hereinafter designated, to its Outward Freight Tariff No. 1, FMC-F No. 1, to become effective February 9, 1962, which said pages publish increased rates on commodities prefixed with the increase symbol:

	Revised page No.		Revised page No.

Second	58	Fifth	84

and

It further appearing that protests have been received petitioning the Commission to suspend said increases; and

It further appearing that upon consideration of the said schedules, statements in support thereof, and protests made thereto, there is reason to believe that the increased rates named thereon, if permitted to become effective, would result in rates which would be unjust, unreasonable, or otherwise unlawful in violation of the Shipping Act, 1916, as amended, and the Intercoastal Shipping Act, 1933, as amended; and

It further appearing that the Commission is of the opinion that the new increased rates should be made the subject of a public investigation and hearing to determine whether they are just, reasonable, and otherwise lawful under the Shipping Act, 1916, as amended, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing that the effective date of the said increases should be suspended pending such investigation;

Now therefore it is ordered, That the proceeding in Docket No. 954 be, and it is hereby, expanded to include, in addition to the matters now under investigation, an investigation into and concerning the lawfulness of the increased rates contained in the said tariff schedules; and

It is further ordered, That the proceeding in Docket No. 954 be, and it is hereby, consolidated with the proceeding in Docket No. 954 (Sub-1), with a view to making such findings and orders in the consolidated proceedings as the facts and circumstances shall warrant; and

It is further ordered, That said increased rates be, and they are hereby, suspended and that the use of the said rates be, and it is hereby, deferred to and including June 8, 1962, unless otherwise authorized by the Commission, and that the rates heretofore in effect, and which were to be changed by the suspended rates, shall remain in effect during the period of suspension; and

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That there shall be filed immediately with the Commission by A. H. Bull Steamship Co., a consecutively numbered supplement to the aforesaid tariff schedule which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described, and shall state that the aforesaid rates are suspended and may not be used until June 9, 1962, unless otherwise authorized by the Commission, and that the rates heretofore in effect, and which were to be changed by the suspended rates, shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Domestic Regulation of the Federal Maritime Commission; and

It is further ordered, That (I) the investigation herein ordered in Docket No. 954 be assigned for hearing before an examiner of the Commission's Office of Hearing Examiners at a date and place to be determined and announced, to receive evidence which, together with the evidence heretofore received in Docket No. 954 and the evidence to be received in Docket No. 954 (Sub-1), will provide an adequate record for proper disposition of the issues in the consolidated proceedings, and that an initial decision be issued; (II) a copy of this order shall forthwith be served upon the protestants, A. H. Bull Steamship Co., and all others heretofore named respondents hereto; (III) the said respondents and protestants be duly notified of the time and place of the hearing ordered; and (IV) this order and notice of the said hearing be published in the FEDERAL REGISTER.

Dated: February 15, 1962.

By the Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-1748; Filed, Feb. 20, 1962; 8:49 a.m.]

[Docket No. 954 (Sub-2)]

ATLANTIC/GULF PUERTO RICO TRADE

Investigation of Increased Rates on Sugar, Refined or Turbinated, in Bags; Notice of Supplemental Order

On February 7, 1962, the Federal Maritime Commission entered the following Fourth Supplemental Order to the original order in this proceeding dated December 7, 1961.

It appearing that by order dated January 8, 1962, the Commission entered into an investigation concerning the lawfulness of increased rates on sugar contained in tariff schedule designated therein, and suspended the operation of said schedules to and including June 4, 1962; and

It further appearing that the Commission having found good cause therefor has on January 22, 1962, granted the Sea-Land Service, Inc., Puerto Rican Division special permission authority to cancel such suspended matter on statutory notice under Special Permission No. 3971 and pursuant thereto, such matter has been properly cancelled;

Now therefore, it is ordered, That the investigation of Sea-Land's rates on "Sugar, refined or turbinated in bags" instituted under Second Supplemental

Order, Docket No. 954 (Sub-2) be, and it is hereby discontinued; and

It is further ordered, That copies of this order shall be filed with said tariff schedule in the Bureau of Domestic Regulation, Federal Maritime Commission; and

It is further ordered, That a copy of this order shall be forthwith served upon all respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Dated February 15, 1962.

By the Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-1749; Filed, Feb. 20, 1962; 8:49 a.m.]

FEDERAL POWER COMMISSION

[Docket No. CP61-143, etc.]

COLORADO INTERSTATE GAS CO. ET AL.

Notice of Applications

FEBRUARY 14, 1962.

Colorado Interstate Gas Company, Docket Nos. CP61-143 and CP61-157; Natural Gas Pipeline Company of America, Docket No. CP61-149; Arkansas Louisiana Gas Company, Docket No. CP61-163.

Take notice that on November 7, 1960, as amended on October 4, 1961, and November 9, 1961, in Docket No. CP61-143, and on December 5, 1960, as amended on December 16, 1960, in Docket No. CP61-157, Colorado Interstate Gas Company (Colorado), Post Office Box 1087, Colorado Springs, Colorado, filed applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing short-term field sales of natural gas to Arkansas Louisiana Gas Company (Arkansas Louisiana) in Docket No. CP61-143 and to Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska) in Docket No. CP61-157, all as more fully set forth in the applications, as amended, on file with the Commission and open to public inspection.

In Docket No. CP61-143, Colorado proposes to sell up to 25,000 Mcf of natural gas per day, through April 30, 1963, to Arkansas Louisiana. Said sale will be effected by an exchange arrangement with Natural Gas Pipeline Company of America (Natural) through existing interconnections of the facilities of Colorado and Natural in the Mocane field, Oklahoma. Colorado would deliver gas directly to Natural and the latter would deliver equivalent volumes to Arkansas Louisiana at a proposed new interconnection between Natural and Arkansas Louisiana in Beckham County, Oklahoma.

Take further notice that Natural, 122 South Michigan Avenue, Chicago 3, Illinois, filed on November 13, 1960, as amended on October 9, 1961, and November 14, 1961, in Docket No. CP61-149, and Arkansas Louisiana, Slattery Building, Shreveport 94, Louisiana, filed on December 8, 1960, as amended on September 28, 1961, and November 6, 1961, in Docket No. CP61-163, applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the above described interconnection and exchange of natural gas.[1]

In Docket No. CP61-157, Colorado proposes to sell up to 50,000 Mcf of natural gas per day, through December 31, 1962, to Kansas-Nebraska. Said sale will be made through existing interconnections of the two systems in Kearny and Finney Counties in the Kansas Hugoton field.

Colorado states that the proposed sales are to relieve a short-term excess gas supply situation. Said excess gas is the result of a take-or-pay situation caused by the fact that Colorado's Provo project (Docket Nos. G-16235, et al.) is not in operation.

The sales of natural gas to Arkansas Louisiana and Kansas-Nebraska will be made at a rate of 14.5 cents per Mcf.

The estimated cost of facilities for the interconnection between Natural and Arkansas Louisiana in Grady County, Oklahoma, is $2,800. Natural will construct the necessary facilities and will be reimbursed by Arkansas Louisiana for the cost incurred.

The sale of gas to Arkansas Louisiana proposed by Colorado in Docket No. CP61-143 will be made pursuant to an agreement, dated October 20, 1960. The proposed exchange of natural gas will be made pursuant to an agreement, dated October 20, 1960, as amended, between Colorado, Arkansas Louisiana and Natural.

The sale of gas to Kansas-Nebraska proposed by Colorado in Docket No. CP61-157 will be made pursuant to an agreement, dated November 16, 1960.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 8, 1962.

JOSEPH H. GUTRIDE,
Secretary.

The public convenience and necessity require that these matters be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 20, 1962, at 9:30 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 9, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made: *Provided, further,* If a protest, petition to intervene, or notice of intervention be timely filed in any of the above dockets, the above hearing date as to that docket will be vacated and a new date for hearing will be fixed as provided in § 1.20(m)(2) of the rules of practice and procedure.

JOSEPH H. GUTRIDE,
Secretary.

NEW YORK STATE NATURAL GAS CORP.

Notice of Further Extension of Time and Postponement of Hearing

FEBRUARY 13, 1962.

Upon consideration of the request filed February 12, 1962, by Counsel for New York State Natural Gas Corporation (New York Natural) for a further extension of time within which New York Natural shall serve its prepared testimony and exhibits for its case-in-chief upon all parties as required by the Commission's order issued November 21, 1961, and further postponement of the hearing now scheduled for March 19, 1962, in the above-designated matter;

A further extension is hereby granted to and including March 1, 1962, within which New York Natural shall serve its prepared testimony and exhibits for its case-in-chief upon all parties and the hearing now scheduled to commence on March 19, 1962, is hereby postponed to April 2, 1962, at 10:00 a.m., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C. Paragraphs (C) and (D) of said order issued November 21, 1961 are amended accordingly.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST SECURITY CORP.

Order Denying Application

In the matter of the application of First Security Corporation for prior approval of acquisition of all the voting stock of Carbon Emery Bank, Price, Utah.

Whereas, there has come before the Board of Governors, pursuant to section 3(a)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842) and section 4(a)(2) of Federal Reserve Regulation Y (12 CFR 222.4(a)(2)), an application on behalf of First Security Corporation, Salt Lake City, Utah, for the Board's prior approval of the acquisition of all the voting stock of Carbon Emery Bank, Price, Utah; a Notice of Receipt of Application has been published in the FEDERAL REGISTER on September 27, 1961 (26 F.R. 9098), which provided an opportunity for submission of comments and views regarding the proposed acquisition; and the time for filing such comments and views has expired and no such comments or views have been filed;

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that said application be and hereby is denied.

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington 25, D.C., or to the Federal Reserve Bank of San Francisco.

Dated at Washington, D.C., this 15th day of February 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1453]

ANDERSON NEW ENGLAND CAPITAL CORP. AND ANDERSON-NICHOLS & CO., INC.

Notice of Filing of Application Regarding Joint Participation by Registered Company and Affiliated Persons

FEBRUARY 14, 1962.

Notice is hereby given that Anderson New England Capital Corporation ("ANECC"), a Massachusetts corporation, and a closed-end, non-diversified investment company registered under the Investment Company Act of 1940 ("Act"), which company is also a small business investment company licensed as such under the Small Business Investment Act of 1958, and Anderson-Nichols & Company, Inc. ("Consultant") (150 Causeway St., Boston, Mass.), have filed a joint application pursuant to sections 6(c) and 17(d) of the Act and Rule 17d–1 of the general rules and regulations thereunder for an order granting said application in respect of a proposed continuing arrangement whereby Consultant will render consulting and advisory services, as agent of Anderson New England Services Corporation ("Subsidiary"), a wholly-owned subsidiary of ANECC, to small business concerns in which ANECC intends to invest or has invested capital, or as an alternative, declaring that such arrangement is not subject to section 17(d) of the Act and Rule 17d–1 thereunder.

The application states that ANECC and Consultant have entered into an advisory agreement pursuant to which the Consultant will furnish ANECC with investment advisory services for a fee of ½ of 1 percent of ANECC's total assets for the first year and thereafter at the rate of ¾ of 1 percent of total assets per year. Said agreement also provides that Consultant receive separate compensation for consulting services rendered to clients and prospective clients of ANECC upon request of ANECC and upon terms agreed upon by ANECC, Consultant and the small business concern for which such services are to be rendered. ANECC proposes that such services shall be provided pursuant to contractual arrangements between the Subsidiary and the small business concern and that Consultant will be engaged to render such services as agent of the Subsidiary. Fees charged by consultant for such services will be at reasonable going rates. The utilization of such services of Consultant will be optional with any such small business concern. ANECC, however, on its part agrees to make known to such concerns the availability of such services of Consultant and, where considered appropriate, indicate the need or desirability of services of this nature for the success of the operation of the business of such concerns. The Consultant agrees to make full disclosure to all interested parties whenever it performs services for small business concerns doing business with the Corporation.

It is estimated that when ANECC's assets are fully invested, the Consultant's fees from this arrangement would not exceed $40,000 per year, or about 1.8 percent of the Consultant's estimated gross revenues from all sources. The Consultant has made an undertaking that such fees will not exceed $40,000 in any one year without prior approval of the Commission.

ANECC does not concede that any transactions pursuant to the above described arrangement constitute a joint or joint and several participation within the meaning of section 17(d) of the Act but requests the relief sought herein in order to avoid any question of the legality of the proposed arrangement.

ANECC was organized on June 26, 1961 and has assets of about $2,600,000, obtained principally through a recent public offering of 200,000 shares of its common stock. Three of ANECC's eleven directors (including the chairman of the Board, its vice-president, and its secretary) are also officers or directors of Consultant. The latter, a Massachusetts corporation, has its principal office in Boston, where with 200 employees, it carries on the business of engineering and management services formerly conducted for over thirty years by Anderson-Nichols partnerships. ANECC caused the Subsidiary to be incorporated in Massachusetts on January 30, 1962, for the purpose of making available to small business concerns for which ANECC provides financing the consulting and advisory services of Consultant.

In support of its position, ANECC states it does not consider it feasible at this time to create a division in its organization or in that of the Subsidiary which could duplicate the consulting services available through the Consultant and that it does not believe there would be a large source of revenue available to it from the activities of such a division if it were feasible to create one therein. ANECC believes that the Consultant, because of its experience in many fields, is in an excellent position to supply the solution to the problems of small business concerns and usually more economically than others might. It points out that the problems of one small business concern may call for experts in several fields and that the Consultant will, in most cases, be able to supply such experts' services from its own organization. The arrangement is stated to be ANECC's means of assuring it full knowledge of the progress of a small business borrower and of providing it with prompt information regarding weaknesses in the situation of the borrower and with advice as to recommended remedial steps.

Section 17(d) of the Act and Rule 17d–1 thereunder, taken together provide, among other things, that it shall be unlawful, with certain exceptions not applicable here, for an affiliated person of a registered investment company or any affiliated person of such a person, acting as principal, to participate in, or effect any transaction in connection with any joint enterprise or arrangement in which any such registered company, or a company controlled by such registered company, is a participant unless an application regarding such arrangement has been granted by the Commission, and that, in passing upon such an application, the Commission will consider whether the participation of such registered company or controlled company in such arrangement is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 6, 1962, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

It is ordered, That the Secretary of the Commission shall give notice of the filing of this application by mailing a copy of this notice by registered mail to the Applicants, and to the Director, Office of Investment, Small Business Administration, Washington 25, D.C., that notice to all persons shall be given by publication of this notice in the FEDERAL REGISTER; and that a general release of this Commission in respect of this notice be dis-

tributed to the press and mailed to the mailing list for releases.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-1465]

AVIATION GROWTH INVESTMENTS, INC.

Notice of Filing of Application for Order Exempting Proposed Transaction

FEBRUARY 14, 1962.

Notice is hereby given that Aviation Growth Investments, Inc. ("Applicant"), (8645 Colesville Road, Silver Spring, Maryland), a closed-end non-diversified investment company, registered under the Investment Company Act of 1940 ("Act") and a licensee under the Small Business Investment Act of 1958, has filed an application for an order of the Commission exempting from the prohibitions of section 17(a) of the Act the proposed purchase from Applicant by Avemco Finance Corporation ("Avemco") of eleven notes, at a price equal to their unamortized cost, i.e., the unpaid balances less unearned discounts or financing charges at the date of closing.

Applicant and Avemco were sponsored and organized by Aviation Employees Corporation ("Aviation"), a Delaware corporation organized in November 1959. Aviation owns all of the outstanding common stock issued by Applicant and it owned all of Avemco's outstanding common stock prior to December 6, 1961, at which time Avemco offered 300,000 shares of common stock to the public. Aviation now owns approximately 20 percent of Avemco's outstanding stock. Avemco is engaged in the retail financing of time sales and in the financing at wholesale for dealers of business and pleasure aircraft and related equipment. Avemco's prospectus stated that approximately $189,000 of the cash proceeds from its common stock offering would be used to purchase notes from Applicant.

As of October 31, 1961, the eleven notes to be sold had unpaid balances in the aggregate amount of $237,138.88, including aggregate unearned discounts of $47,869.61. Ten of these loans are each secured by a particular type aircraft and one loan is secured by a hanger. The total approximate value of the security for the loans is $255,000. The notes mature at varying dates from March through December 1966. Each note is amortized in equal monthly installments until paid, which includes principal and an effective annual rate of interest of 11.42 percent on ten notes and 8.54 percent on one note. Pursuant to the terms of each note, the face amount thereof shall become due and immediately payable at the option of the holder in the event of a default in the payment of a monthly installment. The notes also provide for a late charge of 10 cents for each dollar of an installment in arrears for more than five days provided that such charge shall not exceed $10.00 for any one delinquent installment. The application states that one note in the original face amount of $15,322.30 is delinquent with respect to one payment totaling $255.40. Applicant, however, has not elected to accelerate the due date thereof.

Section 2(a)(3) of the Act defines an "affiliated person" of another person as, among other things, any person five percent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such other person, or any person directly or indirectly controlling, controlled by or under common control, with, such other person. Section 17(a) of the Act, in relevant part, prohibits an affiliated person of a registered investment company or any affiliated person of such a person, from purchasing from such registered investment company any securities or property. The proposed transaction is prohibited under section 17(a) unless exempted pursuant to section 17(b) because Avemco is an affiliated person of Aviation which in turn is an affiliated person of Applicant.

The Commission upon application pursuant to section 17(b) shall grant an exemption from the provisions of section 17(a) if it finds that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act, and is consistent with the general purposes of the Act.

Applicant's investment policy, as recited in its registration statement insofar as here relevant, is as follows: "Registrant will not make any straight loans as all loans will have warrants or options for later conversion or purchase of equity securities at a price determined at the time of the original transaction." The notes to be sold are not accompanied by warrants or options permitting the subsequent purchase or conversion into equity securities. Applicant states that when it made the loans which are the subject of the applications, the opportunities for equity investments were limited; subsequently, numerous opportunities to make equity type investments have presented themselves which Applicant believes are advantageous and consistent with the type of investments contemplated by its investment policy.

There is no public market for the notes. Applicant asserts that no material, if any, changes have occurred in the interest rates applicable to the type of borrowings involved, or to the credit standing of the borrowers since the notes were issued. It contends, therefore, that it is reasonable and fair to sell the notes at their unamortized cost.

Notice is further given that any interested person may, not later than March 7, 1962 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

It is ordered, That the Secretary of the Commission shall give notice of the filing of this application by mailing a copy of this notice by registered mail to the Applicant and to the Director, Office of Investment, Small Business Administration, Washington 25, D.C.; that notice (to all other persons) shall also be given by publication of this Notice in the FEDERAL REGISTER; and that a general release of this Commission in respect of this notice be distributed to the press and mailed to the mailing list for releases.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 16, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37560: *Glassware from points in Arkansas and Oklahoma.* Filed by Southwestern Freight Bureau, agent (No. B-8154), for interested rail carriers. Rates on glassware and related articles, loaded in trailers or demountable trailer bodies, and transported on railroad flat or open-top equipment, from Ft. Smith, Ark., Ada, Henryetta, Muskogee, Okmulgee, Sand Springs, and Sapulpa, Okla., to specified points in Illinois, Kansas and Missouri.

Grounds for relief: Motor-truck competition.

Tariffs: Supplements 74, 137 and 24 to Southwestern Freight Bureau tariffs I.C.C. 4345, 4312 and 4362, respectively.

FSA No. 37561: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 429), for interested rail carriers. Rates on groceries, paint, dry goods, paper articles, and crude petroleum treating compounds, in carloads, tank-car loads and less-than-carloads, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief: Intrastate rates and maintenance of rates from and to points in other states not subject to the same competition.

Tariff: Supplement 26 to Texas-Louisiana Freight Bureau tariff I.C.C. 935.

AGGREGATE-OF-INTERMEDIATES

FSA No. 37562: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 430), for interested rail carriers. Rates on groceries, paint, dry goods, paper articles, crude petroleum treating compounds, sulphuric acid and lead, in carloads, tank-car loads and less-than-carloads, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief: Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

By the Commission.

[Sec. 5a Application 34]

MIDDLEWEST MOTOR FREIGHT BUREAU

Approval of Amendments to Agreement

FEBRUARY 16, 1962.

The Commission is in receipt of an application in the above-entitled and numbered proceeding for approval of amendments to the agreement therein approved under the provisions of section 5a of the Interstate Commerce Act.

Filed February 9, 1962, by: J. D. Lawson, P.O. Drawer 647, Kansas City 46, Mo.

Amendments involved: Change the bylaws of the bureau so as to (1) add Alaska and Canada as areas to and from which rates will be published and provide that carriers serving those areas may become members, (2) provide for an executive vice-president in lieu of the present general manager, (3) realign State groupings for selection of members of the board of directors, (4) establish provisions covering the eligibility and selection of such directors and the members of rate committees, (5) clarify certain existing provisions, including those which provide for the calling and conduct of membership and board meetings, as well as the filing of requests for appeals from the standing rate committee to the general rate committee, (6) include additional provisions with respect to intermodal rates, especially those covering so-called Plan V piggyback traffic, (7) eliminate requirement as to publication of notices of meetings, dockets of proposals, recommendations thereon, and appealed subjects in a national transportation publication, but continuing to give such notices in the bureau's own publication, (8) include new provisions governing proposals adopted by the standing rate committee without modification, (9) reduce the waiting period for publication of independently announced matters from 15 to 5 days, (10) require that members making publication of charges in tariffs of a nonmember carrier furnish the bureau copies of such tariffs, (11) permit only members in good standing and the executive vice-president to make requests for emergency action, (12) establish procedures governing divisions of interline revenue, and (13) retitle and rearrange various articles, with appropriate changes in article numbers.

The application may be inspected at the office of the Commission in Washington, D.C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

By the Commission, Division 2.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[Notice 198]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

FEBRUARY 16, 1962.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with service at no intermediate points have been filed with the Interstate Commerce Commission, under the Commission's deviation rules revised, 1957 (49 CFR 211.1 (c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's deviation rules revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 2962 (Deviation No. 1), A. & H. TRUCK LINE, INC., 1277 Maxwell Avenue, Evansville, Ind., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (A) From Vincennes, Ind., over U.S. Highway 50 to junction Illinois Highway 33, thence over Illinois Highway 33 to junction Illinois Highway 1, thence over Illinois Highway 1 to Chicago, Ill., and (B) from Terre Haute, Ind. over U.S. Highway 150 to junction Illinois Highway 1, thence over Illinois Highway 1 to Chicago, Ill., and return over the same routes, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Evansville, Ind. over U.S. Highway 41 to Chicago; and from Hammond, Ind. over Indiana Highway 152 to the junction of U.S. Highways 41 and 6, and return over the same routes.

No. MC 10761 (Deviation No. 17), TRANSAMERICAN FREIGHT LINES, INC., 1700 North Waterman Avenue, Detroit 9, Mich., filed February 2, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route between Springfield, Mass. and Hartford, Conn., over Interstate Highway 91, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Springfield over U.S. Highway 5 to Hartford, and return over the same route.

No. MC 10928 (Deviation No. 8), SOUTHERN-PLAZA EXPRESS, INC., P.O. Box 10572, Dallas 7, Tex., filed February 8, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route between St. Louis, Mo., and Chicago, Ill., over Interstate Highway 55, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From St. Louis over U.S. Highway 66 to junction Alternate U.S. Highway 66, thence over Alternate U.S. Highway 66 to Chicago; and from St. Louis over U.S. Highway 66 to junction Illinois Highway 48, thence over Illinois Highway 48 to Fullerton, Ill., thence over U.S. Highway 54 to Onarga, Ill., thence over U.S. Highway 45 to Kankakee, Ill., thence over Illinois Highway 49 to Chicago, and return over the same routes.

No. MC 52629 (Deviation No. 7), HUBER & HUBER MOTOR EXPRESS, INC., 970 South Eighth Street, Louisville 3, Ky., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Speedway, Ind., over Interstate Highway 74 to junction U.S. Highway 136, at

Lizton, Ind., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Indianapolis, Ind., over U.S. Highway 136 to junction U.S. Highway 150, thence over U.S. Highway 150 to Morton, Ill., and return over the same route.

No. MC 52629 (Deviation No. 8), HUBER & HUBER MOTOR EXPRESS, INC., 970 South Eighth Street, Louisville 3, Ky., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of U.S. Highway 136 and Interstate Highway 74, approximately 1½ miles east of Danville, Ill., over Interstate Highway 74 to junction U.S. Highway 136, west of Veedersburg, Ind., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Indianapolis, Ind., over U.S. Highway 136 to junction U.S. Highway 150, thence over U.S. Highway 150, to Morton, Ill., and return over the same route.

No. MC 52629 (Deviation No. 9), HUBER & HUBER MOTOR EXPRESS, INC., 970 South Eighth Street, Louisville 3, Ky., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of U.S. Highway 21 and Interstate Highway 77, southwest of Sissonville, W. Va., over Interstate Highway 77 to junction U.S. Highway 21, at Fairplain, W. Va., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Charleston, W. Va. over U.S. Highway 21, via Mineral Wells, W. Va., to Parkersburg, W. Va., and return over the same route.

No. MC 52629 (Deviation No. 10), HUBER & HUBER MOTOR EXPRESS, INC., 970 South Eighth Street, Louisville 3, Ky., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of Interstate Highway 64 and U.S. Highway 60, west of Winchester, Ky., over Interstate Highway 64 to junction U.S. Highway 60, east of Mount Sterling, Ky., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Louisville, Ky. over U.S. Highway 60, via Frankfort, Ky., to Ashland, Ky., and return over the same route.

No. MC 52629 (Deviation No. 11), HUBER & HUBER MOTOR EXPRESS, INC., 970 South Eighth Street, Louisville 3, Ky., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From a point approximately two miles north of Pelham, Tenn. over unnumbered county highway to junction Interstate Highway 24, thence over Interstate Highway 24 to junction U.S. Highway 64, west of U.S. Highway 41, at Monteagle, Tenn., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Louisville, Ky., over U.S. Highway 31W to Nashville, Tenn., thence over U.S. Highway 41 to Chattanooga, Tenn.; from Louisville, Ky. over Kentucky Turnpike to junction U.S. Highway 31W, thence over U.S. Highway 31W to Nashville, Tenn., thence over U.S. Highway 41 to Dalton, Ga.; and from Earl Park, Ind., over U.S. Highway 41 to Hopkinsville, Ky., thence over U.S. Highway 41A to Nashville, Tenn., thence over U.S. Highway 41 to Dalton, Ga., and return over the same routes.

No. MC 59681 (Deviation No. 2), DAKOTA TRANSFER AND STORAGE COMPANY, 11 Oak Street Southeast, Minneapolis 41, Minn., filed February 2, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over Interstate Highways 90 and 94 to Eau Claire, Wis., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Chicago over U.S. Highway 12, via Tomah, Wis., to Minneapolis, Minn.; from Chicago over U.S. Highway 14 to junction U.S. Highway 61, at La-Crosse, Wis., thence over U.S. Highway 61 to Minneapolis, Minn.; and from the junction of U.S. Highways 12 and 16 over U.S. Highway 16 to junction U.S. Highway 51, thence over U.S. Highway 51 to junction Wisconsin Highway 30, thence over Wisconsin Highway 30 to junction Wisconsin Highway 73, thence over Wisconsin Highway 73 to junction U.S. Highway 12, and return over the same routes.

No. MC 66562 (Deviation No. 9), RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y., filed February 5, 1962. Attorney William H. Marx, same address. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, moving in express service over a deviation route as follows: From Fairmont, W. Va., over U.S. Highway 250 to junction West Virginia Highway 73, thence over West Virginia Highway 73 to junction U.S. Highway 50, thence over U.S. Highway 50 to Clarksburg, W. Va., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Connellsville, Pa., over U.S. Highway 119 to Morgantown, W. Va., thence over U.S. Highway 19 to Fairmont, W. Va., to Clarksburg; from Connellsville, Pa., as specified above to Fairmont, W. Va., thence over U.S. Highway 250 to Grafton, W. Va.; and from Smithfield, Pa., over Pennsylvania Highway 266 to junction Pennsylvania Highway 166, thence over Pennsylvania Highway 166 to junction U.S. Highway 119, and return over the same routes.

No. MC 78632 (Deviation No. 6), HOOVER MOTOR EXPRESS COMPANY, INC., P.O. Box 450, Polk Avenue, Nashville, Tenn., filed February 2, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill. over Interstate Highway 65 to Birmingham, Ala., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Chicago over U.S. Highway 41 to junction U.S. Highway 52, thence over U.S. Highway 52 to Indianapolis, Ind.; from Chicago over U.S. Highway 41 to junction U.S. Highway 136 (formerly Indiana Highway 34), thence over U.S. Highway 136 to Indianapolis, Ind.; from Chicago over U.S. Highway 41 to junction U.S. Highway 52, thence over U.S. Highway 52 to Lafayette, Ind., thence over U.S. Highway 231 (formerly Indiana Highway 43) to Crawfordsville, Ind., thence over U.S. Highway 136 to Indianapolis, Ind.; from Chicago to Indianapolis, Ind., as specified above, thence over Indiana Highway 431 to junction U.S. Highway 31 (about 1 mile below Greenwood, Ind.), thence over U.S. Highway 31 to junction Indiana Highway 252, thence over Indiana Highway 252 to Edinburg, Ind., thence over Indiana Highway 252 to junction U.S. Highway 31, thence over U.S. Highway 31 to junction Alternate U.S. Highway 31 (formerly U.S. Highway 31), thence over Alternate U.S. Highway 31 via Columbus, Ind., to Seymour, Ind., thence east over U.S. Highway 50 to junction U.S. Highway 31, thence over U.S. Highway 31 to Sellersburg, Ind., thence over U.S. Highway 31W to Louisville, Ky.; and from Louisville, Ky. over U.S. Highway 31W to Elizabethtown, Ky., thence over Kentucky Highway 61 to Hodgenville, Ky., thence over U.S. Highway 31E to Glasgow, Ky., thence over Kentucky Highway 63 to the Kentucky-Tennessee State line, thence over Tennessee Highway 56 to Red Boiling Springs, Tenn., thence over Tennessee Highway 52 to Westmoreland, Tenn., thence over U.S. Highway 31E to Nashville, Tenn., and return over the same routes.

MOTOR CARRIERS OF PASSENGERS

No. MC 1501 (Deviation No. 74), THE GREYHOUND CORPORATION, 1400 Main Street, Kansas City 8, Mo., filed February 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From the junction of U.S. Highway 66 and Interstate Highway 40, west of Calumet, Okla., over Interstate Highway 40 to junction U.S. Highway 66, east of Hydro, Okla., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over a pertinent service route as follows: From St. Louis, Mo. over U.S. Highway 66 to Albuquerque, N. Mex., and return over the same route.

No. MC 2890 (Deviation No. 12), AMERICAN BUSLINES, INC., 1805 Leavenworth Street, Omaha 2, Nebr., filed February 7, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From St. Louis, Mo., over Interstate Highway 70 to junction Bypass U.S. Highway 40, west of St. Charles, Mo., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over a pertinent service route as follows: From St. Louis over Alternate U.S. Highway 40 and Bypass U.S. Highway 40 to Wentzville, Mo., thence over U.S. Highway 61, via Taylor, Iowa to Keokuk, Iowa, and return over the same route.

No. MC 2890 (Deviation No. 13), AMERICAN BUSLINES, INC., 1805 Leavenworth Street, Omaha 2, Nebr., filed February 7, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route between St. Joseph and Kansas City, Mo., over Interstate Highway 29, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over a pertinent service route as follows: From St. Joseph over U.S. Highway 59 to junction Missouri Highway 45, thence over Missouri Highway 45 to Kansas City, and return over the same route.

No. MC 109780 (Deviation No. 9), TRANSCONTINENTAL BUS SYSTEM, INC., 315 Continental Avenue, Dallas, Tex., filed February 8, 1962, Attorney C. Zimmerman, 300 South-Broadway, P.O. Box 730, Wichita, Kans. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route as follows: From the Kansas-Oklahoma State line, near South Haven, Kans., over Interstate Highway 35 to Oklahoma City, Okla., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over a pertinent service route as follows: From Kansas City, Kans. over U.S. Highway 66 to junction U.S. Highway 81, thence over U.S. Highway 81 to junction U.S. Highway 77, thence over U.S. Highway 77 to Oklahoma City; also from Kansas City, Kans. over the Kansas Turnpike to the Kansas-Oklahoma State line, near South Haven, and return over the same routes.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F.R. Doc. 62-1743; Filed, Feb. 20, 1962; 8:49 a.m.]

[Notice 422]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

FEBRUARY 16, 1962.

The following publications are governed by the Interstate Commerce Commission's general rules of practice including special rules (49 CFR 1.241) governing notice of filing of applications by motor carriers of property or passengers or brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other proceedings with respect thereto.

All hearings and pre-hearing conferences will be called at 9:30 a.m., local daylight saving time (if that time is observed), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 4405 (Sub-No. 385), filed February 7, 1962. Applicant: DEALERS TRANSIT, INC., 13101 South Torrence Avenue, Chicago 33, Ill. Applicant's attorney: James W. Wrape, Sterick Building, Memphis, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers, semitrailers* and *trailer chassis* (except those designed to be drawn by passenger automobiles), in initial movements, in truckaway and driveaway service, (a) from Dallas, Oreg., to points in the United States, including Alaska but excluding Hawaii, and (b) *tractors*, in secondary driveaway service, only when drawing trailers moving in initial driveway service, from Dallas, Oreg., to points in Alaska, Arizona, Nevada, Oregon and Vermont.

NOTE: Applicant states W. F. Carey and Bert B. Beveridge, who control applicant, also control Automobile Carriers, Inc., and C. & J. Commercial Driveaway Company, Inc.

HEARING: April 17, 1962, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Examiner F. Roy Linn.

No. MC 4405 (Sub-No. 386), filed February 7, 1962. Applicant: DEALERS TRANSIT, INC., 13101 South Torrence Avenue, Chicago 33, Ill. Applicant's attorney: James W. Wrape, Sterick Building, Memphis, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers, semi-trailers and trailer chassis* (except those designed to be drawn by passenger automobiles), in initial movements, in truckaway and driveaway service, from the site of the Talbert Trailer Company plant at Hayward, Calif., to points in the United States, including Alaska, but (excluding Hawaii), and (2) *tractors*, in secondary driveaway service, only when drawing trailers moving in initial driveaway service, from the site of the Talbert Trailer Company plant at Hayward, Calif., to points in Alaska, Arizona, Nevada, Oregon, and Vermont.

NOTE: Common control may be involved.

HEARING: April 16, 1962, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Examiner F. Roy Linn.

No. MC 36313 (Sub-No. 2) (CORRECTION), filed January 18, 1962, published in the FEDERAL REGISTER, issue of February 7, 1962, republished as corrected, this issue. Applicant: CHARLES A. MASTRONARDI, INC., 166 Montague Street, Brooklyn, N.Y. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City 6, N.J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Corrugated cartons*, from Gloucester, N.J., to Seaford, Del.

NOTE: (1) Applicant states the proposed operation will be under continuing contract with Hinde and Dauch Division of The West Virginia Pulp and Paper Company. (2) Applicant's president is also president of Essex Warehouse Company, MC 76062, a common carrier; dual operations, or common control, may be involved. (3) This republication corrects the name of the firm in note (1) above, erroneously shown as Hinde and Auch in previous publication.

HEARING: Remains as assigned, March 12, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Raymond V. Sar.

No. MC 52709 (Sub-No. 151), filed December 4, 1961. Applicant: RINGSBY TRUCK LINES, INC., 3201 Ringsby Court, Denver 5, Colo. Applicant's representative: Eugene St. M. Hamilton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen vegetables*, from La Junta, Colo., and points within five (5) miles of La Junta to points in Arizona, Arkansas, California, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, Nevada, New Mexico, Oklahoma, Louisiana, Oregon, Texas, Washington, and Wyoming.

NOTE: Applicant states "it controls United Freight, Inc., and Inter State Express, Inc., both of which are wholly-owned by applicant."

HEARING: March 30, 1962, at the Federal Office Building, 600 South Street, New Orleans, La., before Examiner Lawrence Van Dyke, Jr.

No. MC 90373 (Sub-No. 14), filed January 12, 1962. Applicant: C. & R. TRUCKING CO., a corporation, Inman Avenue, Avenel, N.J. Applicant's attorney: LeRoy Danziger, 334 King Road, North Brunswick, N.J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* and *antifreeze*, in containers, from Petty's Island, N.J., to Stamford and Portland, Conn., and *empty containers* or other such incidental facilities used in transporting the above-described commodities, and *returned and rejected commodities*, on return.

NOTE: Applicant states that through its president, C. Raymond Covino, it presently owns and controls the contract carrier authority held by W. Hunter Atkinson in MC 109352 and Sub 3.

HEARING: March 28, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C. before Examiner James Anton.

No. MC 90373 (Sub-No. 15), filed January 12, 1962. Applicant: C. & R. TRUCKING CO., a corporation, Inman Avenue, Avenel, N.J. Applicant's attorney: LeRoy Danziger, 334 King Road, North Brunswick, N.J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt*, in bulk, in tank vehicles, from Linden, N.J., to Minquidale, Del., and *returned and rejected shipments*, on return.

NOTE: Applicant states that through its president, C. Raymond Covino, it presently owns and controls the contract carrier authority held by W. Hunter Atkinson in MC 109352 and Sub 3.

HEARING: March 28, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner James Anton.

No. MC 95540 (Sub-No. 400), filed February 8, 1962. Applicant: WATKINS MOTOR LINES, INC., Albany Highway, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Wilmington, Del., to points in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

NOTE: Applicant states that it is affiliated with Arctic Express, Inc., through stock ownership in Bill Watkins, and Watkins Motor Lines, Inc.

HEARING: February 15, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Abraham J. Essrick.

No. MC 95627 (Sub-No. 40), filed January 29, 1962. Applicant: NELMS MOTOR LINE, INC., P.O. Box 912, Suffolk, Va. Applicant's attorney: Dale C. Dillon, 1825 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and dairy products*, as described in Appendix I to *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when moving under refrigeration, in vehicles equipped with mechanical refrigeration, (1) between Smithfield, Va., and Wilmington, Del., (2) from Smithfield, to points in Delaware and Maryland east of Chesapeake Bay and south of U.S. Highway 40.

HEARING: March 30, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Joint Board No. 278.

No. MC 105461 (Sub-No. 39), filed January 31, 1962. Applicant: HERR'S MOTOR EXPRESS, INC., Quarryville, Pa. Applicant's representative: Bernard N. Gingerich, Quarryville, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Aluminum furniture, wooden furniture, wooden toys*, and *wooden gates, ironing tables*, and *clothes dryers*, from Wellsville, N.Y., to New York, N.Y., and points on Long Island, N.Y., points in Pennsylvania (except points in Chester, Delaware, Montgomery, Philadelphia, and Bucks Counties), points in Delaware (except points in New Castle County), points in New Jersey (except points on and south of U.S. Highway 30 and points within 45 miles of Kennett Square, Pa.), and points in Maryland (except points located within the Washington, D.C., Commercial Zone, as defined by the Commission, and Baltimore, Md., and points within eight (8) miles thereof), and (2) *aluminum furniture*, from Whitesville, N.Y., to New York, N.Y., and points on Long Island, N.Y., points in Pennsylvania (except points in Chester, Delaware, Montgomery, Philadelphia, and Bucks Counties), points in Delaware (except points in New Castle County), points in New Jersey (except points on and south of U.S. Highway 30 and points within 45 miles of Kennett Square, Pa.), and points in Maryland (except points located within the Washington, D.C., Commercial Zone, as defined by the Commission, and Baltimore, Md., and points within eight (8) miles thereof).

HEARING: March 27, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Edith H. Cockrill.

No. MC 106644 (Sub-No. 43), filed January 31, 1962. Applicant: SUPERIOR TRUCKING COMPANY, INC., 520 Bedford Place NE., Atlanta, Ga. Applicant's attorney: Reuben G. Crimm, 1375 Peachtree Street NE., Suite 693, Atlanta 9, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Concrete and wood fibre building slabs*, and *accessories incidental thereto and moving along therewith*, on flatbed equipment, from the plant site of Concrete Products, Inc., Brunswick, Ga., to points in Alabama, Florida, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Texas, Arkansas, New Mexico, Arizona, Oklahoma, Missouri, Kansas, Iowa, Wisconsin, Minnesota, Illinois, Indiana, Michigan, Ohio, West Virginia, and the District of Columbia.

HEARING: March 26, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner A. Lane Cricher.

No. MC 107107 (Sub-No. 195), filed February 12, 1962. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 65, Allapattah Station, Miami 42, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Charleston, S.C., and Savannah, Ga., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, and Wisconsin.

HEARING: February 27, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Hugh M. Nicholson.

No. MC 108053 (Sub-No. 33), filed February 7, 1962. Applicant: LITTLE AUDREY'S TRANSPORTATION CO., INC., P.O. Box 310, Fremont, Nebr. Applicant's attorney: Clarence D. Todd, 1825 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feeds and foodstuffs*, from points in Maine, Massachusetts, New Hampshire, New Jersey, New York, N.Y., including the Commercial Zone, as defined by the Commission, and Pennsylvania to points in Arizona, California, Colorado, Idaho, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming, and *empty containers or other such incidental facilities* (not specified), used in transporting the commodities specified above, on return.

NOTE: Common control may be involved.

HEARING: February 27, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner William K. Royall.

No. MC 108053 (Sub-No. 34), filed February 12, 1962. Applicant: LITTLE AUDREY'S TRANSPORTATION CO., INC., P.O. Box 310, Fremont, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, meats, packinghouse products, and commodities, used by packinghouses*, as described in Appendix I of *Descriptions in Motor Carrier Certificates*, Ex Parte MC-45, from Denver, Greeley, and Pueblo, Colo., to points in Utah, Arizona, New Mexico, Texas, California, Nevada, Idaho, Wyoming, Montana, Washington, Oregon, and points in Cimarron, Beaver, and Texas Counties, Okla.

NOTE: Common control may be involved.

HEARING: March 13, 1962, at the Albany Hotel, Denver, Colo., before Examiner Charles B. Hehemann.

No. MC 110193 (Sub-No. 45), filed February 12, 1962. Applicant: SAFE-WAY TRUCK LINES, INC., 4625 West 55th Street, Chicago, Ill. Applicant's attorney: Howell Ellis, Suite 1210-12 Fidelity Building, 111 Monument Circle, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick, tile and refractory products*, from points in Lawrence and Beaver Counties, Pa., and Stark, Carroll, and Tuscarawas Counties, Ohio, to points in Illinois.

HEARING: March 5, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 110698 (Sub-No. 200), filed February 12, 1962. Applicant: RYDER TANK LINE, INC., Winston Salem Road, Greensboro, N.C. Applicant's attorney: Dale Woodall, 9020 LaPorte Expressway, Houston 17, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Varnishes and resins*, in bulk, in tank vehicles, from Valley Park, Mo., to points in Texas.

NOTE: Applicant states that the capital stock of Ryder Tank Line, Inc., is held by Ryder System, Inc.

HEARING: March 30, 1962, at the Federal Office Building, Franklin and Fann Streets, Houston, Tex., before Examiner Isadore Freidson.

No. MC 111812 (Sub-No. 152), filed February 9, 1962. Applicant: MIDWEST COAST TRANSPORT, INC., P.O. Box 147, Wilson Terminal Building, Sioux Falls, S. Dak. Applicant's attorney: Donald L. Stern, 924 City National Bank Building, Omaha 2, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, and foodstuffs*, from points in Adams and Franklin Counties, Pa., to points in Arizona, California, Colorado, Idaho, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wisconsin.

NOTE: Common control may be involved.

HEARING: March 1, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner John L. York.

No. MC 111851 (Sub-No. 4) (CORRECTION), filed December 7, 1961, published issue of February 7, 1962, and republished as corrected this issue. Applicant: CHARLES H. McCREARY, INC., 666 Garfield Avenue, Newark, Ohio. Applicant's representative: Earl J. Thomas, Thomas Building, 5844–5850 North High Street, Worthington, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Calcium chloride*, in bulk, in dump trucks and in vehicles especially designed and manufactured for the transportation of dry bulk commodities from Barberton, Ohio, to points in Maryland.

NOTE: The purpose of this republication is to add the word commodities which was inadvertently omitted from the above especially designed equipment.

HEARING: Remains as assigned March 12, 1962, at the New Post Office Building, Columbus, Ohio, before Examiner Charles J. Murphy.

No. MC 112020 (Sub-No. 150), filed February 7, 1962. Applicant: COMMERICAL OIL TRANSPORT, INC., 1030 Stayton Street, Fort Worth, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Varnish and resins*, in bulk, in tank vehicles, from Valley Park, Mo., to points in Texas.

NOTE: Applicant states it is owned and controlled by the same stockholders who own and control Commercial Oil Transport of Oklahoma, Inc.

HEARING: March 30, 1962, at the Federal Office Building, Franklin and Fannin Streets, Houston, Tex., before Examiner Isadore Freidson.

No. MC 113106 (Sub-No. 10), filed January 31, 1962. Applicant: KENNETH K. ZECHMAN AND HARRY E. ZECHMAN, a partnership, doing business as, BLUE DIAMOND COMPANY, 4401 East Fairmont Avenue, Baltimore 24, Md. Applicant's representative: Bernard N. Gingerich, Quarryville, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rock salt common in bulk* and *rock salt in bulk treated* (anticaking or other ingredients which are added to rock salt for furthering the usage of rock salt for ice or snow melting), (1) between points in Delaware, Maryland, and Washington, D.C., and (2) from points in Delaware, Maryland, and Washington, D.C., to points in Adams, Chester, Delaware, Franklin, Lancaster, and York Counties, Pa., points in Arlington, Clarke, Culpeper, Fairfax, Fauquier, Frederick, Greene, King George, Loudoun, Madison, Orange, Page, Prince William, Rappahannock, Rockingham, Shenandoah, Spotsylvania, Stafford, and Warren Counties, Va., and Berkeley and Jefferson Counties, W. Va.

NOTE: Applicant states the proposed operation will be restricted to shipments having had a prior movement by motor carrier, rail or water carrier.

HEARING: March 26, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner William J. Cave.

No. MC 113267 (Sub-No. 56) (AMENDED), filed December 11, 1961, published in the FEDERAL REGISTER issue of February 7, 1962, republished as amended February 14, this issue. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, Ill. Applicant's representative: Fred H. Figge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, dairy products, articles distributed by meat packinghouses, such commodities as are used by meat packers in the conduct of their business, when destined to and for use by meat packers*, and *foodstuffs*, moving in mechanically refrigerated vehicles, between points in Mississippi.

NOTE: This republication is for the purpose of removing the restriction which would limit operations to traffic originating outside of Mississippi, as shown in original publication.

HEARING: Remains as assigned March 16, 1962, at the Robert E. Lee Hotel, Jackson, Miss., before Joint Board No. 97, or, if the Joint Board waives its right to participate, before Examiner Lawrence A. Van Dyke, Jr.

No. MC 114019 (Sub-No. 82), filed February 9, 1962. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago 29, Ill. Applicant's attorney: Clarence D. Todd, 1825 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs* from Peach Glen, Biglerville, and Orrtanna, Pa., to points in Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, South Dakota, Tennessee, Texas, Utah, Wisconsin, and Wyoming.

NOTE: Applicant states that it controls Little Audrey's Transportation, Inc., Chamberland's Express, Inc. and Independent Truckers, Inc.

HEARING: March 1, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner John L. York.

No. MC 115841 (Sub-No. 99), filed February 7, 1962. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, P.O. Box 2169, Birmingham, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen food* (when shipped in the same vehicle with shipments of meats, meat products, meat byproducts, dairy products, and articles distributed by meat packinghouses), from Memphis, Tenn., to points in that part of Alabama north and west of Jackson, DeKalb, Etowah, St. Clair, Shelby, Bibb, Hale, Marengo, and Choctaw Counties, Ala., points in that part of Mississippi north of Clarke, Jasper, Smith, Simpson, Copiah, and Clairborne Counties, Miss., points in that part of Arkansas east of Columbia, Nevada, Pike, Montgomery, Scott, Logan, Johnson, Madison, and Carroll Counties, Ark., and points in that part of Tennessee west of Sumner, Wilson, Rutherford, Bedford, and Lincoln Counties, Tenn.

HEARING: March 2, 1962, at the Claridge Hotel, Memphis, Tenn., before Examiner Francis A. Welch.

No. MC 115841 (Sub-No. 101), filed February 7, 1962. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, P.O. Box 2169, Birmingham, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, packinghouse products*, and *commodities used by packing houses* as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Memphis, Tenn., to points in Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, North Carolina, and South Carolina.

HEARING: March 6, 1962, at the Claridge Hotel, Memphis, Tenn., before Examiner Francis A. Welch.

No. MC 116077 (Sub-No. 121), filed February 12, 1962. Applicant: ROBERTSON TANK LINES, INC., P.O. Box 9218, 5700 Polk Avenue, Houston, Tex. Applicant's attorney: Thomas E. James, Esperson Building, Suite 1535, Houston 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, between points in Nueces County, Tex. (except from Bishop, Tex.), on the one hand, and, on the other, points in California.

HEARING: March 29, 1962, at the Federal Office Building, Franklin and Fannin Streets, Houston, Tex., before Examiner Isadore Freidson.

No. MC 118130 (Sub-No. 5), filed February 5, 1962. Applicant: BENJAMIN M. HAMRICK, doing business as BEN HAMRICK, 1208 Jones Street, Fort

Worth, Tex. Applicant's attorney: M. Ward Bailey, Continental Life Building, Fort Worth 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, on stalks, in bags, and in boxes, from Houston, Tex., to points in Minnesota, Iowa, Missouri, Arkansas, Louisiana, Texas, Oklahoma, Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming, Colorado, New Mexico, Arizona, Utah, Idaho, Washington, Oregon, Nevada, California, Ohio, Tennessee, West Virginia, Wisconsin, Alabama, Georgia, Illinois, Indiana, Kentucky, Michigan, and Mississippi, and *exempt commodities*, and *rejected shipments*, on return.

HEARING: March 26, 1962, at the Federal Office Building, Franklin and Fannin Streets, Houston, Tex., before Examiner Isadore Freidson.

No. MC 118168 (Sub-No. 4) (AMENDMENT), filed November 20, 1961, published issue of December 20, 1961, amended December 22, 1961, and republished as amended January 4, 1962, and republished as further amended this issue. Applicant: MARQUIS REFRIGERATED LINES, INC., Findley and Beltline Road, Irving, Tex. Applicant's attorney: M. Ward Bailey, 807 Continental Life Building, Fort Worth 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Potato products not frozen* and *frozen foods*, from points in Oregon, Idaho, Utah, and Washington, to points in New Mexico, Texas, Louisiana, Arkansas, and Oklahoma, and *exempt commodities*, on return.

NOTE: The purpose of this further republication is to add the state of Washington as an origin state.

CONTINUED HEARING: February 22, 1962, at the Continental Denver Hotel, Valley Highway at Speer Exit, Denver, Colo., before Examiner Donald R. Sutherland.

No. MC 118898 (Sub-No. 6), CORRECTION), filed October 23, 1961, published FEDERAL REGISTER issue of February 7, 1962, corrected February 12, 1962, and republished as corrected this issue. Applicant: T. P. TRUCKING COMPANY, INC., 1489 Grady Avenue, Yazoo City, Miss. Applicant's attorney: Rubel L. Phillips, Deposit Guaranty Bank Building, Jackson, Miss. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fiber roof deck*, from the plant site of Fireproof Products of Mississippi, Inc., near Terry, Miss., to points in Alabama, Louisiana, Arkansas, points in Tennessee West of the Tennessee River, and points in Texas East of U.S. Highway 69. RESTRICTION: The applicant states that "the above transportation is to be limited to a service performed under a continuing contract with Fireproof Products of Mississippi, Inc., Terry, Miss."

NOTE: The purpose of this republication is to correct the "error" in the commodity description as well as the destination territory as published previously, to read as shown above.

HEARING: Remains as assigned March 14, 1962, at the Robert E. Lee Hotel, Jackson, Miss., before Examiner Lawrence A. Van Dyke, Jr.

No. MC 119507 (Sub-No. 9) (CORRECTION), filed December 14, 1961, published in the FEDERAL REGISTER issue of February 7, 1962, republished as corrected this issue. Applicant: CRAUN TRANSPORTATION, INC., Emma Street, Bettsville, Ohio. Applicant's attorney: Taylor C. Burneson, 3430 LeVeque-Lincoln Tower, Columbus 15, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Refractory products* from Maple Grove, Ohio, and points within two miles thereof, to points in Michigan (except points in the southeastern part of Michigan which are on or east of U.S. Highway 23 and on or south of Michigan Highway 59), points in Indiana (except Fort Wayne, Kokomo, and points in the Chicago, Ill. Commercial Zone as defined by the Commission), points in Wisconsin, and points in Mercer, Lawrence, Butler, Beaver, and Allegheny Counties, Pa.; and (2) *pallets, skids*, and *shipping containers* used in the transportation of refractory products, from points in the above-specified destination territory to Maple Grove, Ohio, and points within two miles thereof.

NOTE: The purpose of this republication is to delete "(near Garrettsville)" following "Maple Grove", shown in error as originally published.

HEARING: Remains as assigned, March 15, 1962, at the New Post Office Building, Columbus, Ohio, before Examiner Charles J. Murphy.

No. MC 119577 (Sub-No. 4), filed February 5, 1962. Applicant: TERRY TRUCKING SERVICE, INC., P.O. Box 502, R.R. No. 3, Ottawa, Ill. Applicant's representative: William J. Monheim (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, from La Salle and Chicago, Ill., to points in Wisconsin.

HEARING: March 14, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 17.

No. MC 119702 (Sub-No. 5), filed September 22, 1961. Applicant: STAHLY CARTAGE CO., a corporation, 130a Hillsboro Avenue, Edwardsville, Ill. Applicant's attorney: Mack Stephenson, 208 East Adams Street, Springfield, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products, fertilizer and fertilizer solutions including, but not limited to anhydrous ammonia*, in bulk, in tank vehicles, from Pekin, Ill., and points within 5 miles thereof, to points in Missouri, Iowa, Wisconsin, and Indiana.

HEARING: March 14, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Armin G. Clement.

No. MC 119934 (Sub-No. 40), filed February 12, 1962. Applicant: ECOFF TRUCKING, INC., 625 East Broadway, Fortville, Ind. Applicant's attorney: Robert C. Smith, 618 Illinois Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphur*, molten, in bulk, in tank vehicles, from Marseilles, Ill., and points within five (5) miles thereof, to points in Indiana.

HEARING: March 15, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 21.

No. MC 123988 (CORRECTION), filed October 17, 1961, published January 31, 1962, and republished as corrected this issue. Applicant: HAROLD LEE SHERMAN, WILLIAM WILLIS BODDIE, THOMAS G. POWELL, AND E. H. EVANS, a partnership, doing business as SHERMAN AND BODDIE, 1001 College Street, Oxford, N.C. Applicant's attorney: John R. Jordan, Jr., Suite 611 First Citizens Bank Building, Raleigh, N.C. In previous publication in Item 1 Dalvan, Wis., was misspelled. The correct spelling is Delavan, Wis.

HEARING: Remains as assigned March 5, 1962, at the U.S. Court Room Uptown P.O. Building, Raleigh, N.C., before Examiner A. Lane Cricher.

No. MC 124181, filed January 29, 1962. Applicant: JOSEPH GENOVA, Clayton Road, Williamstown, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City 6, N.J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods* from Williamstown, N.J., to New York, Buffalo, Albany, Schenectady, Rochester, and Canandaigua, N.Y., Philadelphia, Wilkes Barre, and Scranton, Pa., Baltimore, Md., and Washington, D.C.

NOTE: Applicant states the proposed operation will be under a continuing contract with Violet Packing Company of Williamsburg, N.J.

HEARING: March 23, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Gordon M. Callow.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 56082 (Sub-No. 41), filed February 8, 1962. Applicant: DAVIS & RANDALL, INC., Chautauqua Road, Fredonia, N.Y. Applicant's attorney: Albert J. Tener, Bank of Jamestown Building, Jamestown, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and advertising materials*, from Cumberland, Md., to points in Michigan, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified above, on return.

No. MC 72444 (Sub-No. 14), filed February 7, 1962. Applicant: THE AKRON-CHICAGO TRANSPORTATION COMPANY, INC., 1016 Triplett Boulevard, Akron 6, Ohio. Applicant's attorney: R. W. Duff (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Cincinnati, Ohio, and junction U.S. Highways 41 and 30 at Schererville, Ind.; from Cincinnati over U.S. Highway 52 to intersection Indiana Highway 100 near Indianapolis, Ind., thence northwesterly over Indiana Highway 100 around Indianapolis to junction U.S. Highway 52, thence north over U.S. Highway 52 to junction Interstate Highway 65, thence northerly over Interstate Highway 65 to junction U.S. Highway 52 near Lebanon, Ind., thence north over U.S. Highway 52 to junction U.S. Highway 41 at Kentland, Ind., thence north over U.S. Highway 41 to junction U.S. Highway 30 at Schererville, and return over the same route, serving no intermediate or off-route points, as an alternate route for operating convenience only in connection with applicant's presently authorized regular-route operations.

No. MC 109478 (Sub-No. 48), filed February 9, 1962. Applicant: WORSTER MOTOR LINES, INC., East Main Road, R.D. No. 1, North East, Pa. Applicant's attorney: William W. Knox, 23 West 10th Street, Erie, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Baby supplies*, from the site of Gerber Products Company plant at Rochester, N.Y., to Boston, Fall River, New Bedford, and Taunton, Mass., Providence, R.I., and points in Maine, New Hampshire, Vermont, Pennsylvania, Ohio, New Jersey, West Virginia, and points in the New York, N.Y., Commercial Zone, as defined by the Commission.

No. MC 112020 (Sub-No. 151), filed February 9, 1962. Applicant: COMMERCIAL OIL TRANSPORT, INC., 1600 Stayton Street, Fort Worth, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and vegetable oils and fats and blends thereof, including hydrolyzed fats*, in bulk, in tank vehicles, from St. Louis, Mo., to points in Alabama.

NOTE: Applicant states that it is owned and controlled by the same stockholders that own and control Commercial Oil Transport of Oklahoma, Inc.

No. MC 124067 (Sub-No. 2), filed February 8, 1962. Applicant: CAPITAL CITY EXPRESS, INC., 1947 Gorgas Street, Montgomery, Ala. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, commodities in bulk, commodities of unusual value, household goods as defined by the Commission, and commodities requiring special equipment), from points in Florida, Georgia, Mississippi, South Carolina, North Carolina, Tennessee, West Virginia, Kentucky, Pennsylvania, and the District of Columbia, to Attalla, Gadsden, and Mobile, Ala.

NOTE: Applicant states that the commodities specified above are those declared surplus by the U.S. Government.

No. MC 124212, filed February 12, 1962. Applicant: MITCHELL TRANSPORT, INC., 11700 Shaker Boulevard, Cleveland 20, Ohio. Applicant's attorney: Roland Rice, Suite 618, Perpetual Building, 1111 E Street NW., Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from the plant site of the Lehigh Portland Cement Company at or near Mitchell (Lawrence County), Ind., to points in Ohio, Kentucky, and Illinois within 200 miles of the plant site of Lehigh Portland Cement Company at or near Mitchell, Ind., and *rejected and returned shipments* of the above-specified commodities, on return.

NOTE: Applicant states it holds contract authority under MC 114036 to transport cement, therefore, dual operations may be involved. Applicant also states common control may be involved.

MOTOR CARRIERS OF PASSENGERS

No. MC 1501 (Sub-No. 264), filed February 5, 1962. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago, Ill. Applicant's attorney: Robert J. Bernard (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, (1) from the interchange of U.S. Highway 41 and Interstate Highway 94 near the Wisconsin-Illinois State line over Interstate Highway 94 to the interchange of Interstate Highways 94 and 294, thence over Interstate Highway 294 to its interchange with Illinois Highway 1–A, and return over the same route, serving no intermediate points, (2) from the junction of Interstate Highway 94 and Illinois Highway 22, over Illinois Highway 22 to its junction with Illinois Highway 83, thence over Illinois Highway 83 to its junction with Illinois Highway 53, thence over Illinois Highway 53 to its junction with U.S. Highway 14, thence over U.S. Highway 14 to Wilke Road, thence over Wilke Road to Arlington Park Race Track, and return over the same route, serving no intermediate points, and (3) from the interchange of Interstate Highways 294 and 90, over Interstate Highway 90 to and over city streets to Hawthorne Race Track in Cicero, Ill., and return over the same route, serving the intermediate point of Sportsman's Park, Cicero, Ill.

No. MC 59238 (Sub-No. 49), filed February 6, 1962. Applicant: VIRGINIA STAGE LINES, INCORPORATED, 114 Fourth Street SE., Charlottesville, Va. Applicant's attorney: Raymond H. Warns, Court Square Building, Charlottesville, Va. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express, mail and newspapers* in the same vehicle with passengers, between junction U.S. Highway 29 and U.S. Highway 50, and Washington, D.C.; from junction U.S. Highway 29 and U.S. Highway 50, over U.S. Highway 50 to junction Washington Boulevard, thence over Washington Boulevard to junction U.S. Highway 1, thence over U.S. Highway 1 to Washington, D.C., and return over the same route, serving all intermediate points.

NOTE: Applicant states the proposed operation is subject to the restriction that no passengers will be transported whose entire journey is between intermediate points on the proposed route or between such points and Washington, D.C. Applicant further states it now holds alternate route authority over the proposed route which authority applicant will seek to revoke should the instant application be granted.

NOTICE OF FILING OF PETITIONS

No. MC 14786 (Sub-No. 9) (PETITION), dated February 1, 1962. Petitioner: GREYHOUND VAN LINES, INC., 57 West Grand Avenue, Chicago, Ill. Petitioner's attorney: D. W. Marikham, 2001 Massachusetts Avenue NW., Washington 6, D.C. By application (BMC–78) filed August 14, 1961, applicant sought authority as follows: "To operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Interstate Commerce Commission in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467; between points in California, New Mexico, Oklahoma, and Texas, with the right to tack said authority to applicant's other operating authority and with the right to traverse, for operating purposes only, the States of Arizona, Nevada, and Wyoming in connection with applicant's other authorized operations." By petition dated February 1, 1962, it seeks leave to amend the above description so as to read as follows: "Between points and places in the 38 States and the District of Columbia (between which applicant presently has such authority), California, Idaho, Montana, New Mexico, Oregon, Utah, and Washington." Petitioner states that the purpose of the amendment is to clarify the scope and intent of the application. The petition also includes a request for postponement of the hearing assigned February 27, 1962. Any person or persons desiring to participate in this proceeding, may file an appropriate pleading within 30 days from the date of this publication in the FEDERAL REGISTER.

No. MC 115873 (PETITION TO MODIFY OPERATING AUTHORITY), dated November 29, 1961. Petitioner: HAROLD WAGGONER & COMPANY, 103 Westminster Drive, Collinsville, Ind. By petition dated November 29, 1961, petitioner states that it presently transports liquid chemicals, in bulk, in tank vehicles, pursuant to authority in the above-numbered permit authorizing the transportation of commodities designated as follows: "Liquid Chemicals, in bulk, in tank vehicles, as described in Maxwell Company, Extension—Addyston, 63 MCC 677, etc.", as a contract carrier. Petitioner requests the authority be modified so as to read: "liquid chemicals, in bulk, in tank vehicles" and that the transportation of liquid chemicals be the same as that in MC 109637 Sub. 74, Southern Tank Lines, Inc., Extension, St. Bernard, Ohio." Any person or persons desiring to oppose the relief sought, may, within 30 days from the date of this republication in the FEDERAL REGISTER, file an appropriate pleading.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under section 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereof (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–7945 (GREYHOUND VAN LINES, INC. — PURCHASE (PORTION)—CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, LOUIS J. JOHNSON AND RAYMOND W. JOHNSON AND IDA B. COUEY AND JAMES R. COUEY), (PETITION), dated February 1, 1962. See notice of filing of Petition published under Docket No. MC 14786 (Sub-No. 9), this issue.

No. MC–F–8077. Authority sought for purchase by TRANS-AMERICAN VAN SERVICE, INC., 7540 South Western Avenue, Chicago 20, Ill., of the operating rights of E. J. COLLINS, an individual, doing business as A & B MOVING AND STORAGE, 8918 Winner Road, Independence, Mo., and for acquisition by JOHN J. RAPP, also of Chicago, Ill., of control of such rights through the purchase. Applicants' attorneys: Kretsinger & Kretsinger, Suite 510 Professional Building, Kansas City 6, Mo. Operating rights sought to be transferred: *Household goods*, as defined by the Commission, as a *common carrier* over irregular routes between Kansas City, Mo., and points within 25 miles thereof, on the one hand, and, on the other, points in Missouri, Iowa, Nebraska, and Kansas, between Panora, Iowa, and points within 20 miles thereof, on the one hand, and, on the other, points in Illinois and Missouri, between Des Moines, Iowa, and points within 80 miles thereof, on the one hand, and, on the other, points in Illinois, Kansas, Minnesota, Nebraska, Oklahoma, South Dakota, and Wisconsin, between Tulsa, Okla., and points within 35 miles of the center of said city, on the one hand, and, on the other, points in Oklahoma, Kansas, Arkansas, Missouri, and Texas, and between points in Nebraska, Kansas, and certain points in Iowa, on the one hand, and, on the other, points in Nebraska, Kansas, Iowa, Missouri, Colorado, Arkansas, Oklahoma, Texas, Minnesota, Wisconsin, Illinois, Kentucky, Georgia, Virginia, North Carolina, Ohio, Pennsylvania, New Jersey, Maryland, Massachusetts, New York, Tennessee, and the District of Columbia, *household goods* and *emigrant movables*, between points in Iowa, on the one hand, and, on the other, certain points in Missouri, and points in Minnesota, Nebraska, Indiana, and Illinois, *canned goods*, from Sleepy Eye, Minn., and Rochelle, Ill., to Omaha, Nebr., *radiators*, steam, and *steam radiator parts*, from Edwardsville, Ill., to Omaha, Nebr., and *oil* and *grease* in containers, from Cleveland, Ohio, to Omaha, Nebr. Vendee is authorized to operate as a *common carrier* in all states and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–8078. Authority sought for purchase by F. P. NIELSON, IVAN R. NIELSON, WILLIS F. NIELSON, and LARS P. NIELSON, a partnership, doing business as ARIZONA SALES COMPANY, 116 West Fourth Avenue, Mesa, Ariz., of a portion of the operating rights of KENISON TRUCKING, INC., 1975 South 1045 West, Salt Lake City, Utah. Applicants' attorney: Lynn S. Richards, Richards, Bird, and Hart, 716 Newhouse Building, Salt Lake City, Utah. Operating rights sought to be transferred: *Dry fertilizer*, in bags and in bulk, as a *contract carrier* over irregular routes from Garfield, Utah, to points in Arizona on and south of U.S. Highway 70. RESTRICTION: The service authorized above is limited to a transportation service to be performed under a continuing contract or contracts, with Western Phosphates, Inc., of Garfield, Utah, and from Geneva, Utah, to points in Arizona on and south of U.S. Highway 70. RESTRICTION: The service authorized immediately above is limited to a transportation service to be performed under a continuing contract, or contracts, with Columbia-Geneva Steel Division, United States Steel Corporation, of Geneva, Utah. Vendee is authorized to operate as a *common carrier* in California and Arizona. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8079. Authority sought for purchase by MARTIN TRANSFER AND STORAGE COMPANY, 1138 North Caldwell Street, Charlotte, N.C., of a portion of the operating rights of W. M. LASSITER and C. C. LASSITER, a partnership, doing business as CITY TRANSFER AND STORAGE COMPANY, 145 West High Street, High Point, N.C., and for acquisition by ELMER V. MARTIN, 1138 N. Caldwell Street, Charlotte, N.C., BILLIE N. MARTIN, 3020 Simpson Drive, Charlotte, N.C., and GEORGE H. MARTIN, 1001 Dolley Drive, Charlotte, N.C., of control of such rights through the purchase. Applicants' attorneys: Henderson & Henderson, 521 Law Building, Charlotte, N.C. Operating rights sought to be transferred: *Meats*, as a *common carrier* over regular routes from Greensboro, N.C., to Albermarle, N.C., serving the intermediate point of Lexington, N.C., and to all others, restricted to delivery only, *household goods*, as defined by the Commission, over irregular routes between points in North Carolina, on the one hand, and, on the other, points in South Carolina and Virginia, and between points in Virginia, on the one hand, and, on the other, points in South Carolina, *new furniture*, between Lexington, N.C., on the one hand, and, on the other, Martinsville, Bassetts, and Galax, Va., and from Lexington, N.C., to points in South Carolina, and *panels* and *plywood*, between Lexington, N.C., on the one hand, and, on the other, Martinsville, Bassetts, and Galax, Va. Vendee holds no authority from this Commission. However, it is affiliated with UNITED VAN LINES, INC., 7808 Maplewood Industrial Court, P.O. Box 3430, Maplewood 17, Mo., which is authorized to operate as a *common carrier* in 48 States and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8080. Authority sought for purchase by MARTIN TRANSFER AND STORAGE COMPANY, 1138 North Caldwell Street, Charlotte, N.C., of the operating rights of SHAW MOVING AND STORAGE, INCORPORATED, P.O. Box 84, Salisbury, N.C., and for acquisition by ELMER V. MARTIN, 1138 North Caldwell Street, Charlotte, N.C., BILLIE N. MARTIN, 3020 Simpson Drive, Charlotte, N.C., and GEORGE H. MARTIN, 1001 Dooley Drive, Charlotte, N.C., of control of such rights through the purchase. Applicants attorneys: Henderson & Henderson, 521 Law Building, Charlotte, N.C. Operating rights sought to be transferred: *Household goods* as defined by the Commission as a *common carrier* over irregular routes between points in North Carolina, on the one hand, and, on the other, points in Florida, Georgia, South Carolina, Tennessee, Virginia, West Virginia, Maryland, Pennsylvania, Ohio, New Jersey, New York, and the District of Columbia. Vendee holds no authority from this Commission. However, it is affiliated with UNITED VAN LINES, INC., 7808 Maplewood Industrial Court, P.O. Box 3430, Maplewood 17, Mo., which is authorized to operate as a *common carrier* in 48 states and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8081. Authority sought for control by ARTHUR DeBEVOISE, DeBevoise Building, Bayside, N.Y., of CROSS COURIERS, INC., 601 Broadway, Cincinnati, Ohio. Applicant's attorneys: Joseph K. Knudson, 1821 Jefferson Place NW., Washington 6, D.C., and J. K. Murphy, DeBevoise Building, Bayside, N.Y. Operating rights sought to be controlled: Authority applied for in application filed December 29, 1961, in Docket No. MC–124088 Sub-1, to transport as a *contract carrier* over irregular routes, *exposed and processed film and prints*, *complimentary replacement film*, incidental dealer handling supplies and advertising literature moving therewith (excluding motion picture film used primarily for commercial theatre and television exhibition) between Cleveland, Ohio, on the one hand, and, on the other, points in Ohio. ARTHUR DeBEVOISE holds no authority from this Commission. However, he is affiliated with ARMORED CARRIER CORPORATION, DeBevoise Building, 222–17 Northern Boulevard, Bayside, Long Island, N.Y., which is authorized to operate as a *contract carrier* in New York, New Jersey, Connecticut, Pennsylvania, Ohio, West Virginia, Massachusetts, Delaware, Maryland, Virginia, Rhode Island, Illinois, Iowa, Missouri, Indiana, Kentucky, Minnesota, Wisconsin, Maine, New Hampshire, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8082. Authority sought for purchase by APPLEYARD'S BUS, INC., 7 Lowell St., Methuen, Mass., of the operating rights of FRANCIS J. TROMBLY (WILFRED H. SMART, TRUSTEE), doing business as TROMBLY MOTOR COACH SERVICE, CO., 46 School Street, Boston, Mass., and for acquisition by JOHN W. APPLEYARD, 7 Lowell Street, Methuen, Mass., of control of such rights through the purchase. Applicants' representatives: Wilfred H. Smart, 44 School Street, Boston, Mass., and John W. Appleyard, 7 Lowell Street, Methuen, Mass. Operating rights sought to be transferred: *Passengers* and their baggage, and express, mail, and newspapers, in the same vehicle with passengers, as a *common carrier* over regular routes, between Lawrence, Mass., and Manchester, N.H., serving all intermediate points, and between junction New Hampshire Highway 28 and Harvey Road (in the Town of Manchester, Hillsboro County, N.H.), and junction New Hampshire Highway 28 and Goffs Falls Road (in the Town of Londonderry, Rockingham County, N.H.), serving the intermediate point of the U.S. Army Air Base, in the Town of Manchester, Hillsboro County, N.H. Vendee holds no authority from this Commission. However, its controlling stockholder, JOHN W. APPLEYARD is affiliated with APPLEYARD'S MOTOR TRANSPORTATION COMPANY, INC., 7 Lowell Street, Methuen, Mass., which is authorized to operate as a *common carrier* in Maine, New Hampshire, Massachusetts, and Vermont. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8083. Authority sought for purchase by HELPHREY MOTOR FREIGHT, INC., 407 North Perry (Box 4366), Spokane 31, Wash., of the operating rights and property of MANNING FREIGHT LINES, INC., South First Street and Washington Avenue, Yakima, Wash., and for acquisition by HAROLD MORSE, West 235 Franklin Court, Spokane, Wash., and HENRY J. HOLIEN, 405 St. Claire Avenue, Sandpoint, Idaho, of control of such rights and property through the purchase. Applicants' attorneys: Joseph L. Thomas, 711 Old National Bank Building, Spokane, Wash., and Frank B. Hand, Jr., Transportation Building, Washington 6, D.C. Operating rights sought to be transferred. *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over regular routes between Yakima, Wash., and Portland, Oreg., serving the intermediate point of Toppenish, Wash., and the off-route point of Wapato, Wash., between Tacoma, Wash., and Yakima, Wash., serving certain intermediate and off-route points; *general commodities*, excepting, among others, commodities in bulk, but not excepting household goods, over irregular routes from Portland, Oreg., to points in Yakima County, Wash., except Yakima, Wapato, and Toppenish, Wash., *farm products*, from points in Yakima County Wash., to Portland, Oreg., and Seattle, Wash., except from Yakima, Wapato, and Toppenish, Wash., to Portland, Oreg., *paper*, from Oregon City, Oreg., to Hanford, Wash., and points in Yakima County, Wash., *spray and spray materials*, from Portland, Oreg., to Wenatchee, Wash., and from Yakima, Wash., to Hood River, Oreg., and *powdered milk*, from Sunnyside, Wash., to Portland, Oreg. Vendee is authorized to operate as a *common carrier* in Washington, Montana, and Idaho. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary*.

[Notice 599]

MOTOR CARRIER TRANSFER PROCEEDINGS

FEBRUARY 16, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 63560. By order of February 12, 1962, the Transfer Board approved the transfer to Barnes Freightlines, Inc., Pipestone, Minn., of a portion of Certificate No. MC 105058, issued October 12, 1954, to Barnes Truck Service, Inc., Pipestone, Minn., authorizing the transportation of: General commodities, excluding household goods, emigrant movables, commodities in bulk, and other specified commodities, between Worthington, Minn., and points within 25 miles of Worthington, on the one hand, and, on the other, Sioux Falls, S. Dak., and points in Iowa and Minnesota. Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn., attorney for applicants.

No. MC–FC 64653. By order of February 13, 1962, the Transfer Board approved the transfer to Collins Trucking Co., a corporation, Orange, N.J., of the operating rights in Certificates Nos. MC 95926 and MC 95926 Sub 3, issued July 31, 1941, and July 1, 1949, to Thomas S. San Giacomo, Inc., Orange, N.J., authorizing the transportation, over irregular routes, of waste paper, from New York, N.Y., to Whippany, Garwood, Somerville, and Clifton, N.J., finished paper, from Garwood and Clifton, N.J., to New York, N.Y., and scrap iron, between New York, N.Y., and Trenton, N.J., waste paper, in bales, from Orange, N.J., to Moodna (Cornwall) Town of New Windsor, N.Y., and paper on rolls, from Moodna (Cornwall) Town of New Windsor, N.Y., to points in Bergen, Passaic, Hudson, Essex, Union, Morris, Middlesex, Monmouth, Mercer, Somerset and Camden Counties, N.J., and to New York, N.Y. Bert Collins, 140 Cedar Street, New York 6, N.Y., applicants' representative.

No. MC–FC 64788. By order of February 13, 1962, the Transfer Board approved the transfer to Guy and Epperly Transfer Co., Inc., Pittsburgh, Pa., of Certificate No. MC 9136 issued April 22, 1949 to B. B. Kitterman, doing business as Guy & Epperly Transfer Company, Pittsburgh, Pa., authorizing the transportation of general commodities, excluding household goods and commodities in bulk, over irregular routes, between Pittsburgh, Pa., on the one hand, and, on the other, points within 15 miles of Pittsburgh. Christian V. Graf, 407 North Front Street, Harrisburg, Pa., attorney for applicants.

No. MC–FC 64797. By order of February 13, 1962, the Transfer Board approved the transfer to Eastern Motor Dispatch, Inc., a Delaware corporation, Columbus, Ohio, of Certificates Nos. MC 18253, MC 18253 Sub 9, MC 18253 Sub 12, MC 18253 Sub 13, MC 18253 Sub 14, and MC 18253 Sub 15, to Eastern Motor Dispatch, Inc., Columbus, Ohio, authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities between Cincinnati, Ohio, and Boston, Mass., and return over the same routes; between Cincinnati, Ohio, and New York, N.Y., with service authorized to some off-route points and return over the same routes; between Cincinnati, Ohio, and Washington, D.C., between Columbus, Ohio, and Boston, Mass., with service authorized to Sunbury, Pa., between New York, N.Y., and Springfield, Mass., between Lewistown, Pa., and Northumberland, Pa., between various points in Ohio; from Cincinnati over U.S. Highway 42 to Lafayette; from Columbus over various highways to Canton; from Upper Sandusky over U.S. Highway 23 to Waldo; from Lima over U.S. Highway 25 to Dayton; from Kenton to Bellefontaine, via Marysville to Columbus; from Newconerstown over U.S. Highway 36 to Cadiz; from Piqua over various highways to West Jefferson and return over these routes; service is authorized to and from Wilkes-Barre, Pa., in connection with regular route operations over U.S. Highway 11 between Kingston and Scranton, Pa., to and from Byesville, Ohio and all points within 2 miles of Cambridge, Ohio to and from Lockland, Ohio, in connection with regular route operations to and from Cincinnati, Ohio, to and from Merchantville, N.J., Jenkintown, Morton, Sharon Hill, Chester, Marcus Hook, and Clifton Heights, Pa., in connection with regular route operations to and from Philadelphia, Pa.; to and from Mount Vernon and Pelham Manor, N.Y., in connection with regular route operations to and from New York, N.Y.; to and from all points within 5 miles of Columbus, Ohio, in connection with regular route operations to and from Columbus; service is authorized to and from the site of the Kaiser Aluminum and Chemical Corporation's plant (near Newark, Ohio); to and from points in the Cincinnati, Ohio, commercial zone; between points in Ohio; service is authorized to and from the site of the U.S. Atomic Energy Proj-

ect near Venice, Ohio, 3 miles west of U.S. Highway 127, in the Fernald Area, Ohio, in connection with regular route operations to and from Cincinnati, Ohio; service is authorized to and from Miamisburg, Ohio, and Vandalia, Ohio, in connection with regular route operations to and from Dayton, Ohio; between Sligo, Ohio, and junction new Ohio Highway 3 and old Ohio Highway 3 west of Clarksville, Ohio; between Clarksville, Ohio, and junction Ohio Highway 350 and Ohio Highway 3 west of Clarksville, and all intermediate points and between Columbus, Ohio, and Cambridge, Ohio, and all intermediate points.

William E. Rance, 1200 West Fifth Avenue, Columbus 12, Ohio., attorney for applicants.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F.R. Doc. 62-1745; Filed, Feb. 20, 1962; 8:49 a.m.]

CUMULATIVE CODIFICATION GUIDE—FEBRUARY

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published to date during February.

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER A—ARMED SERVICES

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

The following amendments to this subchapter are issued by direction of the Assistant Secretary of Defense (Installations and Logistics) pursuant to the authority contained in Department of Defense Directive No. 4105.30, dated March 11, 1959 (24 F.R. 2260), as amended, and 10 U.S.C. 2202, and have the concurrence of the military departments.

PART 1—GENERAL PROVISIONS

1. Add new sections 1.315 and 1.316, to read as follows:

§ 1.315 Procurement of jewel bearings.

(a) In the interest of maintaining the existing mobilization base for the production of jewel bearings, it is national policy to require contractors to use jewel bearings manufactured at the Turtle Mountain Ordnance Plant at Rolla, North Dakota, except:

(1) When quantity requirements, quality standards, or delivery requirements cannot be satisfied by bearings manufactured at the Rolla plant;

(2) For bearings incorporated in standard commercial items not required specifically for Government contracts; and

(3) For bearings used in items that are to be procured and used outside the United States, its possessions, and Puerto Rico.

(b) Except for procurements covered by paragraph (a)(3) of this section, invitations for bids (see § 2.201(a)(26) of this chapter) and request for proposals for supplies which may contain jewel bearings shall either state that jewel bearings will be furnished by the Government or shall call attention to the Required Source for Jewel Bearings clause. In the latter case, the contract shall include the following clause:

REQUIRED SOURCE FOR JEWEL BEARINGS
(Nov. 1961)

It has been determined that an adequate facility for the manufacture of jewel bearings is essential to meet the mobilization requirements. Except for bearings incorporated in standard commercial items not acquired specifically for Government contracts, jewel bearings required in the performance of this contract shall be procured from the Turtle Mountain Ordnance Plant, Rolla, North Dakota, provided, the requirements of the contract can be met. The purchase of jewel bearings from any other source shall be made only with the approval of the Contracting Officer and with such adjustment in price or fee as may be equitable.

(c) Where practical, existing contracts shall be amended to comply with the policy of this section. Any increase in the cost of jewel bearings which is reasonably necessary for compliance with the national policy will be recognized as a reasonable element of cost or price.

§ 1.316 Disclosure of contractor performance data to other Government agencies and foreign governments.

Subject to any applicable security requirements, the military departments shall honor the requests of other Government agencies for readily available information relating to the performance of their prime contractors. The agency requesting the information shall be advised that it will be responsible for any further release of such information. A request from a foreign government for such information should similarly be honored. However, if there is any question as to propriety of divulging the information for any reason, including the security aspect, the reply should be forwarded through appropriate Departmental channels.

2. Revise §§ 1.700, 1.701, 1.701–1 (a) and (b), 1.701–4, and 1.702, to read as follows:

§ 1.700 Scope of subpart.

To implement the Small Business Act, P.L. 85–536, and the Armed Services Procurement Act, as amended, this subpart sets forth (a) policy with reference to small business concerns, (b) policy governing relationships with the Small Business Administration, (c) small business set-aside precedures, and (d) small business subcontracting policies. This subpart applies only in the United States, its possessions, and Puerto Rico.

§ 1.701 Definitions.

The definitions of small business concerns are promulgated by the Small Business Administration. As used throughout this subpart, the following terms shall have the meanings set forth below:

§ 1.701–1 Small business concern.

(a)(1) *General definition.* Except as provided in subparagraphs (2) and (3) of this paragraph, a small business concern is a concern that is (i) independently owned and operated, is not dominant in the field of operation is which it is bidding on Government contracts, and with its affiliates, employs not more than 500 employees, or (ii) is certified as a small business concern by SBA. ("Concern" means any business entity organized for profit with a place of business located in the United States, its possessions and Puerto Rico, including, but not limited to an individual, partnership, corporation, joint venture, association or cooperative.)

(2) *Special industry definitions.* Unless certified as a small business concern by SBA, in addition to being independently owned and operated, and not dominant in the field of operation in which it is bidding on Government contracts, a small business concern in order to qualify as such must meet special criteria in the following industries:

(i) *Construction industry.* In the construction industry, the average annual receipts of the concern and its affiliates for the preceding three fiscal years must not exceed $5,000,000; except that if the concern is located in Alaska, such receipts must not exceed $6,250,000. ("Annual receipts" means the annual receipts less returns and allowances of a concern and its affiliates.)

(ii) *Aircraft equipment and parts industry.* In the aircraft equipment and parts industry, the number of employees of the concern and its affiliates must not exceed 1,000 employees. This special definition for the aircraft equipment and parts industry applies only in the procurement of the following items:

Airframes and structural components.
Aircraft propellers and hubs.
Wheel and brake systems.
Jet engines.
Fuel tanks.
Aircraft hydraulic systems.
Aircraft vacuum systems.
Aircraft air-conditioning.
Heating and pressurizing equipment.
Fire control systems.
Flight instruments.
Flight simulators (except small cockpit trainers).
Aircraft de-icing systems.

(iii) *Petroleum refining industry.* In the petroleum industry, excepting procurement of lubricants and miscellaneous petroleum products, the concern and its affiliates must employ not more than 1,000 employees and not have more than 30,000 barrels per day crude oil capacity from owned or leased facilities. ("Crude oil capacity" means the maximum daily average crude throughput of a refinery in complete operation, with allowance for necessary shutdown time for routine maintenance, repairs, etc. It approximates the maximum daily average crude runs to stills that can be maintained for an extended period.)

(iv) *Food, canning, and preserving industry.* In the food, canning, and preserving industry, the concern and its affiliates must employ not more than 500 employees exclusive of "agricultural labor" as defined in 26 U.S.C. 3306(k).

(v) *Air transportation industry.* In the air transportation industry, the number of employees of the concern and its affiliates must not exceed 1,000 employees.

(vi) *Trucking, warehousing, packing and crating industry.* In the trucking, warehousing, packing and crating industry, the annual receipts of the concern and its affiliates must be $3,000,000 or less; except that if the concern is located in Alaska, such receipts must be $3,750,000 or less. No such concern,

however, will be denied small business status for the purpose of Government procurement solely because of its relationship with an interstate van line, if (a) the concern's annual receipts have not exceeded $3,000,000 during its most recently completed fiscal year ($3,750,000 if located in Alaska), and (b) no more than 50 percent of such annual receipts are directly attributable to the concern's relationship with an interstate van line.

(3) *Labor surplus area small business concerns.* If a concern qualifies as a labor surplus area concern (see § 1.801–1), the pertinent size standard (i.e., number of employees or annual receipts) shall be deemed to be increased by 25 percent.

(b) *Dominance in field of operations.* A concern "is not dominant in its field of operations" when it does not exercise a controlling or major influence in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration is given to all appropriate factors including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents and license agreements, facilities, sales territory, and nature of business activity.

• • • • •

§ 1.701–4 Regular dealer (nonmanufacturer) as small business concern.

One who submits bids or offers in his own name, but who proposes to furnish a product not manufactured by himself, shall be deemed to be a small business concern only if (a) he is a small business concern within the meaning of § 1.701–1; (b) he is a regular dealer (nonmanufacturer) (see § 1.201–18(a)); and (c) in the case of a procurement set aside for small business (see § 1.706) or involving equal low bids (see § 2.407–6 of this chapter) or otherwise involving the preferential treatment of small business, he agrees to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns; provided, that this section does not apply to construction or service contracts. However, if the goods to be furnished are wool, worsted, knitwear, duck, webbing and thread (spinning and finishing), nonmanufacturers (dealers and converters) shall furnish such products which have been manufactured or produced by a small weaver (small knitter for knitwear) and, if finishing is required, by a small finisher.

§ 1.702 General policy.

(a) It is the policy of the Department of Defense to place a fair proportion of its total purchases and contracts for supplies, research and development, and services (including but not limited to contracts for maintenance, repair, and construction) with small business concerns.

(b) Each military department shall implement this policy by affording small business concerns an equitable opportunity to compete for prime contracts in accordance with the following:

(1) Bidders mailing lists (see § 2.205 of this chapter) shall be maintained and shall include all established and potential small business suppliers who have made acceptable application for inclusion or who appear from other information (including recommendation by the SBA representative), to be qualified for inclusion therein;

(2) Even though less than a complete bidders list is to be used pursuant to § 2.205–4 of this chapter, all small business concerns shall be solicited, except that only a pro rata number of small business concerns need to be solicited when the bidders list is composed predominantly of small business concerns and the estimated award is not expected to be more than $25,000;

(3) Procurement of supplies and services shall be divided into reasonably small lots (not less than economic production runs) in order to permit bidding on quantities less than the total requirements; the maximum amount of time practicable shall be allowed for preparation and submission of bids and proposals; and delivery schedules shall be established on a realistic basis which will encourage small business participation to the extent consistent with the actual requirements of the Government; and

(4) For specification requirements, see § 1.1203.

As to subcontracting, see § 1.707.

(c) Records of the total value of all contracts placed with small business concerns during each fiscal year, and reports based thereon, are maintained by each military department through the Department of Defense Procurement Reporting System described in § 1.10 and Subpart I, part 16 of this chapter. Accordingly, each military department shall, in soliciting bids or proposals, request from any bidder or offeror, or other source, any information needed to determine whether the bidder or offeror is a small business concern.

3. Revise §§ 1.703, 1.704–3, 1.705–3, 1.705–4, and 1.705–6 (a) and (b), to read as follows:

§ 1.703 Determination of status as small business concern.

(a) Except as provided in paragraph (b) of this section, the contracting officer shall accept at face value (1) a small business certificate (see § 1.701–1(e)) that a bidder or offeror is a small business concern or (2) a statement by the bidder or offeror that it is a small business concern (see §§ 1.701–1 and 1.701–4).

(b) Small business certificates and statements that a bidder or offeror is a small business concern shall be effective, even though questioned in accordance with the terms of this paragraph, unless the SBA, in response to such question and pursuant to the procedures in subparagraph (3) of this paragraph, determines that the bidder or offeror in question is not a small business concern. The controlling point in time for a determination concerning the size status of a questioned bidder or offeror shall be the date of award, except that no bidder or offeror shall be eligible for award as a small business concern unless he has in good faith represented himself as small business prior to the opening of bids or closing date for submission of offers (see § 2.405(b) of this chapter with respect to minor informalities and irregularities in bids).

(1) Any bidder or offeror may, prior to award, question the small business status of the apparently successful bidder or offeror by sending a written protest to the contracting officer and to the SBA Regional Office for the region in which the questioned bidder or offeror has its principal place of business. SBA will promptly notify the contracting officer of the date of its receipt of any such protest and will advise the questioned bidder or offeror that his small business status is under review.

(2) A contracting officer may, prior to award, question the small business status of the apparently successful bidder or offeror by sending a written notice to the SBA Regional Office for the region in which the bidder or offeror has its principal place of business. Such notice shall contain a statement of the basis for questioning and of available supporting facts. SBA will promptly notify the contracting officer of the date such notice was received and will advise the bidder or offeror in question that his small business status is under review.

(3) SBA will determine the small business status of the questioned bidder or offeror and notify the contracting officer and the bidder or offeror of its decision. If the SBA determination is not received by the contracting officer within ten working days after SBA's receipt of the protest or notice questioning small business status, it shall be presumed that the questioned bidder or offeror is a small business concern. This presumption will not be used as a basis for making an award to the questioned bidder or offeror without first ascertaining when a SBA determination can be expected from SBA and, where practicable, waiting for such determination, unless further delay in award would be disadvantageous to the Government. Pending SBA determination or expiration of the ten-day period, whichever is earlier, procurement action shall be suspended; provided that such ten-day suspension period shall not apply to any urgent procurement action which, as determined by the contracting officer, must, in order to protect the public interest, be awarded without delay and as to which he inserts in the contract file a statement signed by him justifying this determination.

§ 1.704–3 Small business specialists.

Small business specialists shall be appointed in each principal procurement office and such other offices as the military departments may consider appropriate. They will perform such functions as are prescribed for them in furtherance of the Small Business Program, including but not limited to the screening of proposed procurement to assure that all small business objectives are given consideration.

§ 1.705–3 Screening of procurements.

(a) *Individual set-asides.* SBA representatives, when properly authorized and cleared for security, shall, upon request, promptly be afforded an opportunity at the purchasing activity to review all proposed classified and unclassified procurements if it is anticipated that the resulting contract or contracts will exceed $2,500 unless in the case of procurements which are not expected to exceed $10,000, the head of the purchasing activity determines that such review would unduly delay the procurement process. A copy of the determination and the justification therefore shall be furnished to the SBA representative. Where it is anticipated that the resulting contract or contracts will exceed $2,500, such SBA representatives shall, upon request, promptly be afforded an opportunity to make recommendations concerning proposed procurements, including that they be exclusively or partially set aside for small business concerns.

The contracting officer shall afford the SBA representative an opportunity to recommend appropriate names of small business concerns for inclusion in lists of bidders for firms to be solicited in connection with current and future procurements.

(b) *Class set-asides.* SBA representatives shall be afforded an opportunity to make recommendations that current and future procurements, or portions thereof, of selected items or services or groups of like items or services shall be set aside as provided in § 1.706, for exclusive small business participation. Such set-asides, when approved by the contracting officer, shall be known as class set-asides. Concurrence in a class set-aside shall not be dependent upon the existence of a current procurement if future procurements can be clearly foreseen.

§ 1.705–4 Access to procurement information.

Upon request, and subject to applicable security regulations, SBA representatives shall be given access to available or reasonably obtainable information, including technical data (including drawings and specifications), procurement history, and bidders lists, and planned requirements immediately upon receipt by the purchasing activity. The SBA representative will be furnished such other available or reasonably obtainable information as may be required for the SBA referral program.

§ 1.705–6 Certificates of competency.

(a) SBA has statutory authority to certify the competency of any small business concern as to capacity and credit. "Capacity" means the overall ability of a prospective small business contractor to meet quality, quantity, and time requirements of a proposed contract and includes ability to perform, organization, experience, technical knowledge, skills, "know-how", technical equipment, and facilities. Contracting officers shall accept SBA certificates of competency as conclusive of a prospective contractor's responsibility as to capacity (see §§ 1.9037–1(c) and 1.903–2) and credit (see § 1.903–1(b)), unless the contracting officer has substantial doubts as to the firm's ability to perform, in which case he shall, prior to award, promptly refer the matter to higher authority in accordance with procedures of the Department concerned. In cases referred to higher authority, SBA may be requested to consider the withdrawal of the certificate and, in any event, the contracting officer will be informed of the final decision.

(b) If a small business concern has submitted an otherwise acceptable bid or proposal but has been found by the contracting officer to be nonresponsible as to capacity or credit, and if the bid or proposal is to be rejected for this reason alone, SBA shall be notified of the circumstances so as to permit it to issue a certificate of competency, and award shall be withheld pending either SBA action concerning issuance of a certificate of competency or the expiration of fifteen working days after SBA is so notified, whichever is earlier, subject to the following:

(1) This procedure is not mandatory where the contracting officer certifies in writing that award must be made without delay, and promptly advises the SBA representative thereof, and includes in the contract file a statement signed by him which justifies the certificate. A copy of the statement shall be furnished the SBA representative.

(2) This procedure does not apply to proposed awards of not more than $2,500.

(3) This procedure is optional, within the discretion of the contracting officer, as to proposed awards of more than $2,500, but less than $10,000.

(4) This procedure does not apply where the contracting officer has found a small business concern nonresponsible for a reason other than lack of capacity or credit. Thus, it does not apply where a concern does not satisfy the criteria of responsibility in § 1.903–1 (a), (e), (f), and (g). Where the contracting officer determines that a concern does not meet the requirements of § 1.903–1(d) as to a satisfactory record of performance, the procedure is mandatory only if the unsatisfactory record of performance was due solely to inadequate capacity or credit. However, if the contracting officer has any doubt as to whether the unsatisfactory record of performance can reasonably be attributed solely to lack of capacity or credit, the matter shall be discussed with the local SBA representative. If the local SBA representative is of the opinion that the unsatisfactory record of performance is attributable solely to a lack of capacity or credit, and the contracting officer disagrees, the contracting officer shall, in accordance with Departmental procedures, forward the matter to higher authority within his Department for resolution. The decision of such higher authority shall be final. To assist SBA in determining the capacity and credit of small business concerns involved in a particular procurement, the purchasing activity shall make available to SBA all pertinent technical and financial information with respect to the small business concern involved, including but not limited to copies of the IFB or RFP, drawings, specifications, pre-award surveys and abstracts of bids.

• • • • •

4. Revise subparagraph (1) in § 1.706–1 (a); in § 1.706–2, revise last sentence in paragraph (a)(2), revise paragraph (b)(6) and (7), and add paragraph (b)(8); in § 1.706–3, revise the first sentence of paragraph (b)(1); revise § 1.706–5; and in § 1.706–6, revise paragraphs (c) and (d), to read as follows:

§ 1.706–1 General.

(a) • • •

(1) Jointly determined by an SBA representative and the contracting officer upon the initiation of either agency, or • • •

§ 1.706–2 Review of SBA set-aside proposals.

(a)(1) • • •

(2) • • • The contracting officer shall promptly notify the SBA representative of any procurement action initiated pursuant to the proviso of the preceding sentence by supplying him with the copy of the justification.

(b) • • •

(6) Small business concerns are receiving a fair portion of the total contracts for supplies and services;

(7) A class set-aside of the item or service concerned has been made at some other purchasing activity; or

(8) The item will be described by "brand name or equal."

• • • • •

§ 1.706–3 Withdrawal or modification of set-asides.

• • • • •

(b)(1) If, prior to the award of a contract involving an individual or class set-aside for small business, the contracting officer considers that procurement of the set-aside from a small business concern would be detrimental to the public interest (e.g., because of unreasonable price), the contracting officer may withdraw a unilateral set-aside determination or initiate the withdrawal of a point set-aside determination by giving to the SBA representative written notice containing the reasons for withdrawing a joint determination. • • •

§ 1.706–5 Total set-asides.

(a) Subject to any applicable preference for labor surplus area set-asides as provided in § 1.803(a)(2), the entire amount of an individual procurement or class of procurements (including but not limited to contracts for maintenance, repair, and construction) shall be set aside for exclusive small business participation (see § 1.706–1) where there is a reasonable expectation that bids or proposals will be obtained from a sufficient number of responsible small business concerns so that awards will be made at reasonable prices. Total set-asides shall not be made unless such a reasonable expectation exists; however, see § 1.706–6 as to partial set-asides. Although past procurement history of the item or similar items is always important, it is not the only controlling factor which should be considered in determining whether a reasonable expectation exists.

(b) Contracts for total small business set-asides may be entered into by conventional negotiation or by a special

method of procurement known as "Small Business Restricted Advertising." The latter method shall be used wherever possible. Invitations for Bids and Requests for Proposals shall be restricted to small business concerns. Small Business Restricted Advertising, including awards thereunder, shall be conducted in the same way as prescribed for formal advertising in Part 2 of this chapter, except that bids and awards shall be restricted to small business concerns. Bids received from firms which do not qualify as small business concerns shall be considered as nonresponsive and shall be rejected.

(c) In procurements involving total set-asides for small business, each Invitation for Bids or Request for Proposals shall contain substantially the following notice:

NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE
(NOV. 1961)

(a) *Restriction.* Bids or proposals under this procurement are solicited from small business concerns only and this procurement is to be awarded only to one or more small business concerns. This action is based on a determination by the contracting officer, alone or in conjunction with a representative of the Small Business Administration, that it is in the interest of maintaining or mobilizing the Nation's full productive capacity, in the interest of war or national defense programs, or in the interest of assuring that a fair proportion of Government procurement is placed with small business concerns. Bids or proposals received from firms which are not small business concerns shall be considered nonresponsive and shall be rejected.

(b) *Definitions.* (1) A "small business concern" is a concern that (i) is certified as a small business concern by the Small Business Administration, or (ii) is independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts and, with its affiliates, employs either not more than 500 employees or, if the concern qualifies as a labor surplus area concern, not more than 625 employees. In addition to meeting these criteria, a manufacturer or regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns; provided, that this additional requirement does not apply in connection with construction or service contracts.

(2) A "labor surplus area" is a geographical area which is:

(i) Classified by the Department of Labor as an "Area of Substantial Labor Surplus" or as an "Area of Substantial and Persistent Labor Surplus" (also called "Area of Substantial and Persistent Unemployment") and listed as such by that Department in conjunction with its publication "Area Labor Market Trends"; or

(ii) Not classified as in (i) above, but which is individually certified as an area of persistent or substantial labor surplus by the Department of Labor at the request of any prospective contractor.

(3) Labor surplus area concern includes:

(i) Persistent labor surplus area concerns which agree to perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Substantial and Persistent Labor Surplus" (also called "Areas of Substantial and Persistent Unemployment"); and

(ii) Substantial labor surplus area concerns which agree to perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Substantial Labor Surplus."

A concern shall be deemed to perform a contract substantially in "Areas of Substantial and Persistent Labor Surplus" (also called "Areas of Substantial and Persistent Unemployment") if the costs that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas amount to more than 50 percent of the contract price. A concern shall be deemed to perform a contract substantially in "Areas of Substantial Labor Surplus" if the costs that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas or in "Areas of Substantial or Persistent Labor Surplus" (also called "Areas of Substantial and Persistent Unemployment") amount to more than 50 percent of the contract price.

(c) *Identification of areas of performance.* Each bidder that qualifies as a small business concern only because he is also a labor surplus area concern shall identify in his bid the geographical areas in which he proposes to perform or cause to be performed a substantial proportion of the production of the contract. If the Department of Labor classification of any such areas changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform: *Provided*, That he so notifies the Contracting Officer before contract award.

(d) *Agreement.* The bidder agrees that, if awarded a contract as a small business concern for which he would not have qualified had he not also been a labor surplus area concern, he will perform, or cause to be performed, a substantial proportion of the production in areas classified, at the time of award or at the time of performance of the contract, as persistent or substantial labor surplus areas, as defined in (b) above.

Where the definition of a small business concern for a given industry, as prescribed by the Small Business Administration and promulgated within the Department of Defense, differs from that set forth in the notice in this paragraph, the notice shall be appropriately modified to reflect such definition. For construction contracts, paragraph (b)(1) of the foregoing notice should be deleted and the following substituted therefor:

A "small business concern" is a concern that:

(i) Is independently owned and operated;

(ii) Is not dominant in the field of operation in which it is bidding on Government contracts; and

(iii) The average annual receipts of the concern and its affiliates for the preceding three fiscal years do not exceed $5,000,000, or if the concern is located in Alaska or qualifies as a labor surplus area concern, do not exceed $6,250,000.

§ 1.706–6 Partial set-asides.

* * * * *

(c) In advertised procurements involving partial set-asides for small business, Invitations for Bids shall contain either substantially the following notice or the notice set forth in paragraph (d) of this section. In negotiated procurements, whichever notice is used will be appropriately modified for use with requests for proposals.

NOTICE OF PARTIAL SMALL BUSINESS SET-ASIDE
(NOV. 1961)

(a) *General.* A portion of this procurement, as identified elsewhere in the Schedule, has been set aside for award only to one or more small business concerns. Negotiations for award of this set-aside portion will be conducted only with responsible small business concerns who have submitted responsive bids on the non-set-aside portion at a unit price within 120 percent of the highest award made on the non-set-aside portion. Negotiations shall be conducted with such small business concerns in the following order of priority:

Group 1. Small business concerns which are also persistent labor surplus area concerns.

Group 2. Small business concerns which are also substantial labor surplus area concerns.

Group 3. Small business concerns which are not labor surplus area concerns.

Within each of the above groups, negotiations with such concerns will be in the order of their bids on the non-set-aside portion, beginning with the lowest responsive bid. The set-aside shall be awarded at the highest unit price awarded on the non-set-aside portion, adjusted to reflect transportation and other cost factors which were considered in evaluating bids on the non-set-aside portion. However, the Government reserves the right not to consider token bids or other devices designed to secure an unfair advantage over other bidders eligible for the set-aside portion. The partial set-aside of this procurement for small business concerns is based on a determination by the Contracting Officer, alone or in conjunction with a representative of the Small Business Administration, that it is in the interest of maintaining or mobilizing the Nation's full productive capacity, or in the interest of war or national defense programs, or in the interest of assuring that a fair portion of Government procurement is placed with small business concerns.

(b) *Definition.* (1) A "small business concern" is a concern that (i) is certified as a small business concern by the Small Business Administration, or (ii) is independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts, and with its affiliates, employs either not more than 500 employees or, if the concern qualifies as a labor surplus area concern, not more than 625 employees. In addition to meeting these criteria, a manufacturer or regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns; provided, that this additional requirement does not apply in connection with construction or service contracts.

(2) A "labor surplus area" is a geographical area which is:

(i) Classified by the Department of Labor as an "Area of Substantial Labor Surplus" or as an "Area of Substantial and Persistent Labor Surplus" (also called "Area of Substantial and Persistent Unemployment") and listed as such by that Department in conjunction with its publication "Area Labor Market Trends"; or

(ii) Not classified as in (i) above, but which is individually certified as an area of persistent or substantial labor surplus by the Department of Labor at the request of any prospective contractor.

(3) Labor surplus area concern includes:

(i) Persistent labor surplus area concerns which agree to perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Substantial and Persistent Labor Surplus" (also called "Areas of Substantial and Persistent Unemployment"); and

(ii) Substantial labor surplus area concerns which agree to perform or cause to be performed any contracts awarded to them as labor surplus area concerns substantially in "Areas of Substantial Labor Surplus".

A concern shall be deemed to perform a contract substantially in "Areas of Substantial and Persistent Labor Surplus" (also called "Areas of Substantial and Persistent Unemployment") if the cost that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas amount to more than 50 percent of the contract price. A concern shall be deemed to perform a contract substantially in "Areas of Substantial Labor Surplus" if the costs that it incurs on account of manufacturing or production (by itself or its first-tier subcontractors) in such areas or in "Areas of Substantial or Persistent Labor Surplus" (also called "Areas of Substantial and Persistent Unemployment") amount to more than 50 percent of the contract price.

(c) *Identification of areas of performance.* Each bidder desiring to be considered for award as a small business labor surplus area concern on the set-aside portion of this procurement shall identify in his bid the geographical areas in which he proposes to perform, or cause to be performed, a substantial proportion of the production of the contract. If the Department of Labor classification of any such area changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform, provided, that he so notifies the Contracting Officer before award of the set-aside portion. Priority for negotiation will be based upon the labor surplus classification of the designated production areas as of the time of the proposed award.

(d) *Agreement.* The bidder agrees that, if awarded a contract as a small business persistent labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial portion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas; and that if awarded a contract as a small business substantial labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as substantial or persistent labor surplus areas.

Where the definition of a small business concern for a given industry, as prescribed by the Small Business Administration and promulgated within the Department of Defense differs from that set forth in the notice in this paragraph, the notice shall be appropriately modified to reflect such definition.

(d) Where it is anticipated that bids may be received which appear designed to take unfair advantage of bona fide bidders, by devices such as unrealistically low bids on mere token quantities, the notice set forth below may be used instead of that in paragraph (c) of this section.

NOTICE OF PARTIAL SMALL BUSINESS SET-ASIDE
(NOV. 1961)

(a) *General.* This procurement has been divided into two parts. All concerns, whether small business or not, may participate in accordance with customary procedures in that portion of this procurement herein called the "non-set-aside" portion. The quantities of the non-set-aside portion are set forth elsewhere in this Schedule. The other portion of the items to be procured has been set aside for participation by small business concerns. This is called the "set-aside portion" and awards therefor are made in accordance with special procedures set forth in paragraph (c) of this Notice. This apportionment is based on a determination by the Contracting Officer, alone or in conjunction with a representative of the Small Business Administration, that it is in the interest of maintaining or mobilizing the Nation's full production capacity, or in the interest of war or national defense programs, or in the interest of assuring that a fair proportion of Government procurement is placed with small business concerns. "Small business concerns" is defined in paragraph (d) of this Notice.

(b) *Non-set-aside portion and award procedure.* (1) A bidder which is not a small business concern shall submit a bid only for the non-set-aside portion of the procurement. Award thereof will be made in accordance with customary procedures.

(2) A bidder which is a small business concern and is interested in receiving an award for a quantity of an Item not exceeding the quantity set forth in the non-set-aside portion of the procurement, should submit a bid in the same manner as other concerns bidding only on the non-set-aside portion. If such a bidder is interested in receiving an award for a quantity of an Item in addition to the quantity set forth in the non-set-aside portion, he must bid the entire quantity of the non-set-aside portion of the Item; and indicate such additional quantity of the Item as he desires by so specifying on the Bidder's Statement of Set-Aside Quantity Desired. Thus, the Bidder's Statement of Set-Aside Quantity Desired is not to be used unless the bidder has bid the entire quantity of an Item under the non-set-aside portion.

However, a small business concern which receives no award, or receives an award for less than the total quantity of an Item for which it submitted a bid under the non-set-aside portion, may be eligible for an award of the quantity it bid, or the unawarded quantity thereof, under the following procedure governing the set-aside portion.

(c) *Set-aside portion and award procedure.* Award of the set-aside portion of this procurement will be made after award has been completed on the non-set-aside portion. It will be made only to small business concerns which are found to be eligible in accordance with (1) below; on the basis of priorities for award set forth in (2) below; for quantities as provided in (3) below; and at prices determined in accordance with (4) below.

(1) *Eligibility.* To be eligible for consideration for the set-aside portion of an item, the small business concern must have submitted a responsive bid on such Item in accordance with the requirements of (b)(2) above at a unit price no greater than 120 percent of the highest unit price for such Item awarded under the non-set-aside portion. However, see (5) below when separate quantities are offered at different prices, (6) below when separate quantities are offered at tie-in prices, and (7) below when all-or-none bids are offered for more than one item.

(2) *Priorities.* Negotiations for the set-aside portion will be conducted with eligible concerns in the following order of priority:

Group 1. Small business concerns which are also persistent labor surplus area concerns.

Group 2. Small business concerns which are also substantial labor surplus area concerns.

Group 3. Small business concerns which are not labor surplus area concerns.

Within each of the above groups, negotiation for each Item will be conducted with eligible concerns in the order of their bids on the non-set-aside portion, beginning with the lowest responsive bid. However, see (5) below for the method of determining the bid when separate quantities are offered at different prices, (6) below when separate quantities are offered at tie-in prices, and (7) below when all-or-none bids are offered for more than one item.

(3) *Quantity.* The quantity of the set-aside portion of an Item which may be awarded to an eligible concern shall be as follows:

(i) Where a concern has not specified a quantity of the Item on the Bidder's Statement of Set-Aside Quantity Desired, the quantity shall be no greater than the quantity of such concern's bid on the non-set-aside portion of that Item, less the quantity, if any, of that Item awarded to that concern under the non-set-aside portion.

(ii) Where a concern has specified a quantity of the Item on the Bidder's Statement of Set-Aside Quantity Desired, the quantity shall be no greater than the total of the entire non-set-aside portion of the Item and the quantity thereof specified on the Bidder's Statement of Set-Aside Quantity Desired, less the quantity, if any, of that Item awarded to that concern under the non-set-aside portion.

(4) *Price.* The set-aside portion shall be awarded at the highest unit price awarded on the non-set-aside portion, adjusted to reflect transportation and other cost factors which were considered in evaluating bids on the non-set-aside portion. However, see (6) and (7) below for the highest unit price when the highest award is made as a result of tie-in bids or all-or-none type of qualification.

(5) *Separate quantities at different prices.* Where a concern has submitted a bid for separate quantities of the non-set-aside portion of an Item at different prices, without conditioning the Government's right to accept one or more such quantities upon its concurrent acceptance of another quantity of the Item, each separate quantity shall be considered as a separate bid for the purpose of determining the eligibility of the concern with respect to the 120 percent limit prescribed in (c)(1) above, and for the purpose of determining under (c)(2) above the standing of that bid in the order of negotiations for the set-aside portion of that Item.

(6) *Separate quantities at tie-in prices.* Where a concern has submitted a bid for separate quantities of the non-set-aside portion of an Item at different prices, and has conditioned the Government's right to accept any one or more of such quantities upon its concurrent acceptance of another quantity of the Item, the weighted average of the prices for such conditioned quantities shall be considered the unit price for the purpose of determining, with respect to such conditioned quantities, (i) the eligibility of the firm with respect to the 120 percent limit of (c)(1) above, (ii) the priority status of the firm under (c)(2) above, and (iii) the highest unit price for awards under (c)(4) above if the highest award on the non-set-aside portion was made on such conditioned bid.

(7) *All-or-none bids.* Where a concern has submited an "all-or-none" bid for more than one item and thereby has conditioned the Government's right to award any item upon its concurrent award of another item, the unit prices for each Item on an "all-or-none" basis shall be considered independent unit prices for the purpose of determining the eligibility and priority status of the concern for the set-aside portion of each item. In no event will a set-aside award be made for an Item to such bidder at a higher unit price than his "all-or-none" unit price for the Item on the non-set-aside portion.

(d) *Definitions.* (1) A "small business concern" is a concern that (i) is certified as a small business concern by the Small Business Administration, or (ii) is independently owned and operated, is not dominant in its field of operation and with its affiliates, employs either not more than 500 employees or, if the concern qualifies as a labor surplus area concern, not more than 625 employees. In addition to meeting these criteria, a manufacturer or regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns; provided, that

this additional requirement does not apply in connection with construction or service contracts.

(2) The term "labor surplus area" means a geographical area which is a persistent labor surplus area or a substantial labor surplus area, or both, as defined below:

(i) "Persistent Labor Surplus Area" means an area which (A) is classified by the Department of Labor as an "Area of Substantial and Persistent Labor Surplus" (also called "Area of Substantial and Persistent Unemployment") and is listed as such by that Department in conjunction with its publication "Area Labor Market Trends," or (B) is certified as an area of substantial and persistent labor surplus by the Department of Labor pursuant to a request by a prospective contractor.

(ii) "Substantial Labor Surplus Area" means an area which (A) is classified by the Department of Labor as an "Area of Substantial Labor Surplus" (also called "Area of Substantial Unemployment") and which is listed as such by that Department in conjunction with its publication "Area Labor Market Trends," or (B) is certified as an area of substantial labor surplus by the Department of Labor pursuant to a request by a prospective contractor.

(3) The term "labor surplus area concern" includes persistent labor surplus area concerns and substantial labor surplus area concerns as defined below:

(i) "Persistent labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in persistent labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in persistent labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in such areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(ii) "Substantial labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in substantial labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in substantial labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in substantial labor surplus areas or in substantial and persistent labor surplus areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(e) *Identification of areas of performance.* Each bidder desiring to be considered for award as a small business labor surplus area concern on the set-aside portion of this procurement shall identify in his bid the geographical areas in which he proposes to perform, or cause to be performed, a substantial proportion of the production of the contract. If the Department of Labor classification of any such area changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform, provided, that he so notifies the Contracting Officer before award of the set-aside portion. Priority for negotiation will be based upon the labor surplus classification of the designated production areas as of the time of the proposed award.

(f) *Agreement.* The bidder agrees that, if awarded a contract as a small business persistent labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas; and that if awarded a contract as a small business substantial labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of performance of the contract, as substantial or persistent labor surplus areas.

(g) *Token bids.* Notwithstanding the provisions of this notice, the Government reserves the right, in determining eligibility or priority for set-aside negotiations, not to consider token bids or other devices designed to secure an unfair advantage over other bidders eligible for the set-aside portion.

(h) *Instruction for indicating portion of set-aside quantity desired.* The quantity of each item which has been set aside is set forth on the attached Bidder's Statement of Set-Aside Quantity Desired, which is to be filled in only by small business concerns, as provided in (b)(2) above. Furthermore, it is to be used by such a bidder only when (1) he has submitted a bid for the entire non-set-aside quantity of an Item, and (2) he desires a total quantity in excess of the non-set-aside quantity thereof. Whether or not a small business concern may participate in the set-aside portion is dependent on its eligibility in accordance with (c) above. It should be noted, however, that to be eligible for the set-aside portion the bidder need not have filled in the Bidder's Statement of Set-Aside Quantity Desired. The latter should only be filled in where the bidder desires a quantity in excess of the non-set-aside quantity.

BIDDER'S STATEMENT OF SET-ASIDE QUANTITY DESIRED

1	2
Item No.	Quantity set-aside
3	
Portion of set-aside quantity desired	

(The issuing office will identify by line item number the supplies being procured as to which a portion is set aside and will designate the quantity set aside for each such item. The portion of set-aside quantity desired column will be left blank for the bidder or offeror to fill in. Where the definition of a small business concern for a given industry, as prescribed by the Small Business Administration and promulgated within the Department of Defense, differs from that set forth in the notice above, the notice shall be appropriately modified to reflect such definition.)

• • • • •

5. Revise § 1.801–2 and in § 1.804–2, revise paragraphs (b) and (c), to read as follows:

§ 1.801–2 Labor surplus area.

Labor surplus area means a geographical area which at the time of award is:

(a) Classified by the Department of Labor as an "Area of Substantial Labor Surplus" or as an "Area of Substantial and Persistent Labor Surplus" (also called "Area of Substantial and Persistent Unemployment") (herein referred to as an area of persistent labor surplus) and listed as such by that Department in conjunction with its publication "Area Labor Market Trends"; or

(b) Not classified as in paragraph (a) of this section, but which is individually certified as an area of persistent or substantial labor surplus by the Department of Labor at the request of any prospective contractor.

§ 1.804–2 Set-aside procedures.

• • • • •

(b) In advertised procurements involving set-asides pursuant to this Part, each invitation for bids shall contain either substantially the following notice or the notice set forth in paragraph (b) of this section. In negotiated procurements, whichever notice is used will be appropriately modified for use with requests for proposals. The appropriate notice shall be made a part of each contract under the set-aside portion of the procurement.

NOTICE OF LABOR SURPLUS AREA SET-ASIDE (NOV. 1961)

(a) *General.* A portion of this procurement, as identified elsewhere in the Schedule, has been set-aside for award only to one or more labor surplus area concerns, and to a limited extent, to small business concerns which do not qualify as labor surplus area concerns. Negotiations for award of the set-aside portion will be conducted only with responsible labor surplus area concerns (and small business concerns to the extent indicated below) who have submitted responsive bids or proposals on the non-set-aside portion at a unit price no greater than 120 percent of the highest award made on the non-set-aside portion. Negotiations for the set-aside portion will be conducted with such bidders in the following order of priority:

Group 1. Persistent labor surplus area concerns which are also small business concerns.

Group 2. Other persistent labor surplus area concerns.

Group 3. Substantial labor surplus area concerns which are also small business concerns.

Group 4. Other substantial labor surplus area concerns.

Group 5. Small business concerns which are not labor surplus area concerns.

Within each of the above groups, negotiations with such concerns will be in the order of their bids on the non-set-aside portion, beginning with the lowest responsive bid. The set-aside portion shall be awarded at the highest unit price awarded on the non-set-aside portion, adjusted to reflect transportation and other cost factors which were considered in evaluating bids on the non-set-aside portion. However, the Government reserves the right not to consider token bids or other devices designed to secure an unfair advantage over other bidders eligible for the set-aside portion.

(b) *Definitions.* (1) The terms "labor surplus area" means a geographical area which is a persistent labor surplus area or a substantial labor surplus area, or both, as defined below:

(i) "Persistent labor surplus area" means an area which (A) is classified by the Department of Labor as an "Area of Substantial and Persistent Labor Surplus" (also called "Area of Substantial and Persistent Unemployment") and is listed as such by that Department in conjunction with its publication "Area Labor Market Trends," or (B) is certified as an area of substantial and persistent labor surplus by the Department of Labor pursuant to a request by a prospective contractor.

(ii) "Substantial labor surplus area" means an area which (A) is classified by the Department of Labor as an "Area of Substantial Labor Surplus" (also called "Area of Substantial Unemployment") and which is listed as such by that Department in conjunction with its publication "Area Labor Market Trends," or (B) is certified as an area of substantial labor surplus by the Department of Labor pursuant to a request by a prospective contractor.

(2) The term "labor surplus area concern" includes persistent labor surplus area concerns and substantial labor surplus area concerns as defined below:

(i) "Persistent labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial portion of a contract in persistent labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in persistent labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in such areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(ii) "Substantial labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in substantial labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in substantial labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in substantial and persistent labor surplus areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(3) A "small business concern" is a concern that (i) is certified as a small business concern by the Small Business Administration, or (ii) is independently owned and operated, is not dominant in its field of operation and, with its affiliates, employs either not more than 500 employees or, if the concern qualifies as a labor surplus area concern, not more than 625 employees. In addition to meeting these criteria, a manufacturer or regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns; provided, that this additional requirement does not apply in connection with construction or service contracts.

(c) *Identification of areas of performance.* Each bidder desiring to be considered for award as a labor surplus area concern on the set-aside portion of this procurement shall identify in his bid the geographical area in which he proposes to perform, or cause to be performed, a substantial proportion of the production of the contract. If the Department of Labor classification of any such area changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform, provided, that he so notifies the Contracting Officer before award of the set-aside portion. Priority for negotiation will be based upon the labor surplus classification of the designated production areas as of the time of the proposed award.

(d) *Agreement.* The bidder agrees that, if awarded a contract as a persistent labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award or at the time of performance of the contract, as persistent labor surplus areas; and that if awarded a contract as a substantial labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award or at the time of performance of the contract, as substantial or persistent labor surplus areas.

Where the definition of a small business concern for a given industry, as prescribed by the Small Business Administration and promulgated within the Department of Defense, differs from that set forth in the notice above, the notice shall be appropriately modified to reflect such definition.

(c) Where it is anticipated that bids may be received which appear designed to take unfair advantage of bona fide bidders, by devices such as unrealistically low bids or mere token quantities, the notice set forth below may be used instead of that in paragraph (b) of this section.

NOTICE OF LABOR SURPLUS AREA SET-ASIDE (NOV. 1961)

(a) *General.* This procurement has been divided into two parts. All concerns whether labor surplus area concerns or not, may participate in accordance with customary procedures in that portion of this procurement herein called the "non-set-aside" portion. The quantities of the non-set-aside portion are set forth elsewhere in this Schedule. The other portion of the items to be procured has been set aside for participation (i) by labor surplus area concerns, and (ii) to a limited extent, by small business concerns which do not qualify as labor surplus area concerns. This is called the "set-aside portion" and awards therefor are made in accordance with special procedures set forth in paragraph (c) of this notice. Definitions of the following terms are set forth in paragraph (d) of this notice:

(1) Labor Surplus Area.
(2) Labor Surplus Area Concern.
(3) Small Business Concern.

(b) *Non-set-aside portion and award procedure.* (1) A bidder which is not a labor surplus area concern or a small business concern shall submit a bid only for the non-set-aside portion of the procurement. Award thereof will be made in accordance with customary procedures.

(2) A bidder which is a labor surplus area concern or a small business concern and is interested in receiving an award for a quantity of an Item not exceeding the quantity set forth in the non-set-aside portion of procurement, should submit a bid in the same manner as other concerns bidding only on the non-set-aside portion. If such a bidder is interested in receiving an award for a quantity of an Item in addition to the quantity set forth in the non-set-aside portion, he must bid the entire quantity on the non-set-aside portion of the Item, and indicate such additional quantity of the Item as he desires by so specifying on the Bidder's Statement of Set-Aside Quantity Desired. Thus, the Bidder's Statement of Set-Aside Quantity Desired is not to be used unless the bidder has bid the entire quantity of an Item under the non-set-aside portion.

However, a labor surplus area or small business concern which receives no award, or receives an award for less than the total quantity of an Item for which it submitted a bid under the non-set-aside portion, may be eligible for an award of the quantity it bid, or the unawarded quantity thereof, under the following procedure governing the set-aside portion.

(c) *Set-aside portion and award procedure.* Award of the set-aside portion of this procurement will be made after award has been completed on the non-set-aside portion. It will be made only to labor surplus area or small business concerns which are found to be eligible in accordance with (1) below; on the basis of priorities for award set forth in (2) below; for quantities as provided in (3) below; and at prices determined in accordance with (4) below.

(1) *Eligibility.* To be eligible for consideration for the set-aside portion of an Item, the labor surplus area or small business concern must have submitted a responsive bid on such Item in accordance with the requirements of (b)(2) above at a unit price no greater than 120 percent of the highest unit price for such Item awarded under the non-set-aside portion. However, see (5) below when separate quantities are offered at different prices, (6) below when separate quantities are offered at tie-in prices, and (7) below when all-or-none bids are offered for more than one item.

(2) *Priorities.* Negotiations for the set-aside portion will be conducted with such bidders in the following order of priority:

Group 1. Persistent labor surplus area concerns which are also small business concerns.

Group 2. Other persistent labor surplus area concerns.

Group 3. Substantial labor surplus area concerns which are also small business concerns.

Group 4. Other substantial labor surplus area concerns.

Group 5. Small business concerns which are not labor surplus area concerns.

Within each of the above groups, negotiations for each Item will be conducted with eligible concerns in the order of their bids on the non-set-aside portion, beginning with the lowest responsive bids. However, see (5) below for the method of determining the bid when separate quantities are offered at different prices and see (6) below when separate quantities are offered at tie-in prices.

(3) *Quantity.* The quantity of the set-aside portion of an item which may be awarded to an eligible concern shall be as follows:

(i) Where a concern has not specified a quantity of the Item on the Bidder's Statement of Set-Aside Quantity Desired, the quantity shall be no greater than the quantity of such concern's bid on the non-set-aside portion of that Item, less the quantity, if any, of that Item awarded to that concern under the non-set-aside portion.

(ii) Where a concern has specified a quantity of the Item on the Bidder's Statement of Set-Aside Quantity Desired, the quantity shall be no greater than the total of the entire non-set-aside portion of the Item and the quantity thereof specified on the Bidder's Statement of Set-Aside Quantity Desired, less the quantity, if any, of that Item awarded to that concern under the non-set-aside portion.

(4) *Price.* The set-aside portion shall be awarded at the highest unit price awarded on the non-set-aside portion, adjusted to reflect transportation and other cost factors which were considered in evaluating bids on the non-set-aside portion. However, see (6) and (7) below for the highest unit price when the highest award is made as a result of tie-in bids or all-or-none type of qualification.

(5) *Separate quantities at different prices.* Where a concern has submitted a bid for separate quantities of the non-set-aside portion of an Item at different prices, without conditioning the Government's right to accept one or more such quantities upon its concurrent acceptance of another quantity of the Item each separate quantity shall be considered as a separate bid for the purpose of determining the eligibility of the concern with respect to the 120 percent limit prescribed in (c)(1) above, and for the purpose of determining under (c)(2) above the standing of that bid in the order of negotiations for the set-aside portion of that Item.

(6) *Separate quantities at tie-in prices.* Where a concern has submitted a bid for separate quantities of the non-set-aside portion of an Item at different prices, and has conditioned the Government's right to accept any one or more of such quantities upon its concurrent acceptance of another quantity of the Item, the weighted average of the prices for such conditioned quantities shall be considered the unit price for the purpose of determining, with respect to such conditioned quantities, (1) the eligibility of the firm with respect to the 120 percent limit of

(c) (1) above, (ii) the priority status of the firm under (c) (2) above, and (iii) the highest unit price for awards under (c) (4) above if the highest award on the non-set-aside portion was made on such conditioned bid.

(7) ***All-or-None bids.*** Where a concern has submitted an "all-or-none" bid for more than one Item and thereby has conditioned the Government's right to award any Item upon its concurrent award of another Item, the unit prices bid for each Item on an "all-or-none" basis shall be considered independent unit prices for the purpose of determining the eligibility and priority status of the concern for the set-aside portion of each Item. In no event will a set-aside award be made for an Item to such bidder at a higher unit price than his "all-or-none" unit price bid for the Item on the non-set-aside portion.

(d) ***Definitions.*** (1) The term "labor surplus area" means a geographical area which is a persistent labor surplus area or a substantial labor surplus area, or both, as defined below:

(i) "Persistent Labor Surplus Area" means an area which (A) is classified by the Department of Labor as an "Area of Substantial and Persistent Labor Surplus" (also called "Area of Substantial and Persistent Unemployment") and is listed as such by that Department in conjunction with its publication "Area Labor Market Trends," or (B) is certified as an area of substantial and persistent labor surplus by the Department of Labor pursuant to a request by a prospective contractor.

(ii) "Substantial Labor Surplus Area" means an Area which (A) is classified by the Department of Labor as an "Area of Substantial Labor Surplus" (also called "Area of Substantial Unemployment") and which is listed as such by that Department in conjunction with its publication "Area Labor Market Trends," or (B) is certified as an area of substantial labor surplus by the Department of Labor pursuant to a request by a prospective contractor.

(2) The term "labor surplus area concern" includes persistent labor surplus area concerns and substantial labor surplus area concerns as defined below:

(i) "Persistent labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in persistent labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in persistent labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in such areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(ii) "Substantial labor surplus area concern" means a concern that agrees to perform, or cause to be performed, a substantial proportion of a contract in substantial labor surplus areas. A concern shall be deemed to perform a substantial proportion of a contract in substantial labor surplus areas if the costs that the concern will incur on account of manufacturing or production performed in substantial labor surplus areas or in substantial and persistent labor surplus areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the contract price.

(3) A "small business concern" is a concern that (i) is certified as a small business concern by the Small Business Administration, or (ii) is independently owned and operated, is not dominant in its field of operation and, with its affiliates, employees either not more than 500 employees or, if the concern qualifies as a labor surplus area concern, not more than 625 employees. In addition to meeting these criteria, a manufacturer or regular dealer submitting bids or proposals in his own name must agree to furnish in the performance of the contract end items manufactured or produced in the United States, its possessions, or Puerto Rico, by small business concerns; provided, that this additional requirement does not apply in connection with construction or service contracts.

(e) *Identification of areas of performance.* Each bidder desiring to be considered for award as a labor surplus area concern on the set-aside portion of this procurement shall identify in his bid the geographical areas in which he proposes to perform, or cause to be performed, a substantial proportion of the production of the contract. If the Department of Labor classification of any such area changes after the bidder has submitted his bid, the bidder may change the areas in which he proposes to perform, provided, that he so notifies the Contracting Officer before award of the set-aside portion. Priority for negotiation will be based upon the labor surplus classification of the designated production areas as of the time of the proposed award.

(f) *Agreement.* The bidder agrees that, if awarded a contract as a persistent labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as persistent labor surplus areas; and that if awarded a contract as a substantial labor surplus area concern under the set-aside portion of this procurement, he will perform, or cause to be performed, a substantial proportion of the production in areas classified at the time of award, or at the time of performance of the contract, as substantial or persistent labor surplus areas.

(g) *Token bids.* Notwithstanding the provisions of this Notice, the Government reserves the right, in determining eligibility or priority for set-aside negotiations, not to consider token bids or other devices designed to secure an unfair advantage over other bidders eligible for the set-aside portion.

(h) *Instruction for indicating portion of set-aside quantity desired.* The quantity of each Item which has been set-aside is set forth on the attached Bidder's Statement of Set-Aside Quantity Desired, which is to be filled in only by labor surplus area concerns and small business concerns, as provided in (b) (2) above. Furthermore, it is to be used by such a bidder only when (1) he has submitted a bid for the entire non-set-aside quantity of an Item, and (2) he desires a total quantity in excess of the non-set-aside quantity thereof. Whether or not a labor surplus concern or small business concern may participate in the set-aside portion is dependent on its eligibility in accordance with (c) above. It should be noted, however, that to be eligible for the set-aside portion the bidder need not have filled in the Bidder's Statement of Set-Aside Quantity Desired. The latter should only be filled in where the bidder desires a quantity in excess of the non-set-aside quantity.

BIDDER'S STATEMENT OF SET-ASIDE QUANTITY DESIRED

1	2	3
Item No.	Set-aside quantity	Portion of set-aside quantity desired

(The issuing office will identify by line item the supplies being procured as to which a portion is set aside and will designate the quantity set aside for each such Item. The quantity desired column will be left blank for the bidder or offeror to fill in.)

6. Section 1.1003–3 is revised and in § 1.1003–9, paragraphs (e) and (f) are revised, to read as follows:

§ 1.1003–3 Synopses of subcontract opportunities.

(a) *By contracting officers.* In order to broaden the opportunity in negotiated procurement for subcontracting by small business concerns and others, contracting officers shall, unless not in the Government's interest or subcontracting opportunities do not exist, publish in the Department of Commerce Synopsis the names and addresses of firms to whom requests for proposals are to be issued. This procedure will offer opportunity to small business concerns and others interested in subcontracting to make direct contact with prospective prime contractors at an early stage in the procurement. An addition to the regular synopsis prepared in accordance with § 1.1003–9 shall be made as set forth in § 1.1003–9(f).

(b) *By prime contractors and subcontractors.* Prime contractors and subcontractors should be encouraged to use the Department of Commerce Synopsis to publicize opportunities in the field of subcontracting stemming from their defense business. Prime contractors and their subcontractors will be advised to mail subcontract information directly to the U.S. Department of Commerce, Room 1300, 433 West Van Buren Street, Chicago 7, Ill., under the heading "Subcontracting Assistance Wanted" and in the form of the following example:

XYZ Co., Attn. John Z. Smith, Tele. Mr. Randolph 6–1111, 102 First Avenue, Chicago 7, Ill., seeks Subcontractor on items to be used in connection with Contract No. ------ awarded 5–1–60. Coils, Induction, Dwg. No. 10–742 ------ 10,000 ea.

(Name, description, and quantity of other items or services may be included as long as contract assistance is desired under the same contract number)—If interested, make inquiry before 5–16–60 to above Contractor.

§ 1.1003–9 Preparation and transmittal.

• • • • •

(e) Certain procurements involve demands on the contractor which may make it virtually impossible for concerns not having special capabilities or qualifications to compete realistically for the contract. So as to alert such concerns to the need for special capabilities or qualifications and thus permit them to avoid improvident expenditures for bid preparation and the like, procurements for which (1) it is impracticable to distribute plans, drawings or specifications, (2) adequate plans, drawings or specifications to describe requirements are not available, (3) security clearance is required, or (4) other circumstances exist which should be brought to the attention of prospective sources for consideration in order to clearly indicate those qualifying factors affecting the procurement, should be so identified in the synopsis. Appropriate notations for inclusion in the synopsis, such as set forth below, should be devised to meet the needs of specific situations.

(i) Availability of specifications, plans or drawings.

It will be impracticable to distribute the applicable

(Insert "specifications," "plans," "drawings" or other appropriate words)

with the solicitation. This data may be examined or obtained at ----------

(Be specific)

(ii) Complete data not available.

Available specifications, plans, or drawings, relating to the procurement described below do not fully provide all necessary manufacturing and construction details.

(iii) Security requirements.

Security clearance will be required of successful bidder or offeror.

(iv) Availability of background research report.

This procurement of basic research is a continuation of an effort conducted for the past ---------- A research report con-

(Insert period)

taining findings to date is not available to the Government.

(v) Production requirements.

The production of the supplies listed requires a substantial initial investment or an extended period of preparation for manufacture.

(f) Where the contracting officer determines in accordance with § 1.1003–3(a) that the names of firms to whom requests for proposals have been issued should be included in the synopsis, such synopsis shall contain substantially the following statement:

Requests for Proposals have been issued to the following firms:

---------- ----------

(Name of firm) (Address)

It is suggested that small business firms or others interested in subcontracting opportunities in connection with this procurement make direct contact with the above firms.

• • • • •

7. Revise § 1.1206 and add new §§ 1.1206–1, 1.1206–2, 1.1206–3, 1.1206–4, and 1.1206–5, to read as follows:

§ 1.1206 Purchase descriptions.

§ 1.1206–1 General.

(a) A purchase description may be used in lieu of a specification when authorized by § 1.1202(b) and, subject to the restriction on repetitive use in § 1.1202(b)(7), where no applicable specification exists. A purchase description should set forth the essential characteristics and functions of the items or materials required. Purchase descriptions shall not be written so as to specify a product, or a particular feature of a product, peculiar to one manufacturer and thereby preclude consideration of a product manufactured by another company, unless it is determined that the particular feature is essential to the Government's requirements, and that similar products of other companies lacking the particular feature would not meet the minimum requirements for the item. Generally, the minimum acceptable purchase description is the identification of a requirement by use of brand name followed by the words "or equal." This technique should be used only as a last resort when an adequate specification or more detailed description cannot feasibly be made available in time for the procurement under consideration. Purchase descriptions of services to be procured should outline to the greatest degree practicable the specific services the contractor is expected to perform.

(b) The words "or equal" should not be added when it has been determined in accordance with paragraph (a) of this section that only a particular product meets the essential requirements of the Government, as, for example, (1) where the required supplies can be obtained only from one source; (2) procurements negotiated under § 3.207 of this chapter for specified medicines or medical supplies where it has been determined that only a particular brand name will meet the essential requirements of the Government; or (3) procurements negotiated under § 3.208 of this chapter for supplies for resale where it has been determined by a selling activity that only a particular brand name will meet the desires or preferences of its patrons.

§ 1.1206–2 Brand name or equal purchase description.

(a) Purchase descriptions which contain references to one or more brand name products followed by the words "or equal" may be used only when authorized by § 1.1202(b) and in accordance with §§ 1.1206–3 and 1.1206–4. The term "brand name product" means a commercial product described by brand name and make or model number or other appropriate nomenclature by which such product is offered for sale to the public by the particular manufacturer, producer, or distributor. Where feasible, all known acceptable brand name products should be referenced. Where a "brand name or equal" purchase description is used, prospective contractors must be given the opportunity to offer products other than those specifically referenced by brand name if such other products will meet the needs of the Government in essentially the same manner as those referenced.

(b) "Brand name or equal" purchase descriptions should set forth those salient physical, functional, or other characteristics of the referenced products which are essential to the needs of the Government. For example, where interchangeability of parts is required, such requirements should be specified. Purchase descriptions should contain the following information to the extent available, and include such other information as is necessary to describe the item required.

(1) Complete common generic identification of the item required;

(2) Applicable model, make, or catalog number for each brand name product referenced, and identity of the commercial catalog in which it appears; and

(3) Name of manufacturer, producer, or distributor of each brand name product referenced (and address if company is not well known).

(c) When necessary to describe adequately the item required, an applicable commercial catalog description, or pertinent extracts therefrom, may be used if such description is identified in the invitation for bids or request for proposals as being that of the particular named manufacturer, producer, or distributor. The contracting officer will insure that a copy of any catalogs referenced (except parts catalogs) is available on request for review by bidders at the purchasing office.

§ 1.1206–3 Invitation for bids—"Brand Name or Equal" Purchase Descriptions.

(a) Except as provided in paragraph (c) of this section, when a "brand name or equal" purchase description is included in an invitation for bids, the following shall be inserted after each item so described in the invitation, for completion by the bidder:

Bidding on:
Manufacturer's name ----------
Brand ---------- No. ------

(b) In addition, the following clause shall be included in the invitation:

BRAND NAME OR EQUAL (NOV. 1961)

(As used in this clause, the term "brand name" includes identification of products by make and model.)

(a) If items called for by this Invitation for Bids have been identified in the Schedule by a "brand name or equal" description, such identification is intended to be descriptive, but not restrictive, and is to indicate the quality and characteristics of products that will be satisfactory. Bids offering "equal" products will be considered for award if such products are clearly identified in the bids and are determined by the Government to be equal in all material respects to the brand name products referenced in the Invitation for Bids.

(b) Unless the bidder clearly indicates in his bid that he is offering an "equal" product, his bid shall be considered as offering a brand name product referenced in the Invitation for Bids.

(c) (1) If the bidder proposes to furnish an "equal" product, the brand name, if any, of the product to be furnished shall be inserted in the space provided in the Invitation for Bids, or such product shall be otherwise clearly identified in the bid. The evaluation of bids and the determination as to equality of the product offered shall be the responsibility of the Government and will be based on information furnished by the bidder or identified in his bid, as well as other information reasonably available to the purchasing activity. CAUTION TO BIDDERS. The purchasing activity is not responsible for locating or securing any information which is not identified in the bid and reasonably available to the purchasing activity. Accordingly, to insure that sufficient information is available, the bidder must furnish as a part of his bid all descriptive material (such as cuts, illustrations, drawings, or other information) necessary for the purchasing activity to (i) determine whether the product offered meets the requirements of the Invitation for Bids and (ii) establish exactly what the bidder proposes to furnish and what the Government would be binding itself to purchase by making an award. The information furnished may include specific references to information previously furnished or to information otherwise available to the purchasing activity.

(2) If the bidder proposes to modify a product so as to make it conform to the requirements of the Invitation for Bids, he shall (i) include in his bid a clear description of such proposed modifications and (ii) clearly mark any descriptive material to show the proposed modifications.

(3) Modifications proposed after bid opening to make a product conform to a brand name product referenced in the Invitation for Bids will not be considered.

(c) (1) Where component parts of an end item are described in the invitation for bids by a "brand name or equal" purchase description and the contracting officer determines that application

of the clause in paragraph (b) of this section to such component parts would be impracticable, the requirements of paragraph (a) of this section shall not apply with respect to such component parts. In such cases, if the clause is included in the Invitation for Bids for other reasons, a statement substantially as follows also shall be included:

The clause entitled "Brand Name or Equal" does not apply to the following component parts:
(List the component parts as to which the clause does not apply.)

(2) In the alternative, if the contracting officer determines that the clause in paragraph (b) of this section should apply to only certain such component parts, the requirements of paragraph (a) of this section shall apply to such component parts and a statement substantially as follows also shall be included:

The clause entitled "Brand Name or Equal" applies to the following component parts:
(List the component parts to which the clause applies.)

(d) When an invitation for bids contains "brand name or equal" purchase descriptions, bidders who offer brand name products referenced in such descriptions shall not be required to furnish bid samples of the referenced brand name products; however, invitations for bids may require the submission of bid samples in the case of bidders offering "or equal" products.

§ 1.1206–4 Bid evaluation and award—"brand name or equal" purchase descriptions.

(a) Bids offering products which differ from brand name products referenced in a "brand name or equal" purchase description shall be considered for award where the contracting officer determines in accordance with the terms of the clause in § 1.1206–3(b) that the offered products are equal in all material respects to the products referenced. Bids shall not be rejected because of minor differences in design, construction, or features which do not affect the suitability of the products for their intended use.

(b) Award documents shall identify, or incorporate by reference an identification of the specific products which the contractor is to furnish. Such identification shall include any brand name and make or model number, descriptive material, and any modifications of brand name products specified in the bid. Included in this requirement are those instances where (1) the description of the end item contains "brand name or equal" purchase descriptions of component parts or of accessories related to the end item and (2) the clause in § 1.1206–3(b) was applicable to such component parts or accessories (see § 1.1206–3(c)).

§ 1.1206–5 Procedure for negotiated procurements.

(a) The policies and procedures prescribed in §§ 1.1206–2 through 1.1206–4 for formally advertised procurements shall be generally applicable to negotiated procurements.

(b) The clause in § 1.1206–3(b) may be adapted for use in negotiated procurements. If use of the clause is not practicable (as may be the case in exigency purchases), suppliers shall be suitably informed that proposals offering products different from the products referenced by brand name will be considered if the contracting officer determines that such offered products are equal in all significant and material respects to the products referenced.

PART 2—PROCUREMENT BY FORMAL ADVERTISING

8. In § 2.201, add subparagraph (26) to paragraph (a), and in § 2.407–3, revise paragraph (b), to read as follows:

§ 2.201 Preparation of invitation for bids.

• • • • •

(a) • • •

(26) A provision covering the required source for jeweled bearings (see § 1.315 of this chapter).

• • • • •

§ 2.407–3 Discounts.

• • • • •

(b) In determining which of several bids received is the lowest, any discount offered shall be deducted from the bid price on the assumption that the discount will be taken, unless discount offered is for a lesser period than the minimum number of days specified in the invitation for bids (see paragraph (a) of this section). In evaluating equal bids offering discounts meeting the minimum discount period required by the invitation, a bid offering a longer discount period shall not be considered as being more advantageous to the Government. If a bid offers a prompt payment discount, but fails to specify the period in which the discount may be taken, the discount may be considered since award to the bidder gives the Government the right to deduct the discount from any payments made with reasonable promptness.

PART 3—PROCUREMENT BY NEGOTIATION

9. Add paragraph (c) to § 3.102, and revise § 3.210–3, to read as follows:

§ 3.102 General requirements for negotiation.

• • • • •

(c) Negotiated procurements shall be on a competitive basis to the maximum practical extent. Where a proposed procurement appears to be necessarily noncompetitive, the purchasing activity is responsible not only for assuring that competitive procurement is not feasible, but also for acting whenever possible to avoid the need for subsequent noncompetitive procurements. This action should include both examination of the reasons for the procurement being noncompetitive and steps to foster competitive conditions for subsequent procurements, particularly as to the availability of complete and accurate data, reasonableness of delivery requirements (§ 1.305–2(a) of this chapter), and possible breakout of components for competitive procurement. Except for procurement of electric power or energy, gas (natural or manufactured), water, or other utility services, contracts in excess of $10,000 shall not be negotiated on a noncompetitive basis without prior review at a level higher than the contracting officer to assure compliance with this subparagraph.

§ 3.210–3 Limitation.

The authority of §§ 3.210 through 3.210–3 shall not be used when negotiation is authorized by any other authority set forth in §§ 3.201 through 3.217, except that this authority shall be used in preference to § 3.212. The authority contained in § 3.210–2 (m) and (o) shall not be used in procurements in excess of $10,000 unless its use is approved in advance at a level higher than the contracting officer. Every contract that is negotiated under the authority of §§ 3.210 through 3.210–3 shall be accompanied by a determination and finding justifying its use, signed by the contracting officer and prepared in accordance with the requirements of Subpart C of this part.

10. Add new Subpart E to Part 3, to read as follows:

Subpart E—Solicitations of Proposals and Quotations

§ 3.500 Scope of subpart.

This subpart applies only to negotiated procurements in excess of $2,500 (see Subpart F of this part for small purchases).

§ 3.501 Preparation of request for proposals or request for quotations.

(a) Forms used for requesting proposals or quotations on negotiated procurements shall be as required by Part 16 of this chapter, or if not required by such Section, as prescribed by Departmental regulations.

(b) When written proposals or quotations for contemplated negotiated procurements for supplies or services, including research and development, and construction, are solicited, the request for proposals or the request for quotations normally should contain the following information if applicable to the procurement involved:

(1) Request for proposals or request for quotations number;

(2) Name and address of issuing activity, channels for submission of offer, and identification of the Government office or individual responsible for supplying additional information and answering inquiries.

(3) Date of issuance;

(4) Closing date;

(5) Number of pages and list of enclosures;

(6) Requisition or other purchase authority and appropriation and accounting data, if considered appropriate by the purchasing activity;

(7) A description (complying with Subpart L, Part 1 of this chapter) of the supplies or services to be furnished;

(8) Type of contract contemplated, together with type of repricing;

(9) The time of delivery or performance (see § 1.305 of this chapter);

(10) Requirements for performance and payment bonds;

(11) A list of any Government-furnished property, including Government-owned tooling, which will be furnished for the performance of the contract, and any special provisions relating thereto;

(12) A requirement that information be furnished with respect to any Government-owned facilities, industrial equipment, or special tooling intended to be used in the performance of the contract, the value thereof, identification of the Government contract under which acquired, rental provisions, and other relevant information;

(13) A requirement for stipulation of a time within which the Government may accept the proposal;

(14) Consistent with § 3.805–1(a)(5), notice to all offerors of the possibility that award may be made without discussion of proposals (in the case of construction contracts, see § 4.103–1 of this chapter);

(15) Special provisions necessary for the particular procurement, relating to such matters as progress payments (see Defense Contract Financing Regulations, § 163.73 of this chapter), patent licenses, liquidated damages, Buy American Act (see §§ 6.104–3 and 6.204–4 of this chapter);

(16) Any applicable wage determination of the Secretary of Labor (for construction contracts, see Subpart D, Part 12 of this chapter);

(17) Identification of special factors, such as Government costs or other expenditures, which must be considered in the evaluation of proposals or quotations;

(18) Factors other than price which will be given paramount consideration in the awarding of the contract;

(19) Information as to requirements for Certificate of Current Pricing Data (see § 3.807–3);

(20) Adequate statement of information required to enable evaluation of technical and financial capabilities, and a statement covering special technical capabilities which the offeror must possess;

(21) Instructions regarding the marking of information which is not to be disclosed to the public or used by the Government for any purpose other than the evaluation of the proposals (see § 3.109);

(22) Directions for obtaining copies of any documents, such as plans, drawings, and specifications, which have been incorporated by reference (see § 1.1203 of this chapter);

(23) A provision for late proposals or quotations substantially as set forth in § 3.804–2;

(24) Discount provisions (see § 2.407–3 of this chapter);

(25) Provisions for quantity variations;

(26) A requirement that the proposal state the intended place of performance, including the street address, and the names and addresses of owner and operator of producing facilities, if other than offeror, when it is reasonably anticipated that such facilities will be used in the performance of the contract;

(27) Place and method of delivery (see Subpart M, Part 1 of this chapter);

(28) Preservation, packaging, packing, and marking requirements;

(29) Place, method, and condition of inspection;

(30) A clear statement of option provisions (see Subpart O, Part 1 of this chapter);

(31) Any applicable requirements for samples or descriptive literature;

(32) Instructions with respect to disposition of drawings and specifications supplied with the request for proposals or request for quotations;

(33) Description of information required to support proposed prices (subcontract, structure, make-or-buy program, purchasing system, royalty, and cost and price information);

(34) A statement of disaster area, labor surplus area, or small business setasides;

(35) Required representations regarding small business status;

(36) Statutory cost limitations (for construction, see § 4.101–4 of this chapter);

(37) For construction, provisions for performance of work by contractor, see §§ 4.104–2 and 2.201(c)(2) of this chapter; and

(38) Estimated value of construction, see § 4.101–3 of this chapter.

11. Revise second sentence in § 3.805–1 (b) and add new § 3.813, to read as follows:

§ 3.805–1 General.

• • • • •

(b) • • • After receipt of proposals, no information regarding the number or identity of the offerors participating in the negotiations shall be made available to the public or to any one whose official duties do not require such knowledge. • • •

§ 3.813 Preproduction and startup costs.

(a) Estimates of preproduction and startup costs include such costs as preproduction engineering, special tooling, special plant rearrangement, training programs, and such nonrecurring costs as initial rework, initial spoilage, and pilot runs.

(b) Since an offeror may propose a price which does not include all preproduction and startup costs for the purpose of obtaining the first production contract and of gaining an advantage over competitors in negotiations for future procurements, it is important to know whether the offeror intends to absorb any portion of these costs or whether he plans to recover them in connection with subsequent pricing actions under the proposed or future contracts. This information is needed in evaluating competing proposals to determine which proposal is most likely to result in the lowest overall cost to the Government, particularly where the successful offeror is likely to become, in effect, a sole source for follow on procurements (including spare parts or other support items).

(c) Where it is anticipated that preproduction and startup costs will be a significant factor in the evaluation of proposals for the procurement of an item, the request for proposals shall require the offeror to provide the following information:

(1) An estimate of the total preproduction and startup costs;

(2) The extent to which these costs are included in the proposed price; and

(3) The intent to absorb, or plan for recovery of, any remaining costs. When entering into a contract with an offeror who has indicated that he intends to absorb any portion of these costs, the contract shall expressly provide that such portion will not be charged to the Government in any future procurement.

12. Divide present § 3.902 into two sections, §§ 3.902 and 3.902–1, the material thereunder to remain unchanged, and add new § 3.902–2, as follows:

§ 3.902 "Make-or-buy" program.

§ 3.902–1 General.

• • • • •

§ 3.902–2 Price adjustments.

(a) There may be cases where it is proper to agree that an item of significant value will be "bought" even though it would usually be more economical to have it "made", or vice versa. For instance, the contractor may have a unique capability for low-cost manufacture of a substantial component but his capacity may already be full during the period necessary for contract performance, so the component must be subcontracted. Therefore, the agreed "make-or-buy" program may specifically call for what would usually be the costly treatment of the item and the consequent higher costs may be explicitly recognized in establishing the best obtainable contract price. Unforeseen changes in the circumstances, however, may arise during contract performance and may induce the contractor to propose changing the item from "buy" to "make" (or vice versa). If such a change is made the element of the contract price which was intended to compensate the contractor for the higher costs flowing from the initial make-or-buy decision will instead constitute windfall profits to the contractor and unwarranted costs to the Government.

(b) In procurements where the prospective contractor's "make-or-buy" program is reviewed pursuant to § 3.902–1, if a situation of the kind described in paragraph (a) of this section obtains, the clause set forth below shall be included in the contract (unless it is a cost-reimbursement type contract) and any "make-or-buy" items of the kind described in paragraph (a) of this section shall be specifically designated in the Schedule (or elsewhere in the contract) both as being either a "make" item or a "buy" item and as being subject to this clause.

PRICE ADJUSTMENT FOR MAKE-OR-BUY CHANGES (NOV. 1961)

This clause applies only to items that are designated elsewhere in this contract as being "make" items or "buy" items subject to this clause. If the Contractor desires to

"make" any designated "buy" item, he will give written notice to the Contracting Officer of the proposed change reasonably in advance and will include significant and reasonably available cost and pricing data in sufficient detail to permit evaluation of the proposed change. Promptly thereafter, if the Contractor proceeds with the change, the Contractor and the Contracting Officer will negotiate an equitable reduction in the contract price to reflect any decrease in costs which should reasonably result from the change, and the contract will be modified in writing accordingly. Failure to agree on an equitable reduction shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

13. In § 3.903–1, as to the clause in paragraph (a) revise clause heading and clause paragraph (c)(iii); revise paragraph (d); and in § 3.903–3, add new paragraph (f), as follows:

§ 3.903–1 Contract clauses.

(a) • • •

SUBCONTRACTS (NOV. 1961)

• • • • • •

(c) The advance notification required by paragraph (b) above shall include:

• • • • •

(iii) The proposed subcontract price, together with the Contractor's cost or price analysis thereof, including current, complete, and correct cost or pricing data accompanied, except when the requirement is specifically waived by the Contracting Officer, by a certificate from the subcontractor to the effect that all cost or pricing data has been considered by the subcontractor in preparing his proposal and that such data is current, and has been provided the Contractor; and

• • • • •

(d) The requirement for the certificate prescribed by paragraph (c)(iii) of the clause in paragraph (a) of this section may be waived in the discretion of the contracting officer if he is satisfied that the price has been based on effective competition, established catalog or market prices, or prices set by law or regulation. When required, the certificate shall be in the form set forth in § 3.807–7, appropriately modified to reflect that it is a certificate to a prime contractor, rather than to the Government.

§ 3.903–3 Approval of purchasing system.

• • • • •

(f) In reviewing the contractor's purchasing system, particular attention should be paid to whether subcontracting is done competitively to the extent practical. This involves not only the question whether a sufficient number of sources is solicited, but also whether the contractor's subcontracting procedures provide all other elements of free and open competition. For example, contractors should be urged to notify unsuccessful bidders of awards of subcontracts on which they bid and of the names of the successful bidders.

PART 4—SPECIAL TYPES AND METHODS OF PROCUREMENT

14. Add new § 4.107 to read as follows:

§ 4.107 Expediting, construction contracts.

No expediting action involving additional costs under a construction contract shall be taken without the prior approval of the Assistant Secretary of Defense (Installations and Logistics), pursuant to Public Law 87–302 or any substantially identical law. For the purposes of requesting such approval, expediting action shall be construed to include only an action which advances a completion date established in the contract.

PART 5—INTERDEPARTMENTAL AND COORDINATED PROCUREMENT

15. Revise §§ 5.1100–1 and 5.1100–2 to read as follows:

§ 5.1100–1 Coordinated procurement.

Coordinated procurement refers to procurement (a) of supplies under single procurement as defined in § 5.1100–2, and (b) of supplies and services pursuant to procurement agreements (see § 5.1118).

§ 5.1100–2 Single procurement.

Single procurement refers to procurement of supplies pursuant to assignments of procurement responsibility made by the Secretary of Defense. The following are approved types of single procurement:

(a) Single department procurement whereby one Military Department procures certain supplies to satisfy the requirements of all the Military Departments (including the procurement responsibility of Single Managers); and

(b) Plant cognizance procurement whereby one Military Department procures certain supplies from a particular plant to satisfy the requirements of all Military Departments, which is presently limited to airframes, aircraft engines and propellers.

16. Revise the introductory portion of § 5.1102–1; revise § 5.1102–2; and revoke § 5.1102–3, as follows:

§ 5.1102–1 Single department procurement.

The procuring department is generally responsible for the following under single department procurement:

• • • • •

§ 5.1102–2 Plant cognizance procurement.

(a) The procuring department assigned responsibility for plant cognizance procurement is responsible for the following functions related to procurement and mobilization planning for airframes, aircraft engines, and propellers produced in the plants assigned:

(1) Procurement responsibility:

(i) Purchasing all items produced in the plant, except:

(*a*) Research and development projects;

(*b*) Items or services which the Requiring Department and the Procuring Department agree may be purchased direct from the manufacturer by the Requiring Department;

(c) Overhaul contracts; and

(*d*) Industry preparedness measures covering items for which an allocation of manufacturing capability has been made under the DOD Industrial Readiness Planning Program, or such other industry preparedness measures as the procuring department may indicate or determine to be appropriate.

(ii) Contract administration of all contracts for items procured in accordance with subdivision (i) of this subparagraph;

(iii) Arrangement for inspection:

(*a*) Items produced in the plant which are procured in accordance with subdivision (i) of this subparagraph; but

(*b*) In cases where items are procured by other than the procuring department, the requiring department will perform the inspection services required or arrange with the procuring department for inspection of such items.

(iv) Arrangement for shipment of all items for which it has inspection responsibility;

(v) Auditing and cost accounting services for all items produced in the plant; and

(vi) Coordination of production capacity:

(*a*) By notifying other departments that production is reaching a saturation point or that excess production capacity is available; and

(*b*) By coordinating expansion of production capacity.

(2) Mobilization planning responsibility:

(i) Coordination of all phases of mobilization planning with the assigned plant by any branch of the Armed Services; and

(ii) Assignment of Armed Services Procurement Planning Officer (ASPPO) responsibility to an appropriate office within the Procuring Department for the conduct of the DOD Industrial Readiness Planning Program and preparation of a Request for Planning Action (DD Form 403). (The Remarks block of this form will contain an explanation that the plant has been assigned under the DOD Plant Cognizance Program and that Industrial Readiness Planning Program records should be corrected accordingly. This pertains to changes of ASPPO assignments within or between Procuring Departments. Changes of mobilization planning responsibility between Departments will be accomplished as part of changes in overall DOD plant cognizance.)

(b) The Requiring Department, in dealing through the Procuring Departments, is responsible for:

(1) Providing funds necessary to effect the purchase of required items and stating limitations on use of such funds;

(2) Stipulating quantity, quality, delivery requirements, and shipping instructions;

(3) Taking delivery of all items as specified in the contract delivery schedule;

(4) Keeping the procuring department advised of direct dealings with the plant on procurement of exempted items; and

(5) Keeping the procuring department advised of planned or contemplated procurements of items produced in the plant.

(c) Specific plant assignments are set forth in § 5.1203.

§ 5.1102–3 Plant cognizance procurement. [Revoked]

17. Revise § 5.1103–1; revise the opening portion of § 5.1103–3; and revise § 5.1103–6, to read as follows:

§ 5.1103–1 Standard format-development and promulgation of implementing procedures.

Implementation of commodity procurement assignments shall be in accordance with Attachment 2 of Enclosure (1) of Department of Defense Instruction 4115.1, dated April 12, 1961, Subject: Department of Defense Coordinated Procurement Programs—Commodity Assignments. Assignments of Department of Defense Plant Cognizance shall be carried out in accordance with Department of Defense approved Implementing Procedures, dated March 21, 1952.

§ 5.1103–3 Small dollar value purchases.

Requirements of small dollar value will be procured in accordance with the provisions of the approved implementing procedures covering the particular assignment. Such implementing procedures will normally provide a small dollar limitation of $2,500; however, in special situations the limit may vary depending upon the commodity area and may be expressed either in a higher or lower dollar value, by tonnage, less-than-carload lot quantities, or other units, as appropriate.

• • • • •

§ 5.1103–6 Purchase of decentralized items.

For items which have been decentralized by requiring departments, the procuring department will establish, in collaboration with the requiring departments, an economical central buying point. The economical central buy point will be $2,500 or higher as determined by the inventory control point of the procuring department. When requiring departments intend to procure decentralized items in amounts exceeding the economical central buy point, such procurement will be accomplished by the procuring department.

18. Revise Subpart L, Part 5, to read as follows:

Subpart L—Commodity Assignments

§ 5.1201 Commodity assignments to military departments.

The commodity assignments set forth in §§ 5.1201–1 through 5.1201–4 have been made by the Assistant Secretary of Defense (Installations and Logistics) to the military departments based upon studies made by the Armed Forces Supply Support Center. General exclusions are:

(a) Emergency procurements;

(b) Procurements not in excess of $2,500;

(c) Authorized local purchase items in amounts not exceeding the economical central buy point;

(d) Research and development items;

(e) Items which require continuous redesign or modification during the production phase; and

(f) Items excluded from coordinated procurement in accordance with classification action under the DOD item management coding criteria.

Specific exclusions are set forth in the lists.

§ 5.1201–1 Department of the Army.

Federal supply class code	Commodity	Content
	ANTI-FREEZE	
6850P	Miscellaneous chemical specialties	Includes: Anti-freeze compounds which contain ethylene glycol, only.
	BATTERIES, DRY CELL	
6135P	Batteries, primary	Includes: JAN Type, dry cell batteries, only.
	MILITARY CHEMICAL WARFARE EQUIPMENT AND SUPPLIES [1]	
4230P	Decontaminating and impregnating equipment.	Includes: Items peculiar to chemical warfare only.
4240P	Safety and rescue equipment	Includes: Military respiratory protective equipment for chemical warfare only.
6630P	Chemical analysis instruments	Includes: Instruments peculiar to chemical warfare only.
6640P	Laboratory equipment and supplies	Includes: Chemical laboratories (assembled outfits) only.
6665P	Hazard-detecting instruments and apparatus.	Includes: Items peculiar to chemical warfare only.
6810P	Chemicals	Includes: Calcium hypochlorite only.
6820P	Dyes	Includes: Items peculiar to chemical warfare only.
6850P	Miscellaneous chemical specialties	Includes: Agents decontaminating; and impregnites for military protective clothing for chemical warfare only.
6910	Training aids	Includes: Items peculiar to chemical warfare only.
	CONSTRUCTION AND AGRICULTURAL EQUIPMENT AND TRACTORS	
2410	Tractors, full track, low speed	
2420	Tractors, wheeled	
2520P	Vehicular power transmission components.[2]	Includes: Components peculiar to construction, excavating, highway maintenance, agricultural machinery and equipment, and tractors only.
2530P	Vehicular brake, steering, axle, wheel and track components.[3]	Do.
2540P	Vehicular furniture and accessories [2]	Includes: Furniture and accessories peculiar to construction, excavating, highway maintenance, agricultural machinery and equipment, and tractors only.
2590P	Miscellaneous vehicular components [2]	Includes: Miscellaneous components peculiar to construction, excavating, highway maintenance, agricultural machinery and equipment only.
3210	Sawmill and planing machinery	
3695P	Miscellaneous special industry machinery.	Includes: Specialized logging equipment only.
3710	Soil preparation equipment	
3720	Harvesting equipment	
3740	Pest, disease, and frost control equipment.[3]	
3750P	Gardening implements and tools [2]	Includes: Garden tractors, walking type only.
3805	Earth moving and excavating equipment.	
3810	Cranes and crane-shovels	
3815	Crane and crane-shovel attachments [2]	
3820	Mining, rock drilling, earth boring, and related equipment.[3]	
3825	Road clearing and cleaning equipment	
3830	Truck and tractor attachments [2]	
3895	Miscellaneous construction equipment	
5420	Bridges, fixed and floating	
5440P	Scaffolding equipment and concrete forms.[3]	Includes: Concrete forms only.
5680P	Miscellaneous construction materials [2]	Includes: Landing mats, landing mat sets, and parts peculiar.
	ELECTRONIC EQUIPMENT [4]	
	FIRE FIGHTING, WATER PURIFICATION AND SEWAGE TREATMENT EQUIPMENT	
4210P	Fire fighting equipment [2]	Excludes: Airport crash fire fighting vehicles under DOD procurement assignment to the Air Force.
4610	Water purification equipment [2]	Excludes: Kits, desalter; and stills, water, solar heated, lifesaving, which are under DOD procurement assignment to the Navy.
4620P	Water distillation equipment, marine and industrial.	Excludes: Distilling Plants when purchased for use aboard those vessels under DOD procurement assignment to the Navy.
4630	Sewage treatment equipment [2]	
	LUMBER, MILLWORK, PLYWOOD, AND VENEER	
5430P	Storage tanks	Includes: Tanks, wood, storage, only.
5450P	Miscellaneous prefabricated structures [2]	Includes: Cooling towers, wood; and silos, wood; only.
5630P	Pipe and conduit, nonmetallic [2]	Includes: Pipe, wood only.
5650P	Roofing and siding materials [2]	Includes: Shingles, wood only.
5660P	Fencing, fences, and gates [2]	Includes: Fence sections and gates, wood only.
	MORTUARY EQUIPMENT AND SUPPLIES	
5340P	Miscellaneous hardware [2]	Includes: Casket hardware only.
	MOTOR VEHICLES, TRAILERS, AND CYCLES	
2310	Passenger motor vehicles	
2320P	Truck and truck tractors	Excludes: Tracked landing vehicles, which are not under DOD procurement assignment; and airport crash rescue vehicles, which are under DOD procurement assignment to the Department of the Air Force.
2330P	Trailers	Excludes: Two wheel lubrication trailers, two wheel steam cleaning trailers, and troop transport semi-trailers, which are not under DOD procurement assignment; and airport crash rescue trailer units, which are under DOD procurement assignment to the Department of the Air Force.

See footnotes at end of § 5.1201–4.

Federal supply class code	Commodity	Content
	MOTOR VEHICLES, TRAILERS, AND CYCLES—continued	
2340P	Motorcycles, motor scooters, and bicycles.	Excludes: Bicycles and tricycles.
2430	Tractors, track laying high speed.	
2510P	Vehicular cab, body, and frame structural components.[3]	Includes: Components peculiar to military motor vehicles only.
2520P	Vehicular power transmission components.[3]	Do.
2530P	Vehicular brake, steering, axle, wheel, and track components.[3]	Do.
2540P	Vehicular furniture and accessories [3]	Includes: Furniture and accessories peculiar to military motor vehicles only.
2590P	Miscellaneous vehicular components [3]	Includes: Components peculiar to military motor vehicles only.
2910P	Engine fuel system components, nonaircraft.[3]	Do.
2930P	Engine cooling system components, nonaircraft.[3]	Do.
2940P	Engine air and oil filters, strainers, and cleaners, nonaircraft.[3]	Includes: Filters, strainers, and cleaners peculiar to military motor vehicles only.
2990P	Miscellaneous engine accessories, nonaircraft.[3]	Includes: Accessories peculiar to military motor vehicles only.
	PAPER AND PAPER PRODUCTS	
5970P	Electrical insulators and insulating materials.	Includes: Insulating paper, electrical only.
8130P	Reels and spools	Includes: Reels, paperboard; and spools, paperboard only.
	RAILWAY EQUIPMENT	
2110	Locomotives	
2220	Rail cars	
2330P	Right-of-way construction and maintenance equipment.	Excludes: Locomotive cranes which are under DOD procurement assignment to the Department of the Navy, and specialized types of locomotive cranes used in overseas areas with other than U.S. standard gauges and standard clearances which are not under DOD procurement assignment.
2240	Locomotive and rail car accessories and components.	
2250	Track materials, railroad	
	TELEPHONE AND TELEGRAPH EQUIPMENT AND COMPONENTS, MILITARY	
5805P	Telephone and telegraph equipment	Includes: Military (wire) equipment, field type, only.
5815P	Teletype and facsimile equipment	Do.
5830P	Intercommunication and public address systems, except airborne.	Do.
5915P	Filters and networks	Includes: Components of military (wire) equipment, field type, only.
5950P	Coils and transformers	Do.
5965P	Headsets, handsets, microphones, and speakers.	Do.
5985P	Antennae, waveguides, and related equipment.	Includes: Cases, wire dispenser for military (wire) equipment, field type, only.
5995P	Cable, cord, and wire assemblies; communication equipment.	Includes: Components of military (wire) equipment, field type, only.
6145P	Wire and cable, electrical	Includes: Wire and cable for military (wire) equipment, field type, only.
6625P	Electrical and electronic properties measuring and testing instruments.	Includes: Instruments for testing military (wire) equipment, field type, only.
6940	Communication training devices	Includes: Code training sets, code practice equipment, and other telephone and telegraph training devices, only.
8130P	Reels and spools	Includes: Reels and spools for military (wire) equipment, field type, only.

See footnotes at end of § 5.1201-4.

Federal supply class code	Commodity	Content
	TIME MEASURING INSTRUMENTS	
6645P	Time measuring instruments	Includes: All watches; aircraft instrument panel clocks; and spare parts thereof, as follows: aircraft clocks; aircraft panel clocks; athletic timers; cases, carrying, navigation watch; cases, master navigational watch; cases, watch, pocket; clocks, aircraft, mechanical; holders, watch; navigation watches, master; pocket watches; stop watches; watches, wrist, second, setting; watch case assemblies; watch movements; wrist watches.
6995P	Combination and miscellaneous instruments.	Includes: Jewel bearings, only.
	TIRES AND TUBES [3]	
2610	Tires and tubes, pneumatic, except aircraft.	
2630	Tires, solid and cushion	
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION, AND EXPLOSIVES [7]	
1005P	Guns, through 30-mm [8]	Includes: Guns, through 30-mm, and parts and equipment therefor, as listed in Army Supply Manuals SM 9-5-1005, 10, 15; SM 9-1005, 10, 15. Excludes: Naval Ordnance type; MK-12, 20-mm gun; aircraft gun mounts; and all other types not included above.
1010P	Guns, over 30-mm up to 75-mm [8]	Includes: Guns, over 30-mm up to 75-mm, and parts and equipment therefor; as listed in Army Supply Manuals SM 9-5-1005, 10, 15; SM 9-1-1055, 10, 15. Excludes: Naval Ordnance type; aircraft gun mounts, and all other types not included above.
1015P	Guns, 75-mm through 125-mm [8]	Includes: Guns, 75-mm through 125-mm, and parts and equipment therefor; as listed in Army Supply Manuals SM 9-5-1005, 10, 15; SM 9-1-1055, 10, 15. Excludes: Naval Ordnance type; aircraft gun mounts; and all other types not included above.
1020P 1025P 1030P 1035P	Guns, over 125-mm [8]	Includes: Guns, over 125-mm, and parts and equipment therefor; as listed in Army Supply Manuals SM 9-5-1025, 30; SM 9-1-1025, 30. Excludes: Naval Ordnance type and all other types not included above.
1040	Chemical weapons and equipment [8]	
1055P	Launchers, rocket and pyrotechnic [8]	Includes: Launchers, rocket and pyrotechnic as listed in Army Supply Manuals SM 9-5-1055; SM 9-1-1050, 55. Excludes: Naval Ordnance type; airborne type; and all others not included above.
1095P	Misc. weapons [8]	Includes: Miscellaneous weapons, and parts and equipment therefor, as listed in Army Supply Manuals SM 9-5-1090, 95; SM 9-1-1090, 95. Excludes: Naval Ordnance type; guns, line throwing (which are under DOD procurement assignment to the Navy); aircraft type misc. weapons; and all others not included above.
1210P	Fire control directors [8]	Includes: Fire Control equipment, as listed in Army Supply Manuals SM 9-5-1210, 20, 30, 40; SM 9-5-1290; SM 9-1-1210, 20, 30, 40, 50, 60, 90. Excludes: Naval Ordnance type and aircraft type.
1220P	Fire control computing sights and devices.[8]	
1230P	Fire control systems, complete [8]	
1240P	Optical sighting and ranging equipment.[8]	
1265P	Fire control stabilizing mechanisms [8]	Includes: Fire Control Equipment, as listed in Army Supply Manuals SM 9-5-1210, 20, 30, 40; SM 9-5-1290; SM 9-1-1210, 20, 30, 40, 50, 60, 90. Excludes: Naval Ordnance type and aircraft type.
1260P	Fire control designating and indicating equipment.[8]	
1265P	Fire control transmitting and receiving equipment, except airborne.[8]	
1285P	Fire control radar equipment, except airborne.[8]	
1290P	Miscellaneous fire control equipment	

Federal supply class code	Commodity	Content
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION, AND EXPLOSIVES [7]—continued	
1305P	Ammunition, through 30-mm [8]	Includes: Ammunition, through 30-mm, as listed in Army Supply Manuals SM 9-5-1305. Excludes: Naval Ordnance type; ammunition for the Mk-12, 20-mm gun; and all other types not included above.
1310P	Ammunition, over 30-mm up to 75-mm.[8 10]	Includes: Ammunition over 30-mm up to 75-mm, as listed in Army Supply Manual SM 9-5-1310. Excludes: Naval Ordnance type; 40-mm ammunition (which is under DOD procurement assignment to the Navy); and all other types not included above.
1315P	Ammunition, 75-mm through 125-mm.[8 10]	Includes: Ammunition, 75-mm through 125-mm, as listed in Army Supply Manual SM 9-5-1315; Army Supply Catalog CML 5-1-1. Excludes: Naval Ordnance type; and all other types not included above.
1320P	Ammunition, over 125-mm. [8 10]	Includes: Ammunition, over 125-mm, as listed in Army Supply Manual SM 9-5-1320; Army Supply Catalog CML 5-1-1. Excludes: Naval Ordnance type; and all other types not included above.
1325P	Bombs	Includes: Bombs as listed in Army Supply Manuals SM 9-5-1325; SM 3-5-1325, 30, 40, 45, 65, 70, 75. Excludes: Those bombs herein assigned to the Navy; and all others not included above.
1330	Grenades	
1340P	Rockets and rocket ammunition	Includes: HE, AT, 3.5 in., M35; Practice, 3.5 in., M36; Smoke, WP, 3.5 in., M30; Drill, 4.5 in., M24; HE, 4.5 in., M32; Practice, 4.5 in., M33; incendiary and toxicological rockets, as listed in Army Supply Bulletin SB 3-33. Excludes: Rockets herein assigned to the Navy; and all others not included above.
1345	Land mines	
1365	Military chemical agents	Excludes: Shipboard and aircraft pyrotechnics.
1370P	Pyrotechnics	
1375P	Explosives, bulk propellants and explosive devices.	
	Blasting agents and supplies	Includes: Blasting agents, and supplies such as: Blocks, demolition; caps, blasting, electric and nonelectric; charge, cratering; charges, shaped and demolition; cord, detonating; detonators, all types; dynamite; firing devices; fuse, safety; Bangalore torpedo; kit demolition; lighter, fuse; primer, percussion cap; demolition equipment sets with ancillary items; chests, demolition platoon and squad; machine, blasting. Excludes: Navy underwater demolition requirements.
	Explosives	Includes: The following items only: Ammonium picrate (explosive D) JAN-A-166A; trinitrotoluene (TNT) JAN-T-248; tetryl JAN-T-339; pantaerythrite tetranitrate (PETN) JAN-P-387; RDX; composition B; Composition B-3; pentolite, 50/50 JAN-P-408; composition C-3; composition A-3; composition A-4; nitroguanidine (picrite). Excludes: Production capacity for any of the above listed explosives at the U.S. Naval Propellant Plant, Indian Head, Maryland; and all other explosives not included above.
	Propellants	Includes: Propellants for small arms ammunition, calibers .30- to 30-mm, inclusive, except blank and cal. .45; propellant for small arms ammunition, caliber .45 MIL-P-3207; propellant, increment, M8 MIL-P-10557; propellant, M9; powder, rocket propellant, type N-4 MIL-P-16401; propellant cannon, M1, M6, M14, JAN-P-309; propellant cannon, M2, M5, JAN-P-323; propellant, 4.2 in. chemical mortar; propellant, M7; propellant, M15 and M17 MIL-P-268A; propellant, M10; rocket propellant powder NAVORD OS 53-3. Excludes: Production capacity for any of the above listed propellants at the U.S. Naval Propellant Plant, Indian Head, Maryland; and all other propellants not included above.

See footnotes at end of § 5.1201-4.

§ 5.1201-2 Department of the Navy.

Federal supply class code	Commodity	Content
	ECCLESIASTICAL EQUIPMENT, FURNISHINGS AND SUPPLIES	
6910P	Training aids	Includes: Visual aids, chaplain, nonprojected; only.
	ELECTRONIC EQUIPMENT [4]	
	FIBERS, FIBER ROPE CORDAGE, AND TWINE	
9420	Fibers, vegetable, animal, and synthetic.	
	FUELS, SOLID	
9110P	Fuels, solid	Includes: Coal or coal products, only.
	HAND TOOLS	
3439P	Miscellaneous welding, soldering, and brazing supplies and accessories.	Includes: Only soldering irons, and soldering guns, and related parts and accessories only.
3750	Gardening implements and tools [4]	Excludes: All powered or wheeled gardening implements and tools.
	LIFE SAVING EQUIPMENT, MARINE [11]	
2040P	Marine hardware and hull items	Includes: Anchor, sea; oars, sectional, aluminum; paddles; and paddles, telescoping, hand; only.
4220P	Marine lifesaving and diving equipment.	Includes: The following items only: Basket, search, and rescue. Buoy, breeches. Cases, carrying, deflated raft. Cases, pararaft kit. Containers, emergency equipment life raft. Containers, pararaft kit. CO_2 cylinders for inflatable life preservers and life rafts. Cushions, buoyant. Equipment, containers, coated nylon. Harness, for lifting personnel aboard ship. Inflation gear, complete and parts therefor (life raft). Kits, accessory, life raft. Kits, canvas repairing, for lifeboats, rafts and jackets. Life buoys, ring.

Federal supply class code	Commodity	Content
	LIFE SAVING EQUIPMENT, MARINE [11]—continued	
4220P	Marine lifesaving and diving equipment—Continued	Includes: The following items only: Life floats (platform net rigging). Life preservers. Life preservers, pneumatic. Life rafts, pneumatic, airborne and shipborne. Life suits, waterproof. Life vest, shark chaser. Reflectors, corner, life raft. Water lifesaving nets and ladders.
4320P	Power and hand pumps [1]	Includes: Pump, hand, only.
4610P	Water purification equipment [1]	Includes: Kits, desalter; and water stills, solar heated, lifesaving, only.
6230P	Electric portable and hand lighting equipment.[1]	Includes: Lantern, electric, automatic, floating; and lights, life preserver, only.
6350P	Miscellaneous alarm and signal systems.	Includes: Mirrors, signalling, only.
6605P	Navigational instruments	Includes: Compasses, lifeboat, and raft, only.
6850P	Miscellaneous chemical specialties	Includes: Dye, sea marker, only.
	MATERIALS HANDLING EQUIPMENT	
2330P	Right-of-way construction and maintenance equipment, railroad.	Includes: Diesel, electric; diesel, mechanical; gasoline, mechanical; and steam locomotive cranes; together with their peculiar parts, attachments, and accessories; only. Excludes: Specialized types of locomotive cranes used in overseas areas with other than U.S. standard gauges and standard clearances which are not under DOD procurement assignment, and all other right-of-way construction and maintenance equipment, railroad, which is under DOD procurement assignment to the Department of the Army.
2620P	Vehicular power transmission components.	Includes: Peculiar parts, attachments, and accessories for the materials handling equipment herein assigned to the Navy, only.
2630P	Vehicular brake, steering, axle, wheel, and track components.[1]	Do.
2540P	Vehicular furniture and accessories [1]	Do.
2590P	Miscellaneous vehicular components [1]	Do.
3910P	Conveyors [1]	Includes: Portable conveyor units (commercial warehouse type), only.
6140P	Batteries, secondary	Includes: Industrial batteries for electrically operated materials handling equipment, only.
	PEST CONTROL AGENTS	
6840	Pest control agents and disinfectants	
	PREFABRICATED AND PORTABLE BUILDINGS	
5410P	Prefabricated and portable buildings [1]	Includes: The following prefabricated buildings covered by the designated military specifications, only: building, arch rib 20' x 48', MIL-B-12568; building, arch rib 40' x 100', MIL-B-10606; building, (CAS) complete assembly structure, MIL-B-17579 (DOCKS); buildings, rigid frame 40' x 100', MIL-B-16071A; magazine, MIL-B-15949H; magazine, MIL-B-16041A.
	SEXTANTS, AIRCRAFT	
6605P	Navigational instruments	Includes: Sextants, aircraft, only.
	SHIPS, SMALL CRAFT, AND RELATED MARINE EQUIPMENT	
1905P	Combat ships and landing vessels	Includes: Landing vessels, only.
1910P	Transport vessels, passenger and troop.	Includes: Ferryboats, only.
1920	Fishing vessels	
1926	Special service vessels	
1930	Barges and lighters, cargo	
1935P	Barges and lighters, special purpose	Excludes: Derrick, pile driver, rock cutter, concrete mixing plant, mechanical bank grader barges, other bank revetment barges; and power plant, barges, only.

Federal supply class code	Commodity	Content
	SHIPS, SMALL CRAFT, AND RELATED MARINE EQUIPMENT—con.	
1940	Small craft [11]	
1945P	Pontoons and floating docks	Incl des: BuDocks type pontoons, only.
1950	Floating dry docks	
1960P	Miscellaneous vessels	Includes: Commercial sailing vessels, only.
2010	Ship and boat propulsion components	
2020	Rigging and rigging gear	
2030	Deck machinery	
2040P	Marine hardware and hull items	Excludes: Anchor, sea; oars, sectional, aluminum; paddles; and paddles, telescoping, hand only.
2060	Commercial fishing equipment	
2090	Miscellaneous ship and marine equipment.	
2805P	Gasoline reciprocating engines, except aircraft, and components.	Includes: Gasoline engines for use aboard ships herein assigned, only. Excludes: Outboard, motors, gasoline.
2815P	Diesel engines and components	Includes: Engines and components for use aboard ships herein assigned, only.
2820P	Steam engines, reciprocating, and components.	Includes: Marine main propulsion steam engines, only.
2825P	Steam turbines and components	Includes: Marine steam turbines, only.
3950P	Winches, hoists, cranes, and derricks [1]	Includes: Equipment for use aboard ships herein assigned, only.
4120P	Self-contained air conditioning units and accessories	Includes: Units and accessories for use aboard ships herein assigned, only.
4130P	Refrigeration and air conditioning plants and components.	Includes: Plants and components for use aboard ships herein assigned, only.
4220P	Marine lifesaving and diving equipment.	Includes: Diving equipment, only.
4310P	Compressors and vacuum pumps [1]	Includes: Reciprocating air compressors; and rotary air compressors for use aboard ships herein assigned, only.
4320P	Power and hand pumps [1]	Includes: Power driven pumps; and air ejector assemblies for use aboard ships herein assigned, only.
4330P	Centrifugals, separators, and pressure and vacuum filters.[1]	Includes: Oil purifiers; and oil filters, for use aboard ships herein assigned only.
4410P	Industrial boilers	Includes: Boilers for use aboard ships herein assigned, only.
4420P	Heat exchanges and steam condensers	Includes: Heat exchangers for use aboard ships herein assigned, only.
4450P	Industrial fan and blower equipment	Includes: Equipment for use aboard ships herein assigned, only.
4510P	Plumbing fixtures and accessories [1]	Includes: Troughs, wash (personnel); troughs, water closet; and troughs, urinal; for use aboard ships herein assigned, only.
4620P	Water distillation equipment, marine and industrial.[1]	Includes: Distilling plants for use aboard ships herein assigned, only.
5430P	Storage tanks	Includes: Tanks, metal (enclosure only, not part of ship's structure), for use aboard ships herein assigned, only.
5670P	Architectural and related metal products.[1]	Includes: Gratings and floors, metal (does not include deck structure) for use aboard ships herein assigned, only.
5985P	Antennae, waveguides, and related equipment.	Includes: Antenna poles; and masts, antenna for use aboard ships herein assigned, only.
6105P	Motors, electrical	Includes: Motors for use aboard ships herein assigned, only.
6115P	Generators and generator sets	Includes: Gasoline, diesel and steam engine—generator sets; generators, electric and steam turbine-generator sets for use aboard ships herein assigned, only.
6125P	Converters, electrical	Includes: Motor-generator sets for use abroad ships herein assigned, only.
6220P	Electrical vehicular lights and fixtures.	Includes: Fixed lights for use abroad ships herein assigned, only.
6320P	Shipboard alarm and signal systems	Includes: Alarm systems; fire alarm systems; indicating systems; telegraph systems (signals and signaling) (less electronic type); for use aboard ships herein assigned, only.
6605P	Navigational instruments	Includes: Hand leads (soundings); lead reels; sounding machines; stands, pelorus, for use aboard ships herein assigned, only.
6650P	Optical instruments	Includes: Stands, telescope, for use aboard ships herein assigned, only.
6665P	Hazard-detecting instruments and apparatus.	Includes: Hazard-determining safety devices, for use aboard ships herein assigned, only.
8140P	Ammunition boxes, packages, and special containers.	Includes: Boxes, ammunition, for use aboard ships herein assigned, only.

Federal supply class code	Commodity	Content
	TIME MEASURING INSTRUMENTS	
6645P	Time measuring instruments	Includes: All clocks, chronometers, and spare parts thereof, as follows: alarm clocks; boat clocks; cans, chronometer shipping and storage; carrying cases, chronometer; carrying cases, make-break circuit, chronometer; cases, chronometer; cases, chronometer, gimbal; cases, chronometer, padded; chronometers; chronometers, make-break circuit; clocks, direct reading; clocks, electric; clocks, floor; clocks, interval timer; clocks, marine, mechanical, clocks, master control; clocks, master program; clocks, master regulating; clocks, mechanical; clocks, message center; clocks, nurses'; clocks, program; clocks, shelf; clocks, wall; clocks, watchmen's; clock motors; clock movements; clock, movements, electric; deck clocks; dials, clock; hourmeters; interval timers; keys, clock; marine clocks; meters, engine running time; meters, hour recording; meters, time totalizing, electric; program control instruments, program timers; stop clocks; time period counters; timers, bombing; timers, engine hour; timers, sequential; timers, stop.
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION AND EXPLOSIVES [7]	
1095P	Miscellaneous weapons	Includes: Guns, line throwing, only.
1310P	Ammunition, over 30-mm up to 75-mm	Includes: 40-mm ammunition, only.
1325P	Bombs [13]	Includes: Armor-piercing; depth bombs, externally suspended low drag bombs; and components and practice bombs therefor, as listed in Ord Pamphlet 1280 and OP 1ves.
1340P	Rockets and rocket ammunition [14]	Includes: 2.25 in. Rocket SCAR, Practice; Heads Mk 3 and Mods; Motors Mk 15 and Mods, MK 16 and Mods. 2.75 in. Rocket FFAR, service and practice; Heads Mk and Mods (General Purpose); Mk 5 and Mods (HEAT); Motors Mk 1 and Mods, Mk 2 and Mods, Mk 3 and Mods. 5 in. Rocket HVAR, service and practice; Head Mk 2 and Mods (common) Mk 6 and Mods (GP), Mk 4 and Mods (smoke) Mk 25 and Mods (ATAR); Motors Mk 10 and Mods. 5 in. Rocket FFAR service and practice; Heads Mk 24 and Mods (General Purpose), Mk 32 and Mods (Shaped charged), Mk 26 and Mods (Illum); Motor Mk 16 and Mods. Excludes: Rockets included under above assignment to the Army.
1390P	Fuzes and primers	Includes: Fuzes and Primers for Navy assigned ammunition and V.T. fuses, rotating type, only.
4926P	Ammunition maintenance and repair shops specialized equipment.	Includes: Sets, kits, and outfits of explosive Ordnance tools and equipment as defined in OPNAV 8027.1B, AR 755–1300–6; AFR 136–8 and further, as described in Ord Pamphlet 1851(C) and other similar documents of other services.
8140P	Ammunition boxes, packages, and special containers.	Excludes: All others not included above. Includes: Boxes, packages and containers for 40-mm ammunition, only.

§ 5.1201–3 Department of the Air Force.

Federal supply class code	Commodity	Content
	ELECTRICAL AND ELECTRONIC COMPONENTS	
5960P	Electron tubes, transistors, and rectifying crystals.	Includes: Only gas filled or evacuated electronic tubes which have a common coordinated specification as set forth in MIL-E/1D and which are common to two or more Military Departments.
	ELECTRONIC EQUIPMENT [4]	
	FIRE FIGHTING, RESCUE, AND SAFETY EQUIPMENT (AIRPORT)	
2320P	Trucks and truck-tractors	Includes: Airport crash rescue vehicles, only.
2330P	Trailers	Includes: Airport crash rescue trailer units, only.
4210P	Fire fighting equipment [8]	Includes: Airport crash fire fighting vehicles, only.

See footnotes at end of § 5.1201–4.

Federal supply class code	Commodity	Content
	LIGHTING FIXTURES, AIRPORT	
6210P	Indoor and outdoor electric lighting fixtures.	Includes: Fixtures for airport lighting, alarm and signal systems, only.
	PHOTOGRAPHIC EQUIPMENT [15]	
6710P	Cameras, motion picture	Excludes: Submarine periscope and underwater cameras.
6720P	Cameras, still picture	Do.
6730P	Photographic projection equipment	Excludes: 35-mm theatre projectors.
6740	Photographic developing and finishing equipment.	
6750P	Photographic supplies [16]	Excludes: Photoflash lamps, which are mandatory for purchase under the provisions of Federal Supply Schedule Class 62, Part II, Electric Lamps.
6760	Photographic equipment and accessories.	
6780	Photographic sets, kits, and outfits.	

§ 5.1201–4 General Services Administration.[17]

Federal supply class code	Commodity	Content
	OFFICE FURNITURE	
7105P	Household furniture [16]	Includes: Chairs, easy; davenports; settees; stands, smoking; wardrobes.
7110P	Office furniture [17] [18]	Includes: Address plate filing cabinets; address plate filing cabinet bases; address plate filing cabinet tops; bases, filing cabinet; bases, sectional bookcase; bookcases; sectional; cabinets, visible file; chairs, straight, office type; chairs; swivel, office type; chairs, flat top, office type; desks, typists'; typist; desks, dictionary holders; drawers, filing cabinet; filing cabinets-including insulated fire resistant and combination lock types; filing trays, cabinet; stands, adding machine; stands, dictionary; stands, typewriter; stools, straight, office type; stools, revolving, office type; tables, conference; tables, office; tops, filing cabinet; tops, sectional bookcase.
7125P	Cabinets, lockers, bins and shelving. [18]	
7195P	Miscellaneous furniture and fixtures. [18]	
	OFFICE MACHINES	Excludes: Machines and equipment controlled by the Congressional Joint Committee on Printing.
7410	Punched card system machines	
7420	Billing and computing machines [18]	
7430P	Typewriters and office type composing machines.[18]	
7450	Office-type sound recording and reproducing machines.	
7490	Miscellaneous office machines [18]	Do.
	OFFICE SUPPLIES [18]	
7510P	Office supplies	Excludes: Albums, scrapbook; and those office supplies which are procured through Government Printing Office channels.
7520P	Office devices and accessories	Excludes: Seals, hand impression, and those items procured through Government Printing Office channels.
7530P	Stationary and record forms	Excludes: Items procured through Government Office channels.

[1] The implementing procedures for this DOD procurement assignment also covers selected mechanical smoke generators, which are classified under FSC 1040 Chemical Weapons and Equipment. The entire FSC 1040 is under DOD procurement assignment to the Department of the Army.
[2] Effective until procurement responsibility is assumed by the Single Manager for Military Automotive Supplies.
[3] Effective until procurement responsibility is assumed by the Single Manager for Military Construction Supplies.
[4] Each Department is assigned procurement responsibility for those items which the Department either designed or for which it sponsored development, as listed in JANAP 140 and Supplemental Departmental Listings.
[5] Effective until procurement responsibility is assumed by the Single Manager for Military Industrial Supplies.
[6] Requirements of commercial tires and tubes, when the item to be procured is less than $10,000 per line item (for tires costing less than $1,000 per tire) or when the item to be procured is less than $25,000 per line item (for tires costing

$1,000 or more per tire), shall be purchased in accordance with the mandatory provisions of Federal Supply Class 26—Part II, Tires and Tubes, Pneumatic (except aircraft). These mandatory provisions do not apply to Military tires and tubes, which shall be procured together with those quantities of commercial tires and tubes over the above specified dollar amounts in accordance with the procedures implementing this DOD procurement assignment. This DOD procurement assignment does not include FSC Class 2620, Tires and Tubes, Pneumatic, Aircraft. These items are mandatory for purchase in accordance with the provisions of Federal Supply Group 26—Part I, Tires and Tubes, Pneumatic, Aircraft. This assignment is effective until procurement responsibility is assumed by the Single Manager for Military Automotive Supplies.

[7] The Department of the Army portion of this DOD procurement assignment is covered by two sets of implementing procedures. One set covers items under the cognizance of the Army Ordnance Corps and the other covers items under the cognizance of the Army Chemical Corps.

[8] For purposes of procurement, Naval Ordnance comprises all arms, armor, and armament for the Department of the Navy and includes all offensive and defensive weapons, together with their components, controlling devices and ammunition used in executing the Navy's mission in National Defense (except small arms and those items of aviation ordnance procured from the Army).

[9] Mechanical smoke generators included in this FSC Class are covered in the implementing procedures for Chemical Warfare Equipment and Supplies.

[10] Army responsible for loading, assembling and packing toxicological, smoke and incendiary shells.

[11] The implementing procedures for this DOD procurement assignment also covers airborne and shipborne pneumatic lifeboats, which are classified under FSC 1940—Small Craft. The entire FSC 1940 is under DOD procurement assignment to the Department of the Navy.

[12] Airborne and shipborne pneumatic lifeboats included in this FSC Class are covered in the implementing procedures for Lifesaving Equipment, Marine.

[13] Army responsible for loading, assembling and packing toxicological, smoke and incendiary shells. Loading, assembling and packing in excess of Navy owned capacity to be done by Army.

[14] Filler and filling of all smoke and toxicological rockets are assigned to the Army.

[15] Excludes photographic equipment controlled by the Congressional Joint Committee on Printing and Micro-Film Equipment and Supplies.

[16] Effective until procurement responsibility is assumed by the Single Manager for Military General Supplies.

[17] In addition to the Classes listed herein, the General Services Administration is the procurement source for items in all Classes assigned to Single Managers when so designated by the executive directors thereof. This assignment is not applicable to items carried in the GSA Stores Stock Catalog.

[18] Excludes only those items approved by DOD for military management.

[19] This assignment—Includes: General use and executive type office items only. Excludes: Built-in-furniture, shipboard furniture; special items for military field use; modified designs for special technical or clerical work.

[20] Excludes paper stocks, paper products, inks and supplies controlled by the Congressional Joint Committee on Printing and those items which are contained in the Government Printing Office Term Contracts for Tabulating Cards and Marginally Punched Continuous Forms. Also excludes those items approved by DOD for military management.

§ 5.1202 Commodity assignments to single managers.

Under the Single Manager Program the Secretary of Defense designates the Secretary of one Military Department as Single Manager of specified categories of common use items for all Military Departments. The Single Manager is responsible for all supply management functions (including purchasing). The commodities listed in §§ 5.1202–1 and 5.1202–2 have been assigned to the single manager operating agencies indicated. Generally, the assignments include all items designated by the executive directors of the agencies for integrated military management and/or centralized procurement pursuant to the Defense Materiel Management Program. All items designated by the executive director for local procurement or procurement from the General Services Administration are excluded from the assignments.

§ 5.1202–1 Department of the Army.

MILITARY CLOTHING AND TEXTILE SUPPLY AGENCY (PHILADELPHIA, PA.)

Federal supply class code	Commodity	Content
	CLOTHING AND TEXTILES	
6532	Hospital and surgical clothing and textile special purpose items.[1]	
7210	Household furnishings	
8305P	Textile fabrics	Excludes: Only items of laminated cloth used exclusively in repair of lighter-than-air envelopes.
8310	Yarn and thread	
8315P	Notions and apparel findings	Excludes: Only items of coated cloth tape used exclusively in repair of lighter-than-air envelopes.
8320	Padding and stuffing materials	
8330	Fur materials	
8340	Leather	
8345	Shoe findings and soling materials	
8360	Tents and canvas	

MILITARY CLOTHING AND TEXTILE SUPPLY AGENCY (PHILADELPHIA, PA.)—Continued

Federal supply class code	Commodity	Content
	CLOTHING AND TEXTILES—con.	
8345	Flags and pennants	
8405	Outwear, men's	
8410	Outwear, women's	
8415	Clothing, special purpose	Includes: All submarine clothing.
8420	Underwear and nightwear, men's	
8425	Underwear and nightwear, women's	
8430	Footwear, men's	
8435	Footwear, women's	
8440	Hosiery, handwear, and clothing accessories, men's.	
8445	Hosiery, handwear, and clothing accessories, women's.	
8450	Children's and infants' apparel and accessories.	
8455	Badges and insignia	
8460	Luggage	
8465	Individual equipment	
8475	Specialized flight clothing [1]	

MILITARY SUBSISTENCE SUPPLY AGENCY (CHICAGO, ILL.)

	SUBSISTENCE ITEMS	
8905	Meat, poultry and fish	
8910	Dairy foods and eggs	
8915	Fruits and vegetables	
8920	Bakery and cereal products	
8925	Sugar, confectionery, and nuts	
8930	Jams, jellies, and preserves	
8935	Soups and bouillons	
8940	Special dietary foods and food specialty preparations.	
8945	Food oils and fats	
8950	Condiments and related products	
8955	Coffee, tea, and cocoa	
8960	Beverages, nonalcoholic	
8970	Composite food packages	
8975	Tobacco products	
	CONSTRUCTION SUPPLIES	
2815	Diesel engines and components	
3740	Pest, disease, and frost control equipment.	
3750	Gardening implements and tools	
3815	Crane and crane-shovel attachments	
3820	Mining, rock drilling, earth boring, and related equipment.	
3830	Truck and tractor attachments	
3910	Conveyors	
3950	Winches, hoists, cranes, and derricks	
4210	Fire fighting equipment	
4310	Compressors and vacuum pumps	
4320	Power and hand pumps	
4330	Centrifugals, separators, and pressure and vacuum filters.	
4510	Plumbing fixtures and accessories	
4520	Space heating equipment and domestic water heaters.	
4530	Fuel burning equipment units	
4540	Miscellaneous plumbing, heating, and sanitation equipment.	
4610	Water purification equipment	
4620	Water distillation equipment, marine and industrial.	
4630	Sewage treatment equipment	
4710	Pipe and tube	
4720	Hose and tubing, flexible	
4730	Fittings and specialties: hose, pipe and tube.	
4810	Valves, powered	
4820	Valves, nonpowered	
4410	Prefabricated and portable buildings	

MILITARY SUBSISTENCE SUPPLY AGENCY (CHICAGO, ILL.)—Continued

Federal supply class code	Commodity	Content
	CONSTRUCTION SUPPLIES—con.	
5440	Scaffolding equipment and concrete forms.	
5450	Miscellaneous prefabricated structures.	
5510	Lumber and related basic wood materials.	
5520	Millwork	
5530	Plywood and veneer	
5610	Mineral construction materials, bulk	
5620	Building glass, tile, brick, and block	
5630	Pipe and conduit, nonmetallic	
5640	Wallboard, building paper, and thermal insulation materials.	
5650	Roofing and siding materials	
5660	Fencing, fences and gates	
5670	Architectural and related metal products.	
8680	Miscellaneous construction materials	

MILITARY AUTOMOTIVE SUPPLY AGENCY

2510	Vehicular cab, body, and frame structural components.	
2520	Vehicular power transmission components.	
2530	Vehicular brake, steering, axle, wheel, and track components.	
2540	Vehicular furniture and accessories	
2590	Miscellaneous vehicular components	
2610	Tires and tubes, pneumatic, except aircraft.	
2630	Tires, solid and cushion	
2640	Tires rebuilding and tire and tube repair materials.	
2805	Gasoline reciprocating engines, except aircraft; and components.	
2010	Engine fuel system components, nonaircraft.	
2920	Engine electrical system components, nonaircraft.	
2930	Engine cooling system components, nonaircraft.	
2940	Engine air and oil filters, strainers, and cleaners, nonaircraft.	
2090	Miscellaneous engine accessories, nonaircraft.	

MILITARY GENERAL SUPPLY AGENCY (RICHMOND, VA.)

	GENERAL SUPPLIES	
35	Service and trade equipment	
51	Hand tools	
71	Furniture	
73	Food preparation and serving equipment.	
75	Office supplies	
77	Musical instruments, phonographs, and hometype radios.	
78	Recreational and athletic equipment	
79	Cleaning equipment and supplies	
85	Toiletries	
99	Miscellaneous	
3020	Materials handling equipment, nonself-propelled.	
3930	Warehouse trucks and tractors, self-propelled.	
3990	Miscellaneous materials handling equipment.	

See footnotes at end of § 5.1202–2.

MILITARY GENERAL SUPPLY AGENCY (RICHMOND, VA.)—Continued

	GENERAL SUPPLIES—continued	
4110	Self-contained refrigeration units and accessories.	
4140	Fans and air circulators, nonindustrial.	
5210	Measuring tools, craftsman's	
5280	Sets, kits, and outfits of measuring tools.	
6750	Photographic supplies	
7220	Floor coverings	
7230	Drapes, awnings and shades	
7240	Household and commercial utility containers.	
7290	Miscellaneous household and commercial furnishings and appliances.	
7420	Billing and computing machines	
7430	Typewriters and office-type composing machines.	
7490	Miscellaneous office machines	
8105	Bags and sacks	
8110	Drums and cans	
8115	Boxes, cartons and crates	
8125	Bottles and jars	
8135	Packaging and packing bulk materials	
9310	Paper and paper board	
9320	Rubber fabricated materials	
9330	Plastics fabricated materials	
9340	Glass fabricated materials	
9350	Refractories and fire surfacing materials.	
9390	Miscellaneous fabricated nonmetalic materials.	

§ 5.1202–2 Department of the Navy.

MILITARY INDUSTRIAL SUPPLY AGENCY (PHILADELPHIA, PA.)

Federal supply class code	Commodity	Content
	INDUSTRIAL SUPPLIES	
53	Hardware and abrasives	
80	Brushes, paints, sealers and adhesives	
95	Metal bars, sheets and shapes	
3110	Bearings, antifriction, unmounted	
3120	Bearings, plain, unmounted	
3130	Bearings, mounted	
3940	Blocks, tackle, riggings, and slings	
4010	Chain and wire rope	
4020	Fiber rope, cordage and twine	
4030	Fittings for rope, cable and chain	
	MEDICAL, DENTAL, VETERINARY AND RELATED EQUIPMENT AND SUPPLIES [2]	
6505	Drugs, biologicals, and official reagents.	
6510	Surgical dressings materials	
6515	Medical and surgical instruments, equipment and supplies.	
6520	Dental instruments, equipment and supplies.	
6525	X-ray equipment and supplies, medical, dental and veterinary.	
6530	Hospital furniture, equipment, utensils, and supplies.	
6532	Hospital and surgical clothing and tartile special purpose items.[4]	
6540	Opticians' instruments, equipment and supplies.	
6545	Medical sets, kits and outfits	

items are listed herein as the procurement responsibility of another activity, they shall be procured in accordance with the implementing procedures of that activity.

² Supply management responsibility only. Military Clothing and Textile Supply Agency is assigned procurement responsibility.

³ Military Petroleum Supply Agency is assigned procurement responsibility only. Supply management responsibility is assigned to the Military Industrial Supply Agency.

§ 5.1203 Plant cognizance procurement assignments.

Federal supply class code	Commodity	Content
	PETROLEUM AND PETROLEUM PRODUCTS	
6810P	Chemicals	Includes: The following items only. •Acetone, technical. •n-Amyl acetate, technical. •Benzene, technical. •Benzene (Benzo). •n-Butyl acetate, technical. •Butyl alcohol, technical. Distillate, petroleum. •Ethyl acetate, technical. Ethylene glycol, monobutyl ether, technical. •Isopropyl acetate, technical. •Methyl ethyl ketone, technical. •Methyl isobutyl ketone, technical. Naphtha, aliphatic. Naphtha, aromatic. Naphtha, coal tar. Petroleum ether, technical. Rubber solvent. •Solvent, methyl isobutyl ketone. Stoddard's solvent. Tetraethyl lead (TEL). •Toluene, technical. •Trichloroethylene, technical. Tricresyl phosphate (TCP) technical (for use as a fuel additive). •Xylene, technical. •Assigned to the extent that such items are procured for use as solvents or thinners in paints, dopes, lacquers, enamels, etc.
6850P	Miscellaneous chemical specialties	Includes: Corrosion preventive, aircraft engine; and the following items when they are of a petroleum base; anti-static and cleaner compound; calibrating fluid; carburetor and choke cleaning compound; fuel injector cleaner; cleaning compounds, scale removing; cleaning compounds, solvent; cleaning solutions, instrument cleaning solution, watch; and watch; dry cleaning solvent; fluid reference, rubber swell; fluid, reference shear stability; heat transfer fluids; hydrocarbon fluid, standard test; magnetic inspection oils; metal cleaners; spot remover.
8010P	Paints, dopes, varnishes and related products.¹	Includes: Dope thinners; enamel thinners; lacquer thinners; paint thinners (except turpentine and dipentene); thinners, dope and lacquer; thinners, paint, mineral spirits; thinners, synthetic resin enamel (all other items classified in FSG Group 8010 are under assignment to the Military Industrial Supply Agency).
8030P	Preservative and sealing components.¹	Includes: Only the following items when they are of a petroleum base; antisete compound, coating compound, petrolatum; rust preventive compounds; soluble oil emulsifiables; corrosion preventive compounds; corrosion preventive, flotation type; corrosion preventives, solvent cut-back; fingerprint remover compounds; metal conditioning compounds; pastes, thread sealing; rust preventive compounds; thread compounds.
9120P	Fuel gases	Excludes: Artificial gas; illuminating gas; gas, manufactured illuminating; gas, natural, dry; and natural gas.
9130	Gasoline and jet fuel	
9140	Fuel oils	
9150P	Oils and greases; cutting, lubricating and hydraulic.	Excludes: Caster oil, technical, lard oil; lubricant stopcock; soap; lubricating, and sperm oil.
9160P	Miscellaneous waxes, oils, and fats	Includes: Insulating Oil, electrical; and the following items when they are of a petroleum base only: wax, desensitizing floor oil; wax, microcrystalline; wax, paraffin.
9020P	Minerals, natural and synthetic	Includes: Crude petroleum; and crude shale oil only.

¹ Procurement responsibility only. Military Medical Supply Agency is responsible for supply management.

² Procurement responsibility only. Military Clothing and Textile Supply Agency is responsible for supply management.

³ Procurement responsibility only. Military Industrial Supply Agency is responsible for supply management for all items in FSG Group 45, and for all equipment in FSG Group 46.

PART 6—FOREIGN PURCHASES

Subpart F—Duty and Customs

10. Revise Subpart F, Part 6, to read as follows:

§ 6.601 Scope of subpart.

(a) This subpart sets forth policies and procedures for excepting from import duty certain supplies that are imported into the United States in connection with Defense contracts. Ordinarily, duty is payable for the importation of supplies obtained outside the United States. Two exceptions to this rule are available to the Department of Defense; "emergency purchases of war materials abroad" by a Military Department may be imported duty-free pursuant to 10 U.S.C. 2383; and certain supplies (not including equipment) for vessels or aircraft operated by the United States may be imported duty-free pursuant to 19 U.S.C. 1309. This subpart prescribes the uses and limits of these two exceptions.

(b) This subpart does not deal with or affect the evaluation of bids or proposals offering foreign supplies. Rules for such evaluation are in Subparts A through C of this part. Although the procedures of this subpart may require or permit duty-free entry to be accorded foreign supplies in a given case, this in itself neither precludes nor requires the inclusion of duty in evaluating a bid offering such supplies.

§ 6.602 Policy.

The issuance of duty-free entry certificates in appropriate situations will result in important savings to military appropriations. Such certificates must be limited to carefully selected situations lest they result in unanticipated profits to contractors, especially under fixed-price type contracts, and involve the Government in administrative expenses outweighing any possible savings to military appropriations. It is Defense policy to use duty-free entry certificates wherever there is reasonable assurance that advantages in the form of savings to military appropriations will outweigh the administrative and other costs of processing duty-free entry certificates and of maintaining controls to verify that the full benefit of the certificates inures to the Government.

§ 6.603 Emergency purchases of war materials abroad.

§ 6.603–1 Definition.

Any procurement of foreign supplies constitutes "an emergency purchase of war material" if:

(a) The supplies comprise:

(1) Weapons, munitions, aircraft, vessels, or boats;

(2) Agricultural, industrial, or other supplies used in the prosecution of war or for the national defense; or

(3) Supplies, including components or equipment, necessary for the manufacture, production, processing, repair, servicing, or operation of supplies within subparagraphs (1) or (2) of this paragraph;

(b) The procurement:

(1) Is made in time of war or during a national emergency;

(2) Is made because of a shortage of domestic supply, pursuant to a decision that the supplies are necessary for the adequate maintenance of the Armed Services;

(3) Is made for the use of United States forces abroad or United States vessels in foreign waters; or

(4) Consists of captured enemy war material, materials requisitioned by United States forces abroad, or materials rebuilt from other materials owned by, captured by, or turned over to United States forces.

§ 6.603–2 Requirements.

(a) To assure that the policy of § 6.602 is carried out for emergency purchases of war materials abroad, one or both of the clauses in § 6.603–3 shall be included in each negotiated contract in excess of $100,000 unless the minimum dollar limits in § 6.603–3 (a) and (b), respectively, apply. Notwithstanding these dollar limits, either or both of the clauses in § 6.603–3 may be inserted in any other negotiated contract where the contracting officer determines that to do so would further the policy in § 6.602 and would be consistent with the limitations in paragraph (c) of this section, and in any such case the dollar figures in paragraph (a) and (b) of the clause in § 6.603–3(b) may be reduced appropriately.

(b) The requirements in paragraph (a) of this section are in addition to and independent of the requirements in § 6.605 concerning duty-free entry clauses for Canadian supplies.

(c) Duty-free entry certificates shall be issued as required by contracts containing any of the contract clauses described in §§ 6.603–3 and 6.605. Consistent with § 6.602, duty-free entry certificates may be issued in connection with any other contract for an "emergency purchase of war material" that falls within one of the following categories:

(1) Direct purchases abroad regardless of whether title passes at point of origin or at destination in the United States, providing the contract states that the final price is exclusive of duty;

(2) Purchases abroad by a Government prime contractor under a cost-reimbursement type contract or by a cost-reimbursement type subcontractor (where no fixed-price prime or fixed-price subcontract intervenes between the purchaser and the Government), regardless of whether title passes at point of origin or at destination in the United States. If a fixed-price prime or fixed-price subcontract intervenes, the criteria stated in subparagraph (3) of this paragraph should be followed; and

(3) Purchases abroad by a fixed-price contractor, fixed-price subcontractor, or cost-type subcontractor where a fixed-price prime, or fixed-price subcontract

intervenes, provided (i) the fixed-price prime and, where applicable, fixed-price subcontract prices are, or are amended to be, exclusive of duty; (ii) the prime contractor and, where applicable, the subcontractors concerned certify that the supplies so purchased are to be delivered to the Government or incorporated in Government-owned property or in an end product to be furnished to the Government, and that the duty will be paid if such supplies or any portion thereof are utilized for other than the performance of the Government contract or disposed of other than for the benefit of the Government in accordance with the contract terms; and (iii) such procurement abroad is authorized by the terms of the prime contract, the applicable subcontract, or by the contracting officer.

In any such case the procedures required by the clauses in § 6.603–3 and by § 6.603–4 shall be followed to the extent practicable.

§ 6.603–3 Contract clauses.

(a) *Duty-free entry for designated items.* Within the limits of § 6.603–2(a) the following clause shall be used where the contracting officer definitely knows at the time of execution of the contract that foreign supplies (other than those for which duty-free entry is to be accorded pursuant to a clause authorized by § 6.605), on which the estimated aggregate duty exceeds $1,000, are to be imported into the United States, its possessions, or Puerto Rico, in connection with performance of the contract.

DUTY-FREE ENTRY FOR CERTAIN SPECIFIED ITEMS (NOV. 1961)

(a) Except as otherwise approved by the Contracting Officer, no amount is or will be included in the contract price on account of duty with respect to those supplies that are specifically identified in the schedule as supplies to be accorded duty-free entry.

(b) The Contractor warrants that all such supplies for which duty-free entry is to be claimed are intended to be delivered to the Government or incorporated in the end items to be delivered under this contract, and that duty shall be paid by the Contractor to the extent that such supplies, or any portion thereof (if not scrap or salvage), are diverted to nongovernmental use other than as a result of a competitive sale made, directed or authorized by the Contracting Officer.

(c) The Government agrees to execute duty-free entry certificates and to afford such assistance as appropriate in order to obtain the duty-free entry of supplies as to which the shipping documents bear the notation specified in paragraph (d) below, except as the Contractor may otherwise agree.

(d) All shipping documents submitted to Customs, covering those supplies that are specifically identified in the Schedule as supplies to be accorded duty-free entry, shall bear the following information:

(i) Government prime contract number;

(ii) Identification of carrier;

(iii) The notation: "UNITED STATES (insert name of Military Department)—DUTY-FREE ENTRY TO BE CLAIMED pursuant to Act of August 10, 1956 (10 U.S.C. 2383)." Upon arrival of shipment at port of entry, Collector of Customs, kindly notify the (insert title and address of Government representative), who will execute Customs Forms 7501 and 7501A and the Duty-Free Entry Certificate;

(iv) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight); and

(v) Estimated value in United States dollars.

(e) The Contractor agrees to instruct the foreign supplier to prepare a sufficient number of copies of the bill of lading (or other shipping document) so that at least two of the copies accompanying the shipment will be available for use by the Collector of Customs at the port of entry. The foreign supplier shall also be instructed to forward, at the time of shipment, a memorandum copy of the bill of lading (or other shipping document) to the designated Government representative.

(f) The Contractor will make appropriate provisions in subcontracts hereunder to assure that the entire substance of this clause is agreed to by each first- or lower-tier subcontractor, if any, who will import into the United States, its possessions, or Puerto Rico, supplies identified in the Schedule as supplies to be accorded duty-free entry.

(b) *Duty-free entry for items not identified in the contract.* Within the limits of § 6.603–2(a), the following clause shall be used unless the contracting officer anticipates that, in connection with the performance of the contract, neither the prime contractor nor any first-tier subcontractor will make any purchase of foreign supplies in excess of $10,000 that would not be covered either by the clause in paragraph (a) of this section or by a clause authorized by § 6.605.

NOTICE OF IMPORTS—POSSIBLE DUTY-FREE ENTRY (NOV. 1961)

(a) Except as provided in paragraph (c) below, the Contractor shall notify the Contracting Officer in writing of any purchase in excess of $10,000 by the Contractor of foreign supplies (including without limitation raw materials, components, and intermediate assemblies) that are to be imported into the United States, its possessions, or Puerto Rico, for delivery to the Government, or for incorporation in end items to be delivered to the Government, under this contract; *Provided*, That if this contract contains any other clause providing for duty-free entry, such notice is not required for any supplies that are to be accorded duty-free entry under any other such clause. Any such notice shall be furnished to the Contracting Officer at least twenty (20) days before the importation of any supplies pursuant to any such purchase. The notice shall identify (i) the foreign supplies, (ii) the estimated amount of duty payable thereon, and (iii) the country of origin.

(b) If, within ten (10) days of receipt of any notice under (a) above, the Contracting Officer notifies the Contractor in writing that the Government will issue duty-free entry certificates for such foreign supplies, or if the Government otherwise tenders and the Contractor agrees to the issuance of such a duty-free entry certificate, the following subparagraphs shall apply:

(1) Except as otherwise approved by the Contracting Officer, the contract price shall be reduced by (or the allowable cost shall not include) the amount of duty which would be payable if duty-free entry certificates were not issued pursuant to the provisions of this clause.

(2) The Contractor warrants that all such foreign supplies for which duty-free entry certificates are to be issued in accordance with this clause are intended to be delivered to the Government or incorporated in end items to be delivered under this contract, and that duty shall be paid by the Contractor to the extent that such supplies, or any portion thereof (if not scrap or salvage), are diverted to non-governmental use other than as a result of a competitive sale made, directed or authorized by the Contracting Officer.

(3) The Government agrees to execute duty-free entry certificates and to afford appropriate assistance in order to obtain the duty-free entry of such foreign supplies as to which, pursuant to subparagraph (4) below, the shipping documents bear the notation specified therein, except as the Contractor may otherwise agree.

(4) All shipping documents submitted to Customs, covering foreign supplies for which duty-free entry certificates are to be issued in accordance with this clause, shall bear the following information:

(i) Government prime contract number;

(ii) Identification of carrier;

(iii) The notation: "UNITED STATES (insert name of Military Department)—DUTY-FREE ENTRY TO BE CLAIMED pursuant to Act of August 10, 1956 (10 U.S.C. 2383)." Upon arrival of shipment at port of entry, Collector of Customs, kindly notify the (insert title and address of Government representative), who will execute Customs Forms 7501 and 7501A and the Duty-Free Entry Certificate;

(iv) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight); and

(v) Estimated value in United States dollars.

(5) The Contractor agrees to instruct the foreign supplier to prepare a sufficient number of copies of the bill of lading (or other shipping document) so that at least two of the copies accompanying the shipment will be available for use by the Collector of Customs at the port of entry. The foreign supplier shall also be instructed to forward, at the time of shipment, a memorandum copy of the bill of lading (or other shipping document) to the designated Government representative.

(c) This clause shall not apply to purchases of foreign supplies in connection with this contract if (i) such foreign supplies are identical in nature with supplies purchased by the Contractor or any subcontractor hereunder in connection with his commercial business, and (ii) segregation of such supplies to insure use only on Government contracts containing duty-free entry provisions is not economical or feasible.

(d) The Contractor agrees to insert the substance of this clause in any first-tier subcontract hereunder in connection with which foreign supplies in excess of $10,000 may be imported by the subcontractor into the United States, its possessions, or Puerto Rico.

§ 6.603–4 Customs entries and duty-free certificates.

(a) When the clause set forth in § 6.603–3 (a) or (b) is used, the title and address of the Government representative responsible for preparing the Consumption Entry (Customs Form 7501) and Consumption Entry Permit (Customs Form 7501A) and executing the duty-free certificate shall be included in such clause.

(b) When the Government agrees to execute duty-free entry certificates for supplies, in accordance with the clauses set forth in § 6.603–3 or authorized by § 6.605, the contractor shall be notified that the foreign supplier is to include on the bill of lading (or other shipping document) the information required to be inserted on such documents as provided in the clause. Failure to include such information on the bill of lading (or other shipping document) will result in the shipment being treated as a shipment without benefit of free entry under 10 U.S.C. 2383.

(c) The designated Government representative shall, except as provided in paragraph (e) of this section, retain the importation copy of the bill of lading (or other shipping document) pending notification by the Collector of Customs that the shipment has been released. The notification will contain a request for Customs Form 7501, Customs Form 7501A, and the duty-free entry certificate.

(d) Upon receipt of a request for duty-free entry, the designated Government representative shall promptly prepare the required customs forms and execute the duty-free entry certificate in accordance with paragraph (f) of this section and forward two copies of Customs Form 7501 and one copy of Customs Form 7501A to the Collector of Customs submitting the request.

(e) When the designated Government representative is located in a Canadian supplier's plant, he shall be authorized to prepare Customs Form 7501, and Customs Form 7501A and to execute the duty-free entry certificate thereon. These Customs Forms shall be placed in a sealed envelope addressed to the "Collector of Customs, Port of Entry" and shall be securely attached to the two copies of the bill of lading (or other shipping document) for the Collector of Customs, which accompany the shipment.

(f) The duty-free entry certificate referred to in this section shall be printed, stamped, or typed on the face of Customs Form 7501 or attached thereto in the following form:

(Nov. 1961)

I certify that the procurement of this material constituted an emergency purchase of war material abroad by the Department of the (indicate Army, Navy, or Air Force) and it is accordingly requested that such material be admitted free of duty pursuant to the Act of August 10, 1956 (10 U.S.C. 2383).

(Name)

(Title), who has been designated to execute free entry certificates for the above-named Department

(Organization)

§ 6.603–5 Immediate release permits.

Immediate release permits, executed on Customs Form 3461 (Application for Special Permit for Delivery of Perishable and other Articles, Immediate Delivery of Which is Necessary), entitle all shipments qualifying as "emergency purchase of war material abroad" to be released immediately by the Collectors of Customs at the various ports of entry, prior to and pending the filing of Customs Forms 7501 and 7501A and a duty-free entry certificate. The existence of an immediate release permit on file at a port of entry does not dispense with the necessity of filing Customs Forms 7501 and 7501A and such duty-free entry certificates as are appropriate. Each Department shall designate the individuals responsible for issuance of Immediate Release Permits.

§ 6.604 Supplies for vessels or aircraft operated by the United States.

(a) Subject to the considerations set forth in § 6.602, a duty-free entry certificate may be issued when "certain supplies (not including equipment)" are purchased for vessels or aircraft operated by the United States. As used in this paragraph, the term "certain supplies (not including equipment)" includes articles known as "stores", such as food, medicines and toiletries, and, in addition, all consumable articles necessary and appropriate for the propulsion, operation and maintenance of the vessel or aircraft, such as fuel, oil, gasoline, grease, paint, cleaning compounds, solvents, wiping rags and polishes. It does not include portable articles necessary and appropriate for the navigation, operation or maintenance of the vessel or aircraft, and for the comfort and safety of the persons on board, such as rope, bolts and nuts, bedding, china and cutlery, which are included in the term "equipment." The procedures to be followed in the issuance of such certificates shall be as prescribed by the respective Departments.

(b) The duty-free entry certificate referred to in this section shall be printed, stamped, or typed on the face of Customs Form 7501, or attached thereto, and shall be executed by a duly designated officer or civilian official of the appropriate Department in the following form:

(JAN. 1959)

I certify that the procurement of this material constituted a purchase of supplies by the United States for vessels or aircraft operated by the United States, and is admissible free of duty pursuant to 19 U.S.C. 1309.

(Name)

(Title)

(Organization)

§ 6.605 Duty-free entry of listed Canadian supplies.

§ 6.605–1 Policy.

(a) In keeping with the policy to enhance economic cooperation with Canada in the interests of continental defense (§ 6.504), duty-free entry should generally be accorded Canadian supplies that constitute, or that are directly or indirectly incorporated in, end items included in the Departmental lists of supplies maintained pursuant to § 6.103–5 (a). (These Departmental lists include supplies of a military character or which are involved in programs of mutual interest to the United States and Canada. Parts and equipment for listed supplies, even though not separately listed, are considered to be included in the lists when they are procured under a contract that also calls for listed supplies.) Duty-free entry should be accorded such supplies by the issuance of duty-free entry certificates in accordance with §§ 6.605 through 6.605–5 and, in particular, as provided in the contract clause prescribed in § 6.605–2.

(b) In connection with contracts with United States prime contractors for the procurement of end items that are not included in the Departmental lists maintained pursuant to § 6.103–5(a), Canadian supplies that are themselves listed and are specifically identified in the contract as supplies that will be directly or indirectly incorporated in such unlisted end items should be accorded duty-free entry as provided in § 6.605–3.

§ 6.605–2 Contract clause.

Every contract in excess of $10,000, except construction contracts, that includes the procurement of end items contained in the list maintained by the Department concerned pursuant to § 6.103–5(a) shall include the following clause unless it is reasonably certain that no supplies will be imported from Canada by the contractor or any first- or lower-tier subcontractor in connection with the performance of the contract. The clause shall be included in invitations for bids or requests for proposals that are expected to lead to such a contract.

DUTY-FREE ENTRY—CANADIAN SUPPLIES (NOV. 1961)

(a) Except as otherwise approved by the Contracting Officer, no amount is or will be included in the contract price on account of duty with respect to:

(i) All end items which constitute "Canadian end products" (as defined in paragraph 6–101 of the Armed Services Procurement Regulation) to be delivered under this contract; and

(ii) All supplies (including, without limitation, raw materials, components and intermediate assemblies) produced or made in Canada which are to be incorporated in the end items to be delivered under this contract; provided, that such end items are made in the United States or Canada; except supplies imported into the United States prior to the date of this contract, or, in the case of supplies imported by a first- or lower-tier subcontractor hereunder, prior to the date of his subcontract.

(b) The Contractor warrants that all such Canadian supplies, for which such duty-free entry is to be claimed, are intended to be delivered to the Government or incorporated in the end items to be delivered under this contract, and that duty shall be paid by the Contractor to the extent that such supplies, or any portion thereof, (if not scrap or salvage), are diverted to nongovernmental use other than as a result of a competitive sale made, directed or authorized by the Contracting Officer.

(c) The Government agrees to execute duty-free entry certificates and to afford such assistance as appropriate in order to obtain the duty-free entry of Canadian end products or supplies as to which the shipping documents bear the notation specified in paragraph (d) below, except as the Contractor may otherwise agree.

(d) All shipping documents submitted to Customs, covering such Canadian end products or supplies for which duty-free entry is to be claimed, shall bear the following information.

(i) Government prime contract number;

(ii) Identification of carrier;

(iii) The notation: "UNITED STATES (insert name of Military Department)—DUTY-FREE ENTRY TO BE CLAIMED pursuant to Act of August 10, 1956 (10 U.S.C. 2383)." Upon arrival of shipment at port of entry, Collector of Customs, kindly notify the (insert title and address of Government representative), who will execute Customs Forms 7501 and 7501A and the Duty-Free Entry Certificate;

(iv) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight); and

(v) Estimated value in United States dollars.

(e) The Contractor agrees to instruct the foreign supplier to prepare a sufficient number of copies of the bill of lading (or other

shipping document) so that at least two of the copies accompanying the shipment will be available for use by the Collector of Customs at the port of entry. The foreign supplier shall also be instructed to forward, at the time of shipment, a memorandum copy of the bill of lading (or other shipping document) to the designated Government representative.

(f) This clause shall not apply to purchases of Canadian supplies in connection with this contract if (i) such Canadian supplies are identical in nature with supplies purchased by the Contractor or any subcontractor hereunder in connection with his commercial business, and (ii) it is not economical or feasible to account for such supplies so as to assure that the amount of such supplies for which duty-free entry is claimed pursuant to this clause does not exceed the amount thereof purchased in connection with this contract.

(g) The Contractor agrees to insert the substance of this clause, including this paragraph (g), in all subcontracts for supplies hereunder that exceed $5,000. Each such subcontract shall require the subcontractor to identify this contract by its contract number on any shipping documents submitted to Customs covering supplies for which duty-free entry is to be claimed pursuant to this clause.

If the procurement covers both listed and unlisted end items, the foregoing clause should be modified so as to limit its application to the listed end items.

§ 6.605–3 Listed supplies for unlisted end items.

In connection with negotiated contracts in excess of $10,000 with United States prime contractors for the procurement of end items that are not included in the Departmental lists maintained pursuant to § 6.103–5(a), if the prospective contractor specifically identifies listed Canadian supplies that will be directly or indirectly incorporated in such unlisted end items and if the contract price does not include any amount on account of duty with respect to such supplies, the contract should provide for the duty-free entry of such supplies by including provisions substantially as follows. The Schedule should identify the particular listed Canadian supplies that are to be accorded duty-free entry. The contract should include a clause like that in § 6.605–2, but modified so as to cover only the particular Canadian supplies that are specifically identified in the Schedule. Thus, the clause may be modified by:

(a) In paragraph (a), deleting (i) and (ii) and substituting the words "those supplies that are specifically identified in the Schedule as Canadian supplies to be accorded duty-free entry";

(b) In paragraph (c) of the clause, deleting the words "end products or";

(c) In paragraph (d) of the clause, deleting the words "Canadian end products or supplies" and substituting a reference to the particular Canadian listed supplies, as in paragraph (a) of this section; and

(d) As to paragraph (g) of this clause, limiting the "flow-down" provision to subcontracts for supplies specifically identified in the Schedule, or, if appropriate, deleting the provision.

§ 6.605–4 Issuance of duty-free entry certificates.

Duty-free entry certificates shall be issued in accordance with the procedures set out in § 6.603–4.

§ 6.605–5 Amending existing contracts.

Any existing contract may be amended so as to be made consistent with § 6.605–2 or 6.605–3; provided that, in the case of a fixed-price type contract, the contract price is reduced by the amount of the applicable duty. Under any cost-reimbursement type contract that has not been so amended, duty-free entry shall be accorded Canadian supplies to the extent permitted by § 6.602.

PART 7—CONTRACT CLAUSES

20. Add new §§ 7.104–37, 7.204–27, 7.303–24, 7.403–22, to read as follows:

§ 7.104–37 Required source for jewel bearings.

In accordance with the requirements of § 1.315 of this chapter, insert the clause set forth therein.

§ 7.204–27 Required source for jewel bearings.

In accordance with the requirements of § 1.315 of this chapter, insert the clause set forth therein.

§ 7.303–24 Required source for jewel bearings.

In accordance with the requirements of § 1.315 of this chapter, insert the clause set forth therein.

§ 7.403–22 Required source for jewel bearings.

In accordance with the requirements of § 1.315 of this chapter, insert the clause set forth therein.

21. Add new Subpart F to Part 7, as follows:

Subpart F—Clauses for Fixed-Price Construction Contracts

§ 7.601 Applicability.

As used throughout this subpart, the term "fixed-price construction contract" means any contract (other than a short form construction contract (see § 16.401–3 (a) and (b) of this chapter), a letter contract, a notice of award, or a modification not effecting new procurement) which (a) is entered into at a fixed price (with or without any provision for price redetermination, escalation, or other form of price revision as covered in § 3.403, and (b) is for construction as defined in § 1.201–22 of this chapter.

§ 7.602 Required clauses.

The following clauses shall be inserted, as required, in all fixed-price construction contracts, except as otherwise provided in this subpart.

§ 7.602–1 Definitions.

DEFINITIONS (NOV. 1961)

(a) The term "head of the agency" or "Secretary" as used herein means the Secretary, the Under Secretary, any Assistant Secretary, or any other head or assistant head of the executive or military department or other Federal agency; and the term "duly authorized representative" means any person or persons or board (other than the Contracting Officer) authorized to act for the head of the agency or the Secretary.

(b) The term "Contracting Officer" as used herein means the person executing this contract on behalf of the Government and includes a duly appointed successor or authorized representative.

§ 7.602–2 Specifications and drawings.

SPECIFICATIONS AND DRAWINGS (NOV. 1961)

The Contractor shall keep on the work a copy of the drawings and specifications and shall at all times give the Contracting Officer access thereto. Anything mentioned in the specifications and not shown on the drawings, or shown on the drawings and not mentioned in the specifications, shall be of like effect as if shown or mentioned in both. In case of difference between drawings and specifications, the specifications shall govern. In case of discrepancy either in the figures, in the drawings, or in the specifications, the matter shall be promptly submitted to the Contracting Officer, who shall promptly make a determination in writing. Any adjustment by the Contractor without such a determination shall be at his own risk and expense. The Contracting Officer shall furnish from time to time such detail drawings and other information as he may consider necessary, unless otherwise provided.

§ 7.602–3 Changes.

CHANGES (NOV. 1961)

The Contracting Officer may, at any time, by written order, and without notice to the sureties, make changes in the drawings and/or specifications of this contract if within its general scope. If such changes cause an increase or decrease in the Contractor's cost of, or time required for, performance of the contract, an equitable adjustment shall be made and the contract modified in writing accordingly. Any claim of the Contractor for adjustment under this clause must be asserted in writing within 30 days from the date of receipt by the Contractor of the notification of change unless the Contracting Officer grants a further period of time before the date of final payment under the contract. If the parties fail to agree upon the adjustment to be made, the dispute shall be determined as provided in the "Disputes" clause of this contract; but nothing provided in this clause shall excuse the Contractor from proceeding with the prosecution of the work as changed. Except as otherwise provided in this contract, no charge for any extra work or material will be allowed.

In the foregoing clause, the period of "30 days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures.

§ 7.602–4 Changed conditions.

CHANGED CONDITIONS (NOV. 1961)

The Contractor shall promptly, and before such conditions are disturbed, notify the Contracting Officer in writing of: (a) Subsurface or latent physical conditions at the site differing materially from those indicated in this contract, or (b) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inhering in work of the character provided for in this contract. The Contracting Officer shall promptly investigate the conditions, and if he finds that such conditions do so materially differ and cause an increase or decrease in the Contractor's cost of, or the

time required for, performance of this contract, an equitable adjustment shall be made and the contract modified in writing accordingly. Any claim of the Contractor for adjustment hereunder shall not be allowed unless he has given notice as above required; or unless the Contracting Officer grants a further period of time before the date of final payment under the contract. If the parties fail to agree upon the adjustment to be made, the dispute shall be determined as provided in the "Disputes" clause of this contract.

§ 7.602–5 Termination for default—damage for delay—time extensions.

Insert the clause set forth in § 8.709 of this chapter.

§ 7.602–6 Disputes.

(a) Except as provided in paragraph (b) of this section, insert the following clause:

DISPUTES (NOV. 1961)

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the head of the agency involved. The decision of the head of the agency or his duly authorized representative for the determination of such appeals shall be final and conclusive. This provision shall not be pleaded in any suit involving a question of fact arising under this contract as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged: Provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceedings under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This Disputes clause does not preclude consideration of questions of law in connection with decisions provided for in paragraph (a) above. Nothing in this contract, however, shall be construed as making final the decision of any administrative official, representative, or board on a question of law. In accordance with Departmental procedures, the foregoing clause may be modified to provide for intermediate appeal to the Head of the Procuring Activity concerned. The decision of the contracting officer referred to in the above clause shall, if mailed, be sent by certified mail, return receipt requested.

(b) In procurements to be performed outside the United States, its possessions and Puerto Rico, where it is anticipated that the contractor will be a foreign firm, one of the clauses provided for in § 7.103–12(b) will be inserted in accordance with the instruction therein.

(c) The form in which the contracting officer shall notify the contractor of his decision under the Disputes clause is set forth in § 1.314 of this chapter.

§ 7.602–7 Payments to contractor.

PAYMENTS TO CONTRACTOR (NOV. 1961)

(a) The Government will pay the contract price as hereinafter provided.

(b) The Government will make progress payments monthly as the work proceeds, or at more frequent intervals as determined by the Contracting Officer, on estimates approved by the Contracting Officer. If requested by the Contracting Officer, the Contractor shall furnish a breakdown of the total contract price showing the amount included therein for each principal category of the work, in such detail as requested, to provide a basis for determining progress payments. In the preparation of estimates the Contracting Officer, at his discretion, may authorize material delivered on the site and preparatory work done to be taken into consideration. Material delivered to the Contractor at locations other than the site may also be taken into consideration (1) if such consideration is specifically authorized by the contract and (2) if the Contractor furnishes satisfactory evidence that he has acquired title to such material and that it will be utilized on the work covered by this contract.

(c) In making such progress payments, there shall be retained 10 percent of the estimated amount until final completion and acceptance of the contract work. However, if the Contracting Officer, at any time after 50 percent of the work has been completed, finds that satisfactory progress is being made, he may authorize any of the remaining progress payments to be made in full. Also, whenever the work is substantially complete, the Contracting Officer, if he considers the amount retained to be in excess of the amount adequate for the protection of the Government, at his discretion, may release to the Contractor all or a portion of such excess amount. Furthermore, on completion and acceptance of each separate building, public work, or other division of the contract, on which the price is stated separately in the contract, payment may be made therefor without retention of a percentage.

(d) All material and work covered by progress payments made shall thereupon become the sole property of the Government, but this provision shall not be construed as relieving the Contractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work, or as waiving the right of the Government to require the fulfillment of all of the terms of the contract.

(e) Upon completion and acceptance of all work, the amount due the Contractor under this contract shall be paid upon the presentation of a properly executed voucher and after the Contractor shall have furnished the Government with a release, if required, of all claims against the Government arising by virtue of this contract, other than claims in stated amounts as may be specifically excepted by the Contractor from the operation of the release. If the Contractor's claim to amounts payable under the contract has been assigned under the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), a release may also be required of the assignee.

§ 7.602–8 Assignment of claims.

ASSIGNMENT OF CLAIMS (NOV. 1961)

(a) Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Unless otherwise provided in this contract, payments to assignee of any moneys due or to become due under this contract shall not, to the extent provided in said Act, as amended, be subject to reduction or setoff. (The preceding sentence applies only if this contract is made in time of war or national emergency as defined in said Act and is with the Department of Defense, the General Services Administration, the Atomic Energy Commission, the National Aeronautics and Space Administration, the Federal Aviation Agency, or any other department or agency of the United States designated by the President pursuant to Clause 4 of the proviso of section 1 of the Assignment of Claims Act of 1940, as amended by the Act of May 15, 1951, 65 Stat. 41.)

(b) In no event shall copies of this contract of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret," "Secret," or "Confidential," be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive the same. However, a copy of any part or all of this contract so marked may be furnished, or any information contained therein may be disclosed, to such assignee upon the prior written authorization of the Contracting Officer.

The last two sentences of paragraph (a) of the foregoing clause shall be deleted from contracts entered into with foreign contractors.

§ 7.602–9 Material and workmanship.

MATERIAL AND WORKMANSHIP (NOV. 1961)

(a) Unless otherwise specifically provided in this contract, all equipment, material and articles incorporated in the work covered by this contract are to be new and of the most suitable grade for the purpose intended. Unless otherwise specifically provided in this contract, reference to any equipment, material, article, or patented process, by trade name, make, or catalog number, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition, and the Contractor may, at his option, use any equipment, material, article, or process which, in the judgment of the Contracting Officer, is equal to that named. The Contractor shall furnish to the Contracting Officer for his approval the name of the manufacturer, the model number and other identifying data and information respecting the performance, capacity, nature, and rating of the machinery and mechanical and other equipment which the Contractor contemplates incorporating in the work. When required by this contract or when called for by the Contracting Officer, the Contractor shall furnish the Contracting Officer for approval full information concerning the material or articles which he contemplates incorporating in the work. When so directed, samples shall be submitted for approval at the Contractor's expense, with all shipping charges prepaid. Machinery, equipment, material, and articles installed or used without required approval shall be at the risk of subsequent rejection.

(b) All work under this contract shall be performed in a skillful and workmanlike manner. The Contracting Officer may, in writing, require the Contractor to remove from the work any employee the Contracting Officer deems incompetent, careless, or otherwise objectionable.

§ 7.602–10 Contractor inspection system.

Insert the following clause in all contracts in excess of $10,000.

CONTRACTOR INSPECTION SYSTEM (NOV. 1961)

The Contractor shall (i) maintain an adequate inspection system and perform such inspections as will assure that the work performed under the contract conforms to contract requirements, and (ii) maintain and make available to the Government adequate records of such inspections.

§ 7.602–11 Inspection and acceptance.

INSPECTION AND ACCEPTANCE (NOV. 1961)

(a) Except as otherwise provided in this contract, inspection and test by the Government of material and workmanship required by this Contract shall be made at reasonable times and at the site of the work, unless the Contracting Officer determines that such inspection or test of material which is to be incorporated in the work shall be made at the place of production, manufacture, or shipment of such material. To the extent specified by the Contracting Officer at the time of determining to make off-site inspection or test, such inspection or test shall be conclusive as to whether the material involved conforms to the contract requirements. Such off-site inspection or test shall not relieve the Contractor of responsibility for damage to or loss of the material prior to acceptance, nor in any way affect the continuing rights of the Government after acceptance of the completed work under the terms of paragraph (f) of this clause, except as hereinabove provided.

(b) The Contractor shall, without charge, replace any material, or correct any workmanship found by the Government not to conform to the contract requirements, unless in the public interest the Government consents to accept such material or workmanship with an appropriate adjustment in contract price. The Contractor shall promptly segregate and remove rejected material from the premises.

(c) If the Contractor does not promptly replace rejected material or correct rejected workmanship, the Government (1) may, by contract or otherwise, replace such material or correct such workmanship and charge the cost thereof to the Contractor, or (2) may terminate the Contractor's right to proceed in accordance with Clause 5 of these General Provisions.

(d) The Contractor shall furnish promptly, without additional charge, all facilities, labor, and material reasonably needed for performing such safe and convenient inspection and test as may be required by the Contracting Officer. All inspection and test by the Government shall be performed in such manner as not unnecessarily to delay the work. Special, full size, and performance tests shall be performed as described in this contract. The Contractor shall be charged with any additional cost of inspection when material and workmanship are not ready at the time specified by the Contractor for its inspection.

(e) Should it be considered necessary or advisable by the Government at any time before acceptance of the entire work to make an examination of work already completed, by removing or tearing out same, the Contractor shall, on request, promptly furnish all necessary facilities, labor, and material. If such work is found to be defective or nonconforming in any material respect, due to the fault of the Contractor or his subcontractors, he shall defray all the expenses of such examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements of the contract, an equitable adjustment shall be made in the contract price to compensate the Contractor for the additional services involved in such examination and reconstruction and, if completion of the work has been delayed thereby, he shall, in addition, be granted a suitable extension of time.

(f) Unless otherwise provided in this contract, acceptance by the Government shall be made as promptly as practicable after completion and inspection of all work required by this contract. Acceptance shall be final and conclusive except as regards latent defects, fraud, or such gross mistakes as may amount to fraud or as regards the Government's rights under any warranty or gurantee.

§ 7.602–12 Superintendence by contractor.

SUPERINTENDENCE BY CONTRACTOR (NOV. 1961)

The Contractor shall give his personal superintendence to the work or have a competent foreman or superintendent, satisfactory to the Contracting Officer, on the work at all times during progress, with authority to act for him.

§ 7.602–13 Permits and responsibilities.

PERMITS AND RESPONSIBILITIES (NOV. 1961)

The Contractor shall, without additional expense to the Government, be responsible for obtaining any necessary licenses and permits, and for complying with any applicable Federal, State, and municipal laws, codes, and regulations, in connection with the prosecution of the work. He shall be similarly responsible for all damages to persons or property that occur as a result of his fault or negligence. He shall take proper safety and health precautions to protect the work, the workers, the public, and the property of others. He shall also be responsible for all materials delivered and work performed until completion and acceptance of the entire construction work, except for any completed unit of construction thereof which theretofore may have been accepted.

§ 7.602–14 Conditions affecting the work.

CONDITIONS AFFECTING THE WORK (NOV. 1961)

The Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions which can affect the work or the cost thereof. Any failure by the Contractor to do so will not relieve him from responsibility for successfully performing the work without additional expense to the Government. The Government assumes no responsibility for any understanding or representations concerning conditions made by any of its officers or agents prior to the execution of this contract, unless such understanding or representations by the Government are expressly stated in the contract.

§ 7.602–15 Other contracts.

OTHER CONTRACTS (NOV. 1961)

The Government may undertake or award other contracts for additional work, and the Contractor shall fully cooperate with such other contractors and Government employees and carefully fit his own work to such additional work as may be directed by the Contracting Officer. The Contractor shall not commit or permit any act which will interfere with the performance of work by any other contractor or by Government employees.

§ 7.602–16 Patent indemnity.

PATENT INDEMNITY (NOV. 1961)

Except as otherwise provided, the Contractor agrees to indemnify the Government and its officers, agents, and employees against liability, including costs and expenses, for infringement upon any Letters Patent of the United States (except Letters Patent issued upon an application which is now or may hereafter be, for reasons of national security, ordered by the Government to be kept secret or otherwise withheld from issue) arising out of the performance of this contract or out of the use or disposal by or for the account of the Government of supplies furnished or construction work performed hereunder.

§ 7.602–17 Additional bond security.

Insert the clause set forth in § 7.103-6.

§ 7.602–18 Covenant against contingent fees.

COVENANT AGAINST CONTINGENT FEES (NOV. 1961)

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warrant the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.

§ 7.602–19 Officials not to benefit.

OFFICIALS NOT TO BENEFIT (NOV. 1961)

No member of Congress or resident Commissioner shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

§ 7.602–20 Buy American.

In accordance with the requirements of § 6.204 of this chapter, insert the contract clause set forth therein.

§ 7.602–21 Convict labor.

Insert the contract clause set forth in § 12.203 of this chapter.

§ 7.602–22 Nondiscrimination in employment.

In accordance with the requirement of § 12.802 of this chapter, insert the contract clause set forth therein.

§ 7.602–23 Labor standards provisions.

In accordance with the requirements of § 12.403 of this chapter, insert the clauses entitled:

Davis-Bacon Act.
Eight-Hour Laws—Overtime Compensation.
Apprentices.
Payroll Records and Payrolls.
Copeland ("Anti-Kickback") Act.
Withholding of Funds To Assure Wage Payment.
Subcontracts—Termination.

§ 7.602–24 Nondomestic construction materials.

In accordance with the requirements of § 6.204–4 of this chapter, include the clause set forth therein.

§ 7.602–25 Gratuities.

In accordance with the requirements of § 7.104–16, insert the contract clause set forth therein.

§ 7.602–26 Utilization of small business concerns.

In accordance with the requirements of § 7.104–14, insert the contract clause set forth therein.

§ 7.602–27 Federal, State and local taxes.

In accordance with the requirements of § 11.401 of this chapter, insert the contract clause set forth in § 11.401–1 or § 11.401–2 of this chapter as appropriate.

§ 7.602–28 Renegotiation.

In accordance with the requirements of § 7.103–13, insert the appropriate contract clause set forth therein.

§ 7.602–29 Termination for convenience of the Government.

In accordance with the requirements of §§ 8.703 and 8.705–2 of this chapter, insert the appropriate contract clause.

§ 7.602–30 Notice and assistance regarding patent infringement.

In accordance with the requirements of § 9.104 of this chapter, insert the contract clause set forth therein.

§ 7.602–31 Authorization and consent.

In accordance with the requirements of § 9.102–1 of this chapter, include the clause set forth therein.

§ 7.603 Clauses to be used when applicable.

§ 7.603–1 Notice to Government of labor disputes.

In accordance with the requirements of § 7.104–4, insert the contract clause set forth therein.

§ 7.603–2 Soviet-controlled areas.

In accordance with the requirements of § 6.403 of this chapter, insert the contract clause set forth therein.

§ 7.603–3 Filing of patent applications.

In accordance with the requirements of § 9.106 of this chapter, insert the contract clause set forth in § 9.106 or § 9.106–1, as appropriate.

§ 7.603–4 Reporting of royalties.

In accordance with the requirements of § 9.110 of this chapter, insert the appropriate contract clause set forth therein.

§ 7.603–5 Rights in data.

In accordance with the requirements of Subpart B, Part 9 of this chapter, insert one of the contract clauses set forth in § 9.203–1, 9.204–2, or 9.206 of this chapter, as appropriate. When the contract clause in § 9.203–1 is used, the appropriate additional provisions shall be added in accordance with the requirements in § 9.203, 9.203–2, 9.203–3, or 9.203–4; and the additional provision in § 9.204–1 may be added under the circumstances set forth in § 9.204–1.

§ 7.603–6 Military security requirements.

In accordance with the instructions of § 7.104–12, insert the contract clause set forth therein.

§ 7.603–7 Examination of records.

In accordance with the requirements of § 7.104–15, insert the contract clause set forth therein.

§ 7.603–8 Priorities, allocations, and allotments.

In accordance with the requirements of § 1.307–2 of this chapter, insert the contract clause set forth in § 7.104–18.

§ 7.603–9 Subcontracts.

In accordance with the requirements of § 3.903–1 of this chapter, insert an appropriate Subcontracts clause.

§ 7.603–10 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c).

§ 7.603–11 Price reduction for defective cost data.

In accordance with the instruction in § 7.104–29, insert the contract clause set forth therein.

§ 7.603–12 Workmen's compensation insurance overseas.

In accordance with the requirements of § 10.403 of this chapter, insert the clause entitled "Workmen's Compensation Insurance (Defense Base Act)".

§ 7.603–13 Taxes.

In accordance with the requirements of § 11.403–2 of this chapter, in contracts to be performed outside the United States, its possessions and Puerto Rico, insert one of the clauses set forth in paragraphs (a) and (b) thereof.

§ 7.603–14 Advance payments.

When advance payments are to be made in accordance with Subpart D, Part 163 of this chapter, insert the appropriate clause as set forth in § 163.64–2 of this chapter.

§ 7.603–15 Performance of work by contractor.

In accordance with the requirement of § 4.104–2 of this chapter, insert the contract clause set forth therein.

§ 7.603–16 Patent rights.

In accordance with the requirements of § 9.107 of this chapter in contracts involving experimental, developmental or research work, insert the appropriate contract clauses set forth therein.

§ 7.604 Additional clauses.

The following clauses shall be inserted in accordance with Departmental procedures where it is desired to cover the subject matter thereof in such contracts.

§ 7.604–1 Alterations in contract.

The contract clause set forth in § 7.105–1 may be inserted.

§ 7.604–2 Approval of contract.

The contract clause set forth in § 7.105–2 may be inserted.

§ 7.604–3 Price adjustment for suspension, delays, or interruption of work.

The following clause may be included in fixed-price construction contracts.

PRICE ADJUSTMENT FOR SUSPENSION, DELAYS, OR INTERRUPTION OF WORK (NOV. 1961)

(a) The Contracting Officer may order the contractor in writing to suspend all or any part of the work for such period of time as he may determine to be appropriate for the convenience of the Government.

(b) If, without the fault or negligence of the Contractor, the performance of all or any part of the work is for an unreasonable period of time, suspended, delayed, or interrupted by an act of the Contracting Officer in the administration of the contract, or by his failure to act within the time specified in the contract (or if no time is specified, within a reasonable time), an adjustment shall be made by the Contracting Officer for any increase in the cost of performance of the contract (excluding profit) necessarily caused by the unreasonable period of such suspension, delay, or interruption, and the contract shall be modified in writing accordingly. No adjustment shall be made to the extent that performance by the Contractor would have been prevented by other causes even if the work had not been so suspended, delayed, or interrupted. No claim under this clause shall be allowed (i) for any costs incurred more than twenty days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved (but this requirement shall not apply where a suspension order has been issued), and (ii) unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of such suspension, delay, or interruption but not later than the date of final payment under the contract. Any dispute concerning a question of fact arising under this clause shall be subject to the Disputes clause.

§ 7.604–4 Taxes where foreign agreements do not apply.

In accordance with the instructions of § 11.404 of this chapter, in contracts to be performed outside the United States, its possessions and Puerto Rico, the clause set forth therein may be inserted.

PART 8—TERMINATION OF CONTRACTS

22. Revise § 8.602–2 and in § 8.707, revise the clause heading and clause paragraph (d), to read as follows:

§ 8.602–2 Effect of termination for default.

(a) Under a termination for default the Government is not liable for the contractor's costs on undelivered work, and is entitled to the repayment of advance payments and progress payments, if any, applicable to such work. The Government may elect, pursuant to paragraph (d) of the Default clause (see § 8.707), to require the contractor to transfer title and deliver to the Government completed supplies and manufacturing materials, in the manner and to the extent directed by the contracting officer. The contracting officer shall not use the Default clause as authority to acquire any completed supplies or manufacturing materials unless he has made certain that the Government does not already have title thereto under some other provision of the contract. In the event manufacturing materials are to be acquired by the Government under the authority of the Default clause for the purpose of furnishing the materials to any other con-

tractor, the contracting officer shall take such action only after giving due consideration to the difficulties that such contractor may encounter in making use of the materials.

(b) Subject to the provisions of paragraph (c) of this section, the Government shall pay to the contractor the contract price for any completed supplies, and the amount agreed upon by the contracting officer and the contractor for any manufacturing materials, acquired by the Government pursuant to the Default clause.

(c) In order to protect the Government from overpayment for any completed supplies or manufacturing materials, that might result from failure to make provision for the Government's potential liability to laborers and materialmen for lien rights outstanding against such supplies or materials after the Government has paid the contractor therefor, the contracting officer shall take one or more of the following measures before making the payment referred to in paragraph (b) of this section:

(1) Ascertain whether the payment bonds, if any, furnished by the contractor are adequate to satisfy all lienors' claims; or whether it is feasible to obtain similar bonds to cover outstanding liens;

(2) Require the contractor to furnish appropriate statements from laborers and materialmen disclaiming any lien rights they may have to the supplies and materials;

(3) Obtain appropriate agreement by the Government, the contractor and lienors assuring release of the Government from any potential liability to the contractor or lienors;

(4) Withhold from the amount otherwise due for the supplies or materials such amount as the contracting officer determines to be necessary to protect the Government's interest, but only if the measures set forth in subparagraphs (1), (2), and (3) of this paragraph cannot be accomplished or are otherwise deemed inadequate;

(5) Take any other action the contracting officer deems appropriate, considering the particular circumstances and the degree of the contractor's solvency.

(d) The contractor is liable to the Government for any excess costs incurred in procuring supplies and services similar to those terminated for default (see § 8.602–6), and for any other damages, whether or not repurchase is effected (see § 8.602–7).

§ 8.707 Default clause for fixed-price supply contracts.

• • • • •

DEFAULT (NOV. 1961)

• • • • •

(d) If this contract is terminated as provided in paragraph (a) of this clause, the Government, in addition to any other rights provided in this clause, may require the Contractor to transfer title and deliver to the Government, in the manner and to the extent directed by the Contracting Officer (i) any completed supplies, and (ii) such partially completed supplies and materials parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing materials") as the Contractor has specifically produced or specifically acquired for the performance of such part of this contract as has been terminated; and the Contractor shall, upon direction of the Contracting Officer, protect and preserve property in possession of the Contractor in which the Government has an interest. Payment for completed supplies delivered to and accepted by the Government shall be at the contract price. Payment for manufacturing materials delivered to and accepted by the Government and for the protection and preservation of property shall be in an amount agreed upon by the Contractor and Contracting Officer; failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." The Government may withhold from amounts otherwise due the Contractor for such completed supplies or manufacturing materials such sum as the Contracting Officer determines to be necessary to protect the Government against loss because of outstanding liens or claims of former lien holders.

• • • • •

23. Revise § 8.709 and in § 8.710, revise the clause heading and clause paragraph (d), as follows:

§ 8.709 Default clause for fixed-price construction contracts.

(a) The following clause shall be used in all fixed-price construction contracts.

TERMINATION FOR DEFAULT—DAMAGES FOR DELAY—TIME EXTENSIONS (NOV. 1961)

(a) If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will insure its completion within the time specified in this contract, or any extension thereof, or fails to complete said work within such time, the Government may, by written notice to the Contractor, terminate his right to proceed with the work or such part of the work as to which there has been delay. In such event the Government may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of and utilize in completing the work such materials, appliances, and plant as may be on the site of the work and necessary therefor. Whether or not the Contractor's right to proceed with the work is terminated, he and his sureties shall be liable for any damage to the Government resulting from his refusal or failure to complete the work within the specified time.

(b) If fixed and agreed liquidated damages are provided in the contract and if the Government so terminates the Contractor's right to proceed, the resulting damage will consist of such liquidated damages until such reasonable time as may be required for final completion of the work together with any increased costs occasioned the Government in completing the work.

(c) If fixed and agreed liquidated damages are provided in the contract and if the Government does not so terminate the Contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.

(d) The Contractor's right to proceed shall not be so terminated nor the Contractor charged with resulting damage if:

(1) The delay in the completion of the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, acts of the public enemy, acts of the Government in either its sovereign or contractual capacity, act of another contractor in the performance of a contract with the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather, or delays of subcontractors or suppliers arising from unforeseeable causes beyond the control and without the fault or negligence of both the Contractor and such subcontractors or suppliers; and

(2) The Contractor, within 10 days from the beginning of any such delay (unless the Contracting Officer grants a further period of time before the date of final payment under the contract), notifies the Contracting Officer in writing of the causes of delay. The Contracting Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when, in his judgment, the findings of fact justify such an extension, and his findings of fact shall be final and conclusive on the parties, subject only to appeal as provided in the "Disputes" clause of this contract.

(e) If, after notice of termination of the Contractor's right to proceed under the provisions of paragraph (a) of this clause, it is determined that the delay is excusable under the provisions of paragraph (d) of this clause, such notice of termination shall be deemed to have been issued pursuant to the clause of this contract entitled "Termination for Convenience of the Government," and the rights and obligations of the parties hereto shall in such event be governed by such clause. (This paragraph (e) applies only if this contract contains such termination clause.)

(f) The rights and remedies of the Government provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

(b) During a period of national emergency, paragraph (d) of the above clause may be changed by deleting the word "unforeseeable" and inserting the phrase "other than normal weather," after the word "causes" wherever it appears.

§ 8.710 Default clause for fixed-price research and development contracts.

• • • • •

DEFAULT (NOV. 1961)

(d) If this contract is terminated as provided in paragraph (a) of this clause, the Government, in addition to any other rights provided in this clause, may require the Contractor to transfer title and deliver to the Government, in the manner and to the extent directed by the Contracting Officer any (i) completed or partially completed items not theretofore delivered to, and accepted by, the Government and any other property, including contract rights, specifically produced or specifically acquired for the performance of such part of this contract as has been terminated; and the Contractor shall, upon the direction of the Contracting Officer, protect and preserve property in the possession of the Contractor in which the Government has an interest. The Government shall pay to the Contractor the contract price, if separately stated, for completed work accepted by the Government and the amount agreed upon by the Contractor and the Contracting Officer for (i) completed work for which no separate price is stated, (ii) partially completed work, (iii) other property described above which is accepted by the Government, and, (iv) the protection and preservation of property. Failure to agree shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." The Government may withhold from amounts otherwise due the Contractor for such completed supplies or manufacturing materials such sums as the Contracting Officer determines to be necessary to protect the Government against loss because of outstanding liens or claims of former lien holders.

• • • • •

PART 10—BONDS AND INSURANCE

24. Revise paragraph (b)(2) in § 10.404–1; revoke § 10.404–2; and add new § 10.404, to read as follows:

§ 10.404–1 Negotiated fixed-price type contracts.

• • • • •

(b) • • •

(2) The Government need not assume the risk of damage to, or loss or destruction of, aircraft, as provided by the foregoing clause, if the best estimate of premium costs to be included in the contract price for insurance coverage for such damage, loss, or destruction at any plant or facility is less than $500. If it is determined not to assume such risks, the foregoing clause shall not be made a part of the contract. In such cases, however, if performance of the contract is expected to involve the flight of Government-furnished aircraft, the substance of the Flight Risks clause in § 10.404, suitably adapted for use in a fixed-price type contract, shall be used.

• • • • •

§ 10.404–2 Cost-reimbursement type contracts. [Revoked]

§ 10.404 Aircraft-flight risk.

(a) Cost-reimbursement type contracts for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involving the furnishing of aircraft to the contractor by the Government, shall, except as provided in paragraph (b) of this section, include the following clause.

FLIGHT RISKS (NOV. 1961)

(a) Notwithstanding any other provision of this contract, and particularly subparagraph (f)(1) of the Government Property clause and paragraph (c) of the Insurance—Liability to Third Persons clause, the Contractor shall not (i) be relieved of liability for damage to, or loss or destruction of, aircraft sustained during flight, or (ii) be reimbursed for liabilities to third persons for loss or of damage to property, or for bodily injury, which are caused by aircraft during flight, unless the flight crew members have previously been approved in writing by ----------[1]

(b) For the purpose of this clause:

(i) Unless otherwise specifically provided in the Schedule, the term "aircraft" means any aircraft, whether furnished by the Contractor under this contract (either before or after acceptance by the Government) or furnished by the Government to the Contractor under this contract, including all Government Property placed or installed thereon or attached thereto; provided, however, that such aircraft and property are not covered by a separate bailment agreement.

(ii) The term "flight" means any flight demonstration, flight test, taxi test, or other flight made in the performance of this contract, or for the purpose of safeguarding the aircraft, or previously approved in writing by the ----------[2] As to land based aircraft, "flight" shall commence with the taxi roll from a flight line and continue until the aircraft has completed the taxi roll to a flight line; as to sea planes, "flight" shall commence with the launching from a ramp and continue until the aircraft has completed its landing run and is beached at a ramp; as to helicopters, "flight" shall commence upon engagement of the rotors for the purpose of take-off and continue until the aircraft has returned to the ground and rotors are disengaged; and for vertical take-off aircraft, "flight" shall commence upon disengagement from any launching platform or device and continue until the aircraft has been re-engaged to any launching platform or device.

(iii) The term "flight crew members" means the pilot, the co-pilot and, unless otherwise specifically provided in the Schedule, the flight engineer, navigator, bombardier-navigator, and defensive systems operator, when required, or assigned to their respective crew positions, to conduct any flight on behalf of the Contractor.

(c) If any aircraft is damaged, lost, or destroyed during flight, and if the amount of such damage, loss, or destruction exceeds one hundred thousand dollars ($100,000) or twenty percent (20%) of the estimated cost (exclusive of any fee) of this contract, whichever is less, and if the Contractor is not liable for the damage, loss, or destruction pursuant to the "Government Property" clause of this contract together with paragraph (a) above, than an equitable adjustment for any resulting repair, restoration, or replacement that is required under this contract shall be made (i) in the estimated cost, delivery schedule, or both, and (ii) in the amount of any fee to be paid to the Contractor, and the contract shall be modified in writing accordingly; provided, in determining the amount of adjustment in the fee is equitable, any fault of the Contractor, his employees, or any subcontractor, which materially contributed to the damage, loss, or destruction shall be taken into consideration. Failure to agree on any adjustment shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(b) In the foregoing clause, the definition of "aircraft" may be appropriately modified in the Schedule if the contract covers helicopters, verticle take-off aircraft, lighter-than-air airships, or other nonconventional types of aircraft. If the contract includes the Government Property clause in § 13.506 of this chapter, the reference in subparagraph (a) of the foregoing clause to subparagraph (f)(1) of the Government Property clause should be changed to (i)(1).

[1] Insert in contracts of the Department of the Army, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy or the Department of the Air Force, the activity designated in accordance with Departmental procedures.

[2] Insert, in contracts of the Department of the Army or the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the activity designated in accordance with Departmental procedures.

PART 12—LABOR

25. Revise §§ 12.102–6 and 12.503 to read as follows:

§ 12.102–6 Construction contracts.

See § 4.107 of this chapter regarding expediting actions involving additional costs.

§ 12.503 Contract clause.

The Master Contract for the Repair and Alteration of Vessels (DD ASPR Form 731) includes a clause entitled "U.S. Department of Labor Safety and Health Regulations for Ship Repairing" directing the attention of the contractor to the applicability of these regulations.

PART 13—GOVERNMENT PROPERTY

26. Add new § 13.101–18 and in § 13.502, revise the clause heading and as to clause paragraph (f), revise the explanatory statement and subparagraph (7), as follows:

§ 13.101–18 Non-Defense Use.

Non-Defense Use means employment of industrial facilities for production other than for items produced for the United States Government or for foreign governments pursuant to authorization under § 13.701 which are either (a) military end items or (b) components to be physically incorporated into military end items.

§ 13.502 Government-furnished property clause for fixed-price contracts.

• • • • •

GOVERNMENT-FURNISHED PROPERTY (NOV. 1961)

• • • • •

The following provision (f) is for use in negotiated fixed-price contracts except those contracts involving Government-furnished Property relating to labor surplus area or small business setasides for which the provision (f) for advertised contracts shall be used:

(f)(1) • • •

•(7) If this contract is for the development, production, modification, maintenance or overhaul of aircraft, or otherwise involves the furnishing of aircraft by the Government, the "Ground and Flight Risk" clause of this contract shall control, to the extent it is applicable, in the case of loss or destruction of, or damage to, aircraft.

•This subparagraph may be omitted where it is clearly inapplicable and shall be deleted when the Ground and Flight Risk clause is omitted pursuant to § 10.404–1(b)(2) of this chapter.

27. In § 13.504, revise clause heading and clause paragraph (c); and in § 13.505, revise clause heading, revise the explanatory statement for alternative clause paragraph (c), and revise clause paragraph (h)(7), as follows:

§ 13.504 Special tooling clause for fixed-price contracts.

• • • • •

SPECIAL TOOLING (NOV. 1961)

• • • • •

(c) Within 60 days after delivery of the first production end items under this contract, or such later date as may be prescribed by the Contracting Officer, the Contractor shall if the Contracting Officer so requests, furnish the Contracting Officer a list of all special tooling acquired or manufactured by the Contractor for use in the performance of this contract. The list shall specify the nomenclature, tool number and related product part number or service, and unit or group cost of the special tooling. Upon completion or termination of all or a substantial part of the work under this contract the Contractor shall furnish a final list in the same form covering all items not previously reported under this paragraph; provided, however, that the Contracting Officer may by written notice waive this requirement or extend it until the completion of this contract and other contracts and subcontracts as to which approval has been obtained under paragraph (b) above. Special tooling which has become obsolete as a result of changes in design or specification need not be reported, except as provided for in paragraph (d).

• • • • •

§ 13.505 Government-furnished property clause for fixed-price type contracts with nonprofit institutions.

• • • • • •

GOVERNMENT-FURNISHED PROPERTY (NOV. 1961)

• • • • • •

In accordance with § 13.803, the following alternative paragraph (c) may be used:

• • • • • •

(b) (1) • • •

*(7) If this contract is for the development, production, modification, maintenance or overhaul of aircraft, or otherwise involves the furnishing of aircraft by the Government, the "Ground and Flight Risk" clause of this contract shall control, to the extent it is applicable, in the case of loss or destruction of, or damage to, aircraft.

*This subparagraph may be omitted where it is clearly inapplicable and shall be deleted when the Ground and Flight Risk clause is omitted pursuant to § 10.404–1(b)(2) of this chapter.

28. In § 13.506, revise clause heading, revise the explanatory statement in clause paragraph (c), and revise clause paragraph (i) (5); and revise §§ 13.600 and 13.601–1, to read as follows:

§ 13.506 Government property clause for cost-reimbursement type research and development contracts with nonprofit institutions.

• • • • • •

GOVERNMENT PROPERTY (NOV. 1961)

• • • • • •

In accordance with § 13.803, the following additional language may be added to paragraph (c):

• • • • • •

(i) (1) • • •

*(5) If this contract is for the development, production, modification, maintenance or overhaul of aircraft, or otherwise involves the furnishing of aircraft by the Government, the "Ground and Flight Risk" clause of this contract shall control, to the extent it is applicable, in the case of loss or destruction of, or damage to, aircraft.

*This subparagraph may be omitted where it is clearly inapplicable and shall be deleted when the Ground and Flight Risk clause is omitted pursuant to § 10.404–1(b)(2) of this chapter.

§ 13.600 Scope of subpart.

The preceding subparts of this part are intended to be applicable only to those situations in which Government property is provided to contractors or subcontractors of any tier, for use in connection with procurement by the military departments. This subpart relates to making available to contractors, former contractors, or other parties Government-owned industrial facilities under the control of a military department solely or principally for non-defense use. (As to making industrial facilities available principally for use in connection with procurement by military departments and incidentally for non-defense use, see § 13.407.) The question of making industrial facilities available for non-defense use may arise with respect to such property in the possession of the Government (e.g., machine tools in reserve storage) or in the possession of the potential user (e.g., where a contractor has completed the contract under which the property was originally provided.) Basic authority to permit the use of Government property on work other than for a military department is found in statutes authorizing the Secretaries to lease property under their control (see 10 U.S.C. 2667).

§ 13.601–1 General.

Whenever industrial facilities are made available for nondefense use, the user shall be charged a fair and reasonable rental; provided, that under Departmental procedures consistent with § 13.407(a) rental may be waived with regard to such property furnished solely for use in performing work for Government agencies. Such rental unless otherwise specified herein shall be established on the basis of sound commercial practice, including any prevailing commercial rates. Except as otherwise provided in § 13.601–2, such rental may, where permitted by the law under which the contract or agreement is executed, take into consideration obligations assumed by the user to protect and maintain the property as well as to perform other services as all or part of the consideration for the contract or agreement. The rental shall, in any event, be such as to prevent the user from obtaining an unfair competitive advantage by reason thereof over competitors who own their facilities or obtain them from private sources. The rental shall be charged on the basis of the time during which the property is available for use rather than on the basis of the time during which the property is actually used, except in the case of facilities, other than those covered by § 13.601–2, where it is determined by the Secretary concerned, or his representative duly authorized to approve the contract or agreement by which the property is made available, to be impracticable or contrary to the best interest of the Government. The Government shall make no warranty, express or implied, regarding the condition or fitness for use of any item of property.

29. In § 13.701, revise paragraphs (a) and (e); and revise §§ 13.802 and 13.803, as follows:

§ 13.701 Use without charge.

• • • • • •

(a) Such as approved by a Secretary or his designee;

• • • • • •

(e) It appears that the foreign government will place the contract with the contractor whether or not such use is authorized, or that no competitive pricing advantage will accrue to the contractor by virtue of such use; and

• • • • • •

§ 13.802 Transfer of title.

(a) Contracts with nonprofit institutions of higher education or nonprofit organizations whose primary purpose is the conduct of scientific research may provide, or may be amended to provide, that the contracting officer may transfer title to equipment to the contractor. Such transfer of title may be effected at the beginning, during the course of, or at the end of a contract provided:

(1) The equipment was purchased with grant or contract funds allocated for basic or applied scientific research;

(2) (i) Either the retention of [illegible] the Government would create an [illegible] istrative burden not warranted by the value of the equipment, or the keeping of inventory and records by the contractor would become prohibitively costly or expensive; or

(ii) It would be impractical or uneconomical to remove the equipment from the contractor's plant;

(3) The transfer of title will further the scientific research objectives of the Department concerned; and

(4) The transfer of title is not precluded by controls governing the equipment involved.

(b) The contracting officer may, where provision is made therefor by contract, vest in the contractor title to any item of equipment having an acquisition cost of $3,000 or less, following his written determination that the criteria in paragraph (a) of this section have been met. When the acquisition cost of an item of equipment is in excess of $3,000, the contracting officer may transfer title to the contractor upon the written approval of the head of the procuring activity or his designee. Such approval shall be given on the basis of the criteria in paragraph (a) of this section and only after considering whether transfer of title is consistent with any known need of the Department concerned. (No formal screening is required). In addition, for items of equipment having an acquisition cost in excess of $25,000, the approval of designated representatives of the three military departments must be secured. Such approval shall be given within sixty (60) days, but only after a reasonable check, commensurate with the value of the item involved, has established that there is no known requirement for the item within the respective Departments.

(c) Where title to equipment is vested pursuant to paragraph (a) of this section, the contractor shall be without further obligation to the Government with respect to such equipment, except that the contractor must agree, as a condition to taking title, that no charge will be made to the Government for depreciation, amortization, or use of, with respect to such equipment under any existing or future Government contract.

§ 13.803 Contract clauses.

Where it is anticipated that in connection with a contract, title to equipment may be vested in the contractor in accordance with this subpart, the alternate paragraph (c) of the clause in § 13.505 shall be included in fixed-price type contracts, and the addition to paragraph (c) of the clause in § 13.506 shall be included in cost-reimbursement contracts.

---

*In the case of the Department of the Army, the designee is Army Research Office, Office Chief of Research and Development, Washington 25, D.C.

In the case of the Department of the Navy, the designee is Chief of Naval Research, Office of Naval Research, Washington 25, D.C.

In the case of the Department of the Air Force, the designee is Air Force Systems Command (SCMKP), Andrews AFB, Maryland.

[illegible] 15—CONTRACT COSTS PRINCIPLES AND PROCEDURES

[illegible] revise §§ 15.205–1 and 15.205–33, as follows:

§ 15.205–1 Advertising costs.

(a) Advertising costs mean the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, trade papers, outdoor advertising, dealer cards and window displays, conventions, exhibits, free goods and samples, and the like.

(b) The only advertising costs allowable are those which are solely for (1) the recruitment of personnel required for the performance by the contractor of obligations arising under the contract when considered in conjunction with all other recruitment costs, as set forth in § 15.205–33, (2) the procurement of scarce items for the performance of the contract, or (3) the disposal of scrap or surplus materials acquired in the performance of the contract. Costs of this nature, if incurred for more than one defense contract or for both defense and other work of the contractor, are allowable to the extent that the principles in §§ 15.201–3, 15.201–4, and 15.203 are observed.

§ 15.205–33 Recruitment costs.

(a) Subject to paragraphs (b) and (c) of this section, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of help-wanted advertising, operating costs of an employment office necessary to secure and maintain an adequate labor force, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, and travel costs of applicants for interviews for prospective employment, are allowable to the extent that such costs are incurred pursuant to a well managed recruitment program. Where the contractor uses employment agencies, costs not in excess of standard commercial rates for such services are allowable.

(b) In publications, costs of help-wanted advertising that (1) includes color, (2) includes advertising material for other than recruitment purposes, or (3) is excessive in size (taking into consideration recruitment purposes for which intended and normal business practices in this respect) are unallowable.

(c) Cost of (1) help-wanted advertising and (2) excessive salaries, fringe benefits and special emoluments that have been offered to prospective employees, designed to "pirate" personnel from another defense contractor, or in excess of the standard practices in the industry, are unallowable.

PART 16—PROCUREMENT FORMS

1. Revise paragraph (b)(7) in § 16.303–2; revise paragraph (e) in § 16.401–4; and revise paragraph (b) in § 16.803–1, to read as follows:

§ 16.303–2 Conditions for use.

• • • • • •

(b) *Use as a purchase order of not more than $2,500.* • • •

(7) Where inspection and acceptance are at origin, where contract administration is performed at origin, where delivery at multiple destinations is required, or where otherwise appropriate, the Material Inspection and Receiving Report clause (§ 7.105–7 of this chapter) may be inserted in the schedule, when authorized by Departmental procedures.

• • • • • •

§ 16.401–4 Terms, conditions and provisions.

• • • • • •

(e) During a period of national emergency, clause 5(d)(1) of Standard Form 23A may be changed by deleting the words "unforeseeable causes" in the two places where they appear in the first sentence and substituting therefore the words "causes, other than normal weather".

• • • • • •

§ 16.803–1 Construction contracts.

• • • • • •

(b) Standard Form 1093 (Schedule of Deductions from Payments to Contractors) shall be used, in accordance with the provisions of § 12.404–9 of this chapter, to report deductions against payment vouchers of contractors on account of failure to comply with labor laws, regulations and clauses. To facilitate the work of contracting agencies in computing underpayments (and, where applicable, Eight Hour Laws penalties) in investigation reports involving apparent violations of the Davis-Bacon and related Acts, the Department of Labor has developed and will furnish, on request, Form SOL–164 "Wage Computation and Transcription Sheet." Use of this form is optional; its use will also facilitate review of investigation reports.

• • • • • •

[ASPR, Rev. 6, November 15, 1961] (Sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

J. C. LAMBERT,

Chapter V—Department of the Army

SUBCHAPTER F—PERSONNEL

PART 581—PERSONNEL REVIEW BOARDS

Army Board for Correction of Military Records

Section 581.3 is amended by revising paragraphs (c) (2) and (5), (d) (1) and (3), and (g) (1) (i), (2) (ii), (3) (i) and (4), as follows:

§ 581.3 Army Board for Correction of Military Records.

• • • • • •

(c) *Application for correction.* • • •

(2) *Time limit for filing application.* A claimant, his heir, or legal representative must file the application for correction of a record with the Secretary of the Army within 3 years after discovery of the alleged error or injustice. Failure to file within the time prescribed may be excused by the Board if it finds it would be in the interest of justice to do so. If the claimant, his heir, or legal representative files an application more than 3 years after he discovers the error or injustice, he must include in his application his reasons why the Board should find it is in the interest of justice to excuse the failure to file application within the time prescribed in this subparagraph.

• • • • • •

(5) *Review of application.* Each application and the available military or naval records pertinent to the corrective action requested will be reviewed to determine whether to authorize a hearing or to deny the application without a hearing. The Board will make this determination in all cases except those in which the application has been denied administratively for the reason that the applicant has not exhausted all other effective administrative remedies available to him or for the reason that the applicant did not file application within 3 years after he discovered the alleged error or injustice and did not submit any reason why the Board should find it to be in the interest of justice to excuse his failure to file the application within the prescribed 3 years. In connection with any application which it considers, the Board may recommend to the Secretary that the records be corrected, as requested by the applicant, without a hearing. The Board may deny an application if it determines that insufficient evidence has been presented to indicate probable material error or injustice, that the applicant has not exhausted other effective administrative or legal remedies available to him, that effective relief cannot be granted, or that the applicant did not file his application within 3 years after he discovered the alleged error or injustice and that insufficient evidence has been presented to warrant a finding that it would be in the interest of justice to excuse the failure to file within the prescribed 3 years. The Board will not deny an application on the sole ground that the record or records involved were made by or by direction of the President or the Secretary in connection with proceedings other than proceedings of a board for correction of military or naval records. If the application is denied, the applicant will be advised of the denial and that he is privileged to submit new and material evidence for consideration.

(d) *Entitlement to hearing*—(1) *General.* In each case in which a hearing is authorized, the applicant will be entitled to appear before the Board either in person or by counsel of his own selection or in person with counsel.

• • • • • •

(3) *Counsel.* As used in this section, the term "counsel" will be construed to include members in good standing of the Federal bar or the bar of any State, accredited representatives of Veterans' organizations recognized by the Administrator of Veterans' Affairs under section

3402 of Title 38, United States Code, and such other persons who, in the opinion of the Board, are considered to be competent to present equitably and comprehensively the request of the applicant for correction, unless barred by law.

• • • • •

(g) *Settlement of claims*—(1) *Authority.* (i) The Department of the Army is authorized to pay claims in accordance with section 1552, Title 10, United States Code.

• • • • •

(2) *Application for settlement.* • • •

(ii) In case the person whose record has been corrected is deceased, and where no demand is presented by a duly appointed legal representative of the estate, payments otherwise due shall be made to the surviving spouse, heir, or beneficiaries, in the order prescribed by the law applicable to that kind of payment; or if there is no such law covering order of payment, in the order set forth in section 2771 of Title 10, United States Code; or as otherwise prescribed by the law applicable to that kind of payment.

• • • • •

(3) *Settlement.* (i) Settlement of claims shall be based on the decision of the Secretary of the Army. Computation of the amounts due shall be made by the Finance Center, United States Army, Indianapolis, Ind. In no case will the amount found due exceed the amount which would otherwise have been paid or have become due under applicable laws had no error or injustice occurred. To the extent authorized by law and regulations, amounts found due may be reduced by the amount of any existing indebtedness to the Government, arising from military service.

• • • • •

(4) *Report of settlement.* In every case where payment is made, the amount of such payment and the names of the payee or payees will be reported to the Chairman of the Board.

• • • • •

[AR 15–185, 8 January 1962] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply sec. 1552, 70A Stat. 116; 10 U.S.C. 1552)

J. C. LAMBERT,
Major General, U.S. Army,
The Adjutant General.

Chapter VI—Department of the Navy

SUBCHAPTER C—PERSONNEL

PART 719—NONJUDICIAL PUNISHMENT, NAVAL COURTS AND CERTAIN FACT-FINDING BODIES

Liquidation of Forfeiture of Pay, and Procedures Concerning Clemency

Scope and purpose. Part 719 is amended by updating of § 719.204 in regard to liquidation of forfeiture of pay imposed by court-martial sentence and by revision of § 719.205 dealing with clemency relative to courts-martial.

1. The reproduction of paragraph 044270–5 of the Navy Comptroller Manual in § 719.204 is revised to read as follows:

§ 719.204 Appendix IV—Navy Comptroller Manual, Volume 4, Chapter 4, Part B, Section VII, dealing with effect on pay of sentences of courts-martial (referred to in § 719.113).

• • • • •

044270 *Forfeiture of Pay Courtmartial*

• • • • •

5 *Liquidation* Beginning with the effective date of the sentence, the forfeiture of pay will be checked against the member's account until the entire amount adjudged and approved has been checked except as otherwise provided in subpar 7 or until further execution of the sentence is stopped by action of proper authority In making a checkage for a fractional part of a month, one-thirtieth of the monthly rate of forfeiture will be checked for each day, treating each month as if it had 30 days. The periods during which a member is in a nonpay status will be excluded in computing the period during which the member's pay is forfeited pursuant to a court-martial sentence and will not reduce the period of forfeiture. When two courtmartial sentences decree forfeitures of pay for periods which run concurrently, the amount stated in each sentence will be forfeited only for the specified period mentioned in each and if the total amount of forfeitures during any period the sentences run concurrently exceeds the two-thirds limitation provided in the Manual for Courts-Martial, United States, 1951, par 126h(2), only two-thirds of the member's pay will be forfeited during such period. After the concurrent period has expired, pay is forfeited under the one remaining sentence only at the rate and for the time remaining in that sentence. Whenever it is determined that a forfeiture has been awarded by a court-martial in excess of the legal maximum authorized by the Manual for Court-Martial, the disbursing officer will report the facts to the commanding officer as required by Navy regulations, Art. 1921.

Example A

SPCM 12 10/60 TFP $90 (30 x 3), Member is AOL 3–12 Jan. (10 das). Check member's pay $21 for Dec., $20 for Jan., $30 for Feb., and remaining $19 for Mar: Total SPCM forfeiture $90.

Example B

SPCM 12 10 60 TFP $300 (50 x 6) and SCM 3/1/61 TFP $60 (60 x 1). Member is E–2(2) with S&FD ($108 plus $8 is $116). Check member's pay for SPCM $50 per month for the period 12/10/60 through 6/9/61, total checkage for SPCM $300. Since two-thirds of $116 is $77.33 and $50 of that is already forfeited, check member's pay only $27.33 (during March) for SCM. (Notify the commanding officer, by letter, of the reduced forfeiture action.)

Example C

SPCM 12 10 60 TFP $280 (70 x 4). Member is E–1(2), marries on 1/17/61, and is assigned to sea duty 2/16/61. The member's pay would be checked as follows: $49 for Dec., $70 for Jan., $46 for Feb. (HP $105 plus S&FD $4 less contribution to Q allot $40 leaves $69, maximum forfeitable is two-thirds of $69, thus $46), $48.67 for Mar. (same computation as Feb. except S&FD is $8 this month), and $14.60 for Apr. (9 das @ $48.67); total pay forfeited $228.27. (Notify the commanding officer, by letter, of the reduced forfeiture action.)

2. Section 719.205 is revised to read as set forth below.

(R.S. 161, secs. 801–940, 5031, 70A Stat. 36–78, 278, E.O. 10214 (3 CFR 1949–1953 Comp. p. 408), as amended, 5 U.S.C. 22, 10 U.S.C. 801–940, 5031)

By direction of the Secretary of the Navy.

[SEAL] ROBERT D. POWERS, Jr.,
Rear Admiral, U.S. Navy, Acting Judge Advocate General of the Navy.

FEBRUARY 15, 1962.

§ 719.205 Appendix V—Secretary of the Navy Instruction 5813.3A on policies and procedures concerning clemency relative to certain court-martial cases (referred to in §§ 719.122 and 719.127).

DEPARTMENT OF THE NAVY
OFFICE OF THE SECRETARY
WASHINGTON 25, D.C.

SECNAV INSTRUCTION 5815.3A

From Secretary of the Navy
To All Ships and Stations
Subj Clemency relative to certain court-martial cases; policy and procedures concerning
Encl (1) Retention on active duty by extension of enlistment for purpose of serving probation

1 *Purpose.* To set forth the policy and procedures to be followed in submitting to the Secretary of the Navy requests for clemency from persons undergoing certain court-martial sentences.

2 *Cancellation.* This Instruction cancels SECNAV Instruction 5815.3.

3. *Definitions.* a. "Clemency," as used herein, is the residual clemency exercised by the Secretary of the Navy or his designee and is defined as that action, other than correction of a legal error, which results in the mitigation, remission, or suspension of the whole, or any part, of the unexecuted portion of a sentence, restoration to duty, and when applicable, the full or partial restoration of grade.

b. The term "unsuspended punitive discharge," as used herein, does not apply to a punitive discharge which is to be executed as a result of vacation of suspension proceedings.

4. *Applicability.* a. This Instruction applies to all persons, other than commissioned officers and warrant officers, convicted by naval courts-martial, whose sentences include confinement for 8 months or more, and those whose sentences include an unsuspended punitive discharge, with or without confinement. It applies to former commissioned officers and warrant officers who have confinement remaining to be served following execution of dismissal or punitive discharge.

b. In especially deserving cases, when deemed appropriate by the commanding officer, this Instruction is applicable to any Navy or Marine Corps enlisted person serving confinement by virtue of the sentence of any court-martial.

c. When Coast Guard personnel serving sentences of courts-martial in a naval confinement facility meet the above criteria, progress reports prepared in accordance with this Instruction shall be submitted to the Naval Clemency Board via the Commandant, U.S. Coast Guard.

5. *Policy.* It is the policy of the Secretary of the Navy that persons within the purview of paragraph 4 of this Instruction, who are suitable, and evince a desire therefor (including such persons whose normal dates of expiration of enlistment might otherwise act as a bar to probation), be restored to duty upon completion of confinement, or a

portion thereof, to the end that they may show by their conduct and performance of duty during a probationary period, that they are entitled to have the suspended portion of their sentences remitted; and that those persons not suited for, or not desiring retention in the naval service, may be accorded such clemency as may be in the best interests of the naval service and the individual concerned.

6. *Naval Clemency Board.* To implement this policy, the Naval Clemency Board was established by the Secretary of the Navy to make appropriate recommendations in the cases of Navy and Marine Corps personnel eligible for clemency consideration. The Board is composed of representatives of the Commandant of the Marine Corps, the Chief of Naval Personnel, the Judge Advocate General, the Chief, Bureau of Medicine and Surgery, and the Navy Council of Personnel Boards. The Senior Officer presides. The Board bases its recommendations on the background of the individual concerned, his civil and military history, his adjustment in confinement or while awaiting completion of appellate review if not confined, motivation for future service, the nature and circumstances of the current offense(s), the recommendation of the commanding officer, and the recommendation of the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate.

7. *Periods of review.* Court-martial sentences will be reviewed by the Naval Clemency Board as follows:

a. Requests for restoration or waiver of restoration from persons sentenced to an unsuspended punitive discharge without confinement shall be submitted not earlier than receipt of the action of the officer exercising general court-martial jurisdiction nor later than the day following receipt of Board of Review decision.

b. Requests from personnel, whose sentences include a period of confinement, shall be submitted in accordance with the following schedule:

Sentence	Initial clemency requests to be submitted	Subsequent clemency requests to be submitted
Less than 8 months' confinement and punitive discharge.	30 days prior to release date, assuming full credit for good conduct time.	Not applicable.
8 months' to (but not including) 2 years' confinement.	Not earlier than 4 nor later than 6 months of confinement.	Every 8 months thereafter
2 years' or more confinement	Not earlier than 6 nor later than 8 months of confinement.	Annually thereafter

c. When deemed appropriate by the commanding officer, a special request may be submitted at any time prior to execution of discharge, or prior to completion of confinement when a punitive discharge is not included in the sentence. This type of request normally should be reserved for cases where bona fide information is received relative to humanitarian or hardship problems which can be alleviated only through clemency, in cases where information not previously considered becomes known that would alter a previous recommendation, or in those cases where it is obvious that further confinement would serve no useful purpose either to the naval service or the individual.

d. In the event of any emergency wherein the requirement for clemency action is considered by the commanding officer to be of an immediate nature, commanding officers may submit recommendations by message or speedletter to the Naval Clemency Board, copy to the Commandant of the Marine Corps, or the Chief of Naval Personnel, as appropriate. Such recommendations shall contain substantiating information.

e. When directed by the Senior Member, Naval Clemency Board, by the Chief of Naval Personnel, or by the Commandant of the Marine Corps.

8. *Procedure for submission of requests for clemency, progress reports, and promulgating orders.* a. Notwithstanding the status of appellate review or status of person's enlistment, requests and recommendations will be forwarded by the commanding officer to the Secretary of the Navy (Naval Clemency Board) via the Chief of Naval Personnel (Attn: Pers F31) or the Commandant of the Marine Corps (Attn: Code DK), as appropriate.

b. In cases referred for review to the Secretary of the Navy (Naval Clemency Board), an original and five copies of the Court-Martial Progress Report will be forwarded with the individual's clemency request or waiver of restoration. Progress reports forwarded from the U.S. Naval Disciplinary Command will be prepared using appropriate DD forms. Progress reports on individuals confined elsewhere or on individuals not sentenced to confinement may be prepared using the Court-Martial Progress Report (form NavPers 3047). However, use of the more complete DD form of report by all reporting activities possible is desirable.

(1) The original and five copies of a neuropsychiatric evaluation of the individual, by a military psychiatrist, shall be included unless the services of a psychiatrist are not available. In the event a psychiatrist is not available, a psychiatric summary by a medical officer shall be forwarded. However, in cases in which the individual requests restoration to duty, or in which any form of clemency is recommended by the command preparing the progress report, neuropsychiatric evaluations by a military psychiatrist should be provided if it is at all possible to do so.

(a) The neuropsychiatric evaluation should include particular reference to background, behavior patterns, tendencies to act out characterological patterns during active duty status, motivation, and potential for honorable service.

(2) The Court-Martial Progress Report shall, in all cases, contain the commanding officer's recommendation, with adequate substantiating information.

(3) Generally, the commanding officer referred to in the Court-Martial Progress Report, and the officer considered responsible for submission of the report, is the commanding officer on whose rolls the individual is carried. However, in the case of personnel serving sentence in Marine brigs, the commanding officer referred to in NavPers 3047, and the officer considered responsible for submission of the report, is the commanding officer of the brig, who will forward the report via the commanding officer on whose rolls the individual is carried.

c. In the event an individual executes a request or waiver which is a change from one previously forwarded, or when new information is obtained which would result in a change in a recommendation previously forwarded, and, in either situation, the Secretary's final action has not been received, notificaton shall be made immediately to the Secretary of the Navy (Naval Clemency Board). Appropriate forms and information supporting the new request or recommendation will then be forwarded (original and five copies) as soon as practicable.

d. Section 0118 of the JAG Manual requires the transmittal of a copy of each court-martial order to the Naval Clemency Board in every case wherein the sentence as approved includes a punitive discharge or confinement for 8 months or more. Additionally, in cases referred to the Secretary of the Navy (Naval Clemency Board) for clemency review wherein the sentence does not include a punitive discharge or confinement for 8 months or more (see subparagraph 4b above), the command submitting the progress report will forward with the progress report one copy of applicable court-martial orders. All court-martial orders shall promulgate the complete action of the convening authority, including the synopsis of the circumstances of the offense, when required by section 0117f, JAG Manual.

9. *Execution of punitive discharge without referral to the Secretary of the Navy for clemency review.* Unsuspended punitive discharges may be executed, upon completion of confinement, without referring cases to the Secretary of the Navy for clemency review, under the following circumstances:

a. When the provisions of JAG Manual section 0128 have been complied with, or

b. In cases where the individual executes a Waiver of Restoration (NavPers 3049) and the following additional requirements are satisfied (no exceptions to be made):

(1) Less than 2 months' confinement remain to be served on the date of execution of such waiver.

(2) A dishonorable discharge is not pending.

(3) No form of clemency is requested by the individual or recommended by the local clemency board or commanding officer.

(4) The individual has been served with the Board of Review decision.

(5) The right of appeal to the United States Court of Military Appeals has expired, or at the time of discharge will have expired, by termination of the prescribed 30-day period.

(6) The Notification of Intention to Execute Bad Conduct Discharge appearing on the waiver form is properly completed. (No alterations in language permitted.)

c. When a punitive discharge is to be executed under these provisions, the original and two copies of the Waiver of Restoration will be forwarded via the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate. Progress reports are not required in these cases.

10. *Clemency recommendations.* a. When considered appropriate, the commanding officer may recommend (but is not limited to) one or more of the following:

(1) Restoration to duty on probation.

(2) Remission of the punitive discharge.

(3) Reduction in confinement and/or forfeitures.

(4) Mitigation of the discharge to one less severe.

(5) Full or partial restoration of grade in especially deserving cases.

(6) No clemency.

b. In connection with clemency recommendations, the following factors have general or specific applicability:

(1) Nature of offense.

(2) Previous record of service.

(3) Adjustment in confinement.

(4) Sincerity of motivation.

(5) Potential value to the service.

(6) Extreme hardship.

c. Ordinarily, an individual is considered to be not restorable who:

(1) Was convicted of an offense involving moral turpitude, including larceny.

(2) Was convicted of a vicious, violent, or other felonious offense.

(3) Has a record of criminal acts or incorrigibility.

(4) Has a record of numerous military offenses.

(5) Is mentally or physically unfit for duty.

(6) Is a probation violator.

11. *Probation.* a. An individual may be considered for restoration to duty on probation even though he does not have sufficient time remaining in his current enlistment

(as extended for the purpose of making good lost time) to serve a reasonable period of probation. To become eligible for consideration in such a case, the individual concerned must consent to an extension of his enlistment for the required period (procedure described in enclosure(1)).

b. The probationary period will normally be a period of 6 months.

12. *Notification of the Secretary of the Navy's action.* The individual shall be notified as soon as practicable after receipt of any action by the Secretary of the Navy that affects his sentence. A copy of the letter promulgating the action, or a certified true extract therefrom, shall be filed in the individual's service record. In addition, an entry of the Secretary's action shall be made in the service record, clearly stating the date and conditions of the action and the authority therefor. In cases of restoration to duty, such entry shall include the specified date thereof, the period of probation, and the total unexecuted portion of the sentence(s) remaining to be executed in the event of vacation of suspension. In cases where the person has completed the period of confinement and is placed on probation relative only to the discharge, the fact should be clearly stated (i.e., "• • • no confinement remains to be served on this sentence.").

13. *Authority to withhold action.* a. Unsatisfactory conduct on the part of an individual or adverse information which becomes known to the commanding officer after submission of the progress report, may be cause to withhold any clemency action directed by the Secretary of the Navy.

b. The commanding officer shall normally withhold the clemency if the person's offense is sufficiently serious to be made a matter of official record, and shall take such action in every case where the offense involves escape or attempted escape or results in the forfeiture of good conduct time in confinement. Once the action of the Secretary has been withheld, the commanding officer may not thereafter execute any part of the clemency, nor may he execute a punitive discharge until final determination has been made by the Secretary.

c. Where the action of the Secretary of the Navy is withheld by the commanding officer as provided above, an immediate report to that effect, with the commanding officer's recommendation as to final determination, shall be forwarded direct to the Secretary of the Navy (Naval Clemency Board). A service-record entry shall be made stating the reasons the clemency was withheld.

14. *Liaison.* Coordination with Naval Clemency Board in exercise of clemency authority delegated by JAG Manual section 0122.

a. Officers who take action to remit or suspend any part or amount of the unexecuted portion of any sentence which includes a punitive discharge or 8 months or more of confinement pursuant to authority delegated by JAG Manual section 0122, will insure that one copy of the official action is forwarded, without delay, to the Senior Member, Naval Clemency Board, with one copy to BuPers or MarCorps, as appropriate.

b. In order that inconsistent or conflicting clemency actions may be avoided, prior to taking clemency action as described in subparagraph a above, the officer contemplating such action will determine whether or not the progress report of the individual concerned has been forwarded to the Secretary of the Navy (Naval Clemency Board) for clemency review.

(1) In the event the progress report has not been forwarded to the Secretary of the Navy (Naval Clemency Board) for review, the officer may exercise such clemency as he deems appropriate.

(2) In the event the progress report has been forwarded to the Secretary of the Navy (Naval Clemency Board) for review, the officer will inform the Naval Clemency Board of his contemplated clemency action. The Naval Clemency Board will then inform the officer:

(a) He may take clemency action; and/or

(b) What clemency action, if any, has been taken by the Secretary of the Navy. (The fact that the Secretary of the Navy has taken no clemency action does not prohibit the officer from taking clemency action. Also, the fact that the Secretary of the Navy has taken clemency action does not prohibit the officer from taking further clemency action if circumstances in a particular case so indicate.)

15. *Discharge.* a. Persons sentenced to an unsuspended punitive discharge will not be discharged until receipt of the Secretary of the Navy's action regarding clemency, except those who have requested immediate release and in whose cases the provisions of paragraph 9 of this Instruction have been complied with. When transfer for discharge has been effected, service-record entries will clearly indicate the status of clemency requests, the Secretary of the Navy's action thereon, and appellate review action.

b. Notwithstanding any provision herein, no person shall be discharged with a punitive discharge until such time as he has been served with the decision of the Board of Review and his right to appeal to the United States Court of Military Appeals has been foreclosed.

16. *Other uses of progress reports.* Copies of progress reports, requests of individuals concerned, recommendations thereon, and other relevant correspondence and information are included in a permanent file in each case. These data may become especially significant in the event of a subsequent petition by the individual to the Navy Discharge Review Board or the Board for Correction of Naval Records.

PAUL B. FAY, Jr.,
Under Secretary of the Navy.

Supply Dept., NWP, Washington, D.C.

RETENTION ON ACTIVE DUTY BY EXTENSION OF ENLISTMENT FOR PURPOSE OF SERVING PROBATION

1 *Procedure.* a In the case of an individual falling within the purview of subparagraph 11a of this Instruction, he shall be informed that in order to become eligible for probation he must have sufficient obligated active service remaining in his enlistment as will enable him to serve a reasonable period of probation. Otherwise, if he desires to obligate himself for the requisite period of active service, he is privileged to submit for consideration an agreement in the following form:

"I understand that in order that the unexecuted portion of my sentence may be suspended for the purpose of enabling me to be restored to active duty on probation, I must be obligated to serve on active duty for sufficient time in which to serve a reasonable period of probation. I further understand that, pursuant to Title 10, U.S. Code, section 972, and implementing directives, I shall be required to make up the period of _____ days I lost from my enlistment, unless I am sooner discharged. [Omit preceding sentence if the individual has not lost time which must be made good under that law.] Accordingly, I hereby agree to being retained on active duty for the period of my probation, such period not to exceed 1 year. I understand that the time remaining in my enlistment, as involuntarily extended for the purpose of making good time lost, will be included in this period. [Omit preceding sentence if not applicable.] I further understand that this suspension may be vacated for cause, in accordance with paragraph 97b, Manual for Courts-Martial, 1951, in which event the unexecuted portion of my sentence shall be executed."

b. The request shall be signed in duplicate by the individual. The original shall be retained in the individual's service record and the duplicate original, together with one copy, shall be forwarded with the Request for Restoration (Nav. Pers 3048).

c. Upon receipt of notification that the Secretary of the Navy has suspended the unexecuted portion of the sentence for purposes of probation, the service-record entry shall include the following:

"____(Name)____ is being retained in the public interest for convenience of the Government in an active-duty status under an extension of enlistment prescribed by the Secretary of the Navy for the period of probation, unless sooner discharged. ____(Name)____ has agreed to such retention."

[F.R. Doc. 62-1795; Filed, Feb. 21, 1962; 8:47 a.m.]

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

U.S. Arms Control and Disarmament Agency

Effective upon publication in the FEDERAL REGISTER, paragraph (d) is added to § 6.372 as set out below.

§ 6.372 U.S. Arms Control and Disarmament Agency.

• • • • • •

(d) One Public Affairs Adviser.

Title 7—AGRICULTURE

Chapter X—Agricultural Stabilization and Conservation Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order No. 70]

PART 1070—MILK IN CEDAR RAPIDS-IOWA CITY MARKETING AREA

Order Amending Order

§ 1070.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Cedar Rapids-Iowa City marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective immediately. Any delay in its effective date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of the said order are known to handlers. The recommended decision of the Assistant Secretary, United States Department of Agriculture, was issued January 3, 1962, and the decision of the Assistant Secretary containing all amendment provisions of this order, was issued February 2, 1962. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective immediately, and that it would be contrary to the public interest to delay the effective date of this order for 30 days after its publication in the FEDERAL REGISTER. (Sec. 4(c), Administrative Procedure Act, 5 U.S.C. 1001–1011.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as herein amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Cedar Rapids-Iowa City marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Delete paragraph (d) of § 1070.10 and substitute therefor the following:

(d) A plant (1) which is approved by a duly constituted health authority for the handling of Grade A milk; (2) which is operated by a cooperative association; and (3) from which the quantity of milk transferred by the association to plants of other handlers specified in paragraph (a) of this section plus that delivered by such association pursuant to paragraph (c) of this section and that delivered directly from the farms of members of such association to such plants is at least the following percentages, in the months indicated, of the total quantity of Grade A milk delivered by all producers who are members of the association:

Month:	*Minimum percentage*
September, October and November	50
May, June, and July	30
All other months	40

If written application is filed with the market administrator on or before the 5th day of any month, such plant may be designated a nonpool plant for such month and for any subsequent months, except such plant shall be a nonpool plant during any month in which it would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and pool plants in the Cedar Rapids-Iowa City marketing area than in the marketing area regulated pursuant to such other order.

2. Delete § 1070.14 and substitute therefor the following:

§ 1070.14 Producer milk.

"Producer milk" means all skim milk and butterfat produced by producers which is:

(a) Received at a pool plant directly from producers; or

(b) Diverted from a pool plant to a nonpool plant for the account of the operator of a pool plant or a cooperative association, subject to the following:

(1) Such diversions may be without limit during the months of April through August, but not be for more than 25 days' production of any producer during any other month and milk diverted in excess of this limit shall not be producer milk;

(2) Milk so diverted for the account of the operator of a pool plant shall be deemed to have been received at the plant from which diverted; and

(3) Milk so diverted from the plant of another handler for the account of a cooperative association shall be priced at the location of the plant from which diverted.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: As issued.

Signed at Washington, D.C., on February 16, 1962.

JAMES T. RALPH,
Assistant Secretary.

[F.R. Doc. 62-1830; Filed, Feb. 21, 1962; 8:49 a.m.]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. N]

PART 214—RELATIONS WITH FOREIGN BANKS AND BANKERS

Accounts With Foreign Banks

1. Effective February 13, 1962, Part 214 is amended by changing the designation of § 214.5 to § 214.6, and by inserting immediately prior thereto a new § 214.5 to read as follows:

§ 214.5 Accounts with foreign banks.

(a) Any Federal Reserve Bank, with the consent of the Board, may open and maintain accounts payable in foreign currencies with such foreign banks as may be designated by the Board.

(b) Notwithstanding other provisions of this part, any officer or other representatives of a Federal Reserve Bank which maintains an account with a foreign bank may conduct such negotiations and enter into such agreements, contracts, or understandings with such foreign bank as may be authorized or directed by the Federal Open Market Committee in order to effectuate the conduct of open market transactions of the Federal Reserve Banks incident to the opening, maintenance, operation, increase, reduction, or discontinuance of such account; and, in any such case, such negotiations, agreements, contracts, or understandings shall be subject to such authorizations, directions, regulations, and limitations as may be prescribed by, or pursuant to authority of, the Federal Open Market Committee.

(c) Any Federal Reserve Bank may, when authorized or directed so to do by, or under the authority of, the Federal Open Market Committee, carry on or conduct, through any other Federal Reserve Bank which maintains an account with a foreign bank, any open market transactions authorized by section 14 of the Federal Reserve Act. Transactions authorized by section 14 which are not open market transactions may be carried on or conducted through such other

Federal Reserve Bank only with the approval of the Board.

(d) Notwithstanding other provisions of this part, reports with respect to any accounts opened and maintained, and negotiations, agreements, contracts, and understandings entered into, pursuant to this section shall be made to the Board at least quarterly, and more frequently if so requested by the Board, by a duly authorized officer of the Federal Reserve Bank involved.

2a. The purposes of this amendment are (1) to regulate, as contemplated by statute, the opening and maintenance by Federal Reserve Banks of accounts with foreign banks, and (2) to provide that negotiations and agreements, contracts, or understandings entered into by a Federal Reserve Bank with foreign banks shall be subject to such authorizations, directions, regulations, and limitations as may be prescribed by the Federal Open Market Committee to the extent necessary to effectuate the conduct of open market transactions by the Federal Reserve Banks through such foreign accounts.

b. The notice and public procedure described in section 4(a) and section 4(b) of the Administrative Procedure Act and the prior publication described in section 4(c) of said Act are not followed in connection with this amendment for the reasons and good cause found as stated in paragraph (e) of § 262.1 of the Board's rules of procedure (Part 262), and especially because such notice and prior publication are unnecessary since they would not aid the persons affected and would serve no other useful purpose.

(Secs. 14 (e) and (g); 12 U.S.C. 358, 348a)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] MERRITT SHERMAN,
Secretary.

[F.R. Doc. 62-1783; Filed, Feb. 21, 1962; 8:45 a.m.]

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 3]

PART 107—SMALL BUSINESS INVESTMENT COMPANIES

Miscellaneous Amendments

There was published in the FEDERAL REGISTER on January 19, 1962 (27 F.R. 589) a notice of intention to amend §§ 107.102, 107.201, and 107.202 of Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations as revised in 26 F.R. 8232-8242 and amended (27 F.R. 167 and 27 F.R. 851).

Interested persons were given an opportunity to present their comments or suggestions pertaining thereto to the Investment Division, Small Business Administration, Washington 25, D.C., within a period of twenty-one days of the date of publication of the notice in the FEDERAL REGISTER. No comments or suggestions having been received within the said time period the amendments of the regulations as so proposed are hereby adopted as set forth below.

Because of the necessity for promptly applying the proposed amendments to the program authorized under the Small Business Investment Act of 1958, as amended, the subject amendments of the regulations shall become effective upon publication thereof in the FEDERAL REGISTER.

The Regulations Governing Small Business Investment Companies (26 F.R. 8232-8242) is hereby amended by:

1. Deleting the following language from § 107.102(g)(1): "and SBA shall be committed by said approval to issue a license if the terms and conditions of the approved proposal are completed;". As amended, § 107.102(g)(1) reads as follows:

§ 107.102 Proposal.

* * * * *

(g) After consideration of a Proposal SBA shall notify the Proponents, either:

(1) That the Proponents may proceed with all action necessary to qualify the Proposed Operator for execution and submission of a License Application; which action shall be completed and a License Application submitted by the Proposed Operator within 90 days from the date of said notice from SBA, unless such period is extended by SBA; or

2. Deleting paragraphs (a) and (b) of § 107.201 and substituting in lieu thereof the following:

§ 107.201 License application.

(a) A License Application may be submitted upon SBA Form No. 415[1] by the Proposed Operator only after issuance by SBA of the notice referred to under § 107.102(g)(1) and in accordance with instructions issued by SBA, including instructions contained in such notice. Such License Application shall be submitted within 90 days after issuance of said notice.

(b) Within 180 days after submission of a License Application, SBA will give due regard, among other things, to the need for financing of small business concerns in the area in which the Proposed Operator intends to commence business, the general character of the proposed management of the Proposed Operator, and the number of existing Licensees and the volume of their operations, and after consideration of all relevant factors, will in its discretion either issue a License to the Proposed Operator or notify the Proposed Operator that after consideration of all relevant factors the SBA will not issue a License to the Proposed Operator.

[1] Copies of SBA Form 415, License Application, together with instructions, are available at the office of the Deputy Administrator, Investment Division, Small Business Administration, 811 Vermont Avenue NW., Washington 25, D.C., and at all Regional Offices of the Small Business Administration, the addresses of which offices may be obtained from the office of the Deputy Administrator, Investment Division, Small Business Administration, 811 Vermont Avenue NW., Washington 25, D.C.

3. Deleting § 107.202(a) and substituting in lieu thereof the following:

§ 107.202 Prerequisites for issuance of License.

Prior to the issuance of a License, each Proposed Operator shall have:

(a) Executed and submitted a License Application, including such additional information, statements and representations as may be otherwise required by SBA.

Dated: February 13, 1962.

JOHN E. HORNE,
Administrator.

[F.R. Doc. 62-1800; Filed, Feb. 21, 1962; 8:47 a.m.]

[Amdt. 4 (Rev. 1)]

PART 108—LOANS TO STATE AND LOCAL DEVELOPMENT COMPANIES

Section 501 Loans

The Loans to State and Local Development Companies Regulation (Revision 1, 26 F.R. 1822) as amended (26 F.R. 3063, 26 F.R. 8831 and 27 F.R. 732) is hereby further amended by:

1. Adding a new paragraph (i) to § 108.501-1 as follows:

§ 108.501-1 Section 501 loans.

* * * * *

(i) *Disposal of obligations.* SBA may, in its discretion and upon such terms and conditions and for such consideration as shall be deemed to be reasonable, sell, assign, transfer or otherwise dispose of the note, and all other evidence of debt or security held in connection with the payment of any loan made under section 501 of the Small Business Investment Act of 1958, as amended.

The foregoing amendment is effective upon publication in the FEDERAL REGISTER.

Dated: February 16, 1962.

JOHN HORNE,
Administrator.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, The Sample, Inc., Buffalo, N.Y., Docket C-7, Oct. 23, 1961]

In the Matter of The Sample, Inc., a Corporation

Consent order requiring Buffalo, N.Y., furriers to cease violating the Fur Products Labeling Act by failing to disclose on fur products labels when fur was dyed, the manufacturer or seller, and the country of origin of imported furs; failing to disclose in newspaper advertising the names of animals producing the fur in fur products, or when fur was artificially colored; and failing in other respects to comply with labeling and invoicing requirements.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That The Sample, Inc., a corporation, and its officers, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

A. Failing to affix labels to fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

B. Setting forth on labels affixed to fur products:

1. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information.

2. Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

C. Affixing to fur products labels that do not comply with the minimum size requirements of one and three-quarters inches by two and three-quarter inches.

D. Failing to set forth on labels all the information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder on one side of such labels.

E. Failing to set forth on labels the item number or mark assigned to a fur product.

2. Falsely or deceptively invoicing fur products by: Failing to furnish invoices to purchasers of fur products showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of sections 5(b)(1) of the Fur Products Labeling Act.

3. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale of fur products, and which: Fails to disclose:

A. The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations.

B. That the fur product contains or is composed of bleached, dyed or otherwise artifically colored fur when such is the fact.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: October 23, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Colognes, Inc., et al., Rockville, Md., Docket 8310, Oct. 23, 1961]

In the Matter of Colognes, Inc., a Corporation, D'Henri, Inc., a Corporation, and Herman I. Porten and Henry W. Porten, Individually and as Officers of Said Corporations

Consent order requiring Rockville, Md., distributors of rebottled colognes, toilet waters, and perfumed sprays, to cease enclosing some of said products in cardboard boxes on the end of which was printed the fictitious price of $10.00 represented thereby as the usual retail price; and to cease representing falsely that their said products were perfumes through offering them for sale in the one dram bottles historically used in the sale of perfumes and in pasteboard cartons bearing brand names of well-known perfumes, for the price of one dollar per bottle.

The order to cease and desist is as follows:

It is ordered, That respondents, Colognes, Inc., and D'Henri, Inc., corporations, and their officers, and Herman I. Porten and Henry W. Porten, individually and as officers of said corporations, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale or sale of colognes or toilet waters, or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist, directly or indirectly from:

1. Representing that any amount is the retail price of a product in a trade area or areas, when such price is in excess of the price at which the product has been usually and customarily sold at retail in the trade area or areas where the representation is made.

2. Representing that cologne or toilet water is perfume.

3. Offering for sale or selling cologne or toilet water in bottles having the size and appearance of bottles commonly used for perfume, without clearly and conspicuously stating on said bottles or in immediate connection and conjunction therewith that such products are cologne or toilet water.

4. Using the name of any brand of perfume to describe cologne or toilet water, without clearly and conspicuously stating in immediate connection and conjunction therewith that such products are cologne or toilet water.

5. Furnishing means or instrumentalities to others by and through which they may mislead the public as to any of the matters and things prohibited in paragraphs 1 through 4 hereof.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting

forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Discontinuance of Free Distribution of the News Digest

The Securities and Exchange Commission will discontinue the weekly, free distribution of its "News Digest" after the issue of February 28, 1962. The work of printing and distributing the "News Digest" not only has outgrown the Commission's limited printing facilities, but has seriously interfered with other necessary printing required in day-to-day operations of the Commission. Moreover, the Congressional Joint Committee on Printing has recommended that offset reproduction operations of this magnitude should be performed by the Government Printing Office.

The "News Digest" will continue to be printed by G.P.O. and distributed on a daily basis by the Superintendent of Documents, at an annual subscription price of $15.00 for regular mail copies, or $31.80 for airmail copies. Orders or inquiries should be addressed to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Accordingly, the Commission amends § 200.80 of Title 17 of the Code of Federal Regulations as follows, effective March 1, 1962:

I. Appendix A of § 200.80 is amended by the deletion of paragraph 1 describing the News Digest, and by redesignating the remain'ng paragraphs as paragraphs 1 to 17.

II. Appendix C, *Statutes, Rules and Miscellaneous Publications*, of § 200.80 is amended by adding a paragraph at the end thereof to read as follows:

News Digest. A daily summary of orders decisions, rules and rule proposals issued by the Commission under the various laws it administers, together with a resume of financing proposals contained in Securities Act registration statements and of other Commission announcements.

(Secs. 19, 23, 48 Stat. 85, 901, as amended; sec. 20, 49 Stat. 833, 53 Stat. 1173; secs. 38, 211, 54 Stat. 841, 855; 15 U.S.C. 77s, 77sss, 78w, 79t, 80a-37, 80b-11)

Since these amendments relate only to matters of agency procedure and practice, the Commission deems that the public notice and other rule-making procedures provided in section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) are unnecessary.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55569]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

Informal Entries

The Customs Regulations now provide that serially numbered informal entries, customs Forms 5119 and 5119A which are prescribed for use in clearing merchandise when a customs cashier or acting cashier is not available, must be prepared by a customs officer. This requirement has been found to be unnecessarily restrictive and a cause of delay in clearing such merchandise. To permit such forms to be prepared by the importer or his agent under the control of a customs officer when the forms are for immediate use in making an informal entry, the third sentence of § 8.51 (a) is amended to read as follows: "Where there is no customs cashier or acting cashier serially numbered forms must be used, and they will be prepared by a customs officer unless such forms can be prepared under his control by the importers or their agents for immediate use in clearing merchandise under the informal entry procedure."

(R.S. 161, as amended, 251, secs. 498(a), 624, 46 Stat. 728, as amended, 759; 5 U.S.C. 22, 19 U.S.C. 66, 1498(a), 1624)

[SEAL] PHILIP NICHOLS, Jr., *Commissioner of Customs.*

Approved: February 14, 1962.

JAMES A. REED, *Assistant Secretary of the Treasury.*

Title 24—HOUSING AND HOUSING CREDIT

Chapter III—Public Housing Administration, Housing and Home Finance Agency

PART 1500—GENERAL PROCEDURAL PROVISIONS

PHA Records

Chapter III, Public Housing Administration, is amended as follows:

Section 1500.1 (a)(2) and (b) is amended by changing, in each instance where it appears, the title "Director of the Production Control Branch" to read "Chief of the Records Administration Section, Office Services Branch." As so amended § 1500.1 (a)(2) and (b) reads as follows:

§ 1500.1 PHA records.

(a) • • •

(2) The responsibility for compliance with this provision is vested in the Chief of the Records Administration Section, Office Services Branch. Persons desiring to consult such records should apply, in writing, to the Chief of the Records Administration Section, Office Services Branch, Public Housing Administration, Washington 25, D.C. Such applications shall identify as precisely as possible the official records which the applicant desires to consult, and shall set forth the facts bearing on the extent to which the applicant is a person properly and directly concerned with the matter involved. The Chief of the Records Administration Section, Office Services Branch shall advise the applicant in writing either (i) of the time and place at which the records will be available to him; or (ii) that the records are not available to the applicant, in which case the reasons shall be briefly stated.

(b) *Definition of official records.* The term "official records" as used in this part means documents which embody the official acts of the PHA and the documents which are filed with the PHA pursuant to statute, PHA regulations, or contract with the PHA, as determined by the Chief of the Records Administration Section, Office Services Branch. It does not include memoranda and other reports which reflect research and analysis preliminary to official action or which are otherwise merely part of the background upon which official action is predicated.

Approved: February 15, 1962.

MARIE C. MCGUIRE, *Commissioner.*

[F.R. Doc. 62-1786; Filed, Feb. 21, 1962; 8:46 a.m.]

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 46—RURAL SERVICE

Specifications for Contemporary Rural Mailboxes

The regulations of the Post Office Department in § 46.5 are amended by revising subparagraph (1) of paragraph (a) to include the requirements and limitations covering the manufacture of rural mailboxes of a contemporary design. As so amended, subparagraph (1) reads as follows:

§ 46.5 Rural boxes.

(a) *Specifications.*—(1) *Style.*—(i) *Standard.* There are three approved standard sizes of mail boxes for use on rural routes. Size 1 is approximately 19 inches long, 6½ inches wide, and 8¾ inches high. Size 1-A is approximately 21 inches long, 8 inches wide and 10½ inches high, with a letter slot in the door. Size 2 is approximately 23½ inches long, 11½ inches wide and 13½ inches high. Specifications and drawings which may be used for guidance in the manufacture of standard rural mail boxes may be obtained by writing to the Assistant Postmaster General, Bureau of Operations, Washington 25, D.C.

(ii) *Contemporary.* The engineering, manufacturing, and design control features of contemporary style rural mailboxes consist of, but are not necessarily limited to, the following:

(a) *Materials.* Approved metals are aluminum, aluminized steel, stainless steel and galvanized iron. Drawings mentioned in subdivision (i) of this subparagraph may be used for guidance in the manufacture of contemporary rural boxes.

(b) *Dimensions.* The general proportions should be the same as the standard rural box of similar size. Inside net length shall not be less than inside length of standard boxes. Inside height and width measurements of the box shall not be less than the comparable models of approved boxes. Height and width measurements may be interchanged. Rigid templates of the inside cross section of standard rural boxes and proposed boxes should be used to accurately compare the relative holding capacities.

(c) *Finishes.* All colors and color combinations must be approved in advance. Color chips must accompany sample boxes, together with detailed information on the system used for painting.

(d) *Workmanship.* Standards for workmanship shown on the drawings must be equaled or exceeded.

(e) *Miscellaneous.* Means for fastening contemporary boxes to a board for horizontal mounting on top of a box post shall be by direct screw fastening to side edges of the board through holes provided in exterior of box at sides and back. Where the design features of the bottom of the box do not permit the mounting board to fit snugly on all four sides, metal flanges must be permanently affixed to the box, against which the side edges of the mounting board can abut. The red signal flag must be positioned as near the front of the box as possible as a convenience to the carrier. Door handle, and corners of the hinge plate where it is fastened to the door, must be free of sharp burrs. Where a spring door catch is used, it must be flexible and must provide a uniform door opening and closing operation. Use of ornamental trim shall be subject to Departmental approval. Provision for optional use of a padlock shall be made. Where the actual holes to accommodate a lock are not pre-drilled, a template and instruction sheet must be furnished with each box. Prototype models of boxes submitted for approval should be accompanied by manufacturer's detailed drawings and material specifications.

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 501, 6005, 6009)

LOUIS J. DOYLE, *General Counsel.*

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 14185; FCC 62-198]

PART 1—PRACTICE AND PROCEDURE

Processing of FM and Noncommercial Educational FM Broadcast Applications

In the matter of revision of FM broadcast rules, particularly as to allocation and technical standards, Docket No. 14185; Petition of FM Unlimited, Inc., RM-94, for changes in FM station assignment rules.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 14th day of February, 1962;

The Commission having under consideration the proceedings in the above-captioned matter; and

It appearing, that, on December 6, 1961, the Commission adopted an Order (FCC 61-1447) establishing interim procedures for processing applications for FM broadcast facilities; that, on December 26, 1961, the Association of Federal Communications Consulting Engineers (the Association) submitted a request seeking to expand the F(50,50) curves issued for use with the interim procedures; and that the Commission deems it appropriate to enlarge and clarify its interim procedures in other respects; and

It further appearing, that the Association asks that the F(50,50) curves be expanded to permit applicants to make a more accurate determination of interference on the second and third adjacent channels for distances less than five miles from the transmitter site, alleging that such information would be most useful in preparing and evaluating FM proposals during the time the interim procedures are in effect; and

It further appearing, that the Commission is favorably disposed to grant this request, since it will assist interested persons in the preparation of such applications, but believes the objective of the Association can be accomplished by utilization of the F(50,90) curves for Television Channels 2-6, previously issued as part of the further notice of proposed rule making of July 1, 1960, in Docket No. 13340 (FCC 60-766), because the values obtained from the F(50,90) curves for distances below five miles are, for all practical purposes, the same as would be obtained from expanded F(50,50) curves; and that, for these reasons, the request of the Association is being granted to the extend indicated above; and

It further appearing, that, in adopting the interim procedures, it was decided to process only such applications as involved no interference with any existing or proposed station; that the Commission has now determined, on its own motion, that it will be feasible to relax this restriction to a limited degree to permit consideration of applications involving mutually prohibitive interference; and that adoption of a procedure, modified in this respect, would not prejudice the Commission in reaching a final determination in this matter; and

It further appearing, that, under the modified procedure, only applications clearly involving mutually prohibitive interference would be designated for hearing; that mutually prohibitive interference between the applications is the only interference involved; and that all of the applications so in conflict meet the interim criteria in all other respects; and

It further appearing, that, in addition to the foregoing, the modified procedure would be applied only where it is apparent that interference conflicts between the applications are such that a hearing will be necessary in any event, regardless of what rules or technical standards may be adopted by the Commission in this proceeding; that (unlike situations where mutual interference is less than prohibitive and it may be possible to grant several applications so in conflict, either prior to or after hearing under the new rules, notwithstanding mutual interference caused and received between such proposals) the ends of justice will be promoted by permitting at this time the limited class of applications described herein to proceed to hearing, subject to such rules as the Commission may adopt at the close of this proceeding; and that, to accomplish these purposes, the interim procedures are being modified herein in accordance with these considerations; and

It further appearing, that the amendment to the interim procedure set forth in the appendix hereto relates to practice and procedure before the Commission and, therefore, proposed rule making in accordance with the provisions of section 4 of the Administrative Procedure Act is not required; and

It further appearing, that authority for adoption of the subject amendment is contained in section 4(i) and 303(r) of the Communications Act of 1934, as amended, and § 1.16 of the Commission rules.

It is ordered, That, effective February 14, 1962, § 1.356 of the Commission rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: February 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE, *Acting Secretary.*

The note to § 1.356 is amended by revising paragraph (a)(1) and by adding a new provision; as amended, paragraphs (a)(1), (d), (e), and (f) of the note read:

§ 1.356 Processing of FM and noncommercial educational FM broadcast applications.

• • • • • •

NOTE: • • •

(a) • • •

(1) The station, operating as proposed, will not receive interference from any existing or proposed station within its predicted 1 mv/m (60 db/u) contour and will not cause interference to any existing or pro-

posed station within the existing or proposed station's 1 mv/m (60 db/u) contour: *Provided, however,* The Commission may designate applications for hearing which involve mutually prohibitive interference but otherwise comply with the interim criteria. (For example, applications for the same channel in the same community, specifying power and antenna height permitted by the interim criteria, may be designated for hearing; but applications for the same channel in the same community will be returned where any one of the applications involves a slight degree of interference with another proposal or any interference with an existing stations.)

• • • • •

(d) For field strength distances below five miles, use shall be made of the F(50,90) curves for Television Channels 2–6, dated June 20, 1960, set forth in the Further Notice of Proposed Rule Making of July 1, 1960, in Docket No. 13340 (FCC 60–766).

(e) The ratio of desired to undesired signals set out in paragraph (b) of § 3.313 of this chapter shall be used in determining interference. However, the desired and undesired signals shall be taken from the F(50,50) and F(50,10) curves in accordance with the provisions of paragraph (c) of this note.

(f) The interim criteria and procedures provided in this note shall not apply to construction permits or other FM broadcast station authorizations heretofore issued by the Commission or to applications for noncommercial education FM broadcast stations: *Provided, however,* In determining service and interference for such educational facilities, the provisions of paragraph (c) of this note shall apply.

[F.R. Doc. 62–1849; Filed, Feb. 21, 1962; 8:52 a.m.]

[Docket No. 14227; FCC 62–200]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

In the matter of amendment of Parts 2 and 4 of the Commission rules to combine AM, FM, and TV (aural) STL and intercity relay stations into single categories and permit multiplex operation to provide program circuits for more than one class of broadcast station operated by the same licensee.

1. On July 26, 1961, the Commission adopted a notice of rule making (FCC 61–987) proposing to amend its broadcast auxiliary rules to combine all aural STL stations (AM, FM & TV) into a single category called aural broadcast STL stations and to permit a single STL station to transmit more than one aural channel by means of multiplexing, to serve any or all of the classes of broadcast stations operated by a single licensee where the STL circuit runs between a common studio location and a common transmitter site. It was also proposed to permit the multiplexing of one or more aural channels on TV visual STL stations for the same purpose. Additional provisions dealt with the transmission of cues, orders, telemetry signals and other operational communications over both STL and intercity relay systems. Companion changes relating to control of the transmitter, bandwidths, equipment changes, and station identification were also included.

2. Comments were filed by the National Association of Broadcasters (NAB), Frontier Broadcasting Company, Travelers Broadcasting Service Corporation, Radio Service Corporation of Utah (KSL), and American Broadcasting Company (ABC). All of the comments supported the proposed amendments in general, but some requested either clarification or extension, as discussed below.

3. NAB endorsed the principle of the proposal which would conserve spectrum space and reduce costs of operation, but suggested that this would apply likewise to intercity relay systems. It requested that the language in § 4.631(c) be amended to make clear that a licensee could employ a single intercity relay system to provide more than one program circuit from one city to another city in which it operated more than one class of broadcasting station. Frontier also made this suggestion and further requested that the rules be made flexible enough so that it could terminate the television intercity relay system at the television transmitter site and then secure an additional circuit from the TV site to its AM broadcast station site serving the same city, either from a common carrier or by means of its own privately operated aural STL circuit. Travelers read into the proposal a meaning that would permit television intercity relay systems to carry aural programs destined for AM and FM stations operated by the licensees of TV stations and serving the same community and, with this understanding, endorsed the entire proposal. KSL proposed that the provisions of the rules be expanded to permit television intercity relay stations to carry aural programs to a network of AM stations in Idaho and Montana operated by various licensees. ABC, in reply comments, supported the proposal of KSL and endorsed the recommendations of the NAB and others.

4. The basic purpose of the proposed amendment was to improve the efficiency of frequency usage of the broadcast auxiliary services by permitting several program circuits to be transmitted over a single radio frequency channel. Such a provision would also reduce the cost to individual broadcasters of program relaying equipment. Thus a licensee operating an AM, FM, and TV station at a common transmitter site and producing programs at a common studio location could use a single radio frequency channel to deliver different program material to each station simultaneously. Similarly, a licensee utilizing a radio frequency channel to bring in program material from another station in another city could add program circuits to serve more than one class of broadcasting station. Such use would be consistent with the basic allocation of these frequencies for private program relay circuits, and we have no difficulty in adjusting the original proposal to include both STL circuits and intercity relay circuits. The relay system and rebroadcast station or stations using the system must be under common ownership, but the licensing of STL or intercity relay systems, or individual stations within such systems, to more than one broadcast licensee is not prohibited. Other broadcast stations may simultaneously utilize program material delivered over such systems with permission of the licensee or licensees.

5. Authority for the amendments adopted herein is contained in sections 4(i) and 303 (b) and (e) of the Communications Act of 1934, as amended.

6. *Accordingly, it is hereby ordered,* That effective March 26, 1962, Parts 2 and 4 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Adopted: February 14, 1962.

Released: February 19, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Parts 2 and 4 of the Commission rules are amended in the following respects:

1. Section 2.1 is amended by deleting the definitions "FM broadcast STL station" and "FM intercity relay stations", and inserting the following new definitions in the appropriate alphabetical order:

§ 2.1 Definitions.

• • • • •

Aural broadcast STL station. A fixed station utilizing telephony for the transmission of aural program material between a studio and the transmitter of a broadcasting station other than an international broadcasting station, for simultaneous or delayed broadcast.

Aural broadcast intercity relay station. A fixed station utilizing telephony for the transmission of aural program material between broadcasting stations other than international broadcasting stations, for simultaneous or delayed broadcast.

2. In § 2.106, the table of frequency allocations is amended by changing the entries in Column 9 for the band 942–952 Mc/s and footnote NG 9 is amended to read as follows:

§ 2.106 Table of Frequency Allocations.

Band (Mc/s)	Service	Class of station	Frequency (Mc/s)	Nature of {SERVICES stations
7	8	9	10	11

		International fixed public (Alaska, Hawaii and U.S. possessions only).	-------	
•	•	•	•	•

NG9 Aural broadcast intercity relay stations may be authorized to use the band 942–952 Mc/s on the condition that harmful interference will not be caused to other classes of stations operating in accordance with the Table of Frequency Allocations.

3. The title of Subpart E of Part 4, is changed to read as follows:

Subpart E—Aural Broadcast STL and Intercity Relay Stations

4. Section 4.501 is amended to read as follows:

§ 4.501 Classes of stations.

(a) *Aural broadcast STL station.* A fixed station utilizing telephony for the transmission of aural program material between a studio and the transmitter of a broadcasting station other than an international broadcasting station, for simultaneous or delayed broadcast.

(b) *Aural broadcast intercity relay station.* A fixed station utilizing telephony for the transmission of aural program material between broadcasting stations other than international broadcasting stations, for simultaneous or delayed broadcast.

5. Section 4.502 is amended to read as follows:

§ 4.502 Frequency assignment.

(a) An aural broadcast STL or intercity relay station may be assigned one of the following frequencies:

Mc/s	Mc/s	Mc/s	Mc/s
944.5	945.0	947.5	950.0
944.0	945.5	948.0	950.5
943.5	946.0	948.5	951.0
944.0	946.5	949.0	951.5
944.5	947.0	949.5	

(b) The use of the frequencies listed in paragraph (a) of this section by aural broadcast intercity relay stations, is subject to the condition that no harmful interference is caused to other classes of stations operating in accordance with the Table of Frequency Allocations contained in § 2.106 of this chapter.

(c) Any aural broadcast STL or intercity relay station for which there was outstanding a valid construction permit or license on April 16, 1958, specifying operation on any frequency between 890 Mc/s and 942 Mc/s, may continue to be operated on such frequencies for the remainder of the term specified in such authorization and may upon appropriate application therefor, be granted a renewal of such license, subject to the condition that no harmful interference shall be caused to the radiolocation service operating in the band 890–942 Mc/s and subject to the further condition that the licensee must accept any interference which may be caused by the operation of radiolocation stations in the band 890–942 Mc/s and industrial, scientific, and medical (ISM) equipment in the band 890–940 Mc/s.

6. Section 4.531 is amended to read as follows:

§ 4.531 Permissible service.

(a) An aural broadcast STL station is authorized to transmit aural program material between the studio and transmitter location of a broadcasting station, except an international broadcasting station, for simultaneous or delayed broadcast.

(b) An aural broadcast intercity relay station is authorized to transmit aural program material between broadcasting stations except international broadcasting stations, for simultaneous or delayed broadcast.

(c) Multiplexing of the STL or intercity relay transmitter may be employed to provide additional communication channels for the transmission of aural program material, operational communications, or material authorized to be transmitted over an FM broadcast station under a valid Subsidiary Communications Authorization (SCA). An aural broadcast STL or intercity relay station may not, however, be operated solely for the transmission of operational or subsidiary communications. Operational communications include cues, orders, and other communications directly related to the operation of the broadcast station as well as special signals used for telemetry or the control of apparatus used in conjunction with the broadcasting operation.

(d) All program material, including subsidiary communications, transmitted over an aural broadcast STL or intercity relay station shall be intended for use by broadcast stations owned or under common control of the licensee or licensees of the STL or intercity relay station. Other broadcast stations may simultaneously utilize such program material with permission of the STL or intercity relay station licensee.

(e) In any case where multiplexing is employed on an aural broadcast STL station for the simultaneous transmission of more than one aural channel, the STL transmitter must be capable of transmitting the multiple channels within the channel on which the STL station is authorized to operate and with adequate technical quality so that each broadcast station utilizing the circuit can meet the technical performance standards stipulated in the rules governing that class of broadcasting station. If multiplex operation is employed during the regular operation of the STL station, the additional circuits shall be in operation at the time that the required periodic performance measurements are made of the overall broadcasting system from the studio microphone input circuit to the broadcast transmitter output circuit.

7. Section 4.532 is amended to read as follows:

§ 4.532 Licensing requirements.

(a) An aural broadcast STL or intercity relay station will be licensed only to the licensee or licensees of broadcasting stations other than an international broadcasting station and for use with broadcast stations owned entirely by, or under common control of the licensee or licensees.

(b) More than one aural broadcast STL or intercity relay station may be licensed to a single licensee upon a satisfactory showing that the additional stations are needed to provide different program circuits to more than one broadcast station, to provide program circuits from other studios, or to provide one or more intermediate relay stations over a path which cannot be covered with a single station due to terrain or distance.

(c) If more than one broadcast station or class of broadcast station is proposed to be served by a single STL or intercity relay station, this information shall be clearly set forth in the application for construction permit or license.

(d) Each aural broadcast STL or intercity relay station will be licensed at a specified transmitter location to communicate with a specified receiving location and the direction of the main radiation lobe of the transmitting antenna will be one of the terms of the license.

8. Section 4.533(b) is amended to read as follows:

§ 4.533 Remote control and unattended operation.

• • • • •

(b) In cases where intermediate relay stations are employed in aural broadcast STL or intercity relay systems, such intermediate relay stations may be operated unattended if the following requirements are met:

(1) The transmitter shall be equipped with automatic circuits that will cause it to cease radiating at times when no signal is being received from the station which it is relaying.

(2) The transmitter shall be provided with adequate safeguards to prevent improper operation of the equipment.

(3) The transmitter installation shall be adequately protected against tampering by unauthorized persons.

(4) Whenever an intermediate relay station is in operation, appropriate observations shall be made at the receiving end of the STL or intercity relay circuits at intervals not exceeding one hour by a person holding a valid first or second class radiotelephone operator license, who shall take immedate steps to correct any condition of improper operation that may be observed.

(5) It shall be the responsibility of the licensee to insure that any repairs or adjustments that may be necessary are made by a person technically qualified to do so.

9. Section 4.535 is amended to read as follows:

§ 4.535 Emission and bandwidth.

(a) Aural broadcast STL and intercity relay stations normally will be authorized to employ frequency modulation only. The maximum frequency excursion of the carrier resulting from modulation, shall not exceed 200 kc/s above or below the assigned frequency.

(b) If multiplexing by means of one or more sub-carriers is employed, the maximum sub-carrier frequency used shall be such that 2M+2D does not exceed 500 kc/s, where M is the maximum modulating frequency in cycles per second and 2D equals the total carrier frequency excursion as the result of modulation, expressed in cycles per second.

(c) The channels assigned to aural broadcast STL and intercity relay stations are 500 kc/s in width, the assigned frequency being at the center of the channel. Emissions appearing outside the assigned channel shall be attenuated as follows:

(1) Any emission appearing on a frequency removed from the assigned frequency by between 250 and 500 kc/s shall be attenuated at least 25 decibels below the level of the unmodulated carrier. Compliance with this specification will be deemed to show the occupied bandwidth to be 500 kc/s or less.

(2) Any emission appearing on a frequency removed from the assigned frequency by more than 500 kc/s and up to and including 750 kc/s shall be attenuated at least 35 decibels below the level of the unmodulated carrier.

(3) Any emission appearing on a frequency removed from the assigned frequency by more than 750 kc/s shall be attenuated at least $43+10 \log_{10}$ (Power, in watts) decibels below the level of the unmodulated carrier.

10. Section 4.551 is amended to read as follows:

§ 4.551 Equipment changes.

(a) Prior Commission approval, upon appropriate application (FCC Form 313) therefor, is required for any of the following changes:

(1) A change in the transmitter as a whole (except replacement with an identical transmitter), or a change in power output.

(2) A change of frequency assignment.

(3) A change in the location of the STL transmitter (except relocation of the equipment within the same building).

(4) Any change in the antenna system which will increase the height of the antenna above the natural formation or man-made structure upon which it is mounted, by more than 20 feet or will result in an overall height above ground of more than 170 feet (except where the antenna is mounted below the top of an existing structure which is more than 170 feet high).

(5) Any change in the direction of the main radiation lobe of the transmitting antenna.

(b) Other equipment changes not specifically referred to above may be made at the discretion of the licensee, provided that the Engineer-in-charge of the radio district in which the station is located and the Commission in Washington, D.C., are promptly notified in writing upon the completion of such changes, and provided that the changes are set forth in the next application for renewal of license. Where such changes include the installation of multiplex equipment to provide additional aural channels, the purpose for which these added channels will be used shall be stated.

§§ 4.533, 4.534, 4.536, 4.561, 4.562, 4.563, 4.581 [Amendment]

11. The expression "Broadcast STL or FM intercity relay station" is changed to "Aural broadcast STL and intercity relay stations" in §§ 4.533(a), 4.536, 4.561, 4.562, 4.563 and 4.581.

12. Section 4.582 is amended to read as follows:

§ 4.582 Station identification.

(a) Each aural broadcast STL or intercity relay station shall transmit its call sign at the beginning and end of each period of operation, and during operation, at least once every hour, it shall either transmit its call sign or the call sign of the broadcast station with which it is associated. In cases when an unattended intercity relay system is operated as an "off-the-air" pickup and relay, the transmission of the call sign of the broadcast station which it is relaying will satisfy the hourly identification requirement.

(b) Station identification transmissions during operation need not be made when to make such transmission would interrupt a single consecutive speech, play, religious service, symphony concert, or other such productions. In such cases, the identification transmission shall be made at the first interruption of the entertainment continuity and at the conclusion thereof.

(c) Where more than one aural broadcast STL or intercity relay station is employed in an integrated relay system, the station at the point of origination may originate the transmission of the call signs of all of the stations in the relay system.

(d) Voice transmissions shall normally be employed for station identification. However, other methods of station identification may be permitted or required by the Commission.

13. Section 4.603(b) is amended to read as follows:

§ 4.603 Sound channels.

. . . . . .

(b) The aural portion of television broadcast program material may be transmitted over an aural broadcast STL or intercity relay station licensed under the provisions of Subpart E of this part.

14. In § 4.631 the title and paragraphs (b) and (c) are amended and new paragraphs (d) and (e) are added to read as follows:

§ 4.631 Permissible service.

. . . . . .

(b) A television broadcast STL station is authorized to transmit visual program material between the studio and the transmitter of a television broadcast station for simultaneous or delayed broadcast.

(c) A television intercity relay station is authorized to transmit visual program material between television broadcast stations for simultaneous or delayed broadcast.

(d) Multiplexing of an STL or intercity relay transmitter may be employed to provide additional communication channels for the transmission of aural program material and operational communications. A television broadcast STL or intercity relay station may not, however, be operated solely for the transmission of aural programs or operational communications. Operational communications include cues, orders, and other communications directly related to the operation of the television broadcast station as well as special signals used for telemetry or the control of apparatus used in conjunction with the broadcasting operation. Aural program material may include the sound accompanying the visual program material transmitted and aural program material for broadcast by AM and FM broadcast stations.

(e) All program material transmitted over a television broadcast STL or intercity relay station shall be intended for use by broadcast stations owned by or under common control of the licensee or licensees of the STL or intercity relay station. Other broadcast stations may simultaneously utilize such program material with permission of the STL or intercity relay station licensee.

15. Section 4.637 is amended to read as follows:

§ 4.637 Emission and bandwidth.

(a) Television broadcast auxiliary stations operating on frequencies above 1000 Mc/s may be authorized to employ any type of emission suitable for the transmission of the visual and such accompanying aural signals as may be permitted under the rules of this subpart.

(b) The channels assigned to television broadcast auxiliary stations are designated by upper and lower frequency limits. Emissions outside of these frequency limits shall be attenuated as follows:

(1) Any emission appearing on a frequency above the upper channel limit or below the lower channel limit by between zero and 50 percent of the assigned channel width, shall be attenuated at least 25 decibels below the level of the unmodulated carrier. Compliance with this specification will be deemed to show that the occupied bandwidth is no greater than the assigned channel width.

(2) Any emission appearing on a frequency above the upper channel limit or below the lower channel limit by between 50 percent and 150 percent of the assigned channel width, shall be attenuated at least 35 decibels below the level of the unmodulated carrier.

(3) Any emission appearing on a frequency above the upper channel limit or below the lower channel limit by more than 150 percent of the assigned channel width, shall be attenuated at least $43+10 \log_{10}$ (Power, in watts) decibels below the level of the unmodulated carrier.

16. Section 4.651 is amended by adding a new paragraph (c) to read as follows:

§ 4.651 Equipment changes.

. . . . . .

(c) Multiplexing equipment may be installed on any licensed television broadcast STL or intercity relay station without further authority of the Commission, provided that the Engineer-in-charge of the radio district in which the station is located and the Commission in Washington, D.C., are promptly notified in writing of such addition and the use which will be made of the additional aural circuits, and that the changes are shown in the next application for renewal of license for the station.

[F.R. Doc. 62-1850; Filed, Feb. 21, 1962; 8:52 a.m.]

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Mingo National Wildlife Refuge, Missouri

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MISSOURI

MINGO NATIONAL WILDLIFE REFUGE

Sport fishing on the Mingo National Wildlife Refuge, Missouri, is permitted only on the area designated by signs as open to fishing. This open area, comprising 4,300 acres or 99 percent of the total water area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis 8, Minnesota. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Crappies, black bass, (smallmouth, largemouth, spotted), buffalo, shad, and other minor species as permitted by State regulations.

(b) Open season: March 15, 1962, through September 30, 1962. Fishing is permitted from 5:30 a.m. to 7:30 p.m. daily.

(c) Daily creel limits: Crappies—30; black bass—10; buffalo and shad—no limit except 25 pounds plus one fish; creel limits for other minor species as prescribed by State regulations.

(d) Methods of fishing. (1) Pole and line, trotline, throwline, limb line, bank lines, jig or block line, artificial lures, hooks and bait are permitted; game fish may not be used for bait. No more than three unlabeled poles or more than thirty-three (33) hooks in the aggregate, may be used by any person at one time. Hooks may not be left unattended for more than 24 hours while in use. Hooks attached to throwlines or trotlines shall be staged not less than 2 feet apart. Trotlines and throwlines may not be attached together.

(2) No person shall use any electrical device, explosive, poison or chemical to kill, or stupefy fish, or take or attempt to take fish by rock or hand fishing, with or without hook.

(3) Boats and other floating craft are prohibited.

(e) Other provisions. (1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective to October 1, 1962.

R. W. BURWELL,
Regional Director, Bureau of Sport Fisheries and Wildlife.

FEBRUARY 15, 1962.

[F.R. Doc. 62-1787; Filed, Feb. 21, 1962; 8:46 a.m.]

PART 33—SPORT FISHING

Valentine National Wildlife Refuge, Nebraska

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE.

Sport fishing on the Valentine National Wildlife Refuge, Nebraska, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 3,680 acres or 38 percent of the total water area of the refuge, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis 8, Minnesota. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Northern pike, largemouth bass, yellow perch, black bullhead; and other minor species permitted by State regulations.

(b) Open season: March 16, 1962, through December 14, 1962; daylight hours only.

(c) Daily creel limits: Northern pike—6; largemouth bass—10; yellow perch—no limit; black bullhead—50; other minor species limits as prescribed by State regulations.

(d) Methods of fishing. (1) No more than two lines with two hooks on each line may be used.

(2) Boats, without motors, may be used for fishing purposes. Boats may be launched only at such areas as are designated by posting.

(3) Spearing and bow fishing are not permitted.

(4) No person shall use minnows, fish, or parts thereof, for bait, nor have in possession any seine or net for capturing minnows.

(5) See applicable State regulations for additional details.

(e) Other provisions. (1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective to December 15, 1962.

R. W. BURWELL,
Regional Director, Bureau of Sport Fisheries and Wildlife.

FEBRUARY 15, 1962.

FEDERAL AVIATION AGENCY

Air Traffic Service

[14 CFR Part 600]

[Airspace Docket No. 62-NY-2]

FEDERAL AIRWAYS

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 600.1683 of the regulations of the Administrator, the substance of which is stated below.

Intermediate altitude VOR Federal airway No. 1683 extends in part from the Baltimore, Md., VOR to Harrisburg, Pa., VOR. The Federal Aviation Agency has under consideration the designation of a segment of Victor 1683 from the Tappahannock, Va., Intersection (intersection of Hopewell, Va., VOR 019° and the Cape Charles, Va., VOR 313° True radials) as a 16-mile wide airway via the Hopewell VOR to the Rocky Mount, N.C., VOR at which point it would terminate. This proposed segment of Victor 1683 would provide a by-pass route east of the Richmond, Va., terminal area for traffic overflying Rocky Mount destined for the Washington, D.C., Philadelphia, Pa., and New York, N.Y., terminal areas.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 15, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1776; Filed, Feb. 21, 1962; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-KC-37]

FEDERAL AIRWAYS AND CONTROLLED AIRSPACE

Alteration of Proposed Designation

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 61-KC-37 on August 23, 1961 (26 F.R. 7838), it was stated, in part, that the Federal Aviation Agency proposed to designate low altitude VOR Federal airway No. 465, and its associated control areas, from Miles City, Mont., to Williston, N. Dak.

The Air Transport Association of America in commenting on the notice, requested the designation of an east alternate airway to Victor 465, between Miles City and Williston. This would provide controlled airspace in which air traffic service could be afforded to scheduled air carrier operations at Glendive, Mont., and Sidney, Mont., which are intermediate stops between Miles City and Williston. Accordingly, action is taken herein to alter the original notice to include a proposal to designate a standard east alternate airway to Victor 465 between Miles City and Williston.

In order to provide interested persons time to adequately evaluate this proposal, as modified herein, and an opportunity to submit additional written data, views or arguments, the date for filing such material will be extended to May 3, 1962.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), I hereby give notice that the time within which comments will be received for consideration on Airspace Docket No. 61-KC-37 is extended to May 3, 1962. Communications should be submitted in triplicate to the Assistant Administrator, Central Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 15, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 14507; FCC 62-168]

ESTABLISHMENT OF FEES FOR THE COMMISSION'S LICENSING AND REGULATORY ACTIVITIES

Notice of Proposed Rule Making

Notice is hereby given of rule-making in the above-entitled matter.

In the provisions of the Independent Offices Appropriation Act of 1952, (5 U.S.C., sec. 140), set out in Appendix A hereto,[1] Congress has stated, "that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility performed, furnished provided, granted, prepared or issued by any Federal agency * * * to or for any person * * *, except those engaged in the transaction of official business of the Government, shall be self-sustaining to the full extent possible". In order to bring about the accomplishment of this objective, Section 140 of Title 5 authorizes the head of each agency to prescribe by regulation such fees and charges as he shall determine to be fair and equitable "taking into consideration direct and indirect cost to the Government, value to the recipient, public policy or interest served, and other pertinent facts."

The enabling legislation referred to above also provides that the fees and charges shall be as uniform as practicable and subject to such policies as the President may prescribe. The Bureau of the Budget operating in behalf of the President has issued Circular No. A-25, September of 23, 1959, which sets forth general policies for developing an equitable and uniform system of charges for certain Government services and property so as to implement the provisions of the Independent Offices Appropriation Act of 1952.

The Federal Communications Commission, in conducting its regulatory activities, conveys special benefits to identifiable recipients above and beyond those which accrue to the public at large. In fairness to the general taxpayer—who bears the major burden of supporting Federal agencies—the Government has adopted the policy that the recipient of special benefits conveyed by a Federal agency should pay a reasonable charge for the benefits received. In accordance with this policy, the Commission has determined that the public interest would be served by the establishment of a fair and equitable schedule of fees for its licensing and regulatory activities, thereby recouping for the Government a portion of the Commission's costs of regulating the communications industry. The authority for proceeding in this area is clearly outlined in the provisions set forth in Appendix A.

In arriving at the proposed schedule of fees, considerable effort has been directed towards selecting those services provided by the Commission which are readily identifiable and assigning to each a fair and equitable assessment, taking into consideration cost to the Government, value to the recipient, public policy or interest served, and other pertinent facts.

The fees as scheduled below do not differentiate between commercial and noncommercial services. It has been suggested alternatively that noncommercial services such as noncommercial educational FM and TV, the public safety radio services, and the experimental services should be charged either a token fee or should be free of any fee obligation. Comments on this point are specifically requested.

The contemplated fees relate generally to the filing of applications. All filing fees would be payable at the time of filing and would be charged regardless of whether the application is granted, designated for hearing or otherwise handled. The proposed fee schedules follow:

PROPOSED SCHEDULE OF FEES FOR BROADCAST SERVICES

For Filing Application	Fees		
	AM	FM	TV
For new station or major change	$150	$180	$300
For renewal or assignment of license or transfer of control [1]	150	150	200
For special call sign for broadcast station	5	----	----
All other applications in broadcast service (including all TV translator applications)	[2] 30	[2] 30	[2] 30

[1] Excluding pro-forma transactions, on which $30 would be paid under "other applications."
[2] For each application.

PROPOSED SCHEDULE OF FEES FOR SAFETY AND SPECIAL RADIO SERVICES

For Filing Application	*Fees*
For Amateur, RACES, and Disaster Radio Services	$5
For Citizens Radio Service	10
For all other safety and special radio services	20
For special amateur call sign pursuant to § 12.81	5

PROPOSED SCHEDULE OF FEES FOR COMMON CARRIER SERVICES

For Filing Application	*Fees*
Applications for initial construction permit (no additional charge for license to cover):	
Domestic public land mobile radio service (includes base station and associated mobile units)	$150
Point-to-point microwave radio service	100
Local television transmission service	50
Rural radio service and domestic public land mobile radio service individual user units	10
International fixed public radiocommunication services:	
Additional transmitter	150
Replacement of transmitter	50
Other common carrier services	10
Applications for renewal of license:	
Domestic public land mobile radio service (includes base station and associated mobile units)	75
Point-to-point microwave radio service	50
Local television transmission service	25
Rural radio service and domestic public land mobile radio service individual user units	5
International fixed public radiocommunication services	75
Other common carrier services	5
All other common carrier radio applications	10
Section 214 applications by telephone companies	100
Section 214 applications by telegraph companies	25

[1] Filed as part of original document.

PROPOSED SCHEDULE OF FEES FOR COMMON CARRIER SERVICES—Continued

For Filing Application	*Fees*
Cable landing license applications	250
Section 221 applications	50
Interlocking directorate applications	10
All other common carrier nonradio applications	10

PROPOSED SCHEDULE OF FEES FOR SHIP INSPECTION AND CERTIFICATION

Vessel Inspected	*Fees*
Based on certification under the Communications Act:	
Title III, Part II (Passenger)	$50
Title III, Part II (Cargo)	40
Title III, Part II (500–1600 gross tons)	20
Title III, Part III	10
Based on certification under Great Lakes agreement	20

PROPOSED SCHEDULE OF FEES FOR EXPERIMENTAL SERVICES

For Filing Application	*Fees*
All experimental services	$20

PROPOSED SCHEDULE OF FEES FOR COMMERCIAL OPERATOR EXAMINATIONS AND LICENSING

Function	*Fees*
Commercial operator examinations:	
First class	$5
Second class	4
Third class	3
Commercial operator license applications (includes renewals, endorsements, duplicates, etc.)	2
Restricted radiotelephone permits	2

Authority for the adoption of the amendments herein proposed is contained in section 4(i) of the Communications Act, section 140 of Title 5 of the United States Code, and Budget Bureau Circular A–25 (September 23, 1959).

Pursuant to applicable procedures set forth in § 1.213 of the Commission's rules, interested persons may file comments on or before April 16, 1962, and reply comments on or before May 16, 1962. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision on the rules of general applicability which are proposed herein, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

In accordance with the provisions of § 1.54 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: February 14, 1962.

Released: February 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62–1847; Filed, Feb. 21, 1962; 8:51 a.m.]

[47 CFR Part 1]

[Docket No. 10869; FCC 62–169]

ESTABLISHMENT OF FEES FOR THE COMMISSION'S LICENSING AND SIMILAR ACTIVITIES

Withdrawal of Notice of Proposed Rule Making

At a session of the Federal Communications Commission held at its offices in Washington, D.C. on the 14th day of February 1962:

The Commission having under consideration the proceedings in Docket No. 10869 concerning the establishment of a schedule of fees for the Commission's licensing and similar activities;

It appearing that on January 27, 1954, the Commission issued a Notice of Proposed Rule Making, FCC 54–76, published in the FEDERAL REGISTER, February 3, 1954 (19 F.R. 622), establishing a schedule of fees for the Commission's licensing and similar activity; and

It further appearing that on March 24, 1954, the Senate Interstate and Foreign Commerce Committee adopted a resolution (100 Cong. Rec. 3783) calling for suspension of action until July 1, 1955, in Docket No. 10869, and, in light of this resolution and discussion with the Budget Bureau, the Commission suspended further action in this proceeding; and

It further appearing that the record in Docket No. 10869 has since become obsolete and a reconsideration of the question of user charges has resulted in the Commission adopting, on February 14, 1962, a new notice of proposed rule making looking towards the establishment of fees for Commission licensing and regulatory activities;

It is ordered, That, effective February 28, 1962, the notice of proposed rule making, FCC 54–76, is withdrawn and proceedings in Docket No. 10869 are hereby terminated.

Released: February 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 121]

[Rev. 2]

SMALL BUSINESS SIZE STANDARDS

Notice of Proposal to Amend the Definition of Small Business for the Purpose of Government Procurement

Notice is hereby given that the Administrator of the Small Business Administration proposes to amend the Small Business Size Standards Regulation (Revision 2) so that it will be applicable to subcontractors of Government contracts as well as Government prime contractors. In addition, it is proposed to eliminate the phrase, "In the case of Government procurement reserved for or involving the preferential treatment of small businesses," contained in § 121.3–8(b)(2) of the aforementioned regulation. Further, said amendment will add to § 121.3–8(b)(2) the requirement that when cotton and synthetics are purchased by the Government, such textiles, together with others now set forth in § 121.3–8(b)(2) of the Regulation, must be manufactured or produced by a small weaver and if finishing is required, by a small finisher.

The sections to be amended presently read as follows:

§ 121.3–8 Definition of small business for Government procurement.

(a) *Small business definitions.* A small business concern for the purpose of Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is bidding on Government contracts, and can further qualify under the following criteria:

* * * * *

(b) *Definition of small business non-manufacturer.* Any concern which submits a bid or offer in its own name, other than a construction or service contract, but which proposes to furnish a product not manufactured by said bidder or offerer, is deemed to be a small business concern when:

(1) It is a small business concern within the meaning of paragraph (a) of this section, and

(2) In the case of Government procurement reserved for or involving the preferential treatment of small businesses, such non-manufacturer shall furnish in the performance of the contract the products of a small business manufacturer or producer which products are manufactured or produced in the United States: *Provided, however*, If the goods to be furnished are wool, worsted, knitwear, duck, webbing and thread (spinning and finishing), non-manufacturers (dealers and converters) shall furnish such products which have been manufactured or produced by a small weaver (small knitter for knitwear) and, if finishing is required, by a small finisher.

Interested persons may file with the Small Business Administration within thirty (30) days after publication in the FEDERAL REGISTER, written statements of facts, opinions, or arguments concerning the new definition.

All correspondence on this matter shall be addressed to:

Samuel S. Solomon, Director, Office of Small Business Size Standards, Small Business Administration, Washington 25, D.C.

It is proposed to change § 121.3–8 of the Small Business Size Standards Regulation (Revision 2) as follows:

The Small Business Size Standards Regulation (Revision 2) (26 F.R. 812), as amended, (26 F.R. 1441, 1983, 2778, 3064, 5708, 6642, 8592, 10633, 10634), is hereby further amended by deleting the first paragraph of § 121.3–8 and § 121.3–8(b) and substituting in lieu thereof a new first paragraph to § 121.3–8 and new § 121.3–8(b) as follows:

§ 121.3–8 Definition of small business for Government procurement.

(a) *Small business definitions.* A small business concern in connection with Government procurement matters, or in connection with subcontracts or purchase orders which relate to Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is bidding and can further qualify under the following criteria:

* * * * *

(b) *Definition of small business non-manufacturer.* Any concern which submits a bid or offer in its own name, other than a construction or service contract, whether as a prime or subcontractor, but which proposes to furnish a product not manufactured by said bidder or offerer is deemed to be a small business concern when:

(1) It is a small business concern within the meaning of paragraph (a) of this section, and

(2) Shall furnish in the performance of the contract or subcontract the products of a small business manufacturer or producer which products are manufactured, or produced in the United States: *Provided, however*, If the goods to be furnished are cotton, synthetics, wool, worsted, knitwear, duck, webbing and thread (spinning and finishing), non-manufacturers (dealers and converters) shall furnish such products which have been manufactured or produced by a small weaver (small knitter for knitwear) and, if finishing is required, by a small finisher.

Dated: January 23, 1962.

JOHN E. HORNE,
Administrator.

ALASKA

Small Tract Classification No. J–9: Correction

FEBRUARY 13, 1962.

1. By virtue of the authority contained in the Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a) as amended, and pursuant to the authority redelegated to me from Bureau Order No. 684, dated August 28, 1961 (26 F.R. 6215) as amended, by the Alaska State Director in section 2(c) of a memorandum dated December 1, 1961, I hereby correct Small Tract Classification No. J–9 (F.R. Doc. 61–3922) as follows: The reference to U.S.S. 2572 in the 5th line of the metes and bounds description is hereby corrected to designate U.S. Survey 2752.

2. This correction will take effect immediately.

ROBERT J. COFFMAN,
Chief, Division of Lands and Minerals Management.

[Group 349]

ARIZONA

Notice of Filing of Plats of Survey

FEBRUARY 16, 1962.

1. Plats of survey of the lands described below will be officially filed in the Land Office, Phoenix, Ariz., effective at 10 a.m., on March 24, 1962:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 29 N., R. 20 W.,
Sec. 6, Lots 1, 2, 3, 4, 5, 6, 7, SE¼NW¼, S½NE¼, E½SW¼, SE¼;
Sec. 7, Lots 1, 2, 3, 4, E½W½, E½;
Sec. 18, Lots 1, 2, 3, 4, E½W½, E½;
Sec. 19, Lots 1, 2, 3, 4, E½W½, E½;
Sec. 30, Lots 1, 2, 3, 4, E½W½, E½;
Sec. 31, Lots 1, 2, 3, 4, E½W½, E½.
T. 29 N., R. 21 W.,
Sec. 1, Lots 1, 2, 3, 4, S½N½, S½;
Sec. 2, Lots 1, 2, 3, 4, S½N½, S½;
Sec. 3, Lots 1, 2, 3, 4, S½N½, S½;
Sec. 10, All;
Sec. 11, All;
Sec. 12, All;
Sec. 13, All;
Sec. 14, All;
Sec. 15, All;
Sec. 22, All;
Sec. 23, All;
Sec. 24, All;
Sec. 25, All;
Sec. 26, All;
Sec. 27, All;
Sec. 34, All;
Sec. 35, All;
Sec. 36, All.

Within the above-described areas are 15,346.03 acres.

2. Available data indicates that the lands in T. 29 N., R. 20 W. consist of a broad flood plain on the east side of Detrital Wash. The soils are gravelly to rocky clay loam. The lands in T. 29 N., R. 21 W. lie on the flood plain of the Detrital Wash. They are rolling and are cut by many small washes. The soils are sandy to gravelly clay loam.

3. All of the above lands in T. 29 N., R. 20 W. were withdrawn by Secretary's Order of May 8, 1919, for the Colorado River Project, Boulder Canyon Reservoir. All of the above lands in T. 29 N., R. 20 W. and T. 29 N., R. 21 W. were withdrawn by Executive Order 5339 of April 25, 1930 for a National Monument.

4. In view of the above, the lands described will not be subject to disposition under the general public land laws by reason of the official filing of the plats.

ROY T. HELMANDOLLAR,
Manager.

[F.R. Doc. 62–1790; Filed, Feb. 21, 1962; 8:46 a.m.]

[Classification No. 209]

NEVADA

Small Tract Classification; Amendment

Effective February 13, 1962, paragraph 1 appearing on page 10980 of Federal Register Document 61–11138 of the issue for November 23, 1961, is hereby amended to read as follows:

1. Pursuant to authority delegated by Bureau Order No. 684, dated August 28, 1961 (26 F.R. 8216) and the State Director August 30, 1961 (26 F.R. 8468), I hereby classify the following described lands, totaling 535 acres in Lyon County, Nevada, as suitable for sale for residence and/or business purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a) as amended:

MOUNT DIABLO MERIDIAN

T. 16 N., R. 21 E.,
Sec. 28, W½SW¼, W½W½E½SW¼;
Sec. 29, E½E½, SW¼NE¼, NW¼SE¼;
Sec. 32, N½NE¼, SE¼NE¼;
Sec. 33, NW¼NW¼, W½W½NE¼NW¼, N½SW¼NW¼, W½NW¼SE¼NW¼.

Containing 535 acres of which approximately 445 acres are covered by 93 applications from persons entitled to preference under 43 CFR 257.5(a).

DANIEL P. BAKER,
Chief, Division of Lands and Minerals Management.

FEBRUARY 13, 1962.

[W–0150190]

WYOMING

Correction Notice of Proposed Withdrawal and Reservation of Lands

The Notice of Proposed Withdrawal and Reservation of Lands in behalf of the Forest Service, U.S. Department of Agriculture, serial number Wyoming 0150190, published as F.R. Document 61–11139 on page 10980 of the FEDERAL REGISTER issued November 23, 1961 contained certain errors in land descriptions.

Under Big Horn National Forest, U.S. Highway No. 16 Roadside Zone, T. 49 N., R. 84 W., Sec. 36, the SW¼NW¼ was shown, whereas the correct description is the SE¼NW¼. Under T. 48 N., R. 86 W., Sec. 7, Lots 5, 7, 8, 10, 12 were shown. The correct description under Sec. 7 is Lots 5, 6, 7, 8 and 10.

THOMAS H. FLOYD, JR.,
Acting State Director.

[F.R. Doc. 62–1792; Filed, Feb. 21, 1962; 8:46 a.m.]

[W–0150260]

WYOMING

Notice of Proposed Withdrawal and Reservation of Lands

The Bureau of Reclamation, United States Department of the Interior, has filed an application, serial number Wyoming 0150260, for the withdrawal of lands described below, from all forms of appropriate under the first form of withdrawal as provided by section 3 of the Act of July 17, 1902 (32 Stat. 388). Grazing administration will remain under the jurisdiction of the Bureau of Land Management until such time as the lands are actually required for reclamation purposes.

The applicant desires the land for reclamation purposes in connection with the development of Owl Creek Unit, Bighorn Basin Division, Missouri River Basin Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 928, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 44 N., R. 94 W.,
Sec. 17: W½SW¼.
T. 49 N., R. 96 W.,
Sec. 11: W½NE¼.
T. 49 N., R. 97 W.,
Sec. 2: NW¼SE¼.

The above area aggregates 200 acres.

THOMAS H. FLOYD, JR.,
Acting State Director.

[F.R. Doc. 62–1793; Filed, Feb. 21, 1962; 8:46 a.m.]

COLORADO

Notice of Proposed Withdrawal and Reservation of Lands

FEBRUARY 14, 1962.

The United States Forest Service of the Department of Agriculture has filed an application, Serial Number Colorado 017559, for the withdrawal of the lands described below from location and entry under the General Mining Laws, subject to existing valid claims.

The applicant desires the land for use as campgrounds, picnic grounds, fisherman parking and geological area located in the Rio Grande National Forest.

For a period of thirty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Colorado State Office, Gas and Electric Building, 910–15th Street, Denver 2, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

NEW MEXICO PRINCIPAL MERIDIAN, COLORADO

BUFFALO PASS CAMPGROUND

T. 6 N., R. 4 E.,
Sec. 3, Lots 2 and 3, SW¼NE¼, W½SE¼NE¼, E½SE¼NW¼, N½NW¼SE¼.
Total area 182.80 acres.

BEAVER CREEK CAMPGROUND

T. 39 N., R. 3 E.,
Sec. 20, Lots 1 and 6;
Sec. 21, W½NW¼.
Total area 140.83 acres more or less.

LOWER BEAVER CREEK PICNIC GROUND

T. 39 N., R. 3 E.,
Secs. 17 and 20, East 20 chains of Tract 52.
Total area 80 acres more or less.

STORM KING CAMPGROUND

T. 43 N., R. 5 E.,
Sec. 21, SE¼SW¼NW¼, S½SE¼NW¼, N½NE¼SW¼, NE¼NW¼SW¼.
Total area 60 acres.

TUCKER PONDS CAMP AND PICNIC GROUND

T. 38 N., R. 2 E.,
Sec. 34, SE¼NW¼, NE¼SW¼, E½NW¼SW¼.
Total area 100 acres.

MILK COW PASS CAMPGROUND

T. 42 N., R. 4 E.,
Sec. 29, NW¼SE¼.
Total area 40 acres.

POSO CAMP AND PICNIC GROUND

T. 42 N., R. 5 E.,
Sec. 4, SW¼SW¼SE¼, S½SE¼SW¼;
Sec. 9, N½NE¼NW¼, NW¼NW¼NE¼.
Total area 60 acres.

WANNAMAKER CAMPGROUND

T. 43 N., R. 3 E.,
Sec. 31, Lots 1 and 2, W½NE¼NW¼.
Total area 104.65 acres.

ROAD CANYON RESERVOIR FISHERMEN PARKING

T. 40 N., R. 3 W.,
Sec. 3, Lot 4;
Sec. 4, Lot 1.
T. 41 N., R. 3 W.,
Sec. 27, S½SE¼SE¼;
Sec. 34, NW¼NE¼NE¼, E½NW¼NE¼, SW¼NE¼, SE¼SE¼NW¼, NE¼SW¼, SW¼SW¼, NW¼SE¼SW¼, NW¼NW¼SE¼.
Total area 291.54 acres.

ROCK CREEK ARCHERY AND PICNIC GROUND

T. 37 N., R. 6 E.,
Sec. 10, S½SE¼NW¼, NE¼SW¼, W½NW¼SE¼.
Total area 80 acres.

WHEELER GEOLOGICAL AREA

T. 42 N., R. 2 E.,
Sec. 17, S½SW¼, S½SE¼;
Sec. 20, N½SW¼, N½, N½SE¼.
Total area 640 acres.

The above described areas aggregate approximately 1,779.82 acres.

HAROLD T. TYSK,
Chief, Lands and Minerals.

[F.R. Doc. 62–1816; Filed, Feb. 21, 1962; 8:48 a.m.]

Office of the Secretary

POLICIES OF THE DEPARTMENT RELATIVE TO RESERVOIR PROJECT LANDS

The following material is a portion of the Departmental Manual and the numbering system is that of the Manual. Secretary Order 2744 (19 F.R. 381) is revoked.

PART 751—RESERVOIR PROJECT LANDS

CHAPTER 1—POLICIES

751.1.1 *General policy.* The Department of the Interior considers that public recreation and fish and wildlife should be purposes given full consideration equally with other purposes of reservoir projects undertaken by the Federal Government. To this end, in so far as permitted by law, the planning, development, and management of Federal reservoirs for which this Department has a responsibility shall provide for realization of optimum present and future outdoor recreation and fish and wildlife potentialities associated with each reservoir development.

751.1.2 *Reservoir projects proposed for authorization—A. Planning and development.*

(1) The project plan for each reservoir project for which authorization is sought will explicitly include recreation and fish and wildlife provisions generally in accord with the policy statement in Section 1 of this statement. Such provisions in project plans will be sufficiently specific so that when the project is authorized the Department of the Interior will have a clear basis for requesting appropriations and other action to effectuate the plan.

(2) The National Park Service and the Fish and Wildlife Service are responsible respectively for developing the recreation and the fish and wildlife portions of the project plan, and they shall collaborate with the reservoir construction agency to assure a mutually acceptable project plan.

b. *Review.* Authorization proposals pending in the Department, the Bureau of the Budget, or before the Congress will be reviewed to assure conformance with the policies set forth herein, and such general or specific legislation and such rules and regulations as may be needed to effectuate the policies and procedures set forth herein will be submitted for appropriate action.

751.1.3 *Reservoirs in operation, under construction, or authorized.* The status of reservoirs for which this Department has the responsibility including those reservoirs already authorized but not yet under construction, reservoirs currently under construction but not yet completed, and completed reservoirs now in operation will be reviewed to determine what measures are needed and appropriate in order to apply to such reservoirs the policies and procedures set forth herein, and to provide plans and cost estimates for such measures. Such general or specific legislation and such rules and regulations as may be needed to effectuate the policies and procedures set forth herein will be submitted for appropriate action.

751.1.4 *Acquisition of lands for reservoir projects.* It is the policy of the Department of the Interior to acquire as a part of reservoir project construction adequate interest in lands necessary for the realization of optimum values for all purposes including additional land areas to assure full realization of optimum present and future outdoor recreational and fish and wildlife potentials of each reservoir.

A. *Lands for reservoir construction and operation.* The fee title will be acquired to the following:

(1) Lands necessary for permanent structures.

(2) Lands below the maximum flowage line of the reservoir including lands below a selected freeboard where necessary to safeguard against the effects of saturation, wave action, and bank erosion and to permit induced surcharge operation.

(3) Lands needed to provide for public access to the maximum flowage line as described in paragraph 1b, or for operation and maintenance of the project.

B. *Additional lands for correlative purposes.* The fee title will be acquired for the following:

(1) Such lands as are needed to meet present and future requirements for fish and wildlife as determined pursuant to the Fish and Wildlife Coordination Act.

(2) Such lands as are needed to meet present and future requirements for outdoor recreation, as may be authorized by Congress.

C. *Easements* in lieu of fee title may be taken only for lands that meet *all* of the following conditions:

(1) Lands lying above the storage pool.
(2) Lands in remote portions of the project area.
(3) Lands determined by the Fish and Wildlife Service or the National Park Service respectively to be of no substantial value for protection or enhancement of fish and wildlife resources, or for public outdoor recreation.
(4) It is to the financial advantage of the Government to take easements in lieu of fee title.

D. *Blocking out.* Blocking out will be accomplished in accordance with sound real estate practices, for example, on minor sectional subdivision lines; and normally, land will not be acquired to avoid severance damage if the owner will waive such damage.

E. *Mineral rights.* Mineral, oil and gas rights will not be acquired except where the development thereof would interfere with project purposes, but mineral rights not acquired will be subordinated to the Government's right to regulate their development in a manner that will not interfere with the primary purposes of the project, including public access.

F. *Buildings.* Buildings for human occupancy as well as other structures which would interfere with the operation of the project for any project purpose will be prohibited on reservoir project lands.

STEWART L. UDALL,
Secretary of the Interior.

FEBRUARY 16, 1962.

[F.R. Doc. 62-1906; Filed, Feb. 21, 1962; 10:48 a.m.]

JOINT POLICIES OF THE DEPARTMENTS OF THE INTERIOR AND OF THE ARMY RELATIVE TO RESERVOIR PROJECT LANDS

Acquisition of lands for reservoir projects. In so far as permitted by law, it is the policy of the Departments of the Interior and of the Army to acquire, as a part of reservoir project construction, adequate interest in lands necessary for the realization of optimum values for all purposes including additional land areas to assure full realization of optimum present and future outdoor recreational and fish and wildlife potentials of each reservoir.

1. *Lands for reservoir construction and operation.* The fee title will be acquired to the following:

a. Lands necessary for permanent structures.

b. Lands below the maximum flowage line of the reservoir including lands below a selected freeboard where necessary to safeguard against the effects of saturation, wave action, and bank erosion and to permit induced surcharge operation.

c. Lands needed to provide for public access to the maximum flowage line as described in paragraph 1b, or for operation and maintenance of the project.

2. *Additional lands for correlative purposes.* The fee title will be acquired for the following:

a. Such lands as are needed to meet present and future requirements for fish and wildlife as determined pursuant to the Fish and Wildlife Coordination Act.

b. Such lands as are needed to meet present and future public requirements for outdoor recreation, as may be authorized by Congress.

3. *Easements* in lieu of fee title may be taken only for lands that meet all of the following conditions:

a. Lands lying above the storage pool.

b. Lands in remote portions of the project area.

c. Lands determined to be of no substantial value for protection or enhancement of fish and wildlife resources, or for public outdoor recreation.

d. It is to the financial advantage of the Government to take easements in lieu of fee title.

4. *Blocking out.* Blocking out will be accomplished in accordance with sound real estate practices, for example, on minor sectional subdivision lines; and normally, land will not be acquired to avoid severance damage if the owner will waive such damage.

5. *Mineral rights.* Mineral, oil and gas rights will not be acquired except where the development thereof would interfere with project purposes, but mineral rights not acquired will be subordinated to the Government's right to regulate their development in a manner that will not interfere with the primary purposes of the project, including public access.

6. *Buildings.* Buildings for human occupancy as well as other structures which would interfere with the operation of the project for any project purpose will be prohibited on reservoir project lands.

This joint agreement will be published in the FEDERAL REGISTER.

Approved: February 16, 1962.

STEWART L. UDALL,
Secretary of the Interior.
STEPHEN AILES,
Acting Secretary of the Army.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

MISSISSIPPI

Designation of Area for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in Wayne County, Mississippi, natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named county after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 16th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 62-1813; Filed, Feb. 21, 1962; 8:48 a.m.]

NORTH CAROLINA

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the hereinafter named counties in the State of North Carolina, natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

NORTH CAROLINA	
Camden.	Pasquotank.
Chowan.	Perquimans.
Currituck.	Tyrrell.
Hyde.	Washington.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 16th day of February 1962.

ORVILLE L. FREEMAN,
Secretary.

Rural Electrification Administration

ORGANIZATION AND FUNCTIONS

The organization of the Rural Electrification Administration is as follows:

Central Organization. The principal office of the Rural Electrification Administration is at Washington, D.C. The function of the Agency is the carrying out of a program of rural electrification and rural telephony, as provided for by the Rural Electrification Act of 1936, as amended (7 U.S.C. 901-15, 921-924).

The Administrator. The Administrator is appointed by the President, with the advice and consent of the Senate, for a term of ten years. He functions as the chief administrative official of the Agency under the general supervision and direction of the Director, Agricultural Credit. He is aided directly by a Deputy Administrator, and Assistant Administrators for the Electric Program, for the Telephone Program, and for Operations. The work is carried on through the area offices and divisions described in succeeding paragraphs.

Electric Area Offices. The rural electrification program for electric distribution borrowers is administered through five area offices designated as Northeast, Southeast, North Central, Southwest and Western. Each office within its assigned geographic area: Appraises loan applications and prepares loan recommendations; reviews the financial and operating performance of borrowers; analyzes engineering plans, specifications and construction contracts; reviews and approves completed construction; provides advice and assistance to borrowers concerning loans and the design, construction, management, operation and maintenance of systems.

Power Supply Division. The rural electrification program for generation and transmission borrowers is administered through the Power Supply Division. The division appraises loan applications and prepares loan recommendations; reviews the financial and operating performance of borrowers; analyzes engineering plans, specifications and construction contracts; reviews and approves completed construction; approves advances of funds to borrowers; analyzes feasibility and benefits of generation and transmission systems; provides advice and assistance to borrowers concerning loans and the design, construction, management, operation and maintenance of systems; and conducts studies and negotiations related to procurement of purchased power for all electric borrowers.

Electric Distribution Division. The division administers staff activities concerned with the engineering, construction, management and operation of electric distribution systems including: Development of solutions to the engineering and operating problems of existing systems; review of borrowers' engineering proposals and cost estimates; retail rate studies; assistance to borrowers in the development of consumer loads and provides advice and assistance to the electric area offices and, as requested, to electric distribution borrowers concerning engineering and operations matters.

Electric Standards Division. The division administers staff engineering activities concerned with the development of standards, criteria, specifications, and technical data relating to rural electric systems and facilities; provides advice and assistance to agency officials and, as requested, to borrowers concerning electric standards; maintains liaison with Government and non-Government organizations on matters concerning the functions of the division.

Telephone Area Offices. The rural telephone program is administered through five area offices designated as Northeast, Southeast, North Central, Southwest, and Western. Each office within its assigned geographic area: Appraises loan applications and prepares loan recommendations; reviews the financial and operating performance of borrowers; analyzes engineering plans, specifications and construction contracts; reviews and approves completed construction; approves advance of funds to borrowers; provides advice and assistance to borrowers concerning loans and the design, construction, management, operation, and maintenance of systems.

Telephone Engineering and Operations Division. The division administers staff activities involving loans and the engineering and operations of rural telephone systems. This includes: Studies and analyses regarding rates, toll traffic agreements, and valuation and acquisition of facilities; solutions concerning the engineering problems of existing telephone systems; the review of telephone system cost estimates and the engineering requirements of loan applications; and advice and assistance to the area offices and, as requested, to borrowers concerning telephone engineering and operations matters.

Telephone Standards Division. The division administers staff engineering activities concerned with the development of standards, criteria, specifications, and technical data relating to rural telephone systems and facilities; provides advice and assistance to agency officials and, as requested, to borrowers concerning telephone standards; maintains liaison with Government and non-Government organizations on matters concerning the functions of the division.

Controller's Division. The division administers all agency activities relating to financial, budgetary, accounting, auditing, program analysis, and statistical service activities, except for internal audit; provides advice and assistance to agency officials and borrowers concerning these activities.

Information Services Division. The division administers the information services program of the agency to provide borrowers and the public with information concerning the operations, status, progress, and accomplishments of the rural electrification, rural telephone, and rural areas development programs.

Personnel Management Division. The division administers the personnel program of the agency involving classification and wage administration; conduct of organization studies and surveys; development of recommendations for organization changes required to administer agency problems; preparation of organization charts; employment and placement functions; employee relations; training; safety; and health activities.

Program Services Division. The division administers centralized staff activities concerned with rural electric, telephone, and areas development programs including insurance, power requirements, safety and labor relations. It is also responsible for overall administrative staff activities including management analysis, administrative issuances, production control, and general services. Advice and assistance is provided to agency offices and, as requested, to borrowers concerning the functions of the division.

Internal Audit Staff. This staff within the Office of the Administrator administers the internal audit program of the agency designed to assure operations within the broad framework of policies and regulations of the Department, General Accounting Office, and other Federal agencies.

Rural Areas Development Staff. This staff within the Office of the Administrator administers the rural areas development program designed to meet the responsibilities of the agency within the broad framework of Department policies and those of other Federal agencies.

Issued this sixteenth day of February 1962.

NORMAN M. CLAPP,
Administrator.

ATOMIC ENERGY COMMISSION

[Docket No. 27-33]

TRACERLAB, INC., AND LABORATORY FOR ELECTRONICS, INC., TRACERLAB DIVISION

Notice of Transfer of Byproduct, Source and Special Nuclear Material License

Please take notice that the Atomic Energy Commission, pursuant to section 184 of the Atomic Energy Act of 1954, as amended, hereby grants an application dated November 6, 1961, as amended January 2, 1962, requesting the transfer of License No. 20-1382-14 from Tracerlab, Inc. to Laboratory for Electronics, Inc., Tracerlab Division.

All references in the license to "Tracerlab, Inc." are amended to read "Laboratory for Electronics, Inc., Tracerlab Division". All other conditions and limitations specified in the license remain the same.

In accordance with the Commission's, "Rules of Practice," Title 10, Code of Federal Regulations, Chapter 1, Part 2, a formal hearing will be held on the matter upon receipt of a request therefor from the licensee or an intervener within fifteen (15) days after the issuance of this notice.

Dated at Germantown, Md., February 16, 1962.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

[F.R. Doc. 62-1774; Filed, Feb. 21, 1962; 8:45 a.m.]

[Docket No. 50-5]

PENNSYLVANIA STATE UNIVERSITY

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 8, set forth below, to Facility License No. R-2. The license authorizes The Pennsylvania State University to possess and operate the nuclear reactor located on the university's campus at University Park, Pennsylvania.

The amendment authorizes the modification of the reactor exclusion area and the relocation of a portion of the fence in the northeast corner of the reactor exclusion area.

The Commission has found that operation of the reactor in accordance with the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has further found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor in accordance with the license as amended would not present any substantial change in the hazards to the health and safety of the public from those previously considered and

evaluated in connection with the previously approved operations.

In accordance with the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within 30 days after the issuance of the license amendment. Petitions for leave to intervene and requests for a formal hearing shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see (1) the applications for license amendment dated August 30, 1961, October 10, 1961 and October 31, 1961 by The Pennsylvania State University and (2) a related hazards analysis prepared by the Research and Power Reactor Safety Branch of the Division of Licensing and Regulation, all on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the hazards analysis may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 16th day of February 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[License No. R-2; Amdt. 8]

License No. R-2, as amended, which authorizes the Pennsylvania State University to possess and operate the nuclear reactor located on the university's campus at University Park, Pennsylvania, is hereby further amended by amending paragraph 1 to read as follows:

1. This license applies to the pool-type nuclear reactor (hereinafter referred to as "the reactor") which is owned by the Pennsylvania State University and located at University Park, Pennsylvania and described in the university's application for license dated May 3, 1955, as amended, and amendments thereto dated January 14, 1960, January 18, 1961, January 25, 1961, April 4, 1961, August 30, 1961, October 10, 1961 and October 31, 1961 (hereinafter collectively referred to as "the application").

This amendment is effective as of the date of issuance.

Date of issuance: February 16, 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

CIVIL AERONAUTICS BOARD

[Docket No. 12193]

AIRFREIGHT FORWARDER AUTHORITY CASE

Notice of Postponement of Prehearing Conference

Notice is hereby given that the prehearing conference in the above-entitled matter now assigned to be held on February 27 is postponed to March 1, 1962, 10 a.m., e.s.t., Room 725, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner Walter W. Bryan.

Dated at Washington, D.C., February 15, 1962.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F.R. Doc. 62-1832; Filed, Feb. 21, 1962; 8:50 a.m.]

[Docket No. 13406; Order No. E-18037]

FLYING TIGER LINE, INC.

Proposed Reduction of Military Charter Rates; Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of February, 1962.

The Flying Tiger Line Inc. has filed tariff revisions to become effective February 22, 1962, proposing to reduce its live charter rate for the air transportation of military personnel for the military agencies in L-1049H aircraft between points in the continental United States from $2.75 to $2.50 per mile, the ferry rate of $2.25 per mile remaining unchanged.

The newly proposed rate of $2.50 per mile for L-1049H aircraft appears to be below the general pattern established for such aircraft, as was the case with the rate of $2.40 per mile by Flying Tiger for L-1049H aircraft having 95 seats or less which the Board recently suspended.[1] Moreover, the carrier's operating cost data for L-1049H aircraft reported on Form 41 raise a question whether a rate below the existing level would cover its costs, including a reasonable profit after taxes.

Upon consideration of this tariff and all relevant matters, the Board finds that such tariff proposals with respect to rates for L-1049H military passenger charter service may be unjust, or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, and should be investigated. In view of the departure of this proposal from the existing level of rates, and in order to prevent unwarranted rate changes in this area, the Board has concluded to suspend the operation of such L-1049H tariff proposal and the use thereof pending investigation.

[1] Order E-17789, December 1, 1961 (Docket 13231).

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 204(a), 404, and 1002 thereof,

It is ordered, That:

1. An investigation is hereby instituted to determine whether the rate per charter mile for L-1049H aircraft between points within the continental United States on 3d Revised Page 9 of The Flying Tiger Line Inc. Military Traffic Charter Tariff No. 2, C.A.B. No. 183, is, or will be, unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful rate.

2. Pending investigation, hearing, and decision by the Board, the rate per charter mile for L-1049H aircraft between points within the continental United States on 3d Revised Page 9 of The Flying Tiger Line Inc. Military Traffic Charter Tariff No. 2, C.A.B. No. 152, is suspended and its use deferred to and including May 22, 1962, unless otherwise ordered by the Board and that no changes be made therein during the period of suspension except by order or special permission of the Board.

3. The proceeding ordered herein be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated.

4. Copies of this order shall be filed with the aforesaid tariff and shall be served upon The Flying Tiger Line Inc. which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 62-1833; Filed, Feb. 21, 1962; 8:50 a.m.]

[Docket No. 11908 etc.]

TRANSATLANTIC CHARTER INVESTIGATION

Notice of Hearing

In the matter of the applications for certificates of public convenience and necessity to engage in transatlantic passenger charter air transportation.

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in the above-entitled proceeding is assigned to be held on April 9, 1962, at 10 a.m., e.s.t., in Room 725, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned Examiner.

Without limiting the precise scope of the issues, particular attention will be directed to the following questions:

(1) Whether the public convenience and necessity require the certification of one or more air carriers to perform transatlantic charter flights and, if so, which carrier or carriers should be selected to perform such transportation and what terms, conditions, or limitations should be attached to such certification; and

(2) Whether the various applicants for transatlantic passenger charter authority are fit, willing and able to perform such air transportation properly, and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder.

For further details of the issues involved in this case, interested persons are referred to the prehearing conference report issued August 28, 1961, and the various orders entered in the docket of this proceeding, all of which are on file with the Docket Section of the Civil Aeronautics Board.

Notice is further given that any person not a party of record desiring to be heard in support of or in opposition to the issues involved must file with the Board, on or before April 9, 1962, statements setting forth the matters of fact or law which he desires to advance. Any person filing such a statement may appear and participate in the hearing in accordance with Rule 14 of the Board's rules of practice.

Dated at Washington, D.C., February 19, 1962.

[SEAL] JAMES S. KEITH,
Hearing Examiner.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 14341-14344; FCC 62-175]

COLLIER ELECTRIC CO.

Memorandum Opinion and Order Amending Issues

In re applications of Collier Electric Company for renewal of the license for station KAQ79, a facility in the Domestic Public Point-to-Point Microwave Radio Service at Fort Morgan, Colorado, Docket No. 14341, File No. 848-C1-R-61; for renewal of the license for station KAQ80, a facility in the Domestic Public Point-to-Point Microwave Radio Service at Sterling, Colorado, Docket No. 14342, File No. 849-C1-R-61; for renewal of the license for station KAQ81, a facility in the Domestic Public Point-to-Point Microwave Radio Service at Sidney, Nebraska, Docket No. 14343, File No. 2670-C1-R-61; for renewal of the license for station KAS41, a facility in the Domestic Public Point-to-Point Microwave Radio Service at Bridgeport, Nebraska, Docket No. 14344, File No. 2710-C1-R-61.

1. The Commission has before it for consideration a petition, filed November 17, 1961, by Frontier Broadcasting Company, for enlargement of issues and clarification or reconsideration of hearing Order, 26 F.R. 10317, and pleadings properly filed in response thereto.

2. In reconsidering our designation Order herein, the Commission is of the view that the issues should be enlarged in the terms hereinafter set forth. This determination is consistent with our action in Carter Mountain Transmission Corporation, 25 F.R. 4606, May 25, 1960.

3. Frontier requests clarification of the hearing order with respect to its participation in this proceeding. We do so in the exact terms as used by petitioner in its request for relief, i.e., Frontier is entitled to participation with respect to the issues herein "insofar as those issues have any bearing on the ultimate question whether to renew the KAS-41 license."

Accordingly, it is ordered, This 14th day of February 1962, That the petition for enlargement of issues and clarification or reconsideration of hearing Order, is granted to the extent indicated herein, and is denied in all other respects; and

It is further ordered, That issue (e) in this proceeding is redesignated as issue (f) and the following issue is added:

(e) To determine what impact a grant of the application for KAS41 will have upon the operation of Station KSTF, Scottsbluff, Nebraska, and the resulting injury, if any, to the public now served thereby; and

It is further ordered, That Frontier Broadcasting Company shall have the burden of proof and the burden of proceeding with the introduction of evidence as to issue (e).

Released: February 19, 1962.

PEOPLE'S BROADCASTING CO. (WPBC) AND GABRIEL BROADCASTING CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of People's Broadcasting Company (WPBC), Minneapolis, Minn., Docket No. 14527, File No. BP-13692, Has: 980 kc, 1 kw, D, Class III (Minneapolis), Requests: 980 kc, 5 kw, DA-1, U, Class III-A (Richfield); Nicholas Tedesco and Victor J. Tedesco d/b as Gabriel Broadcasting Company, Chisholm, Minn., Docket No. 14528, File No. BP-14416, Requests: 980 kc, 5 kw, DA-1, U, Class III-A; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 14th day of February 1962;

The Commission having under consideration the above-captioned and described applications;

It appearing, that, except as indicated by the issues specified below, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing, that the following matters are to be considered in connection with the aforementioned issues specified below:

1. Nighttime interference, which would be caused by the WPBC proposal to the Tedesco proposal, necessitates consolidation of the two subject applications. Such interference would raise the nighttime RSS limit of the proposed Tedesco operation to the extent that (a) the latter proposal would fail to provide coverage of the entire city of Chisholm, Minnesota, as required by §§ 3.188(a)(1) and 3.188(b)(2) of the Commission's rules; and (b) an already substantial question concerning Tedesco's compliance with § 3.24(b) of the rules would be greatly aggravated.

2. The licensee of WPBC has submitted no statement in support of its request to change station location from Minneapolis to Richfield, Minnesota. It is noted, however, that the WPBC nighttime proposal would receive interference causing population losses far in excess of 10 percent within its normally protected nighttime contour. As a Minneapolis station, the proposed nighttime operation would fail to comply with § 3.28(d)(3) of the Commission's rules. As a Richfield station, the proposal would fall within the "first nighttime service" exception to § 3.28(d)(3). Richfield is approximately six miles from Minneapolis and is part of the greater Minneapolis-St. Paul urbanized area. Upon these facts, a substantial question exists as to whether the subject proposal represents an attempt to circumvent § 3.28(d)(3) and whether, for purposes of that section, the proposal should be regarded as an application for Minneapolis. Factors relevant to this determination include the proposed areas and populations to be served by the proposal; the proposed programming of WPBC and its appropriateness for Richfield or for Minneapolis; the class of station and power of the operation proposed and its appropriateness for the community requested; the community which will provide the primary economic base from which the station's revenues will be derived; and such other factors as would tend to demonstrate, directly or indirectly, the applicant's intentions in filing the present application.

3. If it is determined that the WPBC application should be regarded as a proposal for Minneapolis, it will be necessary to determine whether waiver of § 3.28(d)(3) is warranted. If it is determined that the WPBC application should not be regarded as a proposal for Minneapolis, and, therefore, falls within an express exception to § 3.28(d)(3), it will be necessary to pursue a further [illegible] to determine whether the [illegible] nighttime service area would be [illegible] to an unsatisfactory degree, in [illegible] vention to § 3.24(b) of the rules. In [illegible] connection, it is noted that the [illegible] nighttime operation of WPBC would [illegible] limited to its 17.4 mv/m contour, [illegible] sulting in population and area losses [illegible] 55.6 percent and 86.7 percent, [illegible] tively, within the normally protected nighttime contour of 2.5 mv/m.

4. Since the Tedesco proposal [illegible] falls within an express exception [illegible] § 3.28(d)(3), only the question of [illegible] cient utilization of the requested [illegible] nel, (§ 3.24(b) of the rules), need be examined in connection with the application. If the WPBC proposal and the Tedesco proposal were to operate simultaneously, the nighttime RSS limitation of the latter would be 36.1 mv/m, resulting in population and area losses, respectively, of 70.5 percent and 93.5 percent. Should WPBC not be authorized to operate at night, the Tedesco nighttime RSS limitation would be 17.5 mv/m, with corresponding population and area losses of 58.4 percent and 86.3 percent.

5. It has not yet been determined whether the antenna system proposed in BP-14416 would constitute a menace to air navigation.

6. On July 26, 1961, the Commission adopted its Order, designating for hearing an application requesting approval of a proposed assignment of Station WMIN, St. Paul, Minn. to Tedesco, Inc. (The two largest stockholders in the latter Corporation were, and are, Nicholas and Victor J. Tedesco.) Stating that the assignor and the assignee, and/or their corporate officers, directors, stockholders and subsidiary corporations have acquired and disposed of interests in numerous broadcast licenses and permits," the Commission, designated the WMIN assignment application for hearing to determine whether in view of the past broadcast activities of assignor and assignee, a grant of the application would be "consistent with the Commission's policy against 'trafficking' in broadcast licenses and construction permits." Because the assignor in the WMIN proceeding exercised a contractual option to cancel the assignment agreement, the projected hearing was never held. Most recently, the Commission denied a request by Tedesco [illegible] that a declaratory ruling be issued which would state that the questions raised in the Commission's original Order of designation had been fully satisfied by materials submitted in Tedesco's Petition for Reconsideration of that hearing Order. (Franklin Broadcasting Company FCC 62-52, January 10, 1962.) Accordingly, the question with regard to "trafficking," raised in the WMIN proceeding, still obtains and must be examined in connection with the present Tedesco application.

7. On the basis of conductivity values set forth in the Canadian map of ground conductivity and Figure M-3 of the Commission's rules, the Tedesco proposal would cause interference to Station CJOB, Winnipeg, Manitoba, in contravention of the North American Regional Broad-

Agreement. In an attempt to problem, the applicant has field intensity measurement on Station WMFG, which is approximately 8 miles NW of transmitter site of the Tedesco pro- The measured radial indicates conductivity of the pertinent involved is less than indicated by 1A-3 and, on this basis, no interwould be caused to Canada. The data and details regardinstant proposals were referred to for comment by letter dated De- 11, 1961, but the requested com- have not yet been received.

appearing that the proposed system of People's Broadcasting would not constitute a menace navigation under Federal Aviation criteria (§ 626.12 FAA regula-), but such finding has not been with respect to the proposed an- system of the Gabriel Broadcasting Company.

appearing, that, in view of foregoing, the Commission is unable the statutory finding that a of the subject applications would the public interest, convenience necessity, and is of the opinion that applications must be designated for in a consolidated proceeding on issues set forth below:

It is ordered, That, pursuant to section of the Communications Act of 1934, as amended, the instant applica- are designated for hearing in a consolidated proceeding, at a time and to be specified in a subsequent order, upon the following issues:

1. To determine the areas and popula- which would receive service from proposed operation of Gabriel Broadcasting Company and the availability of primary service to such areas and populations.

2. To determine the areas and popula- which may be expected to gain primary service from the proposed operation of Station WPBC and the availability of other primary service to such areas and populations.

3. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and the interference that each of the instant proposals would receive from all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to the areas and populations affected by interference from any of the instant proposals.

4. To determine the steps taken by the licensee of WPBC to determine the programming needs of Richfield, Minn., and whether the proposed programming of WPBC will meet these needs.

5. To determine whether the proposed facilities and programming of WPBC are intended to serve Minneapolis, rather than Richfield, Minn., and whether the latter station designation has been specified to circumvent § 3.28(d)(3) of the Commission's rules.

6. To determine, in the event it is concluded that the WPBC application is a Minneapolis proposal, whether circumstances exist which warrant a waiver of § 3.28(d)(3) of the Commission's rules.

7. To determine, in the event it is concluded that the WPBC proposal complies with an express exception to § 3.28 (d)(3) of the rules, whether, because of interference received, the proposed nighttime operation of WPBC would be consistent with § 3.24(b) of the Commission's rules.

8. To determine whether, because of interference received, the proposed nighttime operation of Gabriel Broadcasting Company would be consistent with § 3.24(b) of the Commission's rules.

9. To determine whether Nicholas and Victor J. Tedesco have "trafficked" or attempted to "traffick" in broadcast authorizations.

10. To determine whether there is a reasonable possibility that the tower height and location proposed by Gabriel Broadcasting Company would constitute a menace to air navigation.

11. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would better provide a fair, efficient and equitable distribution of radio service.

12. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the instant applications should be granted.

It is further ordered, That the Federal Aviation Agency is made a party to the proceeding.

It is further ordered, That in the event Canadian authorities object to the proposal of Gabriel Broadcasting Company, said application shall be dismissed.

It is further ordered, That, in the event of a grant of either of the applications in this proceeding, the construction permit issued shall contain the following condition: "This authorization is subject to compliance by permittee with any applicable procedures of the Federal Aviation Agency."

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, either individually, or if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: February 19, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14526; FCC 62-185]

ROCKLAND BROADCASTERS

Order Designating Application for Hearing on Stated Issues

In re application of Keith Connes and Albert Spiro d/b as Rockland Broadcasters, New City, New York, Docket No. 14526, File No. BP-13953, Requests: 910kc, 1kw, DA-Day, Class III; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 14th day of February 1962;

The Commission having under consideration the above-captioned and described application;

It appearing, that, except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing, that the following matters are to be considered in connection with the aforementioned issues specified below:

1. By petitions to deny filed March 9, 1961 and July 13, 1961, the licensees of WPAT, Paterson, New Jersey and WHAY, New Britain, Connecticut have objected to a grant of the instant proposal. Each petitioner claims that the instant application would cause interference to petitioner's existing operation and, in addition, WPAT has alleged that 2 mv/m and 25 mv/m overlap would occur between the subject proposal and the existing operation of WPAT. The applicant, in its oppositions to the petitions above and in subsequent pleadings, does not deny that some degree of interference would be caused to WPAT and WHAY but submits measurement data to indicate that no 2 mv/m and 25 mv/m overlap would occur with WPAT. The licensee of WPAT challenges the validity of the applicant's measurement data.

2. The Commission has fully considered the engineering data submitted with the subject proposal, as amended, the various pleadings filed by the applicant and petitioners, and the engineering statements accompanying these pleadings. We have taken particular note of the WPAT objections to measurement data submitted by the applicants. The Commission's study indicates that: (a) The subject proposal would cause some degree of interference to the existing operations of WPAT and WHAY; but, (b) that no substantial question regarding the possibility of 2 mv/m and 25 mv/m overlap with WPAT appears to exist. Accordingly, the application

is herein designated for hearing on interference questions only and the licensees of WPAT and WHAY are made parties to the proceeding.

It further appearing, that in view of the outstanding rule making proceeding in Docket No. 14419 with respect to presunrise operation with daytime facilities, any grant of the instant proposal prior to a final decision in Docket 14419 should be appropriately conditioned.

It further appearing, that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the instant proposal and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal would cause objectionable interference to Stations WPAT, Paterson, New Jersey, WHAY, New Britain, Connecticut or any other existing standard broadcast stations, and, if so the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That WPAT, Inc., and the Central Connecticut Broadcasting Company, licensees of Stations WPAT and WHAY, respectively, are made PARTIES to the proceeding.

It is further ordered, That any grant of the instant proposal, prior to a final decision in Docket No. 14419, will be conditioned as follows: "Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded."

It is further ordered, That, to avail itself of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: February 19, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 13748; FCC 62-176]

WILLAMETTE-LAND TELEVISION, INC.

Memorandum Opinion and Order Amending Issues

In re application of Willamette-Land Television, Inc., Salem, Oregon, Docket No. 13748, File No. BPCT-2651; for construction permit for new Television Broadcast Station (Channel 3).

1. The Commission has before it for consideration (1) a petition to enlarge the issues, filed October 2, 1961, by the Broadcast Bureau (Bureau); (2) opposition to the petition, filed November 1, 1961, by Willamette-Land Television, Inc. (Willamette); and (3) a reply to the opposition, filed November 8, 1961, by the Bureau. Subsequent to the filing of these pleadings, Hearing Examiner Charles J. Frederick released an Initial Decision (FCC 62D-12, January 25, 1962) proposing to grant Willamette's application.

2. By Order (FCC 60-957) released August 8, 1960, the Commission designated for hearing on various issues the applications of Oregon Television, Inc. (Docket No. 13747) and Willamette-Land Television, Inc., each requesting a construction permit for a new television station to operate on Channel 3 at Salem, Oregon. By Order (FCC 61M-262) released February 17, 1961, the Chief Hearing Examiner dismissed, on the applicant's own motion, the application of Oregon Television, Inc. The only issue remaining in the hearing is Willamette's financial qualifications.

3. The Bureau requests the enlargement of the issues as noted below and also requests an order changing the hearing situs herein to Salem, Oregon. The requested issues are as follows:

i. To determine whether the misrepresentations made by W. Gordon Allen and John H. Truhan incident to the sale of Station KBAM reflect adversely on their character qualifications.

ii. To determine the accuracy of the financial reports (FCC Form 324) submitted to the Commission by W. Gordon Allen and/or John Truhan for Station KBAM.

iii. To determine whether the editorials broadcast by W. Gordon Allen on controversial issues of public importance were in conformance with Commission policy (i.e., Commission's Report on Editorializing By Broadcast Licensees) with particular reference to whether the broadcasts of such editorials were presented in a fair and responsible manner and whether broadcast time was afforded for the presentation of opposing views.

iv. To determine, in light of the evidence adduced under the foregoing issues, whether W. Gordon Allen and John H. Truhan possess the necessary character qualifications to be broadcast licensees or to be principals of a Broadcast licensee.

4. In Wickre v. Allen, 364 P. 2d 911 (1961), the Supreme Court of the State of Washington affirmed a lower court judgment awarding damages to Wickre for misrepresentations made to him by Allen, a principal in Willamette, and Truhan, in the sale of standard broadcast Station KBAM, Longview, Washington. In view of this decision, the Bureau's request for the first and fourth of the proposed issues will, subject to modifications in phraseology, be granted.[1]

5. In support of its request for the second proposed issue, the Bureau alleges that the "transcript of the Wickre-Allen proceeding" contains testimony "which indicates that the information supplied in the KBAM FCC Form 324 does not accurately reflect the revenues obtained by the station from the sale of talent and it therefore appears that Allen and Truhan may have made misrepresentations of fact to the Commission and/or were lacking in candor." In its opposition to the Bureau's request for this issue, Willamette states that the mistake in the financial report to the Commission was due to a misunderstanding on the part of its bookkeeper as to the distinction between sale of time and sale of talent; that such mistake occurred only once; and that the mistake did not affect the total of the broadcast revenues shown in the financial report in question. In its reply, the Bureau dismisses Willamette's opposition as self-serving; it does not otherwise challenge the representations made in the opposition concerning the financial report, nor does it dispute Willamette's contention that KBAM had nothing to gain by the inaccuracy in the report. Under the circumstances, the Bureau's request for the second of its proposed issues will be denied. While the Commission does not condone inaccurate financial reporting, the single mistake in question does not, in view of Willamette's uncontradicted explanation thereof, provide a basis for launching an inquiry at an evidentiary hearing of the accuracy of other financial reports filed on behalf of Station KBAM.

6. In support of its third proposed issue, the Bureau makes the following allegations:

> Allen, in a series of editorials, reportedly indicated that General Maison, Superintendent of the Oregon State Police, was "double-shuffling" with funds appropriated for the enforcement of the State Game Laws. Allen accused Maison of using intimidation on high officials of the State of Oregon to make his job as "Gauleiter" of Oregon more secure. Allen characterized the Oregon State Police as the "Oregon Gestapo" and indicated that the Oregon State Police has never been and is not now a servant of the citizens of Oregon, but rather seems to operate to oppose the citizens. In addition, Allen charged

[1] Truhan is no longer associated with Willamette, and hence no reference is made to him in the second of the issues adopted herein.

> Maison with railroading officers of the Oregon State Police out of the force if they did not commit illicit acts in order to give Maison a hold over them. On the basis of this series of editorials three indictments were returned by the Grand Jury of Marion County, Oregon charging Allen with violation of ORS 164.410,[2] "Slander By Broadcasting Defamatory Matter". These indictments were dismissed upon Allen's signing of a statement to the effect that he (Allen) did not mean to imply that Maison performed or was guilty of any illegal, unlawful or immoral conduct or to impute bad character or improper motives to him. It appears that Allen's editorial broadcasts may not have been presented in a responsible, fair and impartial manner. Such broadcasts appear to constitute serious attacks of doubtful validity upon the Oregon State Police organization, and therefore not in conformity with the Commission's historic policy with respect to editorial broadcasting.

The Broadcast Bureau has been unable to determine that the broadcast of points of view dissimilar to Allen's were carried by his station. It therefore appears that Allen may not have satisfied his obligations under the policies stated in the Commission's Report on Editorializing By Broadcast Licensees, to afford reasonable opportunity for the discussion of opposing views on controversial issues of public importance.

7. In its opposition, Willamette states that factual matters contained in Allen's editorials were brought to his attention by "persons of responsibility"; an affidavit by a Mr. Robert H. Wampler, a former member of the State Police and a member of the Governor's investigation Commission, is submitted in support of this allegation. In his affidavit, Mr. Wampler states that with the approval of the Governor of the State he had made an investigation of the State Police; that he supplied Allen with much of the information used in the broadcasts in question; and that Allen was supplied with additional information by a Mr. George Utley, chief of police of nearby Independence and formerly a State Police officer. It is further alleged in the opposition that Allen invited the "other side" to answer his charges, and "when they refused to avail themselves of this opportunity", but instead sent letters of denial, Allen broadcast the contents of these letters five times per day at the same time that his editorials were carried. Willamette further alleges that Allen did not seek the dismissals of the indictments to which the Bureau refers. On the contrary, it is alleged that Allen was prepared to go to trial but that the State "backed away" from the prosecution of the case. In support of this latter allegation, Willamette again relies on Wampler's affidavit to the effect that the indictments were procured as a result of political pressure and that the indictments were dismissed for lack of evidence. Also cited by Willamette is an editorial from the Oregon *Statesman* stating that it is something of a "mystery . . . how a charge of criminal slander can be expunged by a declaration of defendants' that they intended or imputed no slander."

8. In its reply to Willamette's opposition, the Bureau states that: "* * * Allen made extremely serious charges against the honesty and moral character of General Maison and the Oregon State Police. Nothing advanced by the applicant resolves the Bureau's concern as to whether Allen made these charges in a fair and responsible manner."

9. Unfortunately, neither the Bureau as the moving party nor Willamette in its opposition submitted a copy of the statement signed by Allen at the time the indictments were dismissed. From both the Bureau's description of it and that appearing in the Oregon *Statesman*, the statement seems to have been framed with reference to the Oregon defamation statute, quoted in footnote 2 herein, which is applicable where the matter was broadcast with "intent to injure or defame." A statement disclaiming any such intention is not, of course, tantamount to a retraction of any of the matter which was broadcast nor is it an admission that any of the charges made were not supported by the facts. Under the circumstances, we cannot agree that either the indictments,[4] or the allegations concerning the statement signed by Allen at the time the indictments were dismissed, or both, provide any basis for the Bureau's conclusionary statement that the broadcasts "constituted attacks of doubtful validity." We are not here ruling upon the question of whether Allen's charges were in fact true or untrue, in whole or in part; our ruling is limited to the sufficiency of the Bureau's factual allegations.[5]

10. The Bureau also contends that Allen's broadcasts may not have been presented in a "responsible, fair and impartial manner." Here again, the Bureau is not specific in its allegations. If the Bureau's contention is based upon its judgment that Allen's broadcasts were in any respect without factual basis, it should have particularized those areas, with supporting factual allegations, in which Allen's broadcasts were not in accord with the facts. Absent a showing as to factual inaccuracy in the broadcasts, the question of whether Allen showed a wanton disregard of the facts is not presented. To be sure, Allen's appellations such as "Gauleiter" and "Oregon Gestapo" are extreme. It does not appear, however, that such appellations were intended to be understood in their literal sense.

11. The Bureau's request that there be explored at an evidentiary hearing the question of whether broadcast time was afforded for the presentation of opposing views is undermined by Willamette's allegation, which the Bureau did not contradict in its reply pleading, that Allen offered Maison time to answer Allen's charges and that when Maison did not avail himself of this offer his statements of denial of the charges were broadcast at the same time that the editorials were broadcast.

12. The Bureau's request that the evidentiary hearing be held in Salem, Oregon, will be granted.

Accordingly, it is ordered, This 14th day of February 1962, that the petition to enlarge issues, filed October 2, 1961, by the Broadcast Bureau is granted to the extent indicated herein and in all other respects is denied;

It is further ordered, That the Initial Decision (FCC 62D-12), released January 25, 1962, is set aside, and the proceeding remanded to the Hearing Examiner for further hearing;

It is further ordered, That Issue 6 in the above-captioned proceeding is renumbered as Issue 8, and that the issues are enlarged by the addition of the following issues:

6. To determine whether misrepresentations were made by W. Gordon Allen and John H. Truhan incident to the sale of Station KBAM;

7. To determine, in the light of the evidence adduced under the foregoing issue, whether W. Gordon Allen possesses the necessary character qualifications to be a broadcast licensee or to be a principal of a broadcast licensee.

It is further ordered, That the evidentiary hearing in this proceeding be held in Salem, Oregon.

Released: February 19, 1962.

WAEB BROADCASTERS, INC. (WAEB)

Order Scheduling Prehearing Conference

In re application of WAEB Broadcasters, Inc. (WAEB), Allentown, Pennsylvania, Docket No. 14165, File No. BP-12918; for construction permit.

Pursuant to request of counsel for WAEB Broadcasters, Inc., contained in letter dated February 15, 1962, and with agreement of other counsel: *It is ordered*, This 16th day of February 1962, that a further conference in the above-entitled proceeding will be held at 10 a.m., March

[2] Section 164.410 of the Oregon statutes reads as follows:

> Libel and slander; penalty for publishing or broadcasting defamatory matter: (1) Any person who wilfully, by any means other than words spoken, except as provided in this section, publishes or causes to be published false and scandalous matter concerning another, with intent to injure or defame such other person, or any person who wilfully uses or utters over, through or by means of radio, commonly called broadcasting, false and scandalous matter concerning another, with intent to injure or defame such other person, shall be punished upon conviction by imprisonment in the county jail for not less than three months nor more than one year, or by a fine of not less than $100 nor more than $500; (2) Any allusion to any person or family, with intent to injure, defame or maliciously annoy the person or family, comes within this section; (3) Any person who violates this section shall be prosecuted whether the party injured desires to prosecute or not.

[3] This editorial refers to these indictments as the "Allen-Utley" case; presumably both Allen and Utley signed the declaration.

[4] An indictment is not evidence of the matters charged in the indictment.

[5] Section 1.141 of our rules provides that petitions to enlarge issues shall contain "specific allegations of fact sufficient to support the action requested."

6, 1962, to consider effect of amendment to rules, relative to processing of applications, made in connection with clear channel proceeding.

Released: February 16, 1962.

FEDERAL MARITIME COMMISSION

TYRRHENIAN/LEVANT FREIGHT CONFERENCE ET AL.

Agreements Filed for Approval

Notice is hereby given that the following described agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreement 8516, between the member lines of the Tyrrhenian/Levant Freight Conference (AMETILE) (a foreign conference serving the eastern Mediterranean area between Italian ports and the Levant) and Lykes Bros. Steamship Co., Inc., operating in the trade between U.S. South Atlantic and Gulf ports and the Levant, covers the establishment of terms and conditions for the carriage of cargoes in these trades, transhipped between Lykes and the conference at Italian ports.

Agreement 8690, between United States Lines Company and the carriers comprising the M.A.N.Z. Line joint service (operating under approved joint service Agreement 7814-1), covers the establishment and maintenance of a joint cargo service (with limited passenger accommodations) in the trade from Australia (including Tasmania) to east coast ports of the United States.

Agreement 8749, between United Philippine Lines and the carriers comprising the Pacific Orient Express Lines joint service (operating under approved joint service Agreement 8141), covers the establishment and maintenance of a joint sailing arrangement in the trade between U.S. Pacific Coast ports and ports in the Philippines, Hong Kong, Japan and/or other areas agreed upon from time to time subject to prior approval by the Federal Maritime Commission.

Agreement 8770, between Armement Deppe, S.A., The Cunard Steam-Ship Company, Ltd., Hamburg America Line, North German Lloyd and Lykes Bros. Steamship Co., Inc., covers an arrangement whereby the parties may confer with each other and discuss together from time to time the matter of rates, charges, classifications and related tariff matters appropriate and conformably with law and the interest of the foreign commerce of the United States to be charged or observed by them in the trade from United Kingdom (England, Scotland, Wales, Northern Ireland, and the Republic of Ireland) to U.S. Gulf ports (Key West to Brownsville, inclusive), and to agree on various rates, charges, classifications and related tariff matters, to be charged or observed by them respectively, but with reservation of the right by each of them to alter for itself any rate, charge, classification, or related tariff matter thus agreed upon or theretofore in force upon first giving the other parties at least forty-eight hours advance notice thereof.

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 16, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

Notice of Amendment, Withdrawal, and Consolidation of Applications

FEBRUARY 16, 1962.

Take notice that on February 8, 1962, Tenneco Corporation (Tenneco), P.O. Box 2511, Houston 1, Texas, filed an amended application for a certificate of public convenience and necessity in Docket No. CI61-1272.[1] By its amended application, Tenneco seeks certificate authority pursuant to section 7(c) of the Natural Gas Act (Act), to sell natural gas to Tennessee Gas Transmission Company (Tennessee) from certain oil-casinghead gas leases. These leases, and others in this docket, aggregately known as the on-system leases, were transferred to Tenneco by Tennessee on February 28, 1961. In Tenneco's original application, authorization was sought to sell gas from all the leases. Now Tenneco proposes, upon receipt of section 7(b) abandonment permission applied for in a separate docket (infra), to make sale of natural gas solely from the oil-casinghead leases; and further, to reconvey the gas-only leases back to Tennessee at such time as the authorization sought in this docket is granted.

Also, take notice that Tenneco filed a companion application in Docket No. CP62-184 for permission, pursuant to section 7(b) of the Act, to abandon its on-system oil-casinghead gas leases. Tennessee does not propose any interruption in the deliveries of gas from these leases to interstate markets. The subject leases are particularized, and more fully described, in Exhibit A attached to Tenneco's amended application in Docket No. CI61-1272.

Take further notice of Tenneco's withdrawal, pursuant to § 1.11(d) of the Commission's rules of practice and procedure, of its application for a certificate of public convenience and necessity filed in Docket No. CI61-1475. In its application, Tenneco requested section 7(a)(a) certificate authority to sell gas from certain leases located in Offshore Cameron Parish, Louisiana. These leases were formerly owned by Tennessee and the notice of withdrawal states that they will be reconveyed back to Tennessee upon issuance of permanent certificates in the remaining consolidated dockets.

Take further notice that Tennessee's application in Docket No. CP62-184 should be consolidated for hearing with the above-entitled related applications previously noticed and will be heard with them on a date to be selected by the Presiding Examiner at a meeting of the parties on March 1, 1962, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C.

Protests, petitions to intervene, and notices of intervention previously filed in the above-entitled dockets will be deemed to apply to Tenneco's amended application in Docket No. CI61-1272 and also to Tennessee's application in Docket No. CP62-184.

Protests, petitions to intervene, and notices of intervention applying exclusively to Tenneco's amended application in Docket No. CI61-1272 and to Tennessee's application in Docket No. CP62-184 may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 26, 1962.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1760; Filed, Feb. 21, 1962; 8:45 a.m.]

[1] Notice of the filing of the above applications, consolidation thereof for hearing and the date of hearing was issued October 9, 1961 (26 F.R. 9693). The formal hearing commenced as scheduled on December 5, 1961, and is presently in recess.

[Docket No. CP61-263]

CITIES SERVICE GAS CO. ET AL.

Notice of Applications and Date of Hearing

FEBRUARY 15, 1962.

Cities Service Gas Company, Docket No. CP61-263; Oklahoma Natural Gas Gathering Corporation, Docket No. CI61-1408; Colorado Oil and Gas Corporation (Operator), et al., Docket No. CI61-1545; Forrest H. Lindsay d.b.a. National Associated Petroleum Company, Docket No. CI61-1553; Livingston Oil Company (Operator), Docket No. CI61-1557; D. H. Rowland, Docket No. CI61-1561; Bolsa Chica Oil Corporation, Docket No. CI61-1569; Roger H. Davis, Docket No. CI61-1587; Indeco Corporation, Docket No. CI61-1590; Tidewater Oil Company, Docket No. CI61-1599; Oklahoma Natural Gas Company (Operator), et al., Docket No. CI61-1639; Emby Kaye, et al., Docket No. CI61-1654; Union Texas Natural Gas Corporation, et al., Docket No. CI61-1655; Cities Service Petroleum Company, Docket No. CI61-1664; K. C. Hawkinson, et al., Docket No. CI61-1667; H. C. and Gertrude B. Andrewski, Docket No. CI61-1678; Great Western Drilling Company, Docket No. CI61-1693; Gulf Oil Corporation, Docket No. CI61-1711; Viersen & Cochran (Operator), et al., Docket No. CI61-1712; Herman Singer, Docket No. CI61-1738; Kidd Williams Production Corporation (Operator), et al., Docket No. CI61-1746; Kidd Williams Production Corporation (Operator), et al., Docket No. CI61-1747; John H. Burkhardt and Herman Burkhardt, Docket No. CI61-1785; L. B. Jackson Company (Operator), et al., Docket No. CI61-1792; Alma McCutchin, et al., Docket No. CI61-1813; Arkansas Louisiana Gas Company, Docket No. CP62-40; Texaco Inc., Docket No. CI62-569; Russell Maguire (Operator) et al, Docket No. CI62-570.

Take notice that on April 10, 1961, Cities Service Gas Company (Cities Service), P.O. Box 1995, Oklahoma City, Oklahoma, filed in Docket No. CP61-263 an application pursuant to section 7(c) of the Natural Gas Act (Act) for a certificate of public convenience and necessity authorizing the construction and operation of approximately 23 miles of 16-inch pipeline from a point on Cities Service's existing Oklahoma City 20-inch main transmission pipeline in Noble County, Oklahoma, westerly to a point in Garfield County, Oklahoma, where it will connect with the existing 12-inch pipeline of Oklahoma Natural Gas Gathering Corporation (Gathering) from whom Cities Service proposes to purchase and take delivery of not to exceed 40,000 Mcf of natural gas per day, all as more fully set forth in the aforesaid application in Docket No. CP61-263 which is on file with the Commission and open to public inspection.

Cities Service's estimated cost for the proposed project is $850,000, which will be financed from treasury cash.

On March 28, 1961, Oklahoma Natural Gas Gathering Corporation filed in Docket No. CI61-1408 an application pursuant to section 7(c) of the Act for a certificate of public convenience and necessity authorizing the afore-mentioned sale to Cities Service of natural gas which Gathering proposes to purchase in the Ringwood Field, Major County, Oklahoma, as hereinafter described and as more fully described in Gathering's application herein. The subject sale will be made pursuant to a gas sales contract between Gathering and Cities Service dated March 23, 1961, at an initial price of 18¢ per Mcf at 14.65 psia, the volume limited to a maximum of 40,000 Mcf per day.

Gathering proposes to purchase natural gas jointly with Warren Petroleum Corporation (Warren) from certain producers thereof in the Ringwood Field as set forth in the twenty-six producer applications enumerated hereinafter, pursuant to individual contracts, at 11.0 cents per Mcf at 14.65 psia. Warren will take liquid products only from the subject gas and will have no title to the residue gas after processing at a gasoline plant in the Ringwood Field. Gathering will gather the gas, transport it to the processing plant where Warren will extract the liquids, then deliver it to Cities Service in Garfield County as aforesaid.

The applications, all on file with the Commission and open to public inspection, under which producers in the Ringwood Field seek authorization to sell natural gas to Gathering and Warren pursuant to gas sales contracts filed concurrently as initial rate schedules for the respective proposed services are designated as follows:

CI61-1545, CI61-1553, CI61-1557, CI61-1561, CI61-1569, CI61-1587, CI61-1590, CI61-1599, CI61-1639, CI61-1654, CI61-1655, CI61-1664, CI61-1667, CI61-1678, CI61-1693, CI61-1711, CI61-1712, CI61-1738, CI61-1746, CI61-1747, CI61-1785, CI61-1792, CI61-1813, CP62-40, CI62-569, CI62-570.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 22, 1962, at 9:30 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 12, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[Project No. 2305]

SABINE RIVER AUTHORITY OF LOUISIANA AND SABINE RIVER AUTHORITY OF TEXAS

Notice of Application for License

FEBRUARY 16, 1962.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Sabine River Authority of Louisiana at Baton Rouge, Louisiana, and Sabine River Authority of Texas at Orange, Texas, for license for proposed Project No. 2305, to be known as Toledo Bend project, to be located on Sabine River in Sabine and DeSoto Parishes, Louisiana, and in Newton, Sabine, and Shelby Counties, Texas, and affecting lands of the United States within Sabine National Forest.

The proposed project would consist of: a rolled earth-fill dam about 8,600 feet long with a maximum height of 110 feet; a reservoir with normal pool elevation of 172 feet, an area of 181,600 acres, and a total storage of 4,477,000 acre-feet of which 1,554,200 acre-feet will be active storage for power generation; a side-channel spillway comprised of a concrete, gravity type, gated weir with a concrete chute and stilling basin, and a discharge channel; a sluiceway; a powerhouse located in the right abutment adjacent to the spillway containing three 39,200-horsepower turbines each connected to a 32,000-kva generator (28,800 kw at 0.9 P.F.); step-up transformers; a switchyard; and appurtenant electrical and mechanical facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is April 6, 1962. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1822; Filed, Feb. 21, 1962; 8:48 a.m.]

[Docket No. CP62-156]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Application and Date of Hearing

FEBRUARY 16, 1962.

Take notice that on January 4, 1962, as supplemented on January 29, 1962, Texas Eastern Transmission Corporation (Applicant), P.O. Box 1189, Houston, Texas, filed in Docket No. CP62-156 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity author-

izing the construction and operation of field facilities to enable Applicant to take into its certificated main pipeline system natural gas which will be purchased from producers thereof from time to time during the calendar year 1962, at a total cost not to exceed $4,000,000, with no single project to exceed a cost of $500,000, all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

The purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its existing pipeline system new supplies of natural gas which will be purchased from producers thereof in various areas generally coextensive with said system.

The proposed facilities would be financed from funds on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 27, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 16, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL RESERVE SYSTEM

BANK OF IDAHO

Order Approving Merger of Banks

In the matter of the application of Bank of Idaho for approval of merger with The First National Bank of Bonners Ferry.

There has come before the Board of Governors, pursuant to section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1828(c)), an application by Bank of Idaho, Boise, Idaho, a member bank of the Federal Reserve System, for the Board's prior approval of the merger of The First National Bank of Bonners Ferry, Bonners Ferry, Idaho, with and into Bank of Idaho, under the charter and title of the latter.

Pursuant to said section 18(c), notice of the proposed merger, in form approved by the Board of Governors, has been published, and reports on the competitive factors involved in the proposed transaction have been furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice and have been considered by the Board.

It is ordered, For the reasons set forth in the Board's Statement[1] of this date, that said merger be, and hereby is, approved: *Provided*, That said merger shall not be consummated (a) sooner than 7 calendar days after the date of this Order or (b) later than 3 months after said date.

Dated at Washington, D.C., this 16th day of February 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

UNITED CALIFORNIA BANK

Order Approving Merger of Banks

In the matter of the application of United California Bank for approval of merger with The Southwest Bank.

There has come before the Board of Governors, pursuant to section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1828(c)), an application by United California Bank, Los Angeles, California, a member bank of the Federal Reserve System, for the Board's prior approval of the merger of The Southwest Bank, Inglewood, California, with and into United California Bank, under the charter and title of the latter.

Pursuant to said section 18(c), notice of the proposed merger, in form approved by the Board of Governors, has been published, and reports on the competitive factors involved in the proposed transaction have been furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice and have been considered by the Board.

Upon reconsideration by the Board on the basis of additional information following its disapproval of the original application

It is ordered, For the reasons set forth in the Board's Statement[1] of this date, that said merger be, and hereby is, approved: *Provided*, That said merger shall not be consummated (a) sooner than 7 calendar days after the date of this Order or (b) later than 3 months after said date.

Dated at Washington, D.C., this 16th day of February 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

REGIONAL DIRECTOR OF COMMUNITY FACILITIES ACTIVITIES, REGION IV (CHICAGO)

Redelegation of Authority With Respect to Area Redevelopment Act

The Regional Director of Community Facilities Activities, Region IV (Chicago), is hereby authorized to carry out the provisions of sections 7 and 8 of the Area Redevelopment Act (Public Law 87-27, 42 U.S.C. 2506 and 2507) by performing the following functions within such region:

1. To execute offers for approved loans and/or grants and to execute approved amendments or modifications of contracts resulting from the acceptance of such offers.

2. To determine that loans made under section 7 of the act are in compliance with the requirements of sections 7(a)(2), 7(a)(3), 7(a)(4), 7(b), and 7(d).

3. To determine that grants made under section 8 of the act are in compliance with sections 8(a)(2) and 8(c) of the act; that there is little probability that such projects can be undertaken without the assistance of a grant under section 8; and that the amount of any grant under section 8 for a project does not exceed the difference between the funds which can be practicably obtained from other sources (including a loan under section 7 of the act) for such project and the amount which is necessary to insure the completion thereof.

4. To exercise the powers, duties, and functions vested in the Secretary of Commerce by sections 19 and 21 of the act in connection with any loans or grants proposed to be made under section 7 or 8 of the act.

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U.S.C. 1701c; Housing and Home Finance Administrator's redelegation effective May 1, 1961 (26 F.R. 7992, Aug. 25, 1961))

Effective as of the 22d day of February 1962.

[SEAL] JOHN P. MCCOLLUM,
Regional Administrator, Region IV.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3842]

BLACK BEAR INDUSTRIES, INC.

Order Summarily Suspending Trading

FEBRUARY 16, 1962.

The common stock, par value 15 cents a share, of Black Bear Industries, Inc. (formerly Black Bear Consolidated Mining Co.) being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, February 18, 1962 to February 27, 1962, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 62-1796; Filed, Feb. 21, 1962; 8:47 a.m.]

[File No. 24S-1866]

CISCO-VALLEY CORP.

Notice and Order for Hearing

FEBRUARY 16, 1962.

I. Cisco-Valley Corporation (issuer), incorporated in the State of Washington on October 2, 1961, filed with the Commission, on November 29, 1961, a notification on Form 1-A relating to a proposed offering of 75,000 shares, no par common stock, at an offering price of $4 per share for an aggregate amount of $300,000, for the purpose of obtaining an exemption from the registration provisions of Section 3(b) thereof and Regulation A promulgated thereunder. The amended offering circular, filed January 5, 1962, reduced the offering to 65,000 shares at a total offering price of $260,000.

II. The Commission, on January 25, 1962, issued an order pursuant to Rule 261 of the General Rules and Regulations under the Securities Act of 1933, as amended, which temporarily suspended the issuer's exemption under Regulation A and afforded to any person having any interest therein an opportunity to request a hearing. A written request for a hearing has been received by the Commission.

The Commission deems it necessary and appropriate that a hearing be held for the purpose of determining whether it should vacate the temporary suspension order or enter an order of permanent suspension in this matter.

It is hereby ordered, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that a hearing be held at 10:00 a.m., P.s.t., on March 7, 1962, at the Seattle Regional Office of the Commission, 9th floor, Hoge Building, 705 Second Avenue, Seattle 4, Washington, with respect to the following matters and questions, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether the issuer has complied with the terms and conditions of Regulation A in that:

1. The notification does not disclose the names of certain affiliates as required by Item 2(b) of Form 1-A.

2. The amended offering circular does not contain a statement of capital shares as required by Item 11(a)(1)(iii) of Schedule I to Form 1-A.

B. Whether the notification and the amended offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly, with respect to:

1. The failure to disclose, in the amended offering circular, that the issuer has no binding agreement to purchase the title and equipment of Valley Mining Company, and the failure to disclose the existence of a dispute between the issuer and Valley Mining Company as to whom Valley owes royalties on its Blue Lizard Mine project.

2. The failure to disclose accurately and adequately, in the amended offering circular, the unfavorable aspects of the mining and oil properties involved, including the unfavorable past operations, the exploratory status of the venture, the location of deposits and actual ore content, and the failure to present acceptable expert opinions, as well as misrepresentation with respect to the opinions submitted.

3. The failure to disclose accurately and adequately, in the amended offering circular, all direct and indirect interests of officers, directors and controlling persons, including a description of properties and services rendered, as well as their cost.

4. The failure to describe accurately and adequately, in the amended offering circular, the equity dilution of stock to be issued in the proposed offering.

5. The failure to disclose accurately and adequately in the notification, pursuant to the requirements of Item 9 of Form 1-A, the sale of unregistered securities issued by issuer within one year prior to the filing of the notification.

C. Whether the offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is further ordered*, That Sidney L. Feiler, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the powers granted to the Commission under sections 19(b), 21 and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's Rules of Practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail to Cisco-Valley Corporation, that notice of the entering of this order shall be given to all other persons by a general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard, or otherwise wishes to participate in the hearing, shall file with the Secretary of the Commission on or before March 5, 1962, a written request relative thereto as provided in Rule 9(c) of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 62-1797; Filed, Feb. 21, 1962; 8:47 a.m.]

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Atwood Inc., Mooresville, N.C.; effective 2-6-62 to 2-4-63 (work pants and shirts).

Big-Dad Manufacturing Co., Inc., Starke, Fla.; effective 1-23-62 to 1-22-63 (work pants).

Blue Bell, Inc., 626 South Elm Street, West Lee and Fuller Streets, Greensboro, N.C., and Banks and Taylor Streets, Stokesdale, N.C.; effective 1-21-62 to 1-20-63; Learners may not be engaged at special minimum wage rates in the production of separate skirts (misses', girls' and kiddies' shorts, pedal pushers and slacks).

Blue Ridge Manufacturing, Inc., Second and Poplar Streets, Murray, Ky.; effective 1-21-62 to 1-20-63 (men's and boys' cotton work trousers).

C & J Manufacturing Co., Eastman, Ga.; effective 1-22-62 to 1-21-63 (boys' dress and sport shirts).

Cluett, Peabody and Co., Lewistown, Pa.; effective 2-1-62 to 1-31-63 (men's sport shirts and ladies' blouses).

Cowden Manufacturing Co., Stanford, Ky.; effective 1-19-62 to 1-18-63 (men's and boys' dungarees).

Donlin Sportswear, Inc., New Tazewell, Tenn.; effective 1-17-62 to 1-16-63, (sport shirts).

Eastwill Sportswear Co., Inc., Greenwood, S.C.; effective 2-2-62 to 2-1-63 (men's sport shirts).

Hebron Pants Factory, Hebron, Md.; effective 2-4-62 to 2-3-63 (men's work pants).

L. & H. Shirt Co., Cochran, Ga.; effective 1-22-62 to 1-21-63 (boys' dress and sport shirts).

Mid-South Manufacturing Co., Inc., Richton, Miss.; effective 1-19-61 to 1-18-63 (men's cotton work shirts and pants).

Niemor Contractors, 310 Sherman Avenue, Newark, N.J.; effective 1-12-62 to 1-11-63. Learners may not be employed at special minimum wage rates in the production of leather jackets (men's and boys' sport jackets).

Pascal Corp., 461 West Cherry Street, Jesup, Ga.; effective 1-19-62 to 1-18-63 (men's and boys' shirts).

Raleigh Corp., Raleigh, Miss.; effective 1-31-62 to 1-30-63 (ladies' slacks and men's slacks).

The S & S Clothing Co., 44-48 Lehigh Street, Wilkes-Barre, Pa.; effective 2-3-62 to 2-2-63 (boys' and men's pants).

Summerville Dress Co., Inc., Summerville, S.C.; effective 1-19-62 to 1-18-63 (children's dresses).

United Pants Co., Inc., 222-228 Beade Street, Plymouth, Pa.; effective 2-1-62 to 1-31-63 (boys' pants and men's and boys' jackets).

Vidalia Garment Co., Vidalia, Ga.; effective 1-30-62 to 1-29-63 (men's sport and dress shirts).

Willards Shirt Co., Willards, Md.; effective 1-29-62 to 1-28-63 (men's work shirts and pants).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 19th day of February 1962.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATION FOR RELIEF

FEBRUARY 19, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37563: *Substituted service—central and southern territory.* Filed by Central and Southern Motor Freight Tariff Association, Incorporated, Agent (No. 72), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars, between points in southern territory, on the one hand, and points in central territory and other points in the United States, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Central and Southern Motor Freight Tariff Association, Incorporated tariff MF-I.C.C. 258.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F.R. Doc. 62-1817; Filed, Feb. 21, 1962; 8:49 a.m.]

ORGANIZATION MINUTES

Rehearing and Further Proceedings

FEBRUARY 19, 1962.

The Interstate Commerce Commission has amended its Organization Minutes, being assignment of work, business and functions pursuant to section 17 of the Interstate Commerce Act, as amended, issue of March 7, 1961, revised to May 1, 1961 (26 F.R. 4773, 5167, 8434, and 10991 and 27 F.R. 1234), as follows:

Under the heading *Rehearing and Further Proceedings*, Item 8.3, has been amended effective February 22, 1962, to read as follows:

8.3 Petitions for rehearing, reconsideration or further hearing in respect of any order, decision, or requirement of a division shall be considered and disposed of by the division (acting as an appellate division) as constituted at the time the petition is circulated for action; provided, that in cases in respect of which it has been determined and announced by the Commission that issues of general transportation importance are involved, such petition shall be considered and disposed of by the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

Rules and Regulations

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1961 C.C.C. Grain Price Support Bulletin 1, Supp. 2, Amdt. 8, Barley]

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—1961-Crop Barley Loan and Purchase Agreement Program

SUPPORT RATES

The regulations issued by the Commodity Credit Corporation published in 26 F.R. 5195, 5565, 7007, 7572, 8097, 8559, 8906, 11233, 12157, and 27 F.R. 557 and 1407, containing the specific requirements for the 1961-crop barley price support program are hereby amended as follows:

Section 421.187(b) is amended by increasing the following basic county support rates:

WYOMING

County:	Rate per bushel From—	To—
Lincoln	$0.70	$0.71
Sublette	.70	.72
Sweetwater	.70	.73
Uinta	.70	.73

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended, 15 U.S.C. 714, 7 U.S.C. 1421, 1441, 1442)

Effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on February 20, 1962.

EMERY E. JACOBS,
Acting Executive Vice President, Commodity Credit Corporation.

[F.R. Doc. 62-1884; Filed, Feb. 23, 1962; 8:49 a.m.]

[1961 C.C.C. Grain Price Support Bulletin 1, Supp. 2, Amdt. 8, Wheat]

PART 421—GRAIN AND RELATED COMMODITIES

Subpart—1961-Crop Wheat Loan and Purchase Agreement Program

SUPPORT RATES

Correction

In F.R. Doc. 62-1526, appearing at page 1408 of the issue for Thursday, February 15, 1962, the following correction is made in the tabular material for Eagle County, Colorado: In the "Rate per bushel: From—" column, the entry should read "1.53" instead of "1.52".

PART 464—TOBACCO

Subpart—Tobacco Loan Program

SCHEDULES OF ADVANCE RATES BY GRADE

Set forth below are schedules of advance rates, by grades, for the 1961 crop of types 32 and 46 tobacco under the tobacco loan program published July 6, 1960 (25 F.R. 6323).

§ 464.1351 1961 crop; Maryland tobacco, type 32, advance schedule.[1]

§ 464.1352 1961 crop; Puerto Rican tobacco, type 46, advance schedule.[2]

[Dollars per hundred pounds, farm sales weight]

Grade	Price block	Advance rate
C1F, C1P, X1P, X1F, X1S, X2P, X2F, X2T, X2S, N	I	38
	II	26
	III	17
	IV	14

[1] The advance rate for each grade of any tobacco classified as type 32b will be 75 percent, rounded to the nearest dollar, of the rate designated for such grade of regular type 32 tobacco. Tobacco graded N2 (second quality nondescript), scrap, No-G (no grade), "W" (doubtful keeping order), or "U" (unsound) will not be accepted. Only the original producer is eligible to receive advances. The cooperative associations through which price support is made available are authorized to deduct from the amount paid to growers 12 cents per hundred pounds to apply against overhead costs.

[2] The cooperative associations through which price support is made available to growers are authorized to deduct $1.00 per hundred pounds from the advances to growers to apply against overhead and handling costs. Tobacco is eligible for advances only if consigned by the original producer. No advance is authorized for scrap or tobacco designated as "No-G".

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 106, 401, 403, 63 Stat. 1051, as amended, 1054; 74 Stat. 6; 15 U.S.C. 714c, 7 U.S.C. 1441, 1445, 1421, 1423; sec. 125, 70 Stat. 198, 7 U.S.C. 1813)

Effective date. Date of signature.

Signed at Washington, D.C., on February 20, 1962.

EMERY E. JACOBS,
Acting Executive Vice President, Commodity Credit Corporation.

SUBCHAPTER C—EXPORT PROGRAMS

[Rev. 1, Amdt. 8]

PART 483—WHEAT AND FLOUR

Subpart—Flour Export Program—Cash Payment (GR-346) Terms and Conditions

MISCELLANEOUS AMENDMENTS

The Terms and Conditions of the Flour Export Program—Cash Payment (GR-346) (25 F.R. 5816), as amended (25 F.R. 9939) and (25 F.R. 10758), are further amended in order to remove from eligibility for an export payment any flour which is milled from Durum wheat and to revise certain reporting requirements of the regulations.

§ 483.222 [Amendment]

Section 483.222 *Conversion factors*, paragraph (a) is amended to read as follows:

(a) The following conversion factors shall be applied to the announced rate to determine the rate applicable to each item not milled from Durum wheat:

	Rate factor
Wheat flour (including clears), derived from conventional milling practices which are generally accepted in the milling industry in the United States as representing a 72-percent extraction operation	1.000
Farina and semolina milled from other than Durum wheat	1.000
Wheat flour, derived from conventional milling practices which are generally accepted in the milling industry in the United States as representing an 80-percent extraction operation	.921
Bulgur (85-percent extraction operation)	.872
Wheat flour, derived from conventional milling practices which are generally accepted in the milling industry in the United States as representing a 90-percent extraction operation	.823
Whole wheat flour	.726

§ 483.225 [Amendment]

Section 483.225 *Notice of Sale*, paragraph (b), subparagraph (3) is amended to read as follows:

(3) Contract quantity in net hundredweight. When the sale involves flour milled in part from Durum wheat, the exporter shall also furnish the quantity in net hundredweight of flour to be milled from Durum wheat.

Section 483.225 *Notice of Sale*, paragraph (b) is further amended by adding a new subparagraph (9) to read as follows:

(9) Coast of export; or coasts of export when prices covering exportation of flour from optional coasts is provided for in the contract between the exporter and the foreign buyer.

Present subparagraph (9) of paragraph (b) is amended only to the extent of renumbering it as subparagraph (10) as follows:

(10) Such additional information in individual cases as may be requested by the Director.

§ 483.227 [Amendment]

Section 483.227 *Declaration of Sale and evidence of sale*, paragraph (b), subparagraph (8) is amended to read as follows:

(8) Type and extraction of flour, the class of wheat from which the flour was milled and the approximate ash content must be shown. For example: "Hard Spring 0.48 Ash". For blended flours, the most predominant class of wheat contained in the blend should be shown and the quantity of flour if any, in net hundredweight to be milled from Durum wheat. For example: "blended (predominantly) Hard Winter 0.70 Ash".

Subparagraph (10) of this paragraph is also amended to read as follows:

(10) Coast of export; or coasts of export when prices covering exportation of flour from optional coasts in provided for in the contract between the exporter and the foreign buyer.

§ 483.228 [Amendment]

Section 483.228 *Notice of Export*, paragraph (b) is amended to read as follows:

(b) *Information required.* The Notice of Export shall contain the following information.

(1) Registration Number.
(2) Date of Preparation.
(3) Total quantity in net hundredweight actually loaded on all shipments made in connection with the applicable Declaration of Sale.
(4) Country of destination.
(5) Date of export of final shipments.
(6) The U.S. coastal area or areas from which the flour was exported. If more than one coastal area is involved, the quantity exported from each coast should be shown on the reverse side of the form.
(7) Name and address of the exporter.
(8) Signature and title of the person who prepared the form.
(9) If more than one class of wheat or extraction rate is involved, quantities milled from each class of wheat shall be shown separately on the reverse side of the form.
(10) Where blended flour was exported which in part was milled from Durum wheat, the exporter shall show on the reverse side of the form the percentage of flour exported (not eligible for export payment) which was milled from Durum wheat as well as the percentage of flour exported which was milled from other classes of wheat.

§ 483.246 [Amendment]

Section 483.246 *Documents required as evidence of export*, paragraph (a), subparagraph (4) is amended to read as follows:

(4) A certification by the exporter that the flour for which export payment is claimed is the same flour which is described in the Declaration of Sale and which is covered by the evidence of export referred to in subparagraph (1) or (2) of this paragraph, and a certification of the weight of any enrichments or other additives to the flour in excess of one-half of one percent of the combined net weight of the flour and additives. If the flour for which payment is claimed was milled in part from Durum wheat, exporter shall furnish a certification as to the percentage of flour milled from Durum wheat and the percentage of flour milled from other classes of wheat. If the flour has no Durum wheat content, the exporter shall so certify.

Section 483.291 *Flour*, is amended to read as follows:

§ 483.291 Flour.

"Flour" means wheat flour, except flour, semolina or any product milled from Durum wheat, processed in the United States or Puerto Rico from wheat as defined in the Official Grain Standards of the United States and grown in the United States and shall include whole wheat flour, malted wheat flour, self-rising flour, semolina milled from other than Durum wheat, farina and bulgur, but shall not include wheat products produced during a continuing process of manufacturing processed wheat products other than flour; nor flour mixes unless composed entirely of wheat flour, except for additives. The flour shall be such as not to be in conflict with the laws of the country to which it is intended for export. As used herein, the word bulgur means the food product prepared from wheat by scouring, tempering, cooking (steaming under pressure), drying, and removing the bran coat. The quantity of flour exported which is eligible for export payment shall be determined by deducting from the net weight of the shipment, the weight of any enrichment, or other additive (including Creta Praeperata), in excess of one-half of one percent of the combined net weight of the flour and additive. (See sec. 483.222 with regard to eligibility of particular types of flour for particular rates of payment.)

The effective date is the date on which this amendment is filed for public inspection by the Office of the Federal Register.

NOTE: The recordkeeping and reporting requirements of these regulations have been approved by, and subsequent recordkeeping and reporting requirements will be subject to, the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Secs. 4, 5, 62 Stat. 1070, 1072, sec. 2, 63 Stat. 945, as amended, 15 U.S.C. 714b, 714c, 7 U.S.C. 1641)

Signed at Washington, D.C., on February 20, 1962.

EMERY E. JACOBS,
Acting Executive Vice President, Commodity Credit Corporation.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 8]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.308 Navel Orange Regulation 8.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 20, 1962.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., February 25, 1962, and ending at 12:01 a.m., P.s.t., March 4, 1962, are hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 400,000 cartons;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 21, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1935; Filed, Feb. 23, 1962; 8:51 a.m.]

[Valencia Orange Reg. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.301 Valencia Orange Regulation 1.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 20, 1962.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., February 25, 1962, and ending at 12:01 P.s.t., March 4, 1962, are hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: Unlimited movement;
(iii) District 3: 65,000 cartons.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 21, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1936; Filed, Feb. 23, 1962; 8:51 a.m.]

[Lemon Reg. 6, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1) of § 910.306 (Lemon Reg. 6, 27 F.R. 1007) are hereby amended to read as follows:

(1) During the period beginning at 12:01 a.m., P.s.t., February 25, 1962, and ending at 12:01 a.m., P.s.t., June 3, 1962, no handler shall handle any lemons, grown in District 1, District 2, or District 3, which are of a size smaller than 1.82 inches in diameter, which shall be the largest measurement at right angles to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the lemons in any type of container may measure less than 1.82 inches in diameter.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 21, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-1937; Filed, Feb. 23, 1962; 8:51 a.m.]

[Lemon Reg. 9]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.309 Lemon Regulation 9.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and

Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011), because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 20, 1962.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., February 25, 1962, and ending at 12:01 a.m., P.s.t., March 4, 1962, are hereby fixed as follows:

(i) District 1: 4,650 cartons;

(ii) District 2: 204,600 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 21, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–1938; Filed, Feb. 23, 1962; 8:51 a.m.]

[Grapefruit Reg. 3]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

§ 912.303 Grapefruit Regulation 3.

(a) *Findings.* (1) Pursuant to the marketing agreement and order (7 CFR Part 912; 27 F.R. 87) regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Indian River Grapefruit Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 21, 1962.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled during the period beginning at 12:01 a.m., e.s.t., February 26, 1962, and ending at 12:01 a.m., e.s.t., March 5, 1962, is hereby fixed at 170,000 standard packed boxes.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 21, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–1939; Filed, Feb. 23, 1962; 8:51 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER–351]

PART 249—PRESERVATION OF AIR CARRIER ACCOUNTS, RECORDS, AND MEMORANDA

Preservation of Records by Supplemental Air Carriers

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of February 1962.

The Board by publication in the FEDERAL REGISTER, 26 F.R. 9753, and by circulation of Economic Draft Release EDR–36, dated October 12, 1961, Docket 13106, gave notice that it was proposing an amendment to § 249.8 of Part 249, (14 CFR Part 249) of its Economic Regulations which would inter alia require supplemental air carriers to preserve ticket records at their principal office.

In response to the notice, the Board received comments from two supplemental carriers. One comment opposed the amendment on the ground that it would result in the carrier's maintaining duplicate records, which would substantially and unnecessarily increase its operating costs and administrative burden. This carrier contends that the Federal Aviation Agency requires carriers to preserve many of the records set forth in § 249.8, Item 1(a) at the carrier's "principal maintenance base," while the proposed amendment would require that they be maintained at the carrier's "principal office." Thus, where a carrier's "principal office" is different from its "principal maintenance base" duplicate records would have to be preserved.

The primary purpose of this amendment is to require carriers to preserve their ticket records at a central point in order to make inspection of such records less difficult by the Board's staff. Usually such records are preserved at the carrier's "principal office" and this was the reason the Board in the proposed amendment designated the principal offices as the point where such records would be preserved. However, air carriers who can demonstrate that unusual circumstances exist which warrant a departure from this rule may, pursuant to § 249.4, file a request with the Board for a waiver from this requirement.

A comment was received urging the Board to adopt a one-year retention period in lieu of the present three-year retention period for records, particularly ticket records, required to be preserved under Item 1(a) of § 249.8. It is alleged that such records require an inordinately large filing or storage space. The Board cannot accede to this contention. In the first instance, the records required to be preserved under Item 1(a) are not voluminous and require a relatively small storage area. Secondly, these records, particularly the ticket records, are used to check flight frequencies of supplemental carriers. The Board has found that sometimes, when an enforcement problem is involved, such checks must be made as late as three years after the date the tickets were used.

Interested persons have been afforded an opportunity to participate in this rule-making proceeding and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Board hereby amends § 249.8 of Part 249 of the Board's Economic Regulations (14 CFR Part 249), effective March 26, 1962, as follows:

1. By amending the last sentence of the introductory paragraph of § 249.8 to read: "All records of the categories set forth in this section shall be preserved, for the duration of the retention periods set forth below, at the carrier's principal office, which office shall be the same as that shown on the carrier's current CAB Form 242."

2. By amending § 249.8, Item 1(a) of the "Category of Records" to read: "As related to statistical reports (including copies of flight and auditor's coupons) • • • 3 years."

NOTE: The record-retention requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 407 of the Act, 72 Stat. 766; 49 U.S.C. 1377)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 62–1883; Filed, Feb. 23, 1962; 8:49 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61–FW–101]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration of Description

On December 5, 1961, Airspace Docket No. 61–FW–101 was published in the FEDERAL REGISTER (26 F.R. 11484) amending § 600.6280 of the regulations of the Administrator by altering VOR Federal airway No. 280 from the El Paso, Texas, VORTAC via the intersection of the El Paso VORTAC 093° and the Clint, Texas, VOR 037° radials; to the Pinon, N. Mex., VOR. This amendment was effective January 11, 1962.

It has been determined that the Clint VOR 037° radial is in error and that the correct radial should be the 038° radial from the Clint VOR. Therefore, action is taken herein to alter the description of Victor 280 accordingly.

Since this amendment is minor in nature, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts this amendment will become effective more than 30 days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following action is taken:

In the text of § 600.6280 (14 CFR 600.6280, 26 F.R. 11484) "From the INT of the El Paso, Texas, VORTAC, via the INT of the El Paso VORTAC 093° and the Clint, Texas, VOR 037° radials;" is deleted and "From the El Paso, Texas, VORTAC via the INT of the El Paso VORTAC 093° and the Clint, Texas, VOR 038° radials;" is substituted therefor.

This amendment shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 19, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1877; Filed, Feb. 23, 1962; 8:48 a.m.]

[Airspace Docket No. 62–NY–7]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2462 of the regulations of the Administrator is to alter the time of designation of the Ithaca, N.Y., control zone.

The Ithaca control zone is designated from 0500 to 2400 hours daily, local standard time. Due to a change in the hours during which weather reporting service is available at the Tompkins County Airport, the Federal Aviation Agency is changing the time of designation of this control zone. Therefore, action is taken herein to change the time of designation of the Ithaca control zone from 0500 to 2400 hours daily to 0600 to 2300 hours Monday through Friday, 0600 to 2100 hours Saturday and 0900 to 2300 hours Sunday, local time.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.2462 (26 F.R. 1908, 3852, 4931) is amended to read:

§ 601.2462 Ithaca, N.Y., Control zone.

Within a 5-mile radius of the Tompkins County Airport latitude 42°29'25" N., longitude 76°27'30" W.), and within 2 miles either side of the 305° radial of the Ithaca VOR extending from the 5-mile radius zone to 12 miles NW of the VOR, excluding the area bounded by a line parallel to and 1,500 feet E of the Ithaca Municipal Airport runway and a line ½ mile N of the runway at 090° to the runway centerline extended. This control zone shall be effective from 0600 to 2300 hours Monday through Friday, 0600 to 2100 hours Saturday and 0900 to 2300 hours Sunday, local time.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 19, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–1876; Filed, Feb. 23, 1962; 8:48 a.m.]

[Airspace Docket No. 60–AN–19]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to § 608.22 of the regulations of the Administrator is to change the designated altitude of the Yukon, Alaska, Restricted Area R–2205.

The Department of the Army has advised that the designated altitude of R–2205 may be reduced from "80,000 feet MSL" to "36,000 feet MSL"; therefore, action is taken herein to reflect this change in the designated altitudes of R–2205.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In § 608.22 Alaska, R–2205 Yukon, Alaska (26 F.R. 12284), "Designated alti-

tudes. Surface to 80,000 feet MSL." is deleted and "Designated altitudes. Surface to 36,000 feet MSL." is substituted therefor.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on February 19, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-1878; Filed, Feb. 23, 1962; 8:48 a.m.]

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

SUBCHAPTER G—APPROVED FORMS, NATURAL GAS ACT

[Docket No. R-201; Order 239A]

PART 260—STATEMENTS AND REPORTS (SCHEDULES)

Revising Schedule Pages of Annual Report Form for Natural Gas Companies; Correction

FEBRUARY 15, 1962.

Revision of Annual Report Form Prescribed for Class A and Class B Natural Gas Companies Subject to the Natural Gas Act, F.P.C. Form No. 2.

Order Revising Schedule Pages of Annual Report Form, F.P.C. Form No. 2, For Natural Gas Companies, issued January 26, 1962, and published in the FEDERAL REGISTER on February 2, 1962 (F.R. Doc. 62-1066; 27 F.R. 970): Under finding (1) of the January 26, 1962 order change the words "Federal Power Act" to read "Natural Gas Act".

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-1853; Filed, Feb. 23, 1962; 8:45 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55570]

PART 16—LIQUIDATION OF DUTIES

PART 19—CUSTOMS WAREHOUSES AND CONTROL OF MERCHANDISE THEREIN

Miscellaneous Amendments

To emphasize that the provision of § 16.3(d) providing for liquidation under the entry for rewarehousing of certain articles subject to import tax withdrawn from warehouse for bonded transportation to and entry for rewarehousing elsewhere requires that such articles be excluded from the liquidation of the warehouse entry from which such withdrawal was made, § 16.3(d) is amended by adding a new sentence to read: "Any such articles so withdrawn shall be excluded from the liquidation of the original warehouse entry."

(R.S. 161, as amended, 251, secs. 505, 624, 46 Stat. 732, 759; 5 U.S.C. 22, 19 U.S.C. 66, 1505, 1624)

The references in § 19.14(d) to premises covered by an internal revenue bond are no longer current. Accordingly, "the bonded premises of a distilled spirits plant" is substituted for "an internal revenue bonded warehouse" and "a bonded wine cellar" is substituted for "internal revenue bonded winery or bonded wine storeroom" so that paragraph (d) will read:

(d) For the transfer of domestic spirits from the bonded premises of a distilled spirits plant to a bonded manufacturing warehouse, or for the transfer of domestic wines from a bonded wine cellar to a bonded manufacturing warehouse, a bond on customs Form 7571 shall be required unless the warehouse is covered by a bond on customs Form 3583.

(R.S. 161, as amended, 251, sec. 624, 46 Stat. 759; 5 U.S.C. 22, 19 U.S.C. 66, 1624)

[SEAL] PHILIP NICHOLS, JR.,
Commissioner of Customs.

Approved: February 14, 1962.

JAMES A. REED,
Assistant Secretary of the Treasury.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

TETRADIFON

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by Phillips-Duphar, Weesp, The Netherlands, and other relevant material, has concluded that the following amendment to § 121.1038 of the food additive regulations should issue with respect to residues of tetradifon (2,4,5,4'-tetrachlorodiphenyl sulfone) in or on dried tea. Such residues have been shown to occur from application of the pesticide chemical to the growing crop under good agricultural practice where there is an interval of 7 days between the last application of the pesticide and plucking. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations are amended by changing the section heading and the introduction to the section and by adding to § 121.1038 (21 CFR 121.1038; 26 F.R. 8971) a tolerance for residues of 2,4,5,4'-tetrachlorodiphenyl sulfone in or on dried tea. As amended, the affected portions of this section read as follows:

§ 121.1038 Tetradifon.

Tolerances are established for residues of tetradifon (2,4,5,4'-tetrachlorodiphenyl sulfone) when present as a result of its application as a pesticide chemical to growing agricultural crops, as follows:

* * * * *

8 parts per million in or on dried tea.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4))

Dated: February 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1871; Filed, Feb. 23, 1962; 8:47 a.m.]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ANTI-OFFSET SUBSTANCES ON PAPER AND PAPERBOARD

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 592) filed by Mearingstar-Paisley, Inc., 630 West Fifty-first Street, New York 19, New York, and other relevant material, has concluded that the following regulation should issue with respect to the food additives methyl hydrogen polysiloxane and zinc-2-ethyl-hexoate as components of anti-offset substances used in the processing of paper and paperboard used in food packaging. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR Part 121) are amended by adding to Subpart F the following new section:

§ 121.2537 Anti-offset substances.

Substances named in paragraphs (b) and (c) of this section may be safely used to prevent the transfer of inks employed in printing and decorating paper and paperboard used for food packaging in accordance with the provisions of this section:

(a) The substances are applied to the nonfood contact, printed side of the paper or paperboard in an amount not greater than that required to accomplish the technical effect nor greater than any specific limitations, where such are provided.

(b) Anti-offset powders are prepared from substances that are generally recognized as safe in food, substances for which prior sanctions or approvals were granted and which are used in accordance with the specific provisions of such sanction or approval, and substances named in paragraph (c) of this section.

(c) The substances permitted are as follows:

Substances	Limitations
Carbon tetrachloride	
Methyl hydrogen polysiloxanes	
Industrial starch—modified	Complying with § 121.2506.
Tin oleate	
Zinc-2-ethyl hexoate	

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: February 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1870; Filed, Feb. 23, 1962; 8:47 a.m.]

SUBCHAPTER C—DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN CONTAINING DRUGS

Bacitracin- (or Zinc Bacitracin-) Neomycin-Polymyxin Powder Topical; Change in Expiration Date

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for certification of bacitracin and bacitracin-containing drugs (21 CFR 146e.430; 26 F.R. 2596, 6198) are amended as set forth below:

In § 146e.430, paragraph (c)(1)(iv) is amended by changing the words "18 months after" to read "18 months, or 24 months after". As amended, paragraph (c)(1)(iv) reads as follows:

§ 146e.430 Bacitracin - neomycin - polymyxin powder topical; zinc bacitracin-neomycin-polymyxin powder topical.

* * * * *

(c) *Labeling.* * * *

(1) * * *

(iv) The statement "Expiration date _____," the blank being filled in with the date that is 12 months after the month during which the batch was certified, except that the blank may be filled in with the date that is 18 months, or 24 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the nature of the change is such that it cannot be applied to any specific product unless and until the manufacturer thereof has supplied adequate data regarding that article.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: February 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-1869; Filed, Feb. 23, 1962; 8:47 a.m.]

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2613]

[1825382]

NEVADA

Amending Certain Orders Which Withdrew Lands for Use of the War Department for Military Purposes (Nellis Bombing and Gunnery Range; Indian Springs Air Force Base)

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Orders No. 8578 of October 29, 1940, as amended; No. 9019 of January 12, 1942; and No. 9086 of March 4, 1942; and Public Land Orders No. 58 of November 12, 1942; No. 89 of February 10, 1943; and No. 168 of September 17, 1943, which withdrew public lands in Nevada for use of the War Department for military purposes, are hereby amended to the extent necessary to delete therefrom the following paragraph, added by Executive Order No. 9526 of February 28, 1945, to the first five orders recited in this paragraph, and appearing in Public Land Order No. 168:

The jurisdiction granted by this order shall cease at the expiration of the six months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). Thereupon, jurisdiction over the lands hereby reserved shall be vested in the Department of the Interior, and any other department or agency of the Federal Government according to their respective interests then of record. The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered.

2. The orders of withdrawal referred to in Paragraph 1, above, are hereby further amended by substituting the words "Department of the Air Force" for the words "War Department" wherever they appear.

3. Use of the lands in the Desert Game Range by the Department of the Air Force shall be in accordance with the Memorandum of Understanding approved by the Secretary of the Air Force and the Acting Secretary of the Interior, on December 8, 1960, and January 20, 1961, respectively.

4. The Department of the Interior shall retain jurisdiction of the mineral and vegetative resources of the lands.

5. Authority to change the use specified in the orders of withdrawal, supra, or to grant rights to others to use the lands, including grants of leases, licenses, easements and rights-of-way but excluding permits revocable at will, is reserved to the Secretary of the Interior or his delegate.

6. The jurisdiction and use granted to the Department of the Air Force by the withdrawal orders referred to in Paragraph 1 hereof, shall be limited to those activities which are related directly to military purposes, and shall continue for a period of 10 years with an option to renew the withdrawal and reservation for a period of 5 years upon notice to the Secretary of the Interior, and subject to the condition that the reservation may be terminated at any time during either of such periods by the Secretary of the Interior upon notice from the Secretary of the Air Force that the reservation is no longer needed for military purposes.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

FEBRUARY 16, 1962.

[Public Land Order 2614]

[Sacramento 063392]

CALIFORNIA

Order Opening Reclamation Lands to Location, Entry, and Patenting Under General Mining Laws

By virtue of the authority contained in the Act of April 23, 1932 (47 Stat. 136; 43 U.S.C. 154), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the public lands in the following-described area shall at 10:00 a.m., on March 24, 1962, be open to location, entry, and patenting under the United States mining laws, subject to the stipulations quoted below, to be executed and acknowledged in favor of the United States by the locators, for themselves, their heirs, successors and assigns, and recorded in the county records, and in the United States Land Office at Sacramento, California, before any rights attach by virtue of this order:

MOUNT DIABLO MERIDIAN

T. 33 N., R. 6 W.,
Sec. 24.

Containing approximately 301 acres of public land.

The following stipulations are made a part of this order:

1. Such physical facilities shall be constructed and such other action taken as may be found necessary by, and satisfactory to, the Secretary of the Interior, to prevent any sedimentary, deleterious or toxic materials resulting from mining operations from entering Spring Creek and Keswick Reservoirs. All plans for preventing such pollution of the stream and reservoir shall be submitted to the Secretary of the Interior for prior approval and any necessary pollution prevention structures shall be built before any removal of minerals.

2. All necessary and feasible steps shall be taken to preserve the existing vegetation on the lands and to replant in kind and/or replace any destroyed vegetation as soon as mining operations permit.

3. Erosion control measures satisfactory to the Secretary of the Interior shall be instituted and maintained during the existence of mining operations.

4. Before commencement of mining operations, evidence shall be filed with the Land Office of the Bureau of Land Management of approval by the California Water Pollution Control Board of the operator's plan of operations under its general rules.

5. Upon cessation of mining, the area of operations shall be left in such condition as shall be determined to be satisfactory by the Secretary of the Interior, so that no detrital materials or toxic substances can enter the creeks draining the area into Keswick Reservoir.

6. All provisions of the Act of July 23, 1955 (Public Law 167), shall be adhered to.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

FEBRUARY 16, 1962.

[F.R. Doc. 62-1860; Filed, Feb. 23, 1962; 8:46 a.m.]

[Public Land Order 2615]

[88120]

CALIFORNIA, WYOMING, AND NEW MEXICO

Excluding Lands From Certain National Forests; Adding Lands to the Tahoe National Forest

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U.S.C. 473), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, and upon recommendation of the Secretary of Agriculture, it is ordered as follows:

1. The following described lands are hereby excluded from the national forests hereafter named, and the boundaries of the said forests are adjusted accordingly:

CALIFORNIA

LOS PADRES NATIONAL FOREST

T. 21 S., R. 5 E.,
Sec. 13, lots 2, 3, and 4;
Sec. 14, lots 1, 2, 3, and 4;
Sec. 15, lots 1, 2, and 3, those portions, if any, which may lie east of the ridge between Santa Lucia Creek (also known as Sycamore Creek) and Rattlesnake Creek;
Sec. 35, S½SE¼ and SE¼SW¼.
T. 22 S., R. 5 E.,
Secs. 1 and 2;
Sec. 3, that part in the drainage area of Wizard Gulch;
Secs. 10 to 13, inclusive;
Secs. 14, 15, 23, and 24, those parts lying northerly of a line parallel with and distant 600 feet northerly of the road along the Nacimiento River;
Sec. 16, E½E½NE¼;
Sec. 36, SE¼SE¼.
T. 23 S., R. 5 E.,
Secs. 1 and 2;
Secs. 3, 4, 10, and 11, those parts lying in the drainage area of San Miguel Creek;
Sec. 12;
Secs. 13 and 14, those parts lying in the drainage area of San Miguel Creek;
Sec. 36, that part lying in the drainage of the Nacimiento River.
T. 21 S., R. 6 E.,
Secs. 31 and 32 (fractional).
T. 22 S., R. 6 E.,
Secs. 4 and 5 (fractional);
Secs. 6, 7, and 8;
Sec. 9 (fractional);
Secs. 17 and 18;
Sec. 19, that part lying north and east of a line parallel with and distant 600 feet northerly and easterly of the road along the Nacimiento River;
Sec. 20;
Secs. 21 and 28 (fractional);
Secs. 29 and 30, those parts lying northerly and easterly of a line parallel with and distant 600 feet northerly and easterly of the road along the Nacimiento River;
Sec. 31, that part lying south and east of Slick Rock Creek;
Secs. 32 and 33 (fractional).
Tps. 23 and 24 S., R. 6 E.,
Those parts lying in the drainage of Nacimiento River.
T. 23 S., R. 7 E.,
Secs. 31 and 32 (fractional).
T. 24 S., R. 7 E.,
Secs. 4 and 5 (fractional);
Secs. 6, 7, and 8;
Secs. 9, 10, 11, and 14 (fractional);
Secs. 15, 16, and 17;
Secs. 18, 19, and 20, those parts lying in the drainage of Nacimiento River;
Secs. 21, 22, and 23.

The areas described aggregate approximately 75,373 acres. They comprise former national forest lands transferred from the Department of Agriculture to the Department of the Army under the provisions of the act of July 25, 1956 (70 Stat. 656); and acquired lands of the Department of the Army. They are now a part of the Hunter-Liggett Military Reservation.

WYOMING

BRIDGER NATIONAL FOREST

Sixth Principal Meridian

T. 34 N., R. 108 W.,
Sec. 27, SE¼SW¼.

The area described, contains 40 acres. The lands are patented under the Stock Raising Homestead Act with a reservation of the minerals to the United States.

NEW MEXICO

GILA NATIONAL FOREST

T. 11 S., R. 8 W.,
Sec. 21, E½NE¼ and NW¼NE¼;
Sec. 22, NW¼.

The areas described aggregate 280 acres. The lands are patented without mineral reservation.

2. The boundaries of the Tahoe National Forest, California, are hereby extended to include the following described lands, as authorized by the act of February 20, 1925 (43 Stat. 952):

MOUNT DIABLO MERIDIAN

T. 14 N., R. 10 E.,
Sec. 25, lots 8 and 9.

Containing 16.81 acres.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Parts 1, 31, 41, 45, 46, 48, 49, 179, 194, 196, 197, 201, 245, 301]

REGULATIONS RELATING TO USE OF IDENTIFYING NUMBERS

Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1), the Highway Motor Vehicle Use Tax Regulations (26 CFR Part 41), the Miscellaneous Stamp Tax Regulations (26 CFR Part 45), the Regulations Relating to Miscellaneous Excise Taxes Payable by Return (26 CFR Part 46), the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48), the Facilities and Services Excise Tax Regulations (26 CFR Part 49), the regulations relating to Machine Guns and Certain Other Firearms (26 CFR Part 179), the regulations relating to Liquor Dealers (26 CFR Part 194), the regulations relating to Stills (26 CFR Part 196), the regulations relating to Drawback on Distilled Spirits Used in Manufacturing Nonbeverage Products (26 CFR Part 197), the regulations relating to Distilled Spirits Plants (26 CFR Part 201), the regulations relating to Beer (26 CFR Part 245), and the Regulations on Procedure and Administration (26 CFR Part 301), to the amendments made to the Internal Revenue Code of 1954 by the Act of October 5, 1961 (Public Law 87-397, 75 Stat. 828), authorizing the requirement of identifying numbers, and in order to make changes relating to identifying numbers in the Employment Tax Regulations (26 CFR Part 31), the regulations are amended as follows:

Income Tax (26 CFR Part 1):

PARAGRAPH 1. Immediately after § 1.6102-1 there are inserted the following new sections:

§ 1.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

(2) *Furnishing number to other persons.* Any person with respect to whom a return, statement, or other document is required under the authority of this title to be made by another person shall furnish to such other person such identifying number as may be prescribed for securing his proper identification.

(3) *Furnishing number of another person.* Any person required under the authority of this title to make a return, statement, or other document with respect to another person shall request from such other person, and shall include in any such return, statement, or other document, such identifying number as may be prescribed for securing proper identification of such other person.

(b) *Limitation.* (1) Except as provided in paragraph (2), a return of any person with respect to his liability for tax, or any statement or other document in support thereof, shall not be considered for purposes of paragraphs (2) and (3) of subsection (a) as a return, statement, or other document with respect to another person.

(2) For purposes of paragraphs (2) and (3) of subsection (a), a return of an estate or trust with respect to its liability for tax, and any statement or other document in support thereof, shall be considered as a return, statement, or other document with respect to each beneficiary of such estate or trust.

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87-397, 75 Stat. 828)]

§ 1.6109-1 Identifying numbers.

(a) *In general*—(1) *Designations.* The identifying number prescribed by this section for use by an individual is termed an "account number". For definition of the term "account number", see § 301.7701-11 of this chapter (Regulations on Procedure and Administration). The identifying number prescribed for use by a person other than an individual, and for use by an individual engaged in a trade or business within the meaning of subparagraph (2) of this paragraph, is termed an "employer identification number". For definition of the term "employer identification number", see § 301.7701-12 of this chapter (Regulations on Procedure and Administration). For purposes of this section, an estate or trust is considered to be a person other than an individual.

(2) *Trade or business.* For purposes of this section, an individual shall be considered to be engaged in a trade or business if any return is required to be filed by him with respect to his liability for any tax imposed by subtitle C (other than section 3211), D, or E of the Code.

(b) *Use of numbers*—(1) *Number of maker of return*—(i) *Return with respect to tax liability.* Every person required to make a return, statement, or other document for any period commencing after December 31, 1961, with respect to his liability, or to matters relating to or dealing with his liability, for any tax imposed by subtitle A shall include his account number or his employer identification number, as the case may be, in any such return, statement, or other document filed after March 31, 1962. If such person is an individual engaged in a trade or business within the meaning of this section, he shall include his account number in the return, statement, or other document, and shall also include his employer identification number in any Schedule C (Profit (or Loss) from Business or Profession) or Schedule F (Schedule of Farm Income and Expenses) filed as part of his individual income tax return. A fiduciary or agent making a return, statement, or other document for another person shall include therein the identifying number of such other person but not the identifying number of the person acting as fiduciary or agent. An income tax return or a declaration of estimated income tax filed jointly by a husband and wife need include the identifying number of only the husband except that the identifying number of the wife shall also be shown if, for the taxable year covered by the return or declaration, the wife has—

(*a*) Separate gross income of $600 or more, or $1,200 or more if she has attained the age of 65 before the close of the taxable year,

(*b*) Self-employment income, as defined in section 1402(b), or

(*c*) Income (such as wages, dividends, or interest) paid to her otherwise than with her husband which the payer thereof is required to report on a return or statement of information.

(ii) The application of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example (1). A, an individual, operates a store during the year 1962 in which he employs three assistants and from which he derives net earnings from self-employment of more than $400. In making his income tax return for the calendar year 1962, A includes his account number in the return form and in his report of self-employment

income on Schedule SE, and his employer identification number in Schedule C on which he computes the profit or loss from his business.

Example (2). D, an incompetent, receives in 1962, $800 of income from investments. D's guardian, E, is required to include in the income tax return filed for D on April 15, 1963, D's account number. E shall not include his own identifying number in such return.

Example (3). X, an organization exempt from taxation under section 501(a), is required to file an annual return of information on Form 990. In such return filed for the calendar year 1962, X is required to include its employer identification number.

Example (4). A, an individual engaged in a trade or business within the meaning of this section, dies on July 31, 1962. In his will, A provides that after the payment of certain specific bequests, the residue of his estate is to be held in trust for the benefit of his son, S. The administration of A's estate is completed on June 1, 1963, and the residue of the estate transferred to the trustee for S. The executor of A's estate is required to include the account number assigned to A in A's final income tax return (Form 1040) and in A's report of self-employment income on Schedule SE and is required to include A's employer identification number in Schedule C filed with the Form 1040. If the executor is required to file an income tax return (Form 1041) on behalf of the estate, he is required to obtain, and include therein, an employer identification number for the estate. If the trustee is required to file an income tax return (Form 1041) on behalf of the trust, he is required to obtain, and include therein, an employer identification number for the trust.

(iii) *Return with respect to another person.* Every person other than an individual not engaged in a trade or business within the meaning of this section, who is required to make a return, statement, or other document with respect to another person for any period commencing after December 31, 1961, shall include his employer identification number in any such return, statement, or other document filed after March 31, 1962. Every individual not engaged in a trade or business within the meaning of this section, who is required to make a return, statement, or other document with respect to another person for any period commencing after December 31, 1961, shall include his account number in any such return, statement, or other document filed after March 31, 1962. A fiduciary or agent making such a return, statement, or other document for another person shall include therein the identifying number of such other person and not his own identifying number.

(iv) The application of subdivision (iii) of this subparagraph may be illustrated by the following example:

Example. M, the estate of a decedent, paid during 1963, $700 for rental of a warehouse. The employer identification number of the estate is required to be included in the Form 1096 and Form 1099 required to be filed in 1964 with respect to such payment. However, the person acting as executor shall not include his own identifying number in such forms.

(v) *Exception.* Notwithstanding the provisions of subdivisions (i) and (iii) of this subparagraph, an individual who does not have an account number and who has not been requested by the Internal Revenue Service to obtain one is not required to include an acount number in any return, statement, or other document filed in 1962.

(2) *Number of person with respect to whom return is made by another*—(i) *General rule.* Except as otherwise provided in subdivision (ii) of this subparagraph, when a return, statement, or other document with respect to any person is required to be made by another person for any period commencing after December 31, 1962, the account number or the employer identification number, as the case may be, of the person with respect to whom the return, statement, or other document is required to be made shall be—

(*a*) Requested of such person by the person required to make such return, statement, or other document;

(*b*) Furnished by such person to the person required to make the return, statement, or other document; and

(*c*) Included in the return, statement, or other document by the person required to make it. An individual who receives amounts of income in respect of which a return, statement, or other document is required to be made by the payer thereof, and which is payable to the trade name of a sole proprietorship operated by him, shall furnish his employer identification number to the payer of such amounts. If such individual is not required to secure an employer identification number he shall furnish his account number to the payer. When an amount is made payable to a fiduciary or agent and a named or otherwise designated trust, estate, minor, incompetent, or other person, the identifiying number of such trust, estate, etc. (clearly linked with the name of such trust, estate, etc.), and not the identifying number of the person acting as fiduciary or agent, shall be included by the payer in the return or statement of information made by him with respect to such payment.

(ii) *Exception.* The identifying number of a payee is not required to be included in any return or statement with respect to payments made to such payee if the total amount shown on such return or statement was paid to such payee prior to October 1, 1963.

(iii) *Multiple payees.* When an information return or statement is required to be made by any person with respect to a payment made by him to more than one person, the identifying number of only one of such payees is required to be requested of such payees by the payer, furnished to the payer by such payees, and included by the payer (clearly linked with the name of the payee to whom it belongs when the surnames are different) in the return or statement of information made by him with respect to such payment. When the multiple payees are husband and wife, the account number of the husband shall be requested and furnished and shall be included by the payer in the return or statement of information made by him with respect to the payment.

(iv) *Meaning of terms.* (*a*) Except as provided in (*b*) of this subdivision, the return of any person with respect to his liability for any tax imposed by subtitle A, or any statement or document in support thereof, is not considered a return, statement, or other document with respect to another person for purposes of this section. If any such return or supporting statement or document contains information with respect to another person, the identifying number of such other person shall not be requested or furnished, and shall not be included in such return, statement, or other document. For example, the identifying number of the doctor to whom an individual taxpayer has made a payment for medical services shall not be requested or furnished, and shall not be included in the individual's income tax return even though the name of the doctor may be required to be furnished in support of the medical deduction. Similarly, the identifying number of a newspaper to which a manufacturing corporation has made a payment for advertising shall not be requested or furnished, and shall not be included in the corporation's income tax return.

(*b*) The return of an estate or trust with respect to its liability for any tax imposed by subtitle A, and any statement or other document in support thereof, shall be considered as a return, statement, or other document with respect to each beneficiary of such estate or trust. Accordingly, the identifying number of each beneficiary whose name is required to be included in any such return or supporting statement or document shall be requested and furnished and shall be included in such return or supporting document to identify such beneficiary. The term "beneficiary" includes heirs, devisees, and legatees.

(c) *Applications*—(1) *General.* An application for an identifying number shall be made in accordance with this paragraph by every person required under this section to include his identifying number in any return, statement, or other document required to be filed by him or to furnish his identifying number to another person for inclusion in any return, statement, or other document required to be filed by such other person. However, any person who has an identifying number, either an account number or an employer identification number, assigned to him under provisions other than the regulations in this section shall not make application for another number of the same kind under this section. A number so assigned is also prescribed for use in accordance with the requirements of this section.

(2) *Account number*—(i) *Time for filing application*—(*a*) *During 1962.* Application forms for use in obtaining account numbers under this section will as far as possible be furnished without request during 1962 to taxpayers needing numbers. Any individual so supplied with an application form shall complete and file it in accordance with the instructions for such form. A taxpayer is not required under this section to file an application for an account number during 1962 unless furnished with an application. A payer should not request a payee to furnish him with an account number before 1963 unless such payee already has a number.

(*b*) *After 1962.* An individual needing an account number after 1962 shall file an application form in accordance with subdivision (ii) of this subparagraph far enough in advance of the first required use of such account number to permit issuance of the number in time for compliance with such requirement.

(ii) *Filing requirements.* Application for an account number shall be made on either Form SS–5 or Form 3227. An application form may be obtained from any district director, or any district office of the Social Security Administration. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed in accordance with the instructions on the form. An account number will be assigned to the applicant in due course upon the basis of information reported on the application. A card showing the name and account number of the individual to whom a number has been assigned will be furnished to the individual.

(3) *Employer identification number.* Application for an employer identification number shall be made on Form SS–4. Form SS–4 will generally be furnished only on request and may be obtained from any district director, or any district office of the Social Security Administration. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be signed by (i) the individual, if the person is an individual; (ii) the president, vice president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. The application for an employer identification number should be filed approximately one month in advance of the first required use of the number to permit issuance of the number in time for compliance with such requirement. The application shall be filed with the district director with whom the applicant is required to file his income tax return or with whom the applicant would be required to file an income tax return if such a return were required of him. An employer identification number will be assigned to the applicant in due course upon the basis of information reported on the application.

(d) *Nonresident aliens.* This section shall not apply to nonresident aliens not engaged in trade or business within the United States or to foreign corporations not engaged in trade or business within the United States and not having an office or place of business or a fiscal or paying agent in the United States.

(e) *Penalty.* For penalty for failure to supply identifying number, see section 6676 and § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Employment Taxes (26 CFR Part 31):

PAR. 2. In Paragraph (a) of § 31.0–2, subparagraphs (10) and (11) are amended to read as follows:

§ 31.0–2 General definitions and use of terms.

(a) *In general.* • • •

(10) Account number means the identifying number of an employee assigned, as the case may be, under the Internal Revenue Code of 1954, under subchapter A of chapter 9 of the Internal Revenue Code of 1939, or under title VIII of the Social Security Act. See also § 301.7701–11 of this chapter (Regulations on Procedure and Administration).

(11) Identification number means the identifying number of an employer assigned, as the case may be, under the Internal Revenue Code of 1954, under subchapter A or D of chapter 9 of the Internal Revenue Code of 1939, or under title VIII of the Social Security Act. See also § 301.7701–12 of this chapter (Regulations on Procedure and Administration).

PAR. 3. In paragraph (a) of § 31.6001–5, subparagraph (1) is amended to read as follows:

§ 31.6001–5 Additional records in connection with collection of income tax at source on wages.

(a) • • •

(1) The name and address of the employee, and, after December 31, 1962, the account number of the employee.

PAR. 3a. In § 31.6011(a)–7 a new paragraph is added as follows:

§ 31.6011(a)–7 Execution of returns.

• • • • • •

(d) *Reporting of identifying numbers.* For provisions relating to the reporting of identifying numbers on returns required under the regulations in this part, see § 31.6109–1.

PAR. 4. In § 31.6011(b)–1, paragraphs (a), (b), and (d) are amended to read as follows:

§ 31.6011(b)–1 Employers' identification numbers.

(a) *Requirement of application*—(1) *In general*—(i) *Before May 1, 1962.* Except as provided in paragraph (b) of this section, every employer who on any day after December 31, 1954, and before May 1, 1962, has in his employ one or more individuals in employment for wages subject to the taxes imposed by the Federal Insurance Contributions Act, but who prior to such day neither has been assigned an identification number nor has applied therefor, shall make an application on Form SS–4 for an identification number.

(ii) *On or after May 1, 1962.* Except as provided in paragraph (b) of this section, every employer who on any day after April 30, 1962, has in his employ one or more individuals in employment for wages which are subject to the taxes imposed by the Federal Insurance Contributions Act or which are subject to the withholding of income tax from wages under section 3402, but who prior to such day neither has been assigned an identification number nor has applied therefor, shall make an application on Form SS–4 for an identification number.

(iii) *Method of application.* The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director, or any district office of the Social Security Administration. The application shall be filed with the district director with whom the employer will file returns pursuant to § 31.6091–1, or with the nearest district office of the Social Security Administration. The application shall be signed by (*a*) the individual, if the employer is an individual; (*b*) the president, vice president, or other principal officer, if the employer is a corporation; (*c*) a responsible and duly authorized member or officer having knowledge of its affairs, if the employer is a partnership or other unincorporated organization; or (*d*) the fiduciary, if the employer is a trust or estate. An identification number will be assigned to the employer in due course upon the basis of the information reported on the application required under this section.

(2) *Time for filing Form SS–4.* The application for an identification number shall be filed on or before the seventh day after the first payment of wages to which reference is made in subparagraph (1) of this paragraph. For provisions relating to the time when wages are paid, see § 31.3121(a)–2 and paragraph (b) of § 31.3402(a)–1.

(b) *Employers who are assigned identification numbers without application.* An identification number may be assigned, without application by the employer, in the case of an employer who has in his employ only employees who are engaged exclusively in the performance of domestic service in his private home not on a farm operated for profit (see § 31.3121(a)(7)–1). If an identification number is so assigned, the employer is not required to make an application on Form SS–4 for the number.

• • • • • •

(d) *Use of identification number.* The identification number assigned to an employer (other than a household employer referred to in paragraph (b) of this section) shall be shown in the employer's records, and shall be shown in his claims to the extent required by the applicable forms, regulations, and instructions. For provisions relating to the inclusion of identification numbers in returns, statements on Form W–2, and depositary receipts, see § 31.6109–1.

PAR. 5. In § 31.6011(b)–2, subparagraphs (1) and (2) of paragraph (a) are amended, and a new subparagraph is added to paragraph (b), as follows:

§ 31.6011(b)–2 Employees' account numbers.

(a) *Requirement of application*—(1) *In general*—(i) *Before November 1, 1962.* Every employee who on any day after December 31, 1954, and before November 1, 1962, is in employment for wages subject to the taxes imposed by the Fed-

eral Insurance Contributions Act, but who prior to such day has neither secured an account number nor made application therefor, shall make an application on Form SS–5 for an account number.

(ii) *On or after November 1, 1962.* Every employee who on any day after October 31, 1962, is in employment for wages which are subject to the taxes imposed by the Federal Insurance Contributions Act or which are subject to the withholding of income tax from wages under section 3402, but who prior to such day has neither secured an account number nor made application therefor, shall make an application on Form SS–5 for an account number.

(iii) *Method of application.* The application shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The employee shall file the application with any district office of the Social Security Administration or, if the employee is not working within the United States, with the district office of the Social Security Administration at Baltimore, Maryland. Form SS–5 may be obtained from any district office of the Social Security Administration or from any district director. An account number will be assigned to the employee by the Social Security Administration in due course upon the basis of information reported on the application required under this section. A card showing the name and account number of the employee to whom an account number has been assigned will be furnished to the employee by the Social Security Administration.

(2) *Time for filing Form SS–5.* The application shall be filed on or before the seventh day after the occurrence of the first day of employment to which reference is made in subparagraph (1) of this paragraph, unless the employee leaves the employ of his employer before such seventh day, in which case the application shall be filed on or before the date on which the employee leaves the employ of his employer.

* * * * *

(b) *Duties of employee with respect to his account number.* * * *

(3) *Furnishing of account number by employee to employer.* See § 31.6109–1 for additional provisions relating to the furnishing of an account number by the employee to his employer.

PAR. 6. In § 31.6051–1, subparagraph (1) (i) (*b*) of paragraph (a) is amended, subparagraph (3) of paragraph (d) is deleted, and a new paragraph is added, as follows:

§ 31.6051–1 Statements for employees.

(a) *Requirement if wages are subject to withholding of income tax*—(1) *General rule.* (i) * * *

(*b*) The name and address of the employee, and his social security account number if wages as defined in section 3121(a) have been paid or if the Form W–2 is required to be furnished to the employee for a period commencing after December 31, 1962,

* * * * *

(e) *Cross references.* For provisions relating to the penalties provided for the willful furnishing of a false or fraudulent statement, or for the willful failure to furnish a statement, see § 31.6674–1 and section 7204. For additional provisions relating to the inclusion of identification numbers and account numbers in statements on Form W–2, see § 31.6109–1. For provisions relating to the penalty for failure to report an identification number or an account number, as required by § 31.6109–1, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

PAR. 6a. Immediately after § 31.6101–1 there is inserted the following:

§ 31.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

(2) *Furnishing number to other persons.* Any person with respect to whom a return, statement, or other document is required under the authority of this title to be made by another person shall furnish to such other person such identifying number as may be prescribed for securing his proper identification.

(3) *Furnishing number of another person.* Any person required under the authority of this title to make a return, statement, or other document with respect to another person shall request from such other person, and shall include in any such return, statement, or other document, such identifying number as may be prescribed for securing proper identification of such other person.

* * * * *

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 31.6109–1 Supplying of identifying numbers.

(a) *Identification number.* The identification number assigned to an employer (other than a household employer referred to in paragraph (b) of § 31.6011(b)–1) shall be shown in returns, statements on Form W–2, and depositary receipts made by the employer, pursuant to the regulations in this part, for any period ending after June 30, 1962.

(b) *Account number*—(1) *Employee to furnish to employer.* An employee to whom a statement on Form W–2 is required to be furnished for any period commencing after December 31, 1962, shall furnish his account number to each employer required to furnish such statement to him. For additional provisions relating to the furnishing of account numbers by employees to employers, see paragraph (b) of § 31.6011(b)–2.

(2) *Use of account number by employer.* Each statement required to be furnished to an employee on Form W–2 for any period commencing after December 31, 1962, shall show the account number of the employee. For additional provisions relating to requirements for furnishing a statement on Form W–2, see § 31.6051–1.

(3) *Use of account number by employee representative.* An employee representative shall include his account number on any return on Form CT–2 made by him, pursuant to paragraph (a)(2) of § 31.6011(a)–2, for any period commencing after June 30, 1962.

(c) *Procedure for applying for identifying number*—(1) *Identification number.* Every employer who has not been assigned an identification number, and who is not otherwise required by § 31.6011(b)–1 to make application therefor, shall make an application on Form SS–4 for an identification number. For provisions relating to the procedure to be followed in applying for an identification number, see paragraph (a) of § 31.6011(b)–1.

(2) *Account number.* An employee representative who has not been assigned an account number, and who is not otherwise required by § 31.6011(b)–2 to make application therefor, shall make an application on Form SS–5 for an account number. The application shall be filed on or before the last day of the first calendar quarter, beginning after June 30, 1962, for which the employee representative is required to make a return on Form CT–2. For provisions relating to the procedure to be followed in applying for an account number, see paragraph (a)(1) of § 31.6011(b)–2.

(d) *Penalty.* For provisions relating to the penalty for failure to supply an identification number or an account number, as required by this section, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Excise Tax on Use of Certain Highway Motor Vehicles (26 CFR Part 41):

PAR. 7. Immediately after § 41.6101–1 there is inserted the following:

§ 41.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

* * * * *

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 41.6109–1 Employer identification numbers.

(a) *Requirement of application*—(1) *In general.* An application on Form SS–4 for an employer identification number shall be made by every person in whose name a highway motor vehicle is registered at a time, after April 30, 1962, when a taxable use of such vehicle occurs, but who prior to such time neither has been assigned an employer identification number nor has applied therefor. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application shall be filed with the district director with whom returns required pursuant to § 41.6011(a)–1 will be filed by the person who is required to make the application. The application shall be signed by (i) the individual, if the person is an individual; (ii) the president, vice president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of information reported on the application required under this section.

(2) *Time for filing Form SS–4.* The application for an employer identification number shall be filed on or before the seventh day after the rate of the first taxable use, after April 30, 1962, of a highway motor vehicle which is registered in the name of the person who is required to make the application.

(b) *Use of employer identification number.* The employer identification number assigned to a person liable for the tax imposed by section 4481 shall be shown in any return, statement, or other document made by such person for any period commencing after June 30, 1962.

(c) *Cross references.* For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Miscellaneous Stamp Taxes (26 CFR Part 45):

PAR. 8. Immediately after § 45.6101–1 there is inserted the following:

§ 45.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

* * * * *

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 45.6109–1 Employer identification numbers.

(a) *Requirement of application*—(1) *In general.* An application on Form SS–4 for an employer identification number shall be made by every person who, at any time after April 30, 1962, performs any act with respect to which a tax is imposed by section 4461, 4471, 4821, or 4841, but who prior to such time neither has been assigned an employer identification number nor has applied therefor. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application shall be filed with any district director with whom a return on Form 11 or Form 11–B will be filed by the person who is required to make the application. The application shall be signed by (i) the individual, if the person is an individual; (ii) the president, vice president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of information reported on the application required under this section.

(2) *Time for filing Form SS–4.* The application for an employer identification number shall be filed on or before the seventh day after the date of performance, by the person who is required to make the application, of the first act after April 30, 1962, with respect to which tax is impsoed by sections 4461, 4471, 4821, or 4841.

(b) *Use of employer identification number.* The employer identification number assigned to a person liable for the tax imposed by sections 4461, 4471, 4821, or 4841 shall be shown in any return, statement, or other document made by such person for any period commencing after June 30, 1962.

(c) *One number per taxpayer.* Each taxpayer shall make application for, and shall be assigned, only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11 or Form 11–B.

(d) *Cross references.* For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Regulations Relating to Miscellaneous Excise Taxes Payable by Return (26 CFR Part 46):

PAR. 9. Immediately after § 46.6101–1 there is inserted the following:

§ 46.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

* * * * *

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 46.6109–1 Employer identification numbers.

(a) *Requirement of application*—(1) *In general.* An application on Form SS–4 for an employer identification number shall be made by every person who, at any time after April 30, 1962, performs any manufacturing or processing operation with respect to which a tax is imposed by section 4501(a) or 4511, but who prior to such time neither has been assigned an employer identification number nor has applied therefor. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application shall be filed with any district director with whom returns on Form 720 will be filed by the person who is required to make the application. The application shall be signed by (i) the individual, if the person is an individual; (ii) the president, vice president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of information reported on the application required under this section.

(2) *Time for filing Form SS–4.* The application for an employer identification number shall be filed on or before the seventh day after the date of performance by the person who is required to make the application, of the first manufacturing or processing operation after April 30, 1962, with respect to which a tax is imposed by section 4501(a) or 4511.

(b) *Use of employer identification number.* The employer identification number assigned to a person liable for the tax imposed by section 4501(a) or 4511 shall be shown in any return, statement, or other document made by such person for any period commencing after December 31, 1961, and filed after June 30, 1962.

(c) *Cross references.* For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

PAR. 10. In § 46.6302(c)–1, subparagraph (3) of paragraph (a) is deleted.

Manufacturers and Retailers Excise Taxes (26 CFR Part 48):

PAR. 11. Immediately after § 48.6011(c)–1 there is inserted the following:

§ 48.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

* * * * *

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 48.6109–1 Employer identification numbers.

(a) *Requirement of application*—(1) *In general.* An application on Form SS–4 for an employer identification number shall be made by every person who, at any time after April 30, 1962, makes a sale of an article with respect to which a tax is imposed by chapter 31 or 32 of the Code, but who prior to such time neither has been assigned an employer identification number nor has applied therefor. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application shall be filed with the district director with whom returns on Form 720 will be filed by the person who is required to make the application. The application shall be signed by (i) the individual, if the person is an individual; (ii) the president, vice president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of information reported on the application required under this section.

(2) *Time for filing Form SS–4.* The application for an employer identification number shall be filed on or before the seventh day after the date of the first sale of an article, after April 30, 1962, with respect to which a tax is imposed by chapter 31 or 32 of the Code.

(b) *Use of employer identification number.* The employer identification number assigned to a person liable for a tax imposed by chapter 31 or 32 of the Code shall be shown in any return, statement, or other document made by such person for any period commencing after December 31, 1961, and filed after June 30, 1962.

(c) *Cross references.* For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Facilities and Services Excise Taxes (26 CFR Part 49):

PAR. 12. Immediately after § 49.4287–1 there is inserted the following:

Subpart G—Refunds and Other Administrative Provisions of Special Application to Facilities and Services Taxes

§ 49.6109 Statutory provisions; identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

* * * * *

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397; 75 Stat. 828)]

§ 49.6109–1 Employer identification numbers.

(a) *Requirement of application*—(1) *In general.* An application on Form SS–4 for an employer identification number shall be made by every person who, at any time after April 30, 1962, receives a payment for a facility or service with respect to which a tax is imposed by chapter 33 of the Code, but who prior to such time neither has been assigned an employer identification number nor has applied therefor. The application, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application shall be filed with the district director with whom returns on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (i) the individual, if the person is an individual; (ii) the president, vice president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of information reported on the application required under this section.

(2) *Time for filing Form SS–4.* The application for an employer identification number shall be filed on or before the seventh day after the date of the first receipt of a payment, after April 30, 1962, for a facility or service with respect to which a tax is imposed by chapter 33 of the Code.

(b) *Use of employer identification number.* The identification number assigned to a person liable for a tax imposed by chapter 33 of the Code shall be shown in any return, statement, or other document made by such person for any period commencing after December 31, 1961, and filed after June 30, 1962.

(c) *Cross references.* For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Machine Guns and Certain Other Firearms (26 CFR Part 179):

PAR. 13. 26 CFR Part 179, Machine Guns and Certain Other Firearms, is amended by inserting immediately after § 179.52 three new sections as follows:

§ 179.52a Employer identification number.

The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part for any period commencing after June 30, 1962. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 179.52b Application for employer identification number.

(a) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from the district director with whom the Form 11 is required to be filed.

(b) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 before May 1, 1962, for the period ending June 30, 1962, and who has neither secured an employer identification number nor made application therefor prior to May 1, 1962. Such application on Form SS–4 shall be filed on or before May 7, 1962.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 is filed on or after May 1, 1962, but who prior to the filing of such first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11.

(75 Stat. 828; 26 U.S.C. 6109)

§ 179.52c Execution of Form SS–4.

The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with any district director with whom a return on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (a) the individual, if the person is an individual; (b) the president, vice president, or other principal officer, if the person is a corporation; (c) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (d) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109)

Liquor Dealers (26 CFR Part 194):

PAR. 14. 26 CFR Part 194, Liquor Dealers, is amended as follows:

§ 194.106 [Amendment]

(A) Section 194.106 is amended as follows:

(1) By renumbering paragraphs (d), (e), and (f) as (e), (f), and (g), respectively;

(2) By inserting, immediately after paragraph (c), the following new paragraph:

(d) The employer identification number (see §§ 194.106a–194.106c);

and

(3) By changing the citation at the end of the section to read "(68A Stat. 732, 846; 75 Stat. 828; 26 U.S.C. 6011, 7011, 6109)".

(B) By inserting, immediately after § 194.106, three new sections as follows:

§ 194.106a Employer identification number.

The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part for any period commencing after June 30, 1962. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 194.106b Application for employer identification number.

(a) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from the district director with whom the Form 11 is required to be filed.

(b) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 before May 1, 1962, for the period ending June 30, 1962, and who has neither secured an employer identification number nor made application therefor prior to May 1, 1962. Such application on Form SS–4 shall be filed on or before May 7, 1962.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer whose first return on Form 11 is filed on or after May 1, 1962, but who prior to the filing of such first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11.

(75 Stat. 828; 26 U.S.C. 6109)

§ 194.106c Execution of Form SS–4.

The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with any district director with whom a return on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (a) the individual, if the person is an individual; (b) the president, vice president, or other principal officer, if the person is a corporation; (c) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (d) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109)

Stills (26 CFR Part 196):

PAR. 15. 26 CFR Part 196, Stills, is amended as follows:

§ 196.34 [Amendment]

(A) Section 196.34 is amended by striking the word "form" at the end of the section, and inserting in lieu thereof the words "headings on the form and the instructions thereon or issued in respect thereto"; and

(B) By inserting, immediately after § 196.34, three new sections as follows:

§ 196.34a Employer identification number.

The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part for any period commencing after June 30, 1962. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 196.34b Application for employer identification number.

(a) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from the district director with whom the Form 11 is required to be filed.

(b) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 before May 1, 1962, for the period ending June 30, 1962, and who has neither secured an employer identification number nor made application therefor prior to May 1, 1962. Such application on Form SS–4 shall be filed on or before May 7, 1962.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer whose first return on Form 11 is filed on or after May 1, 1962, but who prior to the filing of such first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11.

(75 Stat. 828; 26 U.S.C. 6109)

§ 196.34c Execution of Form SS–4.

The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with any district director with whom a return on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (a) the individual, if the person is an individual; (b) the president, vice president, or other principal officer, if the person is a corporation; (c) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (d) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109)

Drawback on Distilled Spirits Used in Manufacturing Nonbeverage Products (26 CFR Part 197):

PAR. 16. 26 CFR Part 197, Drawback on Distilled Spirits Used in Manufacturing Nonbeverage Products, is amended as follows:

§ 197.29 [Amendment]

(A) Section 197.29 is amended as follows:

(1) By renumbering paragraphs (b), (c), and (d) as (c), (d), and (e), respectively; and

(2) By inserting, immediately after paragraph (a), the following new paragraph:

(b) The employer identification number (see §§ 197.29a–197.29c);

(B) By inserting, immediately after § 197.29, three new sections as follows:

§ 197.29a Employer identification number.

The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part for any period commencing after June 30, 1962. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 197.29b Application for employer identification number.

(a) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from the district director with whom the Form 11 is required to be filed.

(b) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 before May 1, 1962, for the period ending June 30, 1962, and who has neither secured an employer identification number nor made application therefor prior to May 1, 1962. Such application on Form SS–4 shall be filed on or before May 7, 1962.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer whose first return on Form 11 is filed on or after May 1, 1962, but who prior to the filing of such first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11.

(75 Stat. 828; 26 U.S.C. 6109)

§ 197.29c Execution of Form SS–4.

The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with any district director with whom a return on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (a) the individual, if the person is an individual; (b) the president, vice president, or other principal officer, if the person is a corporation; (c) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (d) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109)

Distilled Spirits Plants (26 CFR Part 201):

PAR. 17. 26 CFR Part 201, Distilled Spirits Plants, is amended by inserting, immediately after § 210.32, five new sections as follows:

§ 201.32a Data required on Form 11.

Each return on Form 11 shall be prepared in accordance with the headings on the form and the instructions thereon or issued in respect thereto, and shall include the following:

(a) Where the rectifier is an individual or a corporation, the true name of such individual or corporation;

(b) In the case of a partnership, the true name of each and every person comprising the partnership;

(c) The employer identification number (see §§ 201.32c–201.32e);

(d) The exact location of the place of business, by name and number of building or street or, where these do not exist, by some particularization in addition to the post office address;

(e) The kind and class of tax (see § 201.31);

(f) All other information provided for on the form.

(68A Stat. 732, 846; 75 Stat. 828; 26 U.S.C. 6011, 7011, 6109)

§ 201.32b Execution of Form 11.

The return on Form 11 of an individual proprietor shall be signed by the proprietor; the return of a partnership shall be signed by a member of the firm; and the return of a corporation shall be signed by a duly authorized officer thereof: *Provided*, That any individual, partnership, or corporation may appoint an agent to sign in his behalf. In each case, the person signing the return shall designate his capacity as "individual owner," "member of firm," "agent," "attorney-in-fact" or, in the case of a corporation, the title of the officer. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the business of a rectifier by reason of death, insolvency, or other circumstances, shall indicate the fiduciary capacity in which they act. Returns signed by persons, as agents or attorneys-in-fact, will not be accepted unless, in each instance, the principal named on the return has executed a power of attorney authorizing such person to sign the return, and such power of attorney is filed with the district director. Form 11 shall be verified by a written declaration that the return has been executed under the penalties of perjury.

(68A Stat. 748, 749; 75 Stat. 828; 26 U.S.C. 6061, 6065, 6109)

§ 201.32c Employer identification number.

The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part for any period commencing after June 30, 1962. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 201.32d Application for employer identification number.

(a) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from the district director with whom the Form 11 is required to be filed.

(b) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 before May 1, 1962, for the period ending June 30, 1962, and who has neither secured an employer identification number nor made application therefor prior to May 1, 1962. Such application on Form SS–4 shall be filed on or before May 7, 1962.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer whose first return on Form 11 is filed on or after May 1, 1962, but who prior to the filing of such first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11.

(75 Stat. 828; 26 U.S.C. 6109)

§ 201.32e Execution of Form SS–4.

The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with any district director with whom a return on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (a) the individual, if the person is an individual; (b) the president, vice president, or other principal officer, if the person is a corporation; (c) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (d) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109)

Beer (26 CFR Part 245):

PAR. 18. 26 CFR Part 245, Beer, is amended by inserting, immediately after § 245.76, four new sections as follows:

§ 245.76a Data required on Form 11.

Each return on Form 11 shall be prepared in accordance with the headings on the form and the instructions thereon or issued in respect thereto, and shall include the following:

(a) Where the taxpayer is an individual or a corporation, the true name of such individual or corporation;

(b) In the case of a partnership, the true name of each and every person comprising the partnership;

(c) The employer identification number (see §§ 245.76b–245.76d);

(d) The exact location of the place of business, by name and number of building or street or, where these do not exist, by some particularization in addition to the post office address;

(e) The class of tax;

(f) All other information provided for on the form.

(68A Stat. 732, 846; 75 Stat. 828; 26 U.S.C. 6011, 7011, 6109)

§ 245.76b Employer identification number.

The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part for any period commencing after June 30, 1962. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 245.76c Application for employer identification number.

(a) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from the district director with whom the Form 11 is required to be filed.

(b) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who filed a return on Form 11 before May 1, 1962, for the period ending June 30, 1962, and who has neither secured an employer identification number nor made application therefor prior to May 1, 1962. Such application on Form SS–4 shall be filed on or before May 7, 1962.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer whose first return on Form 11 is filed on or after May 1, 1962, but who prior to the filing of such first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number regardless of the number of places of business for which the taxpayer is required to file Form 11.

(75 Stat. 828; 26 U.S.C. 6109)

§ 245.76d Execution of Form SS–4.

The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with any district director with whom a return on Form 11 will be filed by the person who is required to make the application. The application shall be signed by (a) the individual, if the person is an individual; (b) the president, vice president, or other principal officer, if the person is a corporation; (c) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (d) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109)

Procedure and Administration (26 CFR Part 301):

PAR. 19. Section 301.6109 is renumbered, is amended to change the number of the statute set forth therein, and a historical note is added at the end thereof, as follows:

§ 301.6110 Statutory provisions; cross references.

SEC. 6110. *Cross references.* (1) For reports of Secretary of Agriculture concerning cotton futures, see section 4876.

(2) For inspection of returns, order forms, and prescriptions concerning narcotics, see section 4773.

(3) For inspection of returns, order forms, and prescriptions concerning marihuana, see section 4773.

(4) For authority of Secretary or his delegate to furnish list of special taxpayers, see section 4775.

(5) For inspection of records, returns, etc., concerning gasoline or lubricating oils, see section 4102.

[Sec. 6110 as renumbered by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

PAR. 20. Immediately after § 301.6108–1 there are inserted the following new sections:

§ 301.6109 Statutory provisions: identifying numbers.

SEC. 6109. *Identifying numbers*—(a) *Supplying of identifying numbers.* When required by regulations prescribed by the Secretary or his delegate:

(1) *Inclusion in returns.* Any person required under the authority of this title to make a return, statement, or other document shall include in such return, statement, or other document such identifying number as may be prescribed for securing proper identification of such person.

(2) *Furnishing number to other persons.* Any person with respect to whom a return, statement, or other document is required under the authority of this title to be made by another person shall furnish to such other person such identifying number as may be prescribed for securing his proper identification.

(3) *Furnishing number of another person.* Any person required under the authority of this title to make a return, statement, or other document with respect to another person shall request from such other person, and shall include in any such return, statement, or other document, such identifying number as may be prescribed for securing proper identification of such other person.

(b) *Limitation.* (1) Except as provided in paragraph (2), a return of any person with respect to his liability for tax, or any statement or other document in support thereof, shall not be considered for purposes of paragraphs (2) and (3) of subsection (a) as a return, statement, or other document with respect to another person.

(2) For purposes of paragraphs (2) and (3) of subsection (a), a return of an estate or trust with respect to its liability for tax, and any statement or other document in support thereof, shall be considered as a return, statement, or other document with respect to each beneficiary of such estate or trust.

(c) *Requirement of information.* For purposes of this section, the Secretary or his delegate is authorized to require such information as may be necessary to assign an identifying number to any person.

[Sec. 6109 as added by sec. 1(a), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 301.6109–1 Identifying numbers.

For provisions concerning the requesting and furnishing of identifying numbers, and their inclusion in returns, statements, or other documents, see the regulations relating to the particular tax.

PAR. 21. Immediately after § 301.6675–1 there are inserted the following new sections:

§ 301.6676 Statutory provisions; failure to supply identifying numbers.

SEC. 6676. *Failure to supply identifying numbers*—(a) *Civil penalty.* If any person who is required by regulations prescribed under section 6109—

(1) To include his identifying number in any return, statement, or other document,

(2) To furnish his identifying number to another person, or

(3) To include in any return, statement, or other document made with respect to another person the identifying number of such other person,

fails to comply with such requirement at the time prescribed by such regulations, such person shall pay a penalty of $5 for each such failure, unless it is shown that such failure is due to reasonable cause.

(b) *Deficiency procedures not to apply.* Subchapter B of chapter 63 (relating to deficiency procedures for income, estate, and gift taxes) shall not apply in respect of the assessment or collection of any penalty imposed by subsection (a).

[Sec. 6676 as added by sec. 1(b), Act of Oct. 5, 1961 (Public Law 87–397, 75 Stat. 828)]

§ 301.6676–1 Penalty for failure to supply identifying number.

(a) *In general.* Except as provided in paragraph (c) of this section, if any person who is required by the regulations under section 6109—

(1) To include his identifying number in any return, statement, or other document,

(2) To furnish his identifying number to another person, or

(3) To include in any return, statement, or other document made with respect to another person the identifying number of such other person,

fails to comply with such requirement at the time prescribed by such regulations, such person shall pay a penalty of $5 for each such failure. Such penalty shall be paid in the same manner as tax upon the issuance of a notice and demand therefor.

(b) *Deficiency procedures not to apply.* Subchapter B, chapter 63, of the Code (deficiency procedures) shall not apply in respect of the assessment or collection of the penalty set forth in paragraph (a) of this section.

(c) *Reasonable cause.* If any person who is required by the regulations under section 6109 to supply an identifying number fails to comply with such requirement at the time prescribed by such regulations, but establishes to the satisfaction of the district director or the director of the regional service center that such failure was due to reasonable cause, the penalty set forth in paragraph (a) of this section shall not apply.

(d) *Persons required to supply identifying numbers.* For regulations under section 6109 relating to persons required to supply an identifying number, see the regulations relating to the particular tax.

PAR. 22. Section 301.7701–11 is renumbered and amended to read as follows:

§ 301.7701–13 Other terms.

Any terms which are defined in section 7701 and which are not defined in §§ 301.7701–1 to 301.7701–12, inclusive, shall, when used in this chapter, have the meanings assigned to them in section 7701.

PAR. 23. Immediately after § 301.7701–10 there are inserted the following new sections:

§ 301.7701–11 Account number.

For purposes of this chapter, the term "account number" means the identifying number of an individual which is assigned pursuant to section 6011(b) or corresponding provisions of prior law, or pursuant to section 6109, and in which nine digits are separated by hyphens as follows: 000–00–0000. The terms "account number" and "social security account number" refer to the same number.

§ 301.7701–12 Employer identification number.

For purposes of this chapter, the term "employer identification number" means the identifying number of an individual or other person (whether or not an employer) which is assigned pursuant to section 6011(b) or corresponding provisions of prior law, or pursuant to section 6109, and in which nine digits are separated by a hyphen, as follows: 00–0000000. The terms "employer identification number" and "identification number" (defined in § 31.0–2(a)(11) of this chapter (Employment Tax Regulations)) refer to the same number.

[26 CFR Parts 151, 152]

REGULATIONS RELATING TO THE USE OF IDENTIFYING NUMBERS

Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed jointly by the Commissioner of Internal Revenue and the Commissioner of Narcotics, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of [illegible] days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

In order to conform the regulations relating to Regulatory Taxes on Narcotic Drugs (26 CFR Part 151) and the Regulations Under the Marihuana Tax Act of 1937, As Amended (26 CFR Part 152) to the amendments made to the Internal Revenue Code of 1954 by the Act of October 5, 1961 (Public Law 87–397, 75 Stat. 828), authorizing the requirement of identifying numbers, the regulations are amended as follows:

Regulatory Taxes on Narcotic Drugs (26 CFR Part 151):

PARAGRAPH 1. Immediately after § 151.29 there is inserted the following:

§ 151.30 Employer identification numbers.

(a) Except as provided in paragraph (b) of this section, an application on Form SS–4 for an employer identification number shall be made by every person who, at any time after April 30, 1962, performs any act with respect to which a tax is imposed by section 4721, but who prior to such time neither has been assigned an employer identification number nor has applied therefor.

(b) The provisions of this section shall not apply in respect of those employees and officials referred to in section 4772.

(c) The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application on Form SS–4 shall be filed with any district director with whom a return on Form 678 will be filed by the person who is required to make the application. The application shall be filed on or before the seventh day after the first date, after April 30, 1962, on which occurs any act with respect to which a tax is imposed by section 4721. The application shall be signed by (1) the individual, if the person is an individual; (2) the president, vice president, or other principal officer if the person is a corporation; (3) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (4) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of the information reported on the application required under this section.

(d) The employer identification number assigned to a person liable for the tax imposed by section 4721 shall be shown in any return, statement, or other document made by such person for any period commencing after June 30, 1962.

(e) Each taxpayer shall make application for, and shall be assigned, only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 678.

(f) For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

Regulations Under the Marihuana Tax Act of 1937, As Amended (26 CFR Part 152):

PAR. 2. Immediately after § 152.9 there is inserted the following:

§ 152.9a Employer identification numbers.

(a) Except as provided in paragraph (b) of this section, an application on Form SS–4 for an employer identification number shall be made by every person who, at any time after April 30, 1962, performs any act with respect to which a tax is imposed by section 4751, but who prior to such time neither has been assigned an employer identification number nor has applied therefor.

(b) The provisions of this section shall not apply in respect of those employees and officials referred to in section 4772.

(c) The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. Form SS–4 may be obtained from any district director. The application on Form SS–4 shall be filed with any district director with whom a return on Form 678 will be filed by the person who is required to make the application. The application shall be filed on or before the seventh day after the first date, after April 30, 1962, on which occurs any act with respect to which a tax is imposed by section 4751. The application shall be signed by (1) the individual, if the person is an individual; (2) the president, vice president, or other principal officer if the person is a corporation; (3) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (4) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of the information reported on the application required under this section.

(d) The employer identification number assigned to a person liable for the tax imposed by section 4751 shall be shown in any return, statement, or other document made by such person for any period commencing after June 30, 1962.

(e) Each taxpayer shall make application for, and shall be assigned, only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 678.

(f) For the definition of the term "employer identification number", see § 301.7701–12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a return, statement, or other document, see § 301.6676–1 of this chapter (Regulations on Procedure and Administration).

[F.R. Doc. 62–1919; Filed, Feb. 23, 1962; 8:50 a.m.]

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 260]

PROCESSED FISHERY PRODUCTS

Processor's Accountability for Department of the Interior Shields

Notice is hereby given that, pursuant to the authority vested in the Secretary of the Interior by section 6(a) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742e(a)), it is proposed to amend Title 50, Code of Federal Regulations by the addition of a new § 260.86(e) to Part 260. The purpose of the addition of the new provision is to require accountability by the processor for the removal or stripping of official United States Department of the Interior (USDI) shields on packages of mislabeled fishery products.

U.S. Standards for grades of many fishery products require that the final grading be conducted on the packaged frozen product. End product grading is performed by U.S. Department of the Interior inspectors when fishery products are produced under continuous inspection. When a processor elects to include an approved Federal shield or identification mark as part of the printed label, a calculated risk is taken that despite this labeling, the product will not meet the requirements of the standard upon final inspection. When this situation occurs the labels bearing the official identification marks must be stripped from the packages.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the Director, Bureau of Commercial Fisheries, U.S. Fish and Wildlife Service, Washington 25, D.C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

A new paragraph (e) is added to § 260.86 reading as follows:

§ 260.86 Approved identification.

* * * * *

(e) *Removal of labels bearing inspection marks.* At the time a lot of fishery products is found to be mislabeled and the labels on the packages are not removed immediately, the following procedure shall be applicable:

(1) The processor, under the supervision of the inspector, shall clearly and conspicuously mark all master cases in the lot by means of a "Rejected by USDI Inspector" stamp provided by the Department.

(2) The processor shall be held accountable to the Department for all mislabeled products until the products are properly labeled.

(3) Clearance for the release of the relabeled products shall be obtained by the processor from the inspector.

FRANK P. BRIGGS,
Assistant Secretary of the Interior.

FEBRUARY 19, 1962.

National Park Service

[36 CFR Parts 1, 2, 3, 5]

NONDISCRIMINATION IN AREAS WITHIN THE NATIONAL PARK SYSTEM

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by section 3 of the act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 3), it is proposed to amend 36 CFR 1.60, 2.28, 3.46, and 5.7 and to add four new §§ 1.60a, 2.28a, 3.46a, and 5.7a, respectively as set forth below:

The purpose of these amendments is to conform the existing regulations to the policy of the Federal Government that persons using public property shall not maintain discriminatory employment practices with respect to race, color, creed, ancestry, or national origin in connection with such use; to prohibit discriminatory practices with respect to the furnishing of transportation services in such areas; and to provide notice to the public of these regulations.

It is the policy of the Department of the Interior wherever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the National Park Service, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

STEWART L. UDALL,
Secretary of the Interior.

FEBRUARY 16, 1962.

1. Section 1.60 heading and text are amended to read as follows:

§ 1.60 Discrimination in furnishing public accommodations and transportation services.

(a) The proprietor, owner, or operator and the employees of any hotel, inn, lodge, or other public facility or accommodation within an area administered by the National Park Service, and, while using such an area, any commercial passenger-carrying motor vehicle transportation service and its employees, are prohibited from (1) publicizing the facilities, accommodations or any activity conducted therein in any manner that would directly or inferentially reflect upon or question the acceptability of any person or persons because of race, creed, color, ancestry, or national origin; or (2) discriminating by segregation or otherwise against any person or persons because of race, creed, color, ancestry, or national origin in furnishing or refusing to furnish such person or persons any accommodation, facility, service, or privilege offered to or enjoyed by the general public.

(b) Each such proprietor, owner, or operator must post the following notice at such locations as will insure that the notice and its contents will be conspicuous to any person seeking accommodations, facilities, services or privileges:

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination by segregation or other means in the furnishing of accommodations, facilities, services, or privileges on the basis of race, creed, color, ancestry or national origin is permitted in the use of this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

2. A new § 1.60a reading as follows is added to Part 36:

§ 1.60a Discrimination in employment practices.

(a) The proprietor, owner, or operator of any hotel, inn, lodge, or other public facility or accommodation within an area administered by the National Park Service is prohibited from discriminating against any employee or applicant for employment or maintaining any employment practice which discriminates because of race, creed, color, ancestry, or national origin in connection with any activity provided for or permitted by contract with or permit from the Government or by derivative subcontract or sublease. As used in this section the

term "employment" shall include, but not be limited to, employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoffs or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) Each such proprietor, owner or operator must post either the following notice:

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination in employment practices on the basis of race, creed, color, ancestry, or national origin is permitted in this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

or notices supplied him in accordance with section 301 of Executive Order 10925, dated March 6, 1961 at such locations as will insure that the notice and its contents will be conspicuous to any persons seeking employment.

3. Section 2.28 heading and text are amended to read as follows:

§ 2.28 Discrimination in furnishing public accommodations and transportation services.

(a) The proprietor, owner, or operator and the employees of any hotel, inn, lodge, or other public facility or accommodation within any of the areas, and, while using any such area, any commercial passenger-carrying motor vehicle transportation service and its employees, are prohibited from (1) publicizing the facilities, accommodations or any activity conducted therein in any manner that would directly or inferentially reflect upon or question the acceptability of any person or persons because of race, creed, color, ancestry, or national origin; or (2) discriminating by segregation or otherwise against any person or persons because of race, creed, color, ancestry, or national origin in furnishing or refusing to furnish such person or persons any accommodation, facility, service, or privilege offered to or enjoyed by the general public.

(b) Each such proprietor, owner, or operator must post the following notice at such locations as will insure that the notice and its contents will be conspicuous to any person seeking accommodations, facilities, services or privileges:

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination by segregation or other means in the furnishing of accommodations, facilities, services, or privileges on the basis of race, creed, color, ancestry or national origin is permitted in the use of this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

4. A new § 2.28a reading as follows is added to Part 36:

§ 2.28a Discrimination in employment practices.

(a) The proprietor, owner, or operator of any hotel, inn, lodge or other public facility or accommodation within any of the areas is prohibited from discriminating against any employee or applicant for employment or maintaining any employment practice which discriminates because of race, creed, color, ancestry, or national origin in connection with any activity provided for or permitted by contract with or permit from the Government or by derivative subcontract or sublease. As used in this section the term "employment" shall include, but not be limited to, employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoffs or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) Each such proprietor, owner or operator must post either the following notice:

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination in employment practices on the basis of race, creed, color, ancestry, or national origin is permitted in this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

or notices supplied him in accordance with section 301 of Executive Order 10925, dated March 6, 1961, at such locations as will insure that the notice and its contents will be conspicuous to any person seeking employment.

5. Section 3.46 heading and text are amended to read as follows:

§ 3.46 Discrimination in furnishing public accommodations and transportation services.

(a) The proprietor, owner, or operator of any hotel, inn, lodge or other public facility or accommodation in a park area and its employees, including, but not limited to, the District of Columbia Recreation Board and its personnel, the District of Columbia Armory Board and its personnel, and any subcontractor or sublessee, and, while using such an area, any commercial passenger-carrying motor vehicle transportation service and its employees, are prohibited from (1) publicizing the facilities, accommodations or any activity conducted therein in any manner that would directly or inferentially reflect upon or question the acceptability of any person or persons because of race, creed, color, ancestry, or national origin; or (2) discriminating by segregation or otherwise against any person or persons because of race, creed, color, ancestry, or national origin in furnishing or refusing to furnish such person or persons any accommodation, facility, service, or privilege offered to or enjoyed by the general public.

(b) Each such proprietor, owner or operator must post either the following notice:

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination by segregation or other means in the furnishing of accommodations, facilities, services, or privileges on the basis of race, creed, color, ancestry or national origin is permitted in the use of this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

or notices supplied him in accordance with Section 301 of Executive Order 10925, dated March 6, 1961 at such locations as will insure that the notice and its contents will be conspicuous to any person seeking employment.

6. A new § 3.46a reading as follows is added to Part 36:

§ 3.46a Discrimination in employment practices.

(a) The proprietor, owner, or operator of any hotel, inn, lodge or other public facility or accommodation in a park area and its employees, as described in § 3.46, and any subcontractor or sublessee, in connection with the use of such an area, is prohibited from discriminating against any employee or applicant for employment or maintaining any employment practice which discriminates because of race, creed, color, ancestry, or national origin in connection with any activity provided for or permitted by contract with or permit from the Government or by subcontract or sublease. As used in this section the term "employment" shall include, but not be limited to, employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoffs or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) Each such proprietor, owner or operator must post either the following notice:

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination by segregation or other means in the furnishing of accommodations, facilities, services, or privileges on the basis of race, creed, color, ancestry or national origin is permitted in the use of this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

or notices supplied him in accordance with Section 301 of Executive Order 10925, dated March 6, 1961 at such locations as will insure that the notice and its contents will be conspicuous to any person seeking employment.

7. Section 5.7 heading and text are amended to read as follows:

§ 5.7 Discrimination in furnishing public accommodations and transportation services.

(a) The proprietor, owner, or operator and the employees of any hotel, inn, lodge, or other public facility or accommodation within any of the parks listed in § 5.1, and, while using such a park, any commercial passenger-carrying motor vehicle transportation service and its employees are prohibited from (1) publicizing the facilities, accommodations or any activity conducted therein in any manner that would directly or inferentially reflect upon or question the acceptability of any person or persons because of race, creed, color, ancestry, or national origin; or (2) discriminating by segregation or otherwise against any person or persons because of race, creed, color, ancestry, or national origin in furnishing or refusing to furnish such person or persons any accommodation, facility, service, or privilege offered to or enjoyed by the general public.

(b) Each such proprietor, owner, or operator must post the following notice at such locations as will insure that the notice and its contents will be conspicuous to any person seeking employment.

NOTICE

This is a privately operated facility in an area under the jurisdiction of the United States Department of the Interior.

No discrimination in employment practices on the basis of race, creed, color, ancestry, or national origin is permitted in this facility. Violations of this prohibition are punishable by fine, imprisonment, or both.

or notices supplied him in accordance with section 301 of Executive Order 10925, dated March 6, 1961 at such locations as will insure that the notice and its contents will be conspicuous to any person seeking employment.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-49]

FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Proposed Revocation of Federal Airway, Associated Control Areas, and Reporting Points; Proposed Alteration of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to Parts 600 and 601 and § 601.1106 of the regulations of the Administrator, the substance of which is stated below.

Green Federal airway No. 10 extends from the United States /Canadian border northwest of Bellingham, Wash., to Denver, Colo. The Federal Aviation Agency is considering the revocation of this airway. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the route from the United States/Canadian border northwest of Bellingham to Denver is adequately served by a combination of VOR Federal airways No. 2, No. 4, No. 23 and No. 25. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Green 10, its associated control areas and reporting points. Adoption of this proposal would not result in the discontinuance of the low frequency navigational aids presently supporting Green 10. Any proposal to discontinue one or more of these aids would be circularized separately and interested persons would be afforded an opportunity to comment.

The Whidbey Island, Wash., control area extension (§ 601.1106) is bounded in part by Green 10. With the revocation of Green 10, it is proposed to redescribe the boundaries of this control area extension without reference to Green 10 or other low altitude colored airways. This would not substantially alter the extent of presently designated controlled airspace in the vicinity of Whidbey Island.

The Whidbey Island, Wash., control area extension would be redesignated as the area bounded on the north by lines connecting points at latitude 48°42'48" N., longitude 123°11'57" W., and latitude 48°51'45" N., longitude 122°40'00" W.; bounded on the east by low altitude VOR Federal airway No. 23; bounded on the southwest by low altitude VOR Federal airway No. 4 and bounded on the west by lines connecting points at latitude 48°10'00" N., longitude 123°01'00" W.; latitude 48°38'30" N., longitude 123°13'00" W.; and latitude 48°42'48" N., longitude 123°11'57" W., excluding the portion outside the United States. The portion of this control area extension which lies within Restricted Areas R-6701, R-6807, and R-6713 would be used only after prior approval from the appropriate authority.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 16, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62-1873; Filed, Feb. 23, 1962; 8:48 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-84]

FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Proposed Revocation of Federal Airway, Associated Control Areas, and Reporting Points; Proposed Alteration of Control Area Extensions

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to Parts 600 and 601 and §§ 601.1133 and 601.1445 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 79 is designated from Neah Bay, Wash., to Dungeness, Wash., and from Port Gamble, Wash., to Everett, Wash. The Federal Aviation Agency is considering revoking Red 79 in its entirety. It is the policy of this Agency to revoke L/MF airways wherever adequate VOR airways are available, and it appears that the segment of this route from Neah Bay to Dungeness is adequately served by low altitude VOR Federal airway No. 4. The Federal Aviation Agency's latest IFR peak-day airway traffic survey shows only one aircraft movement on the segment of this airway between Port Gamble and Everett. Therefore, it appears that the retention of this airway is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Red 79 and its associated control areas from Neah Bay to Everett. Concurrently with this action, it is also proposed to revoke § 601.4279, reporting points associated with Red 79. Adoption of this proposal would not result in discontinuance of the low frequency navigational aids associated

with Red 79. Any proposals to discontinue one or more of these aids would be circularized separately and interested persons would be afforded an opportunity to comment. The Agency has under consideration the conversion of the Neah Bay radio range to a radio beacon. This non-rule-making proposal is included herein so that concurrent action could be accomplished on both proposals.

The Neah Bay control area extension is described in part by the northwest course of the Neah Bay radio range. The Seattle control area extension (§ 601.1133) is described in part by Red 79 and also low altitude Amber Federal airway No. 1. Concurrently with the revocation of Red 79 and the conversion of the Neah Bay raido range to a radio beacon, it is proposed to alter these control area extensions by substituting a bearing from the Neah Bay radio beacon for the radio range course in the description of the Neah Bay control area extension and by substituting low altitude VOR Federal airway No. 4 for the L/MF airways in the description of the Seattle control area extension. These alterations would be editorial in nature and would entail no additional assignment of airspace. The floors of these control area extensions would remain as designated pending review of the adjacent airspace. Separate actions will be initiated to implement on an area basis Amendment 60–21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C–226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 19, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

[F.R. Doc. 62–1874; Filed, Feb. 23, 1962; 8:48 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61–NY–59]

FEDERAL AIRWAYS AND CONTROLLED AIRSPACE

Proposed Alteration of Federal Airways and Associated Control Areas

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 600.6091, 600.6487, 600.1693, 601.6091, and 601.6487 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 91 is designated in part from the Glens Falls, N.Y., VORTAC via the Benson, Vt., VOR; the Burlington, Vt., VOR; the Plattsburgh, N.Y., VOR; to the St. Eustache, Quebec, Canada, VOR, including an east alternate from the Burlington VOR via the St. Johns, Quebec, Canada, VOR to the St. Eustache VOR, excluding the portion outside the United States. The Federal Aviation Agency has under consideration the redesignation of this segment of Victor 91 from the Glens Falls VORTAC via the intersection of the Glens Falls VORTAC 032° and the Burlington VOR 187° True radials; Burlington VOR; Plattsburgh VOR; to the St. Eustache VOR, excluding the portion outside the United States.

Low altitude VOR Federal airway No. 487 is designated in part from Cambridge, N.Y., to Benson, Vt. It is proposed to extend this airway from the Cambridge VOR via the intersection of the Cambridge VOR 002° and the Glens Falls VORTAC 032° True radials; Burlington VOR; the intersection of the Burlington VOR 359° and the St. Johns, Quebec, Canada VOR 158° True radials; the St. Johns VOR; to the St. Eustache VOR, excluding the portion outside the United States.

Intermediate altitude VOR Federal airway No. 1693 extends from the Riverhead, N.Y., VOR via the intersection of the Riverhead VOR 293° and the Poughkeepsie, N.Y., VOR 169° True radials; Poughkeepsie VOR; thence 10-mile wide airway via the Cambridge, N.Y., VOR; Burlington, Vt., VOR to the St. Johns, Quebec, VOR excluding the portion outside the United States. It is proposed to realign Victor 1693 to extend from the Riverhead VOR as a 10-mile wide airway via the Poughkeepsie, N.Y., VOR; Cambridge, N.Y., VOR Burlington, Vt., VOR; intersection of the Burlington VOR 359° and the St. Johns, Quebec, VOR 158° True radials; to the St. Johns VOR, excluding the portion which lies over Canada.

The application of new holding pattern airspace with [illegible] 91 east alternate and Victor [illegible] realignment of these airway segments farther to the east would provide the required separation between the terminal and en route operations in the vicinity of Plattsburgh. The identical alignment of the two airway segments would permit transition between the low and intermediate altitude airway structure. The renumbering of Victor 91 east alternate as Victor 487, together with the extension of Victor 487 as proposed, would improve air traffic service by providing an additional single numbered airway between the New York and Montreal terminal areas. The proposed reduction in the width of Victor 1693 south of Poughkeepsie would provide lateral separation from intermediate altitude VOR Federal airway No. 1691, which is being considered for realignment via the Clermont, N.Y., VOR in separate airspace action. The deletion of the Benson VOR from the descriptions of Victor 91 and Victor 487 south of Burlington and the description of these airway segments via radials of other navigation facilities is proposed due to the destruction of the Benson VOR by fire. This action would result in no change in the present alignment of these airway segments.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C–226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 16, 1962.

CLIFFORD P. BURTON,
Acting Chief,
Airspace Utilization Division.

FEDERAL MARITIME COMMISSION

[46 CFR Part 510]

[Docket No. 973]

[General Order 4, Amdt. 1]

PRACTICES OF LICENSED INDEPENDENT OCEAN FREIGHT FORWARDERS, OCEAN FREIGHT BROKERS, AND OCEANGOING COMMON CARRIERS

Notice of Proposed Rule Making

Pursuant to the provisions of section 4, Administrative Procedure Act (5 U.S.C. 1003), and sections 43 and 44 of the Shipping Act, 1916 (75 Stat. 522, 523, and 766); notice is hereby given that the Federal Maritime Commission is considering the promulgation of the regulations set forth hereinafter affecting the practices of licensed independent ocean freight forwarders, ocean freight brokers, and oceangoing common carriers.

Interested persons may submit such written data, views, or arguments as they desire. Communications should be submitted in original and fifteen copies to the Secretary, Federal Maritime Commission, Washington 25, D.C. All communications received within thirty days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken by the Federal Maritime Commission. No public hearing is contemplated at this time.

Dated: February 19, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

Part 510 is hereby amended by the addition of a new subpart to Chapter IV of this title reading as follows:

Subpart B—Duties and Obligations

Sec.

510.20 Scope.
510.21 Definitions.
510.22 Oceangoing common carriers and persons shipping for own account.
510.23 Duties and obligations of licensees.
510.24 Compensation and freight forwarder certifications.
510.25 Special contracts.
510.26 Section 15 agreements.
510.27 Separability.

AUTHORITY: §§ 510.20 to 510.27 issued under secs. 43, 44, Shipping Act, 1916 (75 Stat. 522, 523, 766); sec. 204, Merchant Marine Act, 1936 (49 Stat. 1987, as amended; 46 U.S.C. 1114).

§ 510.20 Scope.

This subpart pertains to the practices of licensed independent ocean freight forwarders, ocean freight brokers and oceangoing common carriers pursuant to Public Law 87–254.

§ 510.21 Definitions.

(a) The term "licensee" means any person licensed by the Commission as an independent ocean freight forwarder, or any independent ocean freight forwarder who, on September 19, 1961, was carrying on the business of freight forwarding under a valid registration number issued by the Commission, or its predecessors, who filed an application for such a license (Form FMC–18) on or before January 17, 1962, and whose application has not been denied.

(b) The term "in commerce from the United States" means export commerce from the United States, its Territories, or possessions to foreign countries, or between the United States and its Territories or possessions or between such Territories and possessions.

(c) The term "oceangoing common carrier" means a common carrier engaged in transportation by water of property in commerce from the United States.

(d) The term "non-vessel operating common carrier by water" means a person who holds himself out by the establishment and maintenance of tariffs, by advertisement, solicitation, or otherwise, to provide transportation for hire by water in interstate commerce as defined in the Act, and in commerce from the United States as defined in paragraph (b) of this section; assumes responsibility or has liability imposed by law for safe transportation of shipments; and arranges in his own name with underlying water carriers for the performance of such transportation whether or not owning or controlling the means by which such transportation is effected.

(e) The term "principal" means the shipper, consignee, seller, purchaser, or agent of the holder of title to export merchandise, who employs the services of a licensee.

(f) The term "ocean freight broker" as used herein means a person not an oceangoing common carrier or employee thereof, serving as the intermediary between a shipper and an oceangoing common carrier when, and only when, such person performs the function of arranging rates, terms, and other conditions of carriage with respect to liquid or dry cargo in bulk loaded without mark or count.

(g) The term "freight forwarding fee" means payment by a shipper, consignee, seller, purchaser, or any agent thereof, to a licensee for the performance of a freight forwarding service as defined in § 510.2(c).

(h) The term "compensation" means payment by an oceangoing common carrier for the performance of services as specified in § 510.24(f).

(i) The term "brokerage" means payment by an oceangoing common carrier to an ocean freight broker for performing the function specified in paragraph (f) of this section.

(j) The term "special contract" means lump sum forwarding charges, monthly retainer fees, or similar financial arrangements that may exist between a principal and a licensee.

(k) The term "reduced forwarding fees" as used herein means charges to a principal for forwarding services that are below the licensee's usual charges.

(l) The term "Act" means the Shipping Act, 1916 (46 U.S.C. 801).

§ 510.22 Oceangoing common carriers and persons shipping for own account.

(a) No oceangoing common carrier, or agent thereof, may perform freight forwarder services without a license. Charges for such services shall be published in tariffs filed with the Commission.

(b) Nothing in this part shall be interpreted to prohibit a person from performing freight forwarding services on his own behalf, or on behalf of a wholly owning parent company or a wholly owned subsidiary, or to require such a person to be licensed.

(c) A non-vessel operating common carrier by water, for the purposes of this part, is deemed a shipper of cargo via the underlying oceangoing common carrier. Such non-vessel operating common carrier may perform forwarding services with respect to shipments moving on his own through export bill of lading.

§ 510.23 Duties and obligations of licensees.

(a) No licensee shall permit his license or name to be used by any person not employed by him for the performance of any freight forwarding service.

(b) No licensee shall, directly or indirectly, (1) accept employment to perform forwarding services on export shipments as an associate, correspondent, officer, employee, agent or subagent from any person whose license as an independent ocean freight forwarder shall have been revoked, or whose license is under suspension; (2) assist the furtherance of any forwarding business of such such person; (3) share forwarding fees or freight compensation with any such person; or (4) permit any such person directly or indirectly to participate, whether through ownership or otherwise, in the control or direction of the freight forwarding business of the licensee.

(c) A licensee who has reason to believe that a principal has not, with respect to a shipment to be handled by such licensee, complied with the law or has made any error or misrepresentation in, or omission from, any export declaration, bill of lading, affidavit, or other paper which the principal executes in connection with such shipment, shall advise his principal promptly of the suspected non-compliance, error, misrepresentation or omission, and shall decline to participate in such transaction involving such document until the matter is clarified.

(d) Every licensee shall exercise due diligence to ascertain the correctness of any information which he imparts to a principal with reference to any forwarding transaction; and no licensee shall knowingly impart to a principal or oceangoing common carrier false information relative to any such transaction.

(e) No licensee shall withhold information relative to a forwarding transaction from his principal.

(f) Each licensee shall promptly pay over to the oceangoing common carrier or other person when due all sums ad-

vanced by a principal for the payment of any and all charges, debts, or obligations in connection with the forwarding transaction, and shall promptly account to his principal for funds received in behalf of the principal for over payments, adjustment of charges, reductions in rates, insurance refunds, insurance money paid to the forwarder as the result of claims, proceeds of c.o.d. shipments, drafts, letters of credit and any other sums due to such principal.

(g) No licensee shall endorse or negotiate without the expressed authority of his principal any draft, check or warrant drawn to the order of such principal.

(h) No licensee shall file or assist in the filing of any claim, affidavit, letter of indemnity, or other paper or document, with respect to a shipment handled, or to be handled, by such licensee, which he has reason to believe is false or fraudulent.

(i) Any receipt issued for cargo by a licensee shall be clearly identified as a "Receipt for Cargo", and shall be in a form readily distinguishable from a bill of lading.

(j) Every licensee shall use invoices or other forms of billing which state separately as to each shipment: (1) The actual amount of ocean freight assessed by the oceangoing common carrier; (2) the actual amount of consular fees paid; (3) the premium cost of insurance arranged; (4) the charge for each accessorial service performed in connection with the shipment. All other charges or fees assessed by the licensee for arranging subparagraphs (1), (2), (3), and (4) of this paragraph shall be itemized. Licensees shall not be required to itemize the components of charges with respect to transactions made pursuant to § 510.25.

(k) Each licensee shall maintain correctly and in orderly, systematic, convenient and readily available manner, and keep current, all records and books of account in connection with carrying on the business of forwarding. Such records shall be retained for a period of five years and shall include a copy of each document prepared, processed or obtained by the licensee.

(l) Each licensee shall make available promptly all records and books of account in connection with carrying on the business of forwarding, for inspection or reproducing or other official use upon the request of any authorized representative of the Commission.

§ 510.24 Compensation and freight forwarder certifications.

(a) No oceangoing common carrier shall pay to a licensee, and no licensee shall charge or receive from any such carrier, either directly or indirectly, any compensation or payment of any kind whatsoever, whether called "brokerage", "commission", "fee", or by any other name, in connection with any cargo or shipment wherein the licensee's name appears on the ocean bill of lading as shipper or as agent for an undisclosed principal.

(b) No licensee shall render, or offer to render, any forwarding service free of charge or at a reduced freight forwarding fee in consideration of the licensee receiving compensation from oceangoing common carriers on the shipment; provided, however, that a licensee may perform freight forwarding services for recognized relief agencies or charitable organizations, designated as such in the tariff of the oceangoing common carrier, free of charge, or at reduced fees.

(c) No licensee shall share, directly or indirectly, any compensation or freight forwarding fee with a shipper, consignee, seller, purchaser, or their agents, affiliates or employees; nor with any person or persons advancing the purchase price of the merchandise or guaranteeing payment therefor; nor with any person or persons having a beneficial interest in the shipment.

(d) No oceangoing common carrier shall compensate a licensee when such carrier has reason to believe that receipt of such compensation by the licensee is prohibited by this part, or by the Act.

(e) Before any compensation is paid by an oceangoing common carrier, or received by a licensee, such licensee shall submit to the carrier a written bill or invoice requesting such compensation and incorporating a certification in respect to each shipment in the form shown below. The oceangoing common carrier shall be entitled to rely on such certification unless it has reason to believe that the certification is incorrect. The form of certification shall be as follows:

> The undersigned thereby certifies that it is operating under license No. ------ (or application No. ------, and registration No. ------, issued by the Federal Maritime Commission, or its predecessors) and has performed in addition to the solicitation and securing of the cargo for the ship or the booking of, or otherwise arranging for space for, such cargo, two or more of the following services: (Check services performed.)
>
> (1) The coordination of the movement of the cargo to shipside;
>
> (2) The preparation and processing of the ocean bill of lading;
>
> (3) The preparation and processing of dock receipts or delivery orders;
>
> (4) The preparation and processing of consular documents or export declarations;
>
> (5) The payment of the ocean freight charges on the cargo.

(f) An oceangoing common carrier may compensate a licensee to the extent of the value rendered such carrier in connection with any shipment forwarded on behalf of others when, and only when, such carrier is in possession of a certification in the form prescribed in paragraph (e) of this section.

(g) No oceangoing common carrier shall pay compensation to any person other than a licensee, except that such a carrier may pay brokerage, as defined in § 510.21(i) to an ocean freight broker, as defined in § 510.21(f).

(h) Where an oceangoing common carrier has paid, or has incurred an obligation to pay brokerage to an ocean freight broker, or compensation to a licensee, then such carrier shall not pay additional compensation for any other forwarding services rendered on the same cargo.

§ 510.25 Special contracts.

(a) A true copy of all existing special arrangements or contracts, including amendments, modifications and cancellations thereof, between a licensee and his principal shall be filed with the Commission within 30 days after the effective date of this subpart; and, if oral, shall be confirmed in writing and a true copy shall be filed with the Commission within such time. All such future arrangements, contracts, amendments, modifications, or cancellations shall be filed within ten days after they have been entered into.

(b) To the extent that special arrangements or contracts are entered into by a licensee, such licensee shall not deny equal terms to others similarly situated.

§ 510.26 Section 15 agreements.

(a) Copies of written agreements and true and complete memoranda of oral agreements between a licensee and another licensee or common carrier or other person subject to the Act, or modifications or cancellations thereof, which are subject to section 15 of the Act, must be filed with the Commission for approval. Copies of memoranda or agreements, modifications or cancellations thereof submitted for the Commission's approval under section 15 shall clearly show their nature, the parties, ports, and subject matter in detail, and shall refer to any previously filed agreements to which they may relate.

(b) All such agreements, or modifications or cancellations thereof, shall not be carried out until approved by the Commission.

§ 510.27 Separability.

The provisions of this part are not interdependent. If any portion hereof shall be enjoined, set aside, suspended, or held invalid, the validity and enforceability of all other parts shall be unaffected thereby, and shall to the full extent practicable, remain in full force and effect unless and until it is otherwise provided by the Commission or a court of competent jurisdiction.

[F.R. Doc. 62-1879; Filed, Feb. 23, 1962; 8:48 a.m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 148]

[Docket No. 33991]

POSTING OF FREIGHT TARIFFS AT STATIONS

Notice of Proposed Rule Making

FEBRUARY 20, 1962.

Notice is hereby given that the Railway Labor Executives Association through their counsel, Mulholland, Robie & Hickey, 620 Tower Building, Washington 5, D.C., has filed a petition (Docket No. 33991) with the Interstate Commerce Commission praying that

Rule 33 of the Commission's rules to govern the construction and filing of freight rate publications, including pipeline schedules and classifications, Tariff Circular No. 20, be amended in the following respects (49 CFR 148.0 to 148.8):

(1) Amend Rule 33 to provide that where a tariff is filed which abolishes or curtails a type of freight service at a station or stations, (a) there must be included in such tariff during the 30-day statutory period prior to the effective date a statement explaining the effect of the tariff and the rights of the public to seek suspension; (b) publication of the tariff and narrative statement on three different non-consecutive days during the first 10 days of the statutory period in a newspaper of general circulation in each county of each State where a station is located at which some type of freight service is to be abolished or curtailed, and (c) maintenance of a bulletin board at each station on which the tariff and accompanying narrative statement shall be displayed during the 30-day statutory notice.

(2) It is also proposed to amend Rule 33(e) to require each tariff posted to conform to the requirements of Rule 33 amended as above.

Petitioner's stated reasons for requesting modification are its concern with the policy of many of the nation's railroads to discontinue or severely reduce the services offered the public in connection with freight traffic; that less-than-carload freight service may be of vital importance to numerous manufacturers and businessmen but nevertheless such service may be abolished by the railroads after giving public notice of intention that is not certain to reach or be comprehended by such users; that the present form of notice to the public is inadequate and that the requested amendments to Rules 33 and 33(e) would fairly apprise the public to the effects of the tariff amendments proposed by the carriers and of the rights of timely protest to the Commission's Board of Suspension.

Any person or persons desiring to participate in this matter may file representations supporting or opposing the relief sought on or before April 2, 1962. An original and 14 copies of such representations must be filed for use of the Commission and must show service of two copies upon petitioner's attorneys at the above address.

Copies of the petition may be obtained upon request from Mulholland, Robie & Hickey, 620 Tower Building, Washington 5, D.C.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-134]

AMERICAN EXPORT LINES, INC., AND ISBRANDTSEN STEAMSHIP CO., INC.

Notice of Application and of Hearing; Amendment

In F.R. Doc. 62-1605, appearing in the FEDERAL REGISTER issue of February 15, 1962 (27 F.R. 1427), notice was given of application and of hearing in the above-captioned matter.

Notice is hereby given of amendment to said application to include, in addition to the carriage of refined sugar in bulk, the carriage of said commodity in bags.

A hearing on the application has been set for March 5, 1962, at 10:00 a.m., in Room 3490, of the General Accounting Office Building before the Chief Hearing Examiner of the Maritime Administration. Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) must, before the close of business on March 2, 1962, notify the Secretary, Maritime Administration, in writing, in triplicate, and file petition for leave to intervene which petition shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief. Notwithstanding anything in Rule 5(n) of the rules of practice and procedure, petitions for leave to intervene received after the close of business on March 2, 1962, will not be granted in this proceeding.

Dated: February 21, 1962.

JAMES S. DAWSON, Jr.,
Secretary.

FEDERAL MARITIME COMMISSION

FARRELL SHIPPING CO., INC., AND N. D. CUNNINGHAM & CO.

Notice of Agreement Filed for Approval

Notice is hereby given that Agreement No. 8728 has been filed with the Federal Maritime Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Parties to the agreement are Farrell Shipping Co., Inc., New Orleans, Louisiana, and N. D. Cunningham & Company, Mobile, Alabama, freight forwarders who, pending issuance of licenses, are operating under their registration numbers during the 120-day period provided for in Public Law 87-254.

The agreement is a cooperative working arrangement under which each party will perform freight forwarding services for the other. The entire forwarding fee will be retained by the party performing the services. On shipments handled under the agreement, the ocean freight brokerage will be divided equally.

The agreement may be cancelled by either party giving written notice to the other of its desire to terminate the arrangement, cancellation to become effective 30 days after date of such notice.

This agreement enables each party to use the services of the other in connection with its shipments moving through New Orleans or Mobile, respectively.

Interested parties may inspect this agreement and obtain copies thereof at the Office of Regulations, Federal Maritime Commission, Washington 25, D.C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to it, and their position as to approval, disapproval, or modification thereof, together with request for hearing should such hearing be desired.

Dated: February 20, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

MEMBER LINES OF TRANS PACIFIC FREIGHT CONFERENCE (HONG KONG) ET AL.

Notice of Agreements Filed for Approval

Notice is hereby given that the following described agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreement 14-18, between the member lines of the Trans Pacific Freight Conference (Hong Kong), modifies the basic agreement of that conference (Numbered 14-1, as amended), which presently covers the inbound Trans-Pacific trade from or via Hong Kong, Canton, Amoy, Foochow, and all other ports in China south of and including Foochow, and ports in Formosa, Indo-China and Siam to Vancouver, British Columbia, Seattle and Tacoma, Washington, Portland, Oregon, San Francisco, Alameda, Oakland, Long Beach, Los Angeles Harbor, and San Diego, California, and Honolulu, Hawaii, or via such Pacific Coast ports to overland points in the United States and Canada. The purpose of the modification is to (1) redescribe the trading area of the conference to include the entire range of ports on the Pacific Coast of North America (U.S. and Canada) as ports of discharge; (2) change the name of Formosa, Indo-China and Siam to Taiwan, Viet Nam and Thailand, respectively, the present day designation of those countries; (3) add Cambodia as a country of origin within the scope of the conference; (4) change procedure with respect to conference meetings, voting and entering into shippers contracts; (5) add new provisions governing member lines acting as agents for non-conference carriers; (6) modify admission and withdrawal provisions; and (7) and a new provision setting forth the understanding of the member lines as to what constitutes regular service for the purpose of voting and membership.

Agreement 8506-1, between Sea-Land Service, Inc. Puerto Rican Division and American President Lines, Ltd., modifies approved Agreement 8506, covering a through billing arrangement on cargo from France, Italy and North Africa to Puerto Rico, via New York. The purpose of the Modification is to (1) record Sea-Land Service, Inc. Puerto Rican Division, the new name of that company, as a party to the agreement, in place of Sea-Land of Puerto Rico, Division of Sea-Land Service, Inc.; and (2) eliminate the reference to the Association of West India Trans-Atlantic Steamship Lines as the governing conference with respect to the applicable rates to be observed by the parties under the agreement.

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 19, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL RESERVE SYSTEM

C. B. INVESTMENT CORP.

Order Approving Application

In the matter of the application of C. B. Investment Corporation for prior approval of acquisition of additional shares of voting stock of The First National Bank of Port Arthur, Texas.

Whereas there has come before the Board of Governors, pursuant to section 3(a)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842) and section 4(a)(2) of Federal Reserve Regulation Y (12 CFR 222.4(a)(2)), an application on behalf of C. B. Investment Corporation, Houston, Texas, for the Board's prior approval of the acquisition of an additional 932 shares of the voting stock of The First National Bank of Port Arthur, Port Arthur, Texas; a Notice of Receipt of Application has been published in the FEDERAL REGISTER on February 2, 1962 (27 F.R. 994), which provided an opportunity for submission of comments and views regarding the proposed acquisition; and the time for filing such comments and views has expired and no such comments or views have been filed;

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that said application be and hereby is approved.

Dated at Washington, D.C., this 19th day of February 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

OFFICE OF EMERGENCY PLANNING

PETROLEUM STUDY COMMITTEE

Policy Concerning Submission of Data and Views for Consideration

The President has directed that a Petroleum Study Committee under the chairmanship of the undersigned shall make a comprehensive study of petroleum requirements and supplies in relation to national security objectives. The very substantial quantity of information now in the possession of the Government pursuant to its data collection functions, material available from the publications of the industry and industry associations and earlier studies and congressional hearings in the area of petroleum requirements and supply, make it unnecessary to call for the systematic submission of views and data from the public. However, there is no intention to deny anyone the opportunity to submit material considered relevant in terms of the experience of individuals, companies or groups under current Government policies or programs.

If a statement is submitted it should be specific as to policies or programs considered desirable and should be submitted in 25 copies to the undersigned not later than April 2, 1962. A copy of each such submission will be available for public inspection at the Information Office of the Office of Emergency Planning.

Dated: February 21, 1962.

EDWARD A. MCDERMOTT,
Acting Director,
Office of Emergency Planning.

[F.R. Doc. 62-1921; Filed, Feb. 23, 1962; 8:50 a.m.]

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority 54, Rev. 2]

DIRECTOR, OFFICE OF INVESTMENT

Delegation Relating to Investment Program

I. Pursuant to the authority delegated to the Deputy Administrator of the Investment Division, by the Administrator by Delegation of Authority No. 50 (Revision 3), as amended, (25 F.R. 7418, 26 F.R. 4440 and 27 F.R. 1303), there is hereby redelegated to the Director, Office of Investment the authority:

A. *Investment.* 1. To approve Notices to Proceed.

2. To approve extensions of Notices to Proceed for a period of not more than 200 days from the date of the original Notice to Proceed.

3. To approve loans and their disbursement under sections 302 and 303 of the Small Business Investment Act of 1958, as amended, except that approval of self-dealing loans shall be restricted to those involving individuals, with less than an aggregate amount of 5 percent interest in an SBIC, and an aggregate amount of less than 10 percent of the small business concern.

4. To approve dates of change of annual meetings.

5. To approve changes in the number of members of Board of Directors of individual SBIC's.

6. To approve new officers and Directors of individual SBIC's.

7. To approve name changes and address changes of Licensees.

8. To approve overline loans (excess of 20 percent) where the excess amount does not exceed 2 percent of the Licensee's statutory capital.

9. To extend use of sections 302 and 303 loan proceeds not to exceed 30 days beyond the authorized period.

10. To approve voluntary withdrawals involved in termination of Notices to Proceed or letters of comment.

B. *Compliance.* To take any and all actions deemed necessary to assure compliance with the Small Business Investment Act of 1958, as amended, and regulations promulgated thereunder except those actions which involve policy determination or legal precedent.

C. *Development.* To approve loans and their disbursement under section 502 of the Small Business Investment Act of 1958, as amended, except that such approval shall not exceed $150,000.

D. *Administrative.* 1. To authorize or approve (a) his personal travel and (b) the travel of Washington Office employees under his supervision except travel when actual travel subsistence is requested.

2. To approve (a) sick and annual leave, (b) leave without pay not in excess of 30 days and (c) overtime work for employees under his supervision.

II. The authority delegated in I.A.I. and I.D.I. may not be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as Acting Director, Office of Investment.

IV. All previous authority delegated to the Director, Office of Investment is hereby rescinded without prejudice to actions taken under such delegation prior to the date hereof.

Effective date: February 12, 1962.

PHIL DAVID FINE,
Deputy Administrator,
Investment Division.

FEDERAL POWER COMMISSION

[Docket Nos. RI62-329, etc.]

PAN AMERICAN PETROLEUM CORP. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates;[1] and Allowing Rate Changes To Become Effective Subject to Refund

FEBRUARY 16, 1962.

Pan American Petroleum Corporation, Docket No. RI62-329; Pioneer Production Corporation, Docket No. RI62-330; Pioneer Production Corporation (Operator) et al., Docket No. RI62-331; Ashland Oil & Refining Company, Docket No. RI62-332; Amerada Petroleum Corporation, Docket No. RI62-333; Amerada Petroleum Corporation (Operator) et al., Docket No. RI62-334; Harper Oil Company, Docket No. RI62-335; Harper Oil Company (Operator) et al., Docket No. RI62-336; Texas San Juan Oil Corporation, Docket No. RI62-337; Earl C. Brookover, Docket No. RI62-338; Sinclair Oil & Gas Company (Operator) et al., Docket No. RI62-339; Bell Oil & Gas Company, Docket No. RI62-340; Phillips Petroleum Company, Docket No. RI62-341.

The above-named respondents have tendered for filing proposed changes in presently effective rate schedules, for sales of natural gas subject to the jurisdiction of the Commission. With the exception of the sales by Bell Oil & Gas Company under Rate Schedule No. 2, and Supplement No. 4 thereto, at a pressure base of 15.325 psia, all of the sales are made at a pressure base of 14.65 psia. The proposed changes are designated as follows:

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

[1] The stated effective date is the 1st day after expiration of the required statutory notice, or, if later, the date requested by respondent.
[2] Includes 0.5 cent per Mcf for downward Btu adjustment deducted by buyer.
[3] Includes 0.4467 cent per Mcf for compression deducted by buyer.
[4] Includes 1.5 cents for upward Btu adjustment.
[5] Periodic increase by contract.
[6] Tax reimbursement increase.
[7] Renegotiated increase per contract.
[8] Revenue-sharing increase by contract. Cabot Corp. related increase suspended in docket No. RI61-308 and is now in effect subject to refund.

With the exception of the proposed increase of Bell Oil & Gas Company resulting from a revenue-sharing rate increase for natural gas sold to Cabot Corporation in the De Kalb Field, Gilmer County, West Virginia (based upon a contract provision providing that Bell Oil should receive 60 percent of any increase in the resale price received by Cabot from Hope Natural Gas Company), the proposed rate increases exceed the applicable area price levels established by the Commission's Statement of General Policy No. 61–1, as amended (18 CFR Ch. 1, Part 2, § 2.56). The subject rate of Cabot was suspended by the Commission and is now in effect subject to refund (Docket No. RI61–308).

The proposed increased rates of Amerada Petroleum Corporation and Amerada Petroleum Corporation (Operator) et al., provide for tax reimbursements based on an increase in New Mexico's conservation tax effective July 1, 1955 plus the increase in severance tax effective June 10, 1949. Similarly the proposed increased rate of Texas San Juan Oil Corporation provides for tax reimbursement of the Texas dedicated reserve tax applicable to gas sold to Tennessee Gas Transmission Company in the Miller and Fox Fields, in Jim Wells and Duval Counties, Texas.

The suspension periods applicable to Amerada Petroleum Corporation, Amerada Petroleum Corporation (Operator) et al., Texas San Juan Oil Corporation, and Bell Oil & Gas Company may be shortened to one day.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. 1), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by Amerada Petroleum Corporation, Amerada Petroleum Corporation (Operator) et al., Texas San Juan Oil Corporation, and Bell Oil & Gas Company as set forth above, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of issuance of this order Respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreement and undertaking, such agreement and undertaking shall be deemed to have been accepted.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37) on or before April 1, 1962.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–4013]

AMERICAN NATURAL GAS CO.

Notice of Proposal To Adopt Stock Option Plan for Key Executive Employees; To Amend Certificate of Incorporation; To Solicit Proxies; and To Acquire and Sell, If Necessary, Certain Shares of Common Stock

FEBRUARY 19, 1962.

Notice is hereby given that American Natural Gas Company ("American Natural"), 3600 Penobscot Building, Detroit 26, Michigan, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, and 12 of the Act and Rules 43 and 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, on file at the office of the Commission, for a statement of the transactions therein proposed which are summarized below.

American Natural proposes to adopt a restricted stock option plan ("Plan"), in accordance with the provisions of section 421 of the Internal Revenue Code of 1954, as amended, for regular full-time key executive employees of American Natural and its subsidiary companies. A total of 147,112 shares of the authorized but unissued common stock of American Natural is to be reserved for issue upon the exercise of options granted under the Plan. This amounts to 1 percent of the 14,711,292 shares of American Natural's common stock presently issued and outstanding.

Among the provisions, terms, and conditions of the Plan are the following: (1) Not more than 25 percent of the shares reserved under the Plan may be optioned to employees who, at the time of adoption of the Plan, are officers of American Natural or its subsidiary companies; (2) subject to modifications and adjustments under certain conditions, the exercise price per share of the common stock covered by each option shall be the fair market value of such stock at the time of the granting of the option, which fair market value shall be not less than the highest price on the New York Stock Exchange on the day the option is granted; (3) the exercise price of the stock may be reduced to the fair market value of the stock on the day of reduction if the average fair market value thereof for the twelve consecutive calendar months preceding the month in which the reduction occurs is less than 80 percent of the fair market value of the stock on the date of the original grant of the option; (4) the aggregate exercise price of common stock optioned to any one optionee must be paid in cash upon the exercise of the option or options, and such exercise price is not to exceed 150 percent of the regular annual cash compensation being paid to him by American Natural or its subsidiary companies when the option or options are granted to him; (5) the term of any option shall not exceed seven years from the date it is granted; (6) no option may be exercised in whole or in part during the first twelve months after its grant; thereafter, each option shall be exercisable as to no more than one-fourth of the shares originally subject thereto for each twelve months which shall have elapsed after the date upon which it was granted; (7) the Plan shall terminate five years after the date of its approval by the common stockholders of American Natural; and (8) the Plan shall be administered by a committee selected from members of the board of directors of American Natural who are not eligible to receive options under the Plan.

American Natural also proposes to amend its Certificate of Incorporation to release pre-emptive rights as to shares of common stock issued pursuant to any stock option or stock purchase plan, approved by stockholders, for employees of American Natural and its subsidiaries. The company further proposes to solicit proxies, to be voted at the annual and special meeting to be held on April 25, 1962, from the holders of its outstanding shares of common stock for approval of the Plan and the amendment of the Certificate of Incorporation.

The declaration states that under the New Jersey General Corporation Act holders of common stock of the company issued before April 15, 1926, have the right, should they dissent from the adoption of the Plan, to have their shares appraised and to receive cash therefor. In the event that any such stockholders do dissent and obtain the appraised value of their stock, American Natural proposes to acquire their shares and, within 90 days, to sell said shares in ordinary brokerage transactions on the New York Stock Exchange.

Fees and expenses expected to be incurred in connection with the proposed transactions are estimated at $9,000, including counsel fees of $7,500. The declaration states that no State and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 6, 1962, request in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if the

RIDGEWAY CENTER ASSOCIATES

Notice of Application for Exemption

FEBRUARY 16, 1962.

Notice is hereby given that Ridgeway Center Associates, a New York partnership, has filed an application pursuant to Rule 15d-20 of the general rules and regulations under the Securities Exchange Act of 1934 (17 CFR Part 240; 15d-20) for an order exempting the issuer from the operation of section 15(d) of the Act with respect to the duty to file any reports required by that section and the rules and regulations thereunder.

Rule 15d-20 permits the Commission, upon application and subject to appropriate terms and conditions, to exempt an issuer from the duty to file annual and other periodic reports if the Commission finds that all outstanding securities of the issuer are held of record, as therein defined, and the number of such record holders does not exceed 50 persons and that the filing of such reports is not necessary in the public interest or for the protection of investors. The application states that these conditions have been met.

The applicant states that all of the outstanding securities of such issuer are now held of record and the number of such record holders does not now exceed fifty persons. It states further that United Investors Corporation of Delaware, owns all of the limited partnership interests except to the extent of $25,000.00 of such interests which are owned by seven additional persons. The United Investors Corporation, a New York corporation, and wholly owned subsidiary of United Investors Corporation of Delaware, owns all of the general partnership interests of the applicant. The limited and general partnership interests are the only securities of the applicant outstanding. Under the limited partnership interests of the applicant, has the obligation of furnishing annual financial reports to the holders of the limited partnership interests.

Notice is further given that an order granting the application upon such terms and conditions as the Commission may deem necessary or appropriate may be issued by the Commission at any time on or after March 12, 1962 unless prior thereto a hearing is ordered by the Commission.

Any interested person may, not later than March 9, 1962, at 5:30 p.m., submit to the Commission in writing his views on any additional facts bearing upon the application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to convert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-4017]

UNION ELECTRIC CO.

Notice of Proposed Employees' Stock Option Plan and Solicitation of Proxies

FEBRUARY 19, 1962.

Notice is hereby given that Union Electric Company ("Union"), 315 North Twelfth Boulevard, St. Louis 66, Mo., a registered holding company and a public-utility company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 12(e), and 12(f) of the Act and Rules 43 and 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, on file at the office of the Commission, for a statement of the transactions therein proposed which are summarized below.

Union proposes to adopt an "Employees' Savings and Stock Subscription Plan" ("Plan") offering to all regular full-time officers and employees of Union and of its participating subsidiary companies, Missouri Power & Light Company and Missouri Edison Company, nontransferable privileges to subscribe for up to 500,000 shares of Union's previously authorized but unissued common stock. This amounts to 4.38 percent of the 11,402,622 shares of the presently issued and outstanding common stock of Union.

The "effective date" of the Plan will be as soon as practicable after a registration statement filed under the Securities Act of 1933 in respect of the Plan has become effective. The Plan will terminate on a date ("termination date") 6 years after the close of the first subscription period referred to below.

The declaration states that under the Plan, as presently proposed: (1) 400,000 shares would be initially offered during a 30-day period immediately following the effective date of the Plan, and the remaining shares (including those not subscribed for during such initial period) would be offered in two successive periods of 10 days each commencing, respectively, one and two years after the effective date of the Plan; (2) the price during each offering period would be the mean of the high and low prices of Union's common stock on the New York Stock Exchange on the day preceding the commencement of the related offering period; (3) the number of shares offered to any one participant would be limited to an amount whose aggregate price would not exceed one year's salary in effect when he first became eligible to participate under the Plan; (4) subscriptions would be accompanied by a minimum initial cash payment of 10 percent of the total price, with succeeding payroll deductions to be made thereafter equal to at least 7½ percent per month of the total price and which would result in an accumulation of not less than 25 percent of the total price at the termination date; (5) interest at the rate of 4 percent per annum, compounded semiannually, would be paid by Union on each participant's cash accumulations, which interest to be applied toward the purchase price; (6) at the termination date Union will arrange bank loans for participants for the balance then due on the aggregate price of the shares but not exceeding 50 percent of the price, such loans to be repaid within a 6-year period thereafter in cash or through monthly payroll deductions; and (7) the proceeds from such bank loans would be used to complete the payment of the total price, whereupon the shares would be issued and registered in the name of the participant or his nominees, but such shares would be retained by Union or the lending bank until the loan has been repaid.

At any time prior to the termination date, the participant has the right to cancel his participation under the Plan and withdraw his cash accumulation with the accumulated interest thereon, or to receive the number of shares that would be fully paid for at that time by the cash accumulated for his account. Similar rights accrue in the event of cancellation resulting from the death of a participant or his retirement under company retirement plans then in effect. In no event, however, may shares be fully paid for within 12 months, and not more than 50 percent of such shares may be fully paid for within 24 months, after the close of the period in which the subscription was made.

Union also proposes to solicit proxies (for use at the regular annual meeting of stockholders of Union to be held on April 20, 1962, or at any adjournments thereof) from (1) the holders of all the outstanding preferred and common stocks of Union for approval of the Plan and (2) the holders of the outstanding shares of common stock of Union for approval of the offering of 500,000 shares of common stock to all regular full-time officers and employees of Union and its subsidiary companies.

The declaration states that the issuance and sale of the common stock under the Plan is subject to authorization by the Public Service Commission of Missouri and by the Illinois Commerce

Commission; that applications for such authorization are being filed with said Commissions; and that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses incident to the proposed transactions, to be paid by Union, will be supplied by amendment.

It is further given that any interested persons may, not later than March 9, request in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon declarant, and proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) should be filed contemporaneously with the request. At any time after said date, the declaration, as filed or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

No. 39——5

CALIFORNIA

Notice of Amendment of Proposed Withdrawal and Reservation of Lands

FEBRUARY 16, 1962.

Notice of an application Serial No. Sacramento 048741, for withdrawal and reservation of lands, was published as FEDERAL REGISTER Document No. 57-7665 on pages 7490 and 7491 of the issue for Thursday, September 19, 1957. The description of certain lands involved in the proposed withdrawal application is hereby amended to conform to the official survey plats to read as follows:

MOUNT DIABLO MERIDIAN
SIERRA NATIONAL FOREST
Huntington Lake Recreation Area

T. 8 S., R. 26 E.,
Sec. 6: Lots 6 and 7, W½SE¼, NE¼SE¼, E½SW¼.

The applicant agency has added the following lands to the application:

MOUNT DIABLO MERIDIAN
SIERRA NATIONAL FOREST
Neder Grove Recreation Area

T. 6 S., R. 22 E.,
Sec. 7: SE¼NE¼;
Sec. 8: W½SW¼, W½NW¼SE¼, NW¼SW¼SE¼, N½SE¼SW¼.

The above-described land added to the application aggregate approximately 170.00 acres of public land.

WALTER E. BECK, *Manager.*

[F.R. Doc. 62-1857; Filed, Feb. 28, 1962; 8:46 a.m.]

CALIFORNIA

Notice of Proposed Withdrawal and Reservation of Lands; and Partial Termination

FEBRUARY 16, 1962.

The Forest Service, United States Department of Agriculture, has filed an application, Serial No. Riverside 0126, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the Taylor Grazing Act, the mining and mineral leasing laws, and disposals of material under the Act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601-604), as amended, subject to valid existing rights.

The applicant desires the land for use by the Pacific Southwest Forest and Range Experiment Station to provide a field testing area to be used in conjunction with the Western Forest Fire Research Laboratory, a facility adjacent to the campus of the University of California at Riverside.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 1414 Eighth Street, Box 723, Riverside, California.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SAN BERNARDINO MERIDIAN

T. 3 S., R. 1 E.,
Sec. 28, NW¼, E½, N½SW¼, SW¼SW¼;
Sec. 30, E½SW¼, SE¼, S½NE¼SE¼NE¼, NE¼SW¼SE¼NE¼, S½SW¼SE¼NE¼, SE¼SE¼SW¼NE¼, SE¼SE¼NE¼;
Sec. 32, All;
Sec. 34, S½NW¼NW¼;
Sec. 36, SW¼, W½SE¼.
T. 3 S., R. 1 W.,
Sec. 24, Lots 1, 2, 3, 4, 5, 6, 7, 8, and 9;
Sec. 28, E½NE¼, SE¼;
Sec. 32, E½SE¼, SW¼SE¼.
T. 4 S., R. 1 E.,
Sec. 2, Lots 2, 3 and 4, E½SE¼;
Sec. 3, Lots 1, 2, 3 and 4, S½NW¼, SW¼, W½SE¼, SW¼NE¼, N½SE¼NE¼;
Sec. 4, All;
Sec. 5, All;
Sec. 6, Lots 1, 2, 3, 6 and 7, E½W½, S½NE¼, SE¼;
Sec. 7, All;
Sec. 8, All;
Sec. 9, All;
Sec. 10, Lots 3, 4, 5, 6, and 8;
Sec. 16, NE¼, S½S½;
Sec. 17, All;
Sec. 18, All;
Sec. 19, Lots 1, 2 and 3, E½NW¼, N½SW¼, NE¼, N½SE¼;
Sec. 20, N½N½, SE¼NE¼, SE¼SW¼;
Sec. 21, NW¼, NW¼SW¼;
Sec. 22, E½E½, W½SE¼, E½SW¼;
Sec. 26, NW¼, NE¼, W½SW¼, N½NW¼SE¼, N½N½NE¼SE¼;
Sec. 27, E½NE¼, NE¼SE¼;
Sec. 33, S½;
Sec. 34, W½, W½E½, SE¼SE¼;
Sec. 35, NE¼NE¼.
T. 4 S., R. 1 W.,
Sec. 12, All;
Sec. 24, Lots 1, 2, 3, 4, 9, 10, 11, 12 and 13.
T. 5 S., R. 1 E.,
Sec. 11, NW¼, NW¼, N½NW¼SW¼, SE¼NW¼SW¼, NE¼SW¼, N½N½SE¼SW¼, N½SE¼, SE¼SE¼, NE¼SW¼SE¼, N½NW¼SW¼SE¼, SE¼NW¼SW¼SE¼, N½SE¼SW¼SE¼, SE¼SE¼SW¼SE¼.

The above described area contains approximately 12,670.03 acres of Federal land. The lands are located in Riverside County, California.

The following Federal lands which were included in the application filed on January 2, 1962, have been cancelled by the applicant agency. Therefore, pursuant to the regulations contained in 43 CFR Part 295, such lands will be at 10:00 a.m., on March 20, 1962, relieved of the segregative effect of the above mentioned application.

The lands terminated are:

SAN BERNARDINO MERIDIAN

T. 3 S., R. 1 E.,
Sec. 30, N½NE¼NE¼NW¼, N½N½NE¼, N½S½NE¼NE¼.
T. 4 S., R. 1 W.,
Sec. 3, Lots 14, 15, 16, 17, 18, and 19;
Sec. 10, All.

The total area terminated contains approximately 915.32 acres.

ROLLA E. CHANDLER,
Manager.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 20, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37564: *Class rates—Seatrain Lines, Inc.* Filed by Seatrain Lines, Inc. (No. 19), for itself and interested carriers. Rates on various commodities moving on class rates, loaded in containers, and transported over joint water-rail, motor-water-rail, rail-water and rail-water-motor routes of the applicant rail and motor carriers and Seatrain Lines, Inc.

Grounds for relief: Motor-water and water-rail competition.

FSA No. 37565: *Newsprint paper from Pine Bluff, Ark., and Herty, Tex.* Filed by Southwestern Freight Bureau, agent (No. B-8156), for interested rail carriers. Rates on newsprint paper, in carloads, from Pine Bluff, Ark., and Herty, Tex., to Norfolk, Newport News and Richmond, Va.

Grounds for relief: Market competition.

Tariff: Supplement 70 to Southwestern Freight Bureau tariff I.C.C. 4[illegible].

FSA No. 37566: *T.O.F.C.—Class rates from and to Elsinore and Stagg, Ky.* Filed by Western Trunk Line Committee, agent (No. A-2225), for interested rail carriers. Rates on various commodities moving on class rates loaded in trailers and transported on railroad flat cars between Elsinore and Stagg, Ky., on the one hand, and points in western trunk line territory, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 14 to Western Trunk Line Committee tariff I.C.C. A-4379.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

FEDERAL REGISTER

Telephone WOrth 3–3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Executive Order 11006

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN EASTERN AIR LINES, INC., AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the Eastern Air Lines, Inc., a carrier, and certain of its employees represented by the Flight Engineers' International Association, EAL Chapter, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by Section 10 of the Railway Labor Act, as amended (45 U.S.C. 160), I hereby create a board of three members, to be appointed by me, to investigate this dispute. No member of the board shall be pecuniarily or otherwise interested in any organization of airline employees or any carrier.

The board shall report its findings to the President with respect to the dispute within thirty days from the date of this order.

As provided by Section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by Eastern Air Lines, Inc., or by its employees, in the condition out of which the dispute arose.

JOHN F. KENNEDY

THE WHITE HOUSE,
February 22, 1962.

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter IV—The President's Committee on Equal Employment Opportunity

PART 401—NONDISCRIMINATION IN GOVERNMENT EMPLOYMENT

Interpretation

Pursuant to Executive Order 10925 of March 6, 1961 (26 F.R. 1977), 5 C.F.R. 401.19a is amended to read as hereinbelow set out.

This amendment shall be effective upon publication in the FEDERAL REGISTER.

§ 401.19a Interpretation of § 401.19.

Section 401.19 shall be construed as providing the complainant, upon request, with the right to receive a concise and accurate summary of the facts pursuant to his complaint, and upon which the agency relied in reaching a decision, together with a statement of the reasons for the agency action in denying the claim of the complainant. The agency may, in lieu of a summary statement, make available to the complainant the entire report of the agency's investigation of the complaint. In cases in which the complainant or his agent is provided with such summary statement, the Executive Vice Chairman or his representative shall have the right, upon request, to examine all data in the record gathered by the agency pursuant to an investigation of the complaint.

Signed at Washington, D.C., this 20th day of February 1962.

JERRY R. HOLLEMAN,
Executive Vice Chairman.

[F.R. Doc. 62-1915; Filed, Feb. 26, 1962; 8:48 a.m.]

Title 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

[Amdt. No. 31]

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1961 and Succeeding Crop Years

PEAS (CANNING AND FREEZING)

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the above-identified regulations are amended effective beginning with the 1962 crop year for canning and freezing peas in the following respects:

1. The table following paragraph (a) of § 401.3 of this chapter is amended effective beginning with the 1962 crop year for peas by adding the following insertion immediately below that portion of the table showing a closing date for potatoes:

Canning and Freezing Peas	Mar. 1

2. The following section is added:

§ 401.38 The canning and freezing pea endorsement.

The provisions of the canning and freezing pea endorsement for the 1962 and succeeding crop years are as follows:

1. *Causes of loss insured against.* The insurance provided is against unavoidable loss of production due to wildlife, insect infestation, plant disease, earthquake, drought, flood, hail, wind, frost, freeze, heat, lightning, fire, excessive rain, snow, hurricane, tornado and any other unavoidable causes of loss due to adverse weather conditions, subject, however, to any exceptions, exclusions or limitations with respect to such causes of loss that are set forth on the county actuarial table: *Provided, however,* That failure to harvest and market any acreage as green peas when such failure is not due to insurable causes shall not be a cause of loss insured against.

2. *Insured crop.* The insured crop shall be canning and freezing peas grown under a contract of, or for, sale between the insured and a processor executed by the time the acreage to be insured is reported. Insurance shall not be considered to have attached on any field of peas which is not a processor contract field of peas nor on any acreage not under such a contract or on any acreage excluded from such contract for the crop year pursuant to the terms thereof.

3. *Production guarantee and price per pound.* (a) The provisions of section 3 of the policy with respect to guaranteed production and amounts of insurance per acre shall not be applicable under this endorsement. For each crop year of the contract the production guarantee, and the price at which indemnities shall be computed shall be those established by the Corporation and shown on the county actuarial table.

(b) At the time the application for insurance is made the applicant shall elect a price at which indemnities shall be computed from among those shown on the county actuarial table. If any applicant fails to make an election or elects a price not shown on the actuarial table, the price which shall be in effect shall be the amount provided on the county actuarial table for such purposes. As to any succeeding crop year any insured may change the price which was in effect for a prior crop year and make a new election by notifying the county office in writing of such election before contracts are terminated for indebtedness for the crop year for which the election is to become effective. If no such change is made the price at which indemnities shall be computed shall be the price most recently in force under the contract but for any crop year shall not exceed the maximum price as shown on the county actuarial table.

4. *Insurance period.* Insurance on any insured acreage shall attach at the time the insured crop is planted and shall cease upon the earlier of vining, combining (in the case of dry peas), removal from the field, final adjustment of loss, or September 30 of the crop year.

5. *Notice of loss, damage, or failure to harvest.* (a) If, during the growing season, the insured crop on any insurance unit is damaged to the extent that the insured does not expect to further care for the crop or he wants the consent of the Corporation to put the acreage to another use, including letting the acreage go to dry peas, the insured shall promptly give written notice of such damage to the Corporation at the county office.

(b) For any unit on which a loss is probable, written notice shall be given to the Corporation immediately, within 48 hours, if harvesting is discontinued on any acreage before the entire acreage on the unit is harvested for green peas or at the time harvest for green peas should normally be commenced on any unit if the insured does not expect to harvest or is unable to harvest the acreage for green peas.

(c) If an insured loss occurs on any insurance unit the insured shall give prompt written notice to the Corporation at the county office within 15 days after harvesting is completed on the insurance unit.

(d) The Corporation reserves the right to reject any claim for loss if any of the requirements of this section are not met if it determines that it has been prejudiced by such failure.
